

Jean de Kock

Investment Consulting Director for Asia
Mercer

As Investment Consulting Director for Asia, Jean is accountable for prioritizing the needs of Asia-based clients and consultants across segments so that investment research and consulting material can be optimized within the region. As Head of Fixed Income Manager Research for APAC, Jean leads a team responsible for researching fixed income investment strategies managed out of Asia Pacific (“APAC”) and representing Mercer’s views on global fixed income strategies to clients within the region. His focus areas also dictate that he is a voting member on a number of regional and global investment committees within Mercer.

Jean joined Mercer in August 2012 with four years of prior investment operations experience, having previously worked for a fund of hedge funds in London. He spent three years on Mercer Sentinel’s Operational Risk Assessment Team before transferring to Fixed Income Manager Research in July 2015. Jean relocated to Singapore from London in April 2018.

He holds an honours degree in finance and accounting from the University of Cape Town in South Africa, is a CFA® charterholder and has completed the CFA Institute Certificate in ESG Investing.
