FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain statements which are not statements of historical fact and may be described as “forward-looking statements”. These forward-looking statements include statements which can generally be identified by words or phrases such as “aim”, “anticipate”, “are likely”, “believe”, “continue”, “can”, “could”, “expect”, “estimate”, “intend”, “may”, “likely”, “objective”, “plan”, “propose”, “will”, “will continue”, “seek to”, “will achieve”, “will likely”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe the strategies, objectives, plans or goals of our Company are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, plans, revenue and profitability (including, without limitation, any financial or operating projections or forecasts) and other matters discussed in this Draft Red Herring Prospectus that are not historical facts. However, these are not the exclusive means of identifying forward-looking statements.

These forward-looking statements are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. This may be due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the industries we cater to and our ability to respond to them, our ability to successfully implement our strategies, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and globally, which have an impact on our business activities, investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in our industry and incidence of any natural calamities and/or acts of violence.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

1. We have incurred net losses in the past. Any losses in future periods could adversely affect our financial condition, results of operations and cash flows and the trading price of our Equity Shares;
2. As of March 31, 2024, 94.93% of our real estate development projects were located in and around the Mumbai Metropolitan Region and Pune and we are exposed to risks originating from economic, regulatory, political and other changes in this region which could adversely affect our business, results of operations and financial condition;
3. We are exposed to the risks pertaining to land acquisition due to limited supply of land, increasing competition and applicable regulations, which may adversely affect our business, results of operations and financial condition;
4. Our projects have long gestation periods and any delays and cost overruns in relation to our Ongoing Projects, Forthcoming Projects and Planned Projects could adversely affect our business, results of operations and financial condition; and
5. We have not acquired the entirety of the land or rights required to develop two of our Planned Projects. In the event we are unable to acquire all the land required, we may not be able to develop these projects as planned, or at all.

For a further discussion of factors that could cause our actual results to differ from the expectations, see “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 32, 197 and 540, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could be materially different from those that have been estimated. Forward-looking statements reflect our current views as of the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management’s belief and assumptions, which in turn are based on currently available information. Although we believe that the assumptions on which such statements are based are reasonable, any such assumptions as well as statements based on them could prove to be inaccurate and the forward looking statements based on these assumptions could be incorrect.

We cannot assure Bidders that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, Bidders are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Neither our Company, our Promoters, our Directors, nor the members of the Syndicate or any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company and the BRLMs will ensure that Bidders in India are informed of material developments, which may have a material effect on our Company from the date of this Draft Red Herring Prospectus until the time of the grant of listing and trading approvals by the Stock Exchanges.

Our Company’s financial year commences on April 1 and ends on March 31 of the immediately subsequent year. Unless otherwise indicated or the context otherwise requires, the financial information for the Financial Years 2024, 2023 and 2022 included herein is derived from the Restated Consolidated Financial Information included in this Draft Red Herring Prospectus.

INTERNAL RISK FACTORS

- We have incurred net losses in the past. Any losses in future periods could adversely affect our financial condition, results of operations and cash flows and the trading price of our Equity Shares.*

Set out below are details of our profit/(loss) for the year in the Financial Years 2024, 2023 and 2022:

Particulars	For the Financial Year		
	2024	2023	2022
	(<i>₹ in millions</i>)		
Profit/(loss) for the year	(1,138.06)	(2,267.87)	(1,215.49)

We have incurred losses for the Financial Years 2024, 2023 and 2022, primarily due to the manner in which we recognize revenue under our accounting policies under Ind AS 115, pursuant to which we recognize revenue based on the fulfilment of performance obligations as set out in the contracts with our customers. Revenue for certain projects is recognized at a “point in time”, i.e., when the customer obtains control of the promised assets which is linked to occupancy certificate of the project. However, all expenses related to sales, marketing and administration are charged to profit and loss account during the year of incurrence. Also see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Material Accounting Policies – Revenue recognition*” on page 555. In addition, we have experienced increases in our cost of sales and other operational expenses, among others, which have resulted in our total expenses exceeding our total income (as recognized under Ind AS) for such Financial Years. For further information, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on page 540.

We expect our expenses to increase over time and we may incur losses given the investments expected towards growing our business. These efforts may be more costly than we expect and may not result in increased revenue or growth in our business. Any failure to increase our revenue sufficiently to keep pace with our investments and other expenses could prevent us from maintaining or increasing profitability or generating positive cash flow on a consistent basis. If we are unable to generate adequate revenue growth and manage our expenses and cash flows, we may incur further losses in the future. If we are unable to successfully address these risks and challenges as we encounter them, our business, cash flows, financial condition and results of operations could be adversely affected along with an effect on the trading price of our Equity Shares.

- As of March 31, 2024, 94.93% of our real estate development projects were located in and around the Mumbai Metropolitan Region and Pune and we are exposed to risks originating from economic, regulatory, political and other changes in this region which could adversely affect our business, results of operations and financial condition.*

As of March 31, 2024, March 31, 2023 and March 31, 2022, 94.93%, 94.93% and 95.00% of our real estate development projects were located in and around the Mumbai Metropolitan Region (“MMR”) and Pune, which may perform differently from, and may be subject to market conditions and regulatory developments that are different from, real estate markets in other parts of India or the world. The tables below set forth the number of our Ongoing Projects, Forthcoming Projects and Planned Projects across India along with the Developable Area of these projects as of March 31, 2024, March 31, 2023 and March 31, 2022, respectively.

The real estate market in the MMR and Pune may be affected by various factors beyond our control, such as prevailing local social, political and economic conditions, limited availability of land, changes in the supply and demand for properties comparable to those we develop, lack of financing for real estate projects, construction costs, change in demographic trends, employment and income levels, rising interest rates, changes in the applicable governmental regulations and related policies, decrease in or restrictions on foreign currency remittances, regional natural disasters, pandemics, performance of key industrial sectors, or the public perception that any of these events may occur. See “*Industry Overview – Specific Challenges in Mumbai MMR*” on page 194. While our operations have not been materially affected by such factors during the Financial Years 2024, 2023 and 2022, we cannot assure you that adverse developments arising from such factors will not occur in the future.

We cannot assure you that the demand for our projects in and around the MMR and Pune will grow, or will not decrease, in the future. Our business, financial condition and results of operations have been, and will continue to be, largely dependent on the performance of, and the prevailing conditions affecting, the real estate market in and around the MMR and Pune. For details of our projects, see “*Our Business*” on page 197. We also face competition from our peers in these real estate markets. As such, any slowdown in construction activity in the MMR and Pune, or the surrounding areas, or any circumstances that make projects in and around the MMR and Pune less economically beneficial, our business, results of operations and financial condition may be adversely affected.

3. We are exposed to the risks pertaining to land acquisition due to limited supply of land, increasing competition and applicable regulations, which may adversely affect our business, results of operations and financial condition.

The supply of land in the MMR and Pune is limited and highly competitive. According to the Anarock Report, the geographical constraints and high population density limit available land for new developments and redevelopment of old buildings is complex and time-consuming due to legal and regulatory hurdles. See “*Industry Overview – Specific Challenges in Mumbai MMR*” on page 194. Further, according to the Anarock Report, in some urban areas, the market may become saturated with too many residential projects, leading to intense competition and price wars; and competition from emerging markets and new developers can impact established players. Intensified competition between property developers and real estate investment funds may result in increased land prices, oversupply of properties, lower real estate prices, and lower sales at our properties. Further, we evaluate potential projects in a number of upcoming cities in

India. Our ability to identify and acquire interests in suitable land parcels is a vital element of growing our business and is dependent on a number of factors, some of which may be beyond our control, such as identifying land with clean title at locations that are preferred by our target customers at suitable prices, the willingness of land owners to sell land or assign development rights or interest in the land on terms acceptable to us, our ability to acquire contiguous parcels of land, the availability and cost of financing, encumbrances on targeted land, Government directives on use of land, and consents and approvals for land acquisition and development. Our acquisition of interests in land is also subject to the risk that sellers may, during such time, identify and transact with alternative purchasers or decide not to sell the land. See “*Industry Overview – Threats and Challenges in Indian Residential Real Estate Sector*” on page 193.

While we have not faced any such instances that materially affected our operations due to the foregoing during the Financial Years 2024, 2023 and 2022, there can be no assurance that we will be able to continue to acquire land at reasonable prices, or at all. The failure to acquire targeted land may cause us to modify, delay or abandon entire projects, which in turn could adversely affect our business, results of operations and financial condition. In addition, the use and development of land is subject to regulations by local authorities. For example, if a specific parcel of land has been deemed as agricultural land, no commercial or residential development is permitted without the prior approval of the local authorities. Such restrictions could lead to further shortage of developable land which may lead to an increase in the prices of available developable land. We may not be able to pass on such high cost of land to our customers or develop projects that are attractively priced for customers, while ensuring our profitability.

Further, in connection with the acquisition of land, disputes may arise between the local government and residents with respect to the applicable compensation payable, or refusal of the residents to relocate. Such disputes could delay the resettlement process and the land acquisition and development process. Although we have not experienced such disputes in the Financial Years 2024, 2023 and 2022, we cannot assure you that we will not experience such disputes in the future, or if we experience such disputes, that such disputes would be resolved in a timely manner or at all. Any such disputes in the future could adversely affect our business, results of operations and financial condition.

4. *Our projects have long gestation periods and any delays and cost overruns in relation to our Ongoing Projects, Forthcoming Projects and Planned Projects could adversely affect our business, results of operations and financial condition.*

Real estate projects take a substantial amount of time to develop. There could be delays and cost overruns in relation to our Ongoing Projects, Forthcoming Projects and Planned Projects and we cannot assure you that we will be able to complete these projects within the expected budgets and time schedules. Our Ongoing Projects, Forthcoming Projects and Planned Projects may be subject to significant changes and modifications from our currently estimated management plans and timelines as a result of factors outside our control, including, among others:

- defects or challenges to our land titles, including failure or delay in obtaining consent of current occupants for development and redevelopment purposes;
- expiration of agreements to develop land or leases, and our inability to renew them in time or at all;
- lack of availability of financing;
- failure or delay in securing necessary statutory or regulatory approvals and permits for us to develop some of our projects;
- natural disasters and weather conditions;
- outbreak of infectious diseases, such as COVID-19;
- reliance on third-party contractors and the ability of third parties to complete their services on schedule and in budget;
- the risk of decreased market demand subsequent to the launch of a project;
- changes in local development regulations;

- failure of partners to fulfil obligations in a timely manner; and
- legal proceedings initiated against us, landowners or development partners by any persons or regulatory authorities seeking to restrain development of our projects.

While our operations have not been materially affected by such factors during the Financial Years 2024, 2023 and 2022, except for the industry-wide effects of the COVID-19 pandemic, which led to delays in construction due to movement and other restrictions, we cannot assure you that adverse developments arising from such factors will not occur in the future. Such changes and modifications to our timelines may have a significant effect on our Ongoing Projects, Forthcoming Projects and Planned Projects, and consequently, we may not develop these projects as contemplated, including timely monetization of land parcels after their acquisition, or at all, which may have an adverse effect on our business, results of operations, financial condition and cash flows.

Some of our customers of our Completed and Ongoing Projects have alleged delays in the handover of possession of residential units in the past and have initiated litigation. See “*Outstanding Litigation and Material Developments*” on page 577. In the event of delays in completion in the future, we may be exposed to litigation and penalties under the RERA. Such compensation and penalties may affect the overall profitability of the project and adversely affect our business, results of operations and financial condition. Further, customers for our residential and/or commercial units may also terminate their arrangement with us if we fail to deliver the unit in a timely manner, and we may be liable to refund the amount along with interest. While we have not had to refund any amounts with interest due to delays in the delivery of residential units in the Financial Years 2024, 2023 and 2022, we cannot assure you that we will be able to complete our Ongoing Projects, Forthcoming Projects and Planned Projects within the expected budget and time schedule in the future. Any delays and cost overruns could adversely affect our business, results of operations, financial condition and cash flows.

5. *There are outstanding litigation proceedings involving our Company, Subsidiaries, Joint Ventures, Associate, Group Companies, Directors and Promoters and an adverse outcome may adversely affect our reputation, business, financial condition, results of operations and cash flows.*

There are outstanding legal proceedings involving our Company, Subsidiaries, Joint Ventures, Associate, Group Companies, Directors and Promoters, which are pending at varying levels of adjudication at different forum. Such proceedings could divert management time and attention and consume financial resources in their defence or prosecution. The amounts claimed in these proceedings have been disclosed to the extent ascertainable and quantifiable and include amounts claimed jointly and severally from our Company, Subsidiaries, Joint Ventures, Associate, Group Companies, Directors and Promoters. The table below sets forth details of outstanding matters including outstanding criminal proceedings, tax proceedings, statutory and regulatory actions and other material pending litigation involving our Company, Subsidiaries, Joint Ventures, Associate, Group Companies, Directors and Promoters.

***Includes claims and complaints before the real estate authorities.

Further, Corporate Stationery Private Limited ("CSPL"), which is a member of our Promoter Group and a Group Company, has been directed by the Directorate of Enforcement, pursuant to two letters dated March 23, 2022 and May 2, 2022, to furnish certain details including imports, exports and bank accounts maintained by CSPL in relation to compliance under FEMA. CSPL has furnished available details and documents sought for and has not received any further communication in this regard.

We cannot assure you that any of these matters will be settled in favour of our Company, Subsidiaries, Joint Ventures, Associate, Group Companies, Promoters, or Directors, respectively, or that no additional liability will arise out of these proceedings. An adverse outcome in any of these proceedings may have an adverse effect on our reputation, business, financial condition, results of operations and cash flows. For further details, see "Outstanding Litigation and Material Developments" on page 577.

6. We have not acquired the entirety of the land or rights required to develop two of our Planned Projects. In the event we are unable to acquire all the land required, we may not be able to develop these projects as planned, or at all.

We have not acquired the entirety of the land or rights required to develop two (comprising 5.11% of the total Developable Area) of our Planned Projects. Further, for our projects such as *Kalpataru Greenvale* (Dongargaon, Pune) and *Kalpataru Orion* (Fursungi, Pune), we have not yet received change in land use orders for the entire land of the projects. In the event we are unable to acquire all the land or rights required (including change in land use orders), we may not be able to develop these projects in accordance with our

plans, or at all. If this occurs, we may be required to incur additional cost or time to rework and change our development plans for these projects and our total estimated Saleable Area may decrease. Further, we may be unable to change our development plans and these projects may become unviable, resulting in partial or complete loss of the costs incurred in acquiring the existing land for these projects, which may have an adverse effect on our reputation, business, results of operations and prospects.

7. ***As of March 31, 2024, 95.49% of the total Developable Area and 97.39% of our total Sales across our Ongoing Projects, Forthcoming Projects and Planned Projects are attributable to residential projects. We depend significantly on our residential development business which is subject to needs and preferences of our customers. Our failure to continually anticipate and respond to customer needs may affect our business and results of operations.***

We depend significantly on our residential development business. The tables below provide the Developable Area of residential projects under our Ongoing Projects, Forthcoming Projects and Planned Projects as of March 31, 2024, 2023 and 2022, and the sales value of residential projects during the Financial Years 2024, 2023 and 2022, respectively.

Sales value of residential projects	31,183.72	97.39	28,691.32	97.02	20,929.76	99.00

We categorize our residential developments into luxury, premium and mid-income residential housing categories. As part of our growth strategy, we intend to increase our focus on all categories of residential projects. For further information, see “Our Business — Our Strategies — Continue to focus on all segments of residential projects while selectively developing retail, commercial and other projects as part of mixed use developments” on page 210. We rely on our ability to understand the preferences of our customers, particularly in the MMR and Pune, in each of these segments and to accordingly develop projects that suit their preferences. While customer preferences across the various price segments vary significantly, any inability to provide our customers with quality construction in a timely manner or at all, or our failure to continually anticipate and respond to customer needs, may affect our business and results of operations.

8. ***Our commercial and retail real estate businesses are dependent on our ability to provide high quality space to our customers, forecast demand, and enter into suitable leasing arrangements. Our inability to do so may adversely affect our business, results of operations and cash flows.***

The tables below provide the Developable Area of commercial real estate projects under our Ongoing Projects, Forthcoming Projects and Planned Projects as of March 31, 2024, 2023 and 2022, and the sales value of such projects during the Financial Years 2024, 2023 and 2022, respectively.

Particulars	As of March 31,					
	2024		2023		2022	
	Developable Area (in msf)	% of total Developable Area	Developable Area (in msf)	% of total Developable Area	Developable Area (in msf)	% of total Developable Area
Developable Area of commercial projects (including commercial component of mixed use developments)	2.25	4.51	2.25	4.51	2.25	4.45

Particulars	For the Financial Year					
	2024		2023		2022	
	(₹ in millions)	% of total Sales	(₹ in millions)	% of total Sales	(₹ in millions)	% of total Sales
Sales value of commercial projects	836.11	2.61	882.52	2.98	211.52	1.00

Our commercial real estate business is focused on the development of commercial space, including the sale and lease of commercial space. Our growth and success will depend on the provision of high quality commercial space to attract and retain customers who are willing and able to lease or purchase these developments at suitable levels, and on our ability to anticipate the future needs and expansion plans of such customers. We incur significant costs for the integration of modern fittings, contemporary architecture and landscaping, as well as the security, telecommunications, broadband and wireless systems expected by our customers. Our ability to pass these costs on to commercial customers will depend upon a variety of market factors beyond our control.

We did not have any retail real estate projects under our Ongoing Projects, Forthcoming Projects and Planned Projects as of March 31, 2024, 2023 or 2022. In order to successfully operate retail developments, we are required to forecast market demand accurately, as well as enter into leasing arrangements with popular retailers. We believe that in order to draw consumers away from traditional shopping environments such as small local retail stores or markets as well as from competing centres, we need to create demand for our retail developments where consumers can take advantage of a variety of consumer and retail options, such as large department stores and shopping complexes with designer stores, with comprehensive entertainment facilities, including multiplexes, restaurants and bars, gaming zones, air conditioning and adequate parking facilities. Further, to help ensure our shopping centres' success, we must secure suitable anchor tenants and other retailers as they play a key role in generating customer traffic. A decline in consumer and retail spending or a decrease in the popularity of the retailers' businesses could cause retailers to cease operations or experience significant financial difficulties that in turn could reduce our ability to continue to attract successful retailers and visitors to our projects.

Although we have not faced any instance of decrease in demand where our commercial and retail real estate operations were materially affected during the Financial Years 2024, 2023 and 2022, any such instance in the future could adversely affect our business, results of operations and cash flows.

9. *We have had net negative cash flows in the past and any negative cash flows in the future could adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth strategies.*

We have had net negative cash flows during the Financial Years 2024, 2023 and 2022, as set out below:

Particulars	For the Financial Year		
	2024	2023	2022
	(₹ in millions)		
Net cash generated from operating activities (A)	3,764.61	21,391.25	4,022.25
Net cash generated from / (used in) investing activities (B)	(1,325.33)	(319.48)	1,043.40
Net cash generated from / (used in) financing activities (C)	(2,579.29)	(21,010.11)	(5,135.10)
Net changes in cash and cash equivalents (A + B + C)	(140.01)	61.66	(69.45)

We experienced negative cash flows in relation to investing activities during the Financial Years 2024 and 2023, primarily due to investments in fixed deposits and investments in current accounts of partnership firms/LLPs, and negative cash flows in relation to financing activities during the Financial Years 2024, 2023 and 2022, primarily due to repayment of non-current borrowings and finance costs on our borrowings. For further details, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Cash Flows*” on page 567. While we reported net cash generated from operating activities in the Financial Years 2024, 2023 and 2022, we had a net decrease in cash and cash equivalents in the Financial Years 2024 and 2022 of ₹140.01 million and ₹69.45 million, primarily due to significant cash outflows from investing and financing activities. We cannot assure you that our net cash flows will be positive in the future. Sustained negative cash flows could adversely affect our ability to operate our business and implement our growth strategies.

10. Our business is capital intensive and requires significant expenditure. Limitations imposed on us due to our indebtedness or our inability to procure additional indebtedness could adversely affect our ability to conduct our business and operations or pursue our growth strategy.

Our business is capital intensive and requires significant expenditure for land acquisition and project development. Details of our total borrowings as of March 31, 2024, 2023 and 2022 are set out below:

Particulars	As of March 31,					
	2024		2023		2022	
	(₹ in millions)	(% of total borrowings)	(₹ in millions)	(% of total borrowings)	(₹ in millions)	(% of total borrowings)
Secured borrowings	86,712.92	81.13	80,532.76	83.20	81,742.77	78.86
Unsecured borrowings	20,170.17	18.87	16,263.67	16.80	21,916.88	21.14
Total borrowings	106,883.09	100.00	96,796.43	100.00	103,659.65	100.00

Our level of debt and the limitations imposed by our current or future loan arrangements could have adverse consequences, including, but not limited to, the following:

- we may be required to dedicate a portion of our cash flow towards the servicing of our existing debt, which will reduce the availability of our cash flow to fund working capital, capital expenditures, land acquisitions and other general corporate requirements;
- our ability to obtain additional financing for working capital, capital expenditure, land acquisition or general corporate purposes may be impaired;
- fluctuations in market interest rates may adversely affect the cost of our borrowings;
- our ability to satisfy our obligations under our financing agreements may be limited;
- our indebtedness could place us at a competitive disadvantage compared to our competitors that may have proportionately less debt; and
- our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate may be limited.

Any of these factors may affect our ability to conduct our business and operations or pursue our growth strategy. Further, the amounts under our unsecured borrowings can be recalled by the lenders at any time. While we have not faced any recalls during the Financial Years 2024, 2023 and 2022, there is no assurance that such borrowings will not be recalled in the future. In the event that any lender seeks a repayment of any such loan, we would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. We may not have adequate working capital to undertake new projects or complete the Ongoing Projects, and, as a result, any such demand by the lenders may affect our business, cash flows, financial condition and results of operations.

If our future cash flows from operations and other capital resources are insufficient to pay our debt obligations or our contractual obligations, or to fund our other liquidity needs, we may be forced to sell assets or restructure or refinance our existing indebtedness. Our ability to restructure or refinance our debt will depend on the condition of the debt markets, prevailing regulations, capital markets, our financial condition at such time and the terms of our other outstanding debt instruments. The terms of existing or future debt instruments may restrict us from adopting some of these alternatives, which could harm our ability to incur additional indebtedness on acceptable terms, or at all. Any of the foregoing could adversely affect our business, cash flows, financial condition and results of operations.

11. Our operations are labour intensive, and we may be subject to strikes, work stoppages, increased wage demands or high attrition, which could adversely affect our business, results of operations and financial condition.

Our operations are labour intensive, making us susceptible to strikes, work stoppages, increased wage demands or high attrition. These disruptions could affect our ability to maintain regular operations at our project sites and could lead to higher labour costs. Further, our business may also be adversely affected by high attrition.

If we or our contractors are unable to negotiate with the labour force or their sub-contractors, it could result in work stoppages or increased operating costs as a result of higher than anticipated wages or benefits. During periods of shortages in the supply of labour, we may not be able to complete projects according to our previously determined time frames, at our previously estimated project costs, or at all, which may adversely affect our business, results of operations and financial condition.

In addition, during periods where labour costs significantly increase, we may not be able to pass these price increases on to our customers, which could reduce or eliminate the profits we intend to gain from our projects. While we have not faced any such instances wherein our operations were materially affected due to inadequacy of or increase in operating costs for the work force at our project sites during the Financial Years 2024, 2023 and 2022, any such instance in the future could adversely affect our business, results of operations and financial condition.

Presently, our workforce is not unionized. However, if a substantial portion of our workforce were to become unionized in the future, our labour costs could rise. Compliance with labour laws and the negotiation of collective agreements might result in increased financial commitments.

Further, India has strict labour legislation designed to safeguard worker interests, particularly concerning dispute resolution, and the removal of employees. We are subject to laws and regulations governing various aspects of our relationship with our employees and personnel engaged on a contractual-basis, encompassing minimum wages, working hours, working conditions, hiring and termination practices, and work permit authorization. See also “*Key Regulations and Policies in India*” on page 238. While we have not had any past instances of strikes or labour unrest during the Financial Years 2024, 2023 and 2022, we cannot assure that such disruptions will not arise in the future due to disputes or unrest among our workforce. Any of the foregoing could adversely affect our business, results of operations and financial condition.

12. *Redevelopment projects are subject to risks involving existing tenants, occupants and applicable Government regulations which may affect our project completion times and costs, and adversely affect our business, results of operations and cash flows.*

As of March 31, 2024, four of our Ongoing Projects and three of our Forthcoming Projects are redevelopment projects. The tables below provide the Developable Area of our redevelopment projects as of March 31, 2024, 2023 and 2022, and the Sales generated from such projects during the Financial Years 2024, 2023 and 2022, respectively.

As of March 31, 2024, under the redevelopment agreements entered into by us with housing societies and land owners for our Ongoing Projects and Forthcoming Projects, we have paid ₹5.50 million as refundable

deposit and ₹2,457.10 million as compensation to the members of the housing societies and land owners under the terms of the respective redevelopment agreements. As we have committed to a time frame within which we are required to hand over the completed units to members of the housing societies, we may be liable for damages from the date of expiry of the stated period until the date we offer possession of the units, apart from the additional rent payable for the alternate premises during such period of delay. Additionally, the security deposit made by us may be forfeited in the event we fail to honour our commitments or obligations under the redevelopment agreements. While we have not been required to forfeit or refund such security deposits during the Financial Years 2024, 2023 and 2022, we cannot assure you that such instances will not occur in the future, which could adversely affect our business, financial condition, results of operations and cash flows.

We are also required, in certain cases, to provide a bank guarantee for the completion of the project in accordance with the redevelopment agreement. In the event we fail to offer possession of the units within the time period stipulated under the agreement, these housing societies and land owners would be entitled to terminate the agreement and invoke the bank guarantee and all the amounts paid by us under the agreement may stand forfeited. Additionally, if the floor space index (“FSI”) for our developments is decreased pursuant to changes in the applicable law, the demand for the relevant projects may decline and our profits from such projects will be adversely affected.

Moreover, our ability to obtain suitable sites for our redevelopment projects in and around the MMR and Pune in the future, and our cost to acquire land development rights over such sites, could be adversely affected by any changes to the applicable Governmental regulations. Further, these projects require, among other things, obtaining consent from at least 51.00% of the tenants/members, consensus between their various groups, and providing accommodation to them during the interim period of obtaining consents, demolition and construction.

According to the Anarock Report, the major challenges identified with redevelopment projects are (i) stakeholder management; (ii) disagreements among residents delay selection of a developer; (iii) lack of proper land ownership documents, which hinders private society redevelopment; (iv) negotiation challenges; (v) changes in FSI allowance and development plans, which may impact project timelines, especially in SRA projects; (vi) trust, accountability and financial stability issues that arise with non-branded developers; and (vii) maintaining construction quality. Delays in any of these activities or on account of these factors may have adverse financial implications. Any delay in the construction or prolonged construction period will lead to increased costs and will affect our profitability.

13. *Disruption or fluctuation in supply or prices of key building materials could affect our estimated construction cost and timelines resulting in cost and time overruns, thereby adversely affecting our results of operations and financial condition.*

We procure building materials, such as steel, cement, ready mix concrete, flooring products, hardware, bitumen, sand and aggregates, doors and windows, bathroom fixtures and other interior fittings, for our projects from third-party suppliers. The prices and supply of basic building materials and other raw materials depend on factors outside our control, including cost of raw materials, high demand, general economic conditions, geo-political conditions, regulatory changes and controls, competition, indirect taxes and import duties. Our ability to develop and construct projects profitably is dependent on our ability to obtain adequate and timely supply of building materials within our estimated budget and according to our quality requirements. As we procure these raw materials from third party vendors, we are exposed to fluctuations in prices of and inordinate delays in supply of such raw materials, which in turn may affect our results of operations and financial condition. For instance, in the Financial Year 2023, we experienced a fluctuation in the prices of aggregates (required for reinforced cement concrete production), primarily due to transporter strikes across India and adverse effects of the Israel-Hamas conflict. Further, we were not able to procure reinforced cement concrete due to a strike by transporters across India in Financial Years 2023 and 2024. We may also potentially face delays in the timely procurement of our building materials from Europe due to potential closures of the Suez Canal caused by geopolitical upheavals, such as the Israel-Hamas conflict.

Further, we do not have long-term agreements with our raw material suppliers and typically procure materials on the basis of purchase orders. While we have not faced any such instances during the Financial Years 2024, 2023 and 2022, if our primary suppliers of construction materials curtail or discontinue their delivery of such materials to us in the quantities we need and at reasonable prices, our ability to meet our materials’ requirements for our projects could be impaired, our construction schedules could be disrupted,

and we may incur time overruns. Any of the foregoing could adversely affect our results of operations and financial condition.

14. *Our operations and the work force on project sites are exposed to a variety of hazards which may adversely affect our business, financial condition and results of operations.*

We conduct site studies to identify potential risks prior to the acquisition of any parcel of land and its construction and development. However, there are unanticipated or unforeseen risks that may arise due to adverse weather and geological conditions such as storms, hurricanes, lightning, floods, landslides, rockslides and earthquakes and other reasons. Additionally, our operations are subject to hazards inherent in providing such services, such as risk of equipment failure, impact from falling objects, collision, work accidents, fire, or explosion, including hazards that may cause injury and loss of life, severe damage to and destruction of property and equipment, and environmental damage. Accidents and, in particular, fatalities may have an adverse effect on our reputation and may result in fines and/or investigations by public authorities as well as litigation from injured workers or their dependents.

While our workers have not faced any loss of life or severe injuries in the Financial Years 2024, 2023 and 2022 at our project sites, if any one of such hazards or other hazards were to occur involving our workforce, customers and/or third parties on project sites, our business, financial condition and results of operations may be adversely affected. Further, we may incur additional costs for reconstruction of our projects which are damaged by hazards which may not be covered adequately or at all by the insurance coverage we maintain, and this may adversely affect our business, financial condition and results of operations.

15. *Our Statutory Auditors have included matters of emphasis and negative observations in their audit reports on our audited consolidated financial statements for the past three Financial Years.*

The statutory auditors' reports (including their examination report) on the Restated Consolidated Financial Information were not modified in respect of the above matter.

We cannot assure you that our audit reports for any future periods or Financial Years will not contain qualifications, matters of emphasis or other observations, including any observations that may have an effect on our financial statements and which could adversely affect our financial condition and results of operations. For further details, see "Restated Consolidated Financial Information" and "Management's Discussion and Analysis of Financial Condition and Results of Operations – Qualifications, Matters of Emphasis and Adverse Observations" on pages 335 and 570, respectively.

*“NA” indicates the audited financial data for this period is not available.

Sustained losses by such Group Companies could negatively affect our reputation, and any requirement for us to provide financial support to such Group Companies in the future could adversely affect our business, financial condition, results of operations and cash flows.

17. We have incurred penalties in relation to compliance with our debt financing arrangements in the past and our future inability to meet our obligations under our debt financing arrangements could adversely affect our business, results of operations, financial condition, and cash flows.

Details of our total borrowings as of March 31, 2024, 2023 and 2022 are set out below:

Particulars	As of March 31,		
	2024	2023	2022
	(₹ in millions)		
Total borrowings	106,883.09	96,796.43	103,659.65

Our financing agreements include covenants and other conditions that impose restrictions on our operations, such as, restrictions on utilization of the loan for specified purposes, and the requirement to obtain prior consent from some of our lenders or debenture trustees for, among others:

- amending our constitutional documents,
- changing our capital structure or shareholding pattern,
- changing the composition of our Board of Directors,
- changes in our Promoters’ shareholding in our Company,
- the issuance of further Equity Shares or preference shares,
- undertaking a scheme of arrangement in respect of any merger, amalgamation, demerger, compromise or reconstruction, or

- concluding any fresh borrowing arrangement, whether secured or unsecured, with any other bank or financial institution or otherwise.

These covenants vary depending on the requirements of the financial institution extending the loan and the conditions negotiated under each financing document, and may restrict or delay actions or initiatives that we may propose to take from time to time. Also see “*Financial Indebtedness*” on page 574.

As of the date of this Draft Red Herring Prospectus, we have received all requisite approvals from the relevant lenders in connection with the Issue. However, HDFC Bank Limited, which is one of our lenders, has provided its conditional approval, with conditions that include (i) receipt of consent for conversion of certain ‘Class II Land’ held by our Subsidiary, Agile Real Estate Private Limited, to ‘Class I Land’ from the relevant governmental authority by September 30, 2024, and (ii) creation of a mortgage over such ‘Class II Land’ in favour of the lender within specified timelines.

We have also received a notice dated February 1, 2023 from HDFC Limited (now known as HDFC Bank Limited), in relation to payment of arrears and overdue amounts in respect of certain loans availed from the lender. However, pursuant to a master restructuring agreement dated June 27, 2023, the loans were restructured and rescheduled and there has been no default (as per the Insolvency and Bankruptcy Code, 2016). Also, the lender had waived all the penal charges / interest accrued on the facilities as per the said master restructuring agreement. For details, see “*History and Certain Corporate Matters - Defaults or rescheduling/ restructuring of borrowings with financial institutions/banks*” on page 253. We cannot assure you that we will not face any instances of a lender calling an event of default, enforcing security or recalling loans in the future due to non-compliance with covenants under our financing arrangements, or that we can obtain necessary waivers for non-compliances or remedy defaults in time or at all. We have incurred penalties during the Financial Years 2024, 2023 and 2022 of ₹13.44 million and during the three-month period ended June 30, 2024 of ₹0.04 million, in relation to delayed payments under outstanding borrowings availed by our Subsidiaries from banks and other financial institutions.

Any failure by us to maintain the required security interests, comply with the covenants, obtain required consents or otherwise perform our obligations under our financing agreements could lead to a termination of one or more of our credit facilities, trigger default provisions, result in penalties and acceleration of amounts due under such facilities. Additionally, as some of our borrowings are secured against some of our assets, lenders may be able to take control of and sell those assets. If pursuant to any such non-compliance in the future, the lenders exercise their right to recall a loan, it could have an adverse effect on business, results of operations, financial condition, and cash flows. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could adversely affect our business, results of operations, financial condition, and cash flows.

18. *There have been instances of delays in payment of employee-related statutory dues by our Company in the past. Any failure or delay in payment of such statutory dues may expose us to statutory and regulatory action, as well as significant penalties, and may adversely affect our business, results of operations, cash flows and financial condition.*

Our Company is required to pay statutory dues, including, among others, provident fund contributions and employee state insurance contributions under the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952 and the Employees’ State Insurance Act, 1948, respectively, and professional taxes and labour welfare fund charges.

The aforementioned delays in payment of certain statutory dues for Financial Year 2022 and 2023 were on account of cash flow mismatch together with the impact of COVID-19 pandemic. Further, the delays in Financial Year 2024 was on account of cash flow mismatch.

While our Company has subsequently made payment of all pending statutory dues, we cannot assure that we will not incur delays in payment of statutory dues in the future. Further, any failure or delay in payment of such statutory dues may expose us to statutory and regulatory action, as well as significant penalties, which may adversely affect our business, results of operations, cash flows and financial condition.

19. *It is difficult to compare our performance between periods, as our revenues from operations and expenses fluctuate significantly from period to period.*

Our income across time periods may fluctuate significantly due to a variety of factors, including the size and number of our developments, execution of agreements and/or contracts with buyers and general market conditions. Variation of project timelines due to project delays and estimates may also have an adverse effect on our ability to recognize revenue in a particular period. As a result of one or more of these factors, we may record significant revenue from operations or profits during one accounting period and significantly lower revenue from operations or profits during prior or subsequent accounting periods. The table below provides our revenue from operations for the Financial Years 2024, 2023 and 2022, also presented as a percentage of our total income:

Particulars	For the Financial Year					
	2024		2023		2022	
	(₹ in millions)	% of total income	(₹ in millions)	% of total income	(₹ in millions)	% of total income
Revenue from operations	19,299.84	95.08	36,331.82	97.76	10,006.73	80.15

We recognize revenue based on the fulfilment of performance obligations as set out in the contracts with our customers, which is further described in Note 2(i)(l) of our Restated Consolidated Financial Information. Also see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Material Accounting Policies – Revenue recognition*” on page 555.

The estimate of costs are reviewed periodically by our management and any effect of changes therein is recognized in the period in which changes are determined. Our cost estimates are affected by, among other things, volatility in expenses comprising the costs to acquire land and development rights, construction costs, costs in relation to regulatory approvals and premiums, and finance costs. Such changes may in turn affect the profit recognized during the same Financial Year. Further, the periods discussed in our financial statements included in this Draft Red Herring Prospectus may not be comparable to future periods, and our results of operations and cash flows may vary significantly from period to period, year to year and over time. For instance, we have experienced changes in certain items in our Restated Consolidated Balance Sheet and Restated Consolidated Statement of Profit and Loss between the Financial Years 2022 and 2023, and the Financial Years 2023 and 2024, due to the acquisition of two Material Subsidiaries, Agile Real Estate Private Limited and Kalpataru Properties Private Limited on March 31, 2022, which led to their income and expenses being consolidated with effect from Financial Year 2023, in accordance with Ind AS. These Material Subsidiaries contributed significantly to our income from Financial Year 2023 onwards, which also resulted in a corresponding increase in our expenses. In addition, we had one-off sales of land parcels in Thane and Pune in Maharashtra, along with the sale of certain fixed assets in Nashik, Maharashtra, during the Financial Year 2023, which we did not experience during the Financial Years 2022 or 2024. Also see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on page 540. As a result of the foregoing, we believe that period-to-period comparisons of our results of operations may not be indicative of our future performance.

20. *Certain of our corporate records, filings and instruments of transfer are not traceable. We cannot assure you that legal proceedings or regulatory actions will not be initiated against us in the future, or that we will not be subject to any penalty imposed by the competent regulatory authority in relation to such discrepancies.*

We have not been able to trace certain of our Company’s corporate records and regulatory filings, as set out below:

S. No.	Particulars	Relevant form/document not available
1.	Minutes of the first board of directors meeting of our Company upon its incorporation in 1988	Minutes of the meeting of the board of directors
2.	Transfer of equity shares from Mr. Parag M. Munot to Ms. Monica P. Munot on February 25, 1999	Share transfer form
3.	Initial appointment of Imtiaz I. Kanga as a director on September 30, 2002	Consent in Form 29
4.	Notice of situation of registered office at the time of incorporation	Form 18

For further details of the share transfers, director appointments and changes in our registered office which these documents relate to, see “*Capital Structure*”, “*Our Management*” and “*History and Certain Corporate Matters – Change in the registered office of our Company*” on pages 89, 296 and 251, respectively.

Accordingly, certain disclosures in this Draft Red Herring Prospectus in relation to such untraceable corporate or secretarial records have been made with reliance on other supporting documents available in our records, including the resolutions passed by the Board or Shareholders in their meetings, or documents annexed to the filings sent to the relevant regulatory authorities. Further, we have relied on the search report and certificate dated August 13, 2024, issued by Ruchita Shah & Associates, Independent Practicing Company Secretary (having peer review certificate bearing number 5131/2023), pursuant to their inspection and independent verification of the documents available or maintained by our Company, the Ministry of Corporate Affairs at the MCA Portal and the RoC. While no legal proceedings or regulatory action has been initiated against our Company or is pending in relation to such untraceable corporate or secretarial records as of the date of this Draft Red Herring Prospectus, we cannot assure you that such legal proceedings or regulatory actions will not be initiated against our Company or that any fines or penalty will be imposed by regulatory authorities on our Company in this respect in the future.

21. *We may be subject to third-party indemnification, liability claims or invocation of guarantees, which may adversely affect our business, cash flows, results of operations and reputation.*

In addition to acquiring freehold and leasehold interests in land for development, we enter into redevelopment, JDA or JV projects with other landowners to develop their land. Our redevelopment projects involve rehabilitating occupants and redeveloping old buildings in the MMR. For our joint venture projects, we establish joint ventures with third parties to own and develop the land. For our joint development projects, we enter into JDAs with landowners, in which we acquire development rights to the underlying land. Some of the agreements that we have entered into with third parties in relation to joint development of projects and redevelopment of projects place indemnity obligations on us that require us to compensate such third parties for loss or damage suffered by them on account of a default or breach by us. While we have not faced any such instances during the Financial Years 2024, 2023 and 2022, if such third parties successfully invoke these indemnity clauses under their respective agreements in the future, we may be liable to compensate them for loss or damage suffered in respect of such agreements, which may adversely affect our business, cash flows, results of operations and reputation.

We may also be subject to claims resulting from defects in our developments, including claims brought under the RERA and Maharashtra Ownership of Flats (Regulation of the Promotion of Construction, Sale, Management and Transfer) Act, 1963. We may also be exposed to third-party liability claims for injury or damage sustained on our properties. For details, see “*Outstanding Litigation and Other Material Developments*” on page 577. These liabilities and costs could have an adverse effect on our business, cash flows, results of operations and reputation.

22. *Our inability to successfully implement our expansion and growth strategy could have an adverse effect on our business, results of operations, financial condition and cash flows.*

We intend to selectively pursue opportunities in metropolitan cities and high growth cities. See “*Our Business — Our Strategies — Maintain our focus on the Mumbai Metropolitan Region and Pune, Maharashtra while selectively pursuing opportunities in other high growth cities*” on page 208 for further details. The level of competition, regulations, business practices and customs, consumer behaviour and preferences in cities where we have expanded our operations differ from those in and around the MMR

and Pune, and our experience in the MMR and Pune may not be applicable to these other cities. In addition, in the other cities in which we have commenced operations, we compete with local real estate developers who may have an established local presence, are more familiar with local regulations, business practices and customs, and have stronger relationships with local contractors and the relevant Government authorities, all of which may collectively or individually give them a competitive advantage over us.

As we expand into new markets, our business will be exposed to additional challenges, including seeking and obtaining Governmental approvals from agencies, identifying and collaborating with local business partners, contractors and suppliers with whom we may have no previous or limited working relationships, identifying and obtaining development rights over suitable properties, successfully gauging market conditions in local real estate markets, attracting potential customers in markets in which we do not have significant experience and having to familiarize ourselves with local taxation in these areas.

We can provide no assurance that the expansion of our business to cities outside the MMR and Pune will be successful. Any failure to successfully carry out our business plans in these cities could have an adverse effect on our business, results of operations, financial condition and cash flows.

23. *Unsold inventory in our projects if not sold in a timely manner may adversely affect our business, results of operations and financial condition.*

Real estate properties take a substantial amount of time and capital to develop, and are exposed to factors such as changes in consumer preferences, regulatory framework, demand trends and costs of operations and development. As such, it is important for us to sell our inventory at acceptable prices in a timely manner. The following table provides our unsold inventory in residential projects as of March 31, 2024, 2023 and 2022:

Particulars	As of March 31,		
	2024	2023	2022
	(in msf)		
Unsold inventory in residential projects	4.41	5.96	6.47
Ready-to-move unsold inventory of residential projects	0.09	0.12	0.08

Our business, results of operations and financial condition could be adversely affected if we are unable to sell our inventory at acceptable prices and in a timely manner, or at all.

24. *Our projects require the services of third parties, which entail risks that could adversely affect our business, results of operations and financial condition.*

Our projects require the services of third parties including consultants, architects, engineers, contractors and suppliers of labour and materials. For the Financial Years 2024, 2023 and 2022, 19.23%, 17.23% and 14.59%, respectively, of our total expenses attributable to construction work for our projects was performed by third party contractors. The timing and quality of construction of the projects we develop depend on the availability and skill of such third parties, as well as contingencies affecting them, including labour and raw material shortages. We may not be able to identify, appoint or enter into a contract with experienced third parties in a timely manner, or at all, and cannot assure you that skilled third parties will continue to be available at reasonable rates and in the areas in which we undertake our projects, or at all. As a result, we may be required to make additional investments to ensure adequate performance and delivery of contracted services. While delays in our projects and additional costs incurred by us, due to actions or inactions of third parties, have not materially affected our operations during the Financial Years 2024, 2023 and 2022, we cannot assure you that such instances will not occur in the future, which could adversely affect our business, results of operations and financial condition.

Under RERA, if we fail to complete the developments within a specified time period, we are required to compensate our customers at specified rates for the delay except in the case of force majeure situations and other circumstances that are deemed necessary for extending the time period. Also see “*Outstanding Litigation and Material Developments*” on page 577. We are also required to provide warranties for a period of up to five years for construction defects, and may be held liable for such defects. While third parties appointed by us generally provide us with limited guarantees or warranties from such time they complete their work, such guarantees or warranties may not be sufficient to cover our losses, or these appointed third parties could claim defences not available to us against our customers. If such third parties

are unable to perform their obligations, including completing our developments within the specifications, quality standards and time frames specified by us, at the estimated cost, or at all, our business, results of operations and financial condition could be adversely affected.

25. *We enter into arrangements with various third parties to acquire land, and development and redevelopment rights, which entail risks that could adversely affect our business, financial condition and results of operations.*

We enter into arrangements with landowners, developers, residential societies and other third parties to acquire, among others, land, development rights and redevelopment rights. We enter into these agreements after making advance payments to ensure that the sellers of the land satisfy specified conditions within the time frames stipulated under these agreements. Since we do not acquire ownership or land development rights with respect to such land upon the execution of the initial memoranda of understanding or letter of intent or term sheet, a formal transfer of title or land development rights with respect to such land is completed only after we conduct satisfactory due diligence, obtain requisite consents and approvals, and pay the agreed consideration for such land. As a result, we are subject to the risk that pending such consents and approvals, payment of consideration or our due diligence, the owners of such land may transfer the land to other purchasers or may grant developments/redevelopment rights to other parties, and as such, we may never acquire formal title with respect to such land. Further, third parties whom we enter into joint development and other arrangements with may have litigation pending with respect to the land, structure or flats and they own or may not have clear ownership over such assets. If such irregularities exist, we may not be able to develop or complete the development of the projects.

Further, such third parties may, among other things, have economic or business interests that are inconsistent with our interests; exercise veto rights in relation to our proposals for joint arrangements and future financing requirements; be unable or unwilling to fulfil their obligations under the relevant joint arrangements and have disputes with us or terminate such agreements; take actions contrary to our instructions or requests; take actions that are not acceptable to regulatory authorities; or experience financial or other difficulties. Further, the inability of such third parties to continue with a project due to financial or legal difficulties could result in us bearing increased, or possibly sole, responsibility for the relevant projects.

In addition, we do not own the title to the parcels of land under joint development. However, we are required to pay a deposit to the owners of the land for this development which is expected to be returned or adjusted upon the completion of the development of the property or during the development of the property or credited against payments made to owners of the land. Our undivided share in these lands may be transferred only when the development is complete. As of March 31, 2024, 2023 and 2022, we have paid the following amounts towards such deposits to the owners of the land:

Particulars	As of March 31,		
	2024	2023	2022
	(₹ in millions)		
Deposits paid to owners of land which is being jointly developed	425.00	315.00	395.00

Under these agreements or any similar agreements that we may enter in the future, in the event of any delay in the completion of the development within the time frame specified, we may be required to indemnify such parties with whom we have such agreements and pay amounts as specified in these agreements. If we are required to pay such amounts and we decline to do so, we may not be able to recover the deposits made by us to the owners of the land. In addition, if for any reason the agreement is terminated or the property development is delayed or cancelled, we may not be able to recover such deposits.

While we have not faced any instances where our operations were materially affected by actions or inactions of such third parties during the Financial Years 2024, 2023 and 2022, any of the foregoing could adversely affect our business, financial condition and results of operations.

26. *Changes to the floor space index and transferable development rights by the relevant statutory authorities where our projects are located could adversely affect our business, financial condition and results of operations.*

We are subject to municipal planning and land use regulations in effect in the MMR and other locations in India in which we operate. These regulations prescribe, among other things, eligible users for specified plots of land, conditions governing such users, applicable FSI or floor area ratio (“**FAR**”) for these plots, and the conditions governing the applicable FSI/FAR. The FSI/FAR is a ratio of combined gross floor area of all the floors except areas specifically exempted under these regulations to the total floor area of the plot of land. The FSI/FAR determine the maximum square footage of proposed buildings that we may construct on plots. Further, transferable development rights (“**TDRs**”) are generally a form of compensation given by the authorities in the form of FSI or FAR to the land owners who surrender their vacant lands to authorities for public purposes.

We may own TDRs which may have been acquired as a result of our involvement in redevelopment schemes or handing over of land to authorities for public purposes in and around the MMR and Pune. If the regulations were changed to reduce the quantum of generation of TDRs, permissible FSI or to disallow the generation or utilisation of TDRs or incentive FSI, or if the stamp duty on utilization of TDRs is increased, we may not be able to develop our projects to the full extent of their estimated Saleable Area, and our business, financial condition and results of operations could be adversely affected.

Further, we may derive income from the sale of such TDRs to third parties if market conditions for such sales are favourable. We may also need to purchase TDRs from third parties in connection with development of projects. If the regulations change to preclude the purchase, sale or utilisation of TDRs, or the planning and land use regulations in the MMR and Pune are significantly altered or terminated so as to permit additional construction on existing lots, our TDRs may lose value and we may not ultimately derive revenue from their sale, which would adversely affect our business, financial condition and results of operations.

- 27. *We are required to obtain statutory and regulatory approvals, licenses or permits at various stages in the development of our projects. If we fail to obtain, maintain or renew our statutory and regulatory approvals or permits, our business, results of operations, financial condition, and cash flows could be adversely affected.***

We (and in certain cases, the third parties developing the relevant real estate project pursuant to arrangements with us) are required to obtain statutory and regulatory approvals, licenses or permits at various stages in the development of our projects, including, requisite change of land use approvals, environmental approvals, fire safety clearances, no objection certificates for height clearance, and commencement, completion and occupation certificates from relevant Governmental authorities. In addition, one of our land parcels in Shirol, Maharashtra partly falls under agriculture/green zones and forest zones, for which we are required to obtain special permission to develop the said land parcels, apart from the non-agriculture land order. We may need some additional approvals to complete our Ongoing Projects, and may be required to renew our existing approvals from time to time. Further, some of our Forthcoming Projects and Planned Projects are in the preliminary stages of planning and development and we are yet to apply for certain approvals in order to commence the development of such projects. See “*Government and Other Approvals – Material approvals required by our Company and Material Subsidiaries but not yet applied for*” on page 620. We may encounter problems in obtaining the requisite approvals or licences, may experience delays in fulfilling the conditions precedent to any required approvals and we may take time to adapt ourselves to new laws, regulations or policies that may come into effect from time to time with respect to the construction and development sector. There can be no assurance that we will receive such approvals or renewals in the time frames anticipated by us, or at all. There may also be unanticipated delays by the relevant regulatory bodies in reviewing our applications and granting approvals. We may also encounter difficulties in fulfilling the conditions precedent and conditions subsequent for such approvals (including for any approvals that we may require in the future), some of which may be onerous and may require us to incur unanticipated expenditure. We have not experienced any instances of failure to obtain or renew required approvals and permits that materially affected our business, results of operations, financial condition, or cash flows in the Financial Years 2024, 2023 and 2022. However, if we fail to do so in the future, in a timely manner or at all, our business, results of operations, financial condition, or cash flows could be adversely affected. Also see “*Government and Other Approvals*” on page 617.

We may also incur increased costs, be subject to penalties, or have our approvals and permits revoked for non-compliance with the applicable laws and conditions attached to our approvals and permissions. The penalties for non-compliance can be severe, including imposition of fines. For details of litigation and

government actions against us in relation to such approvals and permissions, please see “*Outstanding Litigation and Other Material Developments*” on page 577. Any such occurrence in the future would adversely affect our business, results of operations, financial condition, and cash flows.

28. ***We do not own the “Kalpataru” brand including the trademark, the word mark and the logo, which among other intellectual properties, is owned and has been licensed to us by Kalpataru Business Solutions Private Limited. Any failure to enforce our rights to use trademarks and brand names could have an adverse effect on our business and competitive position.***

As of March 31, 2024, we had 70 Completed Projects, 25 Ongoing Projects, 10 Forthcoming Projects and five Planned Projects that comprise a range of projects under the luxury, premium and mid-income categories, of which 86 projects incorporate the “Kalpataru” brand. However, the “Kalpataru” trademark and the logo are not owned by us. We have obtained a non-exclusive and non-transferable license to use the intellectual property from Kalpataru Business Solutions Private Limited (“**Kalpataru Business Solutions**”), one of our Promoter Group companies, under an intellectual property license agreement dated July 1, 2022 (“**IPL Agreement**”), for which we are required to pay Kalpataru Business Solutions a sum of ₹2.50 million per annum along with applicable taxes, for the first five years from April 1, 2022 (“**Effective Date**”). Upon expiry of the first five years from the Effective Date, we are required to pay ₹2.50 million or 0.25% of our annual consolidated turnover, whichever is higher, along with applicable taxes. We cannot assure you that we will continue to have the uninterrupted use and enjoyment of the “Kalpataru” brand, trademark and the logo, licensed to us under the IPL Agreement. Infringement of the IPL Agreement, for which we may not have any immediate recourse, may affect our ability to use the “Kalpataru” brand name and logo. Further, as of March 31, 2024, our Subsidiary, Kalpataru Retail Ventures Private Limited has 14 registered trademarks for “KORUM” under various classes registered with the registrar of trademarks, which is used for its retail business. In addition, we do not own project names which we use in our business, such as *Kalpataru Vivant*, *Kalpataru Magnus* and *Kalpataru Elitus*. We cannot assure you that these brand names will not be adversely affected in the future by actions that are beyond our control, including customer complaints or adverse publicity from any other source. Any damage to these brand names, if not immediately and sufficiently remedied, could have an adverse effect on our business and competitive position.

We have not faced any instances of failure to renew registration of our registered trademarks or claims from third parties regarding infringement of their intellectual property by us, during the Financial Years 2024, 2023 and 2022. However, Kalpataru Properties Private Limited (which previously owned the ‘Kalpataru’ trademark) has filed six suits against third-parties in relation to infringement of the ‘Kalpataru’ trademark, which are currently pending. Kalpataru Business Solutions expects to file applications to be substituted as a plaintiff in each of the above suits in due course.

However, if we are unable to register our trademarks for various reasons including our inability to remove objections to our trademark applications, we may not be able to claim registered ownership of such trademarks and consequently, we may not be able to seek remedies for infringement of those trademarks by third parties, causing damage to our business and competitive position. Further, our efforts to protect our intellectual property may not be adequate and any third party claim on any of our unprotected brands may lead to erosion of our business value and our reputation, which could adversely affect our operations. Further, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights, which may force us to alter our offerings. As such, we may be susceptible to claims from third parties asserting infringement and other related claims. Any of the foregoing could have an adverse effect on our business and competitive position.

29. ***A significant portion of our working capital needs are funded by presales. Any cancellation of sales or change in the laws or regulations governing the use of presales could adversely affect our results of operations and financial condition.***

We market and pre-sell our projects in phases from the date of launch of the project after receiving requisite approvals, including those required under the RERA, which is typically after acquisition of the land or land development rights and during the process of planning and designing the project, up until the time we complete our project, depending on market conditions. Our presales (sales done during launch and construction of a project) have allowed us to benefit from instalment payments from our customers, which we are able to use as working capital and thereby allowing us to maintain healthy levels of working capital

and to reduce our debt servicing costs. Set out below are details of Sales collections for the Financial Years 2024, 2023 and 2022:

Particulars	For the Financial Year					
	2024		2023		2022	
	(₹ in millions)	% of total Sales	(₹ in millions)	% of total Sales	(₹ in millions)	% of total Sales
Sales collections	26,859.24	83.88	22,074.38	74.64	15,592.22	73.75

However, we cannot assure you that we will be able to achieve sizeable percentage of presales in future. Any decrease in our presales or cancellations may cause our working capital needs to increase. We cannot assure you that we will be able to meet our presales targets with respect to all our projects. In addition, our ability to use such presales to meet our working capital needs may be affected by any cancellation of sales, laws or regulations, or changes in the Government's interpretation or implementation thereof. We may be unable to timely find alternative sources of working capital, which could adversely affect our results of operations and financial condition.

30. *We are subject to safety, health, environmental, labour, and related laws in our business. Compliance with, and changes to, these laws may increase our compliance costs and may adversely affect our results of operations and financial condition.*

Our business is governed by several laws and regulations including the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013, the RERA and the rules made thereunder including state specific rules, the Maharashtra Tenancy and Agricultural Lands Act, 1948, as amended, the Bombay Tenancy and Agricultural Lands Act, 1948 as amended, and the Maharashtra Land Revenue Code, 1966, as amended, and rules made thereunder, among others. Our business could be adversely affected by any change in laws, municipal plans or interpretation of existing laws, or promulgation of new laws, rules and regulations applicable to us. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws. We may incur increased costs and other burdens relating to compliance with such requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our results of operations and financial condition.

We are also subject to a broad range of safety, health and environmental laws in the jurisdictions in which we operate, which impose controls on the handling, storage and disposal of raw materials and chemicals, noise emissions, air and water discharges, exposure to hazardous substances and other aspects of our operations. Compliance with, and changes to, these laws may increase our compliance costs and may adversely affect our operations and financial condition. Further, we and our sub-contractors are subject to laws and regulations relating to, among other things, labour laws in respect of minimum wages, working hours, health and safety of labourers and requirements of registration for contract labour. If the contractor through which we engage contract labour does not comply with the applicable laws, including the Contract Labour (Regulation and Abolition) Act, 1970, we as a principal will be liable to provide these amenities and wages to such contract labour.

We have not faced any instances of non-compliance with the applicable laws, rules and regulations in the Financial Years 2024, 2023 and 2022 that has materially affected our operations. For details of pending litigation, including regulatory matters, see “*Outstanding Litigation and Other Material Developments*” on page 577. Any non-compliance with the applicable laws, rules and regulations in the future may subject us to regulatory action, including penalties and other civil or criminal proceedings, which may adversely affect our operations and financial condition.

31. *Our business and results of operations could be adversely affected by the incidence and rate of property taxes and stamp duties.*

As a property owning and development company, we are subject to the property tax regime in the geographies that we operate in. We are also subject to stamp duty for the agreements entered into in respect of the properties we buy and sell. These taxes could increase in the future, and new types of property taxes, stamp duties may be introduced which would increase our overall costs. If these property taxes and stamp duties increase, the cost of buying and selling properties may rise. Additionally, if stamp duties or higher

stamp duties were to be levied on instruments evidencing transactions which we believe are currently subject to nil or lesser duties, our acquisition costs and sale values may be affected, resulting in a reduction of our profitability. Any such changes in the incidence or rates of property taxes or stamp duties could adversely affect our business and results of operations.

32. *Sales of our projects are dependent on and will be affected by the ability of our prospective customers to receive cost effective financing and favourable tax treatment.*

Changes in interest rates affect the ability and willingness of prospective real estate customers, particularly residential property purchasers, to obtain financing for the purchase of properties. The interest rate at which our real estate property purchasers may borrow funds for the purchase of our properties affects the affordability of our real estate projects. Instances of inflation and economic turmoil in the past, have led to an increase in the interest rates and a decrease in the availability of loans, making our real estate properties less attractive to our customers. Further, any changes in the tax incentives available to purchasers or properties or tax treatment with respect to the repayment of principal on housing loans and interest payable on housing loans could affect demand for residential real estate. These factors may adversely affect our business and results of operations.

33. *Title insurance is not available at commercially viable terms in India. The uncertainty of title to land makes the acquisition and development process more complicated, may impede the transfer of title, expose us to legal disputes and adversely affect our land valuations.*

Title insurance is not available at commercially viable terms in India relating to title or development rights in respect of land. The original title to lands may often be fragmented and the land may have multiple owners. Some of these lands may have irregularities of title, such as non-execution or non-registration of conveyance deeds and inadequate stamping, and may be subject to encumbrances of which we may not be aware. We conduct due diligence and assessment exercises and analyse information about the land that is available to us. However, there can be no assurance that such information is accurate, complete or current. Our rights in respect of these lands may be compromised by improperly executed, unregistered or insufficiently stamped conveyance instruments in the property's chain of title, unregistered encumbrances in favour of third parties, rights of adverse possessors, ownership claims of family members of prior owners, or other defects that we may not be aware of. Additionally, property records in India are not always available in an electronic database and may be maintained manually in physical form, which are also manually updated. This updating process can take a significant amount of time and can result in inaccuracies or errors making the records unreliable. Furthermore, these records are difficult to obtain at the relevant land registry office. In addition, we may not have invited claims by issuing public notices as part of our process in ascertaining title for portions of our land and therefore, there can be no assurance that we can successfully preclude all claims on such land from third parties.

The uncertainty of title to land makes the acquisition and development process more complicated, may impede the transfer of title, expose us to legal disputes and adversely affect our land valuations. If we or the owners of the land with whom we enter into a joint venture agreement or joint development agreement are unable to resolve such disputes with these claimants, we may lose our interest in the land. Certain of our projects and Land Reserves are currently subject to title related litigation. Also see “*Outstanding Litigation and Other Material Developments*” on page 577 for details on title related litigation.

34. *The failure, inadequacy or breach of our information technology systems or our business processes regarding confidential information and other data, unauthorized access to our confidential information or violations of data protection laws could have an adverse effect on our business, results of operations, financial condition and cash flows.*

Our information technology systems are important to our business. We utilise information technology systems in managing our construction and development process, sale, finance and accounts, and other integral parts of our business. Our information technology systems are vulnerable to breakdown, system problems and inadequacies, service interruptions and failures, security breaches, and malicious intrusions or cyber-attacks from a variety of sources such as ransomware, phishing emails and other such computer viruses. Cyber-attacks are growing in their frequency, sophistication and intensity, and are becoming increasingly difficult to detect, mitigate or prevent. In addition, our systems are potentially vulnerable to data security breaches, whether by employees or others that may expose sensitive data to unauthorized persons. Such data security breaches could lead to loss of trade secrets or other intellectual property, or

lead to the public exposure of personal information (including sensitive personal information) of our employees, customers and others. While we have not experienced any failure, inadequacy or breach of our information technology systems during the Financial Years 2024, 2023 and 2022, any such instances in the future could have an adverse effect on our business, results of operations, financial condition and cash flows.

Further, we are subject to laws and regulations relating to privacy and the collection, storing, sharing, use, disclosure, and protection of certain types of data. These laws and regulations may continually change as a result of new legislation, amendments to existing legislation, changes in the enforcement policies and changes in the interpretation of such laws and regulations by the courts or the regulators. India has implemented certain privacy laws, including the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011 which prescribe directions for the collection, disclosure, transfer and protection of sensitive personal data by a body corporate or any person acting on behalf of a body corporate. Further, on August 11, 2023, the President assented to the PDP Bill 2023, thereby passing the Digital Personal Data Protection Act, 2023 (the “**PDP Act**”). The PDP Act aims to govern the processing of digital personal data for lawful purposes, while simultaneously ensuring the right of individuals to protect their personal data. As part of our operations, we are also required to comply with the Information Technology Act, 2000 and the rules thereof, which provide for civil and criminal liability including compensation to persons affected, penalties and imprisonment for various cyber offences, including unauthorized disclosure of confidential information and failure to protect sensitive personal data. For further details, see “*Key Regulations and Policies in India*” on page 238. Our failure to comply with the applicable laws and regulations relating to privacy and data protection could have an adverse effect on our business, results of operations, financial condition and cash flows.

35. *We benefit from our relationship with our Promoters and our business and growth prospects may decline if we cannot benefit from this relationship in the future.*

We benefit from our relationship with our Promoters in many ways, such as their reputation, experience and knowledge of the real estate and property development industry. As of March 31, 2024, we (together with our Promoters) had a portfolio of 113 Completed Projects, aggregating to 24.10 msf of Developable Area. Therefore, our growth and future success is influenced, in part, by our continued relationship with our Promoters. We cannot assure you that we will be able to continue to take advantage of the benefits from these relationships in the future. If we cease to benefit from these relationships for any reason, our business and growth prospects may decline and our financial condition and results of operations may be adversely affected.

36. *We are dependent on our Key Managerial Personnel, Senior Management and other qualified and skilled employees. Our inability to attract or retain such persons could adversely affect our business, results of operations, financial condition and cash flows.*

Our operations are dependent on our Key Managerial Personnel, Senior Management and other employees. The continued operations and growth of our business is dependent upon our ability to attract and retain personnel who have the necessary and required experience and expertise in the industry. Competition for qualified personnel with relevant industry expertise in India is intense. A loss of the services of our Key Managerial Personnel and our Senior Management may adversely affect our business, results of operations, financial condition and cash flows. During the last three years, we had the following changes in our Key Managerial Personnel and Senior Management:

Name	Date of Change	Reason
Abhishek Thareja	September 26, 2022	Appointment as the Company Secretary and Compliance Officer
Amit Shah	September 14, 2022	Resignation as the company secretary due to other preoccupations
Mukesh Singh	March 5, 2024	Resignation as the director - sales

The table below sets forth the number of our employees as of March 31, 2024, 2023 and 2022 and the attrition rate of our employees for the Financial Years 2024, 2023 and 2022:

Particulars	As of and for the Financial Year		
	2024	2023	2022
Number of employees	1,112	1,123	1,022
Attrition rate of employees (%)	24.06	27.41	23.27

Large scale attrition, especially at the levels of the key managerial personnel and senior management, can make it difficult for us to manage and grow our business. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting the qualified employees that our business requires. The loss of or our inability to replace such persons may restrict our ability to grow, execute our strategy, raise the profile of our brand, raise capital, make strategic decisions or manage our operations, which may have an adverse effect on our business, results of operations, financial condition and cash flows.

37. *We have pledged equity shares of our Subsidiaries in favour of certain lenders. In the event that such lenders exercise their rights under the respective share pledge agreements upon a default or breach under the financing agreement, our business, results of operations, and cash flows could be adversely affected.*

We have pledged equity shares of the following entities, which are our Subsidiaries, in favour of certain lenders to secure loan facilities availed by our Company and certain of our Subsidiaries, as set out below:

Subsidiary	Number of shares pledged	% of paid-up equity share capital of the Subsidiary	Pledgee/Lender	Purpose of pledge
Agile Real Estate Private Limited	144,150,000	30.00	IDBI Trusteeship Services Limited	Security for loan facilities availed by such Subsidiary
Arimas Real Estate Private Limited	89,980	98.98	Vistra ITCL India Limited	Security for loan facilities availed by such Subsidiary and other Subsidiaries of the Company
Alder Residency Private Limited	99,616	100.00	Vistra ITCL India Limited	Security for loan facilities availed by such Subsidiary and other Subsidiaries of the Company
Kalpataru Hills Residency Private Limited	1,800,000	100.00	Vistra ITCL India Limited	Security for loan facilities availed by such Subsidiary and other Subsidiaries of the Company
Agile Real Estate Dev Private Limited	8,333	83.33	Vistra ITCL India Limited	Security for loan facilities availed by such Subsidiary
Ambrosia Enviro Farms Private Limited	90,000	100.00	Vistra ITCL India Limited	Security for loan facilities availed by such Subsidiary and other Subsidiaries of the Company
Arena Orchards Private Limited	90,000	100.00	Vistra ITCL India Limited	Security for loan facilities availed by such Subsidiary and other Subsidiaries of the Company
Ardour Developers Private Limited	90,000	100.00	Vistra ITCL India Limited	Security for loan facilities availed by such Subsidiary
Kalpataru Land Private Limited	1,090,000	100.00	Vistra ITCL India Limited	Security for loan facilities availed by such Subsidiary

Any default or breach under the financing agreements pursuant to which such securities have been pledged will entitle the lenders to enforce the pledge over such collateral and take ownership of the collateral and/or to sell the pledged equity shares to third parties. If these pledges are enforced, our shareholding and control in such Subsidiaries may be reduced or divested completely, thereby adversely affecting our economic interest in such Subsidiaries and our ability to manage the affairs of these Subsidiaries, which could adversely affect our business, results of operations, and cash flows.

- 38. *Our Promoters, Directors, Key Managerial Personnel and Senior Management may have interests other than reimbursement of expenses incurred and receipt of remuneration or benefits from our Company. Our Promoters and Directors may have interest in entities that are engaged in similar lines of business, which may result in conflicts of interest, adversely affecting our operations.***

Our Promoters and certain of our Promoter Group members, Directors, Key Managerial Personnel and Senior Management are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding. Our Promoters may be considered to be interested to the extent of personal guarantees given by them in favour of our lenders against the loans sanctioned to us. Further, we have availed unsecured loans from our Promoters and certain members of our Promoter Group. As of June 30, 2024, an amount of ₹12,617.04 million was outstanding under such loans. Of this, certain loans have been converted into unsecured compulsorily convertible debentures of face value of ₹100 each, which have been allotted to Mr. Parag M. Munot, one of our Promoters and Directors, and certain members of our Promoter Group. For details, see “*Financial Indebtedness*” and “*Capital Structure*” on pages 574 and 89, respectively. Our Promoters and Directors may be deemed to be interested to the extent of Equity Shares held by them, directly or indirectly, in our Company and its Subsidiaries, as well as to the extent of any dividends, bonuses or other distributions that they are or could be entitled to on such shareholding. Additionally, some of our Directors, Key Managerial Personnel and the Senior Management may also be regarded as interested to the extent of employee stock options granted by our Company, which may be granted to them in the future pursuant to our employee stock option scheme.

A potential conflict of interest may occur between our business and the business of such ventures in which our Promoters and Directors have interest, which have a similar line of business as our Company, resulting in a conflict of interest with us. These entities include members of our Promoter Group and our Group Companies. For details of these entities, see “*Our Promoters and Promoter Group – Interests of our Promoters*”, “*Our Group Companies – Nature and extent of interest of Group Companies*” and “*Our Management – Interests of our Directors*” on pages 317, 332 and 304, respectively.

There are no conflicts of interest between (i) the lessors of immovable properties; and (ii) suppliers of raw materials and third-party service providers, each crucial for operations of the Company, on the one hand, and the Company, Promoter, Promoter Group, Key Managerial Personnel, Directors, Subsidiaries, Group Companies and their directors on the other hand, except for such transactions as disclosed in “*Summary of Offer Document – Related Party Transactions*” on page 25. However, there can be no assurance that such transactions in the future, between our Company and such entities, individually or in aggregate, will not have an adverse effect on our business, prospects, results of operations, financial condition and cash flows. Further, conflicts of interest may arise in allocating or addressing business opportunities and strategies among our Company and other entities in our Promoter Group or Group Companies and we cannot assure you that our Promoters will not favour the interests of other Promoter Group or Group Companies over our interests. There can be no assurance that such other entities will not compete with our existing business or any future business that we may undertake, nor that their interests will not conflict with ours.

- 39. *Our insurance coverage may not adequately protect us against all risks, and we may be subject to losses that might not be covered in whole or in part by our existing insurance coverage, which could have an adverse effect on our business, financial condition, results of operations and cash flows.***

We currently maintain a variety of insurance policies in connection with our operations, including standard fire and special perils insurance, public liabilities insurance, motor vehicle insurance, all risk insurance, money insurance, contractor’s all risk insurance, contractors plant and machinery insurance, comprehensive general liability insurance, and director and officers liability insurance. We may face risk of losses in our operations arising from a variety of sources, including, but not limited to, risks relating to construction, catastrophic events, terrorist risk, vandalism, theft of construction supplies and loss of business. Set forth below are the details of our total assets and the insurance coverage on such assets:

Particulars	For the Financial Year		
	2024	2023	2022
	(₹ in millions, unless otherwise specified)		
Total assets (A)	138,794.29	125,407.73	134,105.71
Insurance coverage (B)	70,595.33	64,637.35	58,003.63
% of insurance coverage (%) (B/A)	50.86	51.54	43.25

We do not carry insurance coverage for our contractors' statutory liability towards their workmen and other related matters. We also do not carry insurance coverage for terrorist risk for projects under construction, timely project completion, loss of profit, construction defects, and consequential damages for a tenant's lost profits. There have not been any instances of liability or costs incurred by our Company in relation to such incidents in the Financial Years 2024, 2023 or 2022.

While we have not faced any incidents where we incurred damages in excess of our insurance coverage or faced any material refusals by the insurance providers to fully honour our claims (subject to deductions in accordance with the terms of the relevant policies) in the Financial Years 2024, 2023 and 2022, any such incidents or refusals by the insurance providers to fully honour the claims, may adversely affect our business, financial condition, results of operations and cash flows. We may not be insured for all types of risks and losses that we may also be subject to, as such risks are either uninsurable or that relevant insurances are not available on commercially acceptable terms. Further, we cannot assure you that we will be able to renew our insurance covering all risks at commercially viable terms or at all. To the extent that we suffer loss or damage for events for which we are not insured or for which our insurance is inadequate, the loss would have to be borne by us, and, as a result, our business, financial condition, results of operations and cash flows could be adversely affected.

- 40. *We will continue to be controlled by our Promoters after the completion of the Issue, who will continue to have significant influence over our business after the completion of the Issue and any substantial change in our Promoters' shareholding may have an effect on the trading price of our Equity Shares which could have an adverse effect on our business, financial condition, results of operations and cash flows.***

Our Promoters (along with certain members of the Promoter Group) hold the entire issued, subscribed and paid-up Equity Share capital of our Company. See "*Capital Structure – Details of shareholding of our Promoters and members of our Promoter Group in our Company*" on page 101. After the completion of the Issue, our Promoters (along with certain of our Promoter Group members) will continue to hold majority of our equity share capital.

As a result, our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board and determine matters requiring shareholder approval or approval of our Board. Our Promoters may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders. By exercising their control, our Promoters could cause, delay, defer or cause changes in, among others, capital structure, mergers and consolidation, takeovers or other business combination involving us, and discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us.

- 41. *We may be unable to obtain "green" certifications for new projects, which could have an adverse effect on our business.***

We focus on the implementation of green and environmental sustainability practices for design and construction of our real estate development projects. According to the Anarock Report, an urgent need for sustainable green buildings has emerged to mitigate the impacts of the construction and development sector on the environment and human well-being, conserving resources and fostering healthy living conditions. The COVID-19 pandemic underscored the importance of safe and resilient homes, further driving the shift towards sustainable building practices. Green buildings are also entitled to incentive FSI, to the extent of 3% (for GRIHA Three Star/ IGBC Silver / LEED Silver or equivalent rating), 5% (for GRIHA Four Star/IGBC Gold/LEED Gold or equivalent rating) and 7% (for GRIHA Five Star/ IGBC Platinum/ LEED Platinum or equivalent rating) over the base FSI (Source: *Anarock Report*).

The following table sets forth details of our green certifications, as of March 31, 2024:

Type of certification	Number of projects	Built-up Area (msf)
Total Green Building Certifications	39	27.15
Certified Green Building (Platinum) ⁽¹⁾	4	4.39
Certified Green Building (Gold) ⁽²⁾	5	
Certified Green Building (Certified)	1	
Pre-certified Green Building (Platinum)	8	9.92
Pre-certified Green Building (Gold)	5	
Registered Green Building	16	12.84

Note: The above table includes Completed Projects and On-going Projects that have been either certified, pre-certified or registered by either IGBC or LEED Green Building certification. Of these projects:

(1) Kalpataru Square, Mumbai was registered as a "Certified Green Building (Platinum)" by USGBC LEED in 2009;

(2) Kalpataru Inspire, Mumbai was registered as a "Certified Green Building (Gold)" by USGBC LEED in 2015; and

(3) All the remaining registrations were carried out by IGBC.

Obtaining such certifications requires us to ensure compliance with the conditions specified by the GRIHA, IGBC and LEED, as applicable. These conditions require compliance with the standards set by the relevant authority in the areas of site sustainability, water efficiency, energy consumption and greenhouse gas emissions, among others. We cannot assure you that we will be able to obtain such certifications for our projects in the future. A failure to obtain such certifications in the future could have an adverse effect on our projects' reputations and as a result, have an adverse effect on our business.

42. *We have entered into, and will continue to enter into, related party transactions and there can be no assurance that such transactions will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, financial condition, results of operations, cash flows and prospects.*

In addition, we have entered into certain categories of related party transactions that are not comparable with our restated statement of profit and loss, such as investments made and withdrawn from LLP/firms, profits and losses from partnership firms/LLPs in which we have interests, investments in equity and preference shares of our Subsidiaries, loans taken and repaid, deposits received and refunded, among others. For details of our related party transactions during the Financial Years 2024, 2023 and 2022, see “*Summary of Offer Document – Summary of related party transactions*” on page 25. While all such transactions have been conducted on an arm’s length basis, in accordance with the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transaction, all related party transactions that we may enter into post-listing will be subject to an approval from our Audit Committee and if applicable, our Board and/or Shareholders. Such related party transactions in the future or any other future transactions may potentially involve conflicts of interest which may be detrimental to the interest of our Company and we cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, financial condition, results of operations, cash flows and prospects.

43. We have contingent liabilities, which, if materialized, may adversely affect our results of operations, financial condition and cash flows.

As of March 31, 2024, we had disclosed the following contingent liabilities in our Restated Consolidated Financial Information:

Particulars	Amount as at March 31, 2024 (₹ in millions)
Unexpired letters of credit (net of liability provided)	149.90

Claims made by Maharashtra State Electricity Distribution company limited (MSEDCL)	57.20
Demands made by Revenue Department of Maharashtra (including penalty)	1,155.80
Total	2,815.23

If a significant portion of our contingent liabilities materialize, it could have an adverse effect on our results of operations, financial condition and cash flows. For details, see “*Restated Consolidated Financial Information — Note 34 - Contingent liabilities and commitments (to the extent not provided for)*” on page 520.

- 44. *We have provided guarantees to lenders for loans granted to our Subsidiaries and Group Companies, and any failure to repay such loans by such Subsidiaries and Group Companies may adversely affect our business, results of operations and financial condition.***

We have provided guarantees to lenders for financing provided to our Subsidiaries and Group Companies, and any failure to repay such loans by our Subsidiaries or Group Companies may require us to repay the loans availed, which may affect our business, results of operations and financial condition. Moreover, as of March 31, 2024, we provided corporate guarantees aggregating to ₹250 million to various banks and financial institutions for loans granted to third parties. Any failure to repay such loans by these third parties, may require us to repay the loans availed, which may adversely affect our business, results of operations and financial condition.

- 45. *Certain statements contained in this Draft Red Herring Prospectus are based on current management plans and estimates and may be subject to change. Adverse deviations from our management's estimates may result in us not achieving results as anticipated, which could have an adverse effect on our business, financial condition, results of operations and cash flows.***

Certain information contained in this Draft Red Herring Prospectus with respect to our Completed Projects, Ongoing Projects, Forthcoming Projects, and Planned Projects such as development rights owned by us, location and type of project, estimated construction commencement, launch and completion dates, our funding requirements and the Saleable Area, Leasable Area and Developable Area presented herein with regard to Ongoing Projects, Forthcoming Projects and Planned Projects are based on management plans and estimates, have not been independently appraised or verified and are subject to regulatory approvals. The square footage that we may develop in the future with regards to a particular property may differ from what is presented herein based on various factors such as prevailing market conditions, current management plans, change in laws and regulations, competition, title defects, an inability to obtain the required regulatory approvals such as zone conversion, approvals under the Township Policy, changes or modifications in the development norms (such as FSI and zoning, including the Coastal Regulatory Zone), approval of Incentive FSI under various regulations, TDR or our understanding of development norms.

Developable Area of our Completed Projects and Ongoing Projects, estimated Developable Area of our Forthcoming Projects and Planned Projects have been calculated based on the current rules and regulations which govern the construction area of the respective projects. The total area of a project that is ultimately developed and the actual Developable Area may differ from the descriptions of the project presented herein and a particular project may not be completely booked, sold, leased or developed until a date subsequent to the expected completion date. We may also have to revise our assumptions, estimates, development plans (including the type of proposed development) and the estimated construction commencement and completion dates of our projects depending on future contingencies and events, including, among others, changes in our business plans due to prevailing economic and market conditions, and changes in laws and regulations. Further, the information we have provided in relation to our Completed Projects, Ongoing Projects, Forthcoming Projects and Planned Projects are not representative of our future results. We may also change our management plans and timelines for strategic, marketing, internal planning and other reasons. Therefore, management's estimates and plans with respect to our projects are subject to uncertainty. Adverse deviations from our management's estimates may result in us not achieving results as anticipated, which could have an adverse effect on our business, financial condition, results of operations and cash flows.

- 46. *Our business is highly competitive and we cannot assure you that we will be able to compete effectively with other real estate companies.***

We operate our business in an intensely competitive and highly fragmented industry. We face significant competition in our business from Indian real estate development companies who also operate in the same regional markets as us. The extent of the competition we face in a potential property market depends on a number of factors, such as the size and type of property development, contract value and potential margins, the complexity and location of the property development, and the risks relating to revenue generation.

Given the fragmented nature of the real estate development industry, we often do not have adequate information about the properties our competitors are developing and accordingly, we run the risk of underestimating supply in the market. While the MMR and Pune remain and are expected to remain our primary focus, we also intend to selectively pursue opportunities in other upcoming cities across India. As

we diversify our regional focus, we face the risk that some of our competitors, who are also engaged in real estate development, may be better known in other markets, enjoy better relationships with land owners and international or domestic joint venture partners, may gain early access to information regarding attractive parcels of land and may be better placed to acquire such land. Also see “*Industry Overview*” on page 129.

Some of our competitors are larger than us and have greater land reserves or financial resources or a more experienced management team. They may also benefit from greater economies of scale and operating efficiencies. Competitors may, whether through consolidation or growth, present more credible integrated and/or lower cost solutions than we do, causing us to acquire fewer land or development rights. There can be no assurance that we can continue to compete effectively with our competitors in the future, and failure to compete effectively may have an adverse effect on our business, financial condition and results of operations.

47. *Corrupt practices or fraud or improper conduct may delay the development of a project and adversely affect our business and results of operations.*

The real estate development and construction industries in India and elsewhere are not immune to the risks of corrupt practices or fraud or improper practices. Large construction projects in all parts of the world provide opportunities for corruption, fraud or improper conduct, including bribery, deliberate poor workmanship, theft or embezzlement by employees, contractors or customers or the deliberate supply of low quality materials. If we or any other persons involved in any of the projects are the victim of or involved in any such practices, our reputation or our ability to complete the relevant projects as contemplated may be disrupted, thereby adversely affecting our business and results of operations.

EXTERNAL RISK FACTORS

Risks related to India

49. *The real estate industry has witnessed significant downturns in the past and any significant downturn in the future could adversely affect our business, financial condition and results of operations.*

Economic developments within and outside India have adversely affected the property market in India and our overall business in the recent past. The global credit markets experienced, and may continue to

experience, significant volatility and may continue to have an adverse effect on the availability of credit and the confidence of the financial markets, globally as well as in India. As a result of the global downturn, the real estate industry also experienced a downturn. It resulted in an industry-wide softening of demand for property due to a lack of consumer confidence, decreased affordability, decreased availability of mortgage financing, and resulted in large supplies of unsold inventories. For instance, despite strong supply, on the back of higher absorption, the unsold inventory across the top seven cities in India has decreased marginally on a yearly basis, i.e., for 2021 (638,192 units) and for 2022 (630,973 units) as compared to unsold inventory in 2023 (600,200 units). The inventory hangover as of the end of December 2023 is 15 months which is the least over the past six to seven years (Source: *Anarock Report*).

Even though the global credit and the Indian real estate markets have shown signs of recovery, economic turmoil may continue to exacerbate industry conditions or have other unforeseen consequences, leading to uncertainty about future conditions in the real estate industry. These effects include, but are not limited to, a decrease in the sale of, or market rates for, our projects, delays in the release of our projects in order to take advantage of future periods of more robust real estate demand and the inability of our contractors to obtain working capital. Our Company is significantly dependent on debt for its various projects. A slowdown in the growth or negative growth of the real estate sector could result in defaults by other competitors, leading to lower availability of credit and other financial products and services for our Company and adversely affect our performance. Any significant downturn in future would have an adverse effect on our business, financial condition and results of operations.

50. *Our business is substantially affected by prevailing economic, political and other prevailing conditions in India.*

The Indian economy is influenced by economic, political and market conditions in India and globally. We are incorporated in and all of our operations are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian consumers and Indian corporates;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- occurrence of natural or man-made disasters;
- outbreak of an infectious diseases;
- prevailing regional or global economic conditions, including in India's principal export markets;
- any downgrading of India's debt rating by a domestic or international rating agency;
- financial instability in financial markets; and
- other significant regulatory or economic developments in or affecting India or its construction sector.

Moreover, a fall in the purchasing power of our customers may have an adverse effect on our customers' income, savings and could in turn negatively affect their demand for our projects.

In addition, any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares.

51. *Land may be subject to compulsory acquisition by the government and compensation in lieu of such acquisition may be inadequate.*

The right to own property in India is subject to restrictions that may be imposed by the Government of India from time to time. In particular, the Government of India under the provisions of the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (the “**Land Acquisition Act**”) has the right to compulsorily acquire any land if such acquisition is for a “public purpose,” after providing compensation to the owner. However, the compensation paid pursuant to such acquisition may not be adequate to compensate the owner for the loss of such property. The likelihood of such acquisitions may increase as central and state governments seek to acquire land for the development of infrastructure projects such as roads, railways, airports and townships. Additionally, we may face difficulties in interpreting and complying with the provisions of the Land Acquisition Act due to limited jurisprudence on them or if our interpretation differs from or contradicts any judicial pronouncements or clarifications issued by the government. In the future, we may face regulatory actions or we may be required to undertake remedial steps. Any such action in respect of any of the projects in which we are investing or may invest in the future may adversely affect our business, financial condition or results of operations.

52. *Significant differences exist between Ind AS used to prepare our financial information and other accounting principles, such as IFRS and US GAAP, with which investors may be more familiar.*

Our Restated Consolidated Financial Information for the Financial Years 2024, 2023 and 2022 included in this Draft Red Herring Prospectus is presented in conformity with Ind AS, in each case restated in accordance with the requirements of Section 26 of part I of the Companies Act, the SEBI ICDR Regulations and the Guidance Note on “Reports in Company Prospectus (Revised 2019)” issued by the ICAI. Ind AS differs from accounting principles with which prospective investors may be familiar, such as Indian GAAP, IFRS and US GAAP.

We have not attempted to quantify the effect of US GAAP or IFRS on the financial data included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP or IFRS. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Ind AS and Indian GAAP financial statements, which are restated as per the SEBI ICDR Regulations included in this Draft Red Herring Prospectus, will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should be limited accordingly.

53. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which could adversely affect the trading price of the Equity Shares.*

Foreign ownership of Indian securities is subject to Government regulations. Under foreign exchange regulations currently in force in India, the transfer of shares between non-residents and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If a transfer of shares is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Further, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. According to the foreign exchange controls currently in effect in India, the price at which our Equity Shares are transferred shall be calculated in accordance with internationally accepted pricing methodology for the valuation of shares at an arm’s length basis, and a higher (or lower, as applicable) price per share may not be permitted. We cannot assure you that any necessary approvals from the RBI or any other governmental agency can be obtained on any

particular terms, or at all. In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, which has been incorporated as the proviso to Rule 6(a) of the FEMA Rules, investments where the beneficial owner of the equity shares is situated in or is a citizen of a country which shares a land border with India, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. These investment restrictions shall also apply to subscribers of offshore derivative instruments. Further, in the event of transfer of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular term or condition or at all. For further information, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 671. Our ability to raise foreign capital under the FDI route is therefore constrained by Indian law, which may adversely affect our business, results of operations, financial condition and cash flows.

54. *Investors may not be able to enforce a judgement of a foreign court against our Company.*

Our Company is a public limited company under the laws of India. The enforcement of civil liabilities by overseas investors in the Equity Shares, including the ability to effect service of process and to enforce judgments obtained in courts outside of India may be adversely affected by the fact that our Company is a limited liability company incorporated under the laws of India. Our Company’s assets are located in India and our Board of Directors, Key Managerial Personnel and Senior Management are residents of India. As a result, it may not be possible or may be difficult for investors to effect service of process upon our Company or any of these persons for proceedings in jurisdictions outside of India or to enforce against them in courts in India, judgments obtained in courts outside India including judgments predicated upon the civil liability provisions of the securities laws of jurisdictions outside India.

India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, which includes, the United Kingdom, Singapore, the United Arab Emirates (the “UAE”) and Hong Kong. However, recognition and enforcement of foreign judgments is provided for under Section 13, Section 14 and Section 44A of the Code of Civil Procedure, 1908 (the “**Civil Procedure Code**”). The United States has not been notified as a reciprocating territory for the purposes of the Civil Procedure Code.

A judgment of a court in a jurisdiction that is not a reciprocating territory may be enforced in India only by a suit upon the judgment, subject to Section 13 of the Civil Code, and not by execution proceedings. Section 13 of the Civil Code, which is the statutory basis for the recognition of foreign judgments (other than arbitration awards), provides that a foreign judgment shall be conclusive as to any matter thereby directly adjudicated upon between the same parties or between parties litigating under the same title, except: (i) where the judgment has not been pronounced by a court of competent jurisdiction, (ii) where the judgment has not been given on the merits of the case, (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or refusal to recognize the law of India in cases to which such law is applicable, (iv) where the proceedings in which the judgment was obtained were opposed to natural justice, (v) where the judgment has been obtained by fraud or (vi) where the judgment sustains a claim founded on a breach of any law then in force in India.

Under Section 14 of the Civil Procedure Code, a court in India shall, on the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record; such presumption may be displaced by proving want of jurisdiction. The Civil Procedure Code only permits the enforcement of monetary decrees, not being in the nature of any amounts payable in respect of taxes, or other charges of a like nature or in respect of a fine or other penalty and does not provide for the enforcement of arbitration awards even if such awards are enforceable as a decree or judgment. Some jurisdictions, including the United Kingdom, Singapore, UAE and Hong Kong, have been declared by the Government of India to be reciprocating territories for the purposes of Section 44A of the Civil Procedure Code. A foreign judgment rendered by a superior court (as defined under the Civil Procedure Code) in any jurisdiction outside India which the Government of India has by notification declared to be a reciprocating territory, may be enforced in India by proceedings in execution as if the judgment had been rendered by a competent court in India. Judgments

or decrees from jurisdictions which do not have reciprocal recognition with India cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India.

Even if an investor obtained a judgment in such a jurisdiction against us, our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments, other than arbitration awards, in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any federal or state court in the United States on civil liability, whether or not predicated solely upon the federal securities laws of the United States, would not be enforceable in India. However, the party in whose favor such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in the United States or other such jurisdiction within three years of obtaining such final judgment. Further, there may be considerable delays in the disposal of suits by Indian courts. It is unlikely that an Indian court would award damages on the same basis as a foreign court if an action is brought in India. Moreover, it is unlikely that an Indian court would award damages to the extent awarded in a final judgment rendered outside India if it believes that the amount of damages awarded were excessive or inconsistent with public policy in Indian laws. It is uncertain as to whether an Indian court would enforce foreign judgments that would contravene or violate Indian law. In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered, and we cannot assure that such approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approvals would be acceptable. Such amount may also be subject to income tax in accordance with applicable law. Any judgement in a foreign currency would be converted into Rupees on the date of judgement and not on the date of payment, which could also increase risks relating to foreign exchange.

Consequently, it may not be possible to enforce in an Indian court any judgment obtained in a foreign court, or effect service of process outside of India, against Indian companies, entities, their directors and executive officers and any other parties in India. Additionally, there is no assurance that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner or be subject to considerable delays.

55. ***We may be affected by competition law in India and any adverse application or interpretation of the Competition Act, 2002 could in turn adversely affect our business.***

The Competition Act, 2002 (the “**Competition Act**”) was enacted for the purpose of preventing practices that have or are likely to have an adverse effect on competition in India and has mandated the CCI to regulate such practices. Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition is void and attracts substantial penalties.

Further, any agreement among competitors which, directly or indirectly, involves determination of purchase or sale prices, limits or controls production, or shares the market by way of geographical area or number of subscribers in the relevant market is presumed to have an appreciable adverse effect in the relevant market in India and shall be void. The Competition Act also prohibits abuse of a dominant position by any enterprise. On March 4, 2011, the Central Government notified and brought into force the combination regulation (merger control) provisions under the Competition Act with effect from June 1, 2011. These provisions require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to, and pre-approved by, the CCI. Additionally, on May 11, 2011, the CCI issued the Competition Commission of India (Procedure for Transaction of Business Relating to Combinations) Regulations, 2011, as amended, which sets out the mechanism for implementation of the merger control regime in India. The Competition Act aims to, among other things, prohibit all agreements and transactions which may have an appreciable adverse effect in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside of India if such agreement, conduct or combination has an appreciable adverse effect in India. However, the effect of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. We do not have any outstanding notices in relation to non-compliance with the Competition Act or the agreements entered into by us.

However, if we are affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business.

56. *Investors may be subject to Indian taxes arising out of income arising on the sale of and dividend on the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares held as investments in an Indian company are generally taxable in India. A securities transaction tax (“STT”) is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification), and the STT is collected by an Indian stock exchange on which equity shares are sold. Any capital gain realized on the sale of listed equity shares on a Stock Exchange held for more than 12 months immediately preceding the date of transfer will be subject to long term capital gains in India, in addition to payment of STT, at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the Stock Exchanges, the quantum of gains and any available treaty relief. Such long-term capital gains exceeding ₹125,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 12.5% (plus applicable surcharge and cess). STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Furthermore, any gain realized on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to short-term capital gains tax at a higher rate compared to the transaction where STT has been paid in India. Capital gains arising from the sale of our Equity Shares will be exempt from taxation in India in cases where an exemption is provided under a treaty between India and the country of which the seller is a resident.

As a result, subject to any relief available under an applicable tax treaty or under the laws of their own jurisdictions, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of our Equity Shares.

The Government of India has recently announced the union budget for Financial Year 2025 (“**Budget**”). Pursuant to the Budget, the second Finance Bill, 2024, among other amendments, proposes to amend the capital gains tax rates and calculations, with effect from the date of announcement of the Budget. However, since the Finance Bill, 2024 has not yet been enacted into law, the Bidders are advised to consult their own tax advisors to understand their tax liability as per the laws prevailing on the date of disposal of Equity Shares. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares. We cannot predict whether any amendments made pursuant to the Finance Bill, 2024 (once enacted) would have an adverse effect on our business, results of operations and financial condition. Unfavorable changes in or interpretations of existing laws, rules and regulations, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

57. *A third-party could be prevented from acquiring control of us post Issue, because of anti-takeover provisions under Indian law.*

As a listed Indian entity, there are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that the interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Issue. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of the SEBI Takeover Regulations.

58. *Rights of shareholders of companies under Indian law may be different from laws of other jurisdictions.*

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors’ fiduciary duties, responsibilities and liabilities, and

shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights, including in relation to class actions, under Indian law may not be as extensive and wide spread as the shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as a shareholder of our Company than as a shareholder of an entity in another jurisdiction.

Risks related to the Issue and the Equity Shares

- 59. *Our funding requirements and proposed deployment of the Net Proceeds of the Issue have not been appraised by a bank or a financial institution or any external agency and if there are any delays or cost overruns, our business, results of operations, financial condition, and cash flows could be adversely affected.***

We intend to use the Net Proceeds for the purposes described in “*Objects of the Issue*” on page 106. The objects of the Issue have not been appraised by any bank or financial institution or any external agency. While a monitoring agency will be appointed for monitoring the utilization of the Net Proceeds and submitting its report on a quarterly basis, in accordance with Regulation 41 of the SEBI ICDR Regulations, the proposed utilization of the Net Proceeds is based on current circumstances of our business, internal management estimates, prevailing market conditions and are subject to changes in external circumstances or costs, such as financial and market conditions, market feedback and demand of our projects, competition, business strategy and interest rate fluctuations, which may not be within our control. or in other financial condition, business or strategy. Based on the competitive nature of our industry, we may have to revise our business plan and/or management estimates from time to time and consequently our funding requirements may also change. Our internal management estimates may exceed fair market value which may require us to reschedule or reallocate our capital expenditure, subject to applicable laws, and may have an adverse effect on our business, results of operations, financial condition, and cash flows.

Further, pending utilization of the Net Proceeds towards the objects of the Issue, we will have to temporarily deposit the Net Proceeds with one or more scheduled commercial banks listed in the Second Schedule of Reserve Bank of India Act, 1934, in a manner as may be approved by our Board. Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of the Net Proceeds.

Further, pursuant to Section 27 of the Companies Act and other applicable law, any variation in the Objects of the Issue would require a special resolution of the shareholders and the promoter or controlling shareholders will be required to provide an exit opportunity to the shareholders who do not agree to such proposal to vary the Objects of the Issue, at such price and in such manner in accordance with applicable law.

- 60. *The determination of the Price Band is based on various factors and assumptions and the Issue Price of the Equity Shares, market capitalization and price to earnings ratio based on the Issue Price of the Equity Shares, may not be indicative of the market price of our Company upon listing or thereafter.***

Our revenue from operations and loss for the Financial Year 2024 were ₹19,229.84 million and ₹1,138.06 million, respectively. Our market capitalization to revenue from operations for the Financial Year 2024 multiple is [●] times at the upper end of the Price Band and [●] times at the lower end of the Price Band, and our price to earnings ratio multiple for Financial Year 2024 is [●] times at the upper end of the Price Band and [●] times at the lower end of the Price Band. Further, our price to earnings ratio and market capitalization to revenue from operations at the Issue Price is [●] and [●] times, respectively. The Issue Price, multiples and ratios may not be indicative of the market price of our Company on listing or thereafter. The relevant financial parameters based on which the Price Band would be determined, shall be disclosed in the advertisement that would be issued for publication of the Price Band.

Prior to the Issue, there has been no public market for the Equity Shares. Pursuant to the Issue and upon listing of the Equity Shares, it is possible that an active trading market on the Stock Exchanges may not develop or be liquid. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Any valuation exercise undertaken by us for the purposes of the Issue is not based on a benchmark against our industry peers. The relevant financial parameters based on which the Price Band will be determined will be disclosed in the advertisement that will be issued for the publication of the Price Band.

The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India or globally, announcements by us or our competitors of significant acquisitions, strategic alliances, our competitors launching new healthcare services, announcements by third parties or governmental entities of significant claims or proceedings against us, volatility in the securities markets in India and other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. The occurrence of one or more of these factors may cause the market price of the Equity Shares to decline below the Issue Price.

61. *Subsequent to the listing of the Equity Shares, we may be subject to surveillance measures, such as the Additional Surveillance Measures and the Graded Surveillance Measures by the Stock Exchanges in order to enhance the integrity of the market and safeguard the interest of investors.*

Subsequent to the listing of the Equity Shares, we may be subject to Additional Surveillance Measures (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchanges and the Securities and Exchange Board of India. These measures have been introduced to enhance the integrity of the market and safeguard the interest of investors. The criteria for shortlisting any security trading on the Stock Exchanges for ASM is based on objective criteria, which includes market-based parameters such as high low price variation, concentration of client accounts, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. A scrip is subject to GSM when the share price is not commensurate with the financial health and fundamentals of the company. Specific parameters for GSM include net worth, net fixed assets, price to equity, market capitalization and price to book value, among others. Factors within and beyond our control may lead to our securities being subject to GSM or ASM. In the event the Equity Shares are subject to such surveillance measures implemented by SEBI and the Stock Exchanges, we may be subject to certain additional restrictions in connection with trading of the Equity Shares such as requiring higher margin requirements, requirement of settlement on a trade for trade basis without netting off, limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading, as well as mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. The imposition of these restrictions and curbs on trading may have an adverse effect on the market price of the Equity Shares or may in general cause disruptions in the development of an active trading market for the Equity Shares.

62. *Fluctuations in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of the Equity Shares, independent of our operating results.*

On listing, the Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of the Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the proceeds received by Equity Shareholders. For example, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on the Equity Shares, independent of our operating results.

63. *Any sale of Equity Shares by our Promoters or future issuance of Equity Shares, or convertible securities or other equity-linked securities by us may dilute your shareholding and adversely affect the trading price of the Equity Shares.*

We may be required to finance our growth through future equity offerings. Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us, including through exercise of employee stock options, to the extent applicable, may dilute your shareholding in our Company. Any sale of the Equity Shares by our Promoters or future equity issuances by us could adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of the

Equity Shares. We cannot assure you that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

64. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.*

Under the Companies Act, a company having share capital and incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the Equity Shares voting on such resolution. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. Furthermore, to the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in our Company would be diluted.

65. *Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.*

Our Company has not declared dividends on Equity Shares in the past. Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flow, working capital requirements, capital expenditure, restrictive covenants of our financing arrangements and overall financial position of our Company. The declaration and payment of dividends will be recommended by the Board of Directors and approved by the Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act. We cannot assure you that we will be able to pay dividends in the future. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

66. *QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Investors and Eligible Employees are not permitted to withdraw their Bids after closure of the Bid/ Issue Closing Date.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of equity shares or the Bid Amount) at any stage after submitting a Bid. Similarly, Retail Individual Investors and Eligible Employees can revise or withdraw their Bids at any time during the Bid/Issue Period and until the Bid/ Issue Closing Date, but not thereafter. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within three Working Days from the Bid/ Issue Closing Date or such other period as may be prescribed by the SEBI, events affecting the investors' decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment.

We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the investors' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing. Therefore, QIBs and Non-Institutional Investors will not be able to withdraw or lower their bids following adverse developments in international or national monetary policy, financial, political, or economic conditions, our business, results of operations, cash flows, or otherwise between the dates of submission of their Bids and Allotment.

67. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue.*

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. The Allotment of Equity Shares in the Issue and the credit of such Equity Shares to the applicant's demat account with depository participant and listing is expected to commence within the period as may be prescribed under the applicable laws. Any failure or delay in obtaining the approval or otherwise any delay in commencing trading in the Equity Shares would restrict investors' ability to dispose their Equity Shares. We cannot assure that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods prescribed under applicable law.

The aforesaid fund requirements, deployment of funds and the intended use of the Net Proceeds as described in this Draft Red Herring Prospectus are based on our current business plan, management estimates, current market conditions and other commercial and technical factors including interest rates and other charges, and other financing arrangements entered into by us. We may have to revise these estimates on account of a variety of factors such as our financial and market condition, business and strategy, competition and other external factors such as changes in the business environment and interest or exchange rate fluctuations, which may not be within the control of our management. Further, our Company's funding requirements and deployment schedules for the reduction of outstanding borrowings as stated hereinabove, are subject to revision in the future at the discretion of our management. See "Risk Factors - Our funding requirements and proposed deployment of the Net Proceeds of the Issue have not been appraised by a bank or a financial institution or any external agency and if there are any delays or cost overruns, our business, results of operations, financial condition, and cash flows could be adversely affected" on page 69.

Our Company proposes to deploy the entire Net Proceeds towards the aforementioned objects during Fiscal 2025. In the event that the estimated utilization of the Net Proceeds in a scheduled fiscal year is not completely met due to the reasons stated above, such funds shall be utilised in the next fiscal year, as may be determined by our Company, in accordance with applicable law. In case the actual utilisation towards any of the Objects is lower than the proposed deployment such balance will be used towards general corporate purposes to the extent that the total amount to be utilised towards general corporate purposes will not exceed 25% of the Gross Proceeds in accordance with the SEBI ICDR Regulations.

Further, in case of variations in the actual utilisation of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Issue. In the event that the estimated utilisation of the Net Proceeds in a scheduled Financial Year is not completely met, due to the reasons stated above, the same shall be utilised in the next Fiscal Year, as may be determined by our Company in accordance with applicable laws.

Means of Finance

No amounts are proposed to be raised through any other means of finance and the entire requirement of funds for the Objects of the Issue are proposed to be met from the Net Proceeds. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance as prescribed under Regulation 7(1)(e) of the SEBI ICDR Regulations and Paragraph 9(C)(1) of Part A of Schedule VIII of the SEBI ICDR Regulations. In case of a shortfall in the Net Proceeds or any increase in the actual utilisation of funds earmarked for the Objects, our Company may explore a range of options including utilizing our internal accruals and/or seeking additional debt from existing and/or other lenders, subject to compliance with applicable law.

Details of the utilization of Net Proceeds

1. Repayment/pre-payment, in full or in part, of certain borrowings availed by our Company and our Subsidiaries

We avail a majority of our fund-based and non-fund-based facilities in the ordinary course of business from various banks, financial institutions and other entities. The borrowing arrangements entered into by us include, *inter alia*, term loans, working capital loans and non-convertible debentures. For further information on the financial indebtedness of our Company, see “*Financial Indebtedness*” on page 574. As of June 30, 2024, we had total borrowings of ₹1,07,476.90 million. We propose to utilise a portion of the Net Proceeds aggregating to ₹11,925.00 million for repayment, prepayment or redemption, of all or a portion of borrowings availed by our Company and some of our Subsidiaries.

Pursuant to the terms of the borrowing arrangements, prepayment of certain indebtedness may attract prepayment charges as prescribed by the respective lender. Such prepayment charges, as applicable, will also be funded out of the Net Proceeds. Given the nature of the borrowings and the terms of repayment or prepayment, the aggregate outstanding amounts under the borrowings may vary from time to time and we may, in accordance with the relevant repayment schedule, repay or refinance some of the existing borrowings prior to Allotment or avail of additional credit facilities.

Further, the outstanding amounts under these borrowings as well as the sanctioned limits are dependent on several factors and may vary with our business cycle with multiple intermediate repayments, drawdowns and enhancement of sanctioned limits. Accordingly, our Company may utilise the Net Proceeds for repayment/prepayment or redemption of any such refinanced facilities (including any prepayment fees or penalties thereon) or any additional facilities obtained by our Company and its Subsidiaries. However, the aggregate amount to be utilised from the Net Proceeds towards prepayment, repayment or redemption of borrowings (including refinanced or additional facilities availed, if any), in part or full, will not exceed ₹11,925.00 million. In light of the above, at the time of filing the Red Herring Prospectus, the table below shall be suitably updated to reflect the revised amounts or loans, as the case may be. We believe that such repayment, prepayment or redemption will help reduce our outstanding indebtedness on a consolidated basis and debt servicing costs and enable utilization of the internal accruals for further investment towards business growth and expansion. In addition, we believe that repayment/prepayment of the loans will add to the profitability of our Company due to reduced finance cost and also the improvement in the debt-to-equity ratio of our Company is intended to enable us to raise further resources in the future to fund potential business development opportunities and plans to grow and expand our business in the future.

The selection of borrowings proposed to be prepaid, repaid or redeemed amongst our borrowing arrangements availed will be based on various factors, including (i) commercial considerations including, among others, the amount of the loan outstanding, rate of interest/redemption premium and the remaining tenor of the loan, (ii) any conditions attached to the borrowings restricting our ability to prepay/ repay the borrowings and time taken to fulfil, or obtain waivers for fulfilment of such conditions, (iii) cost of the borrowing, including applicable interest rates (iii) receipt of consents for prepayment from the respective lenders and terms and conditions of such consents and waivers and (v) levy of any prepayment penalties/premium and the quantum thereof and other related costs and (vii) nature and/or repayment schedule of borrowings. We will approach the relevant lenders after completion of this Issue for repayment/prepayment of the borrowings.

Description on the historic use of the KPIs by our Company to analyse, track or monitor the operational and/or financial performance of our Company

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs is not intended to be considered in isolation or as a substitute for the Restated Consolidated Financial Information. Some of these KPIs are not defined under Ind AS and are not presented in accordance with Ind AS. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies, including peer companies, and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS measures or as an indicator of our operating performance, liquidity, profitability or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial measures prepared in accordance with Ind AS.

For details of our other operating metrics disclosed elsewhere in this Draft Red Herring Prospectus, see sections titled "Our Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" starting on pages 197 and 540, respectively. We have described and defined the KPIs, as applicable, in "Definitions and Abbreviations – Technical and Industry Related Terms" on page 14. Bidders are encouraged to review the Ind AS financial measures and not to rely on any single financial or operational metric to evaluate our business. For further details, see "Risk Factors – Significant differences exist between Ind AS used to prepare our financial information and other accounting principles, such as IFRS and US GAAP, with which investors may be more familiar" on page 65.

OVERVIEW OF INDIAN ECONOMY

India is the fastest growing large economy in the world and is expected to be one of the top economic powers in coming decade. Real estate sector along with its ancillary industries is a significant growth driver of Indian economy. India’s residential real estate market has been growing steadily over past few years and the sector is expected to play a significant role in India’s economic growth in upcoming years.

INDIAN ECONOMY – KEY MACRO FACTORS AND THE GROWTH DRIVERS FOR THE INDIAN REAL ESTATE SECTOR

GDP GROWTH

India is the fastest-growing large economy in the world. IMF has termed India as the “Star Performer” and its contributing to more than 16% of global growth this year, in it’s current projections. In 2022, India overtook the UK to become the world’s fifth biggest economy, after the US, China, Japan. and Germany. With a robust 7.8% in 2023, India’s resilience amidst global challenges is evident. Strong domestic fundamentals, financial year policies emphasizing capital expenditure, and structural reforms have bolstered economic stability. The residential housing sector experienced a resurgence since 2021, driven by income growth and improved affordability. Despite a 250 bps increase in the policy repo rate by the Reserve Bank between May 2022 and February 2023, housing demand remained strong, highlighting its structural nature.

The real GDP is estimated to have grown at 7.8% in 2023, and is projected to grow at 6.8% in 2024 and 6.5% in 2025, the highest among major global economies.

The following graph sets forth real GDP growth rate of India from 2014 to 2025 (forecasted).

The real estate market in India has grown at a CAGR of approximately 10.83% from US\$50 billion in 2008 to US\$180 billion in 2020 and is expected to further to reach US\$1 trillion by 2030 and touch US\$5.8 trillion by 2047. By 2025, it is estimated to contribute 13% to the country's GDP.

The graph below shows the size of India's Real Estate Market from 2008 to projected levels of 2047:

IMPROVING EDUCATION LEVELS AND INCREASING PER CAPITA INCOME GROWTH

India has witnessed substantial improvement in education levels both, in higher education as well as school education. India's education index, which is an indicator of school education, exhibited a growth of 46% in the last two decades. In addition, there has been considerable improvement in the quality of higher education in India. As per 2023-2024 All India Council for Technical Education ("AICTE") data, there are to 8,264 institutes across various disciplines, including engineering, management, hotel management and applied arts, which are affiliated with AICTE. On an average, close to a 1.5 million students graduate from these institutes every year and approximately 0.8 to 1 million students are directly placed from these institutes every year in white-collar jobs, which create wide demand base for mid-end housing.

The following graph sets forth total number of placements (in lakhs) from AICTE affiliated institutes from Financial Year 2012-13 to Financial Year 2022-23:

Figure 4

Source: AICTE

Improvement in overall education level leads to better job prospects and enhancement in standard of living. With improvements in socio-economic parameters, India's per capita gross national income ("GNI") has also increased at a CAGR of over 8% over the Financial Years 2013-14 to 2021-22, is expected to grow at similar rate over the Financial Years 2019-20 to 2031-32 and drive demand for real estate development. Despite the global slowdown in tech and related spaces, MNCs continued to repose faith in India due to its attractive talent pool and have opened 1,550 GCCs as of 2023, creating approximately 1.9 million jobs. Also, the Production Linked Incentive ("PLI") Scheme was launched by the current government to boost Indian Manufacturing. It offers incentives to eligible firms on incremental sales for five years as part of the Make in India initiative which aims to reduce India's dependence on foreign countries like China and increase employment in labour-intensive sectors. This has created another engine for growth and job creation i.e. manufacturing alongside the services sector resulting in strong job sentiments and prospects for long-term sustainable income growth.

The following graph sets fourth year-on-year trend for per capita GNI in India:

URBANIZATION AND URBAN HOUSING SHORTAGE

It is a globally established fact that demographic shifts fundamentally affect the demand for real estate. Along with rising population, India's urbanization rate is also increasing at a fast pace. As per UNDP projections, by 2046 approx. 50% of population in India will be urban. However, rapid urbanization is expected to drive the demand for housing, offices and other real estate asset classes in the medium – long term. UNDP has projected that there will be 8 cities with a population of 10 million and above by the year 2035 in India, highlighting the unmet housing demand.

GROWING INCOME LEVELS IMPACTING HOUSING DEMAND IN INDIA

A World Economic Forum report predicts India's transition from a bottom-of-the-pyramid to a middle-class economy, with over 100 million households moving to Upper Mid Income and Higher Income brackets by 2030. These households, key home buyers, are expected to drive housing demand, potentially exceeding 100 million units over the decade.

Note: Low income: <2.5 lac, Lower-mid: 2.5-5.5 lakhs, Upper-mid: 5.5-27.5 lakhs, High income: >27.5 lakhs basis income per household in real terms; Projections with annual GDP growth assumed at 7.5%

IMPROVING DEMOGRAPHIC DIVIDEND

According to a United Nations Population Fund (“UNFPA”) report, India had 61% of its population aged 15-59 in 2011, a figure set to peak around 2036 at approximately 65%. This increase in the young population has led to a declining dependency ratio, marking India's entry into a demographic dividend phase. UNFPA defines demographic dividend as the economic growth potential resulting from shifts in age structure, particularly when the working-age population (15-59) outweighs the non-working-age population (14 and younger or 65 and older).

Figure 1

Source: 'An Assessment of Demographic Dividend in India and its Large States' by P. M. Kulkarni, 2017'. A study commissioned by UNFPA

When a country enters the demographic dividend phase, it presents an opportunity for economic growth. Japan, China, and South Korea have successfully leveraged this potential for economic development. Urbanization and age distribution are key factors driving real estate demand. India, with a growing urban population and a relatively young demographic compared to developed nations, is poised to remain a significant market for residential and other asset classes due to its large workforce.

NUCLEARIZATION OF FAMILIES

India's households have been shrinking in size over recent decades, a trend expected to persist. This is largely due to the rise of nuclear families. As more households' form and consumption increases within these smaller units, housing demand continues to grow. The following graph sets forth the average household size for select Indian cities:

POLICY LEVEL INITIATIVES AND REFORMS IN THE REAL ESTATE SECTOR

The Central and State Governments, along with the RBI, have supported the real estate sector post-COVID-19. Key actions include:

- **Robust Demand Despite Mortgage Rate Increases:** The RBI raised repo rates by 250 bps between May 2022 and February 2023. Rates have remained unchanged at 6.5% since June 2023 due to easing inflation.
- **Loan Restructuring:** In August 2020, the RBI allowed one-time restructuring of loans, helping real estate developers manage debt.
- **Extended Repayment Periods:** Developers received an additional year for loan repayments, reducing stress on Real Estate focused NBFCs. An ₹50,000 crore window under targeted long-term repo operations was also provided for liquidity.
- **National Housing Bank Funding:** In August 2020, ₹10,000 crore was allotted to the National Housing Bank to ease liquidity for housing finance companies and developers.
- **Stamp Duty Reduction:** The Maharashtra government reduced stamp duty from 5% to 2% (September-December 2020) and to 3% (January-March 2021), boosting property sales. Despite a return to 5% in April 2021, sales remained strong.
- **Prime Minister Awas Yojana (PMAY Urban):** An additional ₹18,000 crore was allocated to support affordable housing.
- **SWAMIH Fund:** Over ₹13,200 crore was invested in stalled projects, benefiting 87,000 homebuyers and funding 108 developments.
- **Premium Discounts for Builders:** Maharashtra offered a 50% reduction in real estate premiums for builders in 2021, which was extended till March 2022.
- **Property Tax Waiver:** The Maharashtra government waived property tax for homes up to 500 sq. ft. in Mumbai, benefiting 1.61 million flats.

CONSOLIDATION OF REAL ESTATE SECTOR DUE TO REGULATORY CHANGES

Consolidation in the Real Estate Sector Due to Regulatory Changes

To improve transparency and address challenges in the residential real estate sector, the government introduced several measures:

- **Real Estate (Regulation and Development) Act, 2016 (RERA):** Enforced in May 2016, RERA aimed to enhance transparency, financial discipline, and accountability. Key features include mandatory project registration, escrow accounts for funds, and timelines for project completion.
- **GST Implementation:** Introduced on July 1, 2017, GST simplified taxation. Post-April 2019, GST rates were reduced to 5% for under-construction properties and 1% for affordable housing.
- **Benami Transactions (Prohibition) Amended Act 2016:** Aimed at curbing unaccounted cash transactions and increasing transparency.
- **Demonetization:** The 2016 ban on ₹500 and ₹1,000 notes helped organize the sector by reducing black money.
- **Reduced Capital Access for Unorganized Developers:** Post-2018, NBFCs reduced funding for under-construction projects, affecting those smaller and unorganized developers who acted as fly-by-night operator, and favouring developers with proven track records with better access to bank loans.
- **Impact:** The Indian real estate sector has witnessed consolidation in the past few years. With the implementation of RERA, the financially weak developers were not able to adhere to compliance norms and were, therefore, either going out of business or consolidating with larger players. The liquidity crisis further worsened the situation for such developers, which resulted in an increase in share of new launches by branded developers. According to Anarock, the share of new launches by tier-1 developers increased from approximately 41% in 2015 to approximately 56% in 2018, which further increased in 2019 on account of the liquidity crisis.

The following graph sets forth percentage decline in the number of developers in select Indian cities between 2012 and 2019:

Figure 12

Source: Anarock Research

According to Anarock, the consolidation of developers has been continuing in post-pandemic era, with many weak players ceasing to exist. This will enable the larger branded players to outpace industry growth over the longer term. Post structural changes, consolidation is on a rise and the share of organized and branded players is rising. Leading developers have shown an increase in share from 17% in Financial Year 2017 to 34% in H1 Financial Year 2024, thus highlighting that the branded developers are increasing the share in the market.

Figure 13

Source: Companies, Anarock Research

Note: Sales share based on no. of units sold

Branded tier-1 developers are witnessing strong double-digit growth. It is likely that in the near to medium term consolidation will further accelerate and listed players will see disproportionate growth vis-a-vis the industry.

KEY OBSERVATIONS IN THE HOUSING FINANCE SECTOR

Improving Affordability Index

According to HDFC's Q4 Financial Year 2023 report, government policies and rising household incomes have significantly improved affordability to its best level in over two decades. Increased incomes alongside stable housing prices have led to a notable rise in affordability, with the ratio improving from 22 in 1995 to 3.3 in 2023. A lower affordability ratio indicates greater affordability. The following graph sets forth housing affordability trend:

Increasing Home Loan Penetration

Housing finance penetration witnessed improvement in 2020. The trend of housing finance penetration in urban areas suggests that urban areas will likely have a relatively greater share of future growth in housing finance almost reaching 50% of the total population.

The following graph shows the housing finance penetration in India from 2011 – 2020:

NOTABLE DEVELOPMENTS IN REAL ESTATE SECTOR

Changing Consumer Preferences in Terms of Under Construction / Ready Homes and Branded / Local Developers

As per consumer surveys conducted by Anarock, real estate was the most preferred asset class among other investments. From H2 2019 to H2 2023, the preference of buyers towards real estate as an investment option have remained stable.

Figure 16

Source: Anarock Homebuyer Sentiment Survey, H2-2023

Note: All the figures in the above graph are as per Calendar Year (CY)

Consumer Preference for Branded vs. Local Developers

Homebuyers now prefer to buy units in projects launched by branded developers since such developers focus on delivering quality units within committed timelines, thereby improving buyer's confidence. As per Consumer sentiment survey conducted by Anarock in 2021, majority of customers have become risk averse, which is driving demand for branded developers with low execution risk, even though their projects are priced at a premium. Further, it has been seen that post-COVID, the new supply has been largely dominated by branded developers including listed and leading unlisted developers and buyers are considering it safe to buy from them.

Consumer Preference for Under Construction vs. Ready Homes

Projects nearing completion are more in demand. One primary reason behind this shift is the increased supply of new developments from large and listed developers. These established developers have garnered higher confidence among prospective homebuyers due to their reputation for timely development delivery. In the past, new launches were mostly dominated by smaller players, leading to numerous delays in development completion, which eroded buyer confidence. Consequently, buyers favoured ready homes.

RELEVANCE OF SUSTAINABILITY AND GREEN BUILDING INITIATIVES ON REAL ESTATE

India's construction and development sector is booming, but often at the expense of the environment and human well-being. The urgent need for sustainable green buildings has emerged to mitigate these impacts, conserving resources and fostering healthy living conditions. The COVID-19 pandemic underscored the importance of safe and resilient homes, further driving the shift towards sustainable building practices.

Green buildings offer a host of benefits, including reduced water and energy consumption, lower operating costs, improved air quality, and enhanced well-being for occupants. The Indian Green Building Council (IGBC), established in 2001 by the Confederation of Indian Industry (CII), promotes green building concepts nationwide. IGBC offers various green ratings tailored to different building types, including Green Homes for residential, Green New Buildings for commercial, Green Townships for large developments, and Green Landscapes for parks and gardens. These ratings drive sustainable development, aligning with IGBC's vision of a sustainable built environment for India by 2025.

The table below shows the total number of projects and total built-up area (in msf) that have adopted IGBC Green Ratings at the MMR level, Mumbai / Municipal Corporation of Greater Mumbai ("MCGM") level and Thane level till December 2023:

At MMR Level:

Particulars	Total no of projects	Built-up Area (in msf)
Residential	541	357.48
Commercial	76	32.51
Township	11	78.4
Landscape	3	NA

The table highlights that developers are steadily adopting developing green buildings. Further, Residential Sector can contribute significantly in climate change mitigation by adopting sustainable initiatives.

Unified DCPR provides following incentives to green building projects:

 - GRIHA Three Star/ IGBC Silver / LEED Silver or equivalent rating - 3% incentive FSI on base FSI.

- GRIHA Four Star/IGBC Gold/LEED Gold or equivalent rating - 5% incentive FSI on base FSI.
- GRIHA Five Star/ IGBC Platinum/ LEED Platinum or equivalent rating - 7% incentive FSI on base FSI.
- Incentive FSI will be awarded after pre-certification from an authorised agency emplaned with the ULBs. This FSI shall be exclusive of the limits specified in the Unified DCPR.
- In case that the developer fails to achieve committed rating as per pre-certification at the time of final occupancy, a penalty shall be imposed at the rate 2 times of the land cost as per ASR for the incentive FSI for the rating not achieved.

MUMBAI METROPOLITAN REGION (MMR) OVERVIEW

MUMBAI METROPOLITAN REGION – INTRODUCTION

Mumbai, India's commercial and financial capital, hosts the country's two main stock exchanges, accounting for most securities trading. It handles over half of India's foreign trade, generates over 6% of the GDP, and a third of tax revenues. As the entertainment hub, it also has a thriving media and film industry. Key sectors include BFSI, engineering, services, IT/ITeS, and logistics. Major financial institutions and conglomerates like BSE, RBI, NSE, LIC, Tata, Birla, Godrej, and Reliance are headquartered here.

Mumbai is a significant real estate market with diverse micro-markets, including the city, suburbs, extended suburbs, and areas like Thane and Navi Mumbai. Recent infrastructure enhancements include the Mumbai Trans Harbour Link, Monorail, Metro (Line 1), Metro Line 2A, Line 7, and the Coastal Road.

Key Demand Drivers:

Employment Generation:

MMR drives employment in both organized and unorganized sectors, impacting housing demand, particularly in suburban areas.

Social Infrastructure:

MMR offers top healthcare, education, retail, and recreational facilities, boosting housing demand due to improved quality of life.

Migration Patterns:

Significant migration from Greater Mumbai to suburbs and peripheries, especially Thane, due to affordability and better infrastructure, has spiked housing demand in these areas.

RESIDENTIAL Micro-markets – MMR

Mumbai's growth pattern follows north-south corridors along railway lines, with suburbs flourishing along the Western and Central lines. Redevelopment of mill lands spurred commercial growth in Central Mumbai, while Bandra Kurla Complex and Andheri-Goregaon emerged as key office districts, boosting the popularity of Western Suburbs for residential living. The city's connectivity with tier II and III cities via air, road, and rail networks reinforces its status as India's financial hub.

Supply (₹ Crores)	31,708	24,950	37,467	1,03,059	97,032

Figure 33

Source: Anarock Research

Note: The percentage of price premium is a range of the micro market which is comprising universe of projects of varied price bracket. Hence the range is slightly broader.

Further, Branded developers also have an edge over Tier 2 developers in terms of sales velocity. With increase in buyers' preference for branded developers who are selling the appropriate product at right price points, branded developers command higher sales velocity at the time of launch as compared to Tier 2 developers. Hence, they are likely to have limited dependency on construction finance for project completion.

Some of the noteworthy examples where branded players witnessed healthy sales in MCGM are given.

PUNE RESIDENTIAL REAL ESTATE OVERVIEW

PUNE - INTRODUCTION

Pune is the second-largest city in Maharashtra, after Mumbai. It is the ninth most populous city in the country with an estimated population of 3.13 million alone in Pune City as per the 2011 census.

Along with its extended city limits, i.e., Pimpri-Chinchwad and the three cantonment towns of Pune, Khadki, and Dehu Road, Pune forms the urban core of the Pune Metropolitan Region (PMR). According to the 2011 census, the urban area has a combined population of 5.05 million.

Pune is ranked the number 'two' city in India after Bengaluru, in the ease of living ranking index (Source: As per the Ease of Living Index 2020 released by the ministry of housing and urban affairs (MoHUA) for 111 cities in terms of "liveability").

Growth and Demand Drivers of Pune Real Estate include:

1. Rapidly Growing IT/ITES industry

The Rajiv Gandhi InfoTech Park in Hinjewadi is an ₹60,000 crores project by the Maharashtra Industrial Development Corporation (MIDC). The IT Park encompasses an area of about 2,800 acres (11 km²) and is home to over 800 IT companies of all sizes. Besides Hinjewadi, IT companies are also located in Magarpatta, Kharadi, and several other parts of the city.

2. Established industrial (engineering and automobile) hub in western India

Pune has the eighth-largest metropolitan economy and the sixth-highest per capita income in the country. Pune is one of the major industrial and trade and commerce hubs of western India. The key pillars of the local economy in addition to IT/ITeS are Manufacturing (Auto and Auto – Ancillary and Engineering) sectors. The engineering and the automotive sector along with the OEMs (Original Equipment Manufacturers) are prominent in Pune. Extended nodes of Pune such as Chakan and Talegaon have seen growth in logistics, e-commerce, and warehousing activities. The workforce working there has contributed to the housing demand for the mid and affordable category at the projects in Northern Suburbs.

3. Strong education base and the presence of several reputed research organizations.

The city is considered to be the "Oxford of the East" due to the presence of several well-known educational institutions. The city has emerged as a major educational hub in recent decades, with nearly half of the total international students in the country studying in Pune. Research institutes of information technology, education, management, and training attract students and professionals from India and overseas.

4. Excellent connectivity with the improvement in the infrastructure projects

The city is connected well by road, rail, and air.

However, to match the pace of city developments select infrastructure projects such as Metro Rail Phase 1 (PCMC – Swargate) and Phase 2 (Vanaz – Ramwadi) became operational recently. Select phases of the same are under construction and will be operational in upcoming years to improve the connectivity further.

On the road connectivity with Mumbai, the development agency 'MSRDC' is developing a tunnel road from Khopoli to the Sinhgad Institute section. With this, Mumbai Pune Expressway is set to save commuters 25-30 minutes of travel time and cut the distance of the stretch from 19 km to 13.3 km.

OVERVIEW OF REDEVELOPMENT PROJECTS

NEED OF REDEVELOPMENT

Mumbai, particularly in South Central and select Western Suburbs areas like Bandra, Santacruz, Khar, and Juhu, faces scarce land for greenfield development. New projects primarily stem from redevelopment initiatives, including old residential properties, industrial sites, conglomerate-owned land, and slums. Major agencies spearheading these projects include:

SLUM REHABILITATION AUTHORITY (SRA)

Slum rehabilitation projects unlock land potential, offering slum dwellers better living conditions and quality housing. Eligible residents receive improved lifestyles and support amenities. To cross-subsidize developers, incentive FSI is granted for free sale.

Type of Development	Rule	FSI Permitted
Slum Rehabilitation Authority (SRA)	Occupiers in slums receive a minimum of 300 sq. ft. carpet area of each unit.	The maximum FSI permitted is 4.

MAHARASHTRA HOUSING AND AREA DEVELOPMENT AUTHORITY (MHADA)

MHADA, a government body, constructs residential houses under housing schemes for different societal segments. It offers lottery schemes annually, providing low-cost housing units in specified areas to EWS, LIG, MIG, and HIG categories.

Development Control Rule	Type of Development	Rule	FSI Permitted
33(5)	Maharashtra Housing and Area Development Authority (MHADA) Layout	For New housing scheme 60% BUA in such scheme shall be in the form of tenements under the EWS, LIG, and MIG categories	<ul style="list-style-type: none">Approved FSI 3 on a gross plot areaThe maximum FSI approved is 4 for the area more than 4000 sq. m or above which abuts on roads having a width of 18.00 m
		For the redevelopment of existing housing schemes of MHADA	<ul style="list-style-type: none">Approved FSI 3 on a gross plot areaThe maximum FSI approved is 4 for plot area more than 4000 sq. m or above which abuts on roads having the width of 18.00 m

REDEVELOPMENT OF CESSSED BUILDINGS

The buildings are owned by private landlords and are regulated by the Bombay Rent Control Act. These buildings pay cess or tax as a repair fund. Most of the buildings falling under the act are located within South and Central Mumbai.

Development Control Rule	Type of Development	Rule	FSI Permitted
33(7)	Cess Building	<ul style="list-style-type: none">For rehabilitation, the occupants receive a minimum of 300 sq. ft. carpet area of unit.Applicable for cesssed buildings existing before 30/9/1969.	<ul style="list-style-type: none">FSI permitted is 3 on the gross plot area.FSI required for rehabilitation of existing tenant + 50% incentive FSIOccupier eligible for additional 5% additional rehabilitation carpet area

**Note –*

1. 33(7) is used for the redevelopment of Cess buildings in island city by co-operative housing societies

2. Under cess building landlord is not liable for taking ownership of the repair in the apartment, the repair and maintenance are done by Mumbai Repair and Reconstruction board as a certain amount as cess repair is charged every month for the maintenance from tenants.

REDEVELOPMENT OF DILAPIDATED/UNSAFE BUILDING

To improve the habitation of people living in dilapidated conditions, the state government provides incentive FSI to developers for redevelopment of such properties.

Development Control Rule	Type of Development	Rule	FSI Permitted
33(7)A	Dilapidated/Unsafe Building	Only tenant occupied building	<ul style="list-style-type: none"> FSI required for rehabilitation of existing tenant + 50% incentive FSI Occupier eligible for additional 5% additional rehabilitation carpet area
	Composite Development	Tenant occupied building with non-tenanted building	<ul style="list-style-type: none"> FSI required for rehabilitation of existing tenant + 50% incentive FSI + FSI authorized to the non-tenanted building.

**Note – 33(7)A is used for dilapidated/unsafe existing authorized tenant-occupied buildings in suburbs and extended suburbs and existing non-cessed tenant-occupied buildings.*

REDEVELOPMENT OF RESIDENTIAL HOUSING SOCIETIES

Development Control Rule	Type of Development	Rule	FSI Permitted
33(7)B	Residential housing societies	Excluding Buildings Covered under 33(7) and 33(7) A.	Existing tenants proposed to re-accommodate on same plot receives an additional incentive BUA of 15% of existing BUA or 10 sq. m. per tenant (whichever is more without premium).

**Note – 33(7)B is used for existing residential housing societies where the building age should be more than 30 years and the existing members of the societies are proposed to be re-accommodated.*

PERMANENT TRANSIT CAMP FOR TENEMENTS FOR SLUM REHABILITATION SCHEME:

Development Control Rule	Type of Development	Rule	FSI Permitted
33(11)	Transit Camp for SRA scheme	Transit tenements for SRA	Total FSI on plot area may be allowed to be exceeded upto 4 for construction of Transit Camp tenements for SRA.

CHALLENGES FACED BY REDEVELOPMENT PROJECTS

Major challenges identified with redevelopment projects are:

- **Stakeholder management:** Obtaining consent from 51% of existing tenements is time-consuming.
- **Differing opinions:** Disagreements among residents delay selection of a developer.
- **Documentation gaps:** Lack of proper land ownership documents hinders private society redevelopment.
- **Negotiation challenges:** Developers negotiate eligibility and additional benefits with existing tenements.
- **Development norm revisions:** Changes in FSI allowance and development plans impact project timelines, especially in SRA projects.
- **Involvement of local developers:** Trust, accountability, and financial stability issues arise with non-branded developers.
- **Construction quality:** Maintaining quality is crucial; some developers compromise to save on expenses.

IMPORTANCE OF EXPERIENCE IN REDEVELOPMENT

A reputable real estate developer can offer the necessary expertise, resources, and vision to successfully complete the project. Key factors to consider are the developer's experience, financial stability, and reputation. Examining their portfolio and past redevelopment projects will provide insight into their construction quality and adherence

to timelines. Transparency and capacity are crucial for building residents' trust and confidence in the developer's dedication to the project. A proactive approach by the developer is essential for ensuring a smooth process and uniting all residents around a common goal.

Surat district falls within the influence zone of the Delhi- Mumbai Industrial Corridor (DMIC). The proposed Surat-Navsari Industrial Area is the 15th node of the DMIC. The implementation of DMIC in the district is expected to further strengthen Surat’s economic base by activating local commerce, enhancing foreign investments, and attaining sustainable development. Further, numerous infrastructure initiatives are currently underway in the city, which will boost the overall real estate development here.

INFRASTRUCTURE INTERVENTIONS

Surat boasts excellent rail and road connections, sitting on the Ahmedabad–Vadodara–Mumbai railway line and intersected by National Highways 48 and 53. Despite limited air connectivity, it has a well-established Bus Rapid Transit System (BRTS), becoming the third city in Gujarat to adopt this system after Ahmedabad and Rajkot.

REAL ESTATE OVERVIEW OF KEY MICRO MARKETS

Surat's development is categorised as Old City (South of river Tapi, Central and South-East Zone) and New City (South-West and West Zone) wherein the space crunch in Old Surat led to development of newer regions. The Central zone includes areas such as Varachha, Saroli, Lal Darwaja, Ring Road, etc has large concentration of textile industries and diamond Cutting-Polishing centres.

The Old City is densely populated and has narrow lanes and old infrastructure whereas the new city has buildings with all the modern amenities. The Southwest zone is considered as the prime location within the city comprising areas such as Athwa lines, Piplod, Ghod Dod Road, Parle Point, Vesu and Dumas Road. Presence of key local developers such as Avadh Group, Sangini Group, Rajhans Group have their ongoing/completed projects in these sub-markets. Further, in the recent years, the activity has spilled over to locations such as Adajan, Palanpor and Pal which are located across Tapi River (viz. in the West zone of SMC limits).

Figure 78: Map of Old and New City of Surat

Base Map: Google Maps

There are two growth corridors in Surat: the Sachin-Palsana highway and the Surat-Dumas Road. Hazira Port and the upcoming DREAM City are the major growth drivers for both these corridors. Sub-markets such as Althan and Vesu, located along Sachin Palsana highway, are expected to be the direct beneficiaries of the upcoming DREAM City. Residential projects in both these sub-markets are already being marketed highlighting their proximity to the upcoming DREAM City. Ghod Dod Road and City Light Road is expected to continue to hold their prominence in real estate activity over the other sub-markets. Going forward, locations along Surat-Dumas Road are expected to witness significant real estate activity across all real estate classes.

Kalpataru has a land bank admeasuring approximately 1,603 acres in Abhva village, which is near to the DREAM City and Airport, enhancing the connectivity as well as fuelling potential real estate development at the subject property. Further, the location of the subject property lies in the South-West zone of Surat City. Hence, we have considered real estate activity taking place in South-West and West Zone for the purpose of this exercise. This land is with in Surat Municipal Corporation and also now included in the limits of Khajod Urban Development Authority (KHUDA) and Draft Development Plan, 2039 published by Khuda and submitted for sanction.

South-West Zone

Sub-markets such as Ghod Dod Road and City Light Road, are the established locations in the South-West zone, which ends at Parle Point on Surat Dumas Road. It houses offices, shopping malls and residential establishments. However, due to lack of space on this main artery of the city, there is little scope for new developments. A kilometre away from the end of Ghod Dod Road at Parle Point is City Light Road – one of the most well - established sub-markets in Surat, the area is sandwiched between Surat-Dumas Road and Magdalla - Udhana Road. This road houses high-rise apartments and even has a small commercial centre.

Surat-Dumas Road holds the real estate development together in this part of the city. This road has few residential developments but that is compensated by the fact that most roads merging on this road from the right, such as Udhana - Magdalla Road, Maharana Pratap Road and Vesu Main Road, have been witnessing developments on a massive scale. Althan and Vesu are the major sub-markets in this part of Surat that are witnessing maximum developments. Other sub-markets in this part of Surat that are witnessing real estate development on a limited scale are areas along Bamroli, Bhimrad and Magob.

Range of Capital Values in the key sub-markets in South-West Zone

Submarkets	Quoted Capital Value on Super Built-up Area (₹ / sq. ft.)	Quoted Land Price (₹ / sq. ft.)

Bhimrad	4,000 – 5,000

West Zone

Adajan is the most established micro-market in this part of Surat and offers scope for fresh developments. Most new developments in this part of the city are coming up in the sub-markets of Pal, Palanpur, Bhesan Road, Green City Road, Jahangirpura and Jahangirabad. The development of internal roads in most of these sub-markets are in progress. Residential developments in this part of Surat are cheaper compared to others that are coming up along Surat Dumas Road.

OVERVIEW OF PLOTTED DEVELOPMENT/WEEKEND HOMES

PLOTTED DEVELOPMENT/ WEEKEND HOME’ – INTRODUCTION

"Second Homes" have become sought-after investments, offering opportunities for asset diversification, holiday getaways, and rental income. With the shift to remote work post-Covid, demand for these properties has soared, particularly in tranquil settings. Reputed developers are capitalizing on this trend, offering diverse options and driving up property prices. Investors are drawn to offbeat locations for their potential for capital appreciation and the growing popularity of homestays among tourists and remote workers.

DEMAND DRIVER FOR PLOTTED DEVELOPMENT/ WEEKEND HOMES

The pandemic has revived interest in plotted developments and weekend homes near cities like Pune, Mumbai, and Nashik, driven by a desire for land ownership and customized living spaces amidst scenic surroundings. The “Work from Home/ Work from Anywhere” trend has propelled demand, with factors like social distancing norms and reduced home loan rates further fueling this surge. Organized players like Vista Rooms and Isprava offer end-to-end property management, enhancing investor returns, while the rebound in domestic tourism post-pandemic has boosted demand for weekend homes in scenic destinations like Alibaug and Lonavala. Investors are seizing opportunities in key second home corridors to capitalize on these trends.

FACTORS DRIVING LOCATION SELECTION

When selecting investment locations for Plotted Development/Weekend Homes projects, key factors include:

- **Location preferences:** Second home buyers prefer holiday destinations like Alibaug, Lonavala, Karjat, and Igatpuri within Maharashtra, near major cities like Mumbai, Pune, and Nashik.
- **Spaciousness:** Buyers under 35-40 prioritize spacious plots with larger floor space.
- **Health and wellness:** Buyers aged 60 and above seek properties in scenic locations with access to wellness facilities.
- **Connectivity:** Proximity to home cities within a 2-hour drive (approximately 150 kms) is crucial.
- **Asset diversification:** First home buyers aim to diversify investments with second homes, while post-pandemic investors see demand from branded hotel operators, shifting towards a lease-back model. These factors guide investors and end users towards prominent corridors in and around MMR, detailed in the following section.

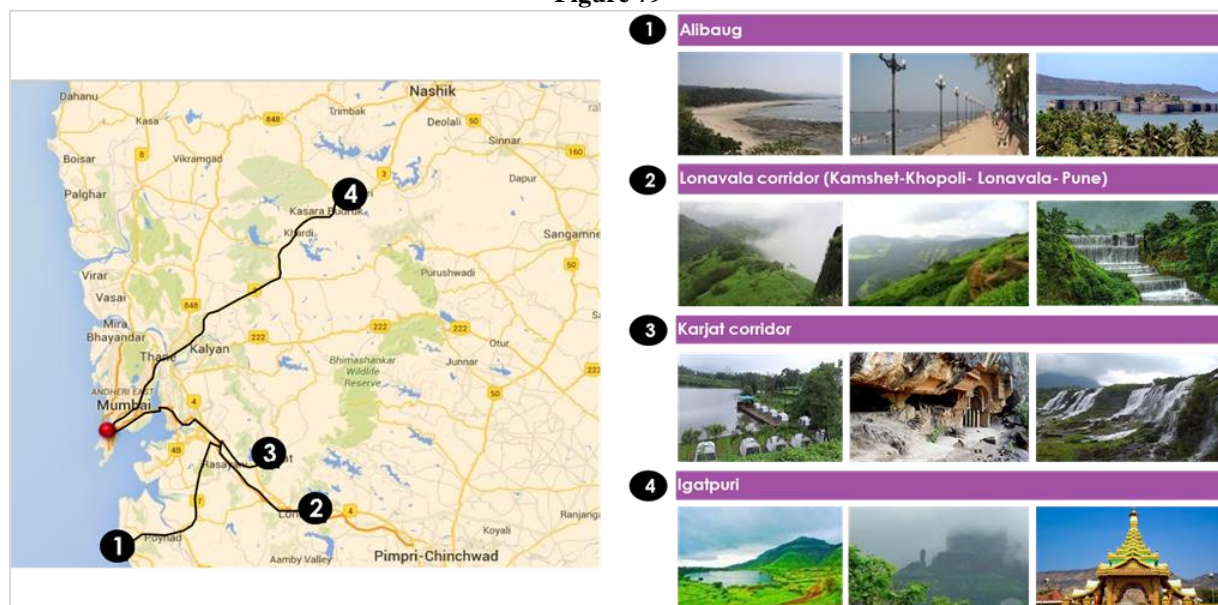

OVERVIEW OF KEY PLOTTED DEVELOPMENT/SECOND HOME DESTINATIONS

Anarock has clustered the prominent locations/nodes into four major corridors and has presented profiling of these second home destinations in proximity to Mumbai and Pune city. We have endeavoured to provide insights on each of these corridors, explaining various socio-economic and real estate aspects including active residential locations, costs related to purchase of property, stage of second home market, type and price points of available units and challenges faced by stakeholders.

Active second home destinations presented:

- Alibaug,
- Lonavala
- Karjat
- Igatpuri

^ Capital values depicted above are quoted values (₹/ sq. ft. on super built up area) for Villas with sizes ranging between 2,000- 3,000 sq. ft.

Note:

- The capital values mentioned above have been estimated by obtaining the same from various sources
- These sources include Anarock in-house team and market intermediaries.
- After obtaining the capital values, the same were corroborated by conducting mystery shopping activity.

Key highlights of the prominent corridors:

- HNI's of Mumbai and Pune prefer serviced plots/ Villas within a range of about <150 km/ within 2 hour driving distance.
- Mature holiday market with ample options for plotted development/ villa projects

- Presence of established developers in popular second home destinations
- Affordable price to own a piece of land; compared to areas within the major cities.
- Active network of property management operators such as Airbnb, Vista Rooms and Isprava who can help monetize such investments in the best possible way.

Challenges:

- Lack of adequate organised supply at select price points in Alibaug, Karjat and Igatpuri corridors.
- High premium pricing observed in properties having scenic views. Such properties command relatively higher premium (around 25-40%) in comparison to other projects with similar locational dynamics however without scenic views. This eventually increases the overall ticket size of the property resulting in relatively lower sales velocity.

Current Outlook:

Projects falling under the integrated gated community plots/ Luxury villa segment have observed a significant rise in demand on account of the pandemic-related dynamics, with the average number of deals rising threefold compared with the pre- Covid period.

This small but niche segment has been witnessing price appreciation in the range of 5 to 10% as high net worth individuals (HNIs) have been acquiring new prime properties in scenic locations.

ALIBAUG

Alibaug is well known as a preferred weekend home destination of the rich and the famous. However, in recent years, this scenic coastal town has become increasingly accessible as a second-home destination for those with surplus budgets as well.

Often referred to as the 'Mini Goa of Maharashtra', Alibaug has transformed from being a hugely popular weekend getaway for day-trippers from Mumbai; to a 'must-have' retreat for HNIs from South Mumbai, industrialists and film stars; and recently, to a vacation home for even middle-high income home buyers looking to invest in a leisure destination that is still relatively affordable.

One of Alibaug's biggest advantages is its proximity to Mumbai – most travellers opt for the 3-hour drive from Mumbai. Ancient forts, temples, forest areas and multiple beaches further add to the town's appeal as a tourist destination, together with the local cuisine it is famous for. For those inclined towards sports and adventure, there is scuba diving, snorkelling and sailing to be enjoyed.

LONAVALA CORRIDOR

Lonavala corridor's second home market saw a positive pandemic impact, driven by short driving distances from Mumbai and Pune, enhanced affordability, and teleworking trends. Established developers' projects like Puraniks Samaya and Gagan Nulife witnessed a surge in permanent relocations, with prices increasing by 8% - 10% over two years. Pune shares Lonavala's second home demand, especially among CXOs, NRIs, and professionals. Notable projects offer serviced plots and luxury villas, with one development in Khopoli selling over 100 units in six months, featuring guaranteed rentals on investments.

KARJAT

Karjat, nestled amidst serene hills near Mumbai, is becoming a prime real estate destination due to tourist influx and government projects. Offering serviced plots and villas at affordable rates, it attracts middle-class families seeking vacation homes with gated security. Proposed Neral-Bhimashankar highway enhances connectivity, boosting interest in second home investments. Luxury resort properties offer high ROI and monthly income, attracting investors with lavish amenities and assured appreciation. Airbnb, Saffron Stays are select operators which own a fleet of homestays/ hotels as property managers. Notable projects in Karjat include Kalpataru Aria, Tatwa Lifespaces, Montag Greens, Bella Casa, Rivergate Aranya, and Eshaanya to name a few.

IGATPURI

The pandemic has fueled a surge in demand for second home plots and villas in India, with growth reaching 85-90% between 2019 and 2021, defying broader real estate slowdowns. Alibaug saw the highest capital gains of 10-12% in the past two years. Second home sales in MMR and Pune have increased from 8-10% to 18-20%, highlighting the rising preference for community living in gated developments. Gated communities offer amenities like pools and gyms, appealing to buyers seeking security and convenience amid the "work from anywhere" trend.

WAY FORWARD

The second home market in India will continue to expand, backed by a surge in Work from Home (WFH) culture, a growing trend of hectic city life, and the viability of second homes as a sensible investment option. As the fear of possible pandemics like Covid-19 waves in the future does persist, many buyers will also opt to buy a second home property (Serviced plots/ Villas) to mitigate future risk. Apart from regular locations in Maharashtra including the prominent corridors captured in this report, many city suburbs for example- Nagpur will also emerge as viable Second home destinations. Besides serviced plots, row houses, villas, and gated community living; the concept of farmhouse-style living is also gaining ground. Within 1-2 hours from major Indian metros, the concept of farmhouse-style compound living is becoming popular. Such living gives people a better opportunity to bond with nature.

Farmhouses were earlier also popular in India, and it was believed to be an extension of the Bungalow culture of the cities. However, during earlier times, it was only for the ultra-rich population. However, in recent times, there are plenty of options in the range of ₹1-3 Crores.

The market is presently unorganized and is dominated by local developers. However, the trends are altering and big developers such as Tata Housing, Kalpataru, Provident, Axon, Lodha, ATS, etc. are now entering the space. The segment is also drawing the attention of institutional investors, which is a positive sign. In addition to greenfield projects, the numerous farmlands, plotted development projects, and resort properties are planned to be rebranded as second home properties to meet the proliferating demand.

THREATS AND CHALLENGES IN INDIAN RESIDENTIAL REAL ESTATE SECTOR

COMMON THREATS AND CHALLENGES ACROSS INDIA

Residential real estate in India faces several threats and challenges, impacting both developers and buyers. These challenges range from economic factors to regulatory issues and environmental concerns. Here are some key threats and challenges:

1. Economic Factors

- **Economic Slowdown:** An economic slowdown can lead to decreased demand for residential properties as potential buyers may delay purchases due to uncertainty.
- **High Interest Rates:** Increased interest rates on home loans can make borrowing more expensive, reducing the affordability of homes for many buyers.
- **Unemployment and Income Levels:** High unemployment rates or stagnant income levels can reduce the purchasing power of potential homebuyers.

2. Regulatory and Policy Issues

- **Regulatory Changes:** Frequent changes in real estate regulations can create uncertainty for developers and buyers. Policies like the Real Estate (Regulation and Development) Act, 2016 (RERA) have increased transparency but also with mandatory compliances developers have to set-up additional processes for the same.
- **Taxation Policies:** Changes in taxation policies, such as GST on under-construction properties and stamp duty rates, can affect the overall cost of property transactions.

3. Financial Challenges

- **Liquidity Issues:** Real estate developers often face liquidity issues due to high debt levels, leading to stalled projects and delayed deliveries.
- **Funding and Investment:** Limited access to funding and investment for new projects can slow down development. Private equity and bank financing may be difficult to secure without strong financials.

4. Infrastructure and Urbanization

- **Infrastructure Deficits:** Lack of adequate infrastructure such as roads, public transport, and utilities can make certain residential areas less attractive as it impacts the liveability index of the location.
- **Urbanization Challenges:** Rapid urbanization can lead to overcrowding, strain on resources, and unplanned development, affecting the quality of life in residential areas.

5. Environmental Concerns

- **Sustainability and Green Buildings:** There is a growing demand for sustainable and green buildings. Developers need to invest in eco-friendly construction practices, which can be costly. Moreover the upkeep and maintenance of such development is essential to continue being green certified, which may be challenging task when handed over to societies.

- **Climate Change:** Climate change and environmental degradation pose long-term risks to real estate, particularly in areas prone to flooding, earthquakes, and other natural disasters.

6. Social and Demographic Factors

- **Changing Demographics:** Shifts in demographics, such as the increasing preference for nuclear families, urban migration, and aging populations, can alter demand patterns.
- **Consumer Preferences:** Evolving consumer preferences for amenities, location, and lifestyle can impact the types of residential properties that are in demand.

7. Legal and Compliance Issues

- **Litigation Risks:** Developers may face legal challenges related to land disputes, construction defects, and delays in project completion.
- **Compliance with Standards:** Ensuring compliance with various construction standards, environmental regulations, and safety norms can be challenging and costly.

8. Competition

- **Market Saturation:** In some urban areas, the market may become saturated with too many residential projects, leading to intense competition and price wars.
- **Emerging Markets:** Competition from emerging markets and new developers can impact established players.

SPECIFIC CHALLENGES IN MUMBAI MMR

1. High Property Prices

- **Affordability Crisis:** Mumbai (MCGM) has some of the highest property prices in India, making housing unaffordable for many. High property prices act as Entry barrier for many buyers of affordable segment, who resultantly look for alternatives in Extended Regions of MMR like Thane and Navi-Mumbai.
- **Income Disparity:** The disparity between high property prices and average income levels makes it challenging for middle-income buyers to afford homes.

2. Limited Land Availability

- **Scarcity of Land:** The geographical constraints and high population density limit available land for new developments.
- **Redevelopment Projects:** Redevelopment of old buildings is complex and time-consuming due to legal and regulatory hurdles.

3. Infrastructure Strain

- **Overburdened Infrastructure:** Existing infrastructure, including roads, public transport, and utilities, is overburdened, leading to reduced quality of life.
- **Delays in Infrastructure Projects:** Delays in completing infrastructure projects like metro lines and road expansions affect real estate attractiveness.

4. Environmental and Climate Risks

- **Flooding:** Mumbai is prone to flooding during monsoon seasons, affecting the desirability and safety of properties.

- **Environmental Degradation:** Rapid urbanization has led to environmental issues such as air and water pollution.

5. Socio-Political Issues

- **Slum Rehabilitation:** Large-scale slum rehabilitation projects face socio-political challenges and resistance from affected communities.
- **Tenant Rights and Rent Control:** Strong tenant rights and rent control laws complicate property redevelopment.

6. Market Dynamics

- **High Competition:** The high number of developers and projects in MMR leads to intense competition and often price undercutting.
- **Unsold Inventory:** High levels of unsold inventory along with rising already high prices may impact the absorption levels. It can lead to financial strain on developers and reduced new project launches.

7. Construction Costs

- **High Construction Costs:** The cost of construction in Mumbai is higher due to expensive materials, labor, and compliance costs.
- **Delays and Cost Overruns:** Delays in project completion often lead to cost overruns, impacting profitability.

Conclusion

The residential real estate sector in India and specifically in Mumbai MMR faces multifaceted challenges. Addressing these requires a strategic approach involving policy reforms, infrastructure development, financial innovation, and sustainable practices. Stakeholders must work together to create an environment conducive to growth while ensuring affordability and quality of life for residents.

Prominent real estate company in the Mumbai Metropolitan Region in Maharashtra with a portfolio of projects diversified across different micro-markets and price points in the Mumbai Metropolitan Region and Pune, Maharashtra

We are a prominent real estate developer in the MMR in Maharashtra and are present across all micro-markets in the MMR (Source: Anarock Report). For the calendar years 2019 to 2023, the MMR was ranked first among the top seven Indian markets (MMR, Pune, Bengaluru, Hyderabad, the National Capital Region, Chennai and Kolkata) in terms of supply, absorption and average base selling price (Source: Anarock Report). We are the fifth largest developer in the MCGM area in Maharashtra and the fourth largest developer in Thane, Maharashtra in terms of units supplied from calendar years 2019 to 2023 (Source: Anarock Report). As of March 31, 2024, we had a total of 68 Completed Projects in the MMR and Pune, Maharashtra, aggregating to 14.31 msf of Developable Area, representing 93.33% of the total Developable Area of our Completed Projects. Further, as of March 31, 2024, we had 23 Ongoing Projects, nine Forthcoming Projects and five Planned Projects in the MMR and Pune, Maharashtra comprising 20.40 msf, 19.03 msf and 7.81 msf of Developable Area, respectively, aggregating up to 47.24 msf of Developable Area, and collectively representing 94.93% of total Developable Area of our Development Portfolio.

We believe that our ability to design high-quality and differentiated projects, and position them to the target segment through appropriate marketing and branding strategy has enabled us to deliver projects across diverse micro-markets. We believe that our prominent position in several micro-markets in the MMR provides us the competitive advantage to capture growth arising from these markets. In particular, our diversified presence across the micro-markets and price points in the MMR and Pune, Maharashtra allows us to benefit from diversified revenue streams and the real estate growth trajectory of these micro-markets and price points. As such, we believe that our experience in the MMR and Pune, Maharashtra region places us in a strong position to achieve a higher market share within the competitive market in Maharashtra.

Well-established brand with the ability to sell throughout the construction phase

We believe that a strong and trusted brand is a key attribute in our industry. It influences buying decisions and helps command premium pricing for projects. The Kalpataru Group has a legacy of 55 years. We focus on branded realty, with a belief in developing and marketing our real estate projects as “branded projects”. We have been granted the right to use the “Kalpataru” brand name by Kalpataru Business Solutions Private Limited, one of our Group Companies, pursuant to an intellectual property license agreement dated July 1, 2022. Our brand name has been incorporated in the vast majority of our project names, including *Kalpataru Avana* (Parel, Mumbai, Maharashtra), *Kalpataru Magnus* (Bandra, Mumbai, Maharashtra), *Kalpataru Splendour* (Wakad, Pune, Maharashtra) and *Kalpataru Parkcity* (Kolshet Road, Thane, Maharashtra). These projects are also associated with prestigious awards (as further described in “— Awards and Recognition” on page 236). Further, our projects across micro-markets are able to achieve a price premium as compared to the average pricing of the sub-markets where we are present (*Source: Anarock Report*).

The following graph sets forth the pricing achieved by some of our projects across the MCGM area, Thane and Pune as compared to the average pricing of those locations:

(Source: Anarock Report)

We believe that the reputation of our brand enables us to sell units throughout the construction phase of our projects. The following table sets forth details of the Saleable Area of projects with towers or phases larger than 0.20 msf, which were launched during the Financial Years 2023, 2022 and 2021 and the Saleable Area sold within one year of such launch:

We generally aim to sell over 80% of the Saleable Area of a project during the construction phase. We leverage our brand value and focus on selling a sizeable percentage of Saleable Area within one year from the launch of a project as well as prior to the receipt of the occupation certificate, which assists us in generating operating cash flows during the construction phase. Such sales help reduce the need for construction finance and enable us to achieve optimal returns on our projects.

We also believe that the “Kalpataru” brand makes us a partner of choice with landowners and other developers. Our brand and ability to sell under-construction developments since the time of their launch attract existing landowners and other developers to approach us in order to monetize their land assets.

According to Anarock, leading developers have shown an increase in share from 17% in Financial Year 2017 to 34% in the first half of the Financial Year 2024, thus highlighting that branded developers are increasing their share in the market. Further, according to a consumer sentiment survey conducted by Anarock in 2021, a majority of customers have become risk averse, which is driving demand for branded developers with low execution risk, even though their projects are priced at a premium. Also see “Industry Overview – Notable Developments in Real

Estate Sector” on page 137. Given the strength of our brand, we believe we are in a strong position to capture potential growth arising from favorable industry trends.

Strong project pipeline with visibility towards near term cash flows

Our Ongoing Projects and the pipeline of Forthcoming Projects and our ability to sell throughout the construction phase, provide us with visibility on near term cash flows. As of March 31, 2024, we have 25 Ongoing Projects, 10 Forthcoming Projects, and five Planned Projects. Set out below is a breakdown of our Ongoing Projects and Forthcoming Projects across micro-markets within the MMR, as of March 31, 2024:

Type of project	South Central Mumbai	Western Suburbs	Eastern Suburbs	Thane	Navi Mumbai	Extended Western Suburbs	Extended Eastern Suburbs
Ongoing Projects	4	5	2	3	1	1	1
Forthcoming Projects	1	3	1	3	-	-	-

The above projects are expected to benefit from infrastructure developments that are being implemented or expected to be implemented in the relevant micro-markets. Several infrastructure projects are underway in Greater Mumbai and MMR so as to achieve long-term sustainability and increase the carrying capacity of the city’s transportation networks and thus improve traffic and transportation capacity in the MMR both capacity wise and quality wise (*Source: Anarock Report*). Also see “*Industry Overview – Mumbai Metropolitan Region (MMR) Overview – Key Demand Drivers*” on page 144 for a discussion of key demand drivers in the micro-markets in which we are present and see “*—Description of Our Business*” on page 210 for a map of our Ongoing Projects, Forthcoming Projects and Planned Projects in the MMR.

As of March 31, 2024, our Forthcoming Projects comprised approximately 19.93 msf of Developable Area, and are expected to launch across the Financial Years 2025, 2026 and 2027 in various phases. For the calendar years 2019 to 2023, the MMR was ranked first among the top seven Indian markets (MMR, Pune, Bengaluru, Hyderabad, the National Capital Region, Chennai and Kolkata) in terms of supply, absorption and average base selling price (*Source: Anarock Report*).

We also believe that some of our developments constitute “destination developments”. For example, one of our flagship projects in our integrated township portfolio, *Kalpataru Parkcity* is located in Thane, Maharashtra, around one of Thane, Maharashtra’s largest integrated parks, the NaMo Grand Central Park. This raises the profile of the development and increases our brand recall. As such, our Ongoing Projects and the pipeline of Forthcoming Projects present a significant competitive advantage for us, and allow us to maintain our leading position.

Proven end-to-end execution capabilities with continuous innovation and ability to deliver projects in a timely fashion

We have adopted an integrated real estate development model, with capabilities and in-house resources to carry out all key activities associated with real estate development, including identifying and acquiring land (or development rights thereto), planning, designing, executing, sales, and marketing of our projects.

- Our business development team scouts for land in strategic locations with good development prospects and clear title, and focuses on acquiring them at competitive prices. They also scout for redevelopment opportunities. Further, our design team innovates and designs projects to meet our customers’ requirements based on market research. It also works closely with reputed external consultants to drive enhancements in the design of our project. Our landscaping consultants and interior design consultants include Coopers Hill, P Landscape Co., Ltd. and DIG Architects and are spread across diverse geographies, including Singapore, Thailand, and India. Also see “*— Description of our Business – Our Property Development Cycle – Product and Design Development*” on page 231.
- Our liaison team coordinates with civic authorities and has the requisite knowledge of the process and requirements for obtaining the necessary regulatory approvals in a timely manner. Similarly, our project execution (including services and estate management) team ensures efficient construction and completion of our projects.

- Our project execution team works with Indian and overseas vendors who we believe have the scale to deliver and meet our requirements to procure construction materials and equipment.
- Our quality control team has created a robust framework of standard procedures, method statements, and checklists, which ensures consistency and adherence to quality norms for constructions across our projects. It also works with our quality control lab to ensure that construction materials are tested for critical qualities such as compressive strength, water absorption and particle size.
- Our sales and marketing (including commercial assets) team has a deep understanding of the relevant real estate market, our project innovations, our innovative designs and marketing and branding strategies, which enables them to market our projects effectively. We also use different interventions to help our potential customers make informed decisions with respect to the purchase of an apartment. For example, we have developed *Kalpataru Roots*, a construction and design experience center in one of our integrated township projects, *Kalpataru Parkcity*, Thane, Maharashtra. It presents an array of photographs, objects, models and films that highlight the unknown facets and considerations for home building such as design, living comfort, engineering, detailing and designing.

As a result of our end-to-end execution capabilities and in-house resources, we are able to develop high-quality projects as well as benefit from economies of scale and supply chain efficiency. Set forth below are the details of our project launches during the Financial Years 2024, 2023 and 2022:

Our end-to-end execution capabilities also enables us to offer a wide range of projects to cater to different segments of the market, including multi-storey premium apartments, lifestyle gated communities, townships, office buildings, IT buildings, shopping malls and retail shops. We believe that our execution capability comprising strong in-house operations consisting of design, EPC monitoring and quality control teams, is a critical factor that has contributed to our leading position.

Leading real estate company in implementation of green and sustainable buildings

We focus on the implementation of green and environmental sustainability practices for design and construction of our real estate development projects. We are one of the founding members of the IGBC, which is actively involved in promoting the green building concept in India. We aim to ensure energy efficiency, water conservation, resident health and wellbeing, and use of environment-friendly materials in our constructions (such as materials with GreenPro certification that signifies that the material is environment-friendly, or other materials

and resources that have been certified as “green”, such as Green Guard, and Environmental Product Declaration, among others).

An urgent need for sustainable green buildings has emerged to mitigate the impacts of the construction and development sector on the environment and human well-being, conserving resources and fostering healthy living conditions. The COVID-19 pandemic underscored the importance of safe and resilient homes, further driving the shift towards sustainable building practices (Source: *Anarock Report*).

To cohesively integrate sustainability and customers’ safety and comfort, we employ methods such as usage of local construction material, low volatile organic content material, planting of native and adaptive species of plants for landscaping, designing rainwater harvesting systems and low flow efficient plumbing to reduce consumption, designing buildings with access to natural ventilation for regularly occupied spaces, and creating better window placements and facade design. Further, we aim to ensure provision of, among others, automated parking facilities, electric charging facilities to power electric vehicles, and renewable energy systems such as solar photovoltaic panels on rooftops in our constructions. Additionally, our projects are also designed with reflective roofing to mitigate heat island effect on microclimate. Pursuant to our green initiatives, we are able to lower our operating costs, and reduce water and energy consumption. Green buildings are also entitled to incentive FSI, to the extent of 3% (for GRIHA Three Star/ IGBC Silver / LEED Silver or equivalent rating), 5% (for GRIHA Four Star/IGBC Gold/LEED Gold or equivalent rating) and 7% (for GRIHA Five Star/ IGBC Platinum/ LEED Platinum or equivalent rating) over the base FSI (Source: *Anarock Report*).

The following table sets forth details of our green certifications, as of March 31, 2024:

Type of certification	Number of projects	Built-up Area (msf)
Total Green Building Certifications	39	27.15
Certified Green Building (Platinum) ⁽¹⁾	4	4.39
Certified Green Building (Gold) ⁽²⁾	5	
Certified Green Building (Certified)	1	
Pre-certified Green Building (Platinum)	8	9.92
Pre-certified Green Building (Gold)	5	
Registered Green Building	16	12.84

Note: The above table includes Completed Projects and On-going Projects that have been either certified, pre-certified or registered by either IGBC or LEED Green Building certification. Of these projects:

- (1) Kalpataru Square, Mumbai was registered as a “Certified Green Building (Platinum)” by USGBC LEED in 2009;
(2) Kalpataru Inspire, Mumbai was registered as a “Certified Green Building (Gold)” by USGBC LEED in 2015; and
(3) the rest of the registrations were carried out by IGBC.

The above green certifications are a result of our focus on sustainability in our projects and improve our reputation and the marketability of our respective projects.

Our affiliation and relationship with the Kalpataru Group and the strong track record of our Promoters enhances our reputation and enables us to derive synergies in terms of expertise and experience

The Kalpataru Group was established in 1969 by Mr. Mofatraj P. Munot, one of our Promoters, who has over five decades of experience in real estate development, and was conferred with the Lifetime Achievement Award at CREDAI - MCHI Golden Pillars Real Estate Awards, 2023. The Kalpataru Group has a multi-national presence and has operations in EPC contracting for power transmission and distribution, oil and gas, railways, civil infrastructure projects, warehousing and logistics, and facility management. Further, Kalpataru Projects International Limited, a member of the Kalpataru Group, is listed on the NSE and BSE.

Due to our affiliation and relationship with the Kalpataru Group, we benefit from its reputation and expertise in the construction and infrastructure sector. We also believe that we derive synergies from the Kalpataru Group’s expertise and experience in adjacent offerings such as EPC, civil infrastructure construction, and facility management, among others. These benefits and synergies span across multiple aspects including procurement, vendor development and information technology. Through our Completed Projects and the track record of both the Kalpataru Group and us, we believe we have established our reputation and brand image with the quality of our work product and designs, our strong execution skills and customer satisfaction.

Experienced and qualified management team with strong human resource practices

We have a qualified and experienced management team with extensive experience in the real estate sector. Our Promoters have worked alongside certain members of our management team to develop the majority of our

Completed Projects. On average, our senior management team (including our key managerial personnel) has over 20 years of experience in the real estate sector and has worked with us for over 14 years.

We believe that one of our key strengths is our work environment, which is based on our values, facilitates innovation and promotes improvements in our work methods. We believe our positive work environment has contributed to reduced implementation timelines, cost optimizations and improved quality in our projects and services. We place a strong emphasis on employee development, and our key initiatives for the development and retention of our employees include, talent reviews for job enrichment opportunities, leadership development programs and training sessions. We believe that our emphasis on employee development and our internal human resources initiatives for the development of our employees provides us with the skills to adapt to the future needs of our business.

Our Strategies

Our business strategy consists of the following principal elements:

Maintain our focus on the Mumbai Metropolitan Region and Pune, Maharashtra while selectively pursuing opportunities in other high growth cities

Most of the projects in our Development Portfolio are located in the MMR and Pune, Maharashtra and diversified across different micro-markets and price points. We believe that there are significant barriers to participating in the real estate markets in the MMR and Pune, Maharashtra, which favor experienced real estate developers with established businesses. Some of these barriers include the limited availability of land and reduced capital access for unorganized developers (*Source: Anarock Report*).

For the calendar years 2019 to 2023, the MMR and Pune ranked first and second respectively among the top seven Indian markets (MMR, Pune, Bengaluru, Hyderabad, the National Capital Region, Chennai and Kolkata) in terms of supply, absorption and average base selling price (*Source: Anarock Report*). We believe that commercial and financial viability of the MMR provides a significant market for our developments which are focused on the residential sector but are also spread across the commercial, retail, and integrated townships sectors. Our development sites are located in various micro-markets within the MMR and Pune, Maharashtra, and cater to different income groups. As of March 31, 2024, we have 23 Ongoing Projects, nine Forthcoming Projects and five Planned Projects in the MMR and Pune, Maharashtra, aggregating to Developable Area of 20.40 msf, 19.03 msf, and 7.81 msf, respectively, aggregating up to 47.24 msf of Developable Area and representing 94.93% of our total Developable Area. Also see “—Our Strengths – Prominent real estate company in the Mumbai Metropolitan Region in Maharashtra with a portfolio of projects diversified across different micro-markets and price points in the Mumbai Metropolitan Region and Pune, Maharashtra” on page 201.

While the MMR and Pune, Maharashtra remain and are expected to remain our primary focus, we also intend to selectively pursue opportunities in other metropolitan cities and high-growth cities across India. As of March 31, 2024, we had two Ongoing Projects in Hyderabad, Telangana and Noida, Uttar Pradesh; one Forthcoming Project in Nagpur, Maharashtra; and three pieces of land comprising Land Reserves in Surat, Gujarat; Nagpur, Maharashtra; and Udaipur, Rajasthan. We are also constantly evaluating potential projects in other cities in India. We believe that the economic growth in these cities will result in increased demand for residential housing, as well as retail and other commercial spaces.

Completing and selling our Ongoing Projects, Forthcoming Projects and Planned Projects in a timely manner and unlocking potential value in our existing land reserves

As of March 31, 2024, we had 511.62 acres of land in various stages of development, amounting to 49.77 msf of Developable Area. Our Ongoing Projects, Forthcoming Projects and Planned Projects amounted to 267.24 acres, 121.32 acres and 123.06 acres, respectively, with a corresponding Developable Area of 22.02 msf, 19.93 msf and 7.81 msf, respectively. We also intend to complete and sell these projects within their respective timetables in order to monetize these land parcels. For the calendar years 2019 to 2023, the MMR was ranked first among the top seven Indian markets (MMR, Pune, Bengaluru, Hyderabad, the National Capital Region, Chennai and Kolkata) in terms of supply, absorption and average base selling price (*Source: Anarock Report*). We intend to leverage our competitive advantage of having a strong pipeline of Forthcoming Projects within the MMR, by launching our Forthcoming Projects between the Financial Years 2025 and 2027 to take advantage of such market trend.

As of March 31, 2024, we had five Land Reserves aggregating to 1,886.10 acres. Our land reserves were located in Surat, Gujarat; Pune, Maharashtra; Nagpur, Maharashtra; Udaipur, Rajasthan; and Shirol, Maharashtra. We

plan to develop our Land Reserves in a phased manner, starting with residential projects, while selectively developing retail and other commercial projects as part of mixed use developments. We may also consider a variety of potential strategies to unlock value from undeveloped area in our Land Reserves, including sale of undeveloped land or grant of development rights to third-party developers in order to recycle capital.

Deleveraging our balance sheet

As of March 31, 2024, our net gearing ratio (defined as net debt divided by the sum of total equity and net debt) was 90.66%. We intend to improve our net gearing ratio by focusing on generating operational cashflows through new launches, and sales and execution of our Development Portfolio. We have also allotted an aggregate of 144,000,000 unsecured compulsorily convertible debentures of face value of ₹100 each (“CCDs”) aggregating to ₹14,400.00 million to Mr. Parag M. Munot, our Promoter, and Kalpataru Constructions Private Limited and Ixora Properties Private Limited, members of our Promoter Group pursuant to the conversion of unsecured loans availed by our Company from our Promoter (for ₹4,000.00 million) and the above members of our Promoter Group (for ₹10,400.00 million). We intend to convert these CCDs into Equity Shares at fair market value, as determined and certified by a registered valuer at the time of conversion, prior to the filing of the Red Herring Prospectus with the RoC, SEBI and the Stock Exchanges. We expect that this will enable us to further reduce our outstanding debt and increase the Equity Share capital of our Company. For details of the terms of such CCDs, see “*Capital Structure*” on page 89.

In addition, in the short to medium term, we may selectively pursue opportunities for early stage monetization of certain Forthcoming Projects and Planned Projects, including through sale of land. We may also consider a variety of potential strategies to unlock value from undeveloped areas in our Land Reserves, including the sale of undeveloped land or the grant of development rights to third-party developers. For instance, our Subsidiary, Ananta Landmarks Private Limited, sold its property admeasuring approximately 221,465.00 square meters in Thane, Maharashtra for a total consideration of ₹18,700.00 million in the Financial Year 2023. Similarly, our Subsidiary, Azure Tree Lands Private Limited, sold its property admeasuring approximately 5,855.80 square meters in Pune, Maharashtra for a total consideration of ₹1,314.31 million in the Financial Year 2023. These transactions have helped us address our financial commitments.

We propose to utilise a portion of the Net Proceeds for repayment, prepayment or redemption, of all or a portion of borrowings availed by our Company and some of our Subsidiaries. For details, see “*Objects of the Issue*” on page 106. We will continue to opportunistically explore development projects through executing redevelopment, JV and JDA projects, for future growth initiatives, which will enable us to be more capital efficient and reduce our upfront land acquisition costs. We may also refinance our existing borrowings in order to take advantage of reduced interest rates or other efficiencies in financing costs and accordingly reduce our short-term debt servicing requirements. For instance, in the Financial Year 2022, we refinanced (i) one of our existing lease rental discounting facilities aggregating to ₹4,500 million, resulting in an increase in the maturity period for those borrowings by 70 months and an interest rate reduction of 1.44% per annum; and (ii) one of our existing construction finance facilities aggregating to ₹3,000 million, resulting in an increase in the maturity period for those borrowings by 31 months and an interest rate reduction of 5.19% per annum. We believe the above measures will help us prudently manage financial risks and deleverage our balance sheet.

Further growing our real estate development business by entering into redevelopment, joint venture and joint development projects with other landowners to develop their land

In addition to acquiring freehold and leasehold interests in land for development, we enter into redevelopment, JDA or JV projects with other landowners to develop their land. Although redevelopment, JDA and JV projects comprise a relatively small proportion of our Development Portfolio in terms of Developable Area, we believe this asset-light approach may be a source of growth for our business in the future. Set forth below are certain details in relation to projects in our Development Portfolio under the redevelopment, JV and JDA models, as of March 31, 2024:

Model of development	Number of projects	Developable Area (in msf)
Redevelopment	7	2.30
Joint venture	2	3.55
Joint development agreement	6	6.53

As of March 31, 2024, the above projects collectively comprised 11.73%, 8.03% and 5.11% of the total Developable Area for our Ongoing Projects, Forthcoming Projects and Planned Projects, respectively. Details of

our redevelopment, joint venture and redevelopment projects are described in “— *Redevelopment, Joint Venture and Joint Development Projects*” on page 228.

Mumbai, particularly in South Central and select Western Suburbs areas such as Bandra, Santacruz, Khar, and Juhu, has scarce land for greenfield development. New projects primarily stem from redevelopment initiatives, including old residential properties, industrial sites, conglomerate-owned land, and slums (*Source: Anarock Report*). We believe that redevelopment projects will be an important means for obtaining land in the MMR, and we intend to increase our focus on participating in redevelopment projects. We intend to leverage our brand recall and strong execution, marketing and sales capabilities to further develop our existing real estate business. In this regard, we intend to utilize a range of development models such as JV, JDAs and redevelopment in addition to acquiring freehold and leasehold interests in land for development. In doing so, we aim to be in a strong position to capture greater market share and benefit from the industry trend towards consolidation.

Continue to focus on all segments of residential projects while selectively developing retail, commercial and other projects as part of mixed use developments

We have historically focused on the development of residential projects. As of March 31, 2024, our residential projects amounted to 47.52 msf of Developable Area and comprised 95.49% of the Developable Area within our Development Portfolio. Given that residential projects continue to be our focus, we will continue to evaluate and selectively develop retail, commercial and other projects as part of mixed use developments depending on our understanding of the relevant locations and the potential of the relevant projects. We believe that the demand for such mixed use projects will increase, as evolving consumer preferences for amenities, location, and lifestyle can impact the types of residential properties that are in demand (*Source: Anarock Report*).

Continue to create innovative, quality, green and sustainable real estate developments

We intend to leverage our emphasis on innovation, brand name and extensive experience to continue developing innovative, high-quality and green properties in our chosen markets in India. We will continue our strategy of conducting in-depth market research and analysis with the aim of identifying property trends and potential development opportunities as early as possible in the relevant market’s potential development cycle.

We recognize the importance of delivering quality projects on a timely basis. We intend to increase the scale of our business while staying focused on quality in order to maximize customer satisfaction. We also intend to continue to use technologically advanced tools and processes to ensure quality construction. For example, for high-rise structures, we use wind tunnel testing to predict the wind loads and responses of a structure, structural components, and cladding to a variety of wind conditions, which helps us evaluate measures to improve the structural integrity of the building. We also use energy modelling, including conducting sun path and shadow analysis, to gauge the energy consumption of our buildings and identify opportunities to improve energy efficiency. In addition, we use computational fluid dynamic studies to model the movement and temperature of air within the buildings and evaluate measures to improve ventilation and thermal comfort of the building’s occupants. Furthermore, we will continue to pursue innovation within each of the residential, retail, commercial office space and integrated townships sectors. We have a dedicated Kaizen (a Japanese management principle that means “change for the better”) team, that works towards enhancing significant parameters such as productivity, quality, cost, delivery, safety, and morale across our projects. For example, we have increased usable area for our projects by providing pre-defined niches in the existing concrete walls for routing the plumbing pipes, thereby eliminating waste of space arising from the construction of masonry ledge walls in toilets.

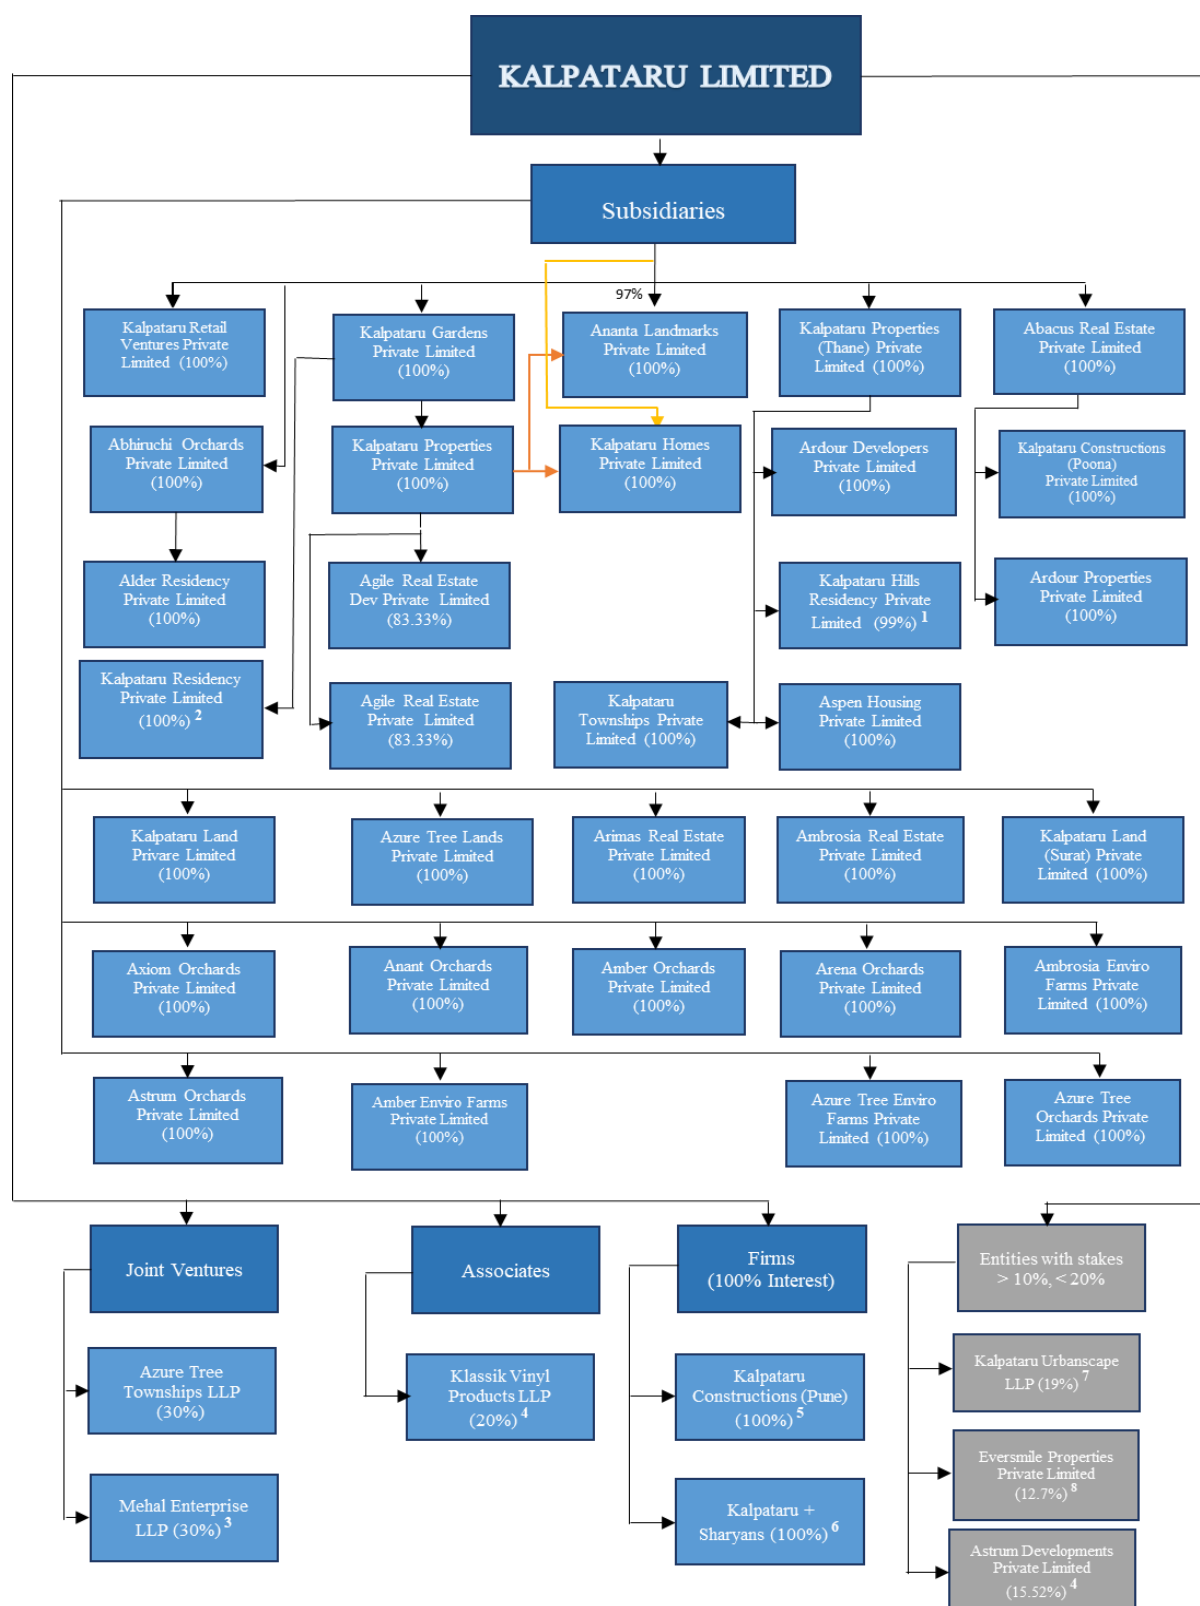

We will continue to implement green and environmental sustainability practices and considerations into the design and construction of our real estate development projects as a part of our commitment towards sustainability. We believe our continued focus on innovation, high quality and sustainability will provide us with a competitive advantage by differentiating our projects from those of our competitors, and by providing a unique experience to our customers.

In a number of residential projects, we also develop and sell a small proportion of retail/commercial property units, comprising office spaces, neighborhood convenience stores, banks, salon, and apparel stores, among others.

We generally follow a sale model for our residential projects and typically receive a percentage of the purchase price as down payment at the time of booking a particular unit and the remainder through periodic payments linked to certain activity or construction milestones while the project is being developed. We generally launch such projects and commence the sales process for a portion of the total number of units to be sold around the time we commence construction. We endeavor to sell a majority of the residential units prior to the completion of construction of our projects. As of March 31, 2024, we had 59 residential Completed Projects, with 24 residential Ongoing Projects, eight residential Forthcoming Projects and five residential Planned Projects, which excludes the residential component of mixed use development.

Integrated Townships Projects

Our integrated townships real estate projects are focused on the development, sale, lease and management of multi-use developments in city centers or in close proximity to city centers consisting of residences, commercial office space, retail properties, and hospitality facilities. We intend to sell the residential properties in our integrated townships projects primarily to end purchasers, with our target market generally comprising middle and upper middle income consumers.

In our integrated township projects, we develop the infrastructure, including roads, electricity, water and sewage systems in phases. We also construct, sell, lease, and manage the properties in phases, based on anticipated demand for our property units and allocated resources at the relevant time. We intend to offer a wide range of residential properties in our integrated townships projects, including high rise apartments and duplex apartments. Our integrated townships are designed to be self-sufficient communities, with an array of commercial outlets and services for easy access for residents, including retail facilities, leisure facilities and other amenities, such as convenience stores and maintenance services. By placing these commercial centers around the periphery of our integrated townships, we believe we will be able to cater to both integrated township residents and customers that may reside outside the integrated township. To ensure that travel across townships is easy and convenient, we conduct accessibility studies for townships to assist us with planning internal road intersections and public transport accessibility. In addition, to minimize traffic jams for townships, we conduct traffic analysis to simulate peak hour traffic data to assist our understanding of the load of service for roads.

The following table sets forth the details of our integrated township projects as of March 31, 2024:

Our Property Development Cycle

The following chart illustrates the key processes in our property development cycle as of March 31, 2024:

Land Identification, Feasibility, Land Acquisition and Development Arrangements

Land identification at reasonable pricing and strategic locations, for replenishing our inventory for future developments, is a key factor for the success of our business. We undertake market research prior to making any decisions to acquire, develop, lease or sell our properties. Our in-house product development and business development teams are involved in gathering relevant market data, assessing the potential of a location after evaluating its demographic trends and identifying relevant government schemes and incentives, factoring in site conditions, infrastructure availability and competitive dynamics. We believe this research enables us to optimally design and develop projects and enables us to anticipate market trends and create long-term value appreciation for our projects. We also benefit from the Kalpataru Group's and our Promoters' experience and involvement of more than 55 years in the real estate and construction industries, and our senior management's experience, to identify and evaluate potential locations.

Our product development and business development teams work closely with various property consultants, advisory bodies, local architects and consultants who provide information regarding the availability of land, development restrictions, planned developments and market trends specific to the location. Our business development and liaison team examines the applicability of the various applicable development control regulations and state government schemes. We also evaluate land titles through independent lawyers. Based on this information, a preliminary feasibility proposal is made. Once the requisite knowledge of land title is obtained, based on feasibility, we either acquire the land on an outright basis or enter into a development agreement, JV, JDA or other arrangements with the owners. The final decision on the location, nature, financial feasibility and scale of each property is made by our management.

Once the feasibility of a project has been ascertained and approved by our senior management, our team begins negotiations with the land owner. Negotiations with the tenants, occupants or owners are focused on the specifics of the rehabilitated structure, corpus fund or compensation for the society, the cost of accommodating the tenants, occupants or owners in the interim, and the timeframe within which the project may be completed.

Product and Design Development

Our product development team undertakes detailed market research to identify and assess various project mix options for the project based on aspects such as project configuration, price benchmarking and project positioning. Such project mix options are considered by senior management and design team, before a particular option is shortlisted. The shortlisted option and other design related key inputs are summarized in a design brief document, which then is shared with the relevant internal and external stakeholders for project design.

For our project design, we engage leading architects, interior design and engineering consultants, as set forth below:

The work performed by these architects, interior design and engineering consultants must comply with our specifications and, in all cases, is subject to our review. We also use tools to visualize design changes, and reduce coordination time and clashes, to optimize productivity.

During design development, inputs are obtained from various internal departments to ensure optimal design, quality and feasibility of the project. Decisions on items such as master layout, orientation of buildings, unit layouts, common amenities, building elevation and landscape design are taken with a view to enhance the desirability of the relevant project, having regard to research on the preferences of our prospective customers.

Project Planning, Regulatory Approvals and Execution

We have an in-house project management and execution team, which focuses on effective supervision of development activities to ensure efficient and timely project execution. The project planning and execution process commences with obtaining the requisite regulatory approvals, environmental clearances and location specific approvals. While evaluating the feasibility of an area for the implementation of a project, it is critical to understand and comply with the regulations governing land development at the location. The approvals generally required for the development of a property include change of land use, approvals of building plans, layouts and infrastructure facilities such as power and water. Similarly, approvals from various government authorities, including from the relevant environmental authorities, airport authorities and fire authorities are required for buildings above a stipulated height. Building completion or occupation certificates are obtained from the appropriate authorities after the construction of properties is completed, in accordance with applicable law.

Our projects require us to make an application along with relevant project drawings to the regulatory authorities to seek approvals based on the guidelines laid down under the relevant rules and regulations. The regulatory authority issues an “Intimation of Disapproval” (“**IOD**”) or any such equivalent approval, wherever applicable, which sets out the conditions to be met prior to commencement of construction. Once we meet the terms of the IOD or any such equivalent approval, wherever applicable, the regulatory authority will issue us a commencement certificate, which permits us to commence the construction activity. We also are required to register with the relevant state’s RERA authority before commencing sales and marketing for each of our projects.

For our project execution, we issue tenders with relevant specifications and requirements to invite interested contractors for various activities including civil, interior, electrical, plumbing and related services. The contractors are primarily evaluated based on their competency levels, which is a function of their technical capabilities and experience at executing high quality projects. During the project planning, regulatory approvals and execution, we utilize a suite of information and communication technologies to improve our efficiency through process automation, digitization and productivity enhancement. We also believe in continuous improvement and focus on identifying, testing and implementing various new materials and mechanization options to improve productivity and reduce labour dependency, which we believe to be one of the challenges in our industry. The use of auto laser levelers, disto-meters, mechanical spray painting, membrane waterproofing, and gun grout are some of the initiatives that have been implemented.

Quality Control

We emphasize quality control to ensure that our buildings meet our standards and have implemented an internal quality governance system which comprises quality assurance and quality control measures for the entire lifecycle of our projects, from excavation until post-handover to our customers. Our in-house quality control team manages our quality assurance and quality control measures, utilizing tools such as QCop, a software that facilitates quality audit management. We control quality by selecting only experienced design and construction companies. We have adopted advanced technologies and techniques to ensure the quality of our projects. For example, for high-rise structures, we use wind tunnel testing to predict the wind loads and responses of a structure, structural components, and cladding to a variety of wind conditions, which helps us evaluate measures to improve the structural integrity

of the building. We also use energy modelling, including conducting sun path and shadow analysis, to gauge the energy consumption of the building and identify opportunities to improve energy efficiency. In addition, we use computational fluid dynamic studies to model the movement and temperature of air within the buildings and evaluate measures to improve ventilation and thermal comfort of the building's occupants.

A portion of the contracted amount with some of our contractors is retained until the expiry of the defect liability period. In the event of delays or poor work quality, the contractor may be required to pay pre-agreed damages under our construction contracts. Our contractors are also subject to our quality control procedures, including examination of materials and supplies, on-site inspection and production of progress reports. Our quality control team supervises and monitors the quality of the construction work on a regular basis. We also have an in-house laboratory to check the quality of the material and reinforced concrete work. Our quality control team works with our quality control lab to ensure that construction material is tested for critical control checks such as compressive strength, water absorption and particle size. We require our contractors to comply with relevant laws and regulations, as well as our own standards and specifications. We monitor the construction work for quality, timing and cost control reasons. Our execution and project management team comprises civil engineers or surveyors and is responsible for supervising and managing the construction schedule and quality of the construction work.

Marketing, sales and customer relations

Marketing

Our marketing team is divided into three major divisions, namely, brand management, digital marketing and market research. Brand managers are responsible for project and corporate brand promotions, in addition to managing all customer centric activities, and are involved in media planning, customer profiling, and campaign management in above the line and below the line marketing and market analysis. The responsibility of the digital marketing team is to create brand awareness in all digital mediums, and generate digital leads. They are also responsible for certain digital assets such as our websites, microsites, landing pages, and web domains. They support the brand management team in digital media buying. Our market research division focuses on analyzing competition trends, lead drop analysis, booking loss analysis (analysis of cancellations and loss of business which happens when customers do not purchase property unit(s) after revisits at the relevant site) and conducting surveys required for campaign planning. In addition, a description of the project's design story, project positioning, and key design elements is provided by the product development team, which is used for designing the relevant marketing campaign.

We advertise across mediums with wide reach, such as print, digital and out-of-home media, along with mall activations, in-cinema, retail branding, SMS, and mailers. We strive to be innovative in our advertising campaigns to connect with our target audience in a meaningful and engaging way. We typically ascertain our advertising budgets according to the construction cycles and the sales targets of the project. The efficiency of the media used is tracked from cost per inquiry, cost per site walk-ins and cost per booking ratio.

Sales

Our sales team is divided into sourcing and closing teams. Our sourcing teams are responsible for ensuring site walk-ins and closing teams are responsible for explaining projects to our customers in detail, and to help customers book the home of their choice. During launch, the product development and marketing teams create detailed documents of technical and qualitative aspects to enable the sales team to explain the various salient and differentiating aspects of the project to the prospective customers. We have a systematic sales process under which we review our sales initiatives, and constantly seek to improve on our processes through customer feedback, which is monitored through surveys and selected feedback calls. We regularly monitor customer satisfaction and net promoter scores through an internal dashboard. We also participate in international and national property exhibitions and trade shows to focus on non-resident Indians and out-of-home market domestic sales.

Customer relations

We have a dedicated customer relations team, which engages with our customers. We guide the customers through the registration and agreement process and help facilitate the loan process for the customers. The customer relations team is responsible for coordinating with other departments such as legal, accounts, planning, product development, and sales until project completion or handover of a unit. Customers can contact our customer relations team through phone and email. We have internal service quality and audit parameters in place to track and monitor the performance of the customer relations team.

Our marketing, sales, and customer relations are facilitated by our CRM tool, Salesforce. It helps in orchestrating smooth and transparent processes while bringing operational efficiencies across all levels of the sales cycle. Salesforce helps us to manage potential leads, customer interaction, sales operations, and unsold units efficiently to enable good customer experience. It allows us to monitor sales performance on a real-time basis and plays a critical role in shaping the sales strategy.

Completion and hand-over of the property units

Our customer relations team provides comprehensive assistance beginning from the booking process to the project's completion. The buyers are kept informed during the various stages of construction and receive advance notices in anticipation of final possession. On receipt of the occupation certificate, a final demand letter is sent to the customer, along with the invitation to take possession of the unit, and joint inspections are undertaken with the customer. We also encourage continuous feedback from our buyers and licensees, and have a team in place that collates issues pertaining to customer needs to ensure appropriate action on our part, and to ensure customer satisfaction. We also assign a dedicated team to look after all post-possession support to the customers.

Our Competitors

The real estate market is highly competitive and fragmented, and we face competition from various domestic real estate developers. Some of our competitors have greater financial, marketing, sales and other resources than we do. Moreover, as we seek to diversify into new geographical areas, we face competition from competitors that have a pan-India presence, and also from competitors that have a strong presence in regional markets. Market saturation in certain markets may have an adverse effect on our operations in that market. Our key competitors in the areas where we currently operate and focus include real estate developers such as the Lodha group, Godrej Properties Limited, Rustomjee Group, Oberoi Realty, Mahindra Lifespace Developers, Prestige Estates and Sunteck Realty, according to the Anarock Report.

Information Technology

We utilize SAP as our enterprise resource planning tool, and Salesforce as our CRM tool. SAP is used to ensure efficient projects management in terms of cost, quality, and delivery, streamlining processes, improving customer experience, better vendor and procurement management, increasing profitability, imparting transparency and enhancing internal controls. Salesforce helps in orchestrating smooth and transparent processes while bringing operational efficiencies across all levels of the sales cycle until possession. Salesforce helps in managing potential leads, customer interactions, sales operations, and inventory and service management efficiently. It allows us to monitor sales performance on a real-time basis and plays a critical role in our sales operations.

In addition to these two major applications, we have also implemented the following technologies:

- Salesforce marketing cloud: It helps us run digital campaigns for lead nurturing for continuous engagement with customers through an omni channel experience.
- Microsoft SharePoint: To digitize our customer communication management system.
- Building information model ("BIM"): BIM enables a digital model of the physical and functional characteristics of all the facilities of a building projected through a three dimensional geometry, to pre-test any and every part of a building virtually and helps visually inspect facilities. It assists in designing, analyzing and improving efficiency of the entire building system. We use BIM in the construction management process, including in areas such as architectural, structural and mechanical, electrical and plumbing designs, in addition to preparing bills of quantities (a document used to define the quality and quantity of works required to be carried out to complete a project).
- Robotic process automation: To automate certain repetitive tasks in sales, market research, business development and account functions.
Further, we have implemented various platforms to facilitate core business operations including the following:
- WhatsApp Business for sales and CRM functions: This helps in lead generation through digital channels and proactive as well as request driven fulfillment of customer's service requests such as demand note, receipts, and ledgers, among others.

- PowerBI: To assist in data analytics for business insights in sales, procurement and human resources.
- MSBDocs – e-signature: To facilitate electronic approvals of workflows.
- Vendor Connect: Portal for onboarding of vendors and provision of expression of interest for doing business with us.

Further, we are in the process of implementing ‘Modern Workplace - O365 Solution’ for better collaboration between our employees to improve productivity and to mitigate data security concerns. Further, we have a pipeline of information technology initiatives with respect to, among others, artificial intelligence and machine learning based data analytics, e-sourcing solutions to instill efficiency in our procure-to-pay process, and project life cycle solutions for higher visibility of daily project progress and data driven business analytics.

Environment, Health and Safety

We are committed to complying with applicable environment, health and safety regulations and other requirements in our operations. To help ensure the effective implementation of our environment, health and safety policies and practices, at the beginning of every property development process, we identify potential material hazards, evaluate material risks and institute, implement and monitor appropriate risk mitigation measures. We believe that accidents and occupational health hazards can be significantly reduced through the systematic analysis and control of risks and by providing appropriate training to management, employees and sub-contractors. We strive to ensure the safety of our property developments and facilities by integrating and organizing passive and active safety control mechanisms during the construction phase, as per applicable rules and standards, as well as the safety of our developed buildings and facilities, including (i) installing electrical safety systems which consists of fire survival cables, lightning protection systems and low smoke zero halogen cables, (ii) installing automated fire detection systems and smoke detectors, (iii) ensuring that there is sufficient lighting, (iv) using only steel which has passed certain stringent physical and chemical tests, (v) installing heat-strengthened glass as windows, and (vi) conducting “swelling tests” (a test to determine the expansion and shrinkage of wood) on wooden materials.

In 2021, two of our projects (*Immensa at Kalpataru Parkcity* and *Kalpataru Exquisite*) won the Vishwakarma Award for Construction Health, Safety and Environment from the Construction Industry Development Council.

Intellectual Property

We have obtained a non-exclusive and non-transferable license to use the intellectual property from Kalpataru Business Solutions Private Limited, one of our Promoter Group companies, under an intellectual property license agreement dated July 1, 2022. Further, as of March 31, 2024, we have 14 registered trademarks for “KORUM” under various classes registered with the registrar of trademarks, which is used by one of our subsidiaries, Kalpataru Retail Ventures Private Limited, for its retail business.

Insurance

Our operations are subject to hazards inherent to the real estate industry that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environmental damage, such as work accidents, fire, earthquakes, floods and other force majeure events, and acts of terrorism and explosions, among others. We currently maintain a variety of insurance policies in connection with our operations, including contractor’s all risk policy, standard fire and special perils policy, comprehensive general liability policy, director and officers liability policy, contractors plant and machinery policy, money insurance policy, and motor vehicle insurance policy. Our contractors directly obtain insurance policy in respect to workmen’s compensation liability for their workers while carrying out any construction activities on our behalf as per the terms of our contracts with them.

Further, we also have employee benefit policies such as term life insurance, group personnel accident and health insurance for our employees. We do not have key man insurance policies.

Corporate Social Responsibility

We strive to improve the lives of the communities in which we operate in a sustainable manner, as part of being a responsible corporate citizen. We believe in giving back to the community and dedicate resources to do our part

for the welfare of society. We strive to create better living spaces for the relevant communities we operate in, and seek to improve communities around our projects by offering a platform to our employees and customers to connect with these communities. Our corporate social responsibility (“CSR”) initiatives are aimed at diverse groups, and include initiatives relating to education, skilling, healthcare, environment, animal welfare, community development, labour welfare and employee volunteering. Some of these CSR initiatives include (i) school enhancement programs that entail setting up of computer labs, refurbishment of classrooms and sanitation blocks, and building digital smart classes and science, technology, engineering and mathematics labs; (ii) creating videos on upskilling for various construction tradesmen; (iii) heritage awareness projects to promote the conservation of forts in Maharashtra; (iv) beach clean-up drives in Mumbai, Maharashtra to promote environmental sustainability; and (v) street play programs for workmen on construction sites to promote awareness on the importance of their wellbeing. Further, our employee volunteering initiative, “SPARSH”, provides our employees a platform to contribute their time, skills and resources towards various community outreach activities. Our CSR initiatives have also been awarded the “Best CSR Project of the Year” award at the 10th CSR Summit and Awards, 2024. LAWS RELATED TO OUR BUSINESS

Central Legislations

Real Estate (Regulation and Development) Act, 2016 (“RERA”) and the rules thereunder

RERA mandates that promoter of any real estate project and for which completion certificate has not been issued can only market and sale the project if it is registered with the Real Estate Regulatory Authority (“**Authority**”) established under RERA. It also mandates the functions and duties of the promoter, including that the promoter must park 70% of all project receivables into a separate account. Drawdown from such account is permitted for land and construction costs only, in proportion to the percentage of project completion (as certified by an architect, an engineer and a chartered accountant). Further, a promoter can accept only up to 10% of the apartment cost prior to entering into a written agreement for sale with any allottee. Further, the promoter is prohibited from creating any charge or encumbrance on any apartment after executing an agreement for the same. Further, the promoter shall not transfer or assign his majority rights and liabilities in respect of a real estate project to a third party without obtaining permission for two-third of the allottees and prior written approval of the Authority. RERA also ensures that the project shall be developed and completed by the promoter in accordance with the sanctioned plans, layout plans and specifications as approved by the competent authorities and subsequent to the disclosure of the plan to the allottee who agree to take one or more of the said apartment, plot or building, the promoter shall not make any addition or alteration in the sanctioned plans, layout plans and specifications and the nature of fixtures, fittings, amenities or common areas of the apartment, plot or building without previous consent of that allottee. Further, the promoter may make minor changes or alterations as may be necessary due to architectural and structural reasons duly recommended and verified by an authorised architect or engineer after proper declaration and intimation to the allottee. It is required that a promoter to obtain all insurances in respect of the real estate projects, as per applicable law, including insurance in respect of title of land.

Non-registration of a real estate project as per RERA would result in penalties up to 10% of the estimated cost of the project as determined by the Authority. Contravention of any other provision of RERA or order issued by the Authority may result in penalties up to 5% of estimated cost of the project or imprisonment up to three years or both. Further, the promoter’s contravention or failure to comply with any order of the Appellate Tribunal formed under the RERA will result in imprisonment for a term extending to three years or with a fine further up to 10% of the estimated cost of the real estate project, or both.

Additionally, if the promoter fails to give possession of the apartment, plot or building in accordance with the terms of agreement for sale, or due to discontinuance of business or suspension or revocation of registration under the RERA, promoter must return the amount received from the allottee, along with interest as provided under the RERA. Any delay in handing over possession would also require the promoter to pay interest for every month of delay.

Further, we as promoter are required to comply with the rules and regulations issued under RERA by the respective state governments as per the location of the real estate project.

The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (“Land Acquisition Act, 2013”) and the rules framed thereunder

The Land Acquisition Act, 2013 act provides for the procedure to be undertaken when the government seeks to acquire land in any area for a public purpose, including carrying out a social assessment study to determine, *inter alia*, whether the acquisition would serve a public purpose. It also provides for compensation to be provided in lieu of the land acquired. The compensation is determined by taking into consideration the market value of the land, damage sustained by interested persons, and consequence of the acquisition on the person.

We are also required to comply with the rules and regulations issued under Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (Amendment) Second Ordinance, 2015.

Transfer of Property Act, 1882 (“TP Act”)

The TP Act establishes the general principles relating to the transfer of property in India. It deals with the various methods in which transfer of immovable property including transfer of any interest in relation to that property takes place. The TP Act stipulates the general principles relating to the transfer of property including, among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. It also provides for the rights and liabilities of the vendor and purchaser and the lessor and lessee in a transaction for the sale or lease of property, as the case may be. The TP Act also covers provisions with respect to mortgage of the property.

Registration Act, 1908 (“Registration Act”)

The Registration Act requires the registration of documents, including compulsory registration of documents relating to the immovable property. A document must be registered within four months from the date of its execution and must be registered with the office of sub-registrar, within whose sub-district the whole or some portion of the immovable property is situated. Intellectual Property Laws

Intellectual property in India enjoys protection under both common law and statute. Under statute, India provides for trademark protection under the Trade Marks Act, 1999, copyright protection under the Copyright Act, 1957, and design protection under the Designs Act, 2000. The above enactments provide for protection of intellectual property by imposing civil and criminal liability for infringement.

The Trade Marks Act provides for the application and registration of trademarks in India. The purpose of the Trade Marks Act is to grant exclusive rights to marks such as a brand, label and heading, and to obtain relief in case of infringement of such marks. An application for the registration of trademarks has to be made to Controller-

General of Patents, Designs and Trade Marks who is the Registrar of Trade Marks for the purposes of the Trade Marks Act. It also provides for penalties for infringement, falsifying, and falsely applying trademarks and using them to cause confusion among the public.

Details regarding mergers, demergers or amalgamations in the last 10 years

Scheme of arrangement between Kalpataru Retail Ventures Private Limited (“Demerged Company”) and our Company (“Resulting Company”) and their respective shareholders (“Demerger Scheme”)

The Demerged Company filed a scheme of arrangement under sections 230 to 232 and other applicable provisions of the Companies Act, 2013 before the National Company Law Tribunal, Mumbai (“NCLT”). The rationale for the Demerger Scheme is to transfer the commercial leasing and renting business of the Demerged Company into our Company to achieve independent growth and expansion, facilitate efficient management to exploit opportunities in core businesses such as mall operations, management and real estate development within the Demerged Company and to avail synergies arising out of consolidation of business. Our Company approved the scheme pursuant to Board resolution dated September 24, 2019. According to the Demerger Scheme, all the business, undertaking, properties, assets, liabilities of whatsoever nature and kind, including, *inter alia*, all assets, movable and immovable, real and personal, approvals, registrations, lease, tenancy rights, entitlements, portion of any borrowings, development rights, contracts and employees, debt and contingent liabilities related to the commercial leasing and renting business were transferred from the Demerged Company to our Company on a going concern basis, as on the appointed date, i.e., April 1, 2019. The Demerged Company retains all other business units, divisions, assets, liabilities, including general borrowings, contracts, and employees not associated with its commercial leasing and renting businesses. Since our Company held the entire share capital of the Demerged Company, no consideration was payable pursuant to the Demerger Scheme. The NCLT *vide* its order dated September 2, 2020, has approved the Demerger Scheme.

Scheme of amalgamation between Arimas Developers Private Limited (“Transferor Company”) and Kalpataru Properties (Thane) Private Limited (wholly owned subsidiary of our Company) “Transferee Company”) and their respective shareholders (“KPTPL Scheme”)

The scheme of amalgamation between the Transferor Company and the Transferee Company and their respective shareholders under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013, provides for the amalgamation of the Transferor Company on a going concern basis into the Transferee Company effective from the appointed date i.e., April 1, 2016 or any other date as may be approved by the National Company Law Tribunal, Mumbai and operative from the effective date, i.e., September 5, 2017. The KPTPL Scheme was approved pursuant to a board resolution dated January 16, 2017.

The rationale for the KPTPL Scheme, *inter alia*, is as follows:

- (i) Achieving operational and managerial efficiency;
- (ii) Facilitating the management focus and enhanced flexibility;
- (iii) Enabling simplification of group structure; and
- (iv) Bringing synergy in operations and optimum utilisation of common resources.

Mofatraj P. Munot and Parag M. Munot who are Promoters of our Company are directors and indirectly hold equity shares of Transferee Company as nominees of our Company. For details, see “*Our Subsidiaries, Associate and Joint Ventures*”, on page 261.

Pursuant to the KPTPL Scheme, the entire business and undertaking of Transferor Company and all the properties whether moveable or immovable, real or personal, corporeal or incorporeal, present or contingent of whatsoever nature and where so ever situated belonging to or in possession of or granted in favour of or enjoyed by Transferor Company, shall be transferred to and vested in or deemed to be transferred to and vested as a going concern in Transferee Company together with all debts, liabilities, duties, obligations of every kind, nature and description including all income taxes, excise duty, custom duty, sales tax, value added tax, service tax, goods and services tax and other government and semi government liabilities.

Further the entire issued, subscribed and paid up share capital of Transferor Company is held by Transferee Company and/or its nominee/s, no consideration shall be payable and no shares shall be issued pursuant to the amalgamation of Transferor Company with Transferee Company. There was no valuation carried out on account of merger of a wholly-owned subsidiary.

Scheme of amalgamation between Aura Real Estate Private Limited (“Transferor Company”) and Kalpataru Retail Ventures Private Limited (“Transferee Company”) and their respective shareholders (“KRVPL Scheme”)

The scheme of amalgamation between the Transferor Company and the Transferee Company and their respective shareholders under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013, provides for the amalgamation of the Transferor Company on a going concern basis into the Transferee Company effective from the appointed date i.e., April 1, 2016 or any other date as may be approved by the National Company Law Tribunal, Mumbai and operative from the effective date, i.e., September 5, 2017. The KRVPL Scheme was approved pursuant to a board resolution dated January 16, 2017.

The rationale for the KRVPL Scheme, *inter alia*, is as follows:

- (i) Achieving operational and managerial efficiency;
- (ii) Facilitating the management focus and enhanced flexibility;
- (iii) Enabling simplification of group structure; and
- (iv) Bringing synergy in operations and optimum utilisation of common resources.

Mofatraj P. Munot and Parag M. Munot, who are Promoters and Directors of our Company, indirectly hold equity shares of Transferee Company as nominees of our Company. For details, see “*Our Subsidiaries, Associate and Joint Ventures*”, on page 261.

The Transferor Company was a wholly-owned subsidiary of the Transferee Company and the entire issued, subscribed and paid up share capital of Transferor Company was held by Transferee Company. Since this was a merger with a wholly-owned subsidiary, no consideration was payable and valuation was not required to be carried out.

Scheme of arrangement between Ananta Landmarks Private Limited (“Demerged Company”) and Kalpataru Homes Private Limited (“Resulting Company”) and their respective shareholders (“KHPL Scheme”)

The scheme of arrangement between the Demerged Company and the Resulting Company and their respective shareholders under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013, provides for the demerger of the project Kalpataru Paramount, situated in Balkum, Thane (“**Demerged Undertaking**”) from the Demerged Company on a going concern basis into the Resulting Company effective from the appointed date i.e., April 1, 2021 or any other date as may be approved by the National Company Law Tribunal, Mumbai and

operative from the effective date, i.e., June 3, 2022. The KRPL Scheme was approved pursuant to a board resolution dated June 14, 2021.

The rationale for the KHPL Scheme, *inter alia*, is as follows:

- (i) In the real estate sector, it is customary to create project-specific companies to facilitate funding and refinancing. Accordingly, it is envisaged to segregate the Demerged Undertaking by way of demerger into the Resulting Company;
- (ii) Segregating the businesses will enable the Demerged Company to channelize its focus more on its other project;
- (iii) Segregating the businesses will enable focus and bring efficacy in management of the Demerged Undertaking and other real estate projects; and
- (iv) It shall also benefit all the shareholders, creditors, employees and all other stakeholders and shall enable the companies to achieve and fulfil its objectives more efficiently and economically.

Proposed scheme of arrangement between Agile Real Estate Private Limited (“Demerged Company”) and Agile Real Estate Dev Private Limited (formerly known as Appropriate Realty Developers Private Limited) (“Resulting Company”) and their respective shareholders (“AREPL Scheme”)

The proposed scheme of arrangement between the Demerged Company and the Resulting Company and their respective shareholders under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013, provides for the demerger of the project Parklands, situated in Thane, Mumbai (“**Demerged Undertaking**”) from the Demerged Company on a going concern basis into the Resulting Company as on the appointed date i.e., April 1, 2022 or any other date as may be approved by the National Company Law Tribunal, Mumbai. - (iii) Segregating the businesses will enable focus and bring efficacy in management of the Demerged Undertaking and other real estate projects;
- (iv) The proposed demerger would; (a) facilitate the management to efficiently exploit opportunities for core business of the Demerged Undertaking independently in the Resulting Company; and (c) enable cost optimization, better management control and flexibility in operations; and
- (v) It shall also benefit all the shareholders, creditors, employees and all other stakeholders and shall enable the companies to achieve and fulfil its objectives more efficiently and economically.

The KRPL Scheme was approved pursuant to a board resolution dated June 27, 2024.

The rationale for the KRPL Scheme, *inter alia*, is as follows:

- (i) In the real estate sector, it is customary to create project-specific companies to facilitate funding and refinancing. Accordingly, it is envisaged to segregate the Demerged Undertaking by way of demerger into the Resulting Company;
- (ii) Segregating the businesses will enable focus and bring efficacy in management of the Demerged Undertaking and other real estate projects;
- (iii) The proposed demerger would (a) facilitate project specific funding of the Demerged Undertaking in the Resulting Company; (b) facilitate the management to efficiently exploit opportunities for core business of the Demerged Undertaking independently in the Resulting Company; and (c) enable cost optimization, better management control and flexibility in operations; and

- (iii) It shall also benefit all the shareholders, creditors, employees and all other stakeholders and shall enable the companies to achieve and fulfil its objectives more efficiently and economically.

Pursuant to the Scheme, the Demerged Undertaking, together with all its present and future properties, assets, investments, rights, obligations, liabilities, benefits and interests therein, whether known or unknown, shall stand transferred to and vested into the Resulting Company on a going concern basis subject to the charges and encumbrances (to the extent they are outstanding on the appointed date), if any, created by the Demerged Company on their properties. Further, the Resulting Company, through its nominees, holds 100% of the issued, subscribed, and paid-up share capital of Kalpataru Gardens Private Limited (“**KGPL**”). This note provides a list of the significant accounting policies adopted in the preparation of the restated consolidated financial information. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(a) Basis of preparation

The restated consolidated financial statements have been prepared in accordance with the Indian Accounting Standards notified under Section 133 of Companies Act, 2013 (the Act) read with Companies Indian Accounting Standards (Ind AS) Rules, 2015 and other relevant provisions of the Act and rules framed thereunder.

The restated consolidated financial Statements have been prepared by the group for the purpose of proposed offerings/ fund raising at the group level and in accordance with the applicable provisions of section 26 of the Act as amended from time to time, Paragraph A of Clause 11 (I) of Part A of Schedule VI of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended to date (the "SEBI ICDR Regulations") issued by the Securities and Exchange Board of India (the "SEBI") and the Guidance Note on Reports in Company Prospectuses (Revised 2019) ("Guidance Note") issued by The Institute of Chartered Accountants of India ("ICAI").

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

The restated consolidated financial statements are presented in 'Indian Rupees', which is also the Group's functional currency. All amounts are rounded to the nearest million, unless otherwise stated.

2 (i) Material accounting policy (MAP)

(a) Current vis a vis non-current classification

The Group is primarily engaged in the business of real estate activities where the operating cycle commences with the acquisition of land / project, statutory approvals, construction activities and ends with sales which is always more than twelve months. Accordingly, classification of project assets and liabilities into current and non-current has been done considering the relevant operating cycle of the project. All other assets and liabilities are classified into current and non-current based on period of twelve months. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

(b) Principles of consolidation:

(i) Subsidiaries / Enterprises controlled

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date when control ceases.

The acquisition method of accounting under the provisions of Ind AS 103 "Business combination" is used to account for business combinations by the Group.

The Group combines the financial statements of the parent, its subsidiaries and enterprises controlled line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated based on information of such items reported by the entities of the group. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the restated consolidated statement of profit and loss, restated consolidated statement of changes in equity and restated consolidated balance sheet respectively.

The financial statements of the subsidiaries and enterprises controlled used in consolidation are drawn up to the same reporting date as that of the Parent Company i.e. year ended March 31, 2024.

(ii) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% to 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iv) below), after initially being recognised at cost.

(iii) Joint ventures

Interests in joint ventures are accounted for using the equity method (see (iv) below), after initially being recognised at cost.

(iv) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associate and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the accounting policy.

(v) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in consolidated statement of profit and loss. This fair value becomes the initial carrying amount for the purposes of subsequent accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to consolidated statement of profit and loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(c) Property, plant and equipment (including capital work-in-progress)

- (i) All property, plant and equipment are stated at original cost of acquisition/installation (net of input credits availed) less accumulated depreciation and impairment loss, if any, except freehold land which is carried at historical cost. Cost includes cost of acquisition, construction and installation, taxes, duties, freight, borrowing cost and other incidental expenses that are directly attributable to bringing the asset to its working condition for the intended use and estimated cost for decommissioning of an asset.
- (ii) Subsequent expenditure is capitalised only if it is probable that the future economic benefit associated with the expenditure will flow to the group.
- (iii) Property, plant and equipment is derecognised from restated consolidated financial statements, either on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the property, plant and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit and loss in the period in which the property, plant and equipment is derecognised.
- (iv) Capital work-in-progress comprises cost of property, plant and equipment and related expenses that are not yet ready for their intended use at the reporting date.
- (v) Depreciation on property, plant and equipment is provided on written down value method based on the useful life specified in Schedule II of the Companies Act, 2013.
- (vi) Leasehold improvements are depreciated over the period of lease on straight line basis.
- (vii) Sales office cost at various sites are amortised on straight line basis over the period of sixty months as estimated by the management.

(d) Intangible assets

- (i) Intangible assets are carried at cost, net off accumulated amortization and impairment loss, if any.
- (ii) Intangible assets (software's) are amortized on straight line basis over the economic useful life estimated by the management.

(e) Investment property

- (i) Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with the requirements of cost model as per Ind AS-16.
- (ii) An investment property is derecognised from restated consolidated financial statements, either on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the restated consolidated statement of profit and loss in the year in which the property is derecognised.
- (iii) Investment properties are carried initially at cost (on transition date) and depreciation on investment property is provided on written down value method based on the useful life specified in Schedule II of the Companies Act, 2013.

(f) Inventories

Inventories are valued at lower of cost and net realisable value. The cost of raw materials (construction materials) is determined on the basis of weighted average method. Cost of work-in-progress and finished stock includes cost of land / development rights, construction costs, allocated borrowing costs and expenses incidental to the projects undertaken by the Group.

(g) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares except when the results would be anti-dilutive.

(h) Fair value measurement

The Group's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

All financial assets and financial liabilities for which fair value is measured or disclosed in the restated consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

(i) Provisions, contingent liabilities and contingent assets

- (i) Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

Provisions (excluding retirement benefits) are discounted using pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

- (ii) A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group. The Group does not recognize a contingent liability but discloses its existence in the restated consolidated financial statements.

- (iii) Contingent assets are not recognized, but disclosed in the consolidated financial statements where an inflow of economic benefit is probable.

(j) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instruments of another entity.

I Financial assets

(i) Classification

The Group classifies its financial assets either at fair value through profit or loss (FVTPL), fair value through other comprehensive income (FVTOCI) or at amortised cost, based on the Group's business model for managing the financial assets and their contractual cash flows.

(ii) Initial recognition and measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the consolidated statement of profit and loss.

(iii) Subsequent measurement

For the purpose of subsequent measurement, the financial assets are classified in four categories:

- a) Debt instrument at amortised cost
- b) Debt instrument at FVTOCI
- c) Debt instrument at FVTPL
- d) Equity investments

Debt instrument

a) Amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on such instruments is recognised in consolidated statement of profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is calculated using the effective interest rate method and is included under the head "Finance income".

b) Fair value through other comprehensive income (FVTOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the consolidated statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to statement of profit and loss. Interest income from these financial assets is calculated using the effective interest rate method and is included under the head "Finance income".

c) Fair value through profit or loss (FVTPL):

Assets that do not meet the criteria for amortised cost or fair value through other comprehensive income (FVTOCI) are measured at fair value through profit or loss. Gain and losses on fair value of such instruments are recognised in consolidated statement of profit and loss. Interest income from these financial assets is included in other income.

Equity investments

d) Equity investments other than investments in subsidiaries, joint ventures and associates

The Group subsequently measures all equity investments other than investments in subsidiaries, joint ventures and associates at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to the statement of profit and loss in the event of de-recognition. Dividends from such investments are recognised in the consolidated statement of profit and loss as other income when the Group's right to receive payments is established. Changes in the fair value of financial assets at FVTPL are recognised in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

(iv) Impairment of financial assets

The Group assesses on historical credit experience and forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. As per simplified approach, loss allowances on trade receivables are measured using provision matrix at an amount equal to life time expected losses i.e. expected cash shortfall. The impairment losses and reversals are recognised in Statement of Profit and Loss.

The Group continuously monitors defaults of customers, identified either individually or by the Group, and incorporates this information into its credit risk controls. The Group's policy is to deal only with creditworthy counterparties.

In respect of trade and other receivables, the Group is not exposed to any significant credit risk exposure to any single counterparty or any company of counterparties having similar characteristics. Trade receivables consist of a large number of customers. The Group has very limited history of customer default, and considers the credit quality of trade receivables that are not past due or impaired to be good.

(v) De-recognition of financial assets

A financial asset is derecognised only when:

- The rights to receive cash flows from the financial asset have expired
- The Group has transferred substantially all the risks and rewards of the financial asset or
- The Group has neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred control of the financial asset.

II Financial liabilities

(i) Classification

The Group classifies all financial liabilities at amortised cost or fair value through profit or loss.

(ii) Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade and other payables, borrowings including bank overdrafts etc.

(iii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

a Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the consolidated statement of profit and loss.

b Loan, borrowings and deposits

Loan, borrowings and deposits are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated statement of profit and loss / capital work-in-progress / work-in-progress / investment property under construction over the period by using the effective interest rate method.

c Trade and other payables

These amount represent obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Those payables are classified as current liabilities if payment is due within one year or less otherwise they are presented as non-current liabilities. Trade and other payables are subsequently measured at amortised cost using the effective interest rate method.

d Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

(iv) De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the financial liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

(k) Cash and cash equivalents

- (i) Cash and cash equivalents in the balance sheet comprises of cash at bank and on hand and short-term deposit with original maturity up to three months, which are subject to insignificant risk of changes in value.
- (ii) For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents consists of cash and short-term deposit, as defined above, net of outstanding bank overdraft as they are considered as an integral part of Group's cash management.

(l) Revenue recognition

The Group recognises revenue when the amount of revenue can be reliably measured at fair value of consideration received or receivable, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities, as described below. The Group bases its estimate on historical results, taking into consideration the type of transactions and specifics of each arrangement.

(i) Revenue from real estate activity

- a) In case of under construction units, revenue from real estate activity is recognised in accordance with Ind AS 115 'Revenue from Contracts with Customers' on satisfaction of performance obligation on the basis of Group's binding contracts with customers, upon transfer of control of promised products or services to customers for a consideration the Group expects to receive in exchange for those products or services. The Company satisfies the performance obligation at a "point in time" OR "overtime" depending on the fulfilment of the criteria as prescribed in para 35 of the said standard.

As such there being no objective criteria prescribed by the said Standard for recognition of revenue "over time", the Group recognises the revenue based on fulfilment of part obligation on following criteria:

- (i) For revenue recognition, only those units are considered where agreement / contract with buyers is executed.
- (ii) In case, where stage of completion of the project reaches a reasonable level of development i.e. 25% or more as supported by physical work report, revenue is recognised on units mentioned in point no (i) above based on actual cost incurred to the proportion of total estimated cost i.e. "project cost method". (Input Method). In case where units have received occupancy certificate, full revenue is recognized.
- (iii) In case, where stage of completion has not reached a reasonable level of development mentioned in point no (ii) above, the revenue is recognised only to the extent of actual cost incurred subject to fulfilment of point no (i) above.
- b) In case of contracts with customers where performance obligations are satisfied "point in time", the Group recognises the revenue when the customer obtains control of the promised assets which is linked to occupancy certificate on those units where binding agreement/ contracts with the buyers are executed.

Revenue is recognised net of indirect taxes and comprises the aggregate amounts of sale price as per the documents entered into. The total carpet area and estimate of costs are reviewed periodically by the management and any effect of changes therein is recognized in the period in which such changes are determined. However, if and when the total project cost is estimated to exceed the total revenue from the project, the loss is recognized in the same financial year.

(ii) Revenue from sale of land and development rights

Revenue from sale of land and developments rights is recognised upon transfer of all significant risks and rewards of ownership of such real estate / property, as per the terms of the contracts entered into with buyers.

(iii) Revenue from Joint Development Agreements

Projects executed through joint development arrangements not being jointly controlled operations, wherein the land owner/possessor provides land/development rights and the Company undertakes to develop properties on such land and in lieu of land owner providing land/ rights, the Company has agreed to transfer certain percentage of constructed area or certain percentage of the revenue proceeds, the revenue from the development and transfer of constructed area/revenue sharing arrangement in exchange of such development rights/land is being accounted on gross basis on launch of the project.

Revenue is recognised over time using input method, in proportion of the inputs to the satisfaction of a performance obligation relative to the total estimated/expected inputs.

The revenue is measured at the fair value of the land received, adjusted by the amount of any cash or cash equivalents transferred. When the fair value of the land received cannot be measured reliably, the revenue is measured at the fair value of the estimated construction service rendered to the land owner, adjusted by the amount of any cash or cash equivalents transferred. The fair value so estimated is considered as the cost of land in the computation of percentage of completion for the purpose of revenue recognition as mentioned above.

- (iv) Revenue from license fee and other charges earned by way of leasing residential and commercial premises is recognized in the statement of profit and loss on a straight-line basis over the lease term.
- (v) Revenue from service charges is recognized as per the terms of the lease agreement.
- (vi) **Project management fees**
Revenue from project management fees is recognised on accrual basis as per the terms of the agreement.
- (vii) **Dividend income**
Dividend income is recognized when the Company's right to receive the dividend is established.
- (viii) **Interest income**
Interest income for all debt instruments, measured at amortised cost or fair value through other comprehensive income, is recognised using the effective interest rate method.
- (ix) Revenue from sale of agriculture produces are recognised when the Group satisfies its performance obligations fully and the customer obtains control of the promised goods.

(m) Income taxes

The income tax expenses comprises current and deferred tax. It is recognised in the consolidated statement of profit and loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income. In this case, the tax is also recognised directly in equity or in other comprehensive income, respectively.

Current tax:

The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Deferred tax:

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amount used for taxation purposes. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised, such reductions are reversed when the probability of future taxable profits improves.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Unrecognised deferred tax assets are measured at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects at the reporting date to recover or settle the carrying amount of its assets and liabilities.

Minimum Alternate Tax (MAT) credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Group will pay normal income tax during the specified period.

(n) Employee benefits

(i) Short-term benefits

Short-term employee benefits are recognized as an expense at the undiscounted amount in the consolidated statement of profit and loss for the year in which the related services are rendered.

(ii) Defined contribution plans

Payments to defined contribution retirement benefit schemes are charged to the consolidated statement of profit and loss of the year when the contribution to the respective funds are due. There are no other obligations other than the contribution payable to the fund.

(iii) Defined benefit plans

Defined benefits plans is recognized as an expense in the consolidated statement of profit and loss for the year in which the employee has rendered services. The expense is recognized at the present value of the amount payable determined using actuarial valuation techniques.

Re-measurement of the net defined benefit liability, which comprises of actuarial gains and losses, are recognised in other comprehensive income in the period in which they occur.

(iv) Other long-term employee benefits

Other long-term benefits are recognized as an expense in the consolidated statement of profit and loss at the present value of the amounts payable determined using actuarial valuation techniques in the year in which the employee renders services. Re-measurements are recognized in the consolidated statement of profit and loss in the period in which they arise.

(o) Impairment of non-financial assets

The carrying amounts of non financial assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying amount exceeds its recoverable value. The recoverable amount is the greater of an asset's or cash generating unit's, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessment of the time value of money and risks specific to the assets. An impairment loss is charged to the consolidated statement of profit and loss in the year in which an asset is identified as impaired. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. The impairment loss recognized in prior accounting periods is reversed by crediting the consolidated statement of profit and loss if there has been a change in the estimate of recoverable amount.

(p) Borrowing costs

Borrowing costs attributable to the acquisition or construction of qualifying assets are capitalised as part of cost of such assets. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowings.

(q) Leases

At the inception of a contract, the Group assesses whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset, the Group assesses whether :

- The contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group.

- The Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contracts and

- The Group has the right to direct the use of the identified asset throughout the period of use. The Group assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Group as a lessee

Right of use Asset-

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability-

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

Short-term lease and leases of low-value assets-

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months or less and leases of low-value assets, including IT Equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term. The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in Group's operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

(r) Business combinations

- (i) The Group accounts for each business combination (other than common control transactions) by applying the acquisition method under the provisions of Ind AS 103 "Business combination". The Acquisition date is the date on which control is transferred to the acquirer. Judgement is applied in determining the acquisition date and determining whether control is transferred from one party to another.
- (ii) The Group measures goodwill as of the applicable acquisition date at the fair value of the consideration transferred, including the recognized amount of any non-controlling interest in the acquire, less the net recognized amount (measured at fair value) of the identifiable assets acquired and liabilities (including contingent liabilities in case such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably) assumed. When the fair value of the net identifiable assets acquired and liabilities assumed exceeds the consideration transferred, a bargain purchase gain is recognized as capital reserve.
- (iii) Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to settlement of pre-existing relationships.
- (iv) Transactions costs that the Group incurs in connection with a business combination are expensed as incurred.
- (v) Common control transactions are accounted for based on pooling of interest method where the assets and liabilities of the acquiree are recorded at their existing values, the identity of reserves of the acquiree is preserved and the difference between consideration and the face value of the Share capital of the acquiree is transferred to the capital reserve.

(ii) Other Accounting Policies

(a) Foreign currency transactions

- (i) Foreign currency transactions are recorded in the reporting currency (Indian rupee) by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency on the date of the transaction.
- (ii) All monetary items denominated in foreign currency are converted into Indian rupees at the year-end exchange rate. The exchange differences arising on such conversion and on settlement of the transactions are recognised in the consolidated statement of profit and loss. Non-monetary items in terms of historical cost denominated in a foreign currency are reported using the exchange rate prevailing on the date of the transaction.

3 Significant accounting judgements, estimates and assumptions

The preparation of the Group's restated consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Estimates and judgements are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Revisions to accounting estimates are recognised in the period in which the estimate is revised.

(a) Classification of property

The Group determines whether a property is classified as investment property or inventory:

Investment property comprises land and buildings (principally commercial premises and retail property) that are not occupied substantially for use by, or in the operations of, the Group, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business.

Inventory comprises property that is held for sale in the ordinary course of business. Principally, the Group develops and intends to sell before or on completion of construction.

(b) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

(c) Evaluation of percentage completion

Determination of revenues under the percentage of completion method necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the percentages of completion, costs to completion, the expected revenues from the project or activity and the foreseeable losses to completion. Estimates of project income, as well as projects costs, are reviewed periodically. The effect of changes, if any, to estimates is recognised in the restated consolidated financial statements for the period in which such are determined.

(d) Evaluation of control

The Group makes assumptions, when assessing whether it exercises control, joint control or significant influence over entities in which it holds less than 100% of the voting rights. These assumptions are based on the contractual rights with the other shareholder, relevant facts and circumstances which indicate that the Group has power over the potential subsidiary or that joint control exists. Changes to contractual arrangements or facts and circumstances are monitored and are evaluated to determine whether they have a potential impact on the assessment as to whether the Group is exercising control over its investment.

(e) Taxes

The Group periodically assesses its liabilities and contingencies related to income taxes for all years open to scrutiny based on latest information available. For matters where it is probable that an adjustment will be made, the Group records its best estimates of the tax liability in the current tax provision. The Management believes that they have adequately provided for the probable outcome of these matters.

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

(f) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and attrition rate. The discount rate is determined by reference to market yields at the end of the reporting period on government securities.

Financial risk management objectives and policies

The group's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support group's operations. The group's principal financial assets include loans given, trade and other receivables, cash and cash equivalents, other bank balances and refundable deposits that derive directly from its operations.

The group is exposed to market risk, credit risk and liquidity risk. The group's senior management oversees the management of these risks. The group's senior management ensures that the group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the group's policies and risk objectives. The Board of Directors reviews and agrees with the policies for managing each of these risks.

Financial Risk Management

The group has exposure to the following risks arising from financial instruments:

- (i) Market Risk
- (ii) Credit Risk and
- (iii) Liquidity Risk

(i) Market risk

Market risk arises from the group's use of interest bearing financial instruments. It is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in interest rates (interest rate risk) or other market factors. Financial instruments affected by market risk include borrowings, loan given, fixed deposits and refundable deposits.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The group's exposure to the risk of changes in market interest rates relates primarily to the group's debt obligations with floating interest rates. The management is responsible for the monitoring of the group's interest rate position. Different variables are considered by the management in structuring the group's borrowings to achieve a reasonable and competitive cost of funding.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the effect of change in the interest rate on floating rate borrowings, is as follows:

Particulars	Effect of change in Interest rate (Rs. in millions)		
	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022
Increase in interest rate by 50 bps	327.97	323.90	439.46
Decrease in interest rate by 50 bps	(327.97)	(323.90)	(439.46)

b) Currency risk

Currency risk is not material, as the group's primary business activities are within India and does not have significant exposure in foreign currency.

(ii) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities including security deposits, loans to employees and other financial instruments.

I) Trade receivables

The group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The group has entered into contracts for sale / leasing of commercial premises, sale of residential premises and sale of plots. The payment terms are specified in the contracts. The group is exposed to credit risk in respect of the amount due. However, in case of sale, the legal ownership is transferred to the buyer only after the entire amount is recovered. In case of leasing, the group takes security deposit to secure the rent. In addition, the amount due is monitored on an ongoing basis with the result that the group's exposure to bad debts is not significant. The group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions industries and operate in largely independent markets.

II) Financial Instrument and cash deposits

With respect to credit risk arising from other financial assets of the group, which comprise bank balances, cash, loans to related parties and other parties, other receivables and deposits, the group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these assets.

Credit risk from balances with banks is managed by group's treasury in accordance with the group's policy. The group limits its exposure to credit risk by only placing balances with local banks. Given the profile of its bankers, management does not expect any counterparty to fail in meeting its obligations.

(iii) Liquidity risk

Liquidity risk is the risk that the group will not be able to meet its financial obligations as they fall due. The group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial investments and financial assets (e.g. trade receivables, other financial assets) and projected cash flows from operations.

The cash flows, funding requirements and liquidity of group is monitored under the control of Treasury team. The objective is to optimize the efficiency and effectiveness of the management of the group's capital resources. The group's objective is to maintain a balance between continuity of funding and borrowings. The group manages liquidity risk by maintaining adequate reserves and borrowing facilities, by continuously monitoring forecasted and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The group currently has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations.

The table below summarises the maturity profile of the group's financial liabilities based on contractual undiscounted payments:

We are the fifth largest developer in the MCGM area in Maharashtra and the fourth largest developer in Thane, Maharashtra in terms of units supplied from the calendar years 2019 to 2023 (*Source: Anarock Report*). We are led by our Promoters, Mr. Mofatraj P. Munot and Mr. Parag M. Munot, who have experience of more than five and three decades, respectively, in the real estate industry. We are a member of the Kalpataru group of companies, consisting of our Company, Kalpataru Projects International Limited, Property Solutions (India) Private Limited, Shree Shubham Logistics Limited, and our and their respective subsidiaries, among others (collectively, the “**Kalpataru Group**”). The Kalpataru Group was established in 1969 by Mr. Mofatraj P. Munot and has a legacy of 55 years. The Kalpataru Group has a multi-national presence and has operations in EPC contracting for power transmission and distribution, oil and gas, railways, civil infrastructure projects, warehousing and logistics, and facility management. We focus on the development of luxury, premium, and mid-income residential, commercial, and retail projects, integrated townships, lifestyle gated communities, and redevelopments. For our residential developments, we

build and sell a wide range of properties including villas, duplexes, apartments, and plots of varying sizes, with a primary focus on luxury, premium, and mid-income residential real estate. As of March 31, 2024, 67.71% of the Developable Area of the residential projects within our Development Portfolio were located within the MMR, aggregating to 33.69 msf of Developable Area. For commercial developments, we adopt a model of developing, leasing and/or selling commercial units. In our retail developments, we develop, manage and lease units within shopping malls. Our integrated township developments and lifestyle gated community projects typically consist of the development, sale or lease and management of residential, commercial and retail developments. Further, as of March 31, 2024, we had Land Reserves aggregating to 1,886.10 acres. Our Land Reserves comprise land (or rights thereto) that has been acquired, including through purchase or acquisition of development rights, on which there are currently no Ongoing Projects, Forthcoming Projects or Planned Projects.

In addition to acquiring freehold and leasehold interests in land for development, we also adopt an “asset-light” development model by entering into redevelopment, JDA and JV projects with other landowners to develop their land. As of March 31, 2024, we had seven, two, and six projects in our Development Portfolio under the redevelopment, JV, and JDA models, respectively, with Developable Area amounting to 2.30 msf, 3.55 msf, and 6.53 msf, respectively, which collectively comprise 4.62%, 7.13% and 13.12% of the total Developable Area for our Ongoing Projects, Forthcoming Projects and Planned Projects, respectively.

As of March 31, 2024, our Ongoing Projects comprised approximately 22.02 msf of Developable Area. Further, as of March 31, 2024, our Forthcoming Projects comprised approximately 19.93 msf of Developable Area, and are expected to launch across the Financial Years 2025, 2026 and 2027 in various phases. Our Ongoing Projects and the pipeline of Forthcoming Projects offer a significant competitive advantage to us. While a majority of our projects are located in the MMR and Pune, Maharashtra, we have two Ongoing Projects in Hyderabad, Telangana and Noida, Uttar Pradesh; one Forthcoming Project in Nagpur, Maharashtra; and three pieces of land comprising Land Reserves in Surat, Gujarat; Nagpur, Maharashtra; and Udaipur, Rajasthan.

When designing and developing a project, we leverage our experience and utilize a research-based approach for various aspects including layout planning, FSI utilization, unit size, amenities, interiors, and sales and marketing strategy. We have adopted an integrated real estate development model, with capabilities and in-house resources to carry out all key activities associated with real estate development, including identifying and acquiring land (or development rights thereto), planning, designing, executing, sales and marketing of our projects. As a result of our end-to-end execution capabilities and innovation, we have completed prominent projects in a variety of locations in the MMR, including:

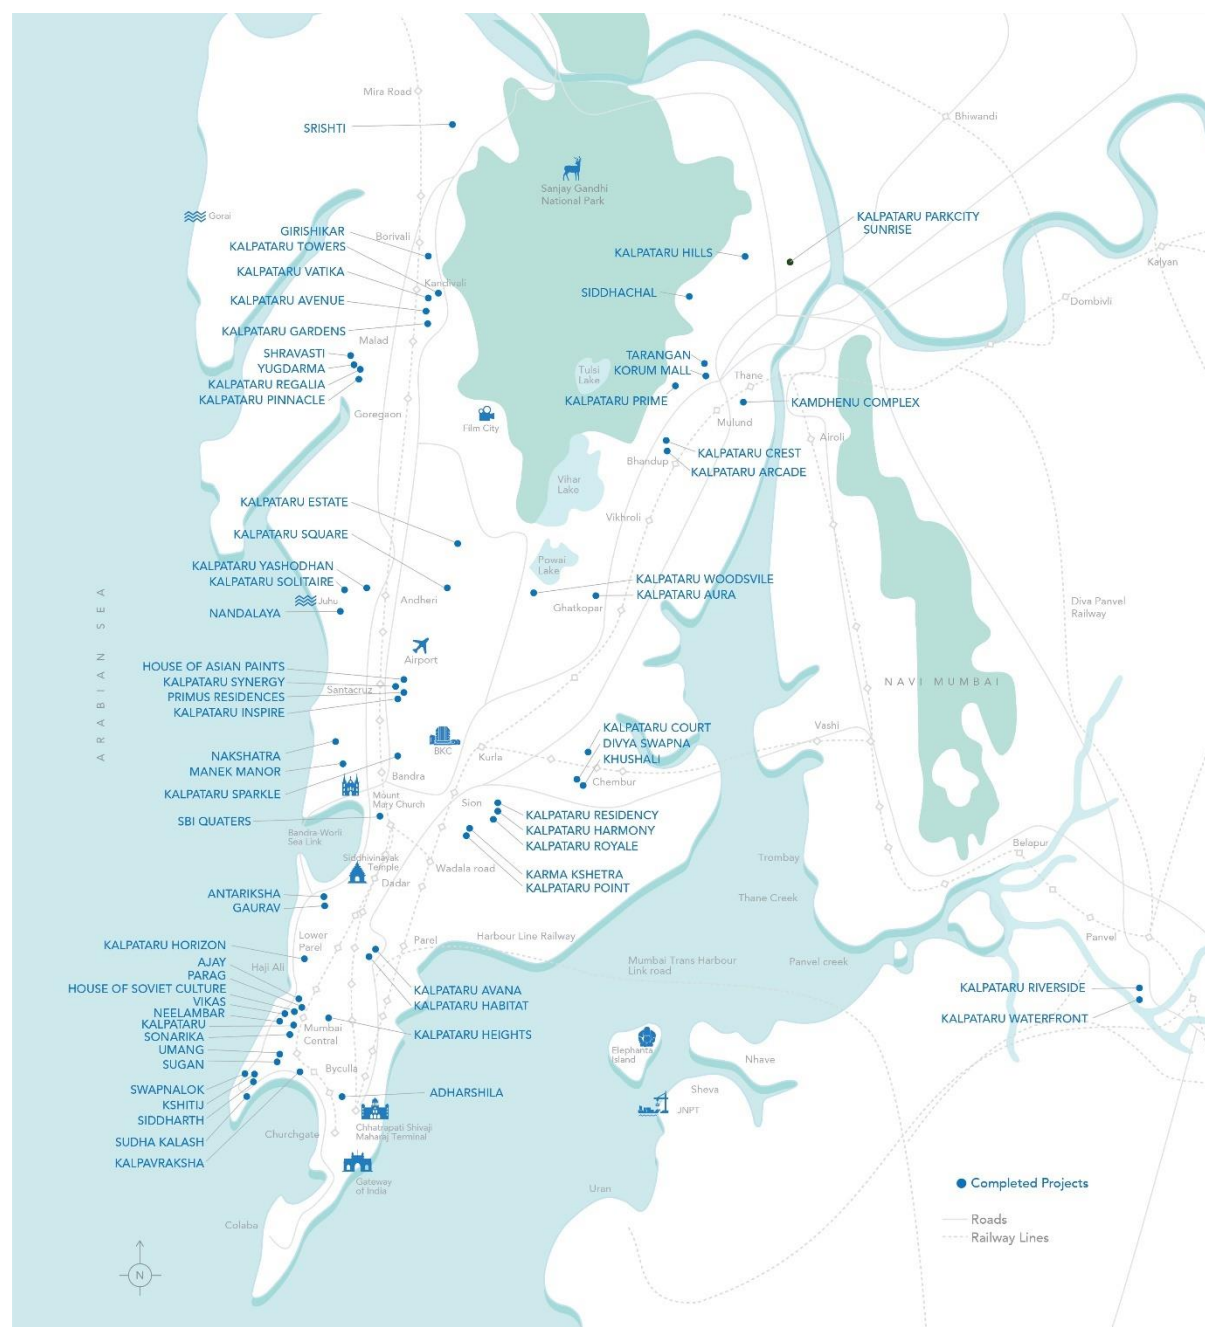

- **Kalpataru Avana** (Parel, Mumbai, Maharashtra)
- **Kalpataru Pinnacle** (Goregaon, Mumbai, Maharashtra)
- **Kalpataru Residency** (Sion, Mumbai, Maharashtra)

The following map shows our (together with our Promoters) Completed Projects as of March 31, 2024 in the MMR:

Note: Map is not to scale. Locations shown are approximate locations.

We are experienced in, and focus on, developing green and sustainable buildings. We are a founding member of the IGBC. In 2009, one of our projects, Kalpataru Square, became the first project in Asia and the sixth project in the world to receive the LEED – Core & Shell 2.0 Platinum certification (administered by Green Business Certification, Inc.). We have since received further accolades, as provided under “*Our Business — Awards and Recognition*” on page 236. Further, 47 and four of our (together with our Promoters’) projects (including both Completed Projects and Ongoing Projects), comprising 31.68 msf and 0.84 msf of Built-up Area, respectively, have either been certified by, pre-certified by, or registered with, IGBC and LEED Green Building certification, respectively. We believe that these green certifications have improved our reputation and the marketability of our respective projects.

We undertake our projects through our in-house team of dedicated and qualified professionals, backed by our experienced senior management, and by engaging leading architects, consultants and EPC companies. On average,

our senior management team (including our key managerial personnel) has over 20 years of experience in the real estate sector and has worked with us for over 14 years. Our Promoters' and some of our management's experience in construction and real estate development in other countries have provided us with know-how on international practices and standards in the real estate industry.

Significant Factors Affecting our Results of Operations

Our financial performance and results of operations are influenced by a number of important factors, some of which are beyond our control, including without limitation, competition, general economic conditions, changes in the conditions in the markets in which we operate and evolving government regulations and policies. Some of the key factors are discussed below. Also see "*Risk Factors*" on page 32.

General economic conditions and the performance of the real estate market in India

We derive a substantial part of our revenue from our real estate activities in India. Accordingly, we are heavily dependent on the state of the Indian real estate sector, the MMR and Pune real estate markets in particular and the Indian economy in general. Since most of our ongoing and planned projects in India are concentrated in the MMR and Pune, we are particularly affected by changes in real estate market conditions in the MMR and Pune. This also has an effect on our expenses, such as the pricing and supply of building materials and other raw materials. The prices and supply of basic building materials and other raw materials depend on factors outside our control, including cost of raw materials, high demand, general economic conditions, geo-political conditions, regulatory changes and controls, competition, indirect taxes and import duties. As demand for new residential and commercial properties is driven by increased employment and increasing disposable income, any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business and financial performance.

Fluctuations in market prices for our Projects

Our total income is affected by the sales and rental prices of our projects, which are affected by prevailing market conditions and prices in the real estate sector in the MMR and Pune in the state of Maharashtra in particular and in India generally (including market forces of supply and demand), the nature and location of our projects, and other factors such as our brand and reputation and the design of our projects.

The real estate market in the MMR and Pune in Maharashtra may be affected by various factors beyond our control, such as:

- prevailing local and economic conditions,
- changes in the supply and demand for properties comparable to those we develop, lack of financing for real estate projects,
- change in demographic trends, employment and income levels,
- availability of consumer financing (interest rates and eligibility criteria for loans),
- changes in the applicable governmental regulations and related policies,
- decrease in or restrictions on foreign currency remittances,
- regional natural disasters or pandemics,
- performance of key industrial sectors, or
- the public perception that any of these events may occur.

Since most of our ongoing and planned projects in India are concentrated in the MMR and Pune in Maharashtra, we are particularly affected by changes in real estate market conditions in the MMR and Pune in Maharashtra, particularly by availability of, and demand for, projects comparable to those we develop and competition from other real estate developers to market and sell similar projects within the same micro-markets. Similarly, we have expanded our presence in Hyderabad, Telangana and Noida, Uttar Pradesh, where we have Ongoing Projects.

Sales volumes, revenue recognition and rate of progress of construction and development

The table below provides our revenue from operations for the Financial Years 2024, 2023 and 2022, also presented as a percentage of our total income:

Particulars	For the Financial Year					
	2024		2023		2022	
	(₹ in millions)	% of total income	(₹ in millions)	% of total income	(₹ in millions)	% of total income
Revenue from operations	19,299.84	95.08	36,331.82	97.76	10,006.73	80.15

We recognize revenue based on the fulfilment of performance obligations as set out in the contracts with our customers, which is further described in Note 2(i)(l) of our Restated Consolidated Financial Information. The estimate of costs are reviewed periodically by our management and any effect of changes therein is recognized in the period in which changes are determined. Our cost estimates are affected by, among other things, volatility in expenses comprising the costs to acquire land, development rights and construction costs. Such changes may in turn affect the profit recognized during the same Financial Year. Accordingly, our income across time periods may fluctuate significantly due to a variety of factors, including the size and number of our developments, execution of agreements and/or contracts with buyers and general market conditions. Variation of project timelines due to project delays and estimates may also have an adverse effect on our ability to recognize revenue in a particular period. As a result of one or more of these factors, we may record significant revenue from operations or profits during one accounting period and significantly lower revenue from operations or profits during prior or subsequent accounting periods. Our Sales volumes within any Financial Year depends on our ability to, among other things:

- design projects that will meet customer preferences and market trends;
- timely market and pre-sell our projects. We market and pre-sell our projects in phases from the date of launch of the project after receiving requisite approvals, including those required under the RERA, which is typically after acquisition of the land or land development rights and during the process of planning and designing the project, up until the time we complete our project, depending on market conditions;
- the preference of our customers to pay for the projects or enter into sale agreements well in advance of receiving possession of the projects; and
- general market conditions.

We market and pre-sell our projects in phases from the date of launch of the project after receiving requisite approvals, including those required under the RERA, which is typically after acquisition of the land or land development rights and during the process of planning and designing the project, up until the time we complete our project, depending on market conditions. Our presales (sales done during launch and construction of a project) have allowed us to benefit from instalment payments from our customers, which we are able to use as working capital.

We estimate the total costs of a project prior to its commencement based on, among other things, the size, specifications and location of the project. We re-evaluate our project costs periodically. If, during the re-evaluation, the total project cost is estimated to exceed the total revenue from the project, we will recognize the loss in the relevant Financial Year. Re-evaluations also affect our ability to allocate resources to the project in a timely manner, which in turn affects construction progress. Our construction process is also affected by other factors including the competence of, and priority given to our projects by, our contractors, the receipt of approvals and regulatory clearances, access to utilities such as electricity and water, and the absence of contingencies such as litigation and adverse weather conditions.

Availability of future growth opportunities

Our growth is linked to the availability of land in areas where we intend to develop projects either by ourselves or under joint development or joint venture arrangements. Suitable land parcels are limited in the cities of Mumbai and Pune, our primary market, as well as in the cities of Pune and Hyderabad. as of March 31, 2024, we had Land Reserves aggregating to 1,888.08 acres. Our Land Reserves comprise land (or rights thereto) that has been

acquired, including through purchase or acquisition of development rights, on which there are currently no Ongoing Projects, Forthcoming Projects or Planned Projects. Our land reserves were located in Surat, Gujarat; Pune, Maharashtra; Nagpur, Maharashtra; Udaipur, Rajasthan; and Shirol, Maharashtra. We plan to develop our Land Reserves in a phased manner, starting with residential projects, while selectively developing retail and other commercial projects as part of mixed use developments. We may also consider a variety of potential strategies to unlock value from undeveloped area in our Land Reserves, including sale of undeveloped land or grant of development rights to third-party developers in order to recycle capital.

In addition to acquiring freehold and leasehold interests in land for development, we also adopt an “asset-light” development model by entering into redevelopment, joint development agreements (“**JDA**”) and joint ventures (“**JV**”) projects with other landowners to develop their land. As of March 31, 2024, we had seven, two, and six projects in our Development Portfolio under the redevelopment, JV, and JDA models, respectively, with Developable Area amounting to 2.30 msf, 3.55 msf, and 6.53 msf, respectively, which collectively comprise 4.62%, 7.14% and 13.12% of the total Developable Area for our Ongoing Projects, Forthcoming Projects and Planned Projects, respectively.

Mumbai, particularly in South Central and select Western Suburbs areas such as Bandra, Santacruz, Khar, and Juhu, has scarce land for greenfield development. New projects primarily stem from redevelopment initiatives, including old residential properties, industrial sites, conglomerate-owned land, and slums (*Source: Anarock Report*). We believe that redevelopment projects will be an important means for obtaining land in the MMR, and we intend to increase our focus on participating in redevelopment projects. We intend to leverage our brand recall and strong execution, marketing and sales capabilities to further develop our existing real estate business. In this regard, we intend to utilize a range of development models such as JV, JDAs and redevelopment in addition to acquiring freehold and leasehold interests in land for development. In doing so, we aim to be in a strong position to capture greater market share and benefit from the industry trend towards consolidation.

Our ability to identify and acquire interests in suitable land parcels is a vital element of growing our business and is dependent on a number of factors, some of which may be beyond our control, such as identifying land with clean title at locations that are preferred by our target customers at suitable prices, the willingness of land owners to sell land or assign development rights or interest in the land on terms acceptable to us, our ability to acquire contiguous parcels of land, the availability and cost of financing, encumbrances on targeted land, Government directives on use of land, and consents and approvals for land acquisition and development. Our acquisition of interests in land is also subject to the risk that sellers may, during such time, identify and transact with alternative purchasers or decide not to sell the land. The cost of acquiring land, which includes the amounts paid for freehold rights, leasehold rights, the cost of registration and stamp duty, represents a substantial part of our project cost, and may sometimes determine whether we are able to acquire certain parcels of land at all. We acquire land from private parties and also from the Government. We enter into a deed of conveyance or a lease deed transferring title or leasehold rights in our favour. The registration charges and stamp duty are generally payable by us. Additional costs include those incurred in complying with regulatory formalities, such as fees paid for change of land use, infrastructure and development charges and premium.

Cost of sales and other operational expenses and the progress of construction and development

Cost of sales and other operational expenses include the cost of construction, which in turn primarily comprises cost of raw materials (including steel, cement, flooring, façade and other building materials) and labor. Raw material prices, particularly those of steel and cement, may be affected by price volatility caused by various factors that affect the Indian and international commodity markets. In addition, our supply chain may be periodically disrupted by circumstances beyond our control, such as pandemic-related lockdowns, work stoppages and labor disputes affecting our suppliers, distributors and the transporters of our suppliers. Most of our construction work for our projects is performed by third party sub-contractors. The timing and quality of construction of the projects depends on the availability and skill of such third parties, as well as contingencies affecting them, including labor and raw material shortages. Our ability to develop and construct properties profitably is dependent upon such third party construction contractors. In some of our arrangements with our construction contractors, we provide for an escalation or reduction in price that corresponds to an escalation or reduction in the price of building materials.

Construction progress may be delayed and we may incur additional costs as a result of such delays as construction progress is dependent on factors beyond our control, including the availability and skill of our contractors, architects and consultants, as well as contingencies affecting them, including labor and industrial actions such as strikes and lockouts, the availability of raw materials, the prompt receipt of regulatory clearances, access to utilities such as electricity and water, litigation and adverse weather conditions. Delays and additional costs

incurred on projects could adversely affect the relative affordability of our projects compared to our competitors' products which will have an effect on our results of operations. In addition, where prices have increased significantly or unexpectedly, we may not be able to pass such price increases through to our customers, particularly as we generally aim to sell a significant portion of our residential units before project completion, which could reduce or eliminate the profits we attain with regard to our projects, or result in losses.

Cost of financing and changes in interest rates or tax incentives

Our business is capital intensive and requires significant expenditure for land acquisition and project development. Though we believe we are able to obtain funding at competitive interest rates, cost of financing is material for us. Details of our total borrowings and finance costs as of and for the Financial Years 2024, 2023 and 2022 are set out below:

Particulars ⁽¹⁾	As of and for the Financial Year		
	2024	2023	2022
	(₹ in millions)		
Total borrowings	106,883.09	96,796.43	103,659.65
Finance costs (attributable to cost of sales and other operational expenses)	11,777.37	12,734.84	6,208.98

(1) While our total borrowings for the Financial Year 2022 included the borrowings of two subsidiaries acquired on March 31, 2022, the finance costs attributable to such subsidiaries were not considered for consolidation in our Restated Consolidated Financial Information for the Financial Year 2022, in accordance with Ind AS. However, the finance costs attributable to such subsidiaries have been consolidated into our statement of profit and loss from the Financial Year 2023 onwards.

In addition, changes in interest rates affect the ability and willingness of prospective real estate customers, particularly residential property purchasers, to obtain financing for the purchase of properties. The interest rate at which our real estate property purchasers may borrow funds for the purchase of our properties affects the affordability of our real estate projects. Instances of inflation and economic turmoil in the past, have led to an increase in the interest rates and a decrease in the availability of loans, making our real estate properties less attractive to our customers.

Further, any changes in the tax incentives available to purchasers or properties or tax treatment with respect to the repayment of principal on housing loans and interest payable on housing loans could affect demand for residential real estate. Certain of our real estate developments projects qualify for tax benefits that affect our results of operations. For example, we are subject to a minimum alternate tax ("MAT") of 15% on our book profits in addition to the applicable surcharge and cess. Amounts paid as MAT may be credited against future income taxes for up to 15 years from the year in which the MAT credited was paid. Indian tax policies also make our properties more affordable to customers by allowing for a deduction of principal payments and interest payments on mortgage loans up to specific amounts. The continuation of these tax benefits or the lack thereof will have an effect on the affordability of our projects and consequently, our business.

Ability to sell and lease office space and our retail projects and rental collections

We receive lease income from rentals of our completed office space and retail projects and Sales income from the sales of certain office space. The amount that we receive in lease income is based upon the amount of space we have leased and the rate per square foot we charge for that leased space. The occupancy and rates we charge per square foot depend on various factors including the location and design of the project, the tenant mix, prevailing economic conditions and competition. Our lease income is also affected by escalation clauses contained in our lease agreements.

Set out below are details of the rental value of our commercial and retail projects (which we record as license fees in our Restated Consolidated Financial Information) during the Financial Years 2024, 2023 and 2022, respectively:

Particulars	For the Financial Year					
	2024		2023		2022	
	(₹ in millions)	% of total revenue from operations	(₹ in millions)	% of total revenue from operations	(₹ in millions)	% of total revenue from operations
License fees	1,262.74	6.54	1,200.86	3.31	1,092.09	10.91

Our commercial real estate business is focused on the development of commercial space, including the sale and lease of commercial space. Our growth and success will depend on the provision of high quality commercial space to attract and retain customers who are willing and able to lease or purchase these developments at suitable levels, and on our ability to anticipate the future needs and expansion plans of such customers.

Further, in order to successfully operate retail developments, we are required to forecast market demand accurately, as well as enter into leasing arrangements with popular retailers. We lease retail space on a fixed rental, variable (revenue-based) rental or fixed or variable (whichever is higher) basis. The more consumers spend at stores for which the rent contains a variable component, the more lease income we will receive. The amount of money spent by consumers at these stores is dependent on numerous factors including prevailing economic conditions and competition from other shopping malls and stores. We believe that in order to draw consumers away from traditional shopping environments such as small local retail stores or markets as well as from competing centres, we need to create demand for our retail developments where consumers can take advantage of a variety of consumer and retail options, such as large department stores and shopping complexes with designer stores, with comprehensive entertainment facilities, including multiplexes, restaurants and bars, gaming zones, air conditioning and adequate parking facilities. Further, to help ensure our shopping centres' success, we must secure suitable anchor tenants and other retailers as they play a key role in generating customer traffic. A decline in consumer and retail spending or a decrease in the popularity of the retailers' businesses could cause retailers to cease operations or experience significant financial difficulties that in turn could reduce our ability to continue to attract successful retailers and visitors to our projects.

Competition

We operate our business in an intensely competitive and highly fragmented industry. We face significant competition in our business from Indian real estate development companies who also operate in the same regional markets as us. The extent of the competition we face in a potential property market depends on a number of factors, such as the size and type of property development, contract value and potential margins, the complexity and location of the property development, and the risks relating to revenue generation.

While the MMR and Pune remain and are expected to remain our primary focus, we also intend to selectively pursue opportunities in other upcoming cities across India. As we diversify our regional focus, we face the risk that some of our competitors, who are also engaged in real estate development, may be better known in other markets, enjoy better relationships with land owners and international or domestic joint venture partners, may gain early access to information regarding attractive parcels of land and may be better placed to acquire such land.

Some of our competitors are larger than us and have greater land reserves or financial resources or a more experienced management team. They may also benefit from greater economies of scale and operating efficiencies. Competitors may, whether through consolidation or growth, present more credible integrated and/or lower cost solutions than we do, causing us to acquire fewer land or development rights. There can be no assurance that we can continue to compete effectively with our competitors in the future, and failure to compete effectively may have an adverse effect on our business, financial condition and results of operations. Competitive overbuilding in certain markets may have a material adverse effect on our operations in that market. Our key competitors in the areas where we currently operate and focus include real estate developers such as the Lodha group, Godrej Properties Limited, Rustomjee Group, Oberoi Realty, Mahindra Lifespace Developers, Prestige Estates and Sunteck Realty, according to the Anarock Report.

Regulatory framework

The real estate sector is highly regulated. Regulations applicable to our operations include standards regarding land acquisition, the ratio of built-up area to land area, land usage, the suitability of building sites, road access, necessary community facilities, open spaces, water supply, sewage disposal systems, electricity supply, environmental suitability and size of the project. Approval of development plans is conditioned on, among other things, completion of the acquisition of the project site and compliance with relevant conditions. Approvals must be obtained at both the national and local levels, and our results of operations are expected to continue to be affected by the nature and extent of the regulation of our business, including the relative time and cost involved in procuring approvals for each new project, which can vary from project to project.

For example, the RERA, which was notified in March 2016, has imposed certain obligations on real estate developers, including us, such as mandatory registration of real estate projects, not issuing any advertisements or accepting advances unless real estate projects are registered under RERA, restrictions on use of funds received

from customers prior to project completion and taking customer approval for major changes in sanction plan. Under RERA, if we fail to complete the developments within a specified time period, we are required to compensate our customers at specified rates for the delay except in the case of force majeure situations and other circumstances that are deemed necessary for extending the time period. We are also required to provide warranties for a period of up to five years for construction defects, and may be held liable for such defects. Also see “*Risk Factors – Internal Risk Factors – We are subject to safety, health, environmental, labour, and related laws in our business. Compliance with, and changes to, these laws may increase our compliance costs and may adversely affect our results of operations and financial condition*” on page 54.

Material Accounting Policies

The notes to our Restated Consolidated Financial Information included in this Draft Herring Prospectus contain a summary of our material accounting policies. Set forth below is a summary of our most significant accounting policies under Ind AS.

Basis of preparation

The Restated Consolidated Financial Information has been prepared in accordance with the Indian Accounting Standards notified under Section 133 of the Companies Act, 2013, read with the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Companies Act, 2013 and rules framed thereunder.

The Restated Consolidated Financial Information has been prepared by us for the purpose of proposed offerings/fund-raising at the group level and in accordance with the applicable provisions of Section 26 of the Companies Act, 2013, as amended from time to time, Paragraph A of Clause 11 (I) of Part A of Schedule VI of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended to date issued by the Securities and Exchange Board of India and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by The Institute of Chartered Accountants of India.

The Restated Consolidated Financial Information has been prepared under the historical cost convention and on accrual basis, except for certain financial assets and liabilities measured at fair value and defined benefit plan assets that are measured at fair value as explained in the accounting policies below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, we take into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

The Restated Consolidated Financial Information is presented in ‘Indian Rupees’, which is also our functional currency. All amounts are rounded to the nearest million, unless otherwise stated.

Current vis-à-vis non-current classification

We are primarily engaged in the business of real estate activities where the operating cycle commences with the acquisition of land / project, statutory approvals, construction activities and ends with sales which is always more than twelve months. Accordingly, classification of project assets and liabilities into current and non-current has been done considering the relevant operating cycle of the project. All other assets and liabilities are classified into current and non-current based on period of twelve months. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Principles of consolidation

(i) Subsidiaries / Enterprises controlled

Subsidiaries are all entities over which we have control. We control an entity when we are exposed to, or have rights to, variable returns from our involvement with the entity and have the ability to affect those returns through our power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to us. They are deconsolidated from the date when control ceases.

The acquisition method of accounting under the provisions of Ind AS 103 “Business Combination” is used to account for business combinations by us.

We combine the financial statements of the Company, its subsidiaries and enterprises controlled line-by-line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between our companies are eliminated based on information of such items reported by our entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by us.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and consolidated balance sheet respectively.

The financial statements of the subsidiaries and enterprises controlled used in consolidation are drawn up to the same reporting date as that of the Company, i.e., the year ended March 31, 2024.

(ii) *Associates*

Associates are all entities over which we have significant influence but not control or joint control. This is generally the case where we hold between 20% to 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iv) below), after initially being recognised at cost.

(iii) *Joint ventures*

Interests in joint ventures are accounted for using the equity method (see (iv) below), after initially being recognised at cost.

(iv) *Equity method*

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise our share of the post-acquisition profits or losses of the investee in profit and loss, and our share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When our share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, we do not recognise further losses, unless we have incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between us and our associate and joint ventures are eliminated to the extent of our interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by us.

The carrying amount of equity accounted investments are tested for impairment in accordance with the accounting policy.

(v) *Changes in ownership interests*

We treat transactions with non-controlling interests that do not result in a loss of control as transactions with our equity owners. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When we cease to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in consolidated statement of profit and loss. This fair value becomes the initial

carrying amount for the purposes of subsequent accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if we had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to consolidated statement of profit and loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

Property, plant and equipment (including capital work-in-progress)

All property, plant and equipment are stated at original cost of acquisition/installation (net of input credits availed) less accumulated depreciation and impairment loss, if any, except freehold land which is carried at historical cost. Cost includes cost of acquisition, construction and installation, taxes, duties, freight, borrowing cost and other incidental expenses that are directly attributable to bringing the asset to its working condition for the intended use and estimated cost for decommissioning of an asset.

Subsequent expenditure is capitalised only if it is probable that the future economic benefit associated with the expenditure will flow to us.

Property, plant and equipment is derecognised from consolidated financial statements, either on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the property, plant and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit and loss in the period in which the property, plant and equipment is derecognised.

Capital work-in-progress comprises cost of property, plant and equipment and related expenses that are not yet ready for their intended use at the reporting date.

Depreciation on property, plant and equipment is provided on written down value method based on the useful life specified in Schedule II of the Companies Act, 2013. Leasehold improvements are depreciated over the period of lease on straight line basis. Sales office cost at various sites are amortised on straight line basis over the period of sixty months as estimated by our management.

Intangible assets

Intangible assets are carried at cost, net off accumulated amortization and impairment loss, if any. Intangible assets (software) are amortized on straight line basis over the economic useful life estimated by the management.

Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with the requirements of cost model as per Ind AS 16.

An investment property is derecognised from the Restated Consolidated Financial Information, either on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit and loss in the year in which the property is derecognised.

Investment properties are carried initially at cost (on transition date) and depreciation on investment property is provided on written down value method based on the useful life specified in Schedule II of the Companies Act, 2013.

Inventories

Inventories are valued at lower of cost and net realisable value. The cost of raw materials (construction materials) is determined on the basis of weighted average method. Cost of work-in-progress and finished stock includes cost of land / development rights, construction costs, allocated borrowing costs and expenses incidental to the projects undertaken by us.

Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares except when the results would be anti-dilutive.

Fair value measurement

Our accounting policies and disclosures require the measurement of fair values for financial instruments.

We have an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

All financial assets and financial liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable, or
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

We recognise transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Provisions, contingent liabilities and contingent assets

Provisions are recognized when we have a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses. Provisions are measured at the present value of our management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

Provisions (excluding retirement benefits) are discounted using pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond our control. We do not recognize a contingent liability but disclose its existence in the consolidated financial statements.

Contingent assets are not recognized, but disclosed in the Restated Consolidated Financial Information where an inflow of economic benefit is probable.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instruments of another entity.

(i) Financial assets

Classification

We classify our financial assets either at fair value through profit or loss (“**FVTPL**”), fair value through other comprehensive income (“**FVTOCI**”) or at amortised cost, based on our business model for managing the financial assets and their contractual cash flows.

Initial recognition and measurement

At initial recognition, we measure a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the consolidated statement of profit and loss.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in four categories:

- (a) Debt instrument at amortised cost;
- (b) Debt instrument at FVTOCI;
- (c) Debt instrument at FVTPL; and
- (d) Equity investments.

Debt instruments

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on such instruments is recognised in consolidated statement of profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is calculated using the effective interest rate method and is included under the head "Finance income".

FVTOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the consolidated statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to statement of profit and loss. Interest income from these financial assets is calculated using the effective interest rate method and is included under the head “finance income”.

FVTPL: Assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. Gain and losses on fair value of such instruments are recognised in consolidated statement of profit and loss. Interest income from these financial assets is included in other income.

Equity investments

Equity investments other than investments in subsidiaries, joint ventures and associates: We subsequently measure all equity investments other than investments in subsidiaries, joint ventures and associates at fair value. Where our management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to the statement of profit and loss in the event of de-recognition. Dividends from such investments are recognised in the consolidated statement of profit and loss as other income when our right to receive payments is established. Changes in the fair value of financial assets at FVTPL are recognised in the statement of profit

and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

Impairment of financial assets

We assess, on a historical credit experience and forward looking basis, the expected credit losses associated with our assets carried at amortised cost and debt instruments at FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk. As per simplified approach, loss allowances on trade receivables are measured using provision matrix at an amount equal to life time expected losses, i.e., expected cash shortfall. The impairment losses and reversals are recognised in the statement of profit and loss.

We continuously monitor defaults of customers, identified either individually or by us, and incorporate this information into our credit risk controls. Our policy is to deal only with creditworthy counterparties.

In respect of trade and other receivables, we are not exposed to any significant credit risk exposure to any single counterparty or any company of counterparties having similar characteristics. Trade receivables consist of a large number of customers. We have a very limited history of customer default, and consider the credit quality of trade receivables that are not past due or impaired to be good.

De-recognition of financial assets

A financial asset is derecognised only when:

- The rights to receive cash flows from the financial asset have expired;
- We have transferred substantially all the risks and rewards of the financial asset; or
- We have neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred control of the financial asset.

(ii) Financial liabilities

Classification

We classify all financial liabilities at amortised cost or FVTPL.

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. Our financial liabilities include trade and other payables, borrowings including bank overdrafts etc.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the consolidated statement of profit and loss.

Loan, borrowings and deposits

Loan, borrowings and deposits are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated statement of profit and loss / capital work-in-progress / work-in-progress / investment property under construction over the period by using the effective interest rate method.

Trade and other payables

These amount represent obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Those payables are classified as current liabilities if payment is due within one year or less otherwise they are presented as non-current liabilities. Trade and other payables are subsequently measured at amortised cost using the effective interest rate method.

Financial guarantee contracts

Financial guarantee contracts issued by us are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the financial liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprises of cash at bank and on hand and short-term deposit with original maturity up to three months, which are subject to insignificant risk of changes in value.

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents consists of cash and short-term deposit, as defined above, net of outstanding bank overdraft as they are considered as an integral part of our cash management.

Revenue recognition

We recognise revenue when the amount of revenue can be reliably measured at fair value of consideration received or receivable, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of our activities, as described below. We base our estimate on historical results, taking into consideration the type of transactions and specifics of each arrangement.

Revenue from real estate activity

In case of under construction units, revenue from real estate activity is recognised in accordance with Ind AS 115 'Revenue from Contracts with Customers' on satisfaction of performance obligation on the basis of our binding contracts with customers, upon transfer of control of promised products or services to customers for a consideration we expect to receive in exchange for those products or services. The Company satisfies the performance obligation at a "point in time" or "over time" depending on the fulfilment of the criteria as prescribed in paragraph 35 of Ind AS 115.

As such, there being no objective criteria prescribed by Ind AS 115 for recognition of revenue "over time", we recognise the revenue based on fulfilment of part obligation on the following criteria:

- (i) For revenue recognition, only those units are considered where an agreement / contract with buyers is executed;
- (ii) In cases where stage of completion of the project reaches a reasonable level of development, i.e., 25% or more, as supported by physical work report, revenue is recognised on units mentioned in (i) above based on actual cost incurred to the proportion of total estimated cost, i.e., on the "project cost method" (input method). In cases where units have received occupancy certificate, full revenue is recognized;

- (iii) In cases where stage of completion has not reached a reasonable level of development mentioned in (ii) above, the revenue is recognised only to the extent of actual cost incurred subject to fulfilment of (i) above.

In case of contracts with customers where performance obligations are satisfied “point in time”, we recognise the revenue when the customer obtains control of the promised assets which is linked to occupancy certificate on those units where binding agreement/ contracts with the buyers are executed.

Revenue is recognised net of indirect taxes and comprises the aggregate amounts of sale price as per the documents entered into. The total carpet area and estimate of costs are reviewed periodically by our management and any effect of changes therein is recognized in the period in which such changes are determined. However, if and when the total project cost is estimated to exceed the total revenue from the project, the loss is recognized in the same financial year.

Revenue from sale of land and development rights

Revenue from sale of land and developments rights is recognised upon transfer of all significant risks and rewards of ownership of such real estate / property, as per the terms of the contracts entered into with buyers.

Revenue from Joint Development Agreements

Projects executed through joint development arrangements not being jointly controlled operations, wherein the land owner/possessor provides land/development rights and the Company undertakes to develop properties on such land and in lieu of land owner providing land/ rights, the Company has agreed to transfer certain percentage of constructed area or certain percentage of the revenue proceeds, the revenue from the development and transfer of constructed area/revenue sharing arrangement in exchange of such development rights/land is being accounted on gross basis on launch of the project.

Revenue is recognised over time using input method, in proportion of the inputs to the satisfaction of a performance obligation relative to the total estimated/expected inputs.

The revenue is measured at the fair value of the land received, adjusted by the amount of any cash or cash equivalents transferred. When the fair value of the land received cannot be measured reliably, the revenue is measured at the fair value of the estimated construction service rendered to the land owner, adjusted by the amount of any cash or cash equivalents transferred. The fair value so estimated is considered as the cost of land in the computation of percentage of completion for the purpose of revenue recognition as mentioned above.

Revenue from leasing

Revenue from license fee and other charges earned by way of leasing residential and commercial premises is recognized in the statement of profit and loss on a straight-line basis over the lease term.

Revenue from service charges is recognized as per the terms of the lease agreement.

Project management fees

Revenue from project management fees is recognised on accrual basis as per the terms of the agreement.

Dividend income

Dividend income is recognized when the Company's right to receive the dividend is established.

Interest income

Interest income for all debt instruments, measured at amortised cost or FVTOCI, is recognised using the effective interest rate method.

Revenue from sale of agriculture produces are recognised when we satisfy our performance obligations fully and the customer obtains control of the promised goods.

Income taxes

The income tax expenses comprises current and deferred tax. It is recognised in the consolidated statement of profit and loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income. In this case, the tax is also recognised directly in equity or in other comprehensive income, respectively.

Current tax

The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amount used for taxation purposes. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised, such reductions are reversed when the probability of future taxable profits improves.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Unrecognised deferred tax assets are measured at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects at the reporting date to recover or settle the carrying amount of its assets and liabilities.

Minimum Alternate Tax (“MAT”) credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that we will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that we will pay normal income tax during the specified period.

Employee benefits

Short-term benefits

Short-term employee benefits are recognized as an expense at the undiscounted amount in the consolidated statement of profit and loss for the year in which the related services are rendered.

Defined contribution plans

Payments to defined contribution retirement benefit schemes are charged to the consolidated statement of profit and loss of the year when the contribution to the respective funds are due. There are no other obligations other than the contribution payable to the fund.

Defined benefit plans

Defined benefits plans is recognized as an expense in the consolidated statement of profit and loss for the year in which the employee has rendered services. The expense is recognized at the present value of the amount payable determined using actuarial valuation techniques.

Re-measurement of the net defined benefit liability, which comprises actuarial gains and losses, are recognised in other comprehensive income in the period in which they occur.

Other long-term employee benefits

Other long-term benefits are recognized as an expense in the consolidated statement of profit and loss at the present value of the amounts payable determined using actuarial valuation techniques in the year in which the employee renders services. Re-measurements are recognized in the consolidated statement of profit and loss in the period in which they arise.

Impairment of non-financial assets

The carrying amounts of non-financial assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying amount exceeds its recoverable value. The recoverable amount is the greater of an asset's or cash generating unit's, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessment of the time value of money and risks specific to the assets. An impairment loss is charged to the consolidated statement of profit and loss in the year in which an asset is identified as impaired. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. The impairment loss recognized in prior accounting periods is reversed by crediting the consolidated statement of profit and loss if there has been a change in the estimate of recoverable amount.

Borrowing costs

Borrowing costs attributable to the acquisition or construction of qualifying assets are capitalised as part of cost of such assets. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowings.

Leases

At the inception of a contract, we assess whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset, we assess whether:

- (i) The contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to us;
- (ii) We have the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering our rights within the defined scope of the contracts; and
- (iii) We have the right to direct the use of the identified asset throughout the period of use. We assess whether we have the right to direct 'how and for what purpose' the asset is used throughout the period of use.

As a lessor

Leases in which we do not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

As a lessee

Right-of-use Asset

We recognise a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

Short-term lease and leases of low-value assets

We have elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months or less and leases of low-value assets, including IT equipment. We recognise the lease payments associated with these leases as an expense on a straight-line basis over the lease term. The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in our operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

Business combinations

We account for each business combination (other than common control transactions) by applying the acquisition method under the provisions of Ind AS 103 "Business combination". The acquisition date is the date on which control is transferred to the acquirer. Judgement is applied in determining the acquisition date and determining whether control is transferred from one party to another.

We measure goodwill as of the applicable acquisition date at the fair value of the consideration transferred, including the recognized amount of any non-controlling interest in the acquiree, less the net recognized amount (measured at fair value) of the identifiable assets acquired and liabilities (including contingent liabilities in case such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably) assumed. When the fair value of the net identifiable assets acquired and liabilities assumed exceeds the consideration transferred, a bargain purchase gain is recognized as capital reserve.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by us to the previous owners of the acquiree, and equity interests issued by us. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to settlement of pre-existing relationships.

Transactions costs that we incur in connection with a business combination are expensed as incurred.

Common control transactions are accounted for based on pooling of interest method where the assets and liabilities of the acquiree are recorded at their existing values, the identity of reserves of the acquiree is preserved and the difference between consideration and the face value of the share capital of the acquiree is transferred to the capital reserve.

Other accounting policies

Foreign currency transactions

Foreign currency transactions are recorded in the reporting currency (Indian rupee) by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency on the date of the transaction.

All monetary items denominated in foreign currency are converted into Indian rupees at the year-end exchange rate. The exchange differences arising on such conversion and on settlement of the transactions are recognised in the consolidated statement of profit and loss. Non-monetary items in terms of historical cost denominated in a foreign currency are reported using the exchange rate prevailing on the date of the transaction.

Significant accounting judgements, estimates and assumptions

The preparation of our consolidated financial statements in conformity with Ind AS requires our management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Estimates and judgements are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Revisions to accounting estimates are recognised in the period in which the estimate is revised.

Classification of property

We determine whether a property is classified as investment property or inventory:

- Investment property comprises land and buildings (principally commercial premises and retail property) that are not occupied substantially for use by, or in the operations of, us, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business.
- Inventory comprises property that is held for sale in the ordinary course of business. Principally, we develop and intend to sell before or on completion of construction.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Evaluation of percentage completion

Determination of revenues under the percentage of completion method necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the percentages of completion, costs to completion, the expected revenues from the project or activity and the foreseeable losses to completion. Estimates of project income, as well as projects costs, are reviewed periodically. The effect of changes, if any, to estimates is recognised in the consolidated financial statements for the period in which such are determined.

Evaluation of control

We make assumptions, when assessing whether we exercise control, joint control or significant influence over entities in which we hold less than 100% of the voting rights. These assumptions are based on the contractual rights with the other shareholder, relevant facts and circumstances which indicate that we have power over the potential subsidiary or that joint control exists. Changes to contractual arrangements or facts and circumstances are monitored and are evaluated to determine whether they have a potential impact on the assessment as to whether we are exercising control over our investment.

Taxes

We periodically assess our liabilities and contingencies related to income taxes for all years open to scrutiny based on latest information available. For matters where it is probable that an adjustment will be made, we record our best estimates of the tax liability in the current tax provision. Our management believes that they have adequately provided for the probable outcome of these matters.

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and attrition rate. The discount rate is determined by reference to market yields at the end of the reporting period on government securities.

Changes in accounting policies and recent accounting pronouncements

There have been no changes in our accounting policies during the Financial Years 2024, 2023 and 2022.

As of the date of this Draft Red Herring Prospectus, there are no recent accounting pronouncements which would have a material effect on our financial condition or results of operations.

Financial Year 2024 compared to Financial Year 2023

Total income. Total income decreased by 45.38% to ₹20,299.36 million for the Financial Year 2024 from ₹37,166.11 million for the Financial Year 2023, primarily due to a decrease in revenue from operations. This was on account of certain one-off transactions comprising sales of parcels of land during the Financial Year 2023 and are discussed further below.

Revenue from operations. Revenue from operations decreased by 46.88% to ₹19,299.84 million for the Financial Year 2024 from ₹36,331.82 million for the Financial Year 2023, primarily on account of a decrease in sale of plots/land to ₹395.77 million for the Financial Year 2024 compared to ₹20,025.82 million for the Financial Year 2023, which was primarily due to one-off sales of parcels of land in Thane and Pune for a total sum of ₹20,025.82 million that took place in the Financial Year 2023. This was partially offset by increases in (i) revenue from sale of residential units to ₹16,314.97 million for the Financial Year 2024 from ₹14,221.96 million for the Financial Year 2023, due to an increase in our recognized revenue from the sale of residential units in *Kalpataru Elitus*, *Kalpataru Vienta*, *Kalpataru Summit*, *Immensa at Kalpataru Parkcity* and *Eternia at Kalpataru Parkcity*, our Ongoing Projects; (ii) license fees to ₹1,262.74 million for the Financial Year 2024 from ₹1,200.86 million for the Financial Year 2023; (iii) project management fees to ₹354.30 million for the Financial Year 2024 from ₹194.64 million for the Financial Year 2023 due to improved sales collections and project execution for projects for which we provide management services; and (iv) service charges and others to ₹947.92 million for the Financial Year 2024 from ₹638.31 million for the Financial Year 2023, primarily due to an increase in occupancy rates at Korum Mall, our retail project, and a one-off compensation of ₹202.72 million received during the Financial Year 2024 in relation to the settlement of disputes regarding properties held by us.

Other income. Other income increased by 67.12% to ₹507.68 million for the Financial Year 2024 from ₹303.78 million for the Financial Year 2023, primarily due to an increase in the gain on sale of property, plant and equipment (net) to ₹313.67 million from ₹7.98 million, which was driven by the one-off sale of land constituting fixed assets as part of our property, plant and equipment in Nagpur, Maharashtra. This increase was partially offset by decreases in (i) interest income to ₹23.74 million for the Financial Year 2024 from ₹71.68 million for the Financial Year 2023; and (ii) gain on financial instruments at fair value through profit or loss (net) to ₹70.61 million for the Financial Year 2024 from ₹113.78 million for the Financial Year 2023.

Interest income. Interest income decreased by 7.29% to ₹491.84 million for the Financial Year 2024 from ₹530.51 million for the Financial Year 2023, primarily due to a decrease in interest income on financial assets at amortised cost – loans to other parties to ₹294.90 million from ₹379.39 million due to movements in loans provided to such parties. This decrease was partially offset by an increase in interest income on financial assets at amortised cost – fixed deposits to ₹196.94 million for the Financial Year 2024 from ₹151.12 million for the Financial Year 2023.

Total expenses. Total expenses decreased by 45.15% to ₹21,252.79 million for the Financial Year 2024 from ₹38,745.16 million for the Financial Year 2023, primarily due to decreases in (i) cost of sales and other operational expenses; and (ii) finance costs.

Cost of sales and other operational expenses. Cost of sales and other operational expenses decreased by 49.44% to ₹17,174.94 million for the Financial Year 2024 from ₹33,968.29 million for the Financial Year 2023, primarily due to corresponding costs associated with the sales of parcels of land in Thane and Pune in the Financial Year 2023.

Our cost of sales and other operational expenses for the Financial Year 2024 comprised opening stock of ₹97,086.46 million, which was adjusted for (i) transfers from advances/property, plant and equipment of ₹113.14 million, (ii) expenses incurred during the year of ₹26,521.27 million, and (iii) our closing stock of ₹106,545.93 million. In comparison, our cost of sales and other operational expenses for the Financial Year 2023 comprised opening stock of ₹103,530.81 million, which was adjusted for (i) transfers from advances/property, plant and equipment of ₹1,480.34 million, (ii) expenses incurred during the year of ₹26,043.60 million, and (iii) closing stock of ₹97,086.46 million.

We experienced increases in our expenses incurred during the year corresponding to increases in our revenue from operations (primarily attributable to revenue from sale of residential units) during the Financial Year 2024, and specifically, primarily due to increases in (i) project execution expenses to ₹7,455.10 million for the Financial Year 2024 from ₹6,964.01 million for the Financial Year 2023; (ii) other project expenses to ₹3,572.91 million for the Financial Year 2024 from ₹2,615.46 million for the Financial Year 2023; and (iii) overheads to ₹1,639.59 million for the Financial Year 2024 from ₹1,311.91 million for the Financial Year 2023. This was partially offset

by decreases in (i) finance costs to ₹11,777.37 million for the Financial Year 2024 from ₹12,734.84 million for the Financial Year 2023; and (ii) purchases of land and development rights to ₹1,173.33 million for the Financial Year 2024 from ₹1,589.49 million for the Financial Year 2023.

Employee benefits expense. Employee benefits expense decreased by 2.91% to ₹1,279.51 million for the Financial Year 2024 from ₹1,317.91 million for the Financial Year 2023, primarily due to decreases in salaries, allowances and bonus to ₹1,164.42 million from ₹1,210.22 million and contribution to provident and other funds to ₹59.50 million from ₹61.85 million. Our total number of employees as at March 31, 2024 and 2023 was 1,112 and 1,123, respectively.

Finance costs. Finance costs decreased by 73.72% to ₹342.39 million for the Financial Year 2024 from ₹1,302.86 million for the Financial Year 2023, primarily due to delays in our business payables during the Financial Year 2023 which did not occur during the Financial Year 2024, but more specifically, decreases in our (i) interest expenses on financial liabilities at amortised cost – borrowings to ₹11,507.68 million from ₹13,030.08 million; (ii) interest expenses on financial liabilities at amortised cost – others to ₹55.75 million from ₹333.83 million; and (iii) bank and other financial charges to ₹468.99 million from ₹633.30 million. Further, due to the above, we experienced a reduction in the capitalization of finance costs to projects where the underlying debt was invested in connection with our projects, and specifically, decreases in (i) finance costs transferred to work-in-progress (which forms part of our cost of sales and other operational expenses) during the Financial Year 2024 to ₹11,777.37 million from ₹12,734.83 million during the Financial Year 2023, and (ii) finance costs transferred to capital work-in-progress to ₹71.92 million from ₹79.65 million, each of which partially offset the above decreases.

Depreciation and amortization expense. Depreciation and amortization expense increased by 2.49% to ₹326.36 million for the Financial Year 2024 from ₹318.43 million for the Financial Year 2023, primarily due to increases in depreciation on property, plant and equipment to ₹73.07 million from ₹47.88 million on account of a net addition to our non-project assets. This was partially offset by a decrease in our depreciation on investment property to ₹234.98 million for the Financial Year 2024 from ₹252.75 million for the Financial Year 2023.

Other expenses. Other expenses increased by 15.89% to ₹2,129.59 million for the Financial Year 2024 from ₹1,837.67 million for the Financial Year 2023, primarily due to increases in (i) rates and taxes to ₹168.89 million from ₹63.45 million due to revisions in applicable property taxes; (ii) rent and alternate accommodation expenses to ₹249.98 million from ₹14.12 million due to a one-time alternate accommodation cost paid to one of our project's customers; (iii) share of loss from partnership firms/LLP (net) to ₹189.20 million from ₹29.96 million due to operating losses in the partnership firms and LLPs in which we have an interest. These increases were partially offset by a decrease in brokerage and commission to ₹199.19 million for the Financial Year 2024 from ₹350.26 million for the Financial Year 2023, which was due to the brokerage and commission paid on the one-off sales of parcels of land and property by our Company in Financial Year 2023.

Tax expenses. Total tax expense decreased by 73.39% to ₹181.03 million for the Financial Year 2024 from ₹680.43 million for the Financial Year 2023 due to a deferred tax credit of ₹541.84 million for the Financial Year 2024 compared to a deferred tax charge of ₹316.17 million for the Financial Year 2023, primarily due to carrying forward losses of certain Subsidiaries. This was partially offset by an increase in current tax to ₹722.87 million from ₹364.26 million due to an increase in taxable income of our Company and certain Subsidiaries during the Financial Year 2024.

Profit / (loss) for the year. As a result of the foregoing, our loss for the year decreased by 49.82% to ₹1,138.06 million for the Financial Year 2024 from ₹2,267.87 million for the Financial Year 2023. This was also attributable to our accounting policies for revenue recognition based on the fulfilment of performance obligations, as set out in the contracts with our customers, where revenue for certain projects is recognized at a "point in time", i.e., when the customer obtains control of the promised assets, which is in turn linked to the receipt of the occupancy certificate for a given project. However, our corresponding expenses relating to sales, marketing and administration are charged to our profit and loss account as and when such expenses are incurred, during the relevant financial reporting period.

Financial Year 2023 compared to Financial Year 2022

Total income. Total income increased significantly to ₹37,166.11 million for the Financial Year 2023 from ₹12,485.54 million for the Financial Year 2022 due to a significant increase in our revenue from operations, which was partially offset by a decrease in interest income. This was due to certain one-off transactions that took place

during the Financial Year 2023 and the acquisition of two Subsidiaries, whose profit and loss accounts were consolidated with effect from the Financial Year 2023.

Revenue from operations. Revenue from operations increased significantly to ₹36,331.82 million for the Financial Year 2023 from ₹10,006.73 million for the Financial Year 2022, primarily on account of the acquisition of two Material Subsidiaries at the end of the Financial Year 2022 (Agile Real Estate Private Limited and Kalpataru Properties Private Limited), whose contribution to our revenue from operations was recorded starting from Financial Year 2023. We also experienced a significant increase in revenue from sale of plots/land to ₹20,025.82 million from nil in the Financial Year 2022, on account of one-off sales of parcels of land in Thane and Pune for ₹20,025.82 million in total. In addition, (i) revenue from the sale of residential units increased to ₹14,221.96 million for the Financial Year 2023 from ₹7,946.62 million for the Financial Year 2022, primarily due to an increase in our recognized revenue from the sale of residential units in *Kalpataru Vienta*, *Kalpataru Avante*, *Kalpataru Serenity* and *Kalpataru Riviera*, our Ongoing Projects and the recognition of revenue from our two Material Subsidiaries, which were acquired on March 31, 2022, (ii) license fees increased to ₹1,200.86 million for the Financial Year 2023 from ₹1,092.09 million for the Financial Year 2022 due to increased occupancy rates in our retail and commercial projects, (iii) project management fees increased to ₹194.64 million for the Financial Year 2023 from ₹170.70 million for the Financial Year 2022 and (iv) service charges and others increased to ₹638.31 million for the Financial Year 2023 from ₹425.55 million for the Financial Year 2022 due to increased occupancy rates at Korum Mall, our retail project.

Other income. Other income increased significantly to ₹303.78 million for the Financial Year 2023 from ₹110.55 million for the Financial Year 2022, primarily due to increases in (i) gain on financial instruments at fair value through profit or loss (net) to ₹113.78 million in the Financial Year 2023 from ₹3.56 million in the Financial Year 2022, on account of the investments by our Subsidiaries in certain entities engaged in the real estate business, which were recognized in the Financial Year 2023; (ii) interest income to ₹71.68 million from ₹65.52 million; and (iii) miscellaneous income to ₹99.39 million from ₹32.73 million.

Interest income. Interest income decreased by 77.60% to ₹530.51 million for the Financial Year 2023 from ₹2,368.26 million for the Financial Year 2022, primarily due to a decrease in interest income on financial assets at amortised cost – loans to other parties to ₹379.39 million from ₹2,323.40 million on account of the consolidation of the Subsidiaries acquired by us, which were accounted for in the Financial Year 2023. Due to this, interest income from our acquired Subsidiaries was eliminated upon consolidation during the Financial Year 2023, while it was recorded separately during the Financial Year 2022.

Total expenses. Total expenses increased significantly to ₹38,745.16 million for the Financial Year 2023 from ₹13,875.86 million for the Financial Year 2022, primarily due to increases in our cost of sales and other operational expenses, employee benefits expense and other expenses corresponding to increases in our revenue from operations, which was partially offset by a decrease in finance costs.

Cost of sales and other operational expenses. Cost of sales and other operational expenses increased significantly to ₹33,968.29 million during the Financial Year 2023 from ₹8,487.94 million during the Financial Year 2022 due to the costs associated with (i) one-off sales of parcels of land in Thane and Pune during the Financial Year 2023; (ii) increase in our revenue from sale of residential units; and (iii) the acquisition of two Material Subsidiaries, whose operational expenses were consolidated from Financial Year 2023.

Our cost of sales and other operational expenses for the Financial Year 2023 comprised opening stock of ₹103,530.81 million, which was adjusted for (i) transfers from advances/property, plant and equipment of ₹1,480.34 million, (ii) expenses incurred during the year of ₹26,043.60 million, and (iii) closing stock of ₹97,086.46 million. In comparison, our cost of sales and other operational expenses for the Financial Year 2022 comprised opening stock of ₹54,406.97 million, which was adjusted for (i) the acquisition of Subsidiaries for ₹43,565.50 million; (ii) transfers from advances/property, plant and equipment of ₹99.34 million, (iii) expenses incurred during the year of ₹13,946.94 million, and (iv) closing stock of ₹103,530.81 million.

We experienced increases in our expenses incurred during the year primarily due to (i) increases in our revenue from operations during the Financial Year 2023 and (ii) the consolidation of expenses of our two Material Subsidiaries from the Financial Year 2023. More specifically, this increase was primarily due to increases in (i) finance costs to ₹12,734.84 million for the Financial Year 2023 from ₹6,208.98 million for the Financial Year 2022; (ii) project execution expenses to ₹6,964.01 million for the Financial Year 2023 from ₹3,377.63 million for the Financial Year 2022; (iii) other project expenses to ₹2,615.46 million for the Financial Year 2023 from

₹1,775.14 million for the Financial Year 2022; and (iv) overheads to ₹1,311.91 million for the Financial Year 2023 from ₹675.05 million for the Financial Year 2022.

Employee benefits expense. Employee benefits expense increased by 75.17% to ₹1,317.91 million for the Financial Year 2023 from ₹752.38 million for the Financial Year 2022, primarily due to an increase in salaries, allowances and bonus to ₹1,210.22 million from ₹679.91 million on account of the acquisition of our Subsidiaries and an increase in our employee headcount and annual salary increments. Our total number of employees as at March 31, 2023 and 2022 was 1,123 and 1,022, respectively.

Finance costs. Finance costs decreased by 57.48% to ₹1,302.86 million for the Financial Year 2023 from ₹3,064.14 million for the Financial Year 2022, primarily due to a significant increase in capitalized finance costs that were transferred to work-in-progress (partially attributable to the consolidation of expenses of our acquired Material Subsidiaries from the Financial Year 2023) to ₹12,734.83 million during the Financial Year 2023 compared to ₹6,205.65 million during the Financial Year 2022, along with a 23.49% increase in our finance costs transferred to capital work-in-progress to ₹79.65 million during the Financial Year 2023 compared to ₹64.50 million during the Financial Year 2022. The effects of such capitalization partially offset increases in (i) interest expenses on financial liabilities at amortised cost – borrowings to ₹13,030.08 million for the Financial Year 2023 from ₹8,660.49 million for the Financial Year 2022 due to delays in our business payables; (ii) bank and other financial charges to ₹633.30 million from ₹222.25 million; and (iii) interest expenses on financial liabilities at amortised cost – others to ₹333.83 million from ₹329.53 million.

Depreciation and amortization expense. Depreciation and amortization expense decreased by 2.62% to ₹318.43 million for the Financial Year 2023 from ₹326.99 million for the Financial Year 2022, primarily due to a decrease in depreciation on investment property to ₹252.75 million from ₹274.87 million, which was partially offset by an increase in depreciation on property, plant and equipment to ₹47.88 million from ₹43.73 million. This was due to a net addition to non-project assets on account of the acquisition of two Material Subsidiaries.

Other expenses. Other expenses increased by 47.67% to ₹1,837.67 million for the Financial Year 2023 from ₹1,244.41 million for the Financial Year 2022, primarily due to increases in (i) repairs and maintenance to ₹195.13 million from ₹109.51 million; (ii) legal and professional fees to ₹260.03 million from ₹140.13 million; (iii) brokerage and commission to ₹350.26 million from ₹149.90 million on account of the one-off sale of land in Thane and Pune; (iv) advertisement and publicity expenses to ₹588.82 million from ₹340.86 million; and (v) miscellaneous expenses to ₹193.96 million from ₹120.20 million. These increases were primarily due to the acquisition of two Subsidiaries and the consequent consolidation of expenses attributable to such Subsidiaries, whose accounts were not consolidated during the Financial Year 2022. This was partially offset by decreases in rates and taxes to ₹63.45 million for the Financial Year 2023 from ₹91.57 million for the Financial Year 2022 and share of loss from partnership firms/LLP (net) to ₹29.96 million for the Financial Year 2023 from ₹109.29 million for the Financial Year 2022.

Tax expenses. Total tax expense increased significantly to ₹680.43 million for the Financial Year 2023 from a tax credit of ₹167.16 million for the Financial Year 2022, due to a deferred tax charge of ₹316.17 million for the Financial Year 2023 compared to a deferred tax credit of ₹362.61 million for the Financial Year 2022, primarily due to carrying forward losses of certain Subsidiaries during the Financial Year 2022, which we did not carry forward in the Financial Year 2023. In addition, we experienced an increase in current tax to ₹364.26 million for the Financial Year 2023 from ₹195.45 million for the Financial Year 2022 due to an increase in the taxable income of our Company and certain Subsidiaries.

Profit / (loss) for the year. As a result of the foregoing, our loss for the year increased by 86.58% to ₹2,267.87 million for the Financial Year 2023 from ₹1,215.49 million for the Financial Year 2022. This was also attributable to our accounting policies for revenue recognition based on the fulfilment of performance obligations, as set out in the contracts with our customers, where revenue for certain projects is recognized at a “point in time”, i.e., when the customer obtains control of the promised assets, which is in turn linked to the receipt of the occupancy certificate for a given project. However, our corresponding expenses relating to sales, marketing and administration are charged to our profit and loss account as and when such expenses are incurred, during the relevant financial reporting period.

Liquidity and Capital Resources

Our primary sources of liquidity include cash generated from operating activities, and from borrowings, both current and non-current, including term loans and proceeds from the issue of non-convertible debentures. As of March 31, 2024, we had cash and cash equivalents of ₹551.83 million.

Our financing requirements are primarily for the construction and completion of our Ongoing Projects. We expect that cash flow from operating activities and borrowings will continue to be our principal sources of funds in the long-term. We evaluate our funding requirements periodically in light of our net cash flow from operating activities, the requirements of our business and operations, acquisition opportunities and market conditions. We expect that our cash flows from operating activities, borrowings and the Net Proceeds of the Issue will address our capital requirements for the next twelve months.

Quantitative and qualitative disclosures regarding market and other risks

We are exposed to various types of market risks during the normal course of business. The risks we are exposed to include market risk, credit risk and liquidity risk.

Market risk

Market risk arises from our use of interest bearing financial instruments. It is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in interest rates (interest rate risk) or other market factors. Financial instruments affected by market risk include borrowings, loan givens, fixed deposits and refundable deposits.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our exposure to the risk of changes in market interest rates relates primarily to our debt obligations with floating interest rates. The management is responsible for the monitoring of our interest rate position. Different variables are considered by the management in structuring our borrowings to achieve a reasonable and competitive cost of funding.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the effect of change in the interest rate on floating rate borrowings, is as follows:

Particulars	Effect of change in interest rate		
	As of March 31, 2024	As of March 31, 2023	As of March 31, 2022
	(₹ in millions)		
Increase in interest rate by 50 bps	327.97	323.90	439.46
Decrease in interest rate by 50 bps	(327.97)	(323.90)	(439.46)

Currency risk

Currency risk is not material as our primary business activities are within India and we do not have significant exposure in foreign currency.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. We are exposed to credit risk from our operating activities (primarily trade

receivables) and from our financing activities, including security deposits, loans to employees and other financial instruments.

Trade receivables

Our exposure to credit risk is influenced mainly by the individual characteristics of each customer. We have entered into contracts for sale / leasing of commercial premises, sale of residential premises and sale of plots. The payment terms are specified in the contracts. We are exposed to credit risk in respect of the amount due. However, in case of sale, the legal ownership is transferred to the buyer only after the entire amount is recovered. In case of leasing, the group takes security deposit to secure the rent. In addition, the amount due is monitored on an ongoing basis with the result that our exposure to bad debts is not significant. We evaluate the concentration of risk with respect to trade receivables as low, as our customers are located in several jurisdictions industries and operate in largely independent markets.

Financial instruments and cash deposits

With respect to credit risk arising from our other financial assets, which comprise bank balances, cash, loans to related parties and other parties, other receivables and deposits, our exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these assets.

Credit risk from balances with banks is managed by our treasury in accordance with our policy. We limit our exposure to credit risk by only placing balances with local banks. Given the profile of our bankers, our management does not expect any counterparty to fail in meeting its obligations.

Liquidity risk

Liquidity risk is the risk that we will not be able to meet our financial obligations as they fall due. We monitor our risk of a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both our financial investments and financial assets (for e.g., trade receivables and other financial assets) and projected cash flows from operations.

Our cash flows, funding requirements and liquidity is monitored under the control of the treasury team. The objective is to optimize the efficiency and effectiveness of the management of our capital resources. Our objective is to maintain a balance between continuity of funding and borrowings. We manage liquidity risk by maintaining adequate reserves and borrowing facilities, by continuously monitoring forecasted and actual cash flows and matching the maturity profiles of financial assets and liabilities.

We currently have sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations.

The Petitioners, *inter alia*, prayed that (i) the seal on the subject Property be removed; (ii) the Orders be quashed and set aside; and (iii) the Petitioners be extended the benefit of the said Resolution and be reimbursed any payments made in excess of the actual amounts due. In terms of SEBI ICDR Master Circular and subsequent circulars issued by the SEBI, as may be applicable, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing

of the Equity Shares. Phased implementation of UPI for Bids by RIIs as per the UPI Circulars

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of, *inter alia*, equity shares and convertibles by introducing an alternate payment mechanism using UPI. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced and implemented the UPI payment mechanism in three phases in the following manner:

- (a) **Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RII also had the option to submit the ASBA Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six Working Days.
- (b) **Phase II:** This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Under this phase, submission of the physical ASBA Form by an RII through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.
- (c) **Phase III:** This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("**T+3 Notification**"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in

the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The processing fees for applications made by UPI Investors may be released to the SCSBs only after such banks provide a written confirmation, in compliance with the SEBI RTA Master Circular in a format as prescribed by SEBI, from time to time, and such payment of processing fees to the SCSBs shall be made in compliance with circulars prescribed by SEBI and applicable law.

Pursuant to the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (“**UPI Streamlining Circular**”), SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Streamlining Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors’ complaints, the relevant SCSB as well as the post-Issue BRLM will be required to compensate the concerned investor.

[SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to ₹ 0.50 million, shall use UPI.
