KEY INFORMATION ON THE SECURITIES

What are the main features of the Securities?

Type and class of Securities being offered and security identification number(s): The Notes are up to EUR 20,000,000 Lanxess AG Credit Linked Notes due 2030, with International Securities Identification Number (ISIN) XS3142298275. The issue date is 12 September 2025 (the **"Issue Date"**). The issue price of the Notes is 100 per cent. of the aggregate principal amount of the Notes.

Currency, denomination, number of Securities issued: The currency of this Series of Notes is Euro (**"EUR"**). The Notes have a minimum Specified Denomination of EUR 10,000 and integral multiples of EUR 1,000 in excess thereof up to and including EUR 19,000.

Rights attached to the Notes: The return on the Notes will derive from the interest payable on the Notes, the early redemption amount (if early redemption occurs, including upon any Credit Event) and, (unless otherwise early redeemed) payment of par on the Maturity Date.

Interest: The Notes bear interest from their date of issue, payable on 20 March, 20 June, 20 September and 20 December in each year (each a **"Coupon Payment Date"**), at a rate determined by the Calculation Agent on or after the last day of the Offer Period which shall be not less than 3.75 per cent or more than 4.25 per cent per annum, subject as provided below. The yield of the Notes shall be between 3.75 per cent per annum and 4.25 per cent per annum.

Maturity: Subject to any purchase and cancellation or early redemption and any occurrence of a Credit Event as described below, the Notes will be redeemed on 20 June 2030 (the **"Maturity Date"**) at par. The Maturity Date (and any interest payable thereon) is subject to postponement in certain circumstances where (as applicable) a potential Credit Event or Credit Event has occurred, may have occurred or may occur.

Redemption following a Credit Event: If a Credit Event (being a bankruptcy, failure to pay or restructuring), occurs in respect of the Reference Entity (being Lanxess AG or any successor(s)) (the **Reference Entity**), the Calculation Agent may determine that a Credit Event Determination Date has occurred. If a Credit Event Determination Date occurs, the Notes will be redeemed at the Credit Event Redemption Amount on the Credit Event Redemption Date and each Note will cease to bear interest from (and including) the Coupon Payment Date immediately preceding the Credit Event Determination Date (or, if none, the Issue Date, in which case no interest shall accrue on the Notes).

Where:

"Auction Final Price" means the recovery amount (expressed as a percentage, capped at 100%) determined by the Calculation Agent by reference to the price determined for obligations of the relevant Reference Entity by the relevant auction procedure.

"Credit Event Determination Date" means the date in respect of which a Credit Event is determined to have occurred for the purposes of the Securities.

“Credit Event Redemption Date” means the day falling ten business days following the latest of (i) the auction settlement date or the calculation of the Final Price and (ii) the Credit Event Determination Date.

“Credit Event Redemption Amount” means an amount (no less than zero) calculated by the Calculation Agent equal to:

$$(A \times B) - C$$

Where: **“A”** is the Calculation Amount; **“B”** is the Auction Final Price or, if the Auction Final Price is not to be determined following the occurrence of certain events, the Final Price; and **“C”** is relevant unwind costs.

“Final Price” means the recovery amount (expressed as a percentage, capped at 100%) determined by the Calculation Agent in respect of obligations of the relevant Reference Entity.

If the type of credit event is a restructuring, the Calculation Agent may choose not to redeem the Notes in full, but may choose to pay a partial Credit Event Redemption Amount and, subject to the occurrence of further credit events, the terms and conditions of the Notes shall continue to apply.

Early Redemption: The Notes may be redeemed early for taxation or regulatory events, illegality or event of default or on certain merger related events in relation to the Issuer and the Reference Entity at an amount (which may be zero) equal to the fair market value of the Notes less unwind costs, all as determined by the Calculation Agent, or in certain circumstances may be cancelled at zero.

Transferability of the Notes: There are no restrictions on the free transferability of the Notes.

Status (Ranking): The Notes constitute direct, unconditional, unsubordinated and (subject to the provisions of the Issuer's negative pledge below) unsecured obligations of the Issuer and rank *pari passu* and without prejudice among themselves and (save as aforesaid and for such exceptions as may be provided by applicable legislation) at least equally with all other unsubordinated and unsecured obligations of the Issuer, from time to time outstanding.

Negative pledge: The terms of the Notes contain a negative pledge that the Issuer will not have any mortgage, charge, pledge or other security interest on its undertaking, assets or revenues, to secure certain types of its own indebtedness or any guarantee of or indemnity in respect of certain types of indebtedness of any third party for the benefit of holders thereof, without either securing the Notes at least equally and rateably or according to the Notes such other security or guarantee as the holders of the Notes approve by extraordinary resolution.

Taxation: All payments of principal and interest in respect of the Notes will be made without withholding or deduction for or on account of taxes of whatever nature in Singapore or Japan or any other jurisdiction having power to tax payments made by the Issuer under the Notes, unless such withholding or deduction is required by law.

Events of default: The terms of the Notes contain, amongst others, the following events of default (a) non-payment of interest or principal, in each case for 30 days or more from the relevant due date; (b) failure by the Issuer to observe or perform any other covenant or agreement under the Notes or the agency agreement in respect of the Notes, in each case for 90 days or more after written notice thereof; (c) cross-acceleration of certain other indebtedness of the Issuer which has not been repaid in full or default (following a grace period) in repayment of such other indebtedness at maturity for 15 days or more; and (d) certain bankruptcy or insolvency events occurring in respect of the Issuer.

Adjustments: The terms of the Notes may be subject to adjustment (including without limitation the suspension and/or postponement of payments in respect of some or all of the Notes) as provided therein to take into account certain currency inconvertibility, illegality, regulatory, payment restriction and/or sanctions related events or where there may have been or may be a Credit Event. The terms of the Notes may also be subject to adjustment to reflect market convention and/or the hedging arrangements in respect of the Notes in the credit derivatives market.

Meetings: The terms of the Notes will contain provisions for calling meetings of holders of such Notes and passing written resolutions and obtaining electronic consents, in each case in relation to matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting or by way of written resolution or electronically and holders who voted in a manner contrary to the majority.

Governing law: English law.

Where will the Notes be traded?

The Notes are not intended to be admitted to trading on any market.

What are the key risks that are specific to the Securities?

Risks associated with the Securities. The Securities are subject to the following key risks:

- The value and liquidity of the Notes at any time will reflect a number of different factors and cannot be predicted. Depending on the financial condition of the Issuer and the performance of the Reference Entity to which the Notes are credit linked, investors may lose some or all of their investment. If a Noteholder chooses to sell its Notes before the stated redemption date, the Noteholder may receive far less than the original invested amount.
- The value of Notes prior to their scheduled termination may vary due to the occurrence or possible occurrence of one or more applicable Credit Events. The likelihood of a Credit Event occurring in respect of the Reference Entity generally fluctuates with, among other things, the creditworthiness and financial condition and other characteristics of such entity, which may be affected by general economic conditions, the condition of relevant financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates. If a Credit Event occurs in relation to the Reference Entity investors may lose all or part of their investment in the Notes.
- If a Credit Event occurs in relation to the Reference Entity (or its obligations), the Notes may be redeemed (including prior to the Maturity Date) at an amount less than the Issue Price and such amount may be zero. Where credit losses (as used in the calculation of any such amount) are determined on the basis of an Auction Final Price determined according to a relevant auction procedure, such losses may be greater than the losses which would have been determined in the absence of such Auction.
- Each Note is an unsecured obligation of the Issuer. If the Issuer becomes insolvent, Noteholders will rank behind any secured and preferential creditors in respect of claims under the Notes.
- The Notes may redeem early in certain circumstances unrelated to the Reference Entity. An early redemption under the Notes may occur if an event of default occurs in relation to the Issuer, or a tax, regulatory or illegality event occurs. In such circumstances investors may lose some or all of their investment.
- Investors will have no claim against the Reference Entity and no interest in or rights under any obligation of the Reference Entity and no rights against a Credit Derivatives Determinations Committee (**CDDC**). An investment in the Notes is not equivalent to an investment in the obligations of the Reference Entity. An investor will not be able to claim against the Reference Entity for any losses it suffers from as a result of any Credit Event relating to the Reference Entity.
- Holders will be bound by any determinations by one or more CDDCs on matters such as whether a Credit Event has occurred, which obligations are to be valued and whether an auction should take place. Holders will have no ability to submit questions to such CDDCs, no influence on the CDDCs and no recourse to such CDDCs. The Issuer or an affiliate of the Issuer may be a member of one or more CDDCs but will have no liability to investors for the determinations of such CDDCs and will not take into account investors' interests in reaching any related decisions.
- The Reference Entity may be replaced with a successor entity as a result of corporate or other actions such as a merger or demerger or where there are debt transfers. The risks associated with a successor Reference Entity may be greater than the risks associated with the original Reference Entity.
- The Calculation Agent is an affiliate of the Issuer and may make determinations which affect amounts, and calculate amounts, payable under the Notes and this could give rise to potential conflicts of interest between the Calculation Agent and the Noteholders. The Calculation Agent may also have wide discretion and will act without regard to the consequences for Noteholders and does not act on behalf of or have fiduciary or any other duty of care to Noteholders.
- The Calculation Agent may, in limited circumstances, determine that applicable timing requirements of the Notes be suspended until such time that either it or the relevant CDDC, as the case may be, determines whether specific matters have taken place. This may include whether a Credit Event has or has not occurred. During such suspension period, no action may be taken regarding the settlement of the Notes and such suspension may, in certain circumstances, result in some or all of accrued interest on the Notes not being paid to Noteholders.
