Options: Options involve risk and are not suitable for all investors. Please ensure that you have read and understood the current options risk disclosure document provided by the Options Clearing Corporation before entering into any options transactions. The Options Clearing Corporation's publication, "Characteristics and Risks of Standardized Options", is available at: http://www.theocc.com/about/publications/character-risks.jsp

The risks of options trading should be weighed against the potential rewards. The Risks include but may not be limited to:

- Call or put purchasing: The risk of purchasing a call/put is that investors will lose the entire premium paid.
- Uncovered call writing: The risk of selling an uncovered call is unlimited and may result in losses significantly greater than the premium received.
- · Uncovered put writing: The risk of selling an uncovered put is significant and may result in losses significantly greater than the premium received.
- Call or put vertical spread purchasing (same expiration month for both options): The basic risk of effecting a long spread transaction is limited to the premium paid when the position is established.
- Call or put vertical spread writing (same expiration month for both options): The basic risk of effecting a short spread transaction is limited to the difference between the strike prices less the amount received in premiums.
- Call or put calendar spread purchasing (different expiration months & short must expire prior to the long): The basic risk of effecting a long calendar spread transaction is limited to the premium paid when the position is established.

Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions. Supporting documents that form the basis of our recommendations are available on request. Commissions and taxes will affect the returns on option transactions and each leg of a multi-legged strategy will incur commission charges.
