

# Nomura Interest Rate Swaps Momentum+ Index (Vol Target 3%, 9% & 10%)

## Index Rulebook

Strictly Private and Confidential

3 December 2019

This document is only for informational purposes and is a description of the Index, and may not be incorporated into any contract or agreement. This document does not constitute an offer to sell, or the solicitation of an offer to purchase, any securities. The information contained herein is believed by Nomura to be accurate in all respects, but Nomura makes no representation or warranty, expressed or implied, as to its accuracy or completeness. Where there are any discrepancies between the information contained herein and the actual specification or calculation methodology of the Index, the actual specification or calculation methodology employed within the model of the Index shall prevail.

<b>Summary Description</b>	<p>Each Index was created by Nomura International plc, which is the Index Sponsor and Index calculation agent. The Indices are published on Bloomberg under the ticker symbol “NMRSM3U Index” (Nomura Interest Rate Swaps Momentum+ Index - 3% target vol in USD), “NMRSM9U Index” (Nomura Interest Rate Swaps Momentum+ Index - 9% target vol in USD) and “NMRSM0U Index” (Nomura Interest Rate Swaps Momentum+ Index - 10% target vol in USD). Prior to the Live Date, the Index Sponsor reconstructed each Index using backtested data from the Start Date. As of the Start Date, the Index Level was 100. The level of the Index is denominated in US Dollars.</p> <p>Please refer to Appendix A and B for backtesting assumptions.</p> <p>The Live Date of NMRSM3U Index is 26 April 2018.</p> <p>The Live Date of NMRSM9U Index is 26 April 2018.</p> <p>The Live Date of NMRSM0U Index is 26 April 2018.</p> <p>For further information please see the Index summary disclosures document for this Index, which is to be read in conjunction with this Index Rulebook (together, the “Index Description”).</p>
----------------------------	---

Index Determination	
<b>Index</b>	The Nomura Interest Rate Swaps Momentum+ Index - 3% target vol in USD, the Nomura Interest Rate Swaps Momentum+ Index - 9% target vol in USD and the Nomura Interest Rate Swaps Momentum+ Index - 10% target vol in USD, each an “Index” built using the methodology described in this Rulebook, denominated in the currency “CCY” and with each Index Component targeting a vol level of “Target Vol” as defined in the Appendix A
<b>Index Sponsor</b>	Nomura International plc (“NIP”), who is responsible for the administration of each Index.
<b>Start Date</b>	05 February 1990
<b>Index Level</b>	<p>In respect of an Index Business Day t, the calculated level of the Index in respect of that day, denoted Index(t) and published on the relevant Bloomberg page or any successor thereto.</p> <p>Please refer to Appendix A for a list of the relevant Bloomberg pages for each Index</p> <p>The Index Level on the Start Date shall be equal to 100.</p> <p>For any Index Business Day t where t &gt; Start Date</p> $\text{Index}(t) = \text{Index}(t-1) \times \left[ 1 + \left( \sum_{\substack{t-1 < l \leq t \\ \text{For any London Business Day } l}} \left\{ \sum_{k=1}^4 \text{Country Ret}^k(l) \right\} \right) \times \frac{\text{FX}_{\text{CCY/USD}}(t-1)}{\text{FX}_{\text{CCY/USD}}(t)} \right]$ <p>Where:</p> <p>k=1,2,3,4 respectively for USD,EUR,GBP and JPY</p> <p>if t is not a Tokyo Business Day then :</p> <p>Country Ret<sup>4</sup>(t)=0</p>
<b>Country Ret<sup>k</sup></b>	<p>For any London and Local<sup>k</sup> Business Day t:</p> $\text{Country Ret}^k(t) = \left[ \sum_{i=1}^4 \text{Ins Ret}_i^k(t) \right] \times \text{Weight}^k \times \text{Port Vol Scale}(t-1) - \text{TC}^k(t-1) \times \frac{\text{FX}^k(t)}{\text{FX}^k(t-1)}$ <p>Where:</p>

	i=1,2,3,4, respectively for 1y,2y,5y and 10y
<b>Ins Ret<sub>i</sub><sup>k</sup></b>	For any London and Local <sup>k</sup> Business Day t: $\text{Ins Ret}_i^k(t) = (\text{Rec Ind}_i^k(t) - \text{Rec Ind}_i^k(t-1)) \times \text{Effective Signal}_i^k(t-1)$
<b>Weight<sup>k</sup></b>	Means the weight for each currency k: [description of Weight levels used]
<b>FX<sup>k</sup></b>	For any London and Local <sup>k</sup> Business Day t, FX <sup>k</sup> refers to the foreign exchange Spot Rate (quoted as the number of USD per 1 unit of foreign currency k) as published by the relevant price source as set out in Appendix A. For the avoidance of doubt if k=1 then FX <sup>k</sup> (t)=1 for any London and Local <sup>k</sup> Business Day t. Please refer to Appendix A for data source and backtesting assumptions.

<b>Index Components</b>	
<b>Rec Ind<sub>i</sub><sup>k</sup></b>	For any London and Local <sup>k</sup> Business Day t: Rec Ind <sub>i</sub> <sup>k</sup> (t) refers to the level of the Nomura Interest Rate Receiver Swap Index with Underlying Swap Tenor equal to tenor i and Underlying Swap Currency equal to currency k ("Receiver Swap Index (i,k)", as defined in the "Nomura Interest Rate Receiver Swap Indices" description document. For the avoidance of doubt: For k=1,2,3,4 currency k means respectively USD,EUR,GBP,JPY For i=1,2,3,4, tenor i means respectively 1y,2y,5y,10y
<b>Nomura Interest Rate Receiver Swap Indices ("Receiver Swap Indices")</b>	The Nomura Interest Rate Receiver Swap Indices suite is a family of indices (each an "Index") that track the performance of rolling a 1 month forward receiver swap of a certain tenor ("The Underlying Swap Tenor") in a certain currency ("The Underlying Swap Currency") utilising the Yield Curve. Each Receiver Swap Index was created by Nomura International plc, which is the Index Sponsor and Index calculation agent.
<b>Yield Curve</b>	Yield Curve means, in respect of each Index and the related Swap Receiver Indices and an Index Business Day, the relevant Yield Curve (as defined in the NIP Indices Yield Curve Process document dated July 2017 (as amended and/or supplemented from time to time and published on the Nomura QIS Website) in respect of such Index and Index Business Day. The Yield Curve is built using the interest rate curve determined and used by Nomura International plc in the ordinary course of its business as a dealer/market maker and for the purposes of its own audited books and records and certain other data, for more information please see the NIP Indices Yield Curve Process.
<b>FX<sub>CCY/USD</sub></b>	For any Index Business Day t, FX <sub>CCY/USD</sub> refers to the foreign exchange Spot Rate (quoted as the number of USD per 1 unit of foreign currency CCY) as published by the relevant price source as set out in Appendix A. For the avoidance of doubt if CCY=USD then FX <sub>CCY/USD</sub> (t)=1 for any Index Business Day t. Please refer to Appendix A for data source and backtesting assumptions.
<b>CCY</b>	Means the currency in which the Index is denominated

Signal									
<b>Signal<sub>i</sub><sup>k</sup></b>	<p>The signal algorithm aims to detect trends in the the returns of the relevant Receiver Swap Indices by comparing the moving averages of such Receiver Swap Indices returns over a short-term (“ST”), medium-term (“MT”) and long-term (“LT”) time window. Volatility bands computed on the daily returns of the Receiver Swap Indices are added to these moving averages, seeking to make the signal more stable.</p> <p>Signal<sub>i</sub><sup>k</sup> can take 3 positions: Long (1), Neutral (0) and Short (-1)</p> <p>For any London and Local<sup>k</sup> Business Day t, Signal<sub>i</sub><sup>k</sup>(t) is defined as follow: [formulas to measure Signal]</p>								
<b>Effective Signal<sub>i</sub><sup>k</sup></b>	<p>For any London and Local<sup>k</sup> Business Day t, Effective Signal<sub>i</sub><sup>k</sup>(t) is defined as follow: [formulas to measure Effective Signal]</p>								
<b>Windows length n</b>	<p>Each below window length is expressed as a number of London and Local<sup>k</sup> Business Days:</p> <table border="1"> <thead> <tr> <th>Window</th> <th>Length</th> </tr> </thead> <tbody> <tr> <td>ST</td> <td>Length</td> </tr> <tr> <td>MT</td> <td>Length</td> </tr> <tr> <td>LT</td> <td>Length</td> </tr> </tbody> </table>	Window	Length	ST	Length	MT	Length	LT	Length
Window	Length								
ST	Length								
MT	Length								
LT	Length								
<b>ST LB / UB MT LB / UB LT LB / UB</b>	<p>For any London and Local<sup>k</sup> Business Day t :</p> <p>ST LB<sub>i</sub><sup>k</sup>(t)=ST MA<sub>i</sub><sup>k</sup>(t) - ST σ<sub>i</sub><sup>k</sup>(t) ST UB<sub>i</sub><sup>k</sup>(t)=ST MA<sub>i</sub><sup>k</sup>(t) + ST σ<sub>i</sub><sup>k</sup>(t)</p> <p>Similarly MT LB/UB and LT LB/UB follow the same definition substituting ST with respectively MT and LT</p>								
<b>MA</b>	<p>For any London and Local<sup>k</sup> Business Day t :</p> <p>[formula to measure ST LB / UB]</p> <p>Where d refers to each London and Local<sup>k</sup> Business Day from and including day t-(n-1) to and including day t n refers to the window length for each moving average ST MA is computed using the above formula with n=ST and similarly for MT and LT MA.</p>								
<b>σ</b>	<p>For any London and Local<sup>k</sup> Business Day t :</p> <p>[formulas to measure σ]</p> <p>And where d refers to each London and Local<sup>k</sup> Business Day from and including day t-(n-1) to and including day t n refers to the window length for each moving average: ST σ is computed using the above formula with n=ST and similarly for MT and LT σ.</p>								
<b>Daily Change Cap</b>	See Appendix A								

Volatility Scaling	
<b>Gross Index<sup>k</sup></b>	<p>For any London and Local<sup>k</sup> Business Day t :</p> $\text{Gross Index}^k(t) = \text{Gross Index}^k(t-1) + \left\{ \sum_{i=1}^4 \text{Ins Ret}_i^k(t) \right\} \times \text{weight}^k \times \frac{FX^k(t)}{FX^k(t-1)}$ <p>Where Gross Index<sup>k</sup> starts on the earliest of Receiver Swap (i,k) start dates for i=1,2,3,4</p>
<b>Vol Scale lev</b>	<p>For any Index Business Day t:</p> <p>[formulas to measure Vol Scale lev]</p> <p>Where Gross Index<sup>k</sup>(t)=0 if t is prior to Gross Index<sup>k</sup> start date</p>

	If t is not a Tokyo Business Day then Gross Index <sup>4</sup> (t) shall be equal to the value as of the immediately preceding Tokyo Business Day.
<b>Target Vol Cap</b>	[description of Target Vol Cap used]
<b>Port Vol Scale</b>	For any London Business Day t:  If t is the 2 <sup>nd</sup> London Business Day of the week then:  $\text{Port Vol Scale}(t) = \text{Vol Scale lev}(t-1)$  Where Vol Scale lev(t-1) means the Vol Scale lev as of the immediately preceding Index Business Day  Else  $\text{Port Vol Scale}(t) = \text{Port Vol Scale}(t-1)$

<b>Charges</b>	
<b>TC<sup>k</sup></b>	For any London and Local <sup>k</sup> Business Day t: $\text{TC}^k(t) = \text{Outright TC}^k(t) + \text{Switch TC}^k(t) + \text{Roll TC}^k(t)$
<b>Outright TC<sup>k</sup></b>	For any London and Local <sup>k</sup> Business Day t:  $\text{Outright TC}^k(t) = \text{Abs} \left( \sum_{i=1}^4 \text{Delta Change}_i^k(t) \right) \times \text{Outright Bid/Mid}^k$
<b>Delta Change<sub>i</sub><sup>k</sup></b>	For any London and Local <sup>k</sup> Business Day t:  If t is not a Roll Date for Receiver Swap Index (i,k) $\text{Delta Change}_i^k(t) = \text{Final Signal}_i^k(t) \times \text{PV01}_{\text{FWD}_i^k}(t) - \text{Final Signal}_i^k(t-1) \times \text{PV01}_{\text{FWD}_i^k}(t)$  If t is a Roll Date for Receiver Swap Index (i,k) then: $\text{Delta Change}_i^k(t) = \text{Final Signal}_i^k(t) \times \text{PV01}_{\text{FWD}_i^k}(t) - \text{Final Signal}_i^k(t-1) \times \text{PV01}_{\text{Spot}_i^k}(t)$  Where PV01 <sub>FWD<sub>i</sub><sup>k</sup></sub> and PV01 <sub>Spot<sub>i</sub><sup>k</sup></sub> correspond to PV01 <sub>FWD</sub> and PV01 <sub>Spot</sub> for Receiver Swap Index (i,k) as defined in the "Nomura Interest Rate Receiver Swap Indices" description document
<b>Final Signal<sub>i</sub><sup>k</sup></b>	For any London and Local <sup>k</sup> Business Day t: [formulas to Final Signal]
<b>Switch TC<sup>k</sup></b>	For any London and Local <sup>k</sup> Business Day t: $\text{Switch TC}^k(t) = \text{Switch Delta}^k(t) \times \text{Outright Bid/Mid}^k \times 1.5$ With;  $\text{Switch Delta}^k(t) = \text{Min} \left( \sum_{i=1}^4 \text{Max}(\text{Delta Change}_i^k(t), 0), \sum_{i=1}^4 -\text{Min}(\text{Delta Change}_i^k(t), 0) \right)$
<b>Roll TC<sup>k</sup></b>	For any London and Local <sup>k</sup> Business Day t: $\text{Roll TC}^k(t) = \sum_{i=1}^4 \text{Roll Delta}_i^k(t) \times \text{Roll Charge}_i^k$ With: If t is a Roll Date for Receiver Swap Index (i,k) AND Sign(Effective Signal <sub>i</sub> <sup>k</sup> (t))=Sign(Effective Signal <sub>i</sub> <sup>k</sup> (t-1)) Then: $\text{Roll Delta}_i^k(t) = \text{Min} \left[ \text{Abs} \left( \text{Final Signal}_i^k(t) \times \text{PV01}_{\text{FWD}_i^k}(t) \right), \text{Abs} \left( \text{Final Signal}_i^k(t-1) \times \text{PV01}_{\text{Spot}_i^k}(t) \right) \right]$ Else  $\text{Roll Delta}_i^k(t) = 0$

Index Charges						
<b>Outright Bid/Mid And Roll Charge</b>	All below number are quoted in basis points					
		i	1	2	3	4
	k	Outright Bid/Mid <sup>k</sup>	Roll Charge <sub>i</sub> <sup>k</sup>			
	1	OutrightBid/Mid	Roll Charge	[Roll Charge	Roll Charge	Roll Charge
	2	OutrightBid/Mid	Roll Charge	Roll Charge	Roll Charge	Roll Charge
	3	OutrightBid/Mid	Roll Charge	Roll Charge	Roll Charge	Roll Charge
4	OutrightBid/Mid	Roll Charge	Roll Charge	Roll Charge	Roll Charge	

General Definitions	
<b>Index Business Day</b>	Any Local <sup>1</sup> , Local <sup>2</sup> and Local <sup>3</sup> Business Day.
<b>Index Trading Business Day</b>	Any Local <sup>1</sup> , Local <sup>2</sup> , Local <sup>3</sup> and Local <sup>4</sup> Business Day.
<b>Local<sup>k</sup> Business Day</b>	<p><i>Prior to the BD Modification Date</i></p> <p>Means the local calendar for currency k:            For k=1 Local<sup>k</sup>=New York Business Day            For k=2 Local<sup>k</sup>=TARGET Business Day            For k=3 Local<sup>k</sup>=London Business Day            For k=4 Local<sup>k</sup>=Tokyo Business Day</p> <p><i>From and including the BD Modification Date,</i></p> <p>means the local calendar for currency k:            for k=1 Local<sup>k</sup>=any day which is a New York Business Day and a CME Business Day, excluding 24-December and 31-December;            for k=2 Local<sup>k</sup>= any day which is a TARGET Business Day, a Eurex Business Day and an ICE Futures Europe (EU) Business Day, excluding 24-December and 31-December;            for k=3 Local<sup>k</sup>= any day which is a London Business Day and an ICE Futures Europe (UK) Business Day, excluding 24-December and 31-December; and            for k=4 Local<sup>k</sup>= any day which is a Tokyo Business Day, a Tokyo Financial Exchange Business Day and an Osaka Exchange Business Day. excluding 24-December and 31-December.</p>
<b>London Business Day</b>	A day (other than a Saturday or Sunday) on which commercial banks are open for general business in London
<b>ICE Futures Europe (UK) Business Day</b>	A day on which ICE Futures Europe is scheduled to be open (or would have been but for the occurrence of a market disruption event) for trading in British interest rate futures contracts.
<b>New York Business Day</b>	A day (other than a Saturday or Sunday) on which commercial banks are open for general business in New York
<b>CME Business Day</b>	A day on which the Chicago Mercantile Exchange (Globex) is scheduled to be open (or would have been but for the occurrence of a market disruption event) for trading in American interest rate futures contracts.

<b>Target Business Day</b>	Means any day on which TARGET2 (the Trans-European Automated Real-time Gross settlement Express Transfer system) is open
<b>Eurex Business Day</b>	A day on which Eurex is scheduled to be open (or would have been but for the occurrence of a market disruption event) for trading in European interest rate futures contracts.
<b>ICE Futures Europe (EU) Business Day</b>	A day on which ICE Futures Europe is scheduled to be open (or would have been but for the occurrence of a market disruption event) for trading in European interest rate futures contracts.
<b>Tokyo Business Day</b>	A day (other than a Saturday or Sunday) on which commercial banks are open for general business in Tokyo
<b>Tokyo Financial Exchange Business Day</b>	A day on which Tokyo Financial Exchange is scheduled to be open (or would have been but for the occurrence of a market disruption event) for trading in Japanese interest rate futures contracts.
<b>Osaka Exchange Business Day</b>	A day on which Osaka Exchange is scheduled to be open (or would have been but for the occurrence of a market disruption event) for trading in Japanese interest rate futures contracts.
<b>BD Modification Date</b>	20 November 2019

<b>Disruptions Events / Fallbacks</b>	
<b>Index Adjustment</b>	<p>If, due to the occurrence of an error (i) in relation to the calculation or publication of the level of the Index, or (ii) in the method for determining the Index, the Index Sponsor has determined on any day (an "Adjustment Determination Date") that an adjustment to the Index is necessary in order to correct such error (an "Index Adjustment"), then the Index Sponsor will make such corresponding adjustments to the Index as it deems necessary, if any, in order to reflect the Index Adjustment (in each case in accordance with the principles and methodology of the Index.</p> <p>The Index Sponsor may correct errors in accordance with Appendix 2, Section 13 of the Control Framework Summary ("Correction of Errors") and Appendix 2, Section 15 ("Changes to Methodology") where remediation requires change to the Index methodology.</p>
<b>Index Disruption</b>	<p>If, on any day an Index Disruption Event has occurred or is occurring, including in respect of any Index Component utilised to calculate the level of the Index on any day, then, the Index Sponsor may take one or more of the following actions in its discretion, with a view to preserving the objective of the Index (regardless of whether or not a level of the affected Sub-Index has been published by the Index Sponsor in respect of such day):</p> <ul style="list-style-type: none"> <li>(a) delay any rebalancing and/or calculation of such Index Component (an "Index Determination Date") until the relevant Index Disruption Event no longer exists, provided that, if such Index Disruption Event is continuing on the 5th Index Business Day following any such Index Determination Date (the "Delayed Index Determination Date"), then the Index Sponsor will determine the level of the relevant Index Component in respect of such Index Determination Date as of the related Delayed Index Determination Date in accordance with (ii) below; and/or</li> <li>(b) determine the level of the affected Index Component for such day in its sole discretion and acting in a commercially reasonable manner taking into account the relevant Index Disruption Event, latest available quotations and any other information the Index Sponsor deems relevant in its discretion, having regard to the standard of input data quality for the Index as determined by the Index Sponsor during the design of the Index, as set out in Appendix 2, Section 6 of the Control Framework Summary ("Data Sufficiency and Hierarchy of Input Data"), and/or</li> <li>(c) not calculate and publish the Index level for such day or delay the publication; and/or</li> <li>(d) make any adjustments to the Index methodology to account for the relevant Index Disruption Event as it deems necessary.</li> </ul>
<b>Index Disruption Event</b>	<p>The determination by the Index Sponsor in its sole discretion that one or more of the following events (each an "Index Disruption Event") has occurred</p> <ul style="list-style-type: none"> <li>a. the material suspension of, a material limitation imposed on, or the cessation of the</li> </ul>

	<p>trading in any Index Component;</p> <ul style="list-style-type: none"> <li>b. the failure of any Price Source to announce or publish any relevant price, level, rate or other data necessary for the determination of any Index Component;</li> <li>c. the level published on any Price Source in relation to any price, level, rate or other data necessary to determine any Index Component is significantly different to the level of such data prevailing in the market;</li> <li>d. a material change by the Price Source in the content, composition, constitution of, or in the formula for or method of calculating (a <b>“Material Change”</b>) any Index Component (including where any such Material Change is due to an amendment or other modification to the rules and/or regulations of the Price Source);</li> <li>e. the failure of any Price Source to open for trading during a scheduled trading session, or the early closure thereof (without 48 hours prior notice to the market); or</li> <li>f. the occurrence of any event or circumstance which generally prevents, disrupts or impairs the ability of market participants in general to enter into transactions or obtain market values of the type which would be required to implement the Index in a commercially reasonable manner (including, without limitation, a significant widening in the bid/offer and/or a significant reduction in liquidity in an Index Component);</li> <li>g. in respect of an Index Component or the Index, a systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstances beyond the Index Sponsor’s reasonable control which prevents, disrupts, or impairs the ability of the Index to achieve its economic objective, the prompt or accurate determination of the level of the Index, and/or the ability of the Index Sponsor or Index calculation agent to perform its role in respect of the Index; or</li> <li>h. any other event or circumstance that, in the opinion of the Index Sponsor, prevents, disrupts or impairs the ability of the Index to achieve its economic objective or the prompt or accurate determination of the level of the Index, or any other event or circumstance which causes the Index Sponsor to reasonably conclude that as a consequence of such event or circumstance, if the level of the Index were to be determined, it should not be relied upon to represent the market or economic reality that the Index is intended to measure.</li> </ul>
<p><b>Index Modification</b></p>	<p>Upon the occurrence of an Index Modification Event, the Index Sponsor may</p> <ul style="list-style-type: none"> <li>i. remove or replace such affected Index Component with an alternative futures or options contract, currency, rate, variable or other component (a <b>“Replacement Index Component”</b>) which, in its sole determination, is consistent with the objective of the Index and, where possible, is of the same or equivalent standard of quality as any input data and/or price source used prior to the occurrence of the Index Modification Event, having regard to the standard of input data quality for the Index as determined by the Index Sponsor during the design of the Index, as set out in Appendix 2, Section 6 of the Control Framework Summary (“Data Sufficiency and Hierarchy of Input Data”); and/or</li> <li>ii. make such other adjustments to the Index methodology as it deems appropriate preserve the objective of the Index, taking into account the relevant Index Modification Event (including without limitation replacing certain Price Sources used for determining the Yield Curve).</li> </ul> <p>The Index Sponsor may refrain from publishing the Index until the Index Modification Event ceases to exist.</p> <p>For the purpose of the removal or replacement of any affected Index Component, the Index Sponsor shall make any other adjustments to the Index to account for the price or value of the affected Index Component at the time of its removal and any related charges, fees or taxes as well as the cost to the Index Sponsor for implementing any Replacement Index Component.</p> <p>The Index Sponsor may modify the Index in accordance Appendix 2, Section 15 of the Control Framework Summary (“Changes to Methodology”).</p>
<p><b>Index Modification Event</b></p>	<p>An <b>“Index Modification Event”</b> shall be deemed to have occurred if:</p> <ul style="list-style-type: none"> <li>a. the Index Sponsor determines, in its sole discretion, that an Index Component (i) is no longer available (whether due to a permanent discontinuation of trading, disappearance or otherwise) or (ii) has been the subject of a Material Change in a manner which has or will have a material adverse effect on the Index achieving its stated objective; or</li> <li>b. the Index Sponsor determines, in its sole discretion, that the input data and/or price source in relation to any price, level, rate or other data necessary to determine any Index Component: <ul style="list-style-type: none"> <li>(i) is discontinued, so as to materially affect the Index calculation or</li> <li>(ii) is repeatedly different to a significant extent from the level of such data prevailing in the market;</li> <li>(iii) is no longer sufficient to represent accurately and reliably the market and economic</li> </ul> </li> </ul>

	<p>reality the Index is intended to measure.</p> <p>(iv) no longer meets the standard of input data quality for the Index as determined by the Index Sponsor during the design of the Index, as set out in Appendix 2, Section 6 of the Control Framework Summary (“Data Sufficiency and Hierarchy of Input Data”)</p> <p>each as determined by the Index Sponsor acting in good faith and a commercially reasonable manner; or</p> <p>c. an Extraordinary Event has occurred.</p>
<b>Extraordinary Event</b>	<p>Means in respect of any Index Component means any of Change in Law, Index Component Disruption and/or Increased Cost of Index Implementation.</p> <p><b>Change in Law</b> means that, on or after the Index Live Date (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Index Sponsor determines in good faith that (x) it has become illegal to hold, acquire or dispose of an Index Component, or (y) there is a materially increased cost of trading in an Index Component for the Index Sponsor or its affiliates (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).</p> <p><b>Index Component Disruption</b> means that the Index Sponsor or any of its affiliates or agents is unable, or it is impractical, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to implement the Index, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), including, without limitation, where such inability or impracticability has arisen by reason of (x) any restriction on making new or additional investments in any Index Component.</p> <p><b>Increased Cost of Index Implementation</b> means that the Index Sponsor or any of its affiliates would incur a materially increased (as compared with circumstances existing on the Index Live Date) amount of tax, duty, expense or fee to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to implement the Index, or (ii) realise, recover or remit the proceeds of any transaction(s) or asset(s).</p>
<b>Index Cancellation</b>	<p>The Index Sponsor may permanently cancel and discontinue calculating and publishing the Index, in accordance with Appendix 2, Section 17 of the Control Framework Summary (“Termination of Indices and Transitional Arrangements”).</p>
<b>Definitions</b>	<p>“<b>Index Component</b>” means, in respect of the Index, each underlying component index, futures contract, currency, rate, variable or other component necessary in order to determine a level of the Index (including the Yield Curve and any data used to determine the Yield Curve), in each case, in line with the then existing methodology of the Index.</p> <p>“<b>Price Source</b>” means, in respect of an Index Component, the publication, page (or any other origin of reference, including an exchange) containing (or reporting) the prices, levels, rates or other data utilised by the Index Sponsor for such Index Component. References to Price Source shall be construed as referring also to any successor publication, page or source on which the relevant prices, levels, rates or other data for a Index Component may be disseminated, as determined by the Index Sponsor at its sole discretion and acting in a commercially reasonable manner.</p>

<b>Additional information in respect of the Index methodology</b>	
<b>Index Governance</b>	<p>The Index Sponsor has established a governance framework (the “<b>Governance Policy and Control Framework</b>”) to ensure compliance with the European Benchmark Regulation, the IOSCO Principles and any related measures and applicable FCA rules (each as amended or replaced from time to time)<sup>1</sup>. The Governance Policy and Control Framework governs (amongst other things) the development, determination and operation of indices administered by the Index Sponsor. A summary of the Governance Policy and Control Framework (the “<b>Control Framework Summary</b>”) is published on: <a href="http://www.nomuranow.com/portal/site/nnextranet/en/global-markets/structured-derivatives/quant-investment-strategies.shtml">www.nomuranow.com/portal/site/nnextranet/en/global-markets/structured-derivatives/quant-investment-strategies.shtml</a>. Please refer to the summary of the Governance Policy and Control Framework in respect of the following information applying to the Index methodology</p>
<b>Criteria for Index Development and Input Data</b>	<p>The criteria and procedures used to develop this Index, and for selecting the sources of data inputs used in the Index, are set out in Appendix 2, Section 3 of the Control Framework Summary (“Index Design and Creation of New Indices”) and Appendix 2, Section 6 (“Data Sufficiency and Hierarchy of Data Inputs”).</p>

<sup>1</sup><https://www.iosco.org/library/pubdocs/pdf/IOSCOPD415.pdf>. The Governance Policy and Control Framework will be periodically reviewed and has been updated to reflect the requirements of the Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (Regulation (EU) 2016/1011) (the “**Benchmark Regulation**”), as well as related level 2 measures and applicable FCA rules.

<b>and Source Selection</b>	
<b>Exercise of Expert Judgment and discretion</b>	The Index Sponsor has adopted guidelines and procedures designed to promote consistency in the exercise of Expert Judgment and discretion for Index determinations. Further details are contained in Appendix 2, Section 14 of the Control Framework Summary (“Expert Judgment and Discretion”).
<b>Input Data Type Priority</b>	The Index Sponsor applied the hierarchy for data inputs as set out in Appendix 2, Section 6 of the Control Framework Summary (“Data Sufficiency and Hierarchy of Data Inputs”) when considering the data inputs used to construct the Index.
<b>Index Error Reports and Revision</b>	The Index Sponsor has adopted procedures for analysis and remediation of Index errors, and for potential restatement of a published Index level. Further details are contained in Appendix 2, Section 13 of the Control Framework Summary (“Correction of Errors”) and Appendix 2, Section 15 (“Changes to Methodology”) where remediation requires change to the Index Methodology.
<b>Quantity and Quality of Input Data</b>	<p>The Index is constructed by the Index Sponsor using both single prices or levels and an average or other formula of prices or levels prescribed by the Index Methodology. The Index Sponsor therefore considers that the requirement to determine the thresholds of the quantity of data inputs, necessary to determine the Index accurately and reliably, has been met.</p> <p>The Index Sponsor determines the standards of quality of the data inputs used in this Index at the design stage of the Index in accordance with Appendix 2, Section 6 of the Control Framework Summary (“Data Sufficiency and Hierarchy of Data Inputs”). These standards are reflected in the Index Methodology, as described in this Rulebook. The Index Sponsor will review these standards and the data inputs on a periodic basis in accordance with Appendix 2, Section 16 of the Control Framework Summary (“Periodic Review of Indices”) and in the full policies and procedures available on the Index Sponsor’s public website, to ensure that the data inputs used continue to be of sufficient quality to determine the Index accurately and reliably, and will accordingly determine whether an Index Modification Event has occurred.</p>
<b>Internal Reviews of the Index</b>	<p>The Index Sponsor is required to conduct internal reviews of the Index on a periodic basis. Further details regarding the frequency of those reviews, the procedures to be followed, and the bodies or functions within the Index Sponsor’s organisational structure involved in such reviews, are contained in Appendix 2, Section 16 of the Control Framework Summary (“Periodic Review of Indices”) and in the full policies and procedures available on the Index Sponsor’s public website.</p> <p>Reviews will further be conducted where the Index Sponsor considers it desirable or necessary to do so, including in response to specific events or otherwise. Specific events may include (without limitation) any index errors, index disruptions, or other index life-cycle events; changes in market circumstances; changes in the applicable legal or regulatory environment; any challenges or complaints or other feedback from stakeholders, and/or any material audit findings. Further information regarding the procedures to be followed in response to certain specific events, and the bodies or functions within the Index Sponsor’s organisational structure involved in such reviews, can be found in Appendix 2, Sections 13 (“Correction of Errors”), 14 (“Expert Judgment and Discretion”), 15 (“Changes to Methodology”), 19 (“Complaints Handling Policy”), 21 (“Audits”), and any other sections of the Control Framework Summary which may be relevant from time to time.</p>
<b>Index Approval</b>	The criteria and procedures used to approve the Index, and the bodies or functions within the Index Sponsor’s organisational structure involved in such approval, are set out in Appendix 3 of the Control Framework Summary (“Main Features of Index Committee Constitution and Terms of Reference”) and Appendix 2, Section 3 (“Index Design and Creation of New Indices”).
<b>Investor Consultation upon Index termination and material changes to the Index methodology</b>	The Index Sponsor is required to consult investors of index linked products when proposing material changes to the Index methodology and termination of the Index. Further details on the circumstances and procedures under which consultation takes place are contained in Appendix 2, Section 15 of the Control Framework Summary (“Changes to Methodology”), Appendix 2, Section 17 (“Termination of Indices and Transitional Arrangements”) and in the full policies and procedures available on the Index Sponsor’s public website.
<b>Active Market of the Index</b>	As of the date of this Index Description, the Index Sponsor considers the underlying market of the Index to be active, in accordance with in Appendix 2, Sections 3 (“Index Design and Creation of New Indices and Methodologies”) of the Control Framework Summary.
<b>Outsourcing of Index Determination</b>	The Index Sponsor has outsourced certain IT, Quants, Middle Office and Structuring functions to Nomura Structured Finance Services (India) Private Limited subject to a corporate service agreement between the entities. Further details are contained in Appendix 2, Section 1 of the Control Framework Summary (“Oversight of Third Parties”).
<b>Index Disclaimer</b>	The Index Sponsor and its affiliates make no representation whatsoever, whether express or implied, either as

to the results to be obtained from the use of an Index and/or the levels at which the relevant Index stands at a particular time on any particular date or otherwise. The Index Sponsor and its affiliates shall not be liable (whether in contract, tort or otherwise) to any person for any error in such Index.

The Index Sponsor and its affiliates make no representation whatsoever, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with entering into any transactions or products which are linked to or deriving a value from an Index.

Neither the Index Sponsor nor its affiliates shall have any liability for any act or failure to act by the Index Sponsor in connection with the calculation, adjustment or maintenance of an Index. Although the Index Sponsor will obtain information concerning an Index from publicly available sources it believes reliable, such information may not have been independently verified. Accordingly, no representation, warranty or undertaking (express or implied) is made and no responsibility is accepted by the Index Sponsor or its affiliates as to the accuracy, completeness and timeliness of information concerning an Index or any other information provided by any person in connection with the information described herein, or as to the continuance of calculation or publication of an Index.

Nothing in this disclaimer shall exclude or limit liability to the extent such exclusion or limitation is not permitted by law or regulation to which the Index Sponsor is subject.

## Disclaimer

This material has been prepared by the Index Sponsor, NIP (“Nipic”), which is authorised by the Prudential Regulation Authority (PRA), regulated by the Financial Conduct Authority (FCA) and the PRA in the UK, and is a member of the London Stock Exchange.

This material is made available to you by Nipic and/or its affiliates (collectively, “Nomura Group”), as the case may be. This is not investment research as defined by the US rules and regulations, FCA nor is it research under the applicable rules in Hong Kong. It does not constitute a personal recommendation, as defined by the FCA, or take into account the particular investment objectives, financial situations, or needs of individual investors. It is intended only for investors who are “eligible market counterparties” or “professional clients” as defined by the FCA, and may not, therefore, be redistributed to other classes of investors. This material does not fall within the definition of an analyst report as defined by the Japan Securities Dealer’s Association. It is intended for professional and institutional investors only.

This material is: (i) for your private information only, and we are not soliciting any action based upon it; (ii) not to be construed as an offer to sell or a solicitation of an offer to buy any security in any jurisdiction where such offer or solicitation would be illegal; and (iii) is based upon information that we consider reliable, and it should not be relied upon as such. While all reasonable care has been taken to ensure that the information contained herein is not untrue or misleading at the time of publication, no representation, warranty or undertaking, expressed or implied, is made and no responsibility or liability is accepted by the Nomura Group and/or its directors, officers and employees as to the accuracy, completeness, merchantability or fitness for a particular purpose of the information contained herein or any other information provided by any other person in connection with the information described herein or their distribution or for the results obtained from the use of this information.

Nomura Group and/or its directors, officers and employees do not accept any liability whatsoever for any loss or damage (including, without limitation, direct, indirect or consequential loss or loss of profits or loss of opportunity) suffered by you or any third party in connection with the use of this material or its content. It is not intended for investors who are unfamiliar with the relevant markets or who are unwilling or unable to bear the risks associated with the investment. You should refrain from entering into any transaction unless you fully understand all the risks involved and you have independently determined that the investment is suitable for you. We are not your designated investment adviser.

In reaching a determination as to the appropriateness of any proposed transaction linked to the Index, clients should undertake a thorough independent review of the legal, regulatory, credit, tax, accounting and economic consequences of such action. The Nomura Group may from time to time perform investment banking or other services (including acting as advisor, manager or lender) for, or solicit investment banking or other business from, companies mentioned herein. Further, the Nomura Group, and/or its officers, directors and employees, including persons, without limitation, involved in the preparation or issuance of this material may, from time to time, have long or short positions in, and buy or sell, the securities, or in options, futures or other derivatives based thereon, of companies mentioned herein, or related securities or in options, futures or other derivative instruments based thereon. In addition, the Nomura Group may act as a market maker and principal, willing to buy and sell certain of the securities or in options, futures or other derivatives of companies mentioned herein. Further, the Nomura Group may buy and sell certain securities or in options, futures or other derivatives of companies mentioned herein, as agent for its clients.

Nomura manages conflicts identified through the following: their Chinese wall, confidentiality and independence policies, maintenance of a Stop List and a Watch List, personal account dealing rules, policies and procedures for managing conflicts of interest arising from the allocation and pricing of securities and impartial investment research and disclosure to clients via client documentation. Disclosure information is available at <http://www.nomura.com/research/>. No part of this material may be (i) copied, photocopied, or duplicated in any form, by any means, or (ii) redistributed without our prior express consent. If this publication has been distributed by electronic transmission, such as e-mail, then such transmission cannot be guaranteed to be secure or error-free as information could be intercepted, corrupted, lost, destroyed, arrive late or incomplete, or contain viruses. The sender therefore does not accept liability for any errors or omissions in the contents of this publication, which may arise as a result of electronic transmission. If verification is required, please request a hard-copy version

Nomura International (Hong Kong) Limited (“NIHK”), is regulated by the Securities and Futures Commission under Hong Kong laws which differ from Australian laws. Neither Nipic nor NIHK hold an Australian financial services license as both are exempt from the requirements to hold this license in respect of the financial services either provides.

If distributed into the US, the following section will also apply to US clients:

Nomura Securities International, Inc. (“NSI”) is regulated by the Securities and Futures Commission and a member of SIPC. NSI does not provide legal, accounting or tax advice. In compliance with Internal Revenue Service Circular 230, we hereby notify you that any discussion of tax matters set forth herein was written in connection with the promotion or marketing of the matters described herein and was not intended or written to be used, and cannot be used by any person, for the purposes of avoiding tax-related penalties under federal, state or local tax law. Each person should seek legal, accounting and tax advice based on its particular circumstances from independent advisors.
