 - (iii) a DC Credit Event Question Dismissal occurs; or
 - (iv) a Credit Event Determination Date was determined pursuant to paragraph (a)(i) of the definition of Credit Event Determination Date or paragraph (a) of the definition of Non-Standard Event Determination Date and no Credit Event Resolution Request Date has occurred in respect of the relevant Credit Event on or prior to the date falling three Business Days after such Credit Event Determination Date; or

the Final Price (**Cash Settlement**).

Weighting means, with respect to a Reference Entity, (a) the relevant Weighting Percentage for such Reference Entity or, if prior to the occurrence of a Credit Event Determination Date with respect to such Reference Entity, such Reference Entity becomes a Successor to another Reference Entity, (b) the sum of (x) the Weighting Percentage for such Reference Entity and (y) the Weighting Percentage for each Reference Entity in respect of which such Reference Entity is a Successor. If a Succession Event occurs in relation to a Reference Entity which results in more than one Successor, the Weighting Percentage in respect of such Reference Entity will be pro-rated amongst each of the Successors.

Weighting Percentage means, with respect to a Reference Entity, the relevant Weighting Percentage as set out in the applicable Final Terms provided that:

- (i) if there is one Index specified in the applicable Final Terms, the relevant percentage set out in the relevant Index Annex; and
- (ii) if there is more than one Index specified in the Final Terms, a percentage that is equal to the product of:

- (d) Credit Linked Condition 13 is amended as follows:

- (i) The definition of "Accrued Interest" therein shall be deleted and the following substituted therefor:

- (a) "Include Accrued Interest" is specified in the applicable Final Terms, the Outstanding Principal Balance of the Reference Obligation shall include accrued but unpaid interest;
- (b) "Exclude Accrued Interest" is specified in the applicable Final Terms, the Outstanding Principal Balance of the Reference Obligation shall not include accrued but unpaid interest; or
- (c) neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified in the applicable Final Terms, the Calculation Agent shall determine, based on the then current market practice in the market of the Reference Obligation whether the Outstanding Principal Balance of the Reference Obligation shall include or exclude accrued but unpaid interest and, if applicable, the amount thereof."
- (ii) The definition of "Final Price" therein shall be amended by the addition of the following as the final paragraph thereof:

"If "Weighted Highest" is specified as the Valuation Method in the applicable Final Terms, the Final Price for the purposes of the Relevant Final Price used to calculate the Recovery Amount shall be calculated in respect of one or more Valuation Obligations (as defined below) selected by the Calculation Agent in its sole discretion in lieu of the Reference Obligation. For such purposes, references to the term "Reference Obligation" in the definitions of "Final Price", "Quotation", "Quotation Amount", "Full Quotation", "Weighted Average Quotation" and all related definitions shall, as the case requires, be deemed to refer to each relevant Valuation Obligation. **Valuation Obligation** means the relevant Reference Obligation and/or one or more Deliverable Obligations selected by the Calculation Agent in accordance with this definition of Final Price. The Calculation Agent shall select the relevant Valuation Obligations and determine their respective weightings on or prior to the relevant Valuation Date, and for such purposes shall determine the applicable Deliverable Obligations in accordance with the definition of "Deliverable Obligation" and terms relating to Physical Delivery set out in Credit Linked Condition 4. The Calculation Agent is not required to select more than one Valuation Obligation and may select the "cheapest" obligation of the Reference Obligation and/or Deliverable Obligations as the relevant Valuation Obligation(s). Notwithstanding the fact that the Calculation Agent may determine the Deliverable Obligations for the purposes of selecting the Valuation Obligations, in no event will the Securities be physically settled and the Calculation Agent is not obliged to select any such Deliverable Obligations as Valuation Obligations."

- (iii) The definition of "Quotation Amount" therein shall be deleted and the following substituted therefor:

"Quotation Amount means the amount specified as such in the applicable Final Terms (which may be specified by reference to an amount in a currency or by reference to "Representative Amount") or, if no amount is specified in the applicable Final Terms, the amount selected by the Calculation Agent in respect of each Reference Obligation or Deliverable Obligation selected by the Calculation Agent."

- (iv) The definition of "Movement Option" therein shall be deleted and the following substituted therefor:

"Movement Option means, with respect to an M(M)R Restructuring for which a No Auction Announcement Date has occurred pursuant to paragraph (b) or (c)(ii) of the definition of No Auction Announcement Date, the option of the Issuer to apply to the Securities, for purposes of calculating the Recovery Amount, the Parallel Auction Settlement Terms, if any, for purposes of which the Permissible Deliverable Obligations are more limited than the Deliverable Obligations that could apply in respect of the Reference Transaction (provided that if more than one such set of Parallel Auction Settlement Terms are published, the Parallel Auction Settlement Terms specifying the greatest number of such Permissible Deliverable Obligations shall apply). If no Notice to Exercise Movement Option is delivered by the Issuer on or prior to the Movement Option Cut-off Date, the Relevant Final Price for the purposes of determining the Recovery Amount will be the Final Price as provided in the definition of Relevant Final Price below. If a Notice to Exercise Movement Option is delivered by the Issuer on or prior to the Movement Option Cut-off Date, such event will be notified to Holders in accordance with N&C Securities Condition 16."

- (v) The definition of "Notice to Exercise Movement Option" therein shall be deleted and the following substituted therefor:

"Notice to Exercise Movement Option means, with respect to Securities for which (a) an M(M)R Restructuring applies and (b) the Relevant Final Price would otherwise be the Final Price pursuant to sub-paragraph (b)(ii) of the definition thereof, a notice from the Issuer to the Calculation Agent that (i) specifies the Parallel Auction Settlement Terms applicable in accordance with the definition of Movement Option and (ii) is effective on or prior to the Movement Option Cut-off Date."

- (vi) The definition of "Valuation Date" therein shall be deleted and the following substituted therefor:

"Valuation Date means, subject to Credit Linked Condition 11:

- (a) if "Single Valuation Date" is specified in the applicable Final Terms and subject to Credit Linked Condition 11, a date selected by the Calculation Agent in its sole discretion falling in the period from and including the Auction Cancellation Date, if any, or the relevant No Auction Announcement Date, if any, as applicable, to and including the day falling the number of Business Days specified in the Final

Terms (or, if the number of Business Days is not so specified, ninety Business Days) after such date); and

- (b) if "Multiple Valuation Dates" is specified in the applicable Final Terms, each of the following dates:
 - (i) subject to Credit Linked Condition 11, a date selected by the Calculation Agent in its sole discretion falling in the period from and including the Auction Cancellation Date, if any, or the relevant No Auction Announcement Date, if any, as applicable to and including the day falling the number of Business Days specified in the Final Terms (or, if the number of Business Days is not so specified, ninety Business Days) after such date); and
 - (ii) each successive date that is the number of Business Days specified in the applicable Final Terms (or, if the number of Business Days is not so specified, five Business Days) after the date on which the Calculation Agent obtains a Market Value with respect to the immediately preceding Valuation Date.

When "Multiple Valuation Dates" is specified in the applicable Final Terms, the total number of Valuation Dates shall be equal to the number of Valuation Dates specified in the applicable Final Terms (or, if the number of Valuation Dates is not so specified, five Valuation Dates).

If neither Single Valuation Date nor Multiple Valuation Dates is specified in the applicable Final Terms, Single Valuation Date shall apply."

- (e) Paragraph (a) of Credit Linked Condition 14 will be deleted in its entirety and the following substituted therefor:

"(a) in the case of Credit Linked N&C Securities:

- (i) the Calculation Agent may deliver multiple Credit Event Notices in respect of such Restructuring, each such Credit Event Notice setting forth a percentage (the **Partial Reference Entity Weighting**) that may be less than the Reference Entity Weighting in respect of the Reference Entity that was the subject of the Restructuring Credit Event immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Conditions and related provisions shall be deemed to apply on the basis of the Partial Reference Entity Weighting only.
- (ii) For the avoidance of doubt (A) the Outstanding Nominal Amount in respect of each nominal amount of such N&C Securities equal to the Calculation Amount shall only be reduced by a Reference Entity Notional Amount calculated on the basis of the Partial Reference Entity Weighting and interest shall continue to accrue on the Coupon Outstanding Nominal Amount calculated by reference to that Outstanding Nominal Amount as provided in paragraph (f) or (g), as applicable, of N&C Securities Condition 22.2.18 (adjusted in such manner as the Calculation Agent determines to be appropriate), (B) the relevant Recovery Amount (as included in the calculation of the Final Redemption Amount, if European Recovery Settlement

Amount is specified as applicable in the applicable Final Terms) shall be calculated on the basis of the Partial Reference Entity Weighting, (C) the Reference Entity Weighting in respect of the Reference Entity that was the subject of the Restructuring Credit Event shall be reduced by the Partial Reference Entity Weighting and the Credit Linked Conditions and related provisions shall apply to that reduced Reference Entity Weighting in the event that subsequent Credit Event Notices are delivered in respect of that Reference Entity and (D) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable to Securityholders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to these Terms and Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 14(a) and (y) the effective date of such adjustment(s)."

- (f) If the N&C Securities are Fixed Rate N&C Securities, for the purposes of Condition 6.2 and notwithstanding anything to the contrary therein, interest shall be calculated on the Coupon Outstanding Nominal Amount in respect of the relevant period for which the interest is being calculated.
- (g) If the N&C Securities are Floating Rate N&C Securities, for the purposes of Condition 6.3 and notwithstanding anything to the contrary therein, interest shall be calculated on the Coupon Outstanding Nominal Amount in respect of the relevant period for which the interest is being calculated.
- (h) Notwithstanding any provision of the Credit Linked Conditions, where Reference Entities are determined by reference to an Index then the Calculation Agent may (but is not required to) elect to follow the determination of the relevant Index Sponsor specified in the applicable Final Terms for purposes of identifying any Substitute Reference Obligation(s) or Successor(s) in relation to any Reference Entity instead of applying the relevant provisions set out in the Credit Linked Conditions.
- (i) For the purposes of the definition of Unwind Costs where applied in the determination of any Recovery Amount and where "Standard Associated Costs" are specified as applicable in the applicable Final Terms and notwithstanding anything to the contrary in Condition 8.7, **Associated Costs** means an amount equal to the N&C Securities' pro rata share of the total outstanding amount of any and all costs associated or incurred by the Issuer, any Affiliate and/or Hedging Party in connection with the credit settlement of the N&C Securities, including, without limitation, any costs associated with unwinding, substituting, settling, re-establishing and/or incurring any funding relating to the N&C Securities and/or any costs associated with unwinding, substituting, settling, re-establishing and/or incurring any hedge or related trading positions relating to the N&C Securities, all as determined by the Calculation Agent.

The following section applies to both Exempt Securities and Non-Exempt Securities.

The following are the Terms and Conditions of the W&C Securities which will apply to each issue of W&C Securities. The applicable Pricing Supplement in relation to any Series of Exempt W&C Securities (as defined below) may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Terms and Conditions, replace or modify the following Terms and Conditions for the purpose of such W&C Securities. In the case of W&C Securities other than Exempt W&C Securities, reference should be made to "applicable Final Terms" for a description of the content of the Final Terms which will specify which of such terms are to apply in relation to the relevant W&C Securities. In the case of W&C Securities that are Swiss Non-Exempt Securities, notwithstanding that such Swiss Non-Exempt Securities may also be Exempt Securities, the Issuer shall complete Final Terms, and references in these Terms and Conditions to provisions that apply, or may be applied, only to Exempt Securities shall not apply to such Swiss Non-Exempt Securities.

The Additional Terms and Conditions contained in Annex 1 in the case of Index Linked W&C Securities, Annex 2 in the case of Equity Linked W&C Securities, Annex 3 in the case of FX Linked W&C Securities, Annex 4 in the case of Commodity Linked W&C Securities, Annex 5 in the case of Fund Linked W&C Securities, Annex 6 in the case of Inflation Linked W&C Securities, Annex 7 or Annex 15 in the case of Credit Linked W&C Securities, Annex 9 in the case of Swedish Securities, Annex 12 in the case of Swiss Securities, Annex 14 in the case of SeDeX W&C Securities and/or Annex 16 in the case of Finnish Securities, (each as defined therein) will apply to the W&C Securities if specified herein and/or in the applicable Final Terms.

The Series of W&C Securities described in the applicable Final Terms (insofar as it relates to such Series of W&C Securities) (such W&C Securities being hereinafter referred to as the **W&C Securities**) are issued by Nomura Bank International plc (the **Issuer**). W&C Securities will be either warrants (**Warrants**) or exercisable certificates (**Certificates**), as specified in the applicable Final Terms, and references in these Terms and Conditions to "W&C Security", "W&C Securities", "Warrant", "Warrants", "Certificate" and "Certificates" will be construed accordingly. In the case of Warrants, where specified in the applicable Final Terms that such Warrants are to be exercised in Units, the references in these Terms and Conditions to "W&C Security", "W&C Securities", "Warrant" and "Warrants" will be construed accordingly.

The W&C Securities are issued pursuant to an amended and restated Agency Agreement (such Agency Agreement as amended and/or supplemented and/or restated from time to time, the Agency Agreement) dated on or about 27 September 2023 and made between the Issuer, the Guarantor (as defined below), Nomura International (Hong Kong) Limited, Citibank Europe PLC as principal agent (the **Principal Agent**, which expression shall include any successor principal paying agent), Citibank, N.A., London Branch as New York security agent (the **New York Security Agent**), Nomura International plc as calculation agent (the **Calculation Agent**) and the other agents named therein (together with the Principal Agent, the New York Security Agent and the Calculation Agent, the **Agents**, which expression shall include any additional or successor agents).

Nomura International plc shall undertake duties of Calculation Agent in respect of the W&C Securities unless another entity is so specified as the Calculation Agent in the applicable Final Terms. The expression "Calculation Agent" shall include such other specified Calculation Agent.

If, (i) specified in the applicable Final Terms and (ii) specifically authorised in accordance with the Guarantee by an executive officer of the Guarantor authorised by the Guarantor's Executive Management Board, the W&C Securities may be issued with the benefit of a guarantee from Nomura Holdings, Inc. (the **Guarantor**) pursuant to a deed of guarantee substantially in the form set out in the Base Prospectus (such guarantee, as modified, supplemented and/or restated from time to time, the **Guarantee**) dated on or about 27 September 2023 and executed by the Guarantor. The Guarantee will not be applicable in respect of a Series of W&C Securities unless (i) expressly specified in the applicable Final Terms and (ii) authorised as described above. If, (i) the applicable Final Terms in respect of any Series of W&C Securities does not state that the W&C Securities of such Series are Guaranteed W&C Securities, (ii) if the Guarantee is not authorised as described

above, or (iii) the date of such authorisation is not specified in the applicable Final Terms, then such W&C Securities will not have the benefit of the Guarantee or any other guarantee or similar arrangements from the Guarantor or any other party. The original of the Guarantee is held by the Principal Agent on behalf of the Securityholders at its specified office.

Any W&C Securities specified in the applicable Final Terms as guaranteed by the Guarantor and duly authorised by the Guarantor are referred to herein as **Guaranteed W&C Securities**. All amounts payable or deliverable under Guaranteed W&C Securities are unconditionally and irrevocably guaranteed by the Guarantor pursuant to the terms of the Guarantee.

The final terms for the W&C Securities are set out in Part A of the Final Terms applicable to the W&C Securities (the **applicable Final Terms**) which complete these Terms and Conditions of the W&C Securities (the **Conditions**, which term shall include one or more of the annex(es) of additional terms and conditions or amendments to the terms and conditions, in each case in the form annexed hereto (each a **Technical Annex**) if specified as applicable herein and/or in such Final Terms) and, if the W&C Securities are neither admitted to trading on a regulated market in the European Economic Area (the **EEA**) nor offered in the EEA in circumstances where a prospectus is required to be published under the Prospectus Regulation (**Exempt W&C Securities**), the final terms (or the relevant provisions thereof) are set out in Part A of the Pricing Supplement and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Conditions, replace or modify the Conditions for the purposes of the W&C Securities. Any reference in the Conditions to **applicable Final Terms** shall be deemed to include a reference to **applicable Pricing Supplement** where relevant. The expression **Prospectus Regulation** means Regulation (EU) 2017/1129.

Any reference to **Warrantholders** in relation to any Warrants shall mean the holders of the Warrants. Any reference to **Certificateholders** in relation to Certificates shall mean the holder of the Certificates. Any references to **Securityholders, Holders** or **holders** shall be construed as referring to the Warrantholders or Certificateholders, as applicable.

Any reference herein to the W&C Securities being listed and/or admitted to trading shall mean that such W&C Securities have been either (i) admitted to trading on the regulated market or Global Exchange Market of Euronext Dublin and have been admitted to its Official List, (ii) admitted to trading on the Luxembourg Stock Exchange's (the **LuxSE**) regulated market or its Euro MTF market and have been admitted to the official list of the LuxSE and/or (iii) listed and/or admitted to trading, as the case may be, on such other or further stock exchange(s) or market(s) as may be determined by the Issuer and which, where known as of the Issue Date, in each case as specified in the applicable Final Terms.

Application may also be made for W&C Securities issued under the Programme to be admitted to trading on the Multilateral Trading Facility of securitised derivative financial instruments organised and managed by Borsa Italiana S.p.A. (the **SeDeX Market**) in compliance with SeDeX Market Rules (*Regolamento del Mercato SeDeX*) and the related Instructions to the Rules of the Markets and to the MTFs managed and organized by Borsa Italiana (*Istruzioni al Regolamento dei mercati e degli MTFs organizzati e gestiti da Borsa Italiana*), as amended from time to time. For the avoidance of doubt, SeDeX is not a regulated market within the meaning of MiFID II.

The Securityholders are entitled to the benefit of a deed of covenant (such deed of covenant as modified, supplemented and/or restated from time to time, the **Deed of Covenant**) dated on or about 27 September 2023 and made by the Issuer. The original of the Deed of Covenant is held by the common depositary for Euroclear and Clearstream, Luxembourg (each as defined below).

As used herein, **Tranche** means W&C Securities which are identical in all respects (including as to listing and admission to trading) and **Series** means a Tranche of W&C Securities together with any further Tranche or Tranches of W&C Securities which (i) are expressed to be consolidated and form a single series and (ii) have the same terms and conditions or terms and conditions which are the same in all respects save for the issue price, as the case may be, and the issue date.

In the event that the applicable Final Terms specifies that W&C Securities are eligible for sale in the United States or to, or for the account or benefit of, U.S. persons pursuant to an exemption from the registration requirements of the Securities Act of 1933, as amended (the **Securities Act**), and applicable state securities laws, interests in such W&C Securities will be represented by a Rule 144A Global W&C Security (the **Rule 144A Global W&C Security**) and may only be offered and sold in private transactions (a) in the United States to qualified institutional buyers (**QIBs**) within the meaning of Rule 144A (**Rule 144A**) under the Securities Act who are also each a qualified purchaser (**QP**) within the meaning of Section 3(c)(7) and as defined in Section 2(a)(51)(A) of the United States Investment Company Act of 1940, as amended (the **1940 Act**) or (b) U.S. persons who are QIBs and also QPs and, in each case, who agree to purchase the W&C Securities for their own account or for the accounts of one or more other persons each of whom is a QIB that is a QP and not with a view to the distribution thereof and (unless otherwise provided in the applicable Final Terms) provide an Investor Representation Letter substantially in the form set out in the Agency Agreement. If it is specified in the applicable Final Terms that W&C Securities as described above may also be sold outside of the United States in offshore transactions to and for the account or benefit of non-U.S. persons in reliance on Regulation S under the Securities Act (**Regulation S**), the W&C Securities will be represented by a Regulation S Global W&C Security (the **Regulation S Global W&C Security**).

In the event that the applicable Final Terms does not specify that the W&C Securities are eligible for sale in the United States or to, or for the account or benefit of, U.S. persons, the W&C Securities will be represented by a Permanent Global W&C Security (the **Permanent Global W&C Security**). Permanent Global W&C Securities are permanently prohibited from being offered, sold, transferred, pledged, delivered, exercised or redeemed, directly or indirectly, at any time within the United States or to, or for the account or benefit of, or by, (a) a "U.S. person" as defined in Regulation S, (b) a person other than a "Non-United States person" as defined in Rule 4.7 under the United States Commodity Exchange Act of 1936, as amended (the **CEA**), (c) a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the United States Commodity Futures Trading Commission (the **CFTC**), or the final rule relating to Cross-Border Application of the Registration Thresholds and Certain Requirements Applicable to Swap Dealers and Major Swap Participants promulgated by the CFTC, in each case as amended, modified or supplemented from time to time, pursuant to the CEA, (d) any other "U.S. person" as such term may be defined in Regulation S or in regulations or guidance adopted under the CEA, or (e) a "United States person" as defined in the United States Internal Revenue Code of 1986, as amended and the United States Treasury regulations promulgated thereunder, in each case, as such definition may be amended, modified or supplemented from time to time (each such person, a **U.S. Person**).

References herein to a "Global W&C Security" include, as the context requires, a Rule 144A Global W&C Security, a Regulation S Global W&C Security and a Permanent Global W&C Security. Interests in a Permanent Global W&C Security may not be exchanged for interests in any other Global W&C Security. Interests in a Rule 144A Global W&C Security may not be exchanged for interests in a Permanent Global W&C Security. Interests in a Regulation S Global W&C Security may not be exchanged for interests in a Permanent Global W&C Security.

Except as specified herein, definitive W&C Securities will not be issued. Each Permanent Global W&C Security and Regulation S Global W&C Security will be deposited with a depository (a **Common Depository**) on behalf of Clearstream Banking S.A. (**Clearstream, Luxembourg**) and Euroclear Bank S.A./N.V. (**Euroclear**). A Rule 144A Global W&C Security will be either (i) deposited with the New York Security Agent as custodian for, and registered in the name of a nominee of, The Depository Trust Company (**DTC**) and references herein to W&C Securities "held through" DTC will be deemed to be references to W&C Securities so represented, or (ii) deposited with a Common Depository common to Euroclear and Clearstream, Luxembourg, as specified in the applicable Final Terms. Unless otherwise expressly stated in the applicable Final Terms, each Global W&C Security will be deposited with a common depository on behalf of Euroclear and Clearstream, Luxembourg.

In the case of W&C Securities represented by a Regulation S Global W&C Security held through Euroclear and/or Clearstream, Luxembourg, if the Issuer has been notified that both Euroclear and Clearstream,

Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available or the Issuer receives a notice from DTC as described below in relation to the Rule 144A Global W&C Security held through DTC corresponding to the same Series of W&C Securities as such Regulation S Global W&C Security, the Issuer will promptly give notice to Securityholders in accordance with W&C Securities Condition 9 and will deliver W&C Securities in definitive registered form (bearing such legends as may be required by the Issuer) in exchange for the Regulation S Global W&C Security.

In the case of W&C Securities represented by a Rule 144A Global W&C Security held through DTC, if DTC notifies the Issuer that it is unwilling or unable to continue as a depository for that Rule 144A Global W&C Security, or if at any time DTC ceases to be a "clearing agency" registered under the U.S. Securities Exchange Act of 1934, as amended, and a successor depository is not appointed by the Issuer within 90 days of such notice, or the Issuer receives notice as described above in respect of the closure of Euroclear and Clearstream, Luxembourg in relation to the Regulation S Global W&C Security held through Euroclear and Clearstream, Luxembourg corresponding to the same Series of W&C Securities as such Rule 144A Global W&C Security, the Issuer will deliver W&C Securities in definitive registered form (bearing such legends as may be required by the Issuer) in exchange for that Rule 144A Global W&C Security.

Except in the circumstances described in the preceding two paragraphs, owners of beneficial interests in a Regulation S Global W&C Security held through Euroclear and Clearstream, Luxembourg or a Rule 144A Global W&C Security held through DTC will not be entitled to have any portion of such W&C Securities registered in their name and will not receive or be entitled to receive physical delivery of registered W&C Securities in definitive form in exchange for their interests in that Global W&C Security. Transfer, exercise, payment, termination, settlement and other mechanics related to any W&C Securities issued in definitive form in exchange for W&C Securities as described above shall be as agreed between the Issuer, the Principal Agent and, in the case of W&C Securities represented by a Rule 144A Global W&C Security, the New York Security Agent.

Copies of the Agency Agreement, the Guarantee and the Deed of Covenant (i) are available for inspection during normal business hours at the specified office of the Principal Agent or (ii) may be provided by email to a Securityholder following their prior written request to the Principal Agent and provision of proof of holding and identity (in a form satisfactory to the Principal Agent). Copies of the applicable Final Terms are available for viewing during normal business hours at the specified office of the Principal Agent and copies may be obtained from those offices save that, if this W&C Security is an Exempt W&C Security, the applicable Pricing Supplement will be obtainable by a Securityholder holding one or more W&C Securities and such Securityholder must produce evidence satisfactory to the Issuer and the Principal Agent as to its holding of such W&C Securities and identity. If this W&C Security is to be admitted to trading (i) on the regulated market or Global Exchange Market of Euronext Dublin, the applicable Final Terms will be published on the website of Euronext Dublin (www.euronext.com/en/markets/dublin) and (ii) on the regulated market of the LuxSE, the applicable Final Terms will be published on the website of the LuxSE (www.luxse.com). The Securityholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Agency Agreement, the Guarantee, the Deed of Covenant and the applicable Final Terms which are applicable to them. The statements in the Conditions include summaries of, and are subject to, the detailed provisions of the Agency Agreement.

Words and expressions defined in the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in the Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Agency Agreement and the applicable Final Terms, the applicable Final Terms shall prevail. In the case of any inconsistency between any Technical Annex(es) specified as applicable herein and/or in the applicable Final Terms and other parts of these Conditions, the provisions of the applicable Technical Annex(es) shall prevail unless otherwise specified herein. In the case of any inconsistency between the applicable Final Terms and the Conditions, the applicable Final Terms shall prevail.

1. TYPE, TITLE AND TRANSFER

1.1 Type

Unless the W&C Securities are Exempt W&C Securities, the W&C Securities may be FX Basket Knock-Out W&C Securities (which are a type of FX Linked W&C Securities), FX Basket Knock-In W&C Securities (which are also a type of FX Linked W&C Securities) or Equity Delta One W&C Securities (which are a type of Equity Linked W&C Securities). If the W&C Securities are Non-Exempt W&C Securities, they may also be Swiss Securities or Finnish Securities.

If the W&C Securities are Exempt W&C Securities, the W&C Securities may be specified in the applicable Pricing Supplement as relating to a specified Index or basket of Indices (**Index Linked W&C Securities**), a specified Share or basket of Shares or a specified American Depositary Receipt (an **ADR**) and/or Global Depositary Receipt (a **GDR**) referencing a share (the **Underlying Share**) or basket of such GDRs and/or ADRs (**Equity Linked W&C Securities**), a specified currency or basket of currencies (**FX Linked W&C Securities**), a specified commodity or commodity index or basket of commodities and/or commodity indices (**Commodity Linked W&C Securities**), a specified fund share or unit or basket of fund shares or units (**Fund Linked W&C Securities**), a specified inflation index (**Inflation Linked W&C Securities**), or the credit of a specified reference entity or reference entities (**Credit Linked W&C Securities**), a Swedish Security (**Swedish Securities**), a Finnish Security (**Finnish Securities**) a Swiss Security (**Swiss Securities**), a SeDeX W&C Security (**SeDeX W&C Securities**) or any combination of the foregoing or any other or further type of securities as is specified in the applicable Pricing Supplement, in each case as specified in and depending on the type of Securities shown in the applicable Pricing Supplement. The applicable Pricing Supplement for such W&C Securities will specify which of the annexes of Additional Terms and Conditions apply to the W&C Securities.

No Equity Linked W&C Securities that would be subject to Article 20.1 or 20.2(b) of Commission Delegated Regulation (EU) No 2019/980 may be issued unless those Equity Linked W&C Securities are Exempt Securities.

Unless the W&C Securities are Exempt W&C Securities, settlement shall be by way of cash payment (**Cash Settled W&C Securities**).

If the W&C Securities are Exempt W&C Securities, the applicable Pricing Supplement will indicate whether such W&C Securities are Cash Settled W&C Securities or whether settlement will be by way of physical delivery (**Physical Delivery W&C Securities**), whether averaging (**Averaging**) will apply to the W&C Securities and whether the W&C Securities may be terminated following a Mandatory Early Termination Event. W&C Securities represented by a 144A Global W&C Security may not be settled by way of Physical Delivery. If Averaging is specified as applying in the applicable Pricing Supplement, the applicable Pricing Supplement will state the relevant Averaging Dates and, in respect of Index Linked W&C Securities and Equity Linked W&C Securities, if an Averaging Date is a Disrupted Day, whether Omission, Postponement or Modified Postponement applies.

In respect of Warrants, the applicable Final Terms will indicate whether such Warrants are American style Warrants (**American Style Warrants**), European style Warrants (**European Style Warrants**), Bermudan style Warrants (**Bermudan Style Warrants**) or, in the case of Exempt W&C Securities, such other type of Warrants as may be specified in the applicable Pricing Supplement. The applicable Final Terms will also indicate whether automatic exercise (**Automatic Exercise**) applies to the Warrants and whether the Warrants are call Warrants (**Call Warrants**) or put Warrants (**Put Warrants**). If Units are specified in the applicable Final Terms, Warrants must be exercised in Units and any Exercise Notice which purports to exercise such Warrants in breach of this provision shall be void and of no effect.

Certificates issued under the Programme will be automatically exercised on the Exercise Date, subject as provided in Condition 3.1.4 below.

If the W&C Securities are Exempt W&C Securities, references in the Conditions, unless the context otherwise requires, to (a) Cash Settled W&C Securities shall be deemed to include references to Physical Delivery W&C Securities, which include an option (as set out in the applicable Pricing Supplement) at the Issuer's election to request cash settlement of such W&C Security and where settlement is to be by way of cash payment, and (b) Physical Delivery W&C Securities shall be deemed to include references to Cash Settled W&C Securities which include an option (as set out in the applicable Pricing Supplement) at the Issuer's election to request physical delivery of the relevant underlying asset in settlement of such W&C Security and where settlement is to be by way of physical delivery.

If the W&C Securities are Exempt W&C Securities, the W&C Securities may, if so specified and provided for in the applicable Pricing Supplement, allow holders to elect for settlement by way of cash payment or by way of physical delivery or by such other method of settlement as is specified in the applicable Pricing Supplement. Those W&C Securities where the holder has elected for cash payment will be Cash Settled W&C Securities and those W&C Securities where the holder has elected for physical delivery will be Physical Delivery W&C Securities. The rights of a holder as described in this paragraph may be subject to the Issuer's right to vary settlement if so indicated in the applicable Pricing Supplement.

Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and no cash adjustment will be made in respect thereof, unless otherwise provided for in the applicable Final Terms.

Following exercise of an Equity Linked W&C Security which is a Physical Delivery Certificate, all dividends on the relevant Shares or ADRs/GDRs, as applicable, to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Shares or ADRs/GDRs executed on the relevant Actual Exercise Date and to be delivered in the same manner as such relevant Shares or ADRs/GDRs. Any such dividends to be paid to a Securityholder will be paid to the account specified by the Securityholder in the relevant Collection Notice as referred to in Condition 4.2 below.

3.3.3 *Failure to deliver an Exercise Notice for Physical Delivery Warrants*

In the event that a Securityholder does not, in respect of a Physical Delivery Warrant, deliver an Exercise Notice on or prior to (in the case a Warrant represented by a Global W&C Security held through Euroclear and/or Clearstream, Luxembourg) 10.00 a.m., Luxembourg or Brussels time on the Expiration Date, and "Automatic Exercise" is specified as applicable in the applicable Final Terms, the Issuer shall as soon as reasonably practicable determine the Assessed Value Payment Amount and in respect of such Warrant shall pay the Assessed Value Payment Amount to the relevant Securityholder in lieu of delivery of the Entitlement as soon as reasonably practicable following the determination of the Assessed Value Payment Amount. Upon payment of the Assessed Value Payment Amount, the Issuer's obligations in respect of such W&C Security shall be discharged and (in the case of Guaranteed W&C Securities) the Guarantor's obligations in respect of such W&C Security pursuant to the Guarantee shall be discharged.

In the event that a Securityholder does not, in respect of a Physical Delivery Warrant, deliver an Exercise Notice on or prior to (in the case a Warrant represented by a Global W&C Security held through Euroclear and/or Clearstream, Luxembourg) 10.00 a.m., Luxembourg or Brussels time on the Expiration Date, and "Automatic Exercise" is not specified as applicable in the applicable Final Terms, the Warrant shall become void and expire worthless at such time.

As used herein for the purposes of Physical Delivery Warrants:

Assessed Value Payment Amount means, in respect of a Warrant, an amount determined by the Calculation Agent to be the fair market value of the Relevant Assets comprised in the Entitlement in respect of such Warrant at the relevant time of determination of the Assessed Value Payment Amount less the applicable Exercise Expenses and Exercise Price less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer.

3.3.4 *Failure to deliver a Collection Notice for Physical Delivery Certificates*

In the event that a Securityholder does not, in respect of a Physical Delivery Certificate, deliver a Collection Notice on or prior to 10.00 a.m., Luxembourg or Brussels time on the Collection Notice Cut-off Date (as specified in the applicable Final Terms), the Issuer shall as soon as reasonably practicable determine the Assessed Value Payment Amount and in respect of such Certificate shall pay the Assessed Value Payment Amount to the relevant Securityholder in lieu of delivery of the Entitlement as soon as reasonably practicable following the determination of the Assessed Value Payment Amount. Upon payment of the Assessed Value Payment Amount, the Issuer's obligations in respect of such W&C Security shall be discharged and (in the case of Guaranteed W&C Securities), the Guarantor's obligations in respect of such W&C Security pursuant to the Guarantee shall be discharged.

As used herein for the purposes of Physical Delivery Certificates:

Assessed Value Payment Amount means, in respect of a Certificate, an amount determined by the Calculation Agent to be the fair market value of the Relevant Assets comprised in the Entitlement in respect of such Certificate at the relevant time of determination of the Assessed Value Payment Amount less the applicable Exercise Expenses and the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer.

3.3.5 *Settlement Disruption*

If, following the exercise of Physical Delivery W&C Securities, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the applicable Final Terms is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on any Settlement Date, then such Settlement Date for such W&C Securities shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, Provided That the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant W&C Security by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Settlement Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Settlement Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Settlement Date. In the case of Warrants, in the event that a Settlement Disruption Event will result in the delivery on a Settlement Date of some but not all of the Relevant Assets comprising the Entitlement, the Calculation Agent shall determine in its discretion the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Securityholder in respect of that partial settlement. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant W&C Security by payment to the relevant Securityholder of the Disruption Cash Settlement Price (as defined below) on the fifth Business Day following the date that notice of such election is given to the Securityholders in accordance with Condition 9. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Securityholders in accordance with Condition 9. The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with Condition 9 that a Settlement Disruption Event has occurred. No Securityholder shall be entitled to any payment in respect of the relevant W&C Security in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer or (in the case of Guaranteed W&C Securities) the Guarantor.

For the purposes hereof:

Settlement Business Day is as specified in the applicable Final Terms.

Disruption Cash Settlement Price means, in respect of any relevant W&C Security, the fair market value of such W&C Security at the relevant time of determination of the Disruption Cash Settlement Price (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer, plus (in the case of Warrants), if already paid, the Exercise Price (or, where as provided above some Relevant Assets have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion).

Settlement Disruption Event means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer or (in the case of Guaranteed W&C Securities) the Guarantor, as applicable, as a result of which the Issuer or (in the case of Guaranteed W&C Securities) the Guarantor, as the case may be, cannot make delivery of the Relevant Asset(s) using the method specified in the applicable Final Terms.

3.3.6 *Failure to Deliver due to Illiquidity*

If "Failure to Deliver due to Illiquidity" is specified as applicable in the applicable Final Terms and, following the exercise of Physical Delivery W&C Securities, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the **Affected Relevant Assets**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **Failure to Deliver due to Illiquidity**), then

3.3.6.1 subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Settlement Date in accordance with Condition 3.3.1 above and (in the case of Warrants) the Calculation Agent shall determine in its discretion the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Securityholder in respect of that partial settlement; and

3.3.6.2 in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant W&C Security by payment to the relevant Securityholder of the Failure to Deliver Settlement Price (as defined below) on the fifth Business Day following the date that notice of such election is given to the Securityholders in accordance with Condition 9. Payment of the Failure to Deliver Settlement Price will be made in such manner as shall be notified to the Securityholders in accordance with Condition 9. The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with Condition 9 that the provisions of this Condition 3.3.6 apply.

For the purposes hereof:

Failure to Deliver Settlement Price means, in respect of any relevant W&C Security, the fair market value of such W&C Security at the relevant time of determination of the Failure to Deliver Settlement Price (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above), less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion, plus, if already paid (in the case of Warrants), the Exercise Price (or, where as provided above some Relevant Assets have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion).

3.4 **Issuer's Option to Vary Settlement**

If the W&C Securities are Exempt W&C Securities, unless indicated otherwise in the applicable Final Terms, the Issuer has an option to vary settlement in respect of the W&C Securities, upon a valid exercise of W&C Securities in accordance with the Conditions, the Issuer may at its sole and unfettered discretion in respect of each such W&C Securities, elect not to pay the relevant Securityholders the Cash Settlement Amount or to deliver or procure delivery of the Entitlement to the relevant Securityholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Cash Settlement Amount on the Settlement Date to the relevant

Securityholders, as the case may be. Notification of such election will be given to Securityholders no later than 10.00 a.m. (London time) on the second Business Day following the Actual Exercise Date.

3.5 General

None of the Issuer, the Guarantor (in the case of Guaranteed W&C Securities), the Calculation Agent and the Agents shall have any responsibility for any errors or omissions in the calculation of any Cash Settlement Amount or, in the case of Exempt W&C Securities, of any Entitlement.

The purchase of W&C Securities does not confer on any holder of such W&C Securities any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the W&C Securities, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to W&C Securities that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e. a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on the W&C Securities that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent.. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. 4.3 Verification of the Securityholder

In the case of W&C Securities represented by a Global W&C Security held through Euroclear and/or Clearstream, Luxembourg, upon receipt of an Exercise Notice or a Collection Notice, Euroclear or Clearstream, Luxembourg, as the case may be, shall verify that the person delivering such notice is the holder thereof according to the books of Euroclear or Clearstream, Luxembourg, as the case may be. Subject thereto, Euroclear or Clearstream, Luxembourg, as the case may be, will confirm to the Principal Agent the series number and number of W&C Securities and the account details, if applicable, for the payment of the Cash Settlement Amount or, as the case may be, the details for the delivery of the Entitlement of each W&C Security being exercised. Upon receipt of such confirmation, the Principal Agent will inform the Issuer thereof. Euroclear or Clearstream, Luxembourg, as the case may be, will on or before the Settlement Date debit the account of the relevant Securityholder with the W&C Securities being exercised. If the W&C Securities are Warrants which are American Style Warrants or Bermudan Style Warrants, upon exercise of less than all the Warrants constituted by the Global Warrant, the Common Depositary will, on the instructions of, and on behalf of, the Principal Agent, note such exercise on the Schedule to the Global Warrant and the number of Warrants so constituted shall be reduced by the cancellation *pro tanto* of the Warrants so exercised.

In the case of W&C Securities represented by a Rule 144A Global W&C Security held through DTC, upon receipt of an Exercise Notice, the New York Security Agent shall confirm to the Issuer (subject to receipt by the New York Security Agent of verification in accordance with DTC procedures) that the person exercising the W&C Securities is the holder thereof according to the records of DTC. Subject thereto, the New York Security Agent shall notify the Issuer of the number of W&C Securities being exercised and the account details, if applicable, for the payment of the Cash Settlement Amount payable in respect of each W&C Security being exercised. If the W&C Securities are Warrants which are American Style Warrants or Bermudan Style Warrants, upon exercise of less than all the Warrants constituted by the Rule 144A Global Warrant held through DTC, the New York Security Agent will note such exercise on the Schedule to such Rule 144A Global Warrant and the number of Warrants so constituted shall be reduced by the cancellation *pro tanto* of the Warrants so exercised.

4.4 Settlement

4.4.1 Cash Settled W&C Securities

In the case of W&C Securities represented by a Global W&C Security held through Euroclear and/or Clearstream, Luxembourg, the Issuer shall on the Settlement Date pay or cause to be paid the Cash Settlement Amount (if any) for each duly exercised W&C Security:

4.4.1.1 to the Securityholder's account specified in the relevant Exercise Notice; or

4.4.1.2 where no Exercise Notice is received, to the Securityholder's account with Euroclear or Clearstream, Luxembourg, as applicable, in accordance with the rules of Euroclear or Clearstream, Luxembourg,

in each case, for value on the Settlement Date less any Exercise Expenses not already paid. In the case of 4.4.1.2 above, the Issuer or (in the case of Guaranteed W&C Securities) the Guarantor, as applicable, shall be discharged by payment to, or to the order of, Euroclear or Clearstream, Luxembourg, as applicable, in respect of the amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg, as applicable, as the holder of an amount of the W&C Securities must look solely to Euroclear or Clearstream, Luxembourg, as applicable, for their share of each such payment so made to, or to the order of, Euroclear or Clearstream, Luxembourg, as applicable.

In the case of W&C Securities represented by a Rule 144A Global W&C Security held through DTC, the Issuer, shall on the Settlement Date pay or cause to be paid the Cash Settlement Amount (if any) for each duly exercised W&C Security to the designated account at the New York Security Agent (or at such other account or bank as may be specified by the New York Security Agent) for the account of the New York Security Agent. In such case, as soon as reasonably practicable thereafter, and provided that the New York Security Agent is satisfied that delivery to it of funds sufficient to pay the Cash Settlement Amount will be made, the New York Security Agent will cause the Cash Settlement Amount to be credited to DTC less any Exercise Expenses not already paid. Each of the persons shown in the records of DTC as the holder of an amount of the W&C Securities must look solely to DTC for their share of each such payment so made to, or to the order of DTC.

4.4.2 *Physical Delivery W&C Securities*

Subject to payment of the aggregate Exercise Prices, in the case of Warrants, and payment of any Exercise Expenses with regard to the relevant W&C Securities, the Issuer shall on the Settlement Date deliver, or procure the delivery of, the Entitlement for each duly exercised W&C Security pursuant to the details specified in the Exercise Notice or Collection Notice, as applicable. Subject as provided in Condition 3.3, the Entitlement shall be delivered and evidenced in such manner as set out in the applicable Final Terms.

4.5 **Determinations**

Any determination as to whether an Exercise Notice or a Collection Notice is duly completed and in proper form shall be made (A) in the case of W&C Securities represented by a Global W&C Security held through Euroclear or Clearstream, Luxembourg, by the Issuer, or (B) in the case of W&C Securities represented by a Rule 144A Global W&C Security held through DTC, by the New York Security Agent in consultation with the Issuer. Any such determination shall be conclusive and binding on the Issuer, the Agents and the relevant Securityholder. Subject as set out below, any Exercise Notice or Collection Notice so determined to be incomplete or not in proper form, or which is not copied to the Issuer immediately after being delivered or sent to Euroclear or Clearstream, Luxembourg, as the case may be, or DTC, in each case as provided in Condition 4.1 or Condition 4.2 above, shall be null and void.

If such Exercise Notice or Collection Notice is subsequently corrected to the satisfaction of (A) in the case of W&C Securities represented by a Global W&C Security held through Euroclear or Clearstream, Luxembourg, the Issuer, or (B) in the case of W&C Securities represented by a Rule 144A Global W&C Security held through DTC, the New York Security Agent in consultation with the Issuer, it shall be deemed to be a new Exercise Notice submitted at the time such correction was delivered to Euroclear or Clearstream, Luxembourg, as the case may be, or DTC and the New York Security Agent, as applicable, and, in either case, the Issuer.

The Issuer, or the New York Security Agent, as applicable, shall use reasonable efforts to notify the Securityholder submitting an Exercise Notice or a Collection Notice as soon as reasonably practicable if, in consultation with the Issuer (in the case of the New York Security Agent), it has determined that such Exercise Notice or Collection Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Guarantor (in the case of Guaranteed W&C Securities), the Agents, Euroclear or Clearstream, Luxembourg or DTC shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

4.6 Delivery of an Exercise Notice or a Collection Notice

Delivery of an Exercise Notice or a Collection Notice shall constitute an irrevocable election by the relevant Securityholder to exercise the W&C Securities specified or to elect to receive the Entitlement, as applicable. After the delivery of such Exercise Notice, such exercising Securityholder may not transfer such W&C Securities.

4.7 Exercise Risk

Exercise of the W&C Securities is subject to all applicable laws, regulations and practices in force on the relevant Exercise Date and none of the Issuer, the Guarantor (in the case of Guaranteed W&C Securities) and the Agents shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. None of the Issuer, the Guarantor (in the case of Guaranteed W&C Securities) and the Agents shall under any circumstances be liable for any acts or defaults of Euroclear or Clearstream, Luxembourg or DTC, as applicable, in relation to the performance of its duties in respect of the W&C Securities.

4.8 Minimum and Maximum Number of W&C Securities Exercisable

4.8.1 American Style Warrants

This paragraph 4.8.1 applies only to American Style Warrants which are not Automatically Exercised.

4.8.1.1 The number of Warrants exercisable by any Warrantholder on any Actual Exercise Date must not be less than the Minimum Exercise Number specified in the applicable Final Terms and, if specified in the applicable Final Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Final Terms. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.

4.8.1.2 If the Issuer determines that the number of Warrants being exercised on any Actual Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Maximum Exercise Number (a number equal to the Maximum Exercise Number being the **Quota**), the Issuer may deem the Actual Exercise Date for the first Quota of such Warrants, selected at the discretion of the Issuer, to be such day and the Actual Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each of the succeeding Exercise Business Days until all such Warrants have been attributed with an Actual Exercise Date, provided, however, that the deemed Actual Exercise Date for any such Warrants which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of Warrants are exercised on the same day by Warrantholder(s), the

order of settlement in respect of such Warrants shall be at the sole discretion of the Issuer.

4.8.2 *Bermudan Style Warrants*

This paragraph 4.8.2 applies only to Bermudan Style Warrants which are not Automatically Exercised.

4.8.2.1 The number of Warrants exercisable by any Warrantholder on any Actual Exercise Date must not be less than the Minimum Exercise Number specified in the applicable Final Terms and, if specified in the applicable Final Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Final Terms. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.

4.8.2.2 If the Issuer determines that the number of Warrants being exercised on any Actual Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Maximum Exercise Number (a number equal to the Maximum Exercise Number being the **Quota**), the Issuer may deem the Actual Exercise Date for the first Quota of such Warrants, selected at the discretion of the Issuer, to be such day and the Actual Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each of the succeeding Exercise Dates until all such Warrants have been attributed with an Actual Exercise Date, provided, however, that the deemed Actual Exercise Date for any such Warrants which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of Warrants are exercised on the same day by Warrantholder(s), the order of settlement in respect of such Warrants shall be at the sole discretion of the Issuer.

4.8.3 *European Style Warrants*

This paragraph 4.8.3 applies only to European Style Warrants which are not Automatically Exercised.

The number of W&C Securities exercisable by or on behalf of any Securityholder on the Exercise Date, as determined by the Issuer, must be equal to the Minimum Exercise Number specified in the applicable Final Terms and, if specified in the applicable Final Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Final Terms. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.

4.9 **CNY Currency Event**

4.9.1 *CNY Currency Event*

If "CNY Currency Event" is specified as applicable in the applicable Final Terms and a CNY Currency Event, as determined by the Issuer acting in good faith, exists on a date for payment of any amount in Renminbi in respect of any W&C Security, the Issuer's obligation to make a payment in Renminbi under the terms of the W&C Securities may in the Issuer's sole discretion acting in good faith, be postponed by up to 14 calendar days and/or replaced by an obligation to pay such amount in U.S. dollars converted using the Spot Rate for the Rate Calculation Date.

4.9.2 *Occurrence of CNY Currency Event*

Upon the occurrence of a CNY Currency Event, the Issuer shall give notice as soon as practicable to the Securityholder in accordance with Condition 9 (*Notices*) stating the occurrence of the CNY Currency Event, giving details thereof and the action proposed to be taken in relation thereto.

4.9.3 *Definitions*

Governmental Authority means (i) any *de facto* or *de jure* government (or any agency, instrumentality, ministry or department thereof), court, tribunal, administrative or other governmental authority or (ii) any other entity (private or public) charged with the regulation of the financial markets (including the central bank), in each case in any relevant jurisdiction;

Rate Calculation Date means the day which is two Rate Calculation Business Days before the due date of the relevant payment under the W&C Securities;

CNY Currency Event means any one of CNY Illiquidity, CNY Non-Transferability or CNY Inconvertibility;

CNY Illiquidity means the general CNY exchange market in Hong Kong becomes illiquid as a result of which the Issuer, any of its Affiliates or its agents are unable to obtain, in a commercially reasonable manner, sufficient CNY to enable the Issuer to make a payment under the W&C Securities, as determined by the Issuer in a commercially reasonable manner following consultation with two independent foreign exchange dealers of international repute active in the CNY exchange market in Hong Kong;

CNY Inconvertibility means the occurrence of any event that makes it impossible for the Issuer, any of its Affiliates or its agents to convert (i) U.S. dollars into (ii) any amount due in respect of the W&C Securities that is payable by the Issuer in CNY, on any payment date at the general CNY exchange market in Hong Kong, other than where such impossibility is due solely to the failure of the Issuer, any of its Affiliates or its agents to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

CNY Non-Transferability means the occurrence of any event that makes it impossible for the Issuer, any of its Affiliates or its agents to deliver CNY between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong (including where the CNY clearing and settlement system for participating banks in Hong Kong is disrupted or suspended), other than where such impossibility is due solely to the failure of the Issuer, any of its Affiliates or its agents to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule, or regulation is enacted after the Issue Date of the first Tranche of the relevant Series and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation); and

reference to Reuters Screen Page TRADCNY3, or if no such rate is available, on a non-deliverable basis by reference to Reuters Screen Page TRADNDF. If neither rate is available, the Calculation Agent shall determine the rate taking into consideration all available information which the Calculation Agent deems relevant, including pricing information obtained from the Renminbi non-deliverable exchange market in Hong Kong or elsewhere and the CNY/U.S. dollar exchange rate in the PRC domestic foreign exchange market.

4.9.4 *CNY account*

All payments in respect of any W&C Security in Renminbi will be made solely by credit to a Renminbi account maintained by the payee at a bank in Hong Kong or such other financial centre(s) as may be specified in the applicable Final Terms as CNY Settlement Centre(s) in accordance with applicable laws, rules, regulations and guidelines issued from time to time (including all applicable laws and regulations with respect to the settlement of Renminbi in Hong Kong or any relevant CNY Settlement Centre(s)).

4.10 **Non-Permitted Holders and suspension of deliveries and payments at the option of the Issuer**

4.10.1 Unless "Sanctions Event" is specified as not applicable in the applicable Final Terms, the following provisions shall apply.

4.10.2 If the Issuer in its sole and absolute discretion based on relevant knowledge or suspicion, after consultation with the Calculation Agent, determines that a Non-Permitted Holder holds or may hold any legal or beneficial interest in a W&C Security (a **Sanctions Event**), the Issuer may, from the time of such determination, in respect of (i) all of the W&C Securities of the Series (if it is not possible or reasonably practicable to only make Relevant Deliveries and Payments with respect to W&C Securities held by Permitted Holders), or (ii) W&C Securities of the Series which are or may be held by any Non-Permitted Holder(s) only, suspend all Relevant Deliveries and Payments for so long as the Affected Period continues.

4.10.3 The Issuer shall give notice as soon as practicable (subject to Sanctions and applicable law) to the relevant Securityholders of any suspension pursuant to Condition 4.10.2 above in accordance with Condition 9 below. Any failure to provide such a notice to Securityholders will not constitute an Event of Default in respect of the W&C Securities and will not affect the validity of the foregoing provisions, and any such suspension shall not constitute an Event of Default in respect of the W&C Securities. If an event or circumstance that would otherwise (but for this Condition 4.10) constitute a Disruption Event or a Suspension Event also constitutes a Sanctions Event, such event shall be deemed to be a Sanctions Event and shall not constitute a Disruption Event or a Suspension Event (as applicable), except that if the Issuer determines in its sole and absolute discretion that the provisions of this Condition 4.10 are not, in whole or in part or by themselves, commercially reasonable in view of the then current Sanctions position, the Issuer may apply none, some only or each of this Condition 4.10 and/or the relevant provisions that may apply in respect of a Disruption Event or a Suspension Event, as appropriate. This Condition 4.10 may also be applied in combination and/or sequentially with any other Conditions. Without limitation, this may mean that an Early Cancellation Amount becomes subject to delay pursuant to this Condition 4.10.

4.10.4 During the Affected Period the Issuer shall use reasonable efforts to:

- (a) consider whether it is permitted under (i) Sanctions and all other applicable law and regulation; and (ii) the Issuer's internal legal, compliance and operational policies ((i) and (ii) together, the **Issuer Requirements**), to arrange for an alternative means of making deliveries or payments, as applicable, to or for the benefit of any Non-Permitted Holder(s). If the Issuer determines that it is so permitted, the Issuer shall

use reasonable efforts to liaise with the Non-Permitted Holder(s) or such other persons as may be appropriate in order to arrange for such alternative means of making deliveries or payments to be put in place; and

- (b) put in place alternative arrangements (the **Sanctions Alternative Arrangements**) for the benefit of the Permitted Holders which, in the sole determination of the Issuer, comply with Sanctions and all other laws and regulations to which the Issuer and/or any relevant Agent or other entity or system involved in the relevant payment or delivery (as determined by the Issuer) are subject and enable the Issuer to make or procure payment or delivery of each related Relevant Delivery and Payment, as applicable, to or at the direction of the relevant Permitted Holders. Sanctions Alternative Arrangements may include, without limitation:
 - (A) certification, verification or any other arrangements agreed between the Issuer and the relevant clearing system (which may include removal of the W&C Securities from the relevant clearing system); and
 - (B) adjustments to any relevant terms of the W&C Securities (which may include adjustments to any relevant payment or delivery provisions themselves and provisions as to what constitutes good payment or delivery) without the consent of the Securityholders.

4.10.5 Where a payment would otherwise be due from the Issuer to any Non-Permitted Holder(s) and/or any Permitted Holders under or in connection with any W&C Securities then, in each case as the Issuer determines is appropriate from time to time to ensure its compliance with Sanctions and notwithstanding Condition 4.10.6 below or any other term of the relevant W&C Securities, the Issuer may opt to make such payment into one or more Frozen Accounts, and any such payment made by or on behalf of the Issuer will be considered to have been fully and validly paid by the Issuer to the relevant Securityholders for the purposes of these Conditions.

4.10.6 At any time on or after the two year anniversary of the commencement of the Affected Period or if earlier the scheduled maturity of the W&C Securities, the Issuer may in its sole and absolute discretion cancel the W&C Securities then held by any Non-Permitted Holder, in which case:

- (a) the Issuer shall have no further obligations under such W&C Securities then held by the Non-Permitted Holder(s) and shall not be required to reimburse or otherwise account to the Non-Permitted Holder(s) for any Relevant Deliveries and Payments;
- (b) such W&C Securities shall be deemed to have expired worthless, shall be cancelled and if the Securities are in definitive form the Non-Permitted Holder(s) shall immediately surrender the W&C Securities to or to the order of the Issuer; and
- (c) any rights or claims of the Non-Permitted Holder(s) in respect of such W&C Securities and any Relevant Deliveries and Payments shall be extinguished and the Non-Permitted Holder(s) shall have no further recourse to the Issuer, irrespective of whether the Non-Permitted Holder(s) comply with their obligations to surrender the W&C Securities under this Condition 4.10.6.

4.10.7 Notwithstanding any other provision of these Conditions, if at any time following the commencement of the Affected Period (and provided the Issuer has not otherwise cancelled the W&C Securities pursuant to Condition 4.10.6 above) the Issuer has reasonable grounds to believe that (i) due to a change in Sanctions or any other applicable law or regulation, or based

on new information, a Securityholder is not or is no longer a Non-Permitted Holder, or (ii) a Non-Permitted Holder has availed itself of a licence, permission or other dispensation under which it is lawfully able to accept and the Issuer is lawfully able to make Relevant Deliveries and Payments in respect of W&C Securities then held by it notwithstanding its status as a Non-Permitted Holder, such Non-Permitted Holder shall be considered a Permitted Holder from such time for the purposes of this Condition 4.10.

4.10.8 Notwithstanding any other provision of these Conditions, if at any time following the commencement of the Affected Period (i) the Issuer determines in its sole and absolute discretion that appropriate arrangements exist to make Relevant Deliveries and Payments in respect of the W&C Securities to all Securityholders (including any Non-Permitted Holder(s)), or (ii) the Issuer has elected in its sole and absolute discretion to make or procure payment or delivery (as applicable) of a Relevant Delivery or Payment to or at the direction of the Permitted Holders pursuant to any Sanctions Alternative Arrangements, the Issuer shall, if permitted by the Issuer Requirements:

- (a) resume deliveries and payments in respect of W&C Securities then held by the Securityholders or, alternatively, only the Permitted Holders (as applicable); and
- (b) within five Business Days of the resumption of such deliveries and payments, arrange for a delivery or a payment, as applicable, to be made to the relevant Securityholders (the date of such delivery or payment, the Suspension End Date) which the Issuer determines is equal to any Relevant Deliveries and Payments not received by such Securityholders as a result of the Issuer's exercise of its rights under Condition 4.10.2, plus an additional amount determined by the Calculation Agent as being equal to:
 - (1) in respect of any suspended deliveries (A) any dividend or other distribution that would have been received by a Hypothetical Holder in respect of such suspended delivery from, and including, the first day of the Affected Period to, but excluding, the final day of the Affected Period, in each case net of any applicable taxes or charges (including, without limitation, custodial charges) such a Hypothetical Holder would suffer (the Distribution Additional Amount); plus (B) (in the case of Permitted Holders who have not been Non-Permitted Holders in the relevant Affected Period only, and without duplication) an additional amount determined by the Calculation Agent as being equal to interest which would have accrued on any cash element(s) of the Distribution Additional Amount on the basis each such cash element would accrue interest in each case from, and including, the date the relevant cash element would have been received by a Hypothetical Holder to, but excluding, the Suspension End Date (in each case calculated by reference to a rate of interest determined by the Issuer in its sole discretion and in compliance with the Issuer Requirements); and
 - (2) in respect of any suspended payments and in the case of Permitted Holders who have not been Non-Permitted Holders in the relevant Affected Period only, and without duplication, interest which would have accrued on such suspended payment from, and including, the first day of the Affected Period to, but excluding, the Suspension End Date (calculated by reference to a rate of interest determined by the Issuer in its sole discretion and in compliance with the Issuer Requirements).

Upon such payment or delivery pursuant to this Condition 4.10.8 in respect of the W&C Securities, the Issuer shall have discharged its obligations in respect of the relevant Deliveries

and Payments under such W&C Securities in full and shall have no other liability or obligation whatsoever in respect thereof except in the event of a loss resulting directly from the fraud, wilful default or gross negligence of the Issuer or the Calculation Agent.

- 4.10.9 Except as provided in Condition 4.10.8 above, Securityholders shall not be entitled to any interest or any other payment on account of any postponement or delay which may occur in respect of the payment of any amounts that would otherwise be due and payable or the delivery of any deliverable entitlements, as applicable, in respect of the W&C Securities pursuant to this Condition 4.10.
- 4.10.10 Except as required by Sanctions and any applicable laws and regulations, neither the Issuer nor the Calculation Agent shall have any duty to monitor, enquire or satisfy themselves as to the status of any Securityholder with respect to Sanctions.
- 4.10.11 For the avoidance of doubt, the Issuer may rely on and exercise its rights under this Condition 4.10 on more than one occasion, whether in relation to the same Securityholders and Sanctions regime or otherwise. The above provisions are additional, and without prejudice to, any other terms of the W&C Securities, and the Issuer shall not be restricted from exercising any other rights it holds and, in exercising its rights under this Condition 4.10, shall not be deemed to have waived its rights under any other terms of the W&C Securities. In addition, where any event or circumstance is or may be an event or circumstance as described in more than one of this Condition 4.10 or Condition 5.4 (Inconvertibility Event) or any other provisions of the Conditions (each a **Relevant Provision**), the Issuer may determine in its sole discretion which of such Relevant Provisions it will apply (if applicable) to the relevant event or circumstance and no Relevant Provision will be qualified or limited by the existence of any other Relevant Provision.

For these purposes:

Affected Period means the period beginning on and including the date upon which the Issuer makes a determination under Condition 4.10.2 and continuing for so long as the Issuer remains of the view that there are reasonable grounds to believe there are one or more relevant holder(s) which remain Non-Permitted Holder(s) or, if earlier, until the date on which:

- (a) the Issuer determines that appropriate arrangements then exist to make payment of the relevant Relevant Deliveries and Payments to all Securityholders (including all of the Non-Permitted Holders); or
- (b) in respect of Permitted Holders only, the date on which the Issuer has elected to make or procure payment or delivery (as applicable) of a Relevant Delivery and Payment, to or at the direction of the Permitted Holders pursuant to any Sanctions Alternative Arrangements (in which case, the Affected Period will be deemed to continue in respect of any Non-Permitted Holders).

Disruption Event means any disruption event, additional disruption event or adjustment event, howsoever described, provided for in the Conditions in respect of a Reference Item.

Frozen Account means, in relation to a person or persons, a bank account which is held for such person or persons and which has been frozen or blocked pursuant to Sanctions, such that the person or persons are not able to freely access the funds therein.

Hypothetical Holder means (i) a corporate entity resident in the same jurisdiction as the Issuer or, (ii) if the Issuer determines that such an entity would reasonably hold exposure to any suspended delivery with a custodian or nominee or via any contractual arrangement with

a counterparty resident in the same or any other relevant jurisdiction, such other custodian, nominee or counterparty.

Non-Permitted Holder means, in relation to any Series of W&C Securities, any legal or natural person who, in the determination of the Issuer based on relevant knowledge or suspicion as determined by the Issuer in its discretion, is, or may be (i) listed on a Sanctions List or otherwise directly or indirectly subject to, or targeted by, Sanctions for any reason, whether specifically affected itself or as a result of having a relevant connection with a person who is so affected, (ii) a person who is acting on behalf or at the direction of, or for the benefit of, directly or indirectly, one or more targets of any Sanctions, or (iii) a person who is materially connected to a person referred to in (i) or (ii), including any family member, business associate, or other close affiliate and, in all cases, the relevant Sanctions are relevant (as determined by the Issuer in its sole and absolute discretion) for the purposes of Relevant Deliveries and Payments under the W&C Securities.

OFAC means the Office of Foreign Assets Control of the US Department of the Treasury.

Permitted Holder means, in relation to any Series of W&C Securities, any legal or natural person who is not a Non-Permitted Holder.

Relevant Deliveries and Payments means, in relation to any W&C Security, all deliveries and all payments of principal, interest and any other amounts which are or would become due and payable but for the Issuer's exercise of its right to suspend such deliveries and payments under the provisions of this Condition 4.10.

Sanctions means any trade, economic or financial sanctions laws, regulations, embargoes or restrictive measures administered, enacted or enforced by a Sanctions Authority from time to time.

Sanctions Authority means:

4.11 Payments subject to ability to make payment under applicable laws, and being possible and reasonably practicable

- 4.11.1 Unless "Payment Suspension" is specified as not applicable in the applicable Final Terms, the following provisions of this Condition 4.11 shall apply.
- 4.11.2 Without prejudice to Condition 4.10 above, all payments in respect of the W&C Securities are subject in all cases to (i) any laws, regulations, rules and directives including, without limitation, Sanctions, that may apply to the Issuer or might have applied to any Affiliate of the Issuer had such Affiliate been the issuer of the W&C Securities and (ii) such payment being possible and reasonably practicable in the Specified Currency or Settlement Currency (as applicable) to (and accepted by) the relevant Securityholder (collectively, the **Payment Condition**).
- 4.11.3 If (i) any payment does not satisfy the Payment Condition, or (ii) the Issuer considers there to be a reasonable likelihood that any forthcoming payment may not satisfy the Payment Condition (each, a **Suspension Event**), the Issuer's obligations to make such payment shall be suspended and the Issuer shall be excused from making such payment on the due date under the Conditions (a **Payment Suspension**). Any non-payment while the Payment Suspension applies shall not constitute an Event of Default or a breach of the Issuer's obligations under the W&C Securities.
- 4.11.4 If the Issuer in its sole and absolute discretion determines that the Suspension Event is no longer subsisting and that the Payment Condition would be satisfied in respect of its payment obligations then, if permitted by the Issuer Requirements, the Issuer shall make such payment as soon as the Issuer determines that it is practicable for it to do so plus an additional amount determined by the Calculation Agent as being equal to, without duplication, interest which would have accrued on such suspended payment from, and including, the date such payment would have been due (but for this Condition 4.11) to, but excluding, the date on which such payment is made (calculated by reference to a rate of interest determined by the Issuer in its sole discretion and in compliance with the Issuer Requirements). No W&C Securities shall be cancelled or terminated while a Payment Suspension applies (subject to the Issuer's rights to cancel the W&C Securities as provided below).
- 4.11.5 Except as provided in Condition 4.11.4 above, Securityholders shall not be entitled to any interest or any other payment on account of any postponement or delay which may occur in respect of the payment of any amounts that would otherwise be due and payable or the delivery of any deliverable entitlements, as applicable, in respect of the W&C Securities pursuant to this Condition 4.11.

5. EARLY CANCELLATION, ADMINISTRATOR/BENCHMARK EVENTS AND INCONVERTIBILITY EVENT

5.1 Cancellation for Illegality

*This Condition 5.1 applies to W&C Securities which are subject to cancellation prior to the Settlement Date at the option of the Issuer upon an Illegality as described below, such option being referred to as an **Illegality Cancellation**. The applicable Final Terms contains provisions applicable to any*

Illegality Cancellation and must be read in conjunction with this Condition 5.1 for full information on any Illegality Cancellation. In particular, the applicable Final Terms will identify the applicable notice periods.

Unless this Condition 5.1 is specified as "Not Applicable" in the applicable Final Terms, in the event that the Issuer determines that the performance of its obligations under the W&C Securities or (in the case of Guaranteed W&C Securities) the obligations of the Guarantor under the Guarantee, or any arrangements made to hedge the Issuer's obligations under the W&C Securities, has or will become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any applicable present or future law, rule, regulation, Sanctions, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power, or the interpretation thereof (an **Illegality**), the Issuer may, having given not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Securityholders in accordance with Condition 9 (which notice shall be irrevocable), on the expiry of such notice cancel all, but not some only, of the W&C Securities, each W&C Security being cancelled at the Early Cancellation Amount. If no such minimum period of notice or maximum period of notice are specified in the applicable Final Terms, such minimum period of notice shall be 5 Business Days and such maximum period of notice shall be 20 Business Days.

5.2 Regulatory Cancellation Event

*This Condition 5.2 applies to W&C Securities which are subject to cancellation prior to the Settlement Date at the option of the Issuer upon a regulatory event as described below, such option being referred to as a **Regulatory Cancellation**. The applicable Final Terms contains provisions applicable to any Regulatory Cancellation and must be read in conjunction with this Condition 5.2 for full information on any Regulatory Cancellation. In particular, the applicable Final Terms will identify the applicable notice periods.*

Unless this Condition 5.2 is specified as "Not Applicable" in the applicable Final Terms, in the event that the Calculation Agent determines that a change (including a future change) in applicable law or regulation has occurred or will occur which results, or will result, by reason of the W&C Securities being outstanding, in the Issuer being required to be regulated by any additional jurisdiction or regulatory authority, or being subject to any additional legal requirement or regulation considered by the Issuer to be materially onerous to it, the Issuer having given not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Securityholders in accordance with Condition 9 (which notice shall be irrevocable) may, on the expiry of such notice cancel all, but not some only, of the W&C Securities, each W&C Security being cancelled at the Early Cancellation Amount. Payment shall be made in such manner as shall be notified to Securityholders in accordance with Condition 9. If no such minimum period of notice or maximum period of notice is specified in the applicable Final Terms, such minimum period of notice shall be 5 Business Days and such maximum period of notice shall be 20 Business Days.

5.3 Adjustment or Cancellation following an Administrator/Benchmark Event

In the event that an Administrator/Benchmark Event occurs, the Issuer may (at its option):

5.3.1 instruct the Calculation Agent to make such adjustments to the Conditions of the W&C Securities as the Calculation Agent may determine appropriate to account for the relevant event or circumstance, including to take into account any and all costs and expenses (including any licensing costs) associated or incurred by the Issuer and/or a Hedging Party in connection with maintaining the exposure of the W&C Securities to the Affected Benchmark, all as determined by the Calculation Agent. The Calculation Agent will give notice of such adjustments to the Issuer and the Issuer shall take such additional actions as it considers necessary to effect such adjustments; or

- 5.3.2 instruct the Calculation Agent to select a Replacement Benchmark to replace the exposure of the W&C Securities to the Affected Benchmark or, if the Calculation Agent determines a Replacement Benchmark is not available or appropriate, replace the Affected Benchmark with a Fixed Rate and in each case instruct the Calculation Agent to make such other modifications to the Conditions of the W&C Securities as the Calculation Agent determines necessary or appropriate in order to account for the effect of the replacement of the Affected Benchmark with the Replacement Benchmark or Fixed Rate, including to apply any spread adjustment (which may be positive, negative or zero) or otherwise account for any and all Replacement Related Costs, and to preserve as closely as practicable the economic equivalence of the W&C Securities before as after the replacement of the Affected Benchmark with the Fixed Rate; or
- 5.3.3 having given not less than 10 nor more than 30 days' notice to the Securityholders of W&C Securities in accordance with Condition 9, on expiry of such notice cancel all, but not some only, of the W&C Securities, each W&C Security being cancelled at the Early Cancellation Amount.

The Issuer may determine whether to apply any consequences for an Administrator/Benchmark Event and, if it does decide to apply one or more consequence(s), may in its sole discretion determine which consequence(s) to select. The Issuer may at its option determine whether to apply any consequences for an Administrator/Benchmark Event at any relevant time and, without limitation, this may include that it is not then appropriate or that the impact of the Administrator/Benchmark Event is not then material for the W&C Securities. This will not prevent it applying consequences under this Condition in the future in relation to the occurrence of the relevant Administrator/Benchmark Event. Neither the Issuer nor the Calculation Agent will have any duty to monitor, enquire or satisfy itself as to whether any Administrator/Benchmark Event has occurred. In determining whether an Administrator/Benchmark Event has occurred, the Calculation Agent will act in accordance with Condition 8.2 and it may, but is not obliged to, refer to any publicly available information and pronouncements from regulators or industry bodies. In selecting a Replacement Benchmark, if applicable, the Calculation Agent will act in a commercially reasonable manner and it may, but is not obliged to, take into account its own, the Issuer's or a Hedging Party's internal models and policies, any industry developments and market consensus. For the avoidance of doubt, the Issuer may make all determinations and/or adjustments and take all actions in respect of the W&C Securities as are provided for in connection with an Administrator/Benchmark Event, irrespective of the fact that such event may have occurred prior to the Issue Date.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the W&C Securities. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in its sole discretion acting in good faith and may consult with the Calculation Agent or any Hedging Party and may but does not have to take into account the approach to the relevant event or circumstance taken in the hedging arrangements. As used in these Conditions:

- (1) a Benchmark Modification or Cessation Event has occurred or will occur or the level or value of a Benchmark is otherwise unavailable or cannot be used as provided for in the Conditions of the W&C Securities on any relevant day; or
- (2) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of a relevant Benchmark or the administrator or sponsor of a relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that the Issuer or the Calculation Agent or any Hedging Party or any other entity is not, or will not be, permitted under any applicable

law or regulation to use the relevant Benchmark to perform its or their respective obligations under the W&C Securities or maintain relevant hedging arrangements; or

- (3) a Benchmark has been superseded or is no longer the industry standard for transactions that would previously have referenced such Benchmark, as a matter of law, regulation, market practice or based upon any official announcement of, or protocol published by, any industry body, including, without limitation, the International Swaps and Derivatives Association, Inc. (ISDA) and any committee sponsored by or constituted at the request of a central bank or any supervisory authority which is responsible for supervising the administrator of the Benchmark; or
- (4) (i) it is not commercially reasonable to continue the use of the relevant Benchmark in connection with the W&C Securities or any hedging arrangements from the perspective of the Issuer or the Calculation Agent or a Hedging Party or (ii) the Issuer or the Calculation Agent suffers or will suffer an increased cost as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Calculation Agent or any Hedging Party or any other entity is required to hold a valid licence in order to issue or perform its obligations in respect of the W&C Securities or any hedging arrangements and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence); or
- (5) the regulatory supervisor for the administrator and/or sponsor of a relevant Benchmark (i) has determined and announced that the relevant Benchmark is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality it is intended to measure and representativeness will not be restored and (ii) is aware that certain contractual triggers for fallbacks activated by pre-cessation announcements by such supervisor (howsoever described) in contracts have been or are engaged.

- (ii) the provision of such Benchmark or its publication is or is reasonably likely to be permanently or indefinitely cancelled or such provision ceases or is reasonably likely to cease; or

(iii) a regulator or other official sector entity prohibits the use of such Benchmark.

Benchmarks Regulation means the EU Benchmarks Regulation (Regulation (EU) 2016/1011) or such Regulation as it forms part of retained EU law as defined in the European Union (Withdrawal) Act 2018 (as that Act is amended from time to time).

Early Cancellation Amount means, in respect of a W&C Security, the fair market value of such W&C Security (calculated, only in the case of an early cancellation following the occurrence of an Event of Default, without regard to the creditworthiness of the Issuer or the Guarantor (in the case of Guaranteed W&C Securities) at the relevant time) less any Associated Costs, as determined by the Calculation Agent in its discretion.

Fixed Rate means an amount, percentage, rate or value which in the determination of the Calculation Agent it is appropriate to substitute for references to the amount, percentage, rate or value of the Affected Benchmark in the Conditions in order to represent the fair market value of the *pro rata* share the Affected Benchmark represents within the W&C Securities' fair market value adjusted further to take into account Replacement Related Costs. In determining the fair market value of the Securities, the Calculation Agent will take into account all factors which the Calculation Agent determines relevant, including without limitation and if applicable, the circumstances of the relevant Administrator/Benchmark Event.

Where the Affected Benchmark is an interest rate (howsoever described) then in making such determination the Calculation Agent shall have regard to any index, benchmark or other price source formally recommended for use by the administrator of the Affected Benchmark or any index, benchmark or other price source which is formally recommended for use by any of (a) the central bank for the currency most closely associated with the Affected Benchmark or any central bank or other supervisor which is responsible for supervising either the Affected Benchmark or the administrator of the Affected Benchmark or (b) any working group or committee officially endorsed or convened by (i) the central bank for the currency most closely associated with the Affected Benchmark, (ii) any central bank or other supervisor which is responsible for supervising either the Affected Benchmark or the administrator of the Affected Benchmark, (iii) a group of those banks or other supervisors or (iv) the Financial Stability Board Provided That in each case the Calculation Agent will not be required to select any such index, benchmark or other price source if this would not reflect the hedging arrangements (if any) maintained by the Hedging Party in relation to the Affected Benchmark for purposes of the W&C Securities or would otherwise not be commercially appropriate for any reason for purposes of the W&C Securities, all as determined by the Calculation Agent.

Replacement Related Costs means an amount per W&C Security equal to its *pro rata* share of the total amount of any and all costs associated or incurred by the Issuer and/or Hedging Party in connection with replacing the Affected Benchmark with a Replacement Benchmark or Fixed Rate, including, without limitation, any costs associated with unwinding, substituting, re-establishing and/or

incurring any funding costs relating to the proportion the Affected Benchmark represents of the overall W&C Securities' value and/or any costs associated with unwinding, substituting, re-establishing and/or incurring any hedging arrangements relating to the proportion the Affected Benchmark represents of the overall W&C Securities value and/or any related licensing costs, all as determined by the Calculation Agent.

5.4 Inconvertibility Event

5.4.1 *Consequences of an Inconvertibility Event*

Unless Inconvertibility Event is specified as "Not Applicable" in the applicable Final Terms, if an Inconvertibility Event occurs at any time on or after the Trade Date, the Issuer may (at its option and acting reasonably) instruct the Calculation Agent to make such determinations under and/or adjustments to the Conditions of the W&C Securities as the Calculation Agent may determine appropriate to account for the Inconvertibility Event, including to take into account any and all amounts, costs and expenses associated with such Inconvertibility Event or incurred by the Issuer and/or its Affiliates and/or their agents and/or service providers resulting from the Inconvertibility Event in relation to the W&C Securities (including any related hedging arrangements) (**Relevant Costs**). The Calculation Agent is permitted to make any such determinations and adjustments which may include, but are not limited to:

- (A) payments under the W&C Securities being made in any Relevant Currency (a **Replacement Relevant Currency**) other than that which is specified for payment in the Final Terms and any consequential adjustments to account for this, including, without limitation, determination of any relevant Settlement Rate;
- (B) deduction of an amount from payment or delivery amounts otherwise due to Securityholders under the relevant W&C Securities, to account for any increase in Relevant Costs;
- (C) determination by the Calculation Agent of any relevant Settlement Rate at any such time(s) as the Calculation Agent deems appropriate (including, where relevant, for the purposes of (A) above), provided that the determination of such Settlement Rate by the Calculation Agent shall not restrict the Calculation Agent from selecting other alternative Settlement Rate(s) in connection with the W&C Securities from time to time. The Calculation Agent may determine any such Settlement Rate by reference to any such source(s) and methodology(ies) as it determines appropriate in its sole discretion (which will include, without limitation and where relevant, any related hedging arrangements) taking into consideration all available information that it deems relevant, in good faith;
- (D) non-payment or non-delivery of any relevant payment or amount otherwise due under the W&C Securities and delay of such payment or delivery and, if applicable, determination of any relevant Settlement Rate until such time as the relevant Inconvertibility Event has ceased provided that, if the Inconvertibility Event continues to exist for more than 365 days (or such lesser number of days as the Calculation Agent selects as would fall immediately prior to the due date for settlement of the W&C Securities), the provisions of paragraph (E) below shall apply; and/or
- (E) regardless of whether or not the Calculation Agent has first applied the provisions of any of the above paragraphs, a determination that each W&C Security will be cancelled by the Issuer at the Early Cancellation Amount, with the relevant payments in respect of such cancellation being made in the manner and the Relevant Currency specified in the relevant notice provided to Securityholders.

Once determined, the Calculation Agent will give notice of any such determinations and/or adjustments to the Issuer and the Issuer shall take such additional actions as it considers necessary to effect such determinations and/or adjustments, and shall give notice to Securityholders in relation to all such determinations and/or adjustments, in accordance with W&C Securities Condition 9. The Calculation Agent may make one or more adjustments or determinations in relation to the same Inconvertibility Event and will not be limited in its ability to select any adjustment or determination it may previously have made in relation to the same or a similar Inconvertibility Event.

For the avoidance of doubt, the above provisions are additional, and without prejudice, to any other terms of the W&C Securities. In the event that other consequences could apply under any such other terms in relation to an event or occurrence which would constitute an Inconvertibility Event, including but not limited to, the provisions of Condition 4.10, the Issuer shall not be restricted from exercising any other rights it holds and, in exercising its rights under this Condition 5.4, shall not be deemed to have waived its rights under any other terms of the W&C Securities. The Issuer may determine which terms shall apply in its sole discretion acting in good faith and may consult with the Calculation Agent or any Hedging Party and may (but is not obliged to) take into account the approach to the relevant event or circumstance taken under any related hedging arrangements.

7. PURCHASES

The Issuer, the Guarantor and any of their Affiliates, may, but is not obliged to, at any time purchase W&C Securities at any price in the open market or by tender or private treaty. Any W&C Securities so purchased may be held or resold or surrendered for cancellation; however, W&C Securities represented by a Rule 144A Global W&C Security so purchased may only be resold pursuant to Rule 144A.

8. AGENTS

8.1 Agents

The Issuer reserves the right at any time to vary or terminate the appointment of any Agent and to appoint further or additional Agents, provided that no termination of appointment of the Principal Agent shall become effective until a replacement Principal Agent shall have been appointed and provided that, so long as any of the W&C Securities are listed on a stock exchange, there shall be an Agent having a specified office in each location required by the rules and regulations of the relevant listing authority and, provided that, so long as any of the W&C Securities are represented by a Rule 144A Global W&C Security held through DTC, there shall be a New York Security Agent. Notice of any termination of appointment and of any changes in the specified office of any Agent will be given to Securityholders in accordance with Condition 9 provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such termination or changes. In acting under the Agency Agreement, each Agent acts solely as agent of the Issuer and (in the case of Guaranteed W&C Securities) the Guarantor and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders and any Agent's determinations and calculations in respect of the W&C Securities shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Guarantor (in the case of Guaranteed W&C Securities) and the Securityholders.

The Agency Agreement may be amended by the parties thereto, but without the consent of the Securityholders, for the purpose of curing any ambiguity or of curing, correcting or supplementing any defective provision contained therein or in any manner which the parties may mutually deem necessary or desirable and which shall not be materially prejudicial to the interests of the Securityholders.

8.2 Calculation Agent

8.2.1 Status of the Calculation Agent

8.2.1.1 Determinations

In relation to each issue of W&C Securities, the Calculation Agent (whether it be Nomura International plc or another entity) acts solely as agent of the Issuer and (in the case of Guaranteed W&C Securities) the Guarantor and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. All calculations and determinations made in respect of the W&C Securities by the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Guarantor (in the case of Guaranteed W&C Securities) and the Securityholders. The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

8.2.1.2 Exercise of discretion

In exercising its discretion under the Conditions, the Calculation Agent shall act in good faith and in a commercially reasonable manner. In doing so, the Calculation Agent may take into account such factors as it determines appropriate in each case, which may include in particular any circumstances or events which have or may have a material impact on the hedging arrangements entered into by the Issuer and/or a Hedging Party in respect of the W&C Securities. The exercise of the Calculation Agent's discretion under the Conditions are necessary because certain circumstances or events (for example but without limitation a material modification or disruption to the underlying asset or reference basis to which the

W&C Securities are linked) may occur subsequent to the issuance of the W&C Securities which may materially affect the costs to the Issuer and/or a Hedging Party of maintaining the relevant W&C Securities or relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the W&C Securities. In addition, as a result of certain circumstances or events (for example but without limitation the unavailability or material disruption to any reference source) it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of the underlying asset or otherwise in connection with the W&C Securities, and thus making it necessary for the Calculation Agent to exercise its discretion in such a case. As used herein, **Hedging Party** means the Issuer and/or any Affiliate and/or any other party which conducts hedging arrangements in respect of the Issuer's obligations under the W&C Securities from time to time. Such hedging arrangements may be carried out on a portfolio basis (i.e. where the hedging party maintains arrangements for hedging the Securities together with other obligations of the Issuer or its Affiliates). As used herein, **hedging arrangements** means the arrangements, if any, the Issuer makes to have available to it the relevant cash amounts or assets to be paid or delivered under the W&C Securities as these fall due. This may involve the Issuer and/or a Hedging Party investing directly in the underlying asset(s) or reference basis to which the W&C Securities are linked. Alternatively, the Issuer and/or a Hedging Party may make an indirect investment by entering into or acquiring a derivative contract referencing the underlying asset(s) or reference basis to which the W&C Securities are linked. The Issuer will select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates. The Issuer and/or a Hedging Party may also adjust hedging arrangements from time to time but will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements. For the avoidance of doubt, the Issuer is under no obligation to enter into any hedging arrangements.

8.2.1.3 *Determinations of amounts payable or deliverable*

The Calculation Agent will employ the methodology described in these Conditions and, in the case of Exempt W&C Securities, the applicable Pricing Supplement to determine amounts payable or deliverable in respect of the W&C Securities. When making any such determination in relation to any amounts so payable or deliverable, the Calculation Agent may in its sole and absolute discretion consider any relevant information, which may but is not required to include, without limitation, one or more of the following:

- (i) quotations (either firm or indicative) supplied by one or more third parties or information sources;
- (ii) information consisting of relevant market data in the relevant markets supplied by one or more third parties or information sources including, without limitation, relevant rates, prices, yields, yield curves, volatilities, spreads correlation or other relevant market data in the relevant market;
or
- (iii) information of the types described in (i) or (ii) above from internal sources (including any Affiliates of the Calculation Agent) or other information of a type used by the Calculation Agent in the regular course of its business or in connection with similar transactions.

The Calculation Agent's determination in the application of such methodology or of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent under the Securities shall be final, conclusive and binding on the Issuer, the Guarantor (as applicable) and the Securityholders except in the case of manifest error.

Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or discretions under the Securities including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion.

8.2.1.4 *Modifications*

Without prejudice to the provisions of Conditions 8.2.1.2, 8.2.1.3 or 12 or any Technical Annex, the Calculation Agent shall be free to modify the methodology described in these Conditions from time to time as it, deems appropriate in response to any market, regulatory, juridical, fiscal or other circumstances which may arise which, in the opinion of the Calculation Agent, necessitates a modification or change of such methodology, or for the purposes of (i) curing any ambiguity or correcting or supplementing any provision of the Conditions, (ii) accounting for any change in the basis on which any relevant values, levels or information is calculated or provided which would materially change the commercial effect of any provision or provisions of the Conditions or (iii) replacing any information provider or source. Any modification made by the Calculation Agent pursuant to the Condition 8.2.1.4 shall be notified to Holders by the Calculation Agent in accordance with Condition 9 below.

8.2.1.5 *Disclaimer of liability*

The Calculation Agent makes no express or implied representations or warranties as to (a) the advisability of investing in or obtaining exposure to the W&C Securities, (b) the value of the W&C Securities at any particular time on any particular date, or (c) any amounts that may become payable or deliverable in respect of the W&C Securities. The Calculation Agent shall not act as agent or trustee for the Securityholders.

Without limiting any of the foregoing, in no event shall the Calculation Agent have any liability (whether in negligence or otherwise) to any Securityholders for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

8.2.2 **Conflict of Interest**

In addition to providing calculation agency services to the Issuer, the Calculation Agent or any of its Affiliates may perform further or alternative roles relating to the Issuer, the Guarantor and any series of W&C Securities including, but not limited to, for example, being involved in arrangements relating to any of the underlying reference assets or bases (for example as a calculation agent or, in the case of a proprietary index for example, as index sponsor). Furthermore, the Calculation Agent or any of its Affiliates may contract with the Issuer or the Guarantor (as applicable) and/or enter into transactions which relate to the Issuer,

the Guarantor (as applicable), the W&C Securities or any of the underlying reference assets or bases and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, none of the Issuer, the Guarantor (as applicable) or the Calculation Agent in respect of the W&C Securities shall owe any duty or responsibility to any Securityholder to avoid any conflict or to act in the interests of any Securityholder.

8.3 Determinations by the Issuer or the Guarantor

In exercising its discretion under the Conditions, the Issuer or (in the case of Guaranteed W&C Securities) the Guarantor shall act in good faith and in a commercially reasonable manner. The exercise of the Issuer's or the Guarantor's discretion, as applicable, under the Conditions are necessary because certain circumstances or events (e.g. material modification or disruption to the underlying asset or reference to which the W&C Securities are linked) may occur subsequent to the issuance of the W&C Securities which may materially affect the costs to the Issuer and/or a Hedging Party of maintaining the relevant W&C Securities or relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the W&C Securities. In addition, as a result of certain circumstances or events (e.g. unavailability or material disruption to any reference source), it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of the underlying asset or otherwise in connection with the W&C Securities, and thus making it necessary for the Issuer or the Guarantor, as applicable, to exercise their discretion in such a case.

The Issuer's ability to perform its obligations under the W&C Securities may be hedged by the Issuer entering into certain hedging arrangements with a Hedging Party. In relation to the discretion of the Issuer in respect of the method of settlement under the Conditions, the exercise of any such discretion is necessary to enable the Issuer to settle the W&C Securities taking in to account its hedging arrangements. Certain events (e.g. failure by the Hedging Party to deliver the relevant underlying assets) beyond the control of the Issuer may occur and such events may materially increase the costs of the Issuer to perform its obligations under the W&C Securities.

Any determination made by the Issuer or the Guarantor, as applicable, pursuant to the Conditions shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Guarantor (if any) and the Securityholders.

9. NOTICES

All notices regarding the W&C Securities will be deemed to be validly given if sent by first class mail or (if posted to an address overseas) by airmail to the holders (or the first named of joint holders) at their respective addresses recorded in the Register and will be deemed to have been given on the fourth day after mailing. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or other relevant authority on which the W&C Securities are for the time being listed or by which they have been admitted to trading.

Until such time as any definitive W&C Securities are issued, there may, so long as any Global W&C Securities representing the W&C Securities are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg and/or DTC, be substituted for such mailing the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or DTC for communication by them to the holders of the W&C Securities. Any such notice shall be deemed to have been given to the holders of the W&C Securities on the second day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg and/or DTC.

Notices to be given by any Securityholder shall be in writing and given by lodging the same, together (in the case of any W&C Security in definitive form) with the relative W&C Security or W&C Securities, with the Principal Agent, New York Security Agent or any person appointed by them to

maintain the relevant register of holders of such Series of W&C Securities. Whilst any of the W&C Securities are represented by a Global W&C Security, such notice may be given by any holder of a W&C Security to the Principal Agent or the New York Security Agent, as applicable, through Euroclear and/or Clearstream, Luxembourg and/or DTC, as the case may be, in such manner as the Principal Agent, the New York Security Agent and Euroclear and/or Clearstream, Luxembourg and/or DTC, as the case may be, may approve for this purpose.

10. EXPENSES AND TAXATION

A holder of W&C Securities must pay all Exercise Expenses relating to such W&C Securities as provided in Condition 4.1 above.

Neither the Issuer nor (in the case of Guaranteed W&C Securities) the Guarantor shall be liable for or otherwise obliged to pay any tax, duty, withholding or other payment (including any stamp or transfer tax or any withholding or deduction required pursuant to Section 871(m) of the Code or any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto), which may arise as a result of the ownership, transfer, exercise or enforcement of any W&C Security by any person, and all payments made by the Issuer or (in the case of Guaranteed W&C Securities) the Guarantor shall be made subject to any such tax, duty, withholding, deduction or other payment which may be required to be made, paid, withheld or deducted.

11. FURTHER ISSUES

The Issuer shall be at liberty from time to time without the consent of Securityholders to create and issue further W&C Securities having terms and conditions the same as the W&C Securities or the same in all respects save for the issue price, as the case may be, and the issue date thereof and so as to be consolidated with and form a single Series with the outstanding W&C Securities.

12. MEETINGS OF SECURITYHOLDERS AND MODIFICATIONS

The Agency Agreement contains provisions for convening meetings (including by way of conference call or by use of a videoconference platform) of the Securityholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the W&C Securities or any of the provisions of the Agency Agreement. Such a meeting may be convened by the Issuer or (in respect of Guaranteed W&C Securities) the Guarantor and shall be convened by the Issuer if required in writing by the Securityholders holding not less than 10 per cent. (by number) of the W&C Securities for the time being remaining unexercised. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons present and holding or representing a clear majority (by number) of the W&C Securities for the time being outstanding, or at any adjourned meeting one or more persons present whatever the number of the W&C Securities so held or represented by them, except that at any meeting the business of which includes the modification of certain provisions of the Conditions of the W&C Securities (including modifying any Exercise Date, reducing or cancelling the Cash Settlement Amount or the Entitlement or altering the Settlement Currency), the quorum shall be one or more persons present and holding or representing not less than two-thirds (by number) of the W&C Securities of the time being outstanding, or at any adjourned such meeting one or more persons present and holding or representing not less than one-third (by number) of the W&C Securities for the time being outstanding. The Agency Agreement provides that (i) a resolution passed at a meeting duly convened and held in accordance with the Agency Agreement by a majority consisting of not less than three-fourths of the votes cast on such resolution, (ii) a resolution in writing signed by or on behalf of the holders of not less than three-fourths in number of the W&C Securities for the time being outstanding or (iii) consent given by way of electronic consents through

the relevant clearing system(s) (in a form satisfactory to the Principal Agent) by or on behalf of the holders of not less than three-fourths in number of the W&C Securities for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Securityholders. An Extraordinary Resolution passed at any meeting of the Securityholders shall be binding on all Securityholders, whether or not they are present at the meeting. For the purposes of the provisions for convening meetings of the Securityholders, any W&C Securities which are for the time being held by or for the benefit of the Issuer or (in the case of Guaranteed W&C Securities) the Guarantor or any of their Affiliates shall (unless and until ceasing to be so held) be deemed not to remain outstanding.

The Issuer, without the consent of the Securityholders, may modify the Conditions in any manner which the Issuer may deem necessary or desirable provided that such modification (i) is not, in the sole opinion of the Issuer, materially prejudicial to the interests of the Securityholders or (ii) is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law. Any such modification shall be binding on the Securityholders and any such modification shall be notified to the Securityholders in accordance with Condition 9 as soon as practicable thereafter, provided that failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

13. SUBSTITUTION

14. **CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999**

No person shall have any right to enforce any term or condition of the W&C Securities by virtue of the Contracts (Rights of Third Parties) Act 1999 but this does not affect any right or remedy of any reason which exists or is available apart from that Act.

15. **SEVERABILITY**

Should any of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not be affected in any way.

16. **GOVERNING LAW AND SUBMISSION TO JURISDICTION**

16.1 **Governing law**

The Agency Agreement, the Guarantee, the Deed of Covenant, the W&C Securities, and any non contractual obligations arising out of or in connection with the Agency Agreement, the Guarantee, the Deed of Covenant and the W&C Securities, are governed by and shall be construed in accordance with, English law.

16.2 **Submission to jurisdiction**

16.2.1 The English courts have exclusive jurisdiction to settle any disputes arising out of or in connection with the W&C Securities including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the W&C Securities (a **Dispute**) and all Disputes will be submitted to the exclusive jurisdiction of the English courts.

16.2.2 For the purposes of the Condition 16.2, the Issuer waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.

16.3 **Process Agent for the Guarantors**

Each Guarantor irrevocably appoints Nomura International plc at its registered office at 1 Angel Lane, London EC4R 3AB as its agent for service of process in any proceedings before the English courts in relation to any Dispute, and agrees that, in the event of Nomura International plc being unable or unwilling for any reason so to act, it will immediately appoint another person as its agent for service of process in respect of any Dispute. Each Guarantor agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing herein shall affect the right to serve process in any other manner permitted by law.

16.4 Exercise of Bail-in Power

For the avoidance of doubt, this Condition 16.4, shall only apply to W&C Securities issued by the Issuer and designated as "Swedish W&C Securities", "Finnish W&C Securities" or "Swiss W&C Securities", as applicable, in the applicable Final Terms.

Notwithstanding and to the exclusion of any other term of the W&C Securities or any other agreements, arrangements, or understandings between the Issuer and any Securityholder, by its acquisition of the W&C Securities, each Securityholder (which, for the purposes of this clause, includes each holder of a beneficial interest in the W&C Securities), acknowledges and accepts that the Amounts Due arising under the W&C Securities may be subject to the exercise of Bail-in Powers by the relevant UK resolution authority, and acknowledges, accepts, consents and agrees to be bound by:

- (a) the effect of the exercise of Bail-in Power by the relevant UK resolution authority, that may include and result in any of the following, or some combination thereof:
 - (i) the reduction of all, or a portion, of the Amounts Due;
 - (ii) the conversion of all, or a portion, of the Amounts Due on the W&C Securities into shares, other securities or other obligations of the Issuer or another person (and the issue to or conferral on the Securityholder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the W&C Securities;
 - (iii) the cancellation of the W&C Securities;
 - (iv) the amendment or alteration of the maturity of the W&C Securities or amendment of the amount of interest payable on the W&C Securities, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and/or
- (b) the variation of the terms of the W&C Securities, if necessary, to give effect to the exercise of Bail-in Power by the relevant UK resolution authority.

For these purposes:

Amounts Due are all amounts due on the W&C Securities. References to such amounts will include amounts that have become due and payable, but which have not been paid, prior to the exercise of Bail-in Power by the relevant UK resolution authority.

Bail-in Power means any write-down, conversion, transfer, modification, or suspension power existing from time to time under, and exercised in compliance with, any laws, regulations, rules or requirements in effect in the United Kingdom, relating to the transposition of Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**) as amended from time to time, including but not limited to the Banking Act 2009 as amended from time to time, and the instruments, rules and standards created thereunder, pursuant to which:

- (i) any obligation of a regulated entity (or other affiliate of such regulated entity) can be reduced, cancelled, modified, or converted into shares, other securities, or other obligations of such regulated entity or any other person (or suspended for a temporary period); and

- (ii) any right in a contract governing an obligation of a regulated entity may be deemed to have been exercised.

A reference to a **regulated entity** is to any BRRD Undertaking as such term is defined under the PRA Rulebook promulgated by the United Kingdom Prudential Regulation Authority, as amended from time to time, which includes, certain credit institutions, investment firms, and certain of their parent or holding companies.

No repayment or payment of Amounts Due on the W&C Securities, will become due and payable or be paid after the exercise of any Bail-in Power by the relevant UK resolution authority if and to the extent such amounts have been reduced, converted, cancelled, amended or altered as a result of such exercise.

Neither a reduction or cancellation, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the Issuer or another person, as a result of the exercise of the Bail-in Power by the relevant UK resolution authority with respect to the Issuer, nor the exercise of the Bail-in Power by the relevant UK resolution authority with respect to the W&C Securities will be an Event of Default.

Upon the exercise of the Bail-in Power by the relevant UK resolution authority with respect to the W&C Securities, the Issuer will provide notice to Securityholders in accordance with the Conditions as soon as practicable regarding such exercise of the Bail-in Power. The Issuer will also deliver a copy of such notice to the Agents for information purposes.

17. **REDENOMINATION**

The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of the Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange.

2.3 If the Calculation Agent determines that **Security Distribution Adjustment** applies, then the Calculation Agent will determine the basis on which additional Securities will be made available to Securityholders to account for the diluting effect of the relevant Potential Adjustment Event (which may include, without limitation, determining one or more of the matters referred to in paragraph 2.5 below).

In each case the Security Distribution Adjustment may be made on different terms and different dates than the relevant event to which the Potential Adjustment Event relates:

 - (ii) the aggregate number of additional Securities to be delivered to the relevant Clearing Systems or otherwise made available for the account of Securityholders;
 - (iii) arrangements for payment by Securityholders or deduction by the Issuer of any amounts on account of taxes, duties and/or expenses, including any applicable depository charges, transaction charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties, as may be relevant, arising in connection with the delivery of such additional Securities (which may include the Issuer reducing the number of additional Securities to be delivered and/or requiring such amounts to be paid by Securityholders as a precondition to receiving additional Securities);
 - (iv) whether entitlement to additional Securities is to be made on the basis of the aggregate number of Securities held by a Securityholder or on a per Security basis and whether, in respect of any holding(s) of Securities by the Issuer and/or any of its Affiliates, any such party(ies) is to waive its entitlement to receive any additional Securities in respect of any such holding(s); and
 - (v) whether, in order to reflect the relevant Potential Adjustment Event and any terms to which holders of the Shares are subject, Securityholders will be required to pay any subscription price or other amount in order to obtain the additional Securities and/or the time period during which the offer of additional Securities will remain open.
- 2.6 For the avoidance of doubt, if Security Distribution Adjustment applies, the Issuer may rely on W&C Securities Condition 11 for the purposes of issuing additional Securities for delivery."

In the case of Index Linked N&C Securities which are not Exempt N&C Securities or Index Linked W&C Securities which are not Exempt W&C Securities, in the event of any inconsistency between (i) the N&C Securities Conditions or the W&C Securities Conditions, as applicable, and (ii) the Index Linked Conditions, the N&C Securities Conditions or the W&C Securities Conditions, as applicable, shall prevail. In the event of any inconsistency between (i) the N&C Securities Conditions, the W&C Securities Conditions and/or the Index Linked Conditions and (ii) the applicable Final Terms, the applicable Final Terms shall prevail. References in the Index Linked Conditions to "Security" and "Securities" shall be deemed to be references to "N&C Security" and "N&C Securities" or "W&C Security" and "W&C Securities" as the context admits.*

1. Consequences of Disrupted Days

If, in respect of any Index, the Calculation Agent determines that any Valuation Date or Averaging Date is a Disrupted Day, then

1.1 Single Index Valuation Dates:

in the case of Index Linked Securities relating to a single Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to such Index, provided that (A) such day shall not be later than the Disruption Cut-Off Date, notwithstanding that such day may be a Disrupted Day in respect of such Index and (B) in this case the Calculation Agent shall determine the level of that Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price or such other level or value as the Calculation Agent determines to be appropriate as of the Valuation Time on the Disruption Cut-Off Date of each relevant Component Asset (or, if an event giving rise to a Disrupted Day has occurred or is continuing in respect of the relevant Component Asset on the Disruption Cut-Off Date, its good faith estimate of the value for the relevant Component Asset as of the Valuation Time on the Disruption Cut-Off Date).

1.2 Index Basket/Mixed Basket Valuation Dates:

in the case of Index Linked Securities relating to an Index Basket or a Mixed Basket, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the scheduled Valuation Date and the Valuation Date for each Index affected by the occurrence of a Disrupted Day (for the purposes of this Index Linked Condition 1.2, each an **Affected Index**) shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Index, provided that (A) such day shall not be later than the Disruption Cut-Off Date, notwithstanding that such day is a Disrupted Day in respect of the Affected Index and (B) in this case the Calculation Agent shall determine the level of the Affected Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with the formula for and method of calculating the Affected Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price or such other level or value as the Calculation Agent determines to be appropriate as of the Valuation Time on the Disruption Cut-Off Date of each relevant Component Asset (or, if an event giving rise to a Disrupted Day has occurred or is continuing in respect of the relevant Component Asset on the Disruption Cut-Off Date, its good faith estimate of the value for the relevant Component Asset as of the Valuation Time on the Disruption Cut-Off Date).

1.3 Single Index/Index Basket/Mixed Basket Averaging Dates:

where the Securities are related to a single Index or are related to an Index Basket or a Mixed Basket and "Scheduled Trading Day (Single Index Basis)" or "Scheduled Trading Day (Per Index Basis)" is specified as applicable in the applicable Final Terms and the Calculation Agent determines that any Averaging Date is a Disrupted Day in respect of any Index, and in the relevant Final Terms the consequence specified is:

(a) Omission,

then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant level or value provided that, if through the operation of this provision no Averaging Date would occur, then the provisions of Index Linked Condition 1.1 above (*Consequences of Disrupted Days – Single Index Valuation Dates*) or Index Linked Condition 1.2 (*Consequences of Disrupted Days – Index Basket/Mixed Basket Valuation Dates*) as applicable will apply for purposes of determining the relevant level or value on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day;

(b) Postponement,

then the provisions of Index Linked Condition 1.1 above (*Consequences of Disrupted Days – Single Index Valuation Dates*) or Index Linked Condition 1.2 (*Consequences of Disrupted Days – Index Basket/Mixed Basket Valuation Dates*) will apply for the purposes of determining the relevant level or value on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or

(c) Modified Postponement,

then the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Disruption Cut-Off Date, then

- (i) that Disruption Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Disruption Cut-Off Date is already or is deemed to be an Averaging Date), and

- (ii) the Calculation Agent shall determine the level or value of the Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with Index Linked Condition 1.1 above (*Consequences of Disrupted Days – Single Index Valuation Dates*) or Condition 1.2 (*Consequences of Disrupted Days – Index Basket/Mixed Basket Valuation Dates*) above as applicable and such determination by the Calculation Agent shall be deemed to be the relevant level or value for such Index in respect of the relevant Averaging Date.

If the Calculation Agent determines that any Averaging Date in respect of Indices to which this Index Linked Condition 1.3 relates is a Disrupted Date and, if in the Final Terms no consequence is specified, then "Modified Postponement" will apply.

1.4 Index Basket/Mixed Basket Averaging Dates:

Where the Securities are related to an Index Basket or a Mixed Basket and "Scheduled Trading Date (All Indices Basis)" is specified as applicable in the applicable Final Terms and the Calculation Agent determines that any Averaging Date is a Disrupted Day, and in the relevant Final Terms the consequence specified is:

- (a) Omission,

then the Averaging Date will be deemed not to be an Averaging Date, provided that, if through the operation of this provision there would be no Averaging Date, then

- (i) the sole Averaging Date for each Index which the Calculation Agent determines is not affected by the occurrence of a Disrupted Day shall be the originally designated final Averaging Date (the **Scheduled Final Averaging Date**); and
- (ii) the sole Averaging Date for each Index which the Calculation Agent determines is affected by the occurrence of a Disrupted Day (each an **Affected Index**) shall be the first Scheduled Trading Day following the Scheduled Final Averaging Date that is not a Disrupted Day relating to the Affected Index unless each of the Scheduled Trading Days immediately following the Scheduled Final Averaging Date which (but for the occurrence of the Disrupted Day) would have been the Averaging Date, until and including the Disruption Cut-Off Date, is a Disrupted Day relating to the Affected Index. In that case,
 - (A) that Disruption Cut-Off Date shall be deemed to be the sole Averaging Date in respect of the Affected Index, notwithstanding the fact that such day is a Disrupted Day; and
 - (B) the Calculation Agent shall determine the relevant level or value of the Affected Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with Index Linked Condition 1.2 above (*Consequences of Disrupted Days – Index Basket/Mixed Basket Valuation Dates*) above and such determination by the Calculation Agent shall be deemed to be the relevant level or value for such Index in respect of the sole Averaging Date;

- (b) Postponement, then the Averaging Date for each Index shall be the first succeeding Scheduled Trading Day following the originally designated Averaging Date (the **Scheduled Averaging Date**) that is not a Disrupted Day in relation to any Affected Index (irrespective of whether, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date) unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days, until and including the Disruption Cut-Off Date, is a Disrupted Day in respect of any Index (for the purposes of this Index Linked Condition 1.4(b), each an **Affected Index**). In that case:

- (A) that Disruption Cut-Off Date shall be deemed to be such Averaging Date in respect of each Index (irrespective of whether the Disruption Cut-Off Date is already or is deemed to be an Averaging Date); and
 - (B) the Calculation Agent shall determine the relevant level or value of each Index as of the Valuation Time on the Disruption Cut-Off Date which in the case of an Affected Index will be determined in accordance with Index Linked Condition 1.2 above (Consequences of Disrupted Days – Index Basket/Mixed Basket Valuation Dates) above and such determination by the Calculation Agent shall be deemed to be the relevant level or value for such Index in respect of the relevant Averaging Date; or
- (c) Modified Postponement, then
- (i) the Averaging Date for each Index which the Calculation Agent determines is not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the **Scheduled Averaging Date**); and
 - (ii) the Averaging Date for each Index which the Calculation Agent determines is affected by the occurrence of a Disrupted Day (each an **Affected Index**) shall be the first succeeding Valid Date in relation to the Affected Index. If the first succeeding Valid Date in respect of the Affected Index has not occurred as of the Valuation Time on the Disruption Cut-Off Date, then:
 - (A) that Disruption Cut-Off Date shall be deemed to be the Averaging Date in respect of the Affected Index (irrespective of whether the Disruption Cut-Off Date is already or is deemed to be an Averaging Date); and
 - (B) the Calculation Agent shall determine the relevant level or value of the Affected Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with Index Linked Condition 1.2 (*Consequences of Disrupted Days – Index Basket/Mixed Basket Valuation Dates*) above and such determination by the Calculation Agent shall be deemed to be the relevant level in respect of the relevant Averaging Date.

If the Calculation Agent determines that any Averaging Date is a Disrupted Day and, if in the Final Terms no consequence is specified, then "Modified Postponement" will apply.

1.5 Notice

The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, of the occurrence of a Disrupted Day on any day on which any Index valuation or obligation is scheduled to occur, provided that any failure to give, or non-receipt of such notice will not affect the validity of such Disrupted Day.

2. Adjustments to an Index

(a) *Successor Index*

If a relevant Index is not calculated and announced by the relevant Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the **Successor Index**) will be deemed to be the relevant Index.

The Calculation Agent may make such adjustment(s) that it determines appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Securities to account for that Successor Index.

(b) *Index Adjustment Event*

If (i) on or prior to any date on which any Index valuation or obligation is scheduled to occur, a relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain the relevant Index in the event of changes in constituent stock and capitalisation and other routine events) (an **Index Modification**) or permanently cancels the relevant Index and no Successor Index exists (an **Index Cancellation**), (ii) on any relevant date on which any Index valuation or observation is scheduled to occur, an Index Sponsor fails to calculate and announce the relevant Index (an **Index Disruption** (provided that the Calculation Agent may, in its discretion, determine that such event instead results in the occurrence of a Disrupted Day) or (iii) at any time an Index Restriction Event occurs, then the Issuer may take the action described in (A), (B), (C), (D) or (E) below as it determines appropriate:

- (A) require the Calculation Agent to determine if such Index Adjustment Event has a material effect on the Securities and, if so, require the Calculation Agent to determine any relevant adjustment to be made to the Conditions to account for the relevant Index Adjustment Event, which may include, without limitation, (i) delaying any Valuation Date, Averaging Date or any other date for Index valuation or observation until the relevant Index Adjustment Event no longer exists, or (ii) in the case of an Index Basket or Mixed Basket, removing the affected Index from the Index Basket or Mixed Basket and making such adjustment to the Securities as it determines appropriate (which may, without limitation, include adjusting any value or weighting of the remaining Indices) in order to account for the level or value of the affected Index at the time of its removal as well as the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements (this may mean that the economic benefit of the Securities for the Holder is reduced or that the removal of the Index has a material adverse effect on the Securities);
- (B) require the Calculation Agent to replace any Index that is affected by an Index Adjustment Event with one or more successor indices (in each case any such replacement being a **Replacement Index**) (and as appropriate replace the Index Sponsor with the index sponsor in respect of the Replacement Index and make such adjustments to any other Conditions as the Calculation Agent considers relevant to account for such replacement in accordance with Index Linked Condition 2(c) below), whereupon the Replacement Index(ices) will be deemed to be the successor(s) to the relevant Index and will take effect from the date of such replacement, provided however that the selection of a Replacement Index will be made by the Calculation Agent in accordance with the Index Replacement Criteria. Thereafter, all references to the relevant Index or Index Sponsor (as applicable) shall be deemed to be references to such relevant replacements;
- (C) other than following the occurrence of an Index Restriction Event, require the Calculation Agent to determine the relevant level or value for the Index using, in lieu of a published level or value for the relevant Index, the level or value for that Index as at the relevant time as determined by the Calculation Agent in accordance with the formula for and method of calculating the relevant Index last in effect prior to the change, failure or cancellation, but using only those securities (or assets or other reference bases or Index components) that comprised that Index immediately prior to that Index Adjustment Event. Notwithstanding the foregoing, the Issuer will not require the Calculation Agent to calculate the relevant level for an Index in accordance with this paragraph (C) on more than one consecutive Valuation Date, Averaging Date or other relevant date for valuation or observation of the Index. If, following

the occurrence of an Index Adjustment Event, the Calculation Agent has already calculated the relevant level for an Index as described in this paragraph (C) on any Valuation Date, Averaging Date or other relevant date for valuation or observation of the Index, on or prior to the next date on which the Index falls to be valued thereafter, if the relevant Index Adjustment Event is continuing the Issuer may take any of the actions described in paragraphs (A) or (B) above or paragraphs (D) or (E) below;

- (D) in the case of an Index Basket or a Mixed Basket, and in respect of all but not some only of the Securities outstanding, redeem or cancel, as applicable, such portion (the **Relevant Portion**) of the nominal amount or amount of each Security then outstanding as corresponds to the then value or level of the Index or Indices that is or are affected by an Index Adjustment Event as a proportion of the total value or level of the Basket (in the determination of the Calculation Agent), in each case by payment of an amount equal to the product of (i) the Relevant Portion and (ii) the Early Redemption Amount or Early Cancellation Amount, as applicable, which the Calculation Agent determines would then apply (determined as if (E) below applied). Payment of any amounts in respect of such partial redemption or cancellation, as applicable, will be made in such manner as shall be notified to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and, for the avoidance of doubt, this provision (D) may apply to the Securities on more than one occasion and the remaining portion of the Securities shall in each case thereafter remain outstanding and the Calculation Agent may make such adjustments to the Conditions as it determines appropriate to reflect such partial redemption or cancellation; or
- (E) give notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and redeem or cancel all, but not some only, of the Securities, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount. Payment in respect of such early redemption or cancellation shall be made as specified in such notice to Securityholders.

(c) *Valuation of Replacement Indices*

For the purposes of any adjustments to account for a replacement as referred to in Index Linked Condition 2(b)(B) above, the Calculation Agent shall adjust the Strike Level or such values, levels, variables or terms for the valuation or observation of the Replacement Index in the terms of the Securities in order to account for the price or value of the affected Index at the time of its replacement as well as the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements. This may mean that the economic benefit, if any, of the replacement for the Holder is reduced or that the replacement has a material adverse effect on the Securities. For example, and without limitation, the relevant level or value of the Replacement Index may be adjusted by the same proportion as any fall in value of the affected Index at the time of the replacement relative to the Trade Date and may be further reduced to account for the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements.

3. Correction to an Index

If the level or value of an Index published on any Valuation Date, Averaging Date or any other date for Index valuation or observation, as the case may be, by the Index Sponsor and which is utilised for any calculation or determination made for the purposes of the Securities (a **Relevant Calculation**) is subsequently corrected and the correction (the **Corrected Index Level**) published by the Index Sponsor no later than two Business Days prior to the date of payment or delivery of any amount calculated by reference to the Relevant Calculation then the Calculation Agent may, but shall not be required to, treat such Corrected Index Level as the relevant level or value for such index on such Valuation Date, Averaging Date or other relevant date, as the case may be, and the Calculation Agent shall use such Corrected Index Level in determining the Relevant Calculation.

4. **Additional Disruption Events**

In the event that an Additional Disruption Event occurs as determined by the Calculation Agent, then the Calculation Agent shall either (a) (i) make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Calculation Agent determines appropriate to account for such Additional Disruption Event and (ii) determine the effective date of that adjustment, or (b) if the Calculation Agent determines that no adjustment that it could make under (a) will produce a commercially reasonable result, notify the Issuer thereof in which event the Issuer may redeem or cancel all but not some only of the Securities as of such date as the Calculation Agent shall determine by notice given to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount. Payment in respect of such early redemption or cancellation shall be made as specified in such notice to Securityholders.

If both Change in Law and Sanctions Event are specified as applicable in the relevant Final Terms, where an event or circumstance that would otherwise (but for this provision) constitute a Sanctions Event also constitutes a Change in Law, the Issuer may determine in its discretion whether to apply either or both or none of such provisions as appropriate.

5. **Definitions**

As used herein:

Additional Disruption Event means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging, in each case if specified in the applicable Final Terms.

Final Valuation Date means the date specified as such in the applicable Final Terms, or if such day is not a Scheduled Trading Day, the next following Scheduled Trading Day, unless, in the opinion of the Calculation Agent, such day is a Disrupted Day. - (a) any applicable legal restrictions; or
- (b) any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Calculation Agent, or any such other person is required to hold a valid licence in order to issue or perform its obligations in respect of the Securities and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence).

For the purposes of determining any Scheduled Trading Day where Futures Price Valuation applies in relation to any Index or (in the case of an Index Basket or Mixed Basket) any constituent Index, any reference to such Index or constituent Index in the definition of Scheduled Trading Day (Single Index Basis), Scheduled Trading Day (All Indices Basis), or Scheduled Trading Day (Per Index Basis), as applicable, will be deemed not to apply and instead (as well as fulfilling the relevant requirements of the relevant definition in relation to each other constituent Index (if any)), a Scheduled Trading Day must be a day on which the Official Settlement Price is published by the relevant Futures or Options Exchange:

- (i) in relation to each such Index to which Futures Price Valuation applies; or
- (ii) for the purposes of determining a Scheduled Trading Day (Per Index Basis) in relation to any such Index or constituent Index, in relation to such Index or constituent Index, as applicable.

The provisions of Index Linked Condition 1 (*Consequences of Disrupted Days*) will not apply in relation to any Index or (in the case of an Index Basket or Mixed Basket) constituent Index in respect of which Futures Price Valuation applies (although such provisions will continue to apply to any other constituent Index and, in the case of an Index Basket or Mixed Basket, a Valuation Date, Averaging Date or any other date for valuation or observation will be determined accordingly), unless there is a Non-Commencement or Discontinuance of the Exchange-traded Contract, in which case the provisions of Index Linked Condition 1 (*Consequences of Disrupted Days*) will continue to apply to the relevant Index or constituent Index.

For these purposes:

Exchange-traded Contract in relation to an Index means a futures or options contract specified as such for the Index in the applicable Final Terms, in each case, identified by reference to (a) the Index to which it relates, (b) the delivery month of such contract and (c) the Futures or Options Exchange on which it is traded.

12.2 Adjustments to the Exchange-traded Contract

Without duplication of Index Linked Condition 2 (which shall govern in the event of a conflict), in the event that the terms of the Exchange-traded Contract are changed or modified by the Futures or Options Exchange, the Calculation Agent shall, if necessary, adjust one or more of the Strike Level, the Knock-In Price, the Knock-Out Price and/or any other variable relevant to the Securities to account for such change or modification, including for the cost of the Issuer and/or any Affiliate of adjusting any associated hedging arrangements (this may mean that the economic benefit of the Securities for the Holder is reduced or that the adjustment has a material adverse effect on the Securities).

12.3 Non-Commencement or Discontinuance of the Exchange-traded Contract

Where there is a Non-Commencement or Discontinuance of the Exchange-traded Contract, the Official Settlement Price for any Valuation Date, Averaging Date or any other relevant date for Index valuation or observation, as the case may be, shall be deemed to be the level of the relevant Index at the close of the regular trading session on the relevant Exchange (as defined in Index Linked Condition 5) or, in the case of a Multi-exchange Index, the time at which the official closing level of the Index is calculated and published by the Index Sponsor, in each case on the Valuation Date, Averaging Date or other relevant date.

12.4 Correction of the Official Settlement Price

If the Official Settlement Price for any Valuation Date, Averaging Date or any other date for Index valuation or observation, as the case may be, (an **Exchange-traded Contract Relevant Calculation**) is subsequently corrected and the correction (the **Corrected Official Settlement Price**) is published by the relevant Futures or Options Exchange no later than two Business Days prior to the date of payment or delivery of any amount calculated by reference to the Exchange-traded Contract Relevant Calculation then the Calculation Agent may, but shall not be required to, treat such Corrected Official Settlement Price as the relevant level or value for such index on such Valuation Date, Averaging Date or other relevant date, as the case may be, and the Calculation Agent shall use such Corrected Official Settlement Price in determining the Relevant Calculation.

1. Consequences of Disrupted Days

If, in respect of any Share, the Calculation Agent determines that any Valuation Date or Averaging Date is a Disrupted Day, then:

1.1 Single Share Valuation Dates:

in the case of Equity Linked Securities relating to a single Share, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to such Share, provided that (A) such day shall not be later than the Disruption Cut-off Date, notwithstanding that such day may be a Disrupted Day in respect of such Shares and (B) in this case the Calculation Agent shall determine

its good faith estimate of the value for such Shares that would have prevailed but for that Disrupted Day as of the Valuation Time on that Disruption Cut-off Date;

1.2 Share Basket/Mixed Basket Valuation Dates:

in the case of Equity Linked Securities relating to a Share Basket or a Mixed Basket, the Valuation Date for the Shares of each Share Issuer not affected by the occurrence of a Disrupted Day shall be the scheduled Valuation Date and the Valuation Date for the Shares of each Share Issuer affected by the occurrence of a Disrupted Day (for the purposes of this Equity Linked Condition 1.2, each an **Affected Share**) shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Share, provided that (A) such day shall not be later than the Disruption Cut-off Date, notwithstanding that such day may be a Disrupted Day in respect of the Affected Share and (B) in this case the Calculation Agent shall determine its good faith estimate of the value for the Affected Share that would have prevailed but for that Disrupted Day as of the Valuation Time on that Disruption Cut-off Date;

1.3 Single Share/Share Basket/Mixed Basket Averaging Dates:

where the Securities are related to a single Share or are related to a Share Basket or a Mixed Basket and "Scheduled Trading Day (Single Share Basis)" or "Scheduled Trading Day (Per Share Basis)" is specified as applicable in the applicable Final Terms and the Calculation Agent determines that any Averaging Date is a Disrupted Day in respect of any Share, and in the relevant Final Terms the consequence specified is:

(a) Omission,

then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant price provided that, if through the operation of this provision no Averaging Date would occur, then the provisions of Equity Linked Condition 1.1 (*Consequences of Disrupted Days – Single Share Valuation Dates*) or Equity Linked Condition 1.2 (*Consequences of Disrupted Days – Share Basket/Mixed Basket Valuation Dates*) as applicable will apply for purposes of determining the relevant price on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day;

(b) Postponement,

then the provisions of Equity Linked Condition 1.1 (*Consequences of Disrupted Days – Single Share Valuation Dates*) or Equity Linked Condition 1.2 (*Consequences of Disrupted Days – Share Basket/Mixed Basket Valuation Dates*) will apply for the purposes of determining the relevant price on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or

(c) Modified Postponement,

then the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Disruption Cut-Off Date, then

- (i) that Disruption Cut-off Date shall be deemed to be the Averaging Date (irrespective of whether the Disruption Cut-off Date is already or is deemed to be an Averaging Date); and
- (ii) the Calculation Agent shall determine the price of the Share as of the Valuation Time on the Disruption Cut-off Date in accordance with part (B) of Equity Linked Condition 1.1 (*Consequences of Disrupted Days – Single Share Valuation Dates*) or Condition 1.2

(*Consequences of Disrupted Days – Share Basket/Mixed Basket Valuation Dates*) above as applicable and such determination by the Calculation Agent shall be deemed to be the relevant value for such Shares in respect of the relevant Averaging Date.

If the Calculation Agent determines that any Averaging Date in respect of Securities to which this Equity Linked Condition 1.3 relates is a Disrupted Date and, if in the Final Terms no consequence is specified, then "Modified Postponement" will apply.

1.4 Share Basket/Mixed Basket Averaging Dates:

Where the Equity Linked Securities are related to a Share Basket or a Mixed Basket and "Scheduled Trading Date (All Shares Basis)" is specified as applicable in the applicable Final Terms and the Calculation Agent determines that any Averaging Date is a Disrupted Day, and in the relevant Final Terms the consequence specified is:

(a) Omission,

then the Averaging Date will be deemed not to be an Averaging Date, provided that, if through the operation of this provision there would be no Averaging Date, then

(A) the sole Averaging Date for each Share which the Calculation Agent determines is not affected by the occurrence of a Disrupted Day shall be the originally designated final Averaging Date (the **Scheduled Final Averaging Date**);

(B) and the sole Averaging Date for each Share which the Calculation Agent determines is affected by the occurrence of a Disrupted Day (for the purposes of this Equity Linked Condition 1.4(a), each an **Affected Share**) shall be the first Scheduled Trading Day following the Scheduled Final Averaging Date that is not a Disrupted Day relating to the Affected Share unless each of the Scheduled Trading Days immediately following the Scheduled Final Averaging Date which (but for the occurrence of the Disrupted Day) would have been the Averaging Date, until and including the Disruption Cut-Off Date, is a Disrupted Day relating to the Affected Share. In that case,

(i) that Disruption Cut-Off Date shall be deemed to be the sole Averaging Date in respect of the Affected Share, notwithstanding the fact that such day is a Disrupted Day; and

(ii) the Calculation Agent shall determine the price of the Affected Share at the Valuation Time on the Disruption Cut-Off Date in accordance with part (B) of Equity Linked Condition 1.2 (*Consequences of Disrupted Days – Share Basket/Mixed Basket Valuation Dates*) above and such determination by the Calculation Agent shall be deemed to be the relevant value for such Shares in respect of the sole Averaging Date;

(b) Postponement, then the Averaging Date for each Share shall be the first succeeding Scheduled Trading Day following the originally designated Averaging Date (the **Scheduled Averaging Date**) that is not a Disrupted Day in relation to any Affected Share (irrespective of whether, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date) unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days, until and including the Disruption Cut-Off Date, is a Disrupted Day in respect of any Share (for the purposes of this Equity Linked Condition 1.4(b), each an **Affected Share**). In that case:

- (i) that Disruption Cut-Off Date shall be deemed to be such Averaging Date in respect of the each Share (irrespective of whether the Disruption Cut-Off Date is already or is deemed to be an Averaging Date); and
 - (ii) the Calculation Agent shall determine the price of each Share as of the Valuation Time on the Disruption Cut-Off Date which in the case of an Affected Share will be determined in accordance with part (B) of Equity Linked Condition 1.2 (*Consequences of Disrupted Days – Share Basket/Mixed Basket Valuation Dates*) above and such determination by the Calculation Agent shall be deemed to be the relevant value for such Shares in respect of the relevant Averaging Date; or
- (c) Modified Postponement, then
- (A) the Averaging Date for each Share which the Calculation Agent determines is not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the **Scheduled Averaging Date**); and
 - (B) the Averaging Date for each Share which the Calculation Agent determines is affected by the occurrence of a Disrupted Day (for the purposes of this Equity Linked Condition 1.4(c), each an **Affected Share**) shall be the first succeeding Valid Date in relation to the Affected Share. If the first succeeding Valid Date in respect of the Affected Share has not occurred as of the Valuation Time on the Disruption Cut-Off Date, then:
 - (i) that Disruption Cut-Off Date shall be deemed to be the Averaging Date in respect of the Affected Share (irrespective of whether the Disruption Cut-Off Date is already or is deemed to be an Averaging Date); and
 - (ii) the Calculation Agent shall determine the price of the Affected Share as of the Valuation Time on the Disruption Cut-Off Date in accordance with part (B) of Equity Linked Condition 1.2 (*Consequences of Disrupted Days – Share Basket/Mixed Basket Valuation Dates*) above and such determination by the Calculation Agent shall be deemed to be the relevant value for such Shares in respect of the relevant Averaging Date.

If the Calculation Agent determines that any Averaging Date in respect of Securities to which this Equity Linked Condition 1.4 relates is a Disrupted Day and, if in the Final Terms no consequence is specified, "Modified Postponement" will apply.

1.5 Notice

The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, of the occurrence of a Disrupted Day on any day on which any Share valuation or observation is scheduled to occur, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Disrupted Day.

2. Consequences of Potential Adjustment Events

Following the declaration by a Share Issuer of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares or on the composition of the Share Basket or Mixed Basket, as applicable, and, if so, the Calculation Agent will determine and make the appropriate adjustment(s), if any, to be made to one or more of any variable(s) relevant to the exercise,

settlement, payment or other terms of the Securities as the Calculation Agent determines appropriate to account for the Potential Adjustment Event and determine the effective date(s) of that adjustment(s) (which may include but shall not be limited to adjustment(s) to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share). The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of the Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange.

Upon the making of any such adjustment, the Calculation Agent shall as soon as is reasonably practicable under the circumstances give notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, stating the adjustment made and giving brief details of the Potential Adjustment Event, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such adjustment.

3. Consequences of Extraordinary Events

3.1 Extraordinary Events:

If a Merger Event, De-listing, Nationalisation, Insolvency or Tender Offer occurs in relation to a Share, the Issuer may take the action described in (i), (ii), (iii), (iv) or (v) below:

- (i) require the Calculation Agent to determine the appropriate adjustment(s), if any, to be made to any terms of the Conditions and/or the applicable Final Terms to account for the Merger Event, De-listing, Nationalisation, Insolvency or Tender Offer, as the case may be, and determine the effective date(s) of such adjustment(s) and for these purposes (a) the Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of the relevant event made by any options exchange to options on the Shares traded on that options exchange and the relevant adjustments may in the case of adjustments following a Merger Event or Tender Offer include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares and/or (b) in the case of a Share Basket or Mixed Basket, the Calculation Agent may remove the affected Share from the Share Basket or Mixed Basket and make such adjustments to the Securities as it determines appropriate (which may, without limitation, include any value or weighting of the remaining Shares) in order to account for the price or value of the affected Share at the time of its removal as well as the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements (and this may mean that the economic benefit of the Securities for the Holder is reduced or that the removal of the Share has a material adverse effect on the Securities);
- (ii) where the Equity Linked Securities relate to a Share Basket or a Mixed Basket, on giving notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, redeem each N&C Security or cancel each W&C Security, as applicable, in part. If a Security is so redeemed or cancelled in part the portion (the **Partial Amount**) of each such Security representing the affected Share(s) shall be redeemed or cancelled, as applicable, and the Issuer will (x) pay to each Holder in respect of each Security held by them an amount equal to the fair market value of the Partial Amount, taking into account the Merger Event, De-listing, Nationalisation, Insolvency or Tender Offer, as the case may be, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent; and (y) require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any of the Conditions and/or the applicable Final Terms to account for such redemption or cancellation in part. For the avoidance of doubt the remaining part of each such Security after such redemption or cancellation and adjustment shall remain outstanding with full force and effect (subject to adjustment as provided above). Payments will be made in such manner as shall be

notified to the Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable;

- (iii) give notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and redeem or cancel all, but not some only, of the Securities, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount;
- (iv) if "Options Exchange Adjustment" is specified as applicable in the applicable Final Terms, following such adjustment to the settlement terms of options on the Shares traded on such exchange(s) or quotation system(s) as the Issuer shall select (the **Options Exchange**), require the Calculation Agent to make a corresponding adjustment to any one or more of the Conditions and/or the applicable Final Terms which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the Shares are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of the Conditions and/or the applicable Final Terms as the Calculation Agent determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the Merger Event, De-listing, Nationalisation, Insolvency or Tender Offer, as the case may be, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or
- (v) if "Share Substitution" is specified as applicable in the applicable Final Terms, then on or after the relevant Merger Date, De-listing, Nationalisation, Insolvency or Tender Offer Date, as the case may be, require the Calculation Agent to adjust the Conditions and/or the applicable Final Terms to include shares (the **Substitute Shares**) selected by the Calculation Agent in accordance with the criteria for share selection (**Share Substitution Criteria**), if any, set out in the applicable Final Terms, or otherwise as provided below, in place of the Share(s) (for the purposes of this Equity Linked Condition 3, the **Affected Share(s)**) which are affected by such Merger Event, De-listing, Nationalisation, Insolvency or Tender Offer and the Substitute Shares will, from the date so determined by the Calculation Agent (the **Share Substitution Date**) be deemed to be "Shares" and the relevant issuer of such shares (the **Substitute Share Issuer**), a "Share Issuer" for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to any of the Conditions and/or the applicable Final Terms as the Calculation Agent determines appropriate and the provisions of Equity Linked Condition 3.2 below shall apply. If "Share Substitution" is specified as applicable in the applicable Final Terms but no Share Substitution Criteria are set out in the Final Terms, the Calculation Agent will use reasonable endeavours to ensure that, to the extent practicable, any Substitute Share Issuer will (a) be selected from the same region(s) or sector(s) (depending on whether the Affected Shares were selected on the basis of region or sector, as determined by the Calculation Agent and (b) (where the Affected Shares are quoted on a non-European exchange or quotation system) have shares quoted on an exchange(s) or quotation system(s) in the same region(s) as the Affected Shares, or (where the Affected Shares are quoted on a European exchange or quotation system) have shares quoted on an exchange(s) or quotation system(s) in any European state(s) and in each case where such exchange(s) or quotation system(s) have similar liquidity to the exchange(s) or quotation system(s) on which the Affected Shares are quoted, all as determined by the Calculation Agent, in each case at the time of substitution.

Upon the occurrence of a Merger Event, De-listing, Nationalisation, Insolvency or Tender Offer, the Issuer shall give notice as soon as practicable to the Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, stating the occurrence of the Merger Event, De-listing, Nationalisation, Insolvency or Tender Offer, as the case may be, giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-

receipt of, such notice will not affect the validity of any such Merger Event, De-listing, Nationalisation, Insolvency or Tender Offer, as the case may be.

For the avoidance of doubt nothing in these Equity Linked Conditions shall require the Calculation Agent, the Issuer or the Guarantor (if any) to monitor any Share Issuer or Share on an on-going basis and no representation (express or implied) is made that there will be any such monitoring.

3.2 Valuation of Shares of Substitute Share Issuers:

For the purposes of any adjustments to account for a Share substitution as referred to in Equity Linked Condition 3.1(v) above, the Calculation Agent shall adjust the Strike Price or other relevant values, levels, variables or terms for the valuation or observation of the Substitute Shares in the terms of the Securities in order to account for the price or value of the Affected Shares at the time of their removal as well as the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements. This may mean that the economic benefit, if any, of the Share substitution for the Holder is reduced or that the Share substitution has a material adverse effect on the Securities. For example, and without limitation, the Strike Price for the Substitute Shares may be adjusted by the same proportion as any fall in value of the Affected Share at the time of its removal relative to the Trade Date and may be further reduced to account for the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements.

4. Correction of Share prices

If the price of a Share published on any Valuation Date, Observation Date, Averaging Date or any other date for Share valuation or observation, as the case may be, by the relevant Exchange and which is utilised for any calculation or determination made for the purposes of the Securities (a **Relevant Calculation**) is subsequently corrected and the correction (the **Corrected Share Price**) published by the relevant Exchange no later than two Business Days prior to the date of payment of any amount calculated by reference to the Relevant Calculation then the Calculation Agent may, but shall not be required to, treat such Corrected Share Price as the relevant price for such Share on such Valuation Date, Observation Date, Averaging Date or other relevant date, as the case may be, and the Calculation Agent shall use such Corrected Share Price in determining the Relevant Calculation.

5. Consequences of Additional Disruption Events

In the event that an Additional Disruption Event occurs as determined by the Calculation Agent, then the Calculation Agent shall either (a)(i) make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Calculation Agent determines appropriate to account for such Additional Disruption Event and (ii) determine the effective date of that adjustment, or (b) if the Calculation Agent determines that no adjustment that it could make under (a) will produce a commercially reasonable result, notify the Issuer thereof in which event the Issuer may redeem or cancel all, but not some only, of the Securities as of such date as the Calculation Agent shall determine by notice given to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount. Payment in respect of such early redemption or cancellation shall be made as specified in such notice to Securityholders.

If both Change in Law and Sanctions Event are specified as applicable in the relevant Final Terms, where an event or circumstance that would otherwise (but for this provision) constitute a Sanctions Event also constitutes a Change in Law, the Issuer may determine in its discretion whether to apply either or both or none of such provisions as appropriate.

6. Definitions

As used herein:

Additional Disruption Event means any of Change in Law, Hedging Disruption, Increased Cost of Hedging, Increased Cost of Stock Borrow, Loss of Stock Borrow and/or Insolvency Filing, in each case if specified in the applicable Final Terms;

Averaging Date means each date specified as an Averaging Date in the applicable Final Terms or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day unless, in the opinion of the Calculation Agent any such day is a Disrupted Day. If any such day is a Disrupted Day then the provisions of Equity Linked Condition 1 (*Consequences of Disrupted Days*) shall apply;

Change in Law means that, on or after the Trade Date (as specified in the applicable Final Terms) (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law or Sanctions), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or a Sanctions Authority), the Issuer determines that (i) it has become illegal to hold, acquire or dispose of relevant hedge positions relating to any relevant Share or (ii) it will incur a materially increased cost in performing its obligations in relation to the Equity Linked Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer, the Guarantor (if applicable) and/or any of their Affiliates);

Early Closure means in respect of any Shares, the closure on any Exchange Business Day of the relevant Exchange or Related Exchange prior to its Scheduled Closing Time unless such earlier closing

time is announced by such relevant Exchange or Related Exchange at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on the relevant Exchange or Related Exchange on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into such Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day;

Exchange means, in respect of any Shares, the exchange or quotation system specified as such for such Shares in the applicable Final Terms or any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in such Shares has temporarily relocated or relocated in circumstances specified in items (i), (ii) or (iii) of the definition of "De-listing" (provided that the Calculation Agent has determined that there is comparable liquidity relative to the Shares on such temporary substitute exchange or quotation system as on the original Exchange) and **Exchanges** means, as the context requires, such stock exchanges or quotation systems in respect of the Shares of all the Share Issuers;

Exchange Business Day means either (i) in the case of a single Share, Exchange Business Day (Single Share Basis) or (ii) in the case of a Share Basket or a Mixed Basket, (a) Exchange Business Day (All Shares Basis) or (b) Exchange Business Day (Per Share Basis), in each case as specified in the applicable Final Terms, provided that, in the case of a Share Basket or a Mixed Basket, if no such specification is made in the applicable Final Terms, Exchange Business Day (Per Share Basis) shall apply;

Exchange Business Day (All Shares Basis) means, in respect of a Share Basket or a Mixed Basket, any Scheduled Trading Day on which each Exchange and each Related Exchange, if any, are open for trading in respect of all Shares comprised in the Share Basket or Mixed Basket, as applicable, during their respective regular trading session(s) notwithstanding any such Exchange or Related Exchange closing prior to their Scheduled Closing Time;

Exchange Business Day (Per Share Basis) means, in respect of a Share, any Scheduled Trading Day on which the relevant Exchange and the relevant Related Exchange, if any, in respect of such Share are open for trading during their respective regular trading session(s), notwithstanding any such relevant Exchange or relevant Related Exchange closing prior to their Scheduled Closing Time;

16. Amended Definition of De-listing and Consequences of Extraordinary Events

In that case, the Calculation Agent shall determine the relevant Settlement Price or Settlement Rate (as applicable) in the manner set out in the Conditions (including, where applicable, the applicable Final Terms) or, if not set out or if not practicable, determine the relevant Settlement Price or Settlement Rate (as applicable) in accordance with its good faith estimate of the relevant Settlement Price or Settlement Rate as of the Valuation Time on such final day which it determines would have prevailed but for the relevant Disruption Event.

PART A – ADDITIONAL TERMS AND CONDITIONS FOR COMMODITY LINKED SECURITIES

This Annex applies to Exempt Securities only.

*If specified as applicable in the applicable Final Terms, (a) the terms and conditions applicable to Commodity Linked N&C Securities shall comprise the terms and conditions of the N&C Securities (the **N&C Securities Conditions**) and the additional Terms and Conditions for Commodity Linked Securities set out below (the **Commodity Linked Conditions**) and (b) the terms and conditions applicable to Commodity Linked W&C Securities shall comprise the terms and conditions of the W&C Securities (the **W&C Securities Conditions**) and the Commodity Linked Conditions, in each case together with any other additional terms and conditions specified in the applicable Final Terms and subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between (i) the N&C Securities Conditions or the W&C Securities Conditions, as applicable, and (ii) the Commodity Linked Conditions, the Commodity Linked Conditions shall prevail. In the event of any inconsistency between (i) the N&C Securities Conditions, the W&C Securities Conditions and/or the Commodity Linked Conditions and (ii) the applicable Final Terms, the applicable Final Terms shall prevail. References in the Commodity Linked Conditions to "Security" and "Securities" shall be deemed to be references to "N&C Security" and "N&C Securities" or "W&C Security" and "W&C Securities" as the context admits.*

These Commodity Conditions apply to Commodity Linked Securities linked to (i) a single Relevant Commodity, (ii) a Commodity Index, (iii) a Basket of Commodities or (iv) a basket of various assets or reference bases which includes a Relevant Commodity or Commodity Index.

1. Determination of Relevant Commodity Price for Commodity Linked Securities

The Relevant Commodity Price for a Relevant Commodity or a Commodity Index for any Pricing Date shall be the price, expressed as a price per unit of the Relevant Commodity or the settlement price (or other reference price or level) of the Commodity Index, determined by the Calculation Agent with respect to that Pricing Date in respect of which:

- (i) the Commodity Reference Price or Index Reference Price, is as specified in the applicable Final Terms;
- (ii) the Specified Price (if any) is as specified in the applicable Final Terms;
- (iii) the Delivery Date (if any) is as specified in the applicable Final Terms; and
- (iv) the Pricing Date(s) is/are the date(s) as specified in the applicable Final Terms.

2. Commodity Market Disruption Events and Disruption Fallbacks

If, in the opinion of the Calculation Agent, a Commodity Market Disruption Event which has occurred with respect to a Relevant Commodity is continuing on any Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source), the Relevant Commodity Price for such Relevant Commodity for that Pricing Date will be determined by the Calculation Agent in accordance with the applicable Disruption Fallbacks.

If, in the opinion of the Calculation Agent, a Commodity Market Disruption Event has occurred in relation to the Index Components of a Commodity Index and is continuing on any Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source), the Index Reference Price will be determined by the Calculation Agent pursuant to the applicable Disruption Fallbacks regardless of whether or not a settlement price (or other reference price or level) of the Commodity Index has been published by the Index Sponsor

in respect of such Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source).

If, in relation to a Commodity Index, an event would constitute both (i) a Commodity Market Disruption Event, and (ii) a Commodity Index Adjustment Event, such event will be deemed a Commodity Index Adjustment Event.

In respect of proprietary indices linked to commodities (or other commodity-linked reference assets), the actual market disruption events and disruption fallbacks and index adjustment events (and related definitions and terms) applicable thereto may differ in certain respects from those set forth in these Commodity Conditions. In such cases, the relevant definitions and terms and conditions of any such bespoke market disruption events and disruption fallbacks and index adjustments events shall apply in accordance with the terms of each such proprietary index, all subject to such other provisions as may be specified in the Final Terms relating to any Commodity Linked Security linked to such proprietary indices.

3. **Additional Disruption Events**

In the event that an Additional Disruption Event occurs as determined by the Calculation Agent, then the Calculation Agent may either (a)(i) make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Calculation Agent determines appropriate to account for such Additional Disruption Event and (ii) determine the effective date of that adjustment, or (b) if the Calculation Agent determines that no adjustment that it could make under (a) will produce a commercially reasonable result, notify the Issuer thereof in which event the Issuer may redeem or cancel all, but not some only, of the Securities as of such date as the Calculation Agent shall determine by notice given to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount. Payment in respect of such early redemption or cancellation shall be made as specified in such notice to Securityholders.

4. **Commodity Index Adjustment Events and Successor Index Sponsor**

(a) *Successor Index Sponsor calculates and reports a Commodity Index*

If a relevant Commodity Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a suitable successor sponsor (the **Successor Index Sponsor**) or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then in each case that index (the **Successor Index**) will be deemed to be the Commodity Index and the Relevant Commodity Price will be deemed to be the price so calculated and announced by that Successor Index Sponsor or published in respect of that Successor Index, as the case may be. The Calculation Agent shall determine in its reasonable discretion whether a successor sponsor is suitable and/or whether the formula for and method of calculation used by a successor index is the same or substantially similar and the Calculation Agent may make such adjustment(s) that it determines appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Securities to account for that Successor Index.

(b) *Commodity Index Adjustment Events*

If, with respect to a Commodity Index, at any time on or after the Trade Date the Calculation Agent in its reasonable discretion determines that a Commodity Index Adjustment Event has occurred, then the Issuer may at its option:

- (i) require the Calculation Agent to determine if such Commodity Index Adjustment Event has a material effect on the Securities and, if so, require the Calculation Agent to determine any relevant adjustment to the Conditions which may include, without limitation, delaying any Pricing Date or other date for valuation or observation of the relevant Commodity Index until the relevant Commodity Index Adjustment Event no longer exists;
- (ii) require the Calculation Agent to replace any Commodity Index that is affected by a Commodity Index Adjustment Event with one or more successor indices (in each case any such replacement being a **Replacement Index**) (and as appropriate replace the Index Sponsor with the index sponsor in respect of the Replacement Index and make such adjustments to any other Conditions as the Calculation Agent considers relevant to account for such replacement in accordance with Commodity Linked Condition 4(c) below), whereupon the Replacement Index(ices) will be deemed to be the successor(s) to the relevant Commodity Index and will take effect from the date of such replacement, provided however that the selection of a Replacement Index will be made by the Calculation Agent in accordance with the Index Replacement Criteria. Thereafter, all references to the relevant Commodity Index or Index Sponsor (as applicable) shall be deemed to be references to such relevant replacements;
- (iii) other than following the occurrence of an Index Restriction Event, require the Calculation Agent to calculate the Relevant Commodity Price using, in lieu of a published level for the Commodity Index, the level for the Commodity Index in respect of the applicable Pricing Date as determined by the Calculation Agent in accordance with the formula for and method of calculating the Commodity Index last in effect prior to the relevant Index Adjustment Event, but using only those Index Components that comprised the Commodity Index immediately prior to the relevant Commodity Index Adjustment Event (other than those Index Components that have ceased to be listed on any relevant Exchange or traded on any relevant over-the-counter market (bilateral or otherwise)); or
- (iv) give notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and redeem or cancel all, but not some only, of the Securities, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount. Payment in respect of such early redemption or cancellation shall be made as specified in such notice to Securityholders.

Notwithstanding the foregoing, the Calculation Agent shall not be required to determine the Relevant Commodity Price for a Commodity Index in accordance with paragraph (iii) above on more than one consecutive Pricing Date. If, following the occurrence of a Commodity Index Adjustment Event, the Calculation Agent has already calculated the Relevant Commodity Price for a Commodity Index in accordance with paragraph (iii) on any Pricing Date, on or prior to the next following Pricing Date thereafter, if the relevant Commodity Index Adjustment Event is continuing the Issuer may at its option (a) require the Calculation Agent to adjust the terms of the Securities in accordance with paragraph (i) above, (b) require the Calculation Agent to replace the affected Commodity Index in accordance with paragraph (ii) above or (c) redeem or cancel the Securities in accordance with paragraph (iv) above.

(c) *Valuation of Replacement Indices*

For the purposes of any adjustments to account for a replacement as referred to in Commodity Linked Condition 4(b)(ii) above, the Calculation Agent shall adjust such values, levels, variables or terms for the valuation or observation of the Replacement Index in the terms of the Securities in order to account for the price or value of the affected Commodity Index at the time of its replacement as well as the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements. This may mean that the economic benefit, if any, of the replacement for the Holder is reduced or that the replacement has a material adverse effect on the Securities. For example, and without limitation, the relevant level or value of the Replacement Index may be adjusted by the same proportion as any fall

in value of the affected Commodity Index at the time of the replacement relative to the Trade Date and may be further reduced to account for the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements.

5. Common Pricing

With respect to Securities relating to a Basket of Commodities, if "Common Pricing" has been selected in the applicable Final Terms as:

- (i) "Applicable" then, no date will be a Pricing Date unless such date is a day in relation to which the Commodity Reference Prices for all Relevant Commodities are (or but for the occurrence of a Commodity Market Disruption Event would have been) scheduled to be published or announced.
- (ii) "Inapplicable" then, a date will be a Pricing Date regardless of whether such date is a day in relation to which the Commodity Reference Prices for all Relevant Commodities are (or but for the occurrence of a Commodity Market Disruption Event would have been) scheduled to be published or announced.

For the avoidance of doubt, in the case of both (i) and (ii) above if the Calculation Agent determines that a Commodity Market Disruption Event has occurred or exists in relation to a Pricing Date (subject to the applicability of Common Pricing) in respect of any Relevant Commodity and/or Commodity Index in a Basket of Commodities (the **Affected Commodity**), the Relevant Commodity Price of each Relevant Commodity and/or Commodity Index within the basket which is not affected by the occurrence of a Commodity Market Disruption Event shall be determined in relation to its scheduled Pricing Date and the Relevant Commodity Price for each Affected Commodity shall be determined in accordance with the applicable Disruption Fallbacks.

6. Corrections to Published Prices

For purposes of determining or calculating the Relevant Commodity Price for any Pricing Date, if the price published or announced on a given day and used or to be used by the Calculation Agent to determine a Relevant Commodity Price is subsequently corrected and the correction is published or announced by the person responsible for that publication or announcement within 30 calendar days after the original publication or announcement, the Calculation Agent may recalculate the Relevant Commodity Price for that day, using such corrected price. The Calculation Agent shall notify the Issuer of any such correction, the revised Relevant Commodity Price and, if any amount (the **Actual Amount**) has been paid or delivered to Securityholders on the basis of the original Relevant Commodity Price, the amount that should have been paid or delivered to the Securityholders on the basis of the corrected Relevant Commodity Price (the **Adjusted Amount**). Upon being notified of the Adjusted Amount, the Issuer may (but shall not be obliged to) take such action as it considers necessary or appropriate to either pay or deliver additional amounts (if the Adjusted Amount is greater than the Actual Amount) or recover (solely by set-off against future payments) such amounts (if the Adjusted Amount is less than the Actual Amount). The Calculation Agent shall not be obliged to make any determination under this Commodity Condition and shall have no liability to any person for any determination made or not made under this Commodity Condition.

In determining whether or not to exercise the above discretion the Calculation Agent shall take into account such factor(s) as it determines appropriate, including, without limitation, hedging arrangements of any Hedging Party in respect of the Securities.

Notwithstanding the foregoing, where the Calculation Agent determines that the price published or announced on a given day and used or to be used by it to determine a Relevant Commodity Price in respect of a Pricing Date is expected to be subsequently corrected, then the Calculation Agent may delay the determination or calculation of the Relevant Commodity Price in respect of such day and instead notify the Issuer of the expected correction. If the Calculation Agent notifies the Issuer of an expected correction to a Relevant Commodity Price, the Issuer shall not make any related payments or deliveries, until the Calculation Agent determines or calculates the correct Relevant Commodity Price and the day on which such payments or delivered are due shall be delayed to the same extent as was the determination or calculation of the correct Relevant Commodity Price. No additional amounts shall be payable or deliverable as a result of any such delay or postponement.

7. Adjustments to Payment Dates, Exercise Dates and Settlement Dates

Notwithstanding anything to the contrary in these Commodities Conditions, if, as a result of a delay or postponement pursuant to the occurrence of a Commodity Market Disruption Event or Index Adjustment Event, a Relevant Commodity Price used to determine (i) whether any right of exercise (of the Issuer or any Securityholder) may be exercised or (ii) any amount payable or deliverable (plus related adjustments) on any Coupon Payment Date, Redemption Date or on any other relevant date in relation to the Commodity Linked Securities, is unavailable such determination and/or date will, subject to the applicable Final Terms, be delayed or postponed to fall on the second Business Day following the determination of the Relevant Commodity Price under the Disruption Fallback provision or Commodity Index Adjustment Event provision as determined by the Calculation Agent. No additional amounts shall be payable or deliverable by the Issuer or the Guarantor (if applicable) to any Securityholder as a result of any such delay or postponement.

8. Commodity Business Day and Index Business Day Convention

If any date applicable to a Commodity Linked Security that is specified to be subject to adjustment in accordance with a Commodity Business Day Convention or an Index Business Day Convention, as applicable, would otherwise fall on a day that is not a Commodity Business Day or Index Business Day as applicable, such date will be adjusted according to the Commodity Business Day Convention or Index Business Day Convention, as applicable, specified in the applicable Final Terms.

If the Commodity Business Day Convention or Index Business Day Convention is:

- (i) "Following", such date shall be postponed to the next day that is a Commodity Business Day or Index Business Day, as applicable;
- (ii) "Modified Following", such date shall be postponed to the next day that is a Commodity Business Day or Index Business Day, as applicable, unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Commodity Business Day or Index Business Day, as applicable; or
- (iii) "Preceding", such date shall be brought forward to the immediately preceding Commodity Business Day or Index Business Day, as applicable.

2. **Definitions Relating to Commodity Market Disruption Events and Disruption Fallbacks**

Calculation Agent Determination means, in respect of a Disruption Fallback, the Calculation Agent will determine the Relevant Commodity Price (or a method for determining the foregoing), taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that it deems relevant.

Commodity Market Disruption Event means, with respect to a Relevant Commodity, an event that would give rise, in accordance with an applicable Disruption Fallback, to an alternative basis for determining the Relevant Commodity Price in respect of a specified Commodity Reference Price were the event to occur or exist on a day that is a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source). In relation to any Relevant Commodity, each of the following is a "Commodity Market Disruption Event":

- (i) Price Source Disruption;
- (ii) Trading Disruption;
- (iii) Disappearance of Commodity Reference Price;
- (iv) Material Change in Formula;
- (v) Material Change in Content; or

- (vi) any Additional Commodity Market Disruption Events specified as applicable in the relevant Final Terms.

Notwithstanding the foregoing, with respect to Bullion the Commodity Market Disruption Events set forth in (iv) and (v) above shall not apply.

Delayed Publication or Announcement means, in respect of a Disruption Fallback in relation to any Relevant Commodity, that the Relevant Commodity Price for a Pricing Date will be determined based on the Specified Price in respect of the original day scheduled as such Pricing Date that is published or announced by the relevant Price Source retrospectively on the first succeeding Commodity Business Day on which the Commodity Market Disruption Event ceases to exist, unless that Commodity Market Disruption Event continues to exist (measured from and including the original day that would otherwise have been the Pricing Date), or the Relevant Commodity Price continues to be unavailable, for five (5) consecutive Commodity Business Days, in which case the next Disruption Fallback will apply.

Disruption Fallback means, in relation to a Relevant Commodity, a source or method that may give rise to an alternative basis for determining the Relevant Commodity Price in respect of a specified Commodity Reference Price when a Commodity Market Disruption Event occurs or exists on a day that is a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source). A Disruption Fallback is applicable (in the order specified, if any) if it is specified in the applicable Final Terms or, if no Disruption Fallback is specified in the applicable Final Terms, the following Disruption Fallbacks shall be deemed to have been specified (in the following order):

- (i) first, Fallback Reference Price (if applicable);
- (ii) second, Delayed Publication or Announcement and Postponement (each to operate concurrently with the other); provided, however, that the price determined by Postponement shall be the Relevant Commodity Price only if Delayed Publication or Announcement does not first yield a Relevant Commodity Price within the relevant five (5) consecutive Commodity Business Day period); and then
- (iii) third, Calculation Agent Determination.

The Issuer may also specify in the applicable Final Terms any other "Disruption Fallbacks" that will apply to a particular series of Commodity Linked Securities and the relevant order in which they are to be applied.

Subject to so specifying in the applicable Final Terms, the Issuer may elect to treat certain Pricing Dates such that the Disruption Fallback in (ii) above shall be replaced in its entirety with Preceding.

Disappearance of Commodity Reference Price means, (i) the permanent discontinuation of trading, in the relevant Futures Contract on the relevant Exchange; (ii) the disappearance of, or of trading in, the Relevant Commodity; or (iii) the disappearance or permanent discontinuance or unavailability of a Commodity Reference Price, notwithstanding the availability of the related Price Source or the status of trading in the relevant Futures Contract or the Relevant Commodity.

Fallback Reference Price means, in respect of a Disruption Fallback, that the Calculation Agent will determine the Relevant Commodity Price based on the price in relation to that Pricing Date of the first alternate Commodity Reference Price, if any, specified in the applicable Final Terms and not subject to a Commodity Market Disruption Event. If no Fallback Reference Price is specified in the relevant Final Terms, the next Disruption Fallback will apply.

Material Change in Content means, the occurrence since the Trade Date of the Commodity Linked Security of a material change in the content, composition or constitution of the Relevant Commodity or relevant Futures Contract.

Material Change in Formula means, the occurrence since the Trade Date of the Commodity Linked Security of a material change in the formula for or method of calculating the relevant Commodity Reference Price.

Postponement means, in respect of a Disruption Fallback, that the Pricing Date will, for purposes of the application of this Disruption Fallback only, in relation to any Relevant Commodity, be deemed to be the first succeeding Commodity Business Day on which the Commodity Market Disruption Event ceases to exist, unless that Commodity Market Disruption Event continues to exist for five (5) consecutive Commodity Business Days (measured from and including the original day that would otherwise have been the Pricing Date) in which case the next Disruption Fallback will apply.

Preceding means, in respect of a Disruption Fallback, that the Pricing Date will, for purposes of the application of this Disruption Fallback only, in relation to any Relevant Commodity, be deemed to be the immediately preceding Commodity Business Day prior to the original day that would otherwise have been the Pricing Date, provided that where a Commodity Market Disruption Event has been in existence for five (5) consecutive preceding Commodity Business Days (measured from and including the original Pricing Date), the next Disruption Fallback will apply.

Price Source Disruption means, (i) the failure of the Price Source to announce or publish the Specified Price (or the information necessary for determining the Specified Price) for the relevant Commodity Reference Price; or (ii) the temporary or permanent discontinuance or unavailability of the Price Source.

Trading Disruption means, the material suspension of, or a material limitation imposed on, trading in the Futures Contract or the Relevant Commodity on the Exchange or in any additional futures contract, options contract or commodity on any Exchange as specified in the applicable Final Terms. For these purposes:

- (i) a suspension of the trading in the Futures Contract or the Relevant Commodity on any Commodity Business Day shall be deemed to be material only if:
 - (1) all trading in the Futures Contract or the Relevant Commodity is suspended for the entire Pricing Date; or
 - (2) all trading in the Futures Contract or the Relevant Commodity is suspended subsequent to the opening of trading on the Pricing Date, and trading does not recommence at least ten (10) minutes prior to, and continue until, the regularly scheduled close of trading in such Futures Contract or such Relevant Commodity on such Pricing Date; and
- (ii) a limitation of trading in the Futures Contract or the Relevant Commodity on any Commodity Business Day shall be deemed to be material only if:
 - (1) the relevant Exchange establishes limits on the range within which the price of the Futures Contract or the Relevant Commodity may fluctuate and the closing or settlement price of the Futures Contract or the Relevant Commodity on such Pricing Date is at the upper or lower limit of that range; or
 - (2) if the relevant Exchange establishes limits on the range within which the price of the Futures Contract or the Relevant Commodity may fluctuate, and the price of that

Futures Contract or Relevant Commodity on a Pricing Date has, at any time during the last ten (10) minutes prior to the regularly scheduled close of trading in such Futures Contract or Relevant Commodity on such Pricing Date, traded at the upper or lower limit of such range.

3. **Definitions Relating to Commodity Market Disruption Events and Disruption Fallbacks for a Commodity Index**

Calculation Agent Determination means, in respect of a Disruption Fallback, the Calculation Agent will determine the Relevant Commodity Price or the price for an Index Component, as applicable (or a method for determining the foregoing), taking into consideration the latest available quotation for the relevant Index Reference Price or Index Component, as applicable, and any other information that it deems relevant.

Commodity Market Disruption Event means, with respect to a Commodity Index and its Index Components, as applicable, an event that would give rise, in accordance with an applicable Disruption Fallback, to an alternative basis for determining the Relevant Commodity Price in respect of a Commodity Index (and/or its Index Components) were the event to occur or exist on a day that is a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source). In relation to a Commodity Index, each of the following is a "Commodity Market Disruption Event":

- (i) Price Source Disruption;
- (ii) Trading Disruption; or
- (iii) any Additional Commodity Market Disruption Events specified as applicable in the relevant Final Terms.

Delayed Publication or Announcement means, in respect of a Disruption Fallback in relation to any Commodity Index, that the relevant price for an Index Component for a Pricing Date will be determined based on the settlement price (or other reference price if specified in the applicable Final Terms) in respect of the original day scheduled as such Pricing Date that is published or announced by the relevant Price Source retrospectively on the first succeeding Index Business Day on which the Commodity Market Disruption Event ceases to exist, if applicable with respect to such Index Component, unless that Commodity Market Disruption Event continues to exist (measured from and including the original day that would otherwise have been the Pricing Date), or the relevant price for the Index Component continues to be unavailable, for five (5) consecutive Index Business Days, in which case the next Disruption Fallback will apply.

Disruption Fallback means, in relation to a Commodity Index, a source or method that may give rise to an alternative basis for determining the Relevant Commodity Price in respect of a Commodity Index (and/or its Index Components) when a Commodity Market Disruption Event occurs or exists on a day that is a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source). A Disruption Fallback is applicable (in the order specified, if any) if it is specified in the applicable Final Terms or, if no Disruption Fallback is specified in the applicable Final Terms, the following Disruption Fallbacks shall be deemed to have been specified (in the following order):

- (i) with respect to each Index Component which is not affected by the Commodity Market Disruption Event, the Relevant Commodity Price of the Commodity Index will be based on the settlement price (or other reference price if specified in the applicable Final Terms) of each such Index Component in relation to the Pricing Date; and

- (ii) with respect to each Index Component which is affected by the Commodity Market Disruption Event, the Relevant Commodity Price of the Commodity Index will be based on the settlement price (or other reference price if specified in the applicable Final Terms) for such Index Component determined by application of the following fallback provisions (in the following order):
- (1) first, Delayed Publication or Announcement (in relation to Price Source Disruption only) and Postponement (in relation to Trading Disruption only); and then
 - (2) second, Calculation Agent Determination.

The Issuer may also specify in the applicable Final Terms any other "Disruption Fallbacks" that will apply to a particular series of Commodity Linked Securities and the relevant order in which they are to be applied.

Subject to so specifying in the applicable Final Terms, the Issuer may elect to treat certain Pricing Dates such that the Disruption Fallback in (ii)(1) above shall be replaced in its entirety with Preceding.

For the avoidance of doubt, with respect to a Pricing Date which is during an official roll period of a Commodity Index (as a result of which the Index Components include futures contracts with two different delivery dates for the same commodity), where the event or occurrence of a Commodity Market Disruption Event affects one, but not both, such Index Components for a commodity, the relevant price of the futures contracts not affected by the Commodity Market Disruption Event shall be determined pursuant to (i) above, and the affected futures contracts shall be determined pursuant to (ii) above.

Postponement means, in respect of a Disruption Fallback, that the Pricing Date will, for purposes of the application of this Disruption Fallback only, in relation to any Index Component of a Commodity Index, be deemed to be the first succeeding Index Business Day on which the Commodity Market Disruption Event ceases to exist, if applicable with respect to such Index Component, unless that Commodity Market Disruption Event continues to exist for five (5) consecutive Index Business Days (measured from and including the original day that would otherwise have been the Pricing Date) in which case the next Disruption Fallback will apply.

Preceding means, in respect of a Disruption Fallback, that the Pricing Date will, for purposes of the application of this Disruption Fallback only, in relation to any Index Component of a Commodity Index, be deemed to be the immediately preceding Index Business Day prior to the original day that would otherwise have been the Pricing Date, provided that where a Commodity Market Disruption Event, if applicable with respect to such Index Component has been in existence for five (5) consecutive preceding Index Business Days (measured from and including the original Pricing Date), the next applicable Disruption Fallback will apply.

Price Source Disruption means, the failure of the Price Source to announce or publish the settlement price for any Index Component (or other relevant price, or prices from which such price is calculated, if specified in the applicable Final Terms).

Trading Disruption means (as determined by the Calculation Agent) a material suspension of, or a material limitation imposed on, trading in any Index Component. Without limiting the exercise of judgment by the Calculation Agent, the following events will generally be deemed to constitute a Trading Disruption:

- (i) all trading in an Index Component is suspended for the entire Pricing Date;

- (ii) if the relevant Exchange establishes limits on the range within which the price of an Index Component may fluctuate, and the closing or settlement price of that Index Component on a Pricing Date is at the upper or lower limit of such range;
- (iii) all trading in the Index Component is suspended subsequent to the opening of trading on the Pricing Date, and trading does not recommence at least ten (10) minutes prior to, and continue until, the regularly scheduled close of trading in such Index Component on such Pricing Date; or
- (iv) if the relevant Exchange establishes limits on the range within which the price of an Index Component may fluctuate, and the price of that Index Component on a Pricing Date has, at any time during the last ten (10) minutes prior to the regularly scheduled close of trading in such Index Component on such Pricing Date, traded at the upper or lower limit of such range.

4. Definitions Relating to Additional Disruption Events

Additional Disruption Event means, with respect to a Commodity Linked Security each of (i) Change in Law, (ii) Hedging Disruption Event, (iii) Increased Costs of Hedging, and (iv) any other event specified as such in the applicable Final Terms.

Change in Law means that, on or after the Trade Date (i) due to any action, adoption or any change in (or the announcement of the intention to take any action or make an adoption that could result in any change in) any applicable law or regulation (including, without limitation, any tax law or Sanctions), or any order, ruling, rule or procedure of any regulatory or tax authority or exchange (each, an **Applicable Regulation**) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal, other judicial, legislative or regulatory authority with competent jurisdiction in relation to any Applicable Regulation (including, without limitation, any action taken by a taxing authority, Sanctions Authority, the United States Commodity Futures Trading Commission (**CFTC**), or exchange or trading facility acting under authority granted by the CFTC pursuant to the United States Commodity Exchange Act of 1936, as amended):

- (i) the Issuer determines (in its sole and absolute discretion) that it has or may become illegal for the Issuer and/or any of its Affiliates to hold, acquire, deal in or dispose of the Hedge Positions relating to the Commodity Linked Securities, or
- (ii) the Issuer determines (in its sole and absolute discretion) that the Issuer or any of its Affiliates will incur a materially increased cost in performing their obligations under the Commodity Linked Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on their tax position).

Hedging Disruption Event: means that the Issuer and/or any of its Affiliates has or will become unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hedge Positions (whether in whole or in part) relating to the Commodity Linked Securities, or (ii) realise, recover or remit the proceeds of any such Hedge Positions.

Hedge Positions means, any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, options, futures, derivatives, foreign exchange or other assets, or (ii) other instruments, arrangements or transactions (howsoever described) by the Issuer or any of its Affiliates in order to hedge, in a manner acceptable to the hedging party, individually or on a portfolio basis or otherwise, the Issuer's obligations in respect of the Commodity Linked Securities.

Increased Costs of Hedging means that the Issuer and/or any of its Affiliates has or will incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty,

cost, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hedge Positions (whether in whole or in part) with respect to the Commodity Linked Securities, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Costs of Hedging.

5. Definitions Relating to Commodity Index Adjustment Events

Commodity Index Adjustment Event means an Index Cancellation, Index Disruption, Index Modification or Index Restriction Event.

Index Cancellation means that the Commodity Index is permanently cancelled or the Index Sponsor announces its intention to permanently cancel the Index or that it will no longer calculate and announce the relevant Index Reference Price utilised in relation to the Commodity Linked Securities and no Successor Index exists.

Index Disruption means that the Index Sponsor fails to calculate and/or announce the relevant Index Reference Price in relation to the Commodity Linked Securities (a) at any time following the Trade Date for a continuous period of ten (10) Index Business Day and/or (b) in respect of any Pricing Date or any other day on which the Calculation Agent would otherwise be required to determine the Index Reference Price.

6. Certain General Definitions Relating to Commodity Reference Prices

(a) *Rolling and Commodity Reference Prices*

Commodity futures contracts normally have stated expirations and, at a specified point in time prior to such expiration, trading in a specific commodity futures contract for the current delivery month will cease. In addition, commodities futures contracts will usually specify a date certain for, or a period during which, delivery of the underlying physical commodity can be made; these "notice" days (or "notice period") relating to delivery can be on or begin before, after or even on the date of expiration of the futures contract. As a result, a market participant wishing to maintain its exposure to a futures contract on a particular commodity with the nearest expiration must close out its position in the expiring contract and establish a new position in the contract for the next delivery month – taking into account the relevant notice days so that physical delivery of the commodity is not triggered – in a process referred to as "rolling". Market participants will routinely roll their futures positions in commodities, whether for outright investment purposes or in relation to hedging.

For example, a market participant has a long position in Cocoa-NYBOT May 2010 futures, the last trading day for these futures is 15 May 2010 and the first notice day relating to delivery is several weeks before on 20 April 2010. If the market participant wishes to maintain a position in the nearest delivery month then it will, as the May contract nears the first notice day, sell May futures, which serves to close out the existing long position, and buy July 2010 futures (July is the next Cocoa-NYBOT contract). This will "roll" the May position into a July position, and, when the May contract expires, the market participant will still have a long position in the nearest delivery month without having incurred any delivery obligations in relation to the May contract.

In cases where the first notice day for physical delivery relating to a commodity is on the same day as the last trading day, a market participant will take into account any liquidity issues in the relevant futures contract when deciding when it will roll its position. In some cases, there will be significant liquidity up until the last trading day and in others the opposite effect will take place, all of which will depend on the specific commodity in question and market conditions.

As a result of the foregoing, and with consideration to the Issuer's (or its Affiliates') hedging policy in relation to any Commodity Linked Security, the Commodity Reference Prices for certain commodities will provide for "rolling" provisions where a Pricing Date is within a notice period or on the last trading day of the relevant futures contract. These provisions will be specified in the applicable Final Terms (as demonstrated in the examples set forth below) in conjunction with the use of the following defined terms:

First Notice Day means, in respect of the relevant Futures Contract, the first day on which notice may be given for delivery of the commodity under such Futures Contract, as published by the relevant Exchange.

Last Trading Day means, in respect of the relevant Futures Contract, the final day during which trading may take place in such Futures Contract, as published by the relevant Exchange.

Last Trading Day Provisions (1st) means, that if a Pricing Date falls on the Last Trading Day of the expiring Futures Contract for the relevant Delivery Date, then the Specified Price of such Futures Contract (and not that of the immediately following Futures Contract) shall be used.

Last Trading Day Provisions (2nd) means, that if a Pricing Date falls on the Last Trading Day of the expiring Futures Contract for the relevant Delivery Date, then the Specified Price of the immediately following Futures Contract to expire after such Pricing Date shall be used.

Roll Provisions means, that if a Pricing Date:

- (i) falls in the period from, and including, the First Notice Day to, but excluding, the Last Trading Day of a Futures Contract for the relevant Delivery Date then the Specified Price of the second Futures Contract to expire immediately following such Pricing Date shall be used; or
- (ii) is on the Last Trading Day of the expiring Futures Contract for a relevant Delivery Date then the Specified Price of the immediately following Futures Contract to expire after such Pricing Date shall be used.

Example Commodity Reference Prices; Rolling

Relevant Commodity	Commodity Reference Price	Specified Price	Delivery Date
GOLD	GOLD-P.M. FIX	n/a	n/a
WTI	OIL-WTI-NYMEX	Settlement Price	First Nearby Month (subject to Last Trading Day Provisions (1st))

Where amounts are to be determined by reference to a Relevant Holding which is less than any minimum holding a Hypothetical Investor may hold, or is a fraction of a Fund Interest or if the Calculation Agent determines it appropriate to reflect hedging arrangements of the Issuer and/or its Affiliates, such determination may be made on an aggregated basis by reference to all Securities then outstanding.

Removal Date means, in respect of an Affected Fund Interest (as defined in Fund Condition 3 below), the date on which the Calculation Agent determines that a Hypothetical Investor would receive the Removal Value in respect of a redemption or realisation of such Affected Fund Interest effected as soon as reasonably practicable following the time at which the Calculation Agent determines the applicable consequence of the relevant Fund Event pursuant to Fund Linked Condition 4.

- (xxi) **Change in Law** means that, on or after the Trade Date (as specified in the applicable Final Terms) (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law or Sanctions), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or a Sanctions Authority), the Issuer or any of its Affiliates or agents acting on its behalf determines in good faith that (x) it has become illegal to hold, acquire or dispose of any Fund Interests, or (y) the Issuer will incur a materially increased cost in performing its obligations under the Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).
- (xxii) **Fund Hedging Disruption** means that the Issuer, any of its Affiliates or agents or the counterparty to the Issuer's hedging arrangements in respect of the Securities is unable, or it is impractical for such party, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary or appropriate to hedge the price risk with respect to the Securities, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), including, without limitation, where such inability or impracticability has arisen by reason of (x) any restriction on making new or additional investments in such Fund Interest, (y) any increase in charges or fees imposed by the relevant Fund on any investor's ability to redeem such Fund Interest, in whole or in part, or any existing or new investor's ability to make new or additional investments in such Fund Interest, or (z) any mandatory redemption, in whole or in part, of a Fund Interest imposed by the related Fund.
- (xxiii) **Increased Cost of Hedging** means that the Issuer, any of its Affiliates or agents or the counterparty to the Issuer's hedging arrangements in respect of the Securities would incur or has incurred a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary or appropriate to hedge the price risk with respect to the Securities, or (ii) realise, recover or remit the proceeds of any transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Cost of Hedging.

- (v) any other event that may have, in the opinion of the Calculation Agent, a diluting, concentrative or other effect on the theoretical value of relevant Fund Interests.

A Fund Potential Adjustment Event may be due to, for example but without limitation, the replacement of a portion of any Fund Interest with shares or units of or in relation to a side pocket or a special purpose vehicle to which the relevant Fund has linked or transferred any interest in its portfolio of assets (**Spin-off Fund Interests**).

4. Consequences of a Fund Event

Following the existence or occurrence of a Fund Event (whether or not such Fund Event is continuing), the Issuer may take the action described in any of paragraphs (i) to (iv) below as it determines appropriate to account for the relevant Fund Event. **For the avoidance of doubt, action may be taken any number of times under this provision, whether or not in relation to the same event and whether or not the consequence of such action is the same or different:**

- (i) The Issuer may require the Calculation Agent to make such determinations and/or adjustments to the Conditions and/or the applicable Final Terms as it determines appropriate to account for the Fund Event, which may include, without limitation:
 - (A) delaying any determination until it determines that no Fund Event exists;
 - (B) using an estimated or modified value of a Fund Interest or aggregate or other net asset value of the Fund (for any relevant purpose in connection with the Securities (which may, without limitation, include determining the related redemption proceeds or subscription price per Fund Interest to be paid to an investor) taking into account the occurrence or existence of the relevant Fund Event, the economic effect of the relevant Fund Event on such Fund Interest and prevailing market conditions, and by reference to such source(s) as it determines appropriate which may include, without limitation, the last communicated official and/or estimated Fund net asset value(s);
 - (C) making corresponding adjustments, if any, to any one or more of any of the terms of the Conditions and/or the applicable Final Terms (which may include, without limitation, delaying any Fund Publication Date and/or any date for payment or delivery under the Securities) as the Calculation Agent determines appropriate to account for the relevant Fund Event, the economic effect of the relevant Fund Event on the Securities and/or the hedging arrangements of the Issuer and/or its Affiliates and/or to preserve the economic objective and rationale of the Securities and determine the effective date of such adjustment(s), which may be applied by the Calculation Agent in the manner and, if applicable, applying such methodologies, as it determines appropriate in its sole discretion (and, without limitation, such

adjustment(s) may take into account any costs, expenses and/or regulatory capital requirements to which the Issuer and/or its Affiliates may be subject, whether in connection with the Fundamental Review of Trading Book or otherwise, or any other present or future costs of the Issuer and/or any of its Affiliates in relation to or in connection with such Fund Event and/or related hedging arrangements); and/or

- (D) in case of a Fund Potential Adjustment Event replace all or part of the Fund Interest by the kind and number of units or other securities and property received upon such subdivision, consolidation, reclassification, distribution, issue or repurchase or conveyance by a holder of Fund Interests (and, without limitation, this may include electing to treat Spin-off Fund Interests as additional Fund Interests) for the purposes of determining the value of the Fund Interest (and as appropriate make corresponding replacements of the fund issuer) and make any adjustment (if necessary) to the value of such Fund Interest and corresponding appropriate adjustments to any other terms of the Conditions and/or the applicable Final Terms to account for the economic effect on the Securities of the Fund Potential Adjustment Event and to preserve the economic objective and rationale of the Securities and that the Calculation Agent considers relevant; and/or
- (E) if "Fund Replacement following Fund Event" is specified as applicable in the applicable Final Terms, replacing a Fund Interest (the **Affected Fund Interest**) with one or more replacement fund interest(s) (the **Replacement Fund Interest**) in a fund which in the determination of the Calculation Agent has or have similar characteristics, investment objectives and policies to those applicable to the Fund to which the Affected Fund Interest relates immediately prior to the occurrence of the Fund Event and make any adjustments it deems appropriate to account for any replacement and/or to preserve the economic objective and rationale of the Securities and determine the effective date of such adjustment(s), which may be applied by the Calculation Agent in the manner and, if applicable, applying such methodologies, as it determines appropriate in its sole discretion (and, without limitation, such adjustment(s) may take into account any costs, expenses and/or regulatory capital requirements to which the Issuer and/or its Affiliates may be subject, whether in connection with the Fundamental Review of Trading Book or otherwise, or any other present or future costs of the Issuer and/or any of its Affiliates in relation to or in connection with the Fund Event and the replacement and/or related hedging arrangements). Such replacement shall be made on terms that the Relevant Holding of the Replacement Fund at or about the time of the replacement shall have a reported value as determined by the Calculation Agent as near as reasonably practical equal to the Removal Value for the Affected Fund Interest less any costs incurred by the Issuer and/or any of its Affiliates in relation to such Fund replacement (including costs incurred in relation to any hedging arrangements entered into by the Issuer and/or any of its Affiliates or agents in connection therewith).

If the Calculation Agent replaces an Affected Fund Interest with a Replacement Fund Interest, such replacement shall take effect on the first reasonably practicable date following the Removal Date for such Affected Fund Interest on which the Calculation Agent determines that a Hypothetical Investor could acquire the Replacement Fund Interest.

- (ii) The Issuer may, on giving notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, redeem or cancel, as applicable, all (but not some only) of the Securities, each Security being redeemed (in the case of N&C Securities) at the Early Redemption Amount or cancelled (in the case of W&C Securities) at the Early Cancellation Amount.

The Issuer may, on giving notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, redeem or cancel, as applicable, all (but not some only) of the Securities in accordance with paragraph (ii) above but, in respect of all or a part only of each Early Redemption Amount or Early Cancellation Amount, as the case may be, elect, in lieu of payment, to deliver or procure delivery of some or all of the relevant Fund Interests (or, if applicable, Spin-off Fund Interests) to which the Securities relate. Notification of such election will be given to Securityholders as soon as reasonably practicable after such election being made together with details of the procedures to be followed for such delivery and which may, without limitation, require Securityholders to give an asset transfer notice to the Issuer or its agent or give certain representations (which may include a representation that the Securityholder has taken independent advice to determine that, from a legal, regulatory and tax perspective, it is able to hold the relevant Fund Interests) or information to the Fund or observe similar procedures as a precondition to receiving such delivery (such requirements shall be set out in the above notice to Securityholders).

(iii) The Issuer may, on giving notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, elect to redeem or cancel, as applicable, such portion of all but not some only of the Securities, if any, as corresponds to the Fund Interests to which the Securities relate (or portion thereof) which the Calculation Agent determines could be realised by a Hypothetical Investor for immediately available cash proceeds following such election and in accordance with the timing of such proceeds payable to such Hypothetical Investor, in each case at a pro rata share of such cash proceeds (or such other amount as reflects the contribution of such Fund Interest(s) to the Securities) less all unwind costs, taxes and expenses incurred by the Issuer or any Affiliate or agent in such realisation. In respect of the remaining portion (which may be all) of the Securities the Issuer may at its option require the Calculation Agent to make further adjustments to account for the Fund Event and the partial redemption or cancellation. Payment of any amounts in respect of such partial redemption or cancellation, as applicable, will be made in such manner as shall be notified to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable.

(iv) The Issuer may elect that the provisions of Fund Linked Condition 5 shall apply to the Securities.

Upon taking any action described in sub-paragraphs (i) to (iv) above following the occurrence of a Fund Event, the Issuer shall give notice as soon as reasonably practicable to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, giving details of, to the extent applicable, (i) the relevant Fund Event, (ii) the action proposed to be taken in relation to such Fund Event, (iii) any adjustments to the values or weightings of any Fund Interest, (iv) any Replacement Fund Interest(s) and any adjustments to the terms of the Conditions and/or the applicable Final Terms, and (v) any redemption and cancellation of the Securities, Provided That any failure to give, or non-receipt of, such notice will not affect the validity of such action.

If both Change in Law and Sanctions Event are specified as applicable in the relevant Final Terms, where an event or circumstance that would otherwise (but for this provision) constitute a Sanctions Event also constitutes a Change in Law, the Issuer may determine in its discretion whether to apply either or both or none of such provisions as appropriate.

5. Maturity/ Coupon Payment Date/Settlement Date Extension

(i) Where the Calculation Agent determines that a Hypothetical Investor which submits one or more redemption requests for one or more Fund Interests in a timely manner to receive such redemption proceeds (**Redemption Proceeds**) as the Issuer may require to meet its scheduled periodic or final payment or delivery obligations (each a **Scheduled Obligation**) under the

Securities would not receive such Redemption Proceeds in respect of one or more of the Fund Interests in full on or prior to the time such Scheduled Obligations would be scheduled to fall due, the Calculation Agent may notify the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9 that the Maturity Date, relevant Coupon Payment Date or Settlement Date or any other relevant date for payment or delivery, as the case may be (the **Scheduled Obligation Date**), shall be postponed until the earlier of (i) such time (if any) as the Calculation Agent determines that the Redemption Proceeds in respect of all Affected Fund Interests would be received in full by a Hypothetical Investor (the **Delayed Receipt Date**) or (ii) the last day of the Delay Period (as defined below).

Delay Period means, unless otherwise specified in the applicable Final Terms, the date falling two years immediately following the relevant Scheduled Obligation Date.

- (ii) As soon as practicable following the Delayed Receipt Date the Calculation Agent shall give notice to Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9 and pay to each Securityholder the corresponding Scheduled Obligation provided that, if the Calculation Agent determines that a Hypothetical Investor would not have received any Redemption Proceeds in respect of the Affected Fund Interests on or prior to the last day of the Delay Period, the Issuer's obligation to pay the relevant Scheduled Obligation shall be cancelled and the Issuer shall have no further obligations in respect of such obligation and, if no other Scheduled Obligation remains outstanding, the Securities shall be cancelled and the Issuer have no further obligations in respect thereof. The Issuer shall not be obliged to pay any additional amount or interest payment as a result of any such delay or (in the case of interest bearing Fund Linked N&C Securities) any additional interest amount.
- (iii) Where the Calculation Agent determines that some but not all Redemption Proceeds (and/or Redemption Proceeds in respect of some but not all Affected Fund Interests) would be received by a Hypothetical Investor on or prior to the last day of the Delay Period (any such day of receipt, a **Receipt Date**) the Issuer will either:
 - (x) elect to pay a *pro rata* share of such partial Redemption Proceeds or such other amount as reflects the contribution of the Affected Fund Interest(s) to the Scheduled Obligation (the **Relevant Amount**), to Securityholders as soon as reasonably practicable following each such Receipt Date which occurs up to and including the Delayed Receipt Date, as provided above, or the last day of the Delay Period (as defined above), as the case may be; or (at its option)
 - (y) elect to pay, in respect of each Security, the sum of all Relevant Amounts determined for that Security at the earlier of (A) the Delayed Receipt Date, as provided above, and (B) the last day of the Delay Period (as defined above), as the case may be, together with an amount representing such interest at a SONIA, SOFR, €STR, SARON or other relevant funding rate as the Calculation Agent determines would have accrued (on a compound basis) on the Securityholder's *pro rata* share of such partial Redemption Proceeds had such partial Redemption Proceeds been placed on deposit with the Issuer in London, in each case in the period from and including the relevant Receipt Date to but excluding the second Business Day immediately prior to the due date for payment to Securityholders.

Following payment pursuant to (x) or (y) above the Issuer's obligation to pay the relevant Scheduled Obligation shall be cancelled and the Issuer shall have no further obligations in respect of such obligation and, if no other Scheduled Obligation remains outstanding, the Securities shall be cancelled and the Issuer have no further obligations in respect thereof.

6. Provisions relating to Exchange Traded Funds

Fund Linked Conditions 6 to 12 (inclusive) apply in respect of Securities relating to Exchange Traded Funds (as specified in the applicable Final Terms).

The Calculation Agent shall determine the Final Redemption Amount and/or any Coupon Amounts or other values or amounts (in the case of Fund Linked N&C Securities) or the Cash Settlement Amount or other values or amounts (in the case of Fund Linked W&C Securities) as specified in, or determined in the manner specified in, the Conditions and/or the applicable Final Terms and this may be by reference to certain reported values of an ETF as specified in the applicable Final Terms. In all cases the terms applicable to Fund Linked Securities are subject to adjustment in accordance with Fund Linked Conditions 8, 9 and 10 below to take account of any Market Disruption Event, Disrupted Day, Potential Adjustment Event, De-listing, Insolvency, Material Underlying Event, Merger Event, Nationalisation or Tender Offer. All determinations of the Calculation Agent under these Fund Linked Conditions shall be made acting in good faith and a commercially reasonable manner in accordance with the provisions of N&C Securities Condition 14 (in the case of N&C Securities) or W&C Securities Condition 8.2 (in the case of W&C Securities). **For the avoidance of doubt nothing in these Fund Linked Conditions shall require the Calculation Agent, the Issuer or the Guarantor (if any) to monitor any ETF or Fund Share on an on-going basis and no representation (express or implied) is made that there will be any such monitoring.**

8. Disrupted Days

8.1 Disrupted Day

Market Disruption Event means, in respect of a Fund Share:

- (a) the occurrence or existence at any time during the one hour period that ends at the relevant Valuation Time:
 - (x) of any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise:
 - (A) relating to the relevant Fund Share on such Exchange; or
 - (B) relating to securities that comprise 20 per cent. or more of the level of the relevant Underlying Index or any relevant successor index; or
 - (C) in futures or options contracts relating to such Fund Shares or the relevant Underlying Index on any relevant Related Exchange (**Trading Disruption**); or
 - (y) of any event (other than an event described in (b) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to (i) effect transactions in, or obtain market values for, the Fund Shares on the Exchange, (ii) effect transactions in, or obtain market values for securities that comprise 20 per cent. or more of the level of the relevant Underlying Index, or (iii) to effect transactions in, or obtain market values for, futures or options contracts relating to such Fund Shares or the relevant Underlying Index on any relevant Related Exchange (**Exchange Disruption**); or
- (b) the closure on any Exchange Business Day of any relevant Exchange(s) or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or such Related Exchange(s), as the case may be, at least one hour prior to (A) the actual closing time for the regular trading session on such Exchange(s) or such Related Exchange on such Exchange Business Day or, if earlier, (B) the submission deadline for orders to be entered into such Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day (**Early Closure**),

For the purpose of determining whether a Market Disruption Event exists in respect of a Fund Share at any time, if an event giving rise to a Market Disruption Event occurs in respect of a security included in the relevant Underlying Index at that time, then the relevant percentage contribution of that security, to the level of the relevant Underlying Index shall be based on a comparison of (i) the portion of the level of the relevant Underlying Index attributable to that security, and (ii) the overall level of the relevant Underlying Index immediately before the occurrence of such Market Disruption Event.

The Issuer shall give notice as soon as practicable to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been a Valuation Date or an Averaging Date provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Disrupted Day.

8.2 Consequences of Disrupted Days

Single Valuation/Averaging Dates

Where the Securities relate to the Fund Shares of a single ETF and the Calculation Agent determines that any Valuation Date or Averaging Date is a Disrupted Day in respect to the Fund Shares of that ETF, then the relevant Valuation Date or Averaging Date, as applicable, shall be the first succeeding Scheduled Trading Day that the Calculation Agent determines is not a Disrupted Day provided that:

- (a) such day shall be no later than the Disruption Cut-off Date, notwithstanding that such day is a Disrupted Day in respect of the relevant Fund Shares; and
- (b) the Calculation Agent shall determine its good faith estimate of the value for such Fund Shares that would have prevailed but for that Disrupted Day as of the Valuation Time on that Disruption Cut-off Date.

8.3 Fund Basket and Mixed Basket Valuation/Averaging Dates

Where the Securities relate to a Fund Basket or a Mixed Basket and the Calculation Agent determines that any Valuation Date or Averaging Date is a Disrupted Day in respect of any Fund Shares comprising the relevant Fund Basket or Mixed Basket, then:

- (i) the Valuation Date or Averaging Date, as applicable, for each Fund Share which the Calculation Agent determines is not affected by the occurrence of a Disrupted Day shall be the scheduled Valuation Date or Averaging Date, as applicable; and
- (ii) the Valuation Date or Averaging Date, as applicable, for each Fund Share which the Calculation Agent determines is affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that the Calculation Agent determines is not a Disrupted Day relating to that Fund Share, provided that (A) such day shall be no later than the Disruption Cut-off Date, notwithstanding that such day is a Disrupted Day in respect of the Fund Share and (B) the Calculation Agent shall determine its good faith estimate of the value for such Fund Shares that would have prevailed but for that Disrupted Day as of the Valuation Time on that Disruption Cut-off Date.

9. Potential Adjustment Events

Potential Adjustment Event means any of the following:

- (i) a subdivision, consolidation or reclassification of relevant Fund Shares (unless resulting in a Merger Event or Tender Offer), or a free distribution or dividend of any such Fund Shares to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of the relevant Fund Shares of (a) such Fund Shares or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the ETF equally or proportionately with such payments to holders of such Fund Shares or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the ETF as a result of a spin-off or other similar

transaction, or (d) any other type of securities, rights or warrants or other assets in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;

- (iii) an extraordinary dividend as determined by the Calculation Agent;
- (iv) a call by the ETF in respect of relevant Fund Shares that are not fully paid;
- (v) a repurchase by the ETF or any of its subsidiaries of relevant Fund Shares, whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) in respect of an ETF, an event that results in any shareholder rights being distributed or becoming separated from Fund Shares of common stock or other shares of the capital stock of the ETF pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent;
- (vii) any redemption of such rights as are referred to in (vi) above; or
- (viii) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Shares.

Following a Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Shares or on the composition of the Fund Basket or Mixed Basket, as applicable, and, if so, the Calculation Agent will determine and make the appropriate adjustment(s), if any, to be made to one or more of any variable(s) relevant to the exercise, settlement, payment or other terms of the Securities as the Calculation Agent determines appropriate to account for the Potential Adjustment Event and determine the effective date(s) of that adjustment(s) (which may include but shall not be limited to adjustment(s) to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Fund Share). The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Fund Shares traded on such options exchange.

Upon the making of any such adjustment, the Calculation Agent shall as soon as is reasonably practicable under the circumstances give notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, stating the adjustment made and giving brief details of the Potential Adjustment Event, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such adjustment.

10. De-listing, Insolvency, Material Underlying Event, Merger Event, Nationalisation and Tender Offer

10.1 De-listing, Insolvency, Material Underlying Event, Merger Event, Nationalisation and Tender Offer

If a De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event (in each case as defined below) occurs in relation to any Fund Share, the Issuer may take the action described in (i), (ii), (iii), (iv) or (v) below:

- (i) require the Calculation Agent to determine the appropriate adjustment(s), if any, to be made to any terms of the Conditions and/or the applicable Final Terms to account for the De-listing,

Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event, as the case may be, and determine the effective date(s) of such adjustment(s) and for these purposes (a) the Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of the relevant event made by any options exchange to options on the relevant Fund Share traded on that options exchange and the relevant adjustments may in the case of adjustments following a Merger Event or Tender Offer include, without limitation, adjustments to account for changes in volatility, stock loan rate or liquidity relevant to the Fund Shares and/or (b) in the case of a Fund Basket or Mixed Basket, the Calculation Agent may remove the affected Fund Share from the Fund Basket or Mixed Basket and make such adjustments to the Securities as it determines appropriate (which may, without limitation, include any value or weighting of the remaining Fund Shares) in order to account for the price or value of the affected Fund Share at the time of its removal as well as the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements (and this may mean that the economic benefit of the Securities for the Securityholder is reduced or that the removal of the Fund Share has a material adverse effect on the Securities);

- (ii) where the Fund Linked Securities relate to a Fund Basket or a Mixed Basket, on giving notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, redeem each N&C Security or cancel each W&C Security, as applicable, in part. If a Security is so redeemed or cancelled in part the portion (the **Partial Amount**) of each such Security representing the affected Fund Share(s) shall be redeemed or cancelled, as applicable, and the Issuer will (x) pay to each Securityholder in respect of each Security held by them an amount equal to the fair market value of the Partial Amount, taking into account the Merger Event, De-listing, Nationalisation, Insolvency, Tender Offer or Material Underlying Event, as the case may be, less the cost to the Issuer and/or any Hedging Party of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent; and (y) require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any of the Conditions and/or the applicable Final Terms to account for such redemption or cancellation in part. For the avoidance of doubt the remaining part of each such Security after such redemption or cancellation and adjustment shall remain outstanding with full force and effect (subject to adjustment as provided above). Payments will be made in such manner as shall be notified to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable;
- (iii) give notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and redeem or cancel, as applicable, all, but not some only, of the Securities, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount;
- (iv) if "Options Exchange Adjustment" is specified as applicable in the applicable Final Terms, following such adjustment to the settlement terms of options on the Fund Shares traded on such exchange(s) or quotation system(s) as the Issuer shall select (the **Options Exchange**), require the Calculation Agent to make a corresponding adjustment to any one or more of the Conditions and/or the applicable Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the Fund Shares are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of the Conditions and/or the applicable Final Terms as the Calculation Agent determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event, as the case may be, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or

- (v) if "Fund Share Substitution" is specified as applicable in the applicable Final Terms, then on or after the relevant Merger Date, De-listing, Nationalisation, Insolvency, Tender Offer Date or Material Underlying Event, as the case may be, require the Calculation Agent to adjust the Conditions and/or the applicable Final Terms to include fund shares (the **Substitute Fund Shares**) selected by the Calculation Agent in accordance with the criteria for fund share selection (**Fund Share Substitution Criteria**), if any, set out in the applicable Final Terms, or otherwise as provided below, in place of the Fund Share(s) (for the purposes of this Fund Linked Condition 10, the **Affected Fund Share(s)**) which are affected by such Merger Event, De-listing, Nationalisation, Insolvency, Tender Offer or Material Underlying Event and the Substitute Fund Shares will, from the date so determined by the Calculation Agent (the **Fund Share Substitution Date**) be deemed to be "Fund Shares" and the relevant ETF (the **Substitute ETF**), an "ETF" for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to any of the Conditions and/or the applicable Final Terms as the Calculation Agent determines appropriate and the provisions of Fund Linked Condition 10.2 below shall apply. If "Fund Share Substitution" is specified as applicable in the applicable Final Terms but no Fund Share Substitution Criteria are set out in the Final Terms, the Calculation Agent will use reasonable endeavours to ensure that, to the extent practicable, any Substitute ETF will (i) have fund shares quoted in the same currency and (ii) be traded on the same exchange as the ETF in respect of the Affected Fund Shares, in each case at the time of substitution.

Upon the occurrence of a De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event, the Issuer shall give notice as soon as practicable to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, stating the occurrence of the De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event, as the case may be.

For the avoidance of doubt nothing in these Fund Linked Conditions shall require the Calculation Agent, the Issuer or the Guarantor (if any) to monitor any ETF or Fund Share on an on-going basis and no representation (express or implied) is made that there will be any such monitoring.

Where:

De-listing means, in respect of a Fund Share, that the relevant Exchange announces that pursuant to the rules of such Exchange, such Fund Share ceases (or will cease) to be listed, traded or publicly quoted on such Exchange for any reason (other than a Merger Event or Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in a member state of the European Union).

Insolvency means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting an ETF, (A) all the Fund Shares of that ETF are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Fund Shares of that ETF become legally prohibited from transferring them.

Material Underlying Event means any of the following:

- (i) the investment objectives and/or policies in respect of the ETF are materially changed;

- (ii) an illegality occurs or a relevant authorisation or licence is revoked in each case in respect of the ETF and/or the ETF is required by a competent authority (other than any holder of the Fund Shares) to redeem any Fund Shares;
- (iii) other than where the following constitutes an Additional Disruption Event, there is a change in any relevant jurisdiction in respect of any payments made by the ETF in respect of any Fund Share as a result of which the amounts paid or to be paid by the Issuer in connection with hedging arrangements relating to the Securities are materially reduced or otherwise adversely affected; and/or
- (iv) other than where the following constitutes an Additional Disruption Event, any other event occurs in relation to the ETF and/or the Fund Shares which is materially prejudicial to the Issuer in connection with the issue of the Securities or any hedging arrangements relating to the Securities,

all as determined by the Calculation Agent.

Merger Event means, in respect of any relevant Fund Shares, any (i) reclassification or change of such Fund Shares that results in a transfer of or an irrevocable commitment to transfer all of such Fund Shares outstanding to another entity or person, (ii) consolidation, amalgamation, merger or binding share exchange of the ETF with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such ETF is the continuing entity and which does not result in any such reclassification or change of all such Fund Shares outstanding) or (iii) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Fund Shares of the relevant ETF that results in a transfer of or an irrevocable commitment to transfer all such Fund Shares (other than such Fund Shares owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the ETF or its subsidiaries with or into another entity in which the ETF is the continuing entity and which does not result in a reclassification or change of all such Fund Shares outstanding but results in the outstanding Fund Shares (other than Fund Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Fund Shares immediately following such event (a **Reverse Merger**).

Nationalisation means that all the Fund Shares or all or substantially all the assets of an ETF are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

Tender Offer means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the relevant ETF, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

Tender Offer Date means, in respect of a Tender Offer, the date on which voting shares in the amount of the applicable percentage threshold are actually purchased or otherwise obtained (as determined by the Calculation Agent).

10.2 Valuation of Fund Shares of Substitute ETFs

For the purposes of any adjustments to account for a Fund Share substitution as referred to in Fund Linked Condition 10.1(v) above, the Calculation Agent shall adjust the relevant values, levels, variables or terms for the valuation or observation of the Substitute Fund Shares in the terms of the

Securities in order to account for the price or value of the Affected Fund Shares at the time of their removal as well as the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements. This may mean that the economic benefit, if any, of the Fund Share substitution for the Securityholder is reduced or that the Fund Share substitution has a material adverse effect on the Securities. For example, and without limitation, the value of the Substitute Fund Shares may be adjusted by the same proportion as any fall in value of the Affected Fund Share at the time of its removal relative to the Trade Date and may be further reduced to account for the cost to the Issuer and/or any Affiliate of adjusting any associated hedging arrangements.

11. Correction of Fund Share Prices

If the price of a Fund Share published on any Valuation Date, Averaging Date or any other date for Fund Share valuation or observation, as the case may be, by the relevant Exchange and which is utilised for any calculation or determination made for the purposes of the Securities (a **Relevant Calculation**) is subsequently corrected and the correction (the **Corrected Fund Share Price**) published by the relevant Exchange no later than two Business Days prior to the date of payment of any amount calculated by reference to the Relevant Calculation then the Calculation Agent may, but shall not be required to, treat such Corrected Fund Share Price as the relevant price for such Fund Share on such Valuation Date, Averaging Date or other relevant date, as the case may be, and the Calculation Agent shall use such Corrected Fund Share Price in determining the Relevant Calculation.

12. Consequences of Additional Disruption Events

In the event that an Additional Disruption Event occurs as determined by the Calculation Agent, then the Calculation Agent shall either (a)(i) make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Calculation Agent determines appropriate to account for such Additional Disruption Event and (ii) determine the effective date of that adjustment, or (b) if the Calculation Agent determines that no adjustment that it could make under (a) will produce a commercially reasonable result, notify the Issuer thereof in which event the Issuer may redeem or cancel all, but not some only, of the Securities as of such date as the Calculation Agent shall determine by notice given to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount. Payment in respect of such early redemption or cancellation shall be made as specified in such notice to Securityholders.

- (b) the government or other relevant authority with jurisdiction in a relevant Fund Currency Jurisdiction giving public notice of its intention to impose any capital controls which the Calculation Agent determines are likely (i) to have a material affect on the ability of any of the Issuer or its Affiliates to hedge its foreign exchange risk in respect of the relevant Fund Currency(ies) or unwind any such hedging transaction or (ii) to reduce the value of any such hedging transaction,

the Issuer may take the action described in (A) or (B) below as it deems appropriate:

- (A) require the Calculation Agent to determine an exchange rate (or alternative method for determining the exchange rate) for conversion of the relevant Fund Currency(ies) into the Specified Currency or Settlement Currency, as applicable, taking into consideration all available information that in good faith it deems relevant; or

(B) postpone the date of any relevant valuation, observation and/or payment date in respect of the Securities for so long as, in the opinion of the Calculation Agent, any of the events described in (a) or (b) above have occurred or are continuing.

17.2 In the event that the Fund Currency in respect of a Fund Interest or a Fund Share (as applicable) ceases to be the currency in which such Fund Interest or Fund Share is traded or settled (in the determination of the Calculation Agent), the Issuer may determine the appropriate adjustment(s), if any, to be made to any one or more of the Conditions to account for such circumstance and determine the effective date of such adjustment(s). Details of any such adjustment(s) shall be notified to Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, provided that any failure by the Issuer to provide such notice shall not affect the validity of any such adjustment(s).

As used in this Fund Linked Condition 17, **Fund Currency Jurisdiction** means any jurisdiction in which the relevant Fund Currency is the lawful currency selected by the Calculation Agent.

1. INDEX DELAY AND DISRUPTION EVENT PROVISIONS

1.1 Delay of Publication

If the Calculation Agent determines that any Index Level for a Reference Month which is relevant to the calculation of any payment or delivery under the Securities and/or any other determination in respect of the Securities (a **Relevant Level**) has not been published or announced by the related Cut-off Date, the Calculation Agent shall determine an alternative level in place of such Relevant Level (a **Substitute Index Level**) by using the following methodology:

- (i) if Related Bond is specified as applicable in the applicable Final Terms, the Calculation Agent shall take the same action to determine the Substitute Index Level for the applicable Payment/Delivery Date or date for determination, as applicable, as that taken pursuant to the terms and conditions of the relevant Related Bond;
- (ii) if (I) Related Bond is not specified as applicable in the applicable Final Terms, or (II) the Calculation Agent is not able to determine a Substitute Index Level pursuant to paragraph (i) above for any reason, then the Calculation Agent shall determine the Substitute Index Level by reference to the following formula:

Substitute Index Level = Base Level x (Latest Level/Reference Level); or

- (iii) otherwise in accordance with any formula or method specified in the applicable Final Terms,

where:

Base Level means the Index Level (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

Latest Level means the latest Index Level (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined.

Reference Level means, in respect of an Index, the Index Level (excluding any "flash" estimates) published or announced by the relevant Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in "Latest Level" above.

If a Relevant Level is published or announced at any time on or after the Cut-off Date then, subject as provided in Inflation Linked Condition 1.3.3(c), such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Inflation Linked Condition 1.1 will be the definitive level for that Reference Month.

The Issuer shall give notice to Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, of any Substitute Index Level calculated pursuant to this Inflation Linked Condition 1.1.

1.2 Cessation of Publication

If the Calculation Agent determines that the Index Level has not been published or announced by the relevant Index Sponsor for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce such Index and/or the Index Sponsor cancels the Index, then the Calculation Agent shall determine a successor index in lieu of any previously applicable Index (a **Successor Index**) for the purposes of the Securities by using the following methodology:

- (i) if Related Bond is specified as applicable in the applicable Final Terms, the Calculation Agent shall determine a Successor Index by reference to the corresponding successor index determined under the terms and conditions of the Related Bond;
- (ii) if (x) Related Bond is not specified as applicable in the applicable Final Terms, or (y) a Related Bond Redemption Event has occurred, is specified as applying in the applicable Final Terms and "Fallback Bond" is not specified as applicable in the applicable Final Terms, the Index Sponsor announces that it will no longer publish or announce the Index but that it will be superseded by a replacement Index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be deemed the Successor Index for the purposes of the Securities from the date that such replacement Index comes into effect;
- (iii) if no Successor Index has been determined under paragraphs (i) or (ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Index should be. If at least four responses are received, and of those four or five responses, three or more leading independent dealers state the same index, such index will be deemed the Successor Index. If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the Successor Index. If fewer than three responses are received by the Cut-off Date or no Successor Index is determined pursuant to this provision, the Calculation Agent will apply the provisions of paragraph (iv) below;

- (iv) if no Successor Index has been determined pursuant to paragraphs (i), (ii) or (iii) above, by the next occurring Cut-off Date, subject as provided below, the Calculation Agent will determine an appropriate alternative index as of such Cut-off Date, and such index will be deemed the Successor Index for the purposes of the Securities;
- (v) if the Calculation Agent determines that there is no appropriate alternative index, in relation to:
 - (a) N&C Securities, then the Issuer shall give notice to the Securityholders in accordance with N&C Securities Condition 16 and redeem all (but not some only) of the N&C Securities, each N&C Security being redeemed at the Early Redemption Amount; or
 - (b) W&C Securities, then the Issuer shall give notice to the Securityholders in accordance with W&C Securities Condition 9 and cancel all (but not some only) of the W&C Securities, each W&C Security being cancelled at the Early Cancellation Amount.

In each case, payments will be made on the Cessation of Publication Termination Date in such manner as shall be notified to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable. For these purposes, the **Cessation of Publication Termination Date** shall be the fifth Business Day immediately following the date of the notice of termination to Securityholders or such other date as may be specified in such notice.

In relation to the determination of any Successor Index in accordance with this Inflation Linked Condition 1.2, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the relevant Index for the purposes of the Securities. Notice of the determination of a Successor Index and the effective date of the Successor Index shall be given to Securityholders by the Issuer in accordance with N&C Securities Condition 16 or W&C Securities Condition 9 as applicable.

1.3 Adjustments

1.3.1 Successor Index

If a Successor Index is determined in accordance with Inflation Linked Condition 1.2 above, the Calculation Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Securities and/or any other relevant term of the Securities as the Calculation Agent deems necessary to account for this. The Issuer shall give notice to the Securityholders of any such adjustment in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable.

1.3.2 Substitute Index Level

If the Calculation Agent determines a Substitute Index Level in accordance with Inflation Linked Condition 1.1, the Issuer may make any adjustment or adjustments (without limitation) to (x) the Substitute Index Level determined in accordance with Inflation Linked Condition 1.1 and/or (y) any amount payable under the Securities and/or any other relevant term of the Conditions as the Calculation Agent deems necessary in connection therewith. The Issuer shall give notice to the Securityholders of any such adjustment in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable.

1.3.3 Index Level Adjustment Correction

- (a) The first publication or announcement of the Relevant Level (excluding any "flash" or other estimates) by the Index Sponsor for any Reference Month shall be final and conclusive and, subject to Inflation Linked Condition 1.3.5(b) below, later revisions to the level for such Reference Month will not be used in any calculations, save that in respect of the EUR-All Items-Revised Consumer Price Index, the ESP National-Revised Consumer Price Index (CPI) and the ESP Harmonised-Revised Consumer Price Index HCPI, revisions to the Relevant Level which are published or announced up to and including the day that is two Business Days prior to any relevant Payment/Delivery Date or date of such other applicable determination under the Securities, as applicable, will be valid and the revised Relevant Level for the relevant Reference Month will be deemed to be the final and conclusive Relevant Level for such Reference Month. The Issuer shall give notice to the Securityholders of any valid revision in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable.
- (b) If, within 30 days of publication or at any time prior to a Payment/Delivery Date or date of such other applicable determination under the Securities, as applicable, in respect of which a Relevant Level will be used in any calculation or determination in respect of the Securities, the Calculation Agent determines that the Index Sponsor has corrected the Relevant Level to correct a manifest error, the Calculation Agent may make any adjustment to any amount payable under the Securities and/or any other relevant term of the Securities as the Calculation Agent deems appropriate as a result of that correction. The Issuer shall give notice to the Securityholders of any such adjustment and/or amount in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable.
- (c) If a Relevant Level is published or announced at any time after any Cut-off Date in respect of a Payment/Delivery Date in respect of which a Substitute Index Level was determined, the Calculation Agent may either (A) determine that such Relevant Level shall not be used in any calculation or determination under the Securities and that the Substitute Index Level shall be deemed to be the definitive Relevant Level for the relevant Reference Month, or (B) request the Issuer to make any adjustment to any amount payable under the Securities and/or any other relevant term of the Securities as it deems appropriate as a result of the announcement or publication of the Relevant Level and/or determine the amount (if any) that is payable as a result of such publication or announcement. The Issuer shall give notice to the Securityholders of any determination in respect of (A) or (B), together with any adjustment and/or amount in respect thereof, in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable.

1.3.4 Rebasing

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the **Rebased Index**) will be used for purposes of determining the Index Level from the date of such rebasing (the **Rebased Index Level**). Notwithstanding the foregoing, the Calculation Agent may (A) if Related Bond is specified as applicable in the applicable Final Terms, make any adjustments as are made pursuant to the terms and conditions of the Related Bond, if any, to the Rebased Index Levels so that the Rebased Index Levels reflect the same rate of inflation as the Index before the rebasing and/or (B) if Related Bond is not specified as applicable in the applicable Final Terms or a Related Bond Redemption Event is specified as applying in the applicable Final Terms and has occurred, the Calculation Agent may make adjustments to the levels of the Rebased Index so that the

Rebased Index Levels reflect the same rate of inflation as the Index before it was rebased and in each case the Issuer may make any adjustments to any amount payable under the Securities and/or any other term of the Securities as the Calculation Agent may deem necessary. Notice of any such adjustment and the effective date thereof shall be given to Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable.

If "Acceleration upon Rebasing of Index" is specified as applicable in the applicable Final Terms and the Calculation Agent determines that neither (A) nor (B) above would produce a commercially reasonable result, the Issuer may:

- (a) in the case of N&C Securities, give notice to the Securityholders in accordance with N&C Securities Condition 16 and redeem all (but not some only) of the N&C Securities, each N&C Security being redeemed at the Early Redemption Amount; or
- (b) in the case of W&C Securities, give notice to the Securityholders in accordance with W&C Securities Condition 9 and cancel all (but not some only) of the W&C Securities, each W&C Security being cancelled at the Early Cancellation Amount.

In each case, payments will be made on the Rebasing Acceleration Date in such manner as shall be notified to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable. For these purposes, the **Rebasing Acceleration Date** shall be the fifth Business Day immediately following the date of the notice of termination to Securityholders or such other date as may be specified in such notice.

1.3.5 Index Modification

- (a) If on or prior to the Cut-off Date in respect of any Payment/Delivery Date, the Calculation Agent determines that an Index Modification has occurred the Calculation Agent may (A) if Related Bond is specified as applicable in the applicable Final Terms, make any adjustments to the Index, any Relevant Level and/or any other relevant term of the Securities (including, without limitation, any amount payable under the Securities), consistent with any adjustments made to the Related Bond as the Calculation Agent deems necessary, or (B) if Related Bond is not specified as applicable in the applicable Final Terms or a Related Bond Redemption Event has occurred, make only those adjustments to the Index, any Relevant Level and/or any other term of the Securities (including, without limitation, any amount payable under the Securities), as the Calculation Agent deems necessary for the modified Index to continue as the Index and to account for the economic effect of the Index Modification.
- (b) If the Calculation Agent determines that an Index Modification has occurred at any time after the Cut-off Date in respect of any Payment/Delivery Date, the Calculation Agent may determine either to ignore such Index Modification for the purposes of any calculation or determination made by the Calculation Agent with respect to such Payment/Delivery Date, in which case the relevant Index Modification will be deemed to have occurred with respect to the immediately succeeding Payment/Delivery Date such that the provisions of sub-paragraph (a) above will apply, or, notwithstanding that the Index Modification has occurred following the Cut-off Date, to make any adjustments as the Calculation Agent deems fit in accordance with sub-paragraph (a) above.
- (c) Notice of any adjustment made in accordance with this Inflation Linked Condition 1.3.5 and the effective date thereof shall be given to Securityholders in

accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable.

1.3.6 Rounding

For purposes of any calculations by the Calculation Agent in connection with the Index, all percentages resulting from such calculations will be rounded, if necessary, either:

- (a) if Related Bond is specified as applicable in the applicable Final Terms, in accordance with the rounding conventions of the documentation governing the Related Bond; or
- (b) if Related Bond is not specified as applicable in the applicable Final Terms, (x) in respect of percentages determined through the use of interpolation by reference to two Index Levels, in accordance with the method set forth in subsection (y) below, but to the same degree of accuracy as the two rates used to make the calculation (except that such percentages will not be rounded to a lower degree of accuracy than the nearest one thousandth of a percentage point (0.001 per cent.)), (y) in all other cases, to the nearest one hundred-thousandth of a percentage point (e.g., 9.876541 per cent. (or.09876541) being rounded down to 9.87654 per cent. (or.0987654) and 9.876545 per cent. (or.09876545) being rounded up to 9.87655 per cent. (or.0987655)),

and if subsection (b) of this Rounding provision is applicable, all currency amounts used in or resulting from any calculations by the Calculation Agent in connection with the Index will be rounded in the manner indicated for each of the currencies set forth below, and to the nearest two decimal places in the relevant currency (with.005 being rounded upwards (e.g.,.674 being rounded down to.67 and .675 being rounded up to .68)) if the currency is other than those currencies set forth below. Notwithstanding the above, the following currencies shall be subject to rounding as follows:

- (i) Chilean Peso: round to the nearest whole Chilean Peso (with one half Chilean Peso being rounded up);
- (ii) Hungarian Forint: round to the nearest whole Hungarian Forint (with one half Hungarian Forint being rounded up);
- (iii) Japanese Yen: round down to the next lower whole Japanese Yen; and

maturing on the End Date, or (c) a day that is the closest to but preceding the End Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation linked bonds issued on or before the Issue Date and, if there is more than one inflation linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. Reference Month means, as specified in the Final Terms, the relevant calendar month for which the Index Level is reported, regardless of when this information is published or announced. If the period for which the Index Level is reported is a period other than a month, the Reference Month is the period for which the Index Level is reported.

Related Bond means the bond (if any) specified as such in the applicable Final Terms, provided that:

- (i) If Fallback Bond is specified under the Related Bond heading in the applicable Final Terms, then for any Related Bond determination, the Calculation Agent shall use the Fallback Bond.
- (ii) If no bond is specified in the applicable Final Terms as the Related Bond and "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, there will be no Related Bond.
- (iii) If a bond is specified as the Related Bond in the applicable Final Terms and that bond redeems or matures prior to the End Date unless "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination.

1. Redemption or Exercise of Credit Linked Securities

Unless previously redeemed or purchased and cancelled and subject as provided in Credit Linked Condition 2, Credit Linked Condition 3 and Credit Linked Condition 4, as applicable:

- (i) each unit or nominal amount of Credit Linked N&C Securities equal to the Calculation Amount set out in the applicable Final Terms will be redeemed by the Issuer at its relevant Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date; or
- (ii) each Credit Linked W&C Security will be exercised automatically by the Principal Agent on behalf of Securityholders on the Exercise Date and entitles the holder to receive the relevant Cash Settlement Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Settlement Date.

2. Auction Settlement

If Conditions to Settlement are satisfied, then where Auction Settlement is specified as the applicable Settlement Method in the applicable Final Terms and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Issuer shall give notice (such notice an **Auction Settlement Notice**) to the Holders in accordance with N&C Securities Condition 16 or

W&C Securities Condition 9, as applicable, and, subject to any adjustment in accordance with Credit Linked Condition 14, redeem or cancel, as applicable, all but not some only of the Securities and pay in respect of each unit or nominal amount of Credit Linked N&C Securities equal to the Calculation Amount set out in the applicable Final Terms or each Credit Linked W&C Security, as applicable, the Credit Event Redemption Amount in the relevant Specified Currency on the Credit Event Redemption Date.

Unless settlement has occurred in accordance with the paragraph above, if:

- (i) an Auction Cancellation Date occurs;
- (ii) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraph (b) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
- (iii) ISDA publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved, following a Credit Event Resolution Request Date, not to determine the matters described in paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date;
- (iv) a Credit Event Determination Date was determined pursuant to paragraph (a) of the definition of Credit Event Determination Date and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Credit Event Determination Date; or
- (v) a Credit Event Determination Date was determined pursuant to paragraph (b)(B)(I) or (b)(B)(II) of the definition of Credit Event Determination Date,

then:

- (A) if Fallback Settlement Method – Cash Settlement is specified as applicable in the applicable Final Terms, the Issuer shall redeem or cancel, as applicable, the Securities in accordance with Credit Linked Condition 3 below; or
- (B) if Fallback Settlement Method – Physical Delivery is specified as applicable in the applicable Final Terms, the Issuer shall redeem or cancel, as applicable, the Securities in accordance with Credit Linked Condition 4 below.

If Conditions to Settlement are satisfied and the Securities become redeemable or are cancelled in accordance with this Credit Linked Condition 2, upon payment of the Credit Event Redemption Amounts in respect of the Securities, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the Calculation Amount of a Credit Linked N&C Security or the Notional Amount of a Credit Linked W&C Security. Any shortfall shall be borne by the Holders and no liability shall attach to the Issuer or the Guarantor (if applicable).

3. Cash Settlement

If Conditions to Settlement are satisfied, then where Cash Settlement is specified as the applicable Settlement Method in the applicable Final Terms or if Credit Linked Condition 2(A) above applies, the Issuer shall give notice (such notice a **Cash Settlement Notice**) to the Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable and redeem or cancel, as applicable, all but not some only of the Securities, and pay in respect of each unit or nominal amount of Credit Linked N&C Securities equal to the Calculation Amount set out in the applicable Final Terms

or each Credit Linked W&C Security, as applicable, the Credit Event Redemption Amount in the relevant Specified Currency on the Credit Event Redemption Date.

If Conditions to Settlement are satisfied and the Securities become redeemable or are cancelled in accordance with this Credit Linked Condition 3, upon payment of the Credit Event Redemption Amounts in respect of the Securities, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the Calculation Amount of a Credit Linked N&C Security or the Notional Amount of a Credit Linked W&C Security. Any shortfall shall be borne by the Holders and no liability shall attach to the Issuer or the Guarantor (if applicable).

4. Physical Settlement

If Conditions to Settlement are satisfied, then where Physical Delivery is specified as the applicable Settlement Method in the applicable Final Terms or if Credit Linked Condition 2(B) above applies, the Issuer shall, following the receipt of a Calculation Agent Physical Settlement Notice, give notice (such notice a **Notice of Physical Settlement**) to the Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and redeem or cancel, as applicable all but not some only of the Securities and Deliver in respect of each unit or nominal amount of Credit Linked N&C Securities equal to the Calculation Amount or each Credit Linked W&C Security, as applicable, the Deliverable Obligations comprising the Entitlement on the Credit Settlement Date, subject to and in accordance with the N&C Securities Conditions or the W&C Securities Conditions and these Credit Linked Conditions.

In the Notice of Physical Settlement, the Issuer shall specify the Deliverable Obligations comprising the Entitlement that it reasonably expects to Deliver. For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value.

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable (each such notification, a **Physical Settlement Amendment Notice**) that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a **Replacement Deliverable Obligation**) and shall also specify the Outstanding Principal Balance or Due and Payable Amount (determined on the same basis as in the definition of Entitlement) of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced or the equivalent Currency Amount of any such amount (with respect to each such Deliverable Obligation, the **Replaced Deliverable Obligation Outstanding Amount**). The Replacement Deliverable Obligation(s), taken together, shall have an aggregate Replaced Deliverable Obligation Outstanding Amount at least equal to the Outstanding Principal Balance(s) and/or Due and Payable Amount(s) (or the equivalent Currency Amount(s) of any such amount(s)) of the Deliverable Obligations being replaced. Each such Physical Settlement Amendment Notice must be effective on or prior to the Credit Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment Notice, as applicable, by notice to Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, prior to the relevant Delivery Date; it being understood that such notice of correction shall not constitute a Physical Settlement Amendment Notice.

If "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" is specified as applicable in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may be included in the Entitlement only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date.

If "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified as applicable in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may be included in the Entitlement only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date.

If Conditions to Settlement are satisfied and the Securities become redeemable or are cancelled in accordance with this Credit Linked Condition 4, upon Delivery of the Deliverable Obligations and/or payment of the Partial Cash Settlement Amounts, as the case may be, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount, as the case may be, may be less than the Calculation Amount of a Credit Linked N&C Security or the Notional Amount of a Credit Linked W&C Security. Any shortfall shall be borne by the Holders and no liability shall attach to the Issuer or the Guarantor (if applicable).

If all or a portion of the Obligations comprising the Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations, the Issuer shall give notice (a **Partial Cash Settlement Notice**) to the Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable and the Issuer shall pay in respect of each Undeliverable Obligation and/or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount on the Partial Cash Settlement Date.

In the Partial Cash Settlement Notice, the Issuer must give details of why it is unable to deliver the relevant Undeliverable Obligations or Hedge Disruption Obligation, as the case may be.

For the purposes of this Credit Linked Condition 10 only the following terms shall be defined as follows (unless, in the case of Exempt Securities only, otherwise specified in the applicable Final Terms):

Indicative Quotation means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, equal to the Quotation Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates.

Market Value means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, on a Valuation Date, (i) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the highest and

lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (ii) if exactly three Full Quotations are obtained, the Full Quotation remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (iii) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (iv) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (v) if Indicative Quotations are specified as applying in the applicable Final Terms and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and, if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (vi) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (ii) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which at least two Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if the Quotations are deemed to be zero, the Market Value shall be zero.

Partial Cash Settlement Amount is deemed to be, for an Undeliverable Obligation or a Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of (i) (A) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, multiplied by (B) the Final Price or the Auction Final Price, if applicable, with respect to such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, less if applicable (C) Unwind Costs, if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement), and (ii) zero.

Partial Cash Settlement Date is deemed to be the date falling three Business Days after (i) the calculation of the Final Price or (ii) the Auction Final Price Determination Date, if applicable.

Quotation means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applying in the applicable Final Terms, each Indicative Quotation obtained and expressed as a percentage with respect to a Valuation Date in the manner that follows:

- (i) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date) the Calculation Agent shall attempt to obtain Full Quotations from five or more Quotation Dealers, and, if two or more Full Quotations are not available, a Weighted Average Quotation. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applying in the applicable Final Terms, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.
- (ii) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the applicable Final Terms, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on

such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.

- (iii) The Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this specification or determination.
- (iv) If any Quotation obtained with respect to an Accreting Obligation is expressed as a percentage of the amount payable in respect of such obligation at maturity, such Quotation will instead be expressed as a percentage of the Outstanding Principal Balance for the purposes of determining the Final Price.

Quotation Amount is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, an amount equal to the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligations, as the case may be.

Quotation Method is deemed to be Bid.

Reference Obligation is deemed to be each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be.

Valuation Method is deemed to be Highest unless fewer than two Full Quotations are obtained or a Weighted Average Quotation applies (or, if applicable, Indicative Quotations), in which case "Valuation Method" is deemed to be Market.

Valuation Time is the time specified as such in the applicable Final Terms, or, if no time is so specified, 11:00 a.m. in the principal trading market for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be.

Weighted Average Quotation means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, with an Outstanding Principal Balance of as large a size as available but less than the Quotation Amount that in aggregate are approximately equal to the Quotation Amount.

11. Settlement Suspension

- (i) Suspension

Without prejudice to Credit Linked Condition 8 or Credit Linked Condition 9 above, if, following the determination of a Credit Event Determination Date in accordance with subparagraph (a) of the definition of Credit Event Determination Date but prior to the Maturity Date or Settlement Date, ISDA publicly announces that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date are satisfied in accordance with the Rules, the Calculation Agent may, at its option, determine that the applicable timing requirements of the N&C Securities Conditions and this Credit Linked Condition 11 and the

definitions of Coupon Payment Date, Credit Event Redemption Date, Valuation Date, Physical Settlement Period, and any other Credit Linked Condition as determined by the Calculation Agent, shall toll and be suspended and remain suspended (such period of suspension, a **Suspension Period**) until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved (a) the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date or (b) not to determine such matters. During such suspension period none of the Issuer, the Calculation Agent or any Securityholder are obliged to, nor are they entitled to, take any action in connection with the settlement of the Credit Linked Securities. Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved (A) the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date or (B) not to determine such matters, the relevant timing requirements of the N&C Securities Conditions and this Credit Linked Condition 11 that have previously tolled or been suspended shall resume on the Business Day following such public announcement by ISDA with the Issuer having the benefit of the full day notwithstanding when the tolling or suspension began in accordance with this Credit Linked Condition 11.

In the event of any such Suspension Period, the Calculation Agent may make (x) such consequential or other adjustment(s) or determination(s) to or in relation to the N&C Securities Conditions or the W&C Securities Conditions and these Credit Linked Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (y) determine the effective date of such adjustment(s) or determination(s).

(ii) Interest

In the case of interest bearing N&C Securities:

- (d) If more than one specific Reference Obligation is identified as a Reference Obligation in respect of a Reference Entity in relation to a Series, any of the events set forth in paragraph (a) above has occurred with respect to all such Reference Obligations, and the Calculation Agent determines that at least one Substitute Reference Obligation is available for any such Reference Obligation, then each such Reference Obligation may, at the sole discretion of the Calculation Agent, be replaced by a Substitute Reference Obligation and each Reference Obligation for which no Substitute Reference Obligation is available or for which the Calculation Agent, in its discretion, decides not to select a Substitute Reference Obligation will cease to be a Reference Obligation.
- (e) If:
 - (i) more than one specific Reference Obligation is identified as a Reference Obligation in respect of a Reference Entity in relation to a Series, any of the events set forth in paragraph (a) above has occurred with respect to all such Reference Obligations and the Calculation Agent determines not to select a Substitute Reference Obligation or that no Substitute Reference Obligation is available for any of such Reference Obligations; or
 - (ii) only one specific Reference Obligation is identified as a Reference Obligation in respect of a Reference Entity in relation to a Series, any of the events set forth in paragraph (a) above has occurred with respect to such Reference Obligation and the Calculation Agent determines not to select a Substitute Reference Obligation or that no Substitute Reference Obligation is available for that Reference Obligation,

then the Calculation Agent may continue to attempt to identify a Substitute Reference Obligation until the Extension Date although the Calculation Agent is not obliged to select a Substitute Reference Obligation at any time. If (A) either (i) Cash Settlement is specified as the Settlement Method in the applicable Final Terms (or is applicable pursuant to the Fallback Settlement Method) and the Credit Event Redemption Amount is determined by reference to a Reference Obligation or (ii) either Auction Settlement or Physical Delivery is specified as the Settlement Method in the applicable Final Terms (or, in the case of Physical Delivery, is applicable pursuant to the Fallback Settlement Method) and, in each case, the Reference Obligation is the only Deliverable Obligation and (B) on or prior to the Extension Date (determined by reference to the Relevant Time), a Substitute Reference Obligation has not been identified, then the Issuer shall have the right on or after the Extension Date to redeem or cancel the Securities at the Early Redemption Amount or the Early Cancellation Amount, as applicable, (determined by the Calculation Agent taking into account the creditworthiness of the Reference Entity at the time of the early redemption or cancellation, as applicable) by notice to Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable (such payment to be made as specified in such notice).

- (f) For the purposes of identification of a Reference Obligation, any change in the Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, convert such Reference Obligation into a different Obligation.

Succession Event means (i) with respect to a Reference Entity that is not a Sovereign, an event such as a merger, de-merger, consolidation, amalgamation, transfer of assets or liabilities, spin-off or other similar event in which one entity succeeds to the obligations of another entity, whether by operation of law or pursuant to any agreement or (ii) with respect to a Reference Entity that is a Sovereign, an event such as an annexation, unification, secession, partition, dissolution, consolidation, reconstitution

or other event that results in any direct or indirect successor(s) to such Reference Entity. Notwithstanding the foregoing, "Succession Event" shall not include an event (A) in which the holders of obligations of the Reference Entity exchange such obligations for the obligations of another entity, unless such exchange occurs in connection with a merger, demerger, consolidation, amalgamation, transfer of assets or liabilities, spin-off or other similar event or (B) with respect to which the legally effective date (or, in the case of a Reference Entity that is a Sovereign, the date of occurrence) has occurred prior to the Succession Event Backstop Date (determined by reference to the Relevant Time) applicable to the relevant Series.

Succession Event Backstop Date means:

- (i) for purposes of any event that constitutes a Succession Event, as determined by DC Resolution, the date that is 90 calendar days prior to the Succession Event Resolution Request Date (determined by reference to the Relevant Time); or
- (ii) otherwise, the date that is 90 calendar days prior to the earlier of:
 - (A) the date on which the Succession Event Notice is effective; and
 - (B) in circumstances where (I) the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in paragraphs (a) and (b) of the definition of Succession Event Resolution Request Date are satisfied in accordance with the Rules, (II) the relevant Credit Derivatives Determinations Committee has Resolved not to determine such matters and (III) the Succession Event Notice is delivered by the Calculation Agent to the Issuer not more than fourteen calendar days after the day on which ISDA publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine such matters, the Succession Event Resolution Request Date.

The Succession Event Backstop Date shall not be subject to adjustment in accordance with any Business Day Convention unless specified in the applicable Final Terms that the Succession Event Backstop Date will be adjusted in accordance with a specified Business Day Convention.

Succession Event Notice means a notice from the Calculation Agent to the Issuer that describes a Succession Event that occurred on or after the Succession Event Backstop Date (determined by reference to the Relevant Time).

A Succession Event Notice must contain a description in reasonable detail of the facts relevant to the determination, of (i) whether a Succession Event has occurred and (ii) if relevant, the identity of any Successor(s).

Succession Event Resolution Request Date means, with respect to a notice to ISDA, delivered in accordance with the Rules, requesting that a Credit Derivatives Determinations Committee be convened to Resolve:

- (a) whether an event that constitutes a Succession Event for purposes of a Series has occurred with respect to the relevant Reference Entity; and
- (b) if the relevant Credit Derivatives Determinations Committee Resolves that such event has occurred, (A) with respect to a Reference Entity that is not a Sovereign, the legally effective date of such event or (B) with respect to a Reference Entity that is a Sovereign, the date of the occurrence of such event,

the date, as publicly announced by ISDA, that the relevant Credit Derivatives Determinations Committee Resolves to be the date on which such notice is effective.

As at the date of the Base Prospectus, the Rules provide that each "Eligible Market Participant" (being each party which is a party to a credit derivatives transaction that have, or are deemed to have incorporated the March 2009 Supplement or the July 2009 Supplement in a confirmation) is permitted to deliver such a notice to ISDA pursuant to the Rules.

Successor means:

- (a) in relation to a Reference Entity that is not a Sovereign, the entity or entities, if any, determined as set forth below:
 - (i) if one entity directly or indirectly succeeds to 75 per cent. or more of the Relevant Obligations of the Reference Entity by way of a Succession Event, that entity will be the sole Successor;
 - (ii) if only one entity directly or indirectly succeeds to more than 25 per cent. (but less than 75 per cent.) of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than 25 per cent. of the Relevant Obligations will be the sole Successor;
 - (iii) if more than one entity each directly or indirectly succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than 25 per cent. of the Relevant Obligations will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;
 - (iv) if one or more entities each directly or indirectly succeed to more than 25 per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;
 - (v) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of the Succession Event; and
 - (vi) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations (or, if two or more entities succeed to an equal percentage of Relevant Obligations, the entity from among those entities which succeeds to the greatest percentage of obligations of the Reference Entity) will be the sole Successor; and

- (b) in relation to a Sovereign Reference Entity, each entity which becomes a direct or indirect successor to such Reference Entity by way of a Succession Event irrespective of whether any such successor assume(s) any of the obligations of such Reference Entity.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the legally effective date of the occurrence of the relevant Succession Event), and with effect from the legally effective date of the occurrence of the Succession Event, whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi) above, as applicable provided that the Calculation Agent will not make any such determination if, at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in (a) above and paragraphs (a) and (b)(A) of the definition of Succession Event Resolution Request Date (in the case of a Reference Entity that is not a Sovereign) or (b) above and paragraphs (a) and (b)(B) of the definition of Succession Event Resolution Request Date (in the case of a Sovereign Reference Entity) are satisfied in accordance with the Rules (until such time (if any) that ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred. In calculating the percentages used to determine whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi) above, as applicable, the Calculation Agent shall use, in respect of each applicable Relevant Obligation included in such calculation, the amount of the liability in respect of such Relevant Obligation listed in the Best Available Information and shall, as soon as practicable after such calculation, make such calculation available for inspection by Holder(s) at the specified office of the Principal Agent.

Where pursuant to paragraph (a)(iii), (a)(iv) or (b) above, more than one Successor has been identified, the Calculation Agent shall adjust such of these Terms and Conditions and/or the applicable Final Terms as it shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of these Terms and Conditions and/or the applicable Final Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Securities under the provisions of the 2003 ISDA Credit Derivatives Definitions.

Upon the Calculation Agent making and notifying the Issuer of such adjustment, the Issuer shall give notice as soon as practicable to Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, stating the adjustment to these Terms and Conditions and/or the applicable Final Terms and giving brief details of the relevant Succession Event.

For the purposes of this definition of "Successor", "succeed" means, with respect to a Reference Entity and its Relevant Obligations (or, as applicable, obligations), that a party other than such Reference Entity (i) assumes or becomes liable for such Relevant Obligations (or, as applicable, obligations) whether by operation of law or pursuant to any agreement or (ii) issues Bonds that are exchanged for Relevant Obligations (or, as applicable, obligations), and in either case such Reference Entity is no longer an obligor (primarily or secondarily) or guarantor with respect to such Relevant Obligations (or, as applicable, obligations). The determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made, in the case of an exchange offer, on the basis of the Outstanding Principal Balance of Relevant Obligations tendered and accepted in the exchange and not on the basis of the Outstanding Principal Balance of Bonds for which Relevant Obligations have been exchanged.

Where:

- (A) a Reference Obligation is specified in the applicable Final Terms;

- (B) one or more Successors to the Reference Entity have been identified; and
- (C) any one or more such Successors have not assumed the Reference Obligation,

a Substitute Reference Obligation will be determined in accordance with the definition of "Substitute Reference Obligation" above.

Supranational Organisation means any entity or organisation established by treaty or other arrangement between two or more Sovereigns or the Sovereign Agencies of two or more Sovereigns, and includes, without limiting the foregoing, the International Monetary Fund, European Central Bank, International Bank for Reconstruction and Development and the European Bank for Reconstruction and Development.

Transaction Auction Settlement Terms means, with respect to a Credit Event, the Credit Derivatives Auction Settlement Terms selected by the Calculation Agent in accordance with this provision. In relation to a Credit Event (and as set out in the definition of Credit Derivatives Auction Settlement Terms), ISDA may publish one or more form(s) of Credit Derivatives Auction Settlement Terms on its website at www.isda.org (or any successor website thereto) and may amend such forms from time to time. Each such form of Credit Derivatives Auction Settlement Terms shall set out, *inter alia*, definitions of "Auction", "Auction Cancellation Date", "Auction Covered Transaction" and "Auction Final Price Determination Date" in relation to the relevant Credit Event. The Transaction Auction Settlement Terms for purposes of the Securities shall be the relevant form of Credit Derivatives Auction Settlement Terms for which the Reference Transaction would be an Auction Covered Transaction (as such term will be set out in the relevant Credit Derivatives Auction Settlement Terms). The Reference Transaction (as set out in the definition thereof) is a hypothetical credit derivative transaction included in these Credit Linked Conditions principally for the purpose of selecting the Credit Derivatives Auction Settlement Terms appropriate to the Securities.

Undeliverable Obligation means a Deliverable Obligation included in the Entitlement which, on the Credit Settlement Date for such Deliverable Obligation, the Calculation Agent determines for any reason (including without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the Delivery of Loans) it is impossible or illegal to Deliver on the Credit Settlement Date.

Unwind Costs means the amount specified in the applicable Final Terms or if "Standard Associated Costs" are specified in the applicable Final Terms, any Associated Costs as defined in N&C Securities Condition 8.7 in respect of N&C Securities or as defined in W&C Securities Condition 5.3 in respect of W&C Securities.

Valuation Method:

- (a) The following Valuation Methods may be specified in the applicable Final Terms with only one Reference Obligation and only one Valuation Date:

- (i) **Market** means the Market Value determined by the Calculation Agent with respect to the Valuation Date; or
- (ii) **Highest** means the highest Quotation obtained by the Calculation Agent with respect to the Valuation Date.

If no such Valuation Method is specified in the applicable Final Terms, the Valuation Method shall be Highest.

- (b) The following Valuation Methods may be specified in the applicable Final Terms with only one Reference Obligation and more than one Valuation Date:

- (i) **Average Market** means the unweighted arithmetic mean of the Market Values determined by the Calculation Agent with respect to each Valuation Date; or
- (ii) **Highest** means the highest Quotation obtained by the Calculation Agent with respect to any Valuation Date; or
- (iii) **Average Highest** means the unweighted arithmetic mean of the highest Quotations obtained by the Calculation Agent with respect to each Valuation Date.

- (i) **Average Blended Market** means, using values with respect to each Valuation Date determined by the Calculation Agent in accordance with the Blended Market Valuation Method, the unweighted arithmetic mean of the values so determined with respect to each Valuation Date; or
- (ii) **Average Blended Highest** means, using values with respect to each Valuation Date determined by the Calculation Agent in accordance with the Blended Highest Valuation Method, the unweighted arithmetic mean of the values so determined with respect to each Valuation Date.

If no such Valuation Method is specified in the applicable Final Terms, the Valuation Method shall be Average Blended Highest.

- (e) Notwithstanding paragraphs (a) to (d) above, if Quotations include Weighted Average Quotations or fewer than two Full Quotations, the Valuation Method shall be Market, Average Market, Blended Market or Average Blended Market, as the case may be.
- (f) Where applicable, the applicable Final Terms may specify an alternative Valuation Method which shall be applicable in respect of the relevant Securities.

Valuation Time means the time specified as such in the applicable Final Terms or, if no time is so specified, 11.00 a.m. in the principal trading market for the Reference Obligation.

Weighted Average Quotation means in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Reference Obligation with an Outstanding Principal Balance of as large a size as available but less than the Quotation Amount (but, if a Minimum Quotation Amount is specified in the applicable Final Terms, of a size equal to the Minimum Quotation Amount or, if quotations of a size equal to the Minimum Quotation Amount are not available, quotations as near in size as practicable to the Minimum Quotation Amount) that in aggregate are approximately equal to the Quotation Amount.

14. Credit Event Notice after Restructuring Credit Event

If this Credit Linked Condition 14 is specified as applicable in the applicable Final Terms, then, notwithstanding anything to the contrary in these Terms and Conditions, upon the occurrence of a Restructuring with respect to a Series for which either "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified as applicable in the applicable Final Terms:

- (a) in the case of Credit Linked N&C Securities:
 - (i) the Calculation Agent may deliver multiple Credit Event Notices in respect of such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that may be less than the aggregate Nominal Amount of those N&C Securities outstanding immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Conditions and related provisions shall be deemed to apply to the Partial Redemption Amount only and each such N&C Security shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount).
 - (ii) For the avoidance of doubt (A) the nominal amount of each such N&C Security not so redeemed in part shall remain outstanding and interest shall accrue on the nominal amount outstanding of such N&C Security as provided in N&C Securities Condition 6 (adjusted in such manner as the Calculation Agent determines to be appropriate), (B) the Credit Linked Conditions and related provisions shall apply to such nominal amount outstanding of such N&C Security in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (C) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable or deliverable to Securityholders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to these Terms and Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 14(a) and (y) the effective date of such adjustment(s).

- (iii) If the provisions of this Credit Linked Condition 14(a) apply in respect of the N&C Securities, on redemption of part of each such N&C Security the relevant N&C Security or, if the N&C Securities are represented by a Global N&C Security, such Global N&C Security, shall be endorsed to reflect such part redemption.

(b) in the case of Credit Linked W&C Securities:

- (i) the Calculation Agent may deliver multiple Credit Event Notices in relation to that Restructuring and in respect of an amount (the **Partial Cancellation Amount**) that is less than the Notional Amount of each W&C Security immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Conditions and related provisions shall be deemed to apply to the Partial Cancellation Amount only and each such W&C Security shall be cancelled in part (such cancelled part being equal to the Partial Cancellation Amount).
- (ii) for the avoidance of doubt (A) the Notional Amount of each such W&C Security not so cancelled in part shall remain outstanding (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate), (B) the Credit Linked Conditions and related provisions shall apply to such amount outstanding of such W&C Security in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (C) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable to Holders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to these Terms and Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 14(b) and (y) the effective date of such adjustment(s).
- (iii) if the provisions of this Credit Linked Condition 14(b) apply in respect of the W&C Securities, on cancellation of part of each such W&C Security the relevant W&C Security or, if the W&C Securities are represented by a Global W&C Security, such Global W&C Security shall be endorsed to reflect such part cancellation.

15. Provisions relating to Multiple Holder Obligation

If this Credit Linked Condition 15 is specified as applicable in the applicable Final Terms, then, notwithstanding anything to the contrary in the definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (i) to (v) of the definition of **Restructuring** shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation provided that, where provisions relating to Qualifying Guarantee and Underlying Obligation are specified as applying in the applicable Final Terms, any Obligation that is a Bond shall be deemed to satisfy the requirement in (ii) of the definition of "**Multiple Holder Obligation**" below.

Multiple Holder Obligation means an Obligation that (i) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (ii) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event.

16. Provisions taken from the ISDA supplement titled "Additional Provisions for Physically Settled Default Swaps– Monoline Insurer as Reference Entity (January 2005)"

If this Credit Linked Condition 16 is specified as applicable in the applicable Final Terms, the following provisions will apply:

- (a) **Obligation and Deliverable Obligation.** Paragraph (a) of the definition of **Obligation** in Credit Linked Condition 13 and paragraph (a) of the definition of **Deliverable Obligation** in Credit Linked Condition 13 are hereby amended by adding "or Qualifying Policy" after "as provider of a Qualifying Affiliate Guarantee".
- (b) **Interpretation of Provisions.** In the event that an Obligation or a Deliverable Obligation is a Qualifying Policy, paragraph (B) of the definition of **Deliverable Obligation** in Credit Linked Condition 13 will apply, with references to the Qualifying Guarantee, the Underlying Obligation and the Underlying Obligor deemed to include the Qualifying Policy, the Insured Instrument and the Insured Obligor, respectively, except that:
 - (i) the Obligation Category Borrowed Money and the Obligation Category and Deliverable Obligation Category Bond shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Deliverable Obligation Category Bond shall be deemed to include such an Insured Instrument, and the terms "obligation" and "obligor" as used in these Credit Linked Conditions in respect of such an Insured Instrument shall be construed accordingly;
 - (ii) references in the definitions of Assignable Loan and Consent Required Loan to the **guarantor** and **guaranteeing** shall be deemed to include the **insurer** and **insuring**, respectively;
 - (iii) neither the Qualifying Policy nor the Insured Instrument must satisfy on the relevant date the Deliverable Obligation Characteristic of Accelerated or Matured, whether or not that characteristic is otherwise specified as applicable in the applicable Final Terms;
 - (iv) if the Assignable Loan, Consent Required Loan, Direct Loan Participation or Transferable Deliverable Obligation Characteristics are specified in the applicable Final Terms and if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument; and
 - (v) with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "Outstanding Principal Balance" shall mean the outstanding Certificate Balance and "maturity", as such term is used in the Maximum Maturity Deliverable Obligation Characteristic, shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.
- (c) **Not Contingent.** An Insured Instrument will not be regarded as failing to satisfy the Not Contingent Deliverable Obligation Characteristic solely because such Insured Instrument is subject to provisions limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instrument, provided that such provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or

reduction. By specifying that this Credit Linked Condition 16 is applicable, no inference should be made as to the interpretation of the "Not Contingent" Deliverable Obligation Characteristic in the context of limited recourse or similar terms applicable to Deliverable Obligations other than Qualifying Policies.

- (d) Deliver. For the purposes of the definition of **Deliver** in Credit Linked Condition 13, "Deliver" with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognised custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and "Delivery" and "Delivered" will be construed accordingly.
- (e) Provisions for Determining a Successor. The paragraph commencing "For the purposes of this definition of **Successor**..." in the definition of **Successor** in Credit Linked Condition 13 is hereby amended by adding "or insurer" after "or guarantor".
- (f) Substitute Reference Obligation. The first paragraph of the definition of **Substitute Reference Obligation** and paragraph (b) thereof in Credit Linked Condition 13 is hereby amended by adding "or Qualifying Policy" after "or as provider of a Qualifying Affiliate Guarantee". For purposes of subparagraph (a)(ii)(B) the definition of **Substitute Reference Obligation** references to the **Qualifying Guarantee** and the **Underlying Obligation** shall be deemed to include the **Qualifying Policy** and the **Insured Instrument**, respectively.
- (g) Restructuring
 - (i) With respect to an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest or a Qualifying Policy with respect thereto, paragraphs (i) to (v) inclusive of the definition of "Restructuring" in Credit Linked Condition 13 are hereby amended to read as follows:
 - "(i) a reduction in the rate or amount of the Instrument Payments in paragraph (A)(x) of the definition thereof that are guaranteed or insured by the Qualifying Policy;
 - (ii) a reduction in the amount of the Instrument Payments described in paragraph (A)(y) of the definition thereof that are guaranteed or insured by the Qualifying Policy;
 - (iii) a postponement or other deferral of a date or dates for either (x) the payment or accrual of the Instrument Payments described in paragraph (A)(x) of the definition thereof or (y) the payment of the Instrument Payments described in paragraph (A)(y) of the definition thereof, in each case that are guaranteed or insured by the Qualifying Policy;
 - (iv) a change in the ranking in priority of payment of (x) any Obligation under a Qualifying Policy in respect of Instrument Payments, causing the Subordination of such Obligation to any other Obligation or (y) any Instrument Payments, causing the Subordination of such Insured Instrument to any other instrument in the form of a pass-through certificate or similar funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or

(v) any change in the currency or composition of any payment of Instrument Payments that are guaranteed or insured by the Qualifying Policy to any currency which is not a Permitted Currency."

(ii) Paragraph (c) of the definition of "Restructuring" in Credit Linked Condition 13 is hereby amended by adding "or, in the case of a Qualifying Policy and an Insured Instrument, where (A) the Qualifying Policy continues to guarantee or insure, as applicable, that the same Instrument Payments will be made on the same dates on which the Qualifying Policy guaranteed or insured that such Instrument Payments would be made prior to such event and (B) such event is not a change in the ranking in the priority of payment of the Qualifying Policy" after "Reference Entity".

(iii) The definition of "Restructuring" in Credit Linked Condition 13 is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

"For purposes of this definition of "Restructuring" in and if Credit Linked Condition 15 is specified as applying in the applicable Final Terms, for the purposes of the Credit Linked Conditions the term "Obligation" shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy. In the case of a Qualifying Policy and an Insured Instrument, references to the Reference Entity in this definition of "Restructuring" shall be deemed to refer to the Insured Obligor and the references to the Reference Entity in paragraphs (a) to (c) inclusive in this definition of "Restructuring" shall continue to refer to the Reference Entity."

(h) Fully Transferable Obligation and Conditionally Transferable Obligation. In the event that "Restructuring Maturity Limitation and Fully Transferable Obligation" and/or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" is specified as applicable in the applicable Final Terms and a Fully Transferable Obligation or Conditionally Transferable Obligation is a Qualifying Policy, the Insured Instrument must meet the requirements of the relevant definition. References in the definition of "Conditionally Transferable Obligation" to the "guarantor" and "guaranteeing" shall be deemed to include "the "insurer" and "insuring" respectively. With respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "final maturity date", as such term is used in Credit Linked Condition 4 and the definition of "Restructuring Maturity Limitation Date", shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.

(i) Other Provisions. For purposes of paragraph (a)(ii) of the definition of **Deliverable Obligation** and the definitions of **Credit Event** and **Deliver** in Credit Linked Condition 13 references to the **Underlying Obligation** and the **Underlying Obligor** shall be deemed to include "Insured Instruments" and the "Insured Obligor", respectively.

(j) Additional Definitions.

Qualifying Policy means a financial guaranty insurance policy or similar financial guarantee pursuant to which a Reference Entity irrevocably guarantees or insures all Instrument Payments of an instrument that constitutes Borrowed Money (modified as set forth in these Credit Linked Conditions) (the **Insured Instrument**) for which another party (including a special purpose entity or trust) is the obligor (the **Insured Obligor**). Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments).

Instrument Payments means (A) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (B) in the case of any other Insured Instrument, the scheduled payments of principal and interest, in the case of both (A) and (B) (1) determined without regard to limited recourse or reduction provisions of the type described in Credit Linked Condition 16(c) above and (2) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the Qualifying Policy).

Certificate Balance means, in the case of an Insured Instrument that is in the form of a pass through certificate or similar funded beneficial interest, the unit principal balance, certificate balance or similar measure of unreimbursed principal investment.

17. Calculation Agent Notices

Any notice to be delivered by the Calculation Agent to the Issuer or the Guarantor (if applicable), as applicable, pursuant to these Credit Linked Conditions may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice delivered on or prior to 4:00 p.m. (Calculation Agent City time) on a Calculation Agent City Business Day will be effective on such Calculation Agent City Business Day. 18. Provisions taken from the ISDA supplement titled "Additional Provisions for LPN Reference Entities" (published on 3 October 2006)

If this Credit Linked Condition 18 is specified as applicable in the applicable Final Terms, notwithstanding anything to the contrary in the Credit Linked Conditions, the following provisions will apply:

- (a) provisions relating to Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to the definition of "Obligation" in Credit Linked Condition 13, and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to the definition of "Deliverable Obligation" in Credit Linked Condition 13 and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation.

The Not Subordinated Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity;

- (d) the definition of Reference Obligation shall be deleted and the following substituted therefor:

"Reference Obligation means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligations List (each a **Markit Published LPN Reference Obligation**), as published by Markit Group Limited, or any successor thereto, as of the Trade Date, any Additional LPN and each Additional Obligation."; and

- (e) the following additional definitions shall apply:

Additional LPN means any bond issued in the form of a loan participation note (a **LPN**) by an entity (the **LPN Issuer**) for the sole purpose of providing funds for the LPN Issuer to (a) finance a loan to the Reference Entity (the **Underlying Loan**) or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the **Underlying Finance Instrument**), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN the Underlying Finance Instrument satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics (ii) the LPN satisfies the following Deliverable Obligation Characteristics: Transferable, Not Bearer, Credit Linked Specified Currency – Standard Specified Currencies, Not Domestic Law, Not Domestic Issuance; and (iii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

Additional Obligation means each of the obligations listed as an Additional Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligations List (each a **Markit Published LPN Reference Obligation**), as published by Markit Group Limited, or any successor thereto, as of the Trade Date.

LPN Reference Obligation means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked Conditions each such loan shall be an Underlying Loan.

19. Amendment of Credit Linked Conditions in accordance with Market Convention

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the Credit Derivatives Determinations Committees which the Calculation Agent determines in a commercially reasonable manner are necessary or desirable from the perspective of the Issuer, the Calculation Agent or a Hedging Party to reflect or govern market practice for credit derivative transactions. 1. INTERPRETATION

The following provisions (the **Physical Delivery N&C Securities Conditions**) apply to N&C Securities specified as being Physical Delivery N&C Securities in the applicable Final Terms or where Physical Delivery is specified in the applicable Final Terms.

References in the Physical Delivery N&C Securities Conditions to "delivery", "delivered" and "deliver" shall in the context of the delivery of the Entitlement in respect of Credit Linked N&C Securities be deemed to be references to "Delivery", "Delivered" and "Deliver" as such terms are defined and construed in the Credit Linked Conditions.

2. DELIVERY OF ENTITLEMENT AND ASSET TRANSFER NOTICES

In order to obtain delivery of the Entitlement(s) in respect of any N&C Security:

- (i) if such N&C Security is represented by a Global N&C Security held through Euroclear and/or Clearstream, Luxembourg, the relevant Holder must provide to Euroclear or Clearstream, Luxembourg (as applicable) in a form acceptable thereto, with a copy to the Issuer not later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice substantially in the form set out and/or containing the information specified in the Agency Agreement (the **Asset Transfer Notice**);
- (ii) if such N&C Security is represented by a Global N&C Security held through DTC, the relevant Holder must comply with the requirements regarding the content and delivery of an asset transfer or other similar notice as shall be set out in the applicable Final Terms; and
- (iii) if such N&C Security is in definitive form, the relevant Holder must deliver to any Paying Agent, with a copy to the Principal Agent and the Issuer not later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice.

Forms of the Asset Transfer Notice may be obtained during normal business hours from the specified office of any Paying Agent.

An Asset Transfer Notice may only be delivered (i) if such N&C Security is represented by a Global N&C Security, in such manner as is acceptable to Euroclear or Clearstream, Luxembourg, as the case may be or (ii) if such N&C Security is in definitive form in writing.

If such N&C Security is in definitive form, such N&C Security must be delivered together with the duly completed Asset Transfer Notice.

The Issuer shall at the risk of the relevant Holder deliver the Entitlement in respect of each N&C Security or, in the case of Credit Linked N&C Securities, Deliver the Deliverable Obligations comprising the Entitlement in such commercially reasonable manner as the Issuer shall, in its sole discretion, determine to be appropriate for such delivery.

Each N&C Security will be redeemed by the Issuer or the Guarantor (if any), as applicable, on the Maturity Delivery Date (as defined below) or the Credit Settlement Date, if applicable, by applying the Nominal Amount of each N&C Security outstanding as at such date on behalf of the relevant Securityholder to purchase the Entitlement for delivery, as specified in, or determined in accordance with, the applicable Final Terms and delivering the Entitlement.

All Expenses shall be for the account of the relevant Holder and no delivery and/or transfer of any Entitlement shall be made until all Expenses have been paid to the satisfaction of the Issuer by the relevant Holder.

For these purposes **Expenses** means all taxes, duties and/or expenses including any depositary charges, transaction charges, stamp duty, stamp duty reserve tax, issue, registration, securities, transfer and/or other taxes or duties (together with any interest, additions to tax or penalties applicable thereto and any interest in respect of such additions or penalties) which the Calculation Agent determines may be or would be, or would have been incurred (i) in connection with the redemption of the N&C Securities and/or the delivery or transfer of any Entitlement in respect thereof, and (ii) by the Issuer or any Affiliate had such entity unwound or varied any underlying related hedging arrangements in respect of the N&C Securities.

An Asset Transfer Notice must:

- (a) specify the name, address and contact telephone number of the relevant Holder and the person from whom the Issuer may obtain details for the delivery of the Entitlement if such delivery is to be made otherwise than in the manner specified in the applicable Final Terms;
- (b) in the case of N&C Securities represented by a Global N&C Security, specify the number of units or nominal amount of N&C Securities which are the subject of such notice and the number of the Holder's account at Euroclear or Clearstream, Luxembourg, as the case may be, to be debited with such N&C Securities and irrevocably instruct and authorise Euroclear or Clearstream, Luxembourg, as the case may be, to debit the relevant Holder's account with such N&C Securities on or before the Maturity Delivery Date (as defined below) or, in the case of Credit Linked N&C Securities, the Credit Settlement Date;

- (e) certify that (x) the beneficial owner of each N&C Security is not a "U.S. person" as defined in Regulation S under the Securities Act, (y) the N&C Security is not being redeemed within the United States or on behalf of a U.S. person and (z) no cash, securities or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any redemption thereof; and
- (f) authorise the production of such notice in any applicable administrative or legal proceedings.

No Asset Transfer Notice may be withdrawn after receipt thereof by Euroclear, Clearstream, Luxembourg or a Paying Agent as provided above. After delivery of an Asset Transfer Notice, the relevant Holder may not transfer the N&C Securities which are the subject of such notice.

In the case of N&C Securities represented by a Global N&C Security, upon receipt of such notice, Euroclear or Clearstream, Luxembourg, as the case may be, shall verify that the person specified therein as the Holder is the holder of the specified nominal amount of N&C Securities according to its books.

Subject thereto, Euroclear or Clearstream, Luxembourg, as the case may be, will confirm to the Principal Agent the series number and number of N&C Securities the subject of such notice, the relevant account details (if applicable) and the details for the delivery of the Entitlement in respect of each such N&C Security. Upon receipt of such confirmation, the Principal Agent will inform the Issuer thereof. Euroclear or Clearstream, Luxembourg, as the case may be, will on or before the Maturity Delivery Date or Credit Settlement Date, as the case may be, debit the securities account of the relevant Holder with the N&C Securities the subject of the relevant Asset Transfer Notice.

Failure properly to complete and deliver an Asset Transfer Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided in the Physical Delivery N&C Securities Conditions shall be made, in the case of N&C Securities represented by a Global N&C Security, by the Issuer after consultation with the Principal Agent and shall be conclusive and binding on the Guarantor (if applicable) and the relevant Holder or in the case of N&C Securities in definitive form, by the relevant Paying Agent after consultation with the Principal Agent and the Issuer and shall be conclusive and binding on the Issuer, the Guarantor (if applicable) and the relevant Holder.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of the Issuer or the relevant Paying Agent, in each case in consultation with the Principal Agent and the Issuer, it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered as provided above.

The Issuer or the relevant Paying Agent, as applicable, shall use reasonable efforts to notify the Holder submitting an Asset Transfer Notice as soon as reasonably practicable if, in consultation with the Principal Agent and, in the case of the relevant Paying Agent, the Issuer, it has determined that such Asset Transfer Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Guarantor (if applicable) or the Paying Agents, Euroclear or Clearstream, Luxembourg shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Holder.

The Entitlement will be delivered at the risk of the relevant Holder, in the manner provided above on the Maturity Date (such date, subject to adjustment in accordance with these Physical Delivery N&C Securities Conditions, the **Maturity Delivery Date**) or, in the case of Credit Linked N&C Securities, in the manner provided above on the Credit Settlement Date, provided that the Asset Transfer Notice is duly delivered to Euroclear, Clearstream, Luxembourg or a Paying Agent, as the case may be, with

a copy to the Issuer, as provided above, not later than the close of business in each place of receipt on the Cut-Off Date.

If an Asset Transfer Notice is delivered to Euroclear, Clearstream, Luxembourg or a Paying Agent, as the case may be, with a copy to the Issuer, later than the close of business in each place of receipt on the Cut-Off Date, then the Entitlement will be delivered as soon as practicable after the Maturity Date (in which case, such date of delivery shall be the Maturity Delivery Date) or, in the case of Credit Linked N&C Securities, the Credit Settlement Date at the risk of such Holder in the manner provided above. Provided That if in respect of an N&C Security an Asset Transfer Notice is not delivered to Euroclear, Clearstream, Luxembourg or a Paying Agent, as the case may be, with a copy to the Issuer, prior to the close of business in each place of receipt on the 90th calendar day following the Cut-off Date then (a) if "Assessed Value Payment Amount" is specified as applicable in the applicable Final Terms, the Issuer shall as soon as reasonably practicable following such date determine the Assessed Value Payment Amount and in respect of such N&C Security shall pay the Assessed Value Payment Amount to the relevant Securityholder in lieu of delivery of the Entitlement as soon as reasonably practicable following determination of the Assessed Value Payment Amount, or (b) if "Assessed Value Payment Amount" is not specified as applicable in the applicable Final Terms, the Issuer's obligations in respect of such N&C Security and (in the case of Guaranteed N&C Securities) the Guarantor's obligations pursuant to the Guarantee in respect of such N&C Security shall be discharged and no further liability in respect thereof shall attach to the Issuer or the Guarantor. Upon payment of the Assessed Value Payment Amount, if applicable, the Issuer's obligations in respect of such N&C Security shall be discharged and (in the case of Guaranteed N&C Securities) the Guarantor's obligations in respect of such N&C Security pursuant to the Guarantee shall be discharged. For the avoidance of doubt, in the circumstances described in (b) above, such Holder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Maturity Delivery Date or the Credit Settlement Date, as the case may be, falling after the originally designated Maturity Delivery Date or Credit Settlement Date, as the case may be, and no liability in respect thereof shall attach to the Issuer or the Guarantor.

Delivery of the Entitlement in respect of the N&C Securities is subject to all applicable laws, regulations and practices in force on the Maturity Delivery Date or the Credit Settlement Date, as the case may be, and none of the Issuer, the Guarantor (if applicable) or any of their Affiliates or agents and the Paying Agents shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. None of the Issuer, the Guarantor (if applicable) or any of their Affiliates or agents and the Paying Agents shall under any circumstances be liable for any acts or defaults of Euroclear or Clearstream, Luxembourg in relation to the performance of their duties in relation to the N&C Securities.

For such period of time after the Maturity Delivery Date or Credit Settlement Date, as the case may be, as any person other than the relevant Holder shall continue to be the legal owner of the securities, obligations or Deliverable Obligations comprising the Entitlement (the **Intervening Period**), none of the Issuer, the Guarantor (if applicable) nor any other such person shall (i) be under any obligation to deliver or procure delivery to the relevant Holder or any subsequent beneficial owner of such N&C Security any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities, obligations or Deliverable Obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such securities, obligations or Deliverable Obligations during the Intervening Period or (iii) be under any liability to the relevant Holder, or any subsequent beneficial owner of such N&C Security in respect of any loss or damage which the relevant Holder, or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of that person being the legal owner of such securities, obligations or Deliverable Obligations during such Intervening Period.

Where the Entitlement comprises shares, any dividend or other distribution in respect of such Entitlement will not be payable to the Holder or any other party by the Issuer and the Issuer will be entitled to retain any dividend or distribution for which the record date or ex dividend date falls on or prior to the last day of the Intervening Period.

Except in the case of Credit Linked N&C Securities, where the Entitlement is, in the determination of the Issuer, an amount other than an amount of Relevant Assets capable of being delivered, the Securityholders will receive an Entitlement comprising of the nearest number (rounded down) of Relevant Assets capable of being delivered by the Issuer (taking into account that a Holder's entire holding may be aggregated at the Issuer's discretion for the purpose of delivering the Entitlements), and in respect of the amount of Relevant Assets not capable of being delivered, an amount in the Specified Currency which shall be the value of the amount of the Relevant Assets so rounded down, as calculated by the Calculation Agent in its sole discretion from such source(s) as it may select (converted if necessary into the Specified Currency by reference to such exchange rate as the Calculation Agent deems appropriate).

3. SETTLEMENT DISRUPTION EVENT

The provisions of this Physical Delivery N&C Securities Condition 3 shall apply to Physical Delivery N&C Securities other than Credit Linked N&C Securities.

If, prior to the delivery of the Entitlement in accordance with these Physical Delivery N&C Securities Conditions, a Settlement Disruption Event is subsisting, then the Maturity Delivery Date in respect of such N&C Security shall be postponed until the next Settlement Business Day on which no Settlement Disruption Event is subsisting and notice thereof shall be given to the relevant Holder, in accordance with N&C Securities Condition 16. Such Holder shall not be entitled to any payment, whether of interest or otherwise, on such N&C Security as a result of any delay in the delivery of the Entitlement pursuant to these Physical Delivery N&C Securities Conditions. Where delivery of the Entitlement has been postponed as provided in the Physical Delivery N&C Securities Conditions the Issuer shall not be in breach of the Conditions and no liability in respect thereof shall attach to the Issuer or the Guarantor.

For so long as delivery of the Entitlement in respect of any N&C Security is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant N&C Security by payment to the relevant Holder of the Disruption Cash Settlement Price not later than on the third Business Day following the date that the notice of such election (the **Election Notice**) is given to the Securityholders in accordance with N&C Securities Condition 16.

4. FAILURE TO DELIVER DUE TO ILLIQUIDITY

The provisions of this Physical Delivery N&C Securities Condition 4 shall apply to Physical Delivery N&C Securities other than Credit Linked N&C Securities.

- (i) subject as provided elsewhere in the Physical Delivery N&C Securities Conditions and/or the applicable Final Terms, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Maturity Delivery Date in accordance with the Physical Delivery N&C Securities Conditions; and

- (ii) in respect of any Affected Relevant Assets, notwithstanding any other provision hereof, the Issuer may elect in its sole discretion, in lieu of delivery of the Affected Relevant Assets, to pay to the relevant Holder the Failure to Deliver Settlement Price (as defined below) on the fifth Business Day following the date the Failure to Deliver Notice (as defined below) is given to the Securityholders in accordance with N&C Securities Condition 16. The Issuer shall give notice (such notice a **Failure to Deliver Notice**) as soon as reasonably practicable to the Securityholders in accordance with N&C Securities Condition 16 that the provisions of this Physical Delivery N&C Securities Condition 4 apply.

5. OPTION TO VARY SETTLEMENT

Notification of such election will be given to Securityholders in accordance with N&C Securities Condition 16.

As long as the Swiss Securities are intermediated securities, the Swiss Securities may only be transferred by the entry of the transferred Swiss Securities in a securities account of the transferee. In respect of Swiss Securities held in the form of intermediated securities, the holders (each a **Holder**) of such Swiss Securities will be the persons holding the Swiss Securities in a securities account (*Effektenkonto*) which is in their name, or in case of intermediaries (*Verwahrungsstellen*), the intermediaries (*Verwahrungsstellen*) holding the Swiss Securities for their own account in a securities account (*Effektenkonto*) which is in their name.

No physical delivery of the Swiss Securities shall be made unless and until definitive securities (*Wertpapiere*) are printed. Swiss Securities may only be printed, in whole, but not in part, if the Issuer or the Swiss Paying Agent determines that the printing of the definitive securities (*Wertpapiere*) is necessary or appropriate for any reason. Should the Issuer or the Swiss Paying Agent so determine, it shall provide for the printing of definitive securities (*Wertpapiere*) at the expense of the Issuer and without cost to the holders. If specified as applicable in the applicable Final Terms, (a) the terms and conditions applicable to N&C Securities specified in the applicable Final Terms as Credit Linked N&C Securities shall comprise the terms and conditions of the N&C Securities (the **N&C Securities Conditions**) and the Additional Terms and Conditions for Credit Linked Securities (2014 ISDA Credit Derivatives Definitions Version) set out below (the **Credit Linked Conditions**) and (b) the terms and conditions applicable to W&C Securities specified in the applicable Final Terms as Credit Linked W&C Securities shall comprise the terms and conditions of the W&C Securities (the **W&C Securities Conditions**) and the Credit Linked Conditions, in each case together with the Additional Terms and Conditions contained in any of the other Annexes to the Terms and Conditions that are specified in the applicable Final Terms as applying to the Securities and subject, in each case, to completion in the applicable Final Terms or Pricing Supplement (as applicable) and, in the case of Exempt Securities only, supplement or amendment in the applicable Pricing Supplement. In the case of Credit Linked N&C Securities which are Exempt N&C Securities or Credit Linked W&C Securities which are Exempt W&C Securities, in the event of any inconsistency between (i) the N&C Securities Conditions or the W&C Securities Conditions, as applicable, and (ii) the Credit Linked Conditions, the Credit Linked Conditions shall prevail. In the case of Credit Linked N&C Securities which are not Exempt N&C Securities or Credit Linked W&C Securities which are not Exempt W&C Securities, in the event of any inconsistency between (i) the N&C Securities Conditions or the W&C Securities Conditions, as applicable, and (ii) the Credit Linked Conditions, the N&C Securities Conditions or the W&C Securities Conditions, as applicable, shall prevail. In the event of any inconsistency between (i) the N&C Securities Conditions, the W&C Securities Conditions and/or the Credit Linked Conditions and (ii) the applicable Final Terms, the applicable Final Terms shall prevail. References in the Credit Linked Conditions to "Security" and "Securities" shall be deemed to be references to "N&C Security" and "N&C Securities" or "W&C Security" and "W&C Securities" as the context admits.

Unless otherwise stated in these Credit Linked Conditions or in the applicable Final Terms, in the event that any day specified in the section "Credit Linked N&C Securities" in the applicable Final Terms or the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such day or last day shall be subject to adjustment in accordance with the applicable Credit Linked Business Day Convention.

In the case of Credit Linked Securities for which more than one Reference Entity is specified in the applicable Final Terms, all references to "the Reference Entity" herein shall be construed to refer to the Reference Entity in respect of which the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly.

For the avoidance of doubt no Credit Linked Securities will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (b) Obligations, Deliverable Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

For the avoidance of doubt, the application of any of Credit Linked Conditions 5, 6, 7, 8, 9 or 11 below shall not preclude the application of any other such Credit Linked Condition either contemporaneously or subsequently and in the event that any such Credit Linked Conditions are inconsistent or the Calculation Agent becomes entitled to exercise a discretion under one or more of such Credit Linked Conditions, the Calculation Agent may elect in its discretion which Credit Linked Condition shall apply and under which Credit Linked Condition or Credit Linked Conditions it shall exercise its discretion.

1. Redemption or Exercise of Credit Linked Securities

Unless previously redeemed or purchased and cancelled and provided no Credit Event Determination Date has occurred and subject as provided in Credit Linked Condition 2, Credit Linked Condition 3, Credit Linked Condition 4 and Credit Linked Condition 21, as applicable:

- (i) each unit or nominal amount of Credit Linked N&C Securities equal to the Calculation Amount set out in the applicable Final Terms will be redeemed by the Issuer at its relevant Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date; or
- (ii) each Credit Linked W&C Security will be exercised automatically by the Principal Agent on behalf of Securityholders on the Exercise Date and entitles the holder to receive the relevant Cash Settlement Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Settlement Date.

2. Auction Settlement

Where Auction Settlement is specified as the applicable Settlement Method in the applicable Final Terms and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Issuer shall give notice (such notice an **Auction Settlement Notice**) to the Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and, subject to (i) any adjustment in accordance with Credit Linked Condition 14 and (ii) any prior redemption in accordance with Credit Linked Condition 21, redeem or cancel, as applicable, all but not some only of the Securities and pay in respect of each unit or nominal amount of Credit Linked N&C Securities equal to the Calculation Amount set out in the applicable Final Terms or each Credit Linked W&C Security, as applicable, the Credit Event Redemption Amount in the relevant Specified Currency on the Credit Event Redemption Date.

Unless settlement has occurred in accordance with the paragraph above, if:

- (i) an Auction Cancellation Date occurs;
- (ii) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraphs (b) or (c)(ii) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
- (iii) a DC Credit Event Question Dismissal occurs; or
- (iv) a Credit Event Determination Date was determined pursuant to paragraph (a)(i) of the definition of Credit Event Determination Date or paragraph (a) of the definition of Non-

Standard Event Determination Date and no Credit Event Resolution Request Date has occurred in respect of the relevant Credit Event on or prior to the date falling three Business Days after such Credit Event Determination Date; or

- (v) if the Issuer (or an Affiliate acting on behalf of the Issuer) otherwise determines that this is appropriate by reference to its and/or any of its Affiliates' Hedging Arrangements,

then:

- (A) if Fallback Settlement Method – Cash Settlement is specified as applicable in the applicable Final Terms, the Issuer shall redeem or cancel, as applicable, the Securities in accordance with Credit Linked Condition 3 below; or
- (B) if Fallback Settlement Method – Physical Delivery is specified as applicable in the applicable Final Terms, the Issuer shall redeem or cancel, as applicable, the Securities in accordance with Credit Linked Condition 4 below.

If a Credit Event Determination Date has occurred and the Securities become redeemable or are cancelled in accordance with this Credit Linked Condition 2, upon payment of the Credit Event Redemption Amounts in respect of the Securities, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the Calculation Amount of a Credit Linked N&C Security or the Notional Amount of a Credit Linked W&C Security. Any shortfall shall be borne by the Holders and no liability shall attach to the Issuer or the Guarantor (if applicable).

3. Cash Settlement

If a Credit Event Determination Date occurs, then where Cash Settlement is specified as the applicable Settlement Method in the applicable Final Terms or if Credit Linked Condition 2(A) above applies then, subject to any prior redemption in accordance with Credit Linked Condition 21, the Issuer shall give notice (such notice a **Cash Settlement Notice**) to the Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable and redeem or cancel, as applicable, all but not some only of the Securities, and pay in respect of each unit or nominal amount of Credit Linked N&C Securities equal to the Calculation Amount set out in the applicable Final Terms or each Credit Linked W&C Security, as applicable, the Credit Event Redemption Amount in the relevant Specified Currency on the Credit Event Redemption Date. If "Weighted Highest" is specified as the Valuation Method in the applicable Final Terms, the Final Price used for the purposes of calculating the Credit Event Redemption Amount shall be calculated in respect of one or more Valuation Obligations (as defined below) selected by the Calculation Agent in its sole discretion in lieu of the Reference Obligation. For such purposes, references to the term "Reference Obligation" in the definitions of "Final Price", "Quotation", "Quotation Amount", "Full Quotation", "Weighted Average Quotation" and all related definitions shall, as the case requires, be deemed to refer to each relevant Valuation Obligation. **Valuation Obligation** means the relevant Reference Obligation and/or one or more Deliverable Obligations selected by the Calculation Agent in accordance with this Credit Linked Condition 3. The Calculation Agent shall select the relevant Valuation Obligations and determine their respective weightings on or prior to the relevant Valuation Date, and for such purposes shall determine the applicable Deliverable Obligations in accordance with the definition of "Deliverable Obligation" in Credit Linked Condition 13 below and terms relating to Physical Delivery below. The Calculation Agent is not required to select more than one Valuation Obligation and may select the "cheapest" obligation of the Reference Obligation and/or Deliverable Obligations as the relevant Valuation Obligation(s). Notwithstanding the fact that the Calculation Agent may determine the Deliverable Obligations for the purposes of selecting the Valuation Obligations, in no event will the

Securities be physically settled and the Calculation Agent is not obliged to select any such Deliverable Obligations as Valuation Obligations.

If a Credit Event Determination Date has occurred and the Securities become redeemable or are cancelled in accordance with this Credit Linked Condition 3, upon payment of the Credit Event Redemption Amounts in respect of the Securities, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the Calculation Amount of a Credit Linked N&C Security or the Notional Amount of a Credit Linked W&C Security. Any shortfall shall be borne by the Holders and no liability shall attach to the Issuer or the Guarantor (if applicable).

4. Physical Settlement

If a Credit Event Determination Date occurs, then where Physical Delivery is specified as the applicable Settlement Method in the applicable Final Terms or if Credit Linked Condition 2(B) above applies then, subject to any prior redemption in accordance with Credit Linked Condition 21, the Issuer shall, following the receipt of a Calculation Agent Physical Settlement Notice, give notice (such notice a **Notice of Physical Settlement**) to the Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and redeem or cancel, as applicable all but not some only of the Securities and Deliver in respect of each unit or nominal amount of Credit Linked N&C Securities equal to the Calculation Amount or each Credit Linked W&C Security, as applicable, the Deliverable Obligations comprising the Entitlement on the Credit Settlement Date, subject to and in accordance with the N&C Securities Conditions or the W&C Securities Conditions and these Credit Linked Conditions.

The Notice of Physical Settlement shall include (i) details of the relevant Reference Entity, (ii) a description of each Deliverable Obligation comprising the Entitlement that the Issuer reasonably expects to Deliver and (iii) the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Settlement Currency (in each case the relevant **Outstanding Amount**) and, if different, the face amount, of each such Deliverable Obligation. The aggregate Outstanding Amount of all Deliverable Obligations specified in the Notice of Physical Settlement that the Issuer intends to Deliver shall be the relevant **Aggregate Outstanding Amount**. For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value.

Asset Package Delivery will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Credit Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event. Notwithstanding the foregoing, if (i) "Sovereign No Asset Package Delivery" is specified as applicable in the applicable Final Terms or, (ii) "Sovereign No Asset Package Delivery" is specified as "See Physical Settlement Matrix" in the applicable Final Terms and the relevant ISDA Physical Settlement Matrix states that the "2014 Sovereign No Asset Package Delivery Supplement to the 2014 ISDA Credit Derivatives Definitions" is applicable, it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto. Where Asset Package Delivery applies, the provisions of paragraph (b) of the definition of "Deliver" below shall apply and the Calculation Agent may make any adjustment in relation to provisions for physical delivery and determination of the Entitlement that it determines to be necessary or desirable to take account of the relevant Asset Package.

The Issuer may, from time to time, following receipt of a Calculation Agent Physical Settlement Amendment Notice, amend a Notice of Physical Settlement by delivering a notice to Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable (each such notification, a **Physical Settlement Amendment Notice**) that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a **Replacement Deliverable Obligation**) and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the **Replaced Deliverable Obligation Outstanding Amount**). The Outstanding Amount of each Replacement Deliverable Obligation identified in the Physical Settlement Amendment Notice shall be determined by applying the Revised Currency Rate to the relevant Replaced Deliverable Obligation Outstanding Amount. The Outstanding Amount of the Replacement Deliverable Obligation(s) specified in any Physical Settlement Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligation(s) specified in the Notice of Physical Settlement or any earlier Physical Settlement Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such Physical Settlement Amendment Notice must be effective on or prior to the Credit Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment Notice, as applicable, by notice to Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Issuer shall prior to the Delivery Date, notify the Holders (in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable) of the detailed description of the Asset Package, if any, that the Issuer will Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable, it being understood in each case that any such notice of correction shall not constitute a Physical Settlement Amendment Notice.

If "Mod R" is specified as applicable in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date in each case as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements.

If "Mod Mod R" is specified as applicable in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

If a Credit Event Determination Date has occurred and the Securities become redeemable or are cancelled in accordance with this Credit Linked Condition 4, upon Delivery of the relevant

Deliverable Obligations and/or payment of the Partial Cash Settlement Amounts, as the case may be, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount, as the case may be, may be less than the Calculation Amount of a Credit Linked N&C Security or the Notional Amount of a Credit Linked W&C Security. Any shortfall shall be borne by the Holders and no liability shall attach to the Issuer or the Guarantor (if applicable).

5. Repudiation/Moratorium Extension

If "Repudiation/Moratorium" is specified as a Credit Event in the applicable Final Terms, the provisions of this Credit Linked Condition 5 shall apply.

(a) In the case of Credit Linked N&C Securities:

Where a Credit Event Determination Date has not been determined on or prior to the Credit Event Cut-Off Date but, in the determination of the Calculation Agent, the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Credit Event Cut-Off Date or, if Credit Linked Condition 8(y) applies, the Postponed Cut-Off Date (as defined in Credit Linked Condition 8) and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation/Moratorium may, in the opinion of the Calculation Agent, fall after the Scheduled Maturity Date, then the Calculation Agent shall notify the Securityholders in accordance with N&C Securities Condition 16 that a Potential Repudiation/Moratorium has occurred and:

(i) where a (A) Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or (B) a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date but a Credit Event Determination Date has not occurred:

(A) each unit or nominal amount of N&C Securities equal to the Calculation Amount will be redeemed by the Issuer at the Final Redemption Amount on the fifth Business Day following the Repudiation/Moratorium Evaluation Date; and

In the Partial Cash Settlement Notice, the Issuer must give details of why it is unable to deliver the relevant Undeliverable Obligations or Hedge Disruption Obligation, as the case may be.

For the purposes of this Credit Linked Condition 10 only the following terms shall be defined as follows (unless, in the case of Exempt Securities only, otherwise specified in the applicable Final Terms):

Indicative Quotation means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, equal to the Quotation Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates.

Market Value means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, on a Valuation Date, (i) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (ii) if exactly three Full Quotations are obtained, the Full Quotation remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (iii) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (iv) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (v) if Indicative Quotations are specified as applying in the applicable Final Terms and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and, if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (vi) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (ii) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which at least two Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Market Value shall be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.

Partial Cash Settlement Amount is deemed to be, for an Undeliverable Obligation or a Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of (i) (A) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, multiplied by (B) the Final Price with respect to such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, determined as provided in this Credit Linked Condition, less (C) Unwind Costs, if any, (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement), and (ii) zero, PROVIDED THAT where (i) a relevant Undeliverable Obligation or Hedge Disruption Obligation forms part of the Asset Package and (ii) the Calculation Agent determines in its sole discretion that a Final Price cannot be reasonably determined in respect of such Undeliverable Obligation or Hedge Disruption Obligation, then the Partial Cash Settlement Amount (i) shall be an amount calculated by the Calculation Agent in its sole discretion

equal to the fair market value of the relevant Undeliverable Obligation or Hedge Disruption Obligation less Unwind Costs, if any, (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement) by reference to such source(s) as it determines appropriate and (ii) may be zero.

Partial Cash Settlement Date is deemed to be the date falling three Business Days after (a) the date on which the Calculation Agent determines that the provisions of this Credit Linked Condition apply to the relevant Undeliverable Obligation or Hedge Disruption Obligation or, if later, (b) the calculation of the Final Price.

- (a) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applying in the applicable Final Terms, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.
- (b) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the applicable Final Terms, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.
- (c) All Quotations shall be obtained in accordance with the specification or determination made pursuant to the definition of Accrued Interest in Credit Linked Condition 13 below.

Quotation Amount is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, an amount equal to the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency which shall be converted by the Calculation Agent by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligations, as the case may be.

Quotation Method is deemed to be Bid.

Reference Obligation is deemed to be each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be.

Valuation Method is deemed to be Highest unless fewer than two Full Quotations are obtained or a Weighted Average Quotation applies (or, if applicable, Indicative Quotations), in which case "Valuation Method" is deemed to be Market.

Valuation Time is the time specified as such in the applicable Final Terms, or, if no such time is specified, 11:00 a.m. in the principal trading market for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be.

Weighted Average Quotation means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, with an Outstanding Principal Balance or Due and Payable Amount, as applicable, of as large a size as available but less than the Quotation Amount that in aggregate are approximately equal to the Quotation Amount.

Standard Reference Obligation means the obligation of the Reference Entity with the relevant Seniority Level which is specified from time to time on the SRO List.

Standard Specified Currency means each of the lawful currencies of Canada, Japan, Switzerland, France, Germany, the United Kingdom and the United States of America and the euro and any successor currency to any of the aforementioned currencies (which in the case of the euro, shall mean the currency which succeeds to and replaces the euro in whole).

Steps Plan means a plan evidenced by Eligible Information contemplating that there will be a series of successions to some or all of the Relevant Obligations of the Reference Entity, by one or more entities.

Subordinated Obligation means any obligation which is Subordinated to any unsubordinated Borrowed Money obligation of the relevant Reference Entity or which would be so Subordinated if any unsubordinated Borrowed Money obligation of the relevant Reference Entity existed.

Substitute Reference Obligation means, with respect to a Non-Standard Reference Obligation to which a Substitution Event has occurred, the obligation that will replace the Non-Standard Reference Obligation, determined by the Calculation Agent as follows:

- (a) The Calculation Agent shall identify the Substitute Reference Obligation in accordance with paragraphs (c), (d) and (e) below to replace the Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an obligation as the Substitute Reference Obligation if, at the time of the determination, such obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.
- (b) If any of the events set forth under paragraphs (a) or (b)(ii) of the definition of Substitution Event have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Deliverable Obligation Characteristic and paragraph (c)(ii) below). If the event set forth in paragraph (b)(i) of the definition of Substitution Event below has occurred with respect to the Non-Standard Reference Obligation and no Substitute Reference Obligation is available, the Non-Standard Reference Obligation will continue to be the Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set forth under paragraphs (a) or (b)(ii) of the definition of Substitution Event below occur with respect to such Non-Standard Reference Obligation.
- (c) The Substitute Reference Obligation shall be an obligation that on the Substitution Date:
 - (i) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee);
 - (ii) satisfies the Not Subordinated Deliverable Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and
 - (iii) (A) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:
 - I. is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of Deliverable Obligation above; or if no such obligation is available,
 - II. is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (a) of the definition of Deliverable Obligation above;
 - (B) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming

Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:

- I. is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - II. is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of Deliverable Obligation above; or if no such obligation is available,
 - III. is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 - IV. is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (a) of the definition of Deliverable Obligation above; or
- (C) if the Non-Standard Reference Obligation was a Loan which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:
- I. is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 - II. is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - III. is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of Deliverable Obligation above; or if no such obligation is available,
 - IV. is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (a) of the definition of Deliverable Obligation above.
- (d) If more than one potential Substitute Reference Obligation is identified pursuant to the process described in paragraph (c) above, the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and payment obligations of the Issuer under the Securities as determined by the Calculation Agent. The Calculation Agent will notify the Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, of the Substitute Reference Obligation as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above and the Substitute Reference Obligation shall replace the Non-Standard Reference Obligation.
- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation until the Extension Date although the Calculation Agent is not obliged to select a Substitute Reference Obligation at

any time. If (A) either (i) Cash Settlement is specified as the Settlement Method in the applicable Final Terms (or is applicable pursuant to the Fallback Settlement Method) and the Credit Event Redemption Amount is determined by reference to a Reference Obligation or (ii) either Auction Settlement or Physical Delivery is specified as the Settlement Method in the applicable Final Terms (or, in the case of Physical Delivery, is applicable pursuant to the Fallback Settlement Method) and, in each case, the Reference Obligation is the only Deliverable Obligation and (B) on or prior to the Extension Date, a Substitute Reference Obligation has not been identified, then the Issuer shall have the right on or after the Extension Date to redeem the Securities at the Early Redemption Amount (determined by the Calculation Agent taking into account the creditworthiness of the Reference Entity at the time of the early redemption) by notice to Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, such payment to be made as specified in such notice. Such notice shall contain details of the procedures and due date for such early redemption.

- (f) For the avoidance of doubt, no Substitute Reference Obligation shall be determined in respect of any Credit Linked Securities that are Reference Obligation Only Securities.

Substitution Date means, with respect to a Substitute Reference Obligation, the date on which the Calculation Agent notifies the Issuer of the Substitute Reference Obligation that it has identified in accordance with the definition of Substitute Reference Obligation above.

Substitution Event means, with respect to the Non-Standard Reference Obligation:

- (a) the Non-Standard Reference Obligation is redeemed in whole; or
- (b) provided that the Credit Linked Securities to which the Non-Standard Reference Obligation relates are not Reference Obligation Only Securities:
- (i) the aggregate amounts due under the Non-Standard Reference Obligation have been reduced by redemption or otherwise below USD 10,000,000 (or its equivalent in the relevant Obligation Currency, as determined by the Calculation Agent); or
- (ii) for any reason, other than due to the existence or occurrence of a Credit Event, the Non-Standard Reference Obligation is no longer an obligation of the Reference Entity (either directly or as provider of a guarantee).

For purposes of identification of the Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event. If an event described in paragraphs (a) or (b)(i) above has occurred on or prior to the Trade Date, then a Substitution Event shall be deemed to have occurred pursuant to paragraphs (a) or (b)(i) above as the case may be, on the Trade Date.

Substitution Event Date means, with respect to the Reference Obligation, the date of the occurrence of the relevant Substitution Event.

Succession Date means the legally effective date of an event in which one or more entities succeed to some or all of the Relevant Obligations of the Reference Entity; provided that if at such time, there is a Steps Plan, the Succession Date will be the legally effective date of the final succession in respect of such Steps Plan, or if earlier (i) the date on which a determination pursuant to paragraph (a) of the definition of Successor below would not be affected by any further related successions in respect of such Steps Plan, or (ii) the occurrence of a Credit Event Determination Date in respect of the Reference Entity or any entity which would constitute a Successor.

Successor means:

- (a) subject to paragraph (b) below, the entity or entities, if any, determined as follows:
 - (i) subject to paragraph (vii) below, if one entity succeeds, either directly or as a provider of a Relevant Guarantee, to 75 per cent. or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor;
 - (ii) if only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. (but less than 75 per cent.) of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than 25 per cent. of the Relevant Obligations will be the sole Successor;
 - (iii) if more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than 25 per cent. of the Relevant Obligations will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;
 - (iv) if one or more entities each succeed, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;
 - (v) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of such succession;
 - (vi) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below); and
 - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the **Universal Successor**) will be the sole Successor; and

- (b) An entity may only be a Successor if:
- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
 - (iii) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors under paragraph (a) above, provided that the Calculation Agent will not make any such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor on the basis of Eligible Information and will, as soon as practicable after such calculation or determination, make such calculation or determination available for inspection by Holders at the specified office of the Principal Agent. In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

Where pursuant to paragraph (a)(iii), (a)(iv), (a)(vi) or (b) above, more than one Successor has been identified, the Calculation Agent shall adjust such of these Terms and Conditions and/or the applicable Final Terms as it shall determine to be appropriate to reflect that the Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of these Terms and Conditions and/or the applicable Final Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Securities under the provisions of the 2014 ISDA Credit Derivatives Definitions.

Upon the Calculation Agent making such adjustment and notifying the Issuer of such adjustment, the Issuer shall give notice as soon as practicable to Holders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, stating the adjustment to these Terms and Conditions and/or the applicable Final Terms and giving brief details of the relevant Successor event.

If two or more entities (each, a **Joint Potential Successor**) jointly succeed to a Relevant Obligation (the **Joint Relevant Obligation**) either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

For the purposes of this definition of "Successor", "succeed" means, with respect to the Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or

becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (ii) issues Bonds or incurs Loans (the **Exchange Bonds or Loans**) that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For purposes of this definition of "Successor", "succeeded" and "succession" shall be construed accordingly. In the case of an exchange offer, the determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

Successor Backstop Date means for purposes of any Successor determination determined by DC Resolution, the date that is ninety calendar days prior to the Successor Resolution Request Date otherwise, the date that is ninety calendar days prior to the earlier of (i) the date on which the Successor Notice is effective and (ii) in circumstances where (A) a Successor Resolution Request Date has occurred, (B) the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination and (C) the Successor Notice is delivered not more than fourteen calendar days after the day on which the DC Secretary publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination, the Successor Resolution Request Date. The Successor Backstop Date shall not be subject to adjustment in accordance with any Credit Linked Business Day Convention.

Trade Date means the date specified as such in the applicable Final Terms.

Transaction Auction Settlement Terms means the Credit Derivatives Auction Settlement Terms selected by the Calculation Agent in accordance with this provision. Each such form of Credit Derivatives Auction Settlement Terms shall set out, *inter alia*, definitions of "Auction", "Auction Cancellation Date", "Auction Covered Transaction" and "Auction Final Price Determination Date" in relation to the relevant Credit Event. The Transaction Auction Settlement Terms for purposes of the Securities shall be the relevant form of Credit Derivatives Auction Settlement Terms for which the Reference Transaction would be an Auction Covered Transaction (as such term will be set out in the relevant Credit Derivatives Auction Settlement Terms). The Reference Transaction (as set out in

the definition thereof) is a hypothetical credit derivative transaction included in these Credit Linked Conditions principally for the purpose of selecting the Credit Derivatives Auction Settlement Terms appropriate to the Securities.

Notwithstanding this definition, if Unwind Costs are specified as Not Applicable in the applicable Final Terms then for purposes of the Credit Linked Conditions Unwind Costs will be deemed to be zero.

- (a) where Physical Delivery is specified as applying in the applicable Final Terms, the day falling two Business Days after the Final Delivery Date (as such term is defined in the Physical Delivery N&C Securities Conditions or the W&C Securities Conditions, as applicable) or such other earlier date determined by the Calculation Agent by reference to the Hedging Arrangements (if any), or, otherwise;
- (b) (i) if "Single Valuation Date" is specified in the applicable Final Terms and subject to Credit Linked Condition 11, a date selected by the Calculation Agent in its sole discretion falling in the period from and including the Credit Event Determination Date (or if the Credit Event Determination Date occurs pursuant to paragraph (a)(ii) of the definition of Credit Event Determination Date above, the day on which the DC Credit Event Announcement occurs) to and including the day falling the number of Business Days specified in the Final Terms (or, if the number of Business Days is not so specified, ninety Business Days) after such date (or, if "Cash Settlement" is applicable pursuant to the Fallback Settlement Method, in accordance with paragraphs (i) or (ii) of Credit Linked Condition 2 above, a date selected by the Calculation Agent in its sole discretion falling in the period from and including the Auction Cancellation Date, if any, or the relevant No Auction Announcement Date, if any, as applicable, to and including the day falling the number of Business Days specified in the Final Terms (or, if the number of Business Days is not so specified, ninety Business Days) after such date); and

If no such Valuation Method is specified in the applicable Final Terms, the Valuation Method shall be Highest.

- (b) The following Valuation Methods may be specified in the applicable Final Terms with more than one Valuation Date:

- (i) **Average Market** means the unweighted arithmetic mean of the Market Values determined by the Calculation Agent with respect to each Valuation Date; or

If this Credit Linked Condition 14 is specified as applicable in the applicable Final Terms, then, notwithstanding anything to the contrary in these Terms and Conditions, upon the occurrence of an M(M)R Restructuring:

- (a) in the case of Credit Linked N&C Securities:
 - (i) The Calculation Agent may deliver multiple Credit Event Notices in respect of such M(M)R Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that may be less than the aggregate Nominal Amount of those N&C Securities outstanding immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Conditions and related provisions shall be deemed to apply to the Partial Redemption Amount only and each such N&C Security shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount).
 - (ii) For the avoidance of doubt (A) the nominal amount of each such N&C Security not so redeemed in part shall remain outstanding and interest shall accrue on the nominal amount outstanding of such N&C Security as provided in N&C Securities Condition 6 (adjusted in such manner as the Calculation Agent determines to be appropriate), (B) the Credit Linked Conditions and related provisions shall apply to such nominal amount outstanding of such N&C Security in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (C) if, following a Restructuring Credit Event,

different Credit Event Determination Dates have been determined with respect to different portions of amounts payable or deliverable to Securityholders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to these Terms and Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 14(a) and (y) the effective date of such adjustment(s).

- (iii) If the provisions of this Credit Linked Condition 14(a) apply in respect of the N&C Securities, on redemption of part of each such N&C Security the relevant N&C Security or, if the N&C Securities are represented by a Global N&C Security, such Global N&C Security, shall be endorsed to reflect such part redemption.

(b) in the case of Credit Linked W&C Securities:

- (i) The Calculation Agent may deliver multiple Credit Event Notices in relation to that Restructuring and in respect of an amount (the **Partial Cancellation Amount**) that is less than the Notional Amount of each W&C Security immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Conditions and related provisions shall be deemed to apply to the Partial Cancellation Amount only and each such W&C Security shall be cancelled in part (such cancelled part being equal to the Partial Cancellation Amount).
- (ii) for the avoidance of doubt (A) the Notional Amount of each such W&C Security not so cancelled in part shall remain outstanding (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate), (B) the Credit Linked Conditions and related provisions shall apply to such amount outstanding of such W&C Security in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (C) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable to Holders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to these Terms and Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 14(b) and (y) the effective date of such adjustment(s).
- (iii) if the provisions of this Credit Linked Condition 14(b) apply in respect of the W&C Securities, on cancellation of part of each such W&C Security the relevant W&C Security or, if the W&C Securities are represented by a Global W&C Security, such Global W&C Security shall be endorsed to reflect such part cancellation.

pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event.

16. Provisions taken from the ISDA supplement titled "Additional Provisions for Physically Settled Default Swaps– Monoline Insurer as Reference Entity" (September 2014)

If this Credit Linked Condition 16 is specified as applicable in the applicable Final Terms, the following provisions will apply:

- (a) **Obligation and Deliverable Obligation.** Paragraph (a) of the definition of **Obligation** in Credit Linked Condition 13 and paragraph (a) of the definition of **Deliverable Obligation** in Credit Linked Condition 13 are hereby amended by adding "or Qualifying Policy" after "as provider of a Relevant Guarantee".
- (b) **Interpretation of Provisions.** In the event that an Obligation or a Deliverable Obligation is a Qualifying Policy, paragraph (B) of the definition of **Deliverable Obligation** in Credit Linked Condition 13 will apply, with references to the Relevant Guarantee, the Underlying Obligation and the Underlying Obligor deemed to include the Qualifying Policy, the Insured Instrument and the Insured Obligor, respectively, except that:
 - (i) the Obligation Category Borrowed Money and the Obligation Category and Deliverable Obligation Category Bond shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Deliverable Obligation Category Bond shall be deemed to include such an Insured Instrument, and the terms "obligation" and "obligor" as used in these Credit Linked Conditions in respect of such an Insured Instrument shall be construed accordingly;
 - (ii) references in the definitions of Assignable Loan and Consent Required Loan to the **guarantor** and **guaranteeing** shall be deemed to include the **insurer** and **insuring**, respectively;
 - (iii) neither the Qualifying Policy nor the Insured Instrument must satisfy on the relevant date the Deliverable Obligation Characteristic of Accelerated or Matured, whether or not that characteristic is otherwise specified as applicable in the applicable Final Terms;
 - (iv) if the Assignable Loan, Consent Required Loan, Direct Loan Participation or Transferable Deliverable Obligation Characteristics are specified in the applicable Final Terms and if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument;
 - (v) with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "maturity", as such term is used in the Maximum Maturity Deliverable Obligation Characteristic, shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur; and
 - (vi) with respect to a Qualifying Policy and an Insured Instrument, only the Qualifying Policy must satisfy on the relevant date or dates the "Not Subordinated" Obligation Characteristic or Deliverable Obligation Characteristic, if applicable.

- (c) **Outstanding Principal Balance.** References in paragraph (a) of the definition of "Outstanding Principal Balance" in Credit Linked Condition 13 to a Guarantee, the Underlying Obligation and the Underlying Obligor shall be deemed to include a Qualifying Policy, the Insured Instrument and the Insured Obligor respectively. Any provisions of an Insured Instrument limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instruments shall be disregarded for the purposes of limb (ii) of paragraph (b) of the definition of "Outstanding Principal Balance" provided that such provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or reduction.
- (d) **Deliver.** For the purposes of the definition of "**Deliver**" in Credit Linked Condition 13, "Deliver" with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognised custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and "Delivery" and "Delivered" will be construed accordingly.
- (e) **Provisions for Determining a Successor.** Paragraph (a), the paragraph commencing "If two more entities..." and the paragraph commencing "For the purposes of this definition of "Successor...", in each case in the definition of "Successor" in Credit Linked Condition 13 are hereby amended by adding "or Qualifying Policy" after each occurrence of "a Relevant Guarantee". Such paragraph commencing "If two or more entities..." will be further amended by adding "or provider of a Qualifying Policy" after "as guarantor or guarantors".
- (f) **Original Non-Standard Reference Obligation, Substitute Reference Obligation and Substitution Event.** The definition of "Original Non-Standard Reference Obligation", paragraph (c)(i) of the definition of "Substitute Reference Obligation" and paragraph (b)(ii) of "Substitution Event" are hereby amended by adding "or Qualifying Policy" after "a guarantee".
- (g) **Restructuring**
- (i) With respect to an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest or a Qualifying Policy with respect thereto, paragraphs (i) to (v) inclusive of the definition of "Restructuring" in Credit Linked Condition 13 are hereby amended to read as follows:
- "(i) a reduction in the rate or amount of the Instrument Payments in paragraph (A)(x) of the definition thereof that are guaranteed or insured by the Qualifying Policy (including by way of redenomination);
- (ii) a reduction in the amount of the Instrument Payments described in paragraph (A)(y) of the definition thereof that are guaranteed or insured by the Qualifying Policy (including by way of redenomination);
- (iii) a postponement or other deferral of a date or dates for either (x) the payment or accrual of the Instrument Payments described in paragraph (A)(x) of the definition thereof or (y) the payment of the Instrument Payments described in paragraph (A)(y) of the definition thereof, in each case that are guaranteed or insured by the Qualifying Policy;
- (iv) a change in the ranking in priority of payment of (x) any Obligation under a Qualifying Policy in respect of Instrument Payments, causing the Subordination of such Obligation to any other Obligation or (y) any Instrument Payments, causing the Subordination of such Insured Instrument

to any other instrument in the form of a pass-through certificate or similar funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or

(v) any change in the currency of any payment of Instrument Payments that are guaranteed or insured by the Qualifying Policy to any currency other than the lawful currency of Canada, Japan, Switzerland, the United Kingdom and the United States of America and the euro and any successor currency to any of the aforementioned currencies (which in the case of the euro, shall mean the currency which succeeds to and replaces the euro as a whole)."

(ii) Paragraph (d) of the definition of "Restructuring" in Credit Linked Condition 13 is hereby amended by adding "or, in the case of a Qualifying Policy and an Insured Instrument, where (A) the Qualifying Policy continues to guarantee or insure, as applicable, that the same Instrument Payments will be made on the same dates on which the Qualifying Policy guaranteed or insured that such Instrument Payments would be made prior to such event and (B) such event is not a change in the ranking in the priority of payment of the Qualifying Policy" at the end thereof.

(iii) The definition of "Restructuring" in Credit Linked Condition 13 is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

"For purposes of this definition of "Restructuring" and, if Credit Linked Condition 15 is specified as applying in the applicable Final Terms, for the purposes of Credit Linked Condition 15, the term "Obligation" shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy. In the case of a Qualifying Policy and an Insured Instrument, references to the Reference Entity in this definition of "Restructuring" shall be deemed to refer to the Insured Obligor with the exception of the references to the Reference Entity in paragraph (d) inclusive in this definition of "Restructuring" which shall continue to refer to the Reference Entity."

(h) **Fully Transferable Obligation and Conditionally Transferable Obligation.** In the event that "M(M)R Restructuring" applies and a Fully Transferable Obligation or Conditionally Transferable Obligation is a Qualifying Policy, the Insured Instrument must meet the requirements of the relevant definition. References in the definition of "Conditionally Transferable Obligation" to the "guarantor" and "guaranteeing" shall be deemed to include the "insurer" and "insuring" respectively. With respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "final maturity date", as such term is used in Credit Linked Condition 4 and the definition of "Restructuring Maturity Limitation Date", shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.

(i) **Other Provisions.** For purposes of the definitions of "Credit Event", "Deliver" and "Prohibited Action" in Credit Linked Condition 13 references to the "Underlying Obligation" and the "Underlying Obligor" shall be deemed to include "Insured Instruments" and the "Insured Obligor", respectively.

(j) **Additional Definitions.**

Qualifying Policy means a financial guaranty insurance policy or similar financial guarantee pursuant to which a Reference Entity irrevocably guarantees or insures all Instrument Payments of an instrument that constitutes Borrowed Money (modified as set forth in these Credit Linked Conditions) (the **Insured Instrument**) for which another party (including a special purpose entity or trust) is the obligor (the **Insured Obligor**). Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments).

Instrument Payments means (A) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (B) in the case of any other Insured Instrument, the scheduled payments of principal and interest, in the case of both (A) and (B) (1) determined without regard to limited recourse or reduction provisions of the type described in paragraph (c) above and (2) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the Qualifying Policy).

Certificate Balance means, in the case of an Insured Instrument that is in the form of a pass through certificate or similar funded beneficial interest, the unit principal balance, certificate balance or similar measure of unreimbursed principal investment.

17. **Determinations and Notices**

(a) **Determinations and interpretation**

The Calculation Agent will determine the day on which an event occurs for purposes of these Credit Linked Conditions on the basis that the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone of its place of payment.

(b) **Notices**

Any notice to be delivered by the Calculation Agent to the Issuer or the Guarantor (if applicable), as applicable, pursuant to these Credit Linked Conditions may be given in writing (including by facsimile and/or email) and/or by telephone and will be effective when given. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice. Any notice required to be sent or delivered by the Issuer may be sent or delivered on behalf of the Issuer by any of the Issuer's Affiliates and/or service providers,

and any determination or exercise of a discretion required to be made by the Issuer may be delegated by it and made on its behalf by any of the Issuer's Affiliates and/or service providers

18. Provisions taken from the ISDA supplement titled "Additional Provisions for LPN Reference Entities" (published on 15 September 2014)

If this Credit Linked Condition 18 is specified as applicable in the applicable Final Terms, notwithstanding anything to the contrary in the Credit Linked Conditions, the following provisions will apply:

- (a) provisions relating to Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to, the definition of "Obligation" in Credit Linked Condition 13, and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to, the definition of "Deliverable Obligation" in Credit Linked Condition 13 and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation.

The Not Subordinated Obligation Characteristic and Deliverable Obligation Characteristic shall be construed by reference to the Prior Reference Obligation;

- (d) the definition of Reference Obligation shall be deleted and the following substituted therefor:

"Reference Obligation means each of the obligations listed as a Reference Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligations List (each a **Markit Published LPN Reference Obligation**), as published by Markit Group Limited, or any successor thereto, as of the Trade Date (which list is, as of the date of this Base Prospectus, available at <http://www.markit.com/marketing/services.php>), any Additional LPN and each Additional Obligation. Each Reference Obligation determined in accordance with the foregoing will be a Reference Obligation notwithstanding anything to the contrary in the Credit Linked Conditions, and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity. The Standard Reference Obligation shall not apply.

It is intended that there may be more than one Reference Obligation, as a result of which all applicable references in the Credit Linked Conditions to "the Reference Obligation" shall be construed as a reference to "a Reference Obligation", and all other provisions of the Credit Linked Conditions shall be construed accordingly. No Substitution Event may occur and no Substitute Reference Obligation may be determined in respect of an LPN Reference Obligation and the definitions of Substitution Event and Substitute Reference Obligation in this Credit Linked Condition 13 shall be construed accordingly.";

- (e) the definition of Original Non-Standard Reference Obligation shall be deleted and the following substituted therefor:

"Original Non-Standard Reference Obligation means the obligation of the Reference Entity (either directly or as provider of a guarantee) which is specified as the Reference Obligation in respect of such Reference Entity in the applicable Final Terms (if any is so specified)."

(f) the following additional definitions shall apply:

Additional LPN means any bond issued in the form of a loan participation note (a **LPN**) by an entity (the **LPN Issuer**) for the sole purpose of providing funds for the LPN Issuer to (a) finance a loan to the Reference Entity (the **Underlying Loan**) or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the **Underlying Finance Instrument**), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN the Underlying Finance Instrument satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics (ii) the LPN satisfies the following Deliverable Obligation Characteristics: Transferable, Not Bearer, Credit Linked Specified Currency – Standard Specified Currencies, Not Domestic Law, Not Domestic Issuance; and (iii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

Additional Obligation means each of the obligations listed as an Additional Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligations List (each a **Markit Published LPN Reference Obligation**), as published by Markit Group Limited, or any successor thereto, as of the Trade Date (which list is, as of the date of this Base Prospectus, available at <http://www.markit.com/marketing/services.php>).

First Ranking Interest means a charge, security interest (or other type of interest having similar effect) (an **Interest**), which is expressed as being "first ranking", "first priority", or similar (**First Ranking**) in the document creating such Interest (notwithstanding that such Interest may not be First Ranking under any insolvency laws of any related insolvency jurisdiction of the LPN Issuer).

LPN Reference Obligation means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the LPN Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked Conditions each such loan shall be an Underlying Loan.

19. Amendment of Credit Linked Conditions in accordance with Market Convention

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions and the applicable Final Terms in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable from the perspective of the Issuer, the Calculation Agent or a Hedging Party (i) to incorporate and/or reflect (x) further or alternative documents or protocols from time to time published by ISDA with respect to the documentation, trading or settlement of credit derivative transactions and/or (y) the operation or application of determinations by the Credit Derivatives Determinations Committees and/or (ii) to reflect or account

for market practice for credit derivative transactions and/or reflect the Hedging Arrangements of the Issuer or any of its Affiliates. Any amendment made in accordance with this Credit Linked Condition 19 shall be notified to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable.

20. Specific Provisions for Credit Linked Warrants

Any specific amendments to these Credit Linked Conditions which may be required in respect of an issuance of Credit Linked Warrants (which shall be Exempt W&C Securities only) shall be set out in the applicable Final Terms.

21. Early redemption or exercise of Reference Obligation Only Securities following a Substitution Event

If the Securities are Reference Obligation Only Securities relating to a single Reference Entity and the event set out in paragraph (a) of the definition of Substitution Event above occurs with respect to the Reference Obligation, then:

- (a) in the case of N&C Securities:
 - (i) interest (if any) shall cease to accrue on the Credit Linked Securities from and including the first day of the Coupon Period during which the relevant Substitution Event Date occurred (and accordingly, if such date falls during the first Coupon Period, no interest will accrue on the Credit Linked Securities; and
 - (ii) each unit or nominal amount of Credit Linked Securities equal to the Calculation Amount set out in the applicable Final Terms will be redeemed by the Issuer at its relevant Reference Obligation Only Termination Amount specified in, or determined in the manner specified in, the applicable Final Terms in the Specified Currency on the Maturity Date, which for the purposes of this Credit Linked Condition 21 shall be the day falling five Business Days following the relevant Substitution Event Date; and
- (b) in the case of W&C Securities each Credit Linked W&C Security will be cancelled by the Issuer on the day falling five Business Days following the relevant Substitution Event Date at its Early Cancellation Amount as calculated by the Calculation Agent in accordance with W&C Securities Condition 5.

22. DC Resolution Adjustment Events

If, following the publication of a DC Resolution (the **Prior DC Resolution**), a further DC Resolution (the relevant **Further DC Resolution**) is published, the effect of which would be to reverse all or part of the Prior DC Resolution or if any DC Resolution would reverse any determination made by the Calculation Agent and/or the occurrence of a Credit Event Determination Date, notwithstanding any other provisions of these Credit Linked Conditions the Calculation Agent may, in its sole and absolute discretion, make any adjustment(s) that the Calculation Agent determines is necessary or desirable to the N&C Securities Conditions or W&C Securities Conditions, as applicable, or these Credit Linked Conditions to reflect the publication of such Further DC Resolution or DC Resolution, including, without limitation, as a result of the impact or effect of such Further DC Resolution or DC Resolution on the Hedging Arrangements.

23. Hedging Disruption

(a) Hedging Disruption Adjustment

In the event that:

- (i) the Issuer and/or any of its Affiliates or agents is unable, after using commercially reasonable efforts, to:
 - (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of the Issuer issuing and performing its obligations with respect to the Securities, or
 - (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s);
- (ii) the Reference Obligation no longer exists or other circumstances exist as described in paragraphs (a) or (b) of the definition of Substitution Event and no Substitute Reference Obligation is determined (which the Calculation Agent may determine not to do in its sole discretion); or
- (iii) the existing Hedging Arrangements of the Issuer or any Affiliate, or the ability of the Issuer or any Affiliate to enter into new Hedging Arrangements, are affected by any change in any standard terms used in any relevant market (such standard terms including, without limitation, any version of the ISDA Credit Derivative Definitions, any supplements thereto or any other terms or documentation that may be published by ISDA from time to time, and such a change including, without limitation, any amendment to or reinterpretation of any standard terms or the publication or introduction of new standard terms) or in market practice in any relevant market,

(each of the events described in paragraphs (i) to (iii) above, a **Hedging Adjustment Event**) the Issuer may make such adjustment to the Conditions of the Securities (including, for the avoidance of doubt, these Credit Linked Conditions) as the Issuer determines is appropriate to account for such Hedging Adjustment Event and determine the effective date of that adjustment. Any adjustment made in accordance with this Credit Linked Condition 23 shall be notified to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9.

(b) Hedging Disruption Termination

Notwithstanding the provisions of Credit Linked Condition 23(a) above, if the Issuer determines that no adjustment that it could make under Credit Linked Condition 23(a) above would be sufficient (in the Issuer's opinion) to reflect the occurrence of the relevant Hedging Adjustment Event, the Issuer may redeem or cancel all but not some only of the Securities as of such date as the Issuer shall determine by notice given to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount as calculated by the Calculation Agent in accordance with W&C Securities Condition 5.

24. Physical Settlement Matrix

(a) Applicability of the provisions of the ISDA Physical Settlement Matrix

If Physical Settlement Matrix is specified as applicable in the applicable Final Terms, each item in the Final Terms in respect of which "See Physical Settlement Matrix" is specified shall, in respect of a Reference Entity, be construed to have the meaning given to it for the relevant Transaction Type in the ISDA Physical Settlement Matrix (as defined in Credit Linked Condition 13 above) but in each case (if relevant) as such provisions of the ISDA Physical Settlement Matrix are amended in accordance with paragraph (b) of this Credit Linked Condition 24. Any relevant item in the Final Terms will be deemed to be "Applicable" in respect of a Reference Entity if such item states "See Physical Settlement Matrix" and, in respect of the relevant Transaction Type for that Reference Entity, the ISDA Physical Settlement Matrix specifies substantially the same term as is specified in the relevant item of the Final Terms, all as determined by the Calculation Agent.

For the avoidance of doubt, none of the other provisions of the relevant Physical Settlement Matrix shall be relevant in determining the terms of the Securities.

26. *[This Condition has been intentionally left blank]*

27. **Provisions taken from the ISDA supplement titled "Additional Provisions for Senior Non-Preferred Reference Obligations" (published on 8 December 2017)**

Notwithstanding anything to the contrary in the Credit Linked Conditions, the provisions of this Credit Linked Condition 27 will apply:

- (A) to the Reference Entity in respect of any Credit Linked Securities for which a single Reference Entity is specified in the applicable Final Terms and either (i) this Credit Linked Condition 27 is specified as "Applicable" in item 34 (xxxix) of the applicable Final Terms or (ii) "See Physical Settlement Matrix" is specified in item 34 (xxxix) of the applicable Final Terms and the "Transaction Type" for the Reference Entity is either "Standard European Senior Non-Preferred Financial Corporate" or "European Senior Non-Preferred Financial Corporate"; or
- (B) where there is more than one Reference Entity specified in respect of the relevant Credit Linked Securities in the applicable Final Terms, only to those Reference Entities in respect of which (i) if this Credit Linked Condition 27 is specified as "Applicable" in item 34 (xxxix) of the applicable Final Terms, the "Seniority Level" is specified as "Senior Non-Preferred Level" in the Table annexed to the applicable Final Terms or (ii) if "See Physical Settlement Matrix" is specified in item 34 (xxxix) of the applicable Final Terms, the "Transaction Type" is either "Standard European Senior Non-Preferred Financial Corporate" or "European Senior Non-Preferred Financial Corporate".

The provisions of this Credit Linked Condition 27 will not apply in any other circumstances or in respect of any other Reference Entities.

(a) **Amendments to the definitions**

(i) Reference Obligation

The definition of "Reference Obligation" in Credit Linked Condition 13 is amended by the insertion of the following language after the words "if any" in the first line of such definition:

"provided that, irrespective of any Original Non-Standard Reference Obligation specified in the applicable Final Terms, if (i) a Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity is specified on the SRO List, such Standard Reference Obligation shall be deemed to constitute the Reference Obligation, or (ii) no such Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity is specified on the SRO List but such Standard Reference Obligation has previously been specified on the SRO List, there shall be deemed to be no Reference Obligation applicable to the Credit Linked Securities and such previously specified Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity shall be deemed to constitute the Prior Reference Obligation".

(ii) **Seniority Level**

The definition of "Seniority Level" in Credit Linked Condition 13 shall be deleted and replaced with the following:

Seniority Level means Senior Non-Preferred Level.

For the avoidance of doubt, any specification of the "Seniority Level" as "Senior Non-Preferred Level" in item 34 (xxxix) of the applicable Final Terms shall apply only to those Reference Entities to which the provisions of this Credit Linked Condition 27 apply.

(b) **Additional definitions**

The following terms shall have the following meanings:

Senior Non-Preferred Obligation means any obligation of the Reference Entity which is Subordinated only to any unsubordinated Borrowed Money Obligations of the Reference Entity but not further or otherwise, or which would be so Subordinated if any unsubordinated Borrowed Money Obligations of the Reference Entity existed, and which ranks above Traditional Subordinated Obligations of the Reference Entity or which would so rank if any Traditional Subordinated Obligations of the Reference Entity existed;

Tier 2 Subordinated Obligation means any obligation of the Reference Entity which meets the conditions set out in Article 63 of Regulation 575/2013 of the European Parliament and of the Council of 26 June 2013, as such Article may be amended or replaced from time to time (the CRR) or which are (or were at any time) otherwise eligible as a Tier 2 item in accordance with the CRR; and

Traditional Subordinated Obligation means each of:

- (i) Tier 2 Subordinated Obligations of the Reference Entity;
- (ii) any obligations of the Reference Entity which rank or are expressed to rank pari passu with any Tier 2 Subordinated Obligations of the Reference Entity; and
- (iii) any obligations of the Reference Entity which are Subordinated to the obligations thereto described in (i) and (ii) above.

(c) **Subordinated Obligation**

A Senior Non-Preferred Obligation shall constitute a Subordinated Obligation for the purposes of the Credit Linked Conditions and it shall be deemed that there is a relevant Reference Obligation which is a Subordinated Obligation for the purposes of the definitions of "Excluded Obligation" and "Relevant Obligations" in Credit Linked Condition 13.

(d) **Further Subordinated Obligation**

A Traditional Subordinated Obligation shall constitute a Further Subordinated Obligation for the purposes of the Credit Linked Conditions.

(e) **Subordination**

"Subordination" shall have the meaning ascribed to it in the definition of "Obligation" in Credit Linked Condition 13 and such term shall be applied in the assessment of any Obligation without regard to how the Obligation is described by the laws of any relevant jurisdiction, including any characterisation of the Obligation as senior or unsubordinated by the laws of any relevant jurisdiction.

28. 2019 Narrowly Tailored Credit Event Provisions

If this Credit Linked Condition 28 is specified as applicable in the applicable Final Terms, the following provisions will apply:

- (a) The definition of "Failure to Pay" in Credit Linked Condition 13 shall be deleted and replaced with the following:

"Failure to Pay means, after the expiration of any applicable Grace Period (after the satisfaction of any conditions precedent to the commencement of such Grace Period), the failure by the Reference Entity to make, when and where due, any payments in an aggregate amount of not less than the Payment Requirement under one or more Obligations, in accordance with the terms of such Obligations at the time of such failure provided that, if an occurrence that would constitute a Failure to Pay (a) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (b) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination. If "Credit Deterioration Requirement" is specified as applicable in the applicable Final Terms, then, notwithstanding the foregoing, it shall not constitute a Failure to Pay if such failure does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of the Reference Entity. In the event that the Calculation Agent makes any such determination, it may take into account the guidance note set out in paragraph 3 (*Interpretive Guidance*) of the ISDA 2019 Narrowly Tailored Credit Event Supplement to the 2014 ISDA Credit Derivatives Definitions (published on July 15, 2019)."

- (b) The definition of "Outstanding Principal Balance" in Credit Linked Condition 13 shall be deleted and replaced with the following

"Outstanding Principal Balance means the outstanding principal balance of an obligation which will be calculated as follows:

- (a) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where applicable in accordance with the definition of Accrued Interest above, the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (i) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (ii) the amount of the Fixed Cap, if any);
- (b) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (i) is subject to any Prohibited Action, or (ii) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (A) payment or (B) a Permitted

Contingency) (the amount determined in accordance with paragraph (a) above less any amounts subtracted in accordance with this paragraph (b), the **Non-Contingent Amount**); and

- (c) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

- (i) unless otherwise specified, in accordance with the terms of the obligation in effect on either (A) such date as the Calculation Agent determines appropriate taking into account the Hedging Arrangements or (B) the relevant Valuation Date; and
- (ii) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purposes of paragraph (ii) above, **applicable laws** shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject.

If "Fallback Discounting" is specified as applicable in the applicable Final Terms, then, notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under paragraph (ii) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the **Original Obligation(s)**) at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and
- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the

resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee."

FORM OF NHI GUARANTEE

The following section applies to both Exempt Securities and Non-Exempt Securities.

THIS DEED OF GUARANTEE amends and restates the Deed of Guarantee dated 4 October 2022 of Nomura Holdings, Inc. (the **Guarantor**) and is given on 27 September 2023 by the Guarantor.

WHEREAS:

- (A) Nomura Bank International plc (the **Issuer**) and the Guarantor have entered into an amended and restated Agency Agreement dated on or about 27 September 2023 (as the same may be supplemented, amended and/or restated from time to time, the **Agency Agreement**) with, *inter alios*, Citibank Europe PLC as Principal Agent pursuant to which the Issuer may from time to time issue Securities under its Note, Warrant and Certificate Programme (the **Programme**).
- (B) The applicable final terms (the **Final Terms**) relating to each series of Securities will specify whether or not those Securities are Guaranteed N&C Securities or Guaranteed W&C Securities and if so whether the guarantor is Nomura Holdings, Inc. and any Securities specified as such shall, for the purposes of this Guarantee and subject as provided in Clause 4 below in respect of W&C Securities, be referred to as **Guaranteed Securities**.
- (C) In respect of the guarantee of each Series of Guaranteed W&C Securities, the application of the Guarantee to such Series of Guaranteed W&C Securities is subject to authorisation on a case by case basis from an executive officer of the Guarantor authorised by the Guarantor's Executive Management Board, all as provided in Clause 4 below.
- (D) Terms defined in (i) the Terms and Conditions of the N&C Securities or the Terms and Conditions of the W&C Securities (as applicable) and (ii) each applicable annex of additional terms and conditions (together, the **Conditions**) in the form referred to in the definition of "Conditions" in the Agency Agreement and not otherwise defined in this Guarantee shall have the same meaning when used in this Guarantee.
- (E) Any Guaranteed Securities issued on or after the date of this Guarantee will be guaranteed pursuant to this Guarantee other than any Guaranteed Securities issued so as to be consolidated and form a single Series with any Guaranteed Securities issued prior to the date hereof. This does not affect any Guaranteed Securities issued prior to the date of this Guarantee, in relation to which such previous form of guarantee as applied to those Guaranteed Securities on issue, will continue to apply.

NOW THIS DEED WITNESSETH as follows:

1. The Guarantor as primary obligor hereby irrevocably and unconditionally guarantees to the holder (as such term is used in the Conditions) from time to time of each Guaranteed Security (each a **Relevant Holder**) (which, in the case of an N&C Security, shall include any Receiptholder and/or Couponholder, if applicable) by way of continuing guarantee:
 - (a) the due and punctual payment of all amounts payable by the Issuer on or in relation to such Guaranteed Securities as and when the same shall become due to be paid under the Conditions;

3. In respect of any Guaranteed Security, without affecting the obligations of the Issuer thereunder, the Guarantor will be liable under this Guarantee as if it were the sole principal obligor and not merely a surety in respect of such Guaranteed Security. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal obligor (including (a) any time, indulgence, waiver or consent at any time given to the Issuer or any other person, (b) any amendment to such Guaranteed Security or to any security or other guarantee or indemnity in respect of such Guaranteed Security, (c) the making or absence of any demand on the Issuer or any other person for payment or performance of any Delivery Obligation or Relevant Obligation under such Guaranteed Security, (d) the enforcement or absence of enforcement of such Guaranteed Security or of any security or other guarantee or indemnity in respect of such Guaranteed Security, (e) the release of any such security, guarantee or indemnity, (f) the dissolution, amalgamation, reconstruction or reorganisation of the Issuer or any other person or (g) the illegality, invalidity or unenforceability of or any defect in any provision of such Guaranteed Security or any of the Issuer's obligations thereunder).
4. Notwithstanding any other provision in this Guarantee, the Guarantor's obligations under this Guarantee in respect of each Series of Guaranteed W&C Securities only are subject to the conditions precedent set out in (a) and (b) below:
- (a) the receipt by the Issuer at least one Business Day prior to the Issue Date for the relevant Series of W&C Securities of a certified copy of an English translation of a written determination of an executive officer of the Guarantor authorised by the Executive Management Board of the Guarantor (an **NHI Approval**) authorising the application of this Guarantee to the relevant Series of W&C Securities and, in particular confirming that such resolution or determination is provided:
- (i) in contemplation of the terms of this Guarantee;
 - (ii) for the purposes of authorising the guarantee of the relevant Series of W&C Securities; and
 - (iii) specifically referencing the relevant Series of W&C Securities to which such authorisation applies; and
- (b) the date of the relevant NHI Approval is included in the applicable Final Terms for such W&C Securities.

The term **Guaranteed W&C Securities** and **Guaranteed Securities** as used in this Guarantee shall only refer to such W&C Securities as comply with the requirements of this Clause 4.

5. The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains, or is capable of remaining, payable or deliverable under

any Guaranteed Security. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Relevant Holder, whether from the Guarantor or otherwise, in respect of such Guaranteed Security.

6. The Guarantor hereby waives diligence, presentment, demand of payment, filing of claims with a court in the event of dissolution, liquidation, merger or bankruptcy of the Issuer, any right to require a proceeding first against the Issuer, protest or notice with respect to the relevant Guaranteed Securities or the indebtedness evidenced thereby and all demands whatsoever and hereby covenants that this Guarantee shall be a continuing guarantee, which shall not be discharged except by complete performance of the obligations contained in the Conditions in respect of the relevant Guaranteed Securities.
7. If any payment or other consideration received by a Relevant Holder under any Guaranteed Security is, on the subsequent bankruptcy, insolvency or corporate reorganisation of the Issuer or other such similar event, avoided or set aside under any laws relating to liquidation or insolvency, such payment or consideration will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment or consideration had at all times remained owing by the Issuer and the Guarantor shall indemnify the Relevant Holders in respect thereof PROVIDED THAT the obligations of the Guarantor under this Clause shall, as regards each payment made to any Relevant Holder which is so avoided or set aside, be contingent upon such payment being reimbursed to the Issuer or other persons entitled through the Issuer.
8.  - (a) either such securities are by their terms payable, or confer a right to receive payment, in any currency other than the currency of the jurisdiction of incorporation of the Guarantor (the **Guarantor's Currency**) which is Japanese Yen, or such securities are denominated in the Guarantor's Currency and more than 50 per cent. of the aggregate principal amount thereof is initially distributed outside the jurisdiction of incorporation of the Guarantor (the **Guarantor's Jurisdiction**) which is Japan, by or with the authorisation of the Guarantor or (if not the Guarantor) the Issuer; and
 - (b) such securities are for the time being, or are intended to be, quoted, listed, ordinarily dealt in or traded on any stock exchange or over-the-counter or other securities market outside the Guarantor's Jurisdiction,

without in any such case at the same time according to this Guarantee either the same security as is granted to or is outstanding in respect of such securities, guarantee, indemnity or other like obligation or such other security or guarantee as shall be approved by an Extraordinary Resolution of the Securityholders.

As used in this paragraph, **securities** means bonds, debentures, notes or other similar investment securities of the Issuer or the Guarantor, or any other person with a stated maturity of more than one year from the creation thereof.

10. Withholding or deduction:

10.1 All payments made under this Guarantee by the Guarantor in respect of any Guaranteed N&C Security will be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Guarantor's Jurisdiction, or any political subdivision or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law. In such event, the Guarantor (or as the case may be, the relevant Paying Agent) will make such payment after the withholding or deduction of such taxes, duties, assessments or governmental charges has been made, shall account to the relevant authorities for the amount required to be withheld or deducted and:

- (a) in the case of N&C Securities which are specified as being Reference Item Linked N&C Securities in the applicable Final Terms, unless the provisions of Condition 9.1.2 of the Conditions are specified to apply to the Securities in the applicable Final Terms, the Guarantor shall not pay any additional amounts to the Relevant Holders; and
- (b) in the case of (A) N&C Securities which are not specified as being Reference Item Linked N&C Securities in the applicable Final Terms and (B) Reference Item Linked N&C Securities in respect of which the provisions of Condition 9.1.2 of the Conditions are specified to apply to the Securities in the applicable Final Terms, the Guarantor will, subject to certain limitations and exceptions (set forth below), pay such additional amounts as may be necessary in order that the net amounts received by the Relevant Holders after the withholding or deduction shall equal the respective amounts which would have been receivable in respect of the N&C Securities, or, as the case may be, Receipts or Coupons in the absence of the withholding or deduction; except that no additional amounts shall be payable in relation to any payment in respect of any N&C Security, Receipt or Coupon:
 - (i) presented for payment or in respect of which payment is requested in the Guarantor's Jurisdiction;
 - (ii) presented for payment or in respect of which payment is requested by or on behalf of a Relevant Holder (a) who is, for tax purposes in the Guarantor's Jurisdiction or (b) who is otherwise subject to such taxes and duties by reason of having some connection with the Guarantor's Jurisdiction other than the mere holding of such N&C Security, Receipt or Coupon; or
 - (iii) presented for payment or in respect of which payment is requested more than 30 days after the Relevant Date (as defined below) except to the extent that the Relevant Holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in the Conditions).

In addition, no such additional amounts shall be payable with respect to (i) any withholding or deduction required pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Code**), and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto.

As used herein:

Relevant Date means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with the Conditions.

- 10.2 The Guarantor shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment (including any stamp or transfer tax) which may arise as a result of the ownership, transfer, exercise or enforcement of any W&C Security by any person and all payments made under this Guarantee by the Guarantor in respect of any W&C Security shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

13. Until all amounts which may be payable under the Guaranteed Securities have been irrevocably paid in full and all Delivery Obligations and/or Relevant Obligations of the Issuer thereunder have been performed in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Relevant Holder or claim in competition with the Relevant Holders against the Issuer.
14. The Guarantor may not assign or transfer its rights or obligations under this Guarantee without the approval of an Extraordinary Resolution of the Relevant Holders of the relevant Guaranteed Securities and any purported assignment or delegation without such approval will be void; provided, however, that approval will not be required for the assumption by a Substituted Guarantor (as defined below) of the rights and obligations of the Guarantor under this Guarantee in the circumstances described in Clause 15 below.
15. In the event that another company (the **Substituted Guarantor**) is substituted for the Guarantor as guarantor in relation to Guaranteed Securities in accordance with the Conditions, the Guarantor will procure that the Substituted Guarantor shall assume all of its rights and obligations hereunder.
16. 1. The Guarantor as primary obligor hereby irrevocably and unconditionally guarantees to the holder (as such term is used in the Conditions) from time to time of each Guaranteed Security (each a **Relevant Holder**) (which shall include any Receiptholder and/or Couponholder, if applicable) by way of continuing guarantee:

The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains, or is capable of remaining, payable or deliverable under any Guaranteed Security. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Relevant Holder, whether from the Guarantor or otherwise, in respect of such Guaranteed Security.
5. The Guarantor hereby waives diligence, presentment, demand of payment, filing of claims with a court in the event of dissolution, liquidation, merger or bankruptcy of the Issuer, any right to require a proceeding first against the Issuer, protest or notice with respect to the relevant Guaranteed Securities or the indebtedness evidenced thereby and all demands whatsoever and hereby covenants that this Guarantee shall be a continuing guarantee, which shall not be discharged except by complete performance of the obligations contained in the Conditions in respect of the relevant Guaranteed Securities.

BOOK-ENTRY CLEARANCE SYSTEMS

The following section applies to both Exempt Securities and Non-Exempt Securities.

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear, Clearstream, Luxembourg or Euroclear France (together, the "Book-Entry Clearing Systems") currently in effect. Investors wishing to use the facilities of any of the Book-Entry Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Book-Entry Clearing System. Neither the Issuer, the Guarantors nor any agent party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Securities held through the facilities of any Book-Entry Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Book-Entry Systems

DTC

DTC has advised the Issuer and the Guarantors that it is a limited-purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for securities that its participants (**Direct Participants**) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerised book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organisations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (**DTCC**). DTCC, in turn, is owned by a number of Direct Participants and Members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation and Emerging Markets Clearing Corporation (also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC and the National Association of Securities Dealers, Inc. Access to the depository system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly (**Indirect Participants** and, together with Direct Participants, **Participants**). The rules applicable to Direct Participants are on file with the U.S. Securities and Exchange Commission. More information about DTC can be found at its internet web site at <http://www.dtcc.com>, but such information is not incorporated by reference in and does not form part of this Base Prospectus.

Under the rules, regulations and procedures creating and affecting DTC and its operations (the **Rules**), DTC makes book-entry transfers of Rule 144A Global Securities held through DTC among Direct Participants on whose behalf it acts with respect to Securities accepted into DTC's book-entry settlement system (**DTC Securities**, which term shall, for the purposes of this "Book-Entry Clearance Systems" section, include certificated depository interests and certificateless depository interests (together **CDIs**) issued by the Book-Entry Depository in respect of Immobilised Bearer Global N&C Securities pursuant to the terms of the N&C Securities Depository Agreement) as described below and receives and transmits payments on DTC Securities. Direct Participants and Indirect Participants with which beneficial owners of DTC Securities (**Beneficial Owners**) have accounts with respect to the DTC Securities similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Beneficial Owners. Accordingly, although Beneficial Owners who hold DTC Securities through Direct Participants or Indirect Participants will not possess definitive Securities, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect to the DTC Securities.

Purchases of DTC Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Securities on DTC's records. The ownership interest of each actual purchaser of each DTC Securities being a Beneficial Owner, is in turn to be recorded on the Direct and Indirect Participant's records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Securities are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Securities, except in the event that use of the book-entry system for the DTC Securities is discontinued.

To facilitate subsequent transfers, all DTC Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or any other nominee as may be requested by an authorised representative of DTC. The deposit of DTC Securities with DTC and their registration in the name of Cede & Co. or any other nominee effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Securities; and DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the DTC Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to DTC Securities unless authorised by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the DTC Securities will be made to Cede & Co., or such other nominee as may be requested by an authorised representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Issuer or the relevant agent (or such other nominee as may be requested by an authorised representative of DTC), on the relevant payment date in accordance with their respective holdings shown in DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

Under certain circumstances, including if there is an Event of Default under the Securities, DTC will exchange the DTC Securities for Definitive Securities, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Security, will be legended as set forth under "*Notice to Purchasers and Holders of Securities and Transfer Restrictions*". Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Beneficial Owner desiring to pledge DTC Securities to persons or entities that do not participate in DTC, or

otherwise take actions with respect to such DTC Securities, will be required to withdraw its registered Securities from DTC as described below.

DTC may discontinue providing its services as depository with respect to the DTC Securities at any time by giving reasonable notice to the Issuer or the relevant agent. Under such circumstances, in the event that a successor depository is not obtained, DTC Securities certificates are required to be printed and delivered.

Book-entry Ownership of and Payments in respect of DTC Securities

Subject as set out below in respect of Immobilised Bearer Global N&C Securities, if a Rule 144A Global Security is to be registered in the name of a nominee of DTC, the Issuer will apply to DTC in order to have the Securities represented by such Rule 144A Global Security accepted in its book-entry settlement system. Upon the issue of any Rule 144A Global Security to be held through DTC, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts or number of the individual beneficial interests represented by such Rule 144A Global Security to the accounts of persons who have accounts with DTC. Ownership of beneficial interests in any such Rule 144A Global Security will be limited to Direct Participants or Indirect Participants, including the respective depositories of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in any such Rule 144A Global Security held through DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of principal and interest in respect of a Rule 144A Global Security accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Security. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Rule 144A Global Security in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

The Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The Issuer also expects that payments by Participants to Beneficial Owners of DTC Securities will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not

the responsibility of DTC, any Agent or the Issuer. Other than in respect of CDIs issued by the Book-Entry Depository in respect of a Series of Immobilised Bearer Global N&C Securities, payments on DTC Securities to DTC shall be the responsibility of the Issuer. Payments by participants to owners of Book-Entry Interests held through participants are the responsibility of such participants.

Rule 144A Global W&C Securities

Payments in U.S. dollars in respect of a Rule 144A Global W&C Security registered in the name of DTC's nominee will be made to the order of such nominee as the registered holder of such W&C Security. In the case of any payment in a currency other than U.S. dollars, payment will be made to the New York Security Agent on behalf of DTC's nominee and the New York Security Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Rule 144A Global W&C Security held through DTC in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

Immobilised Bearer Global N&C Securities

Payments of any amounts owing in respect of Immobilised Bearer Global N&C Securities (including principal and interest, if any) will be made by the Issuer in the Specified Currency to the relevant Paying Agent. The relevant Paying Agent will, in turn, make such payments to or to the order of the Book-Entry Depository in its capacity as bearer of the relevant Immobilised Bearer Global N&C Securities. Upon receipt of such amounts, the Book-Entry Depository will pay the amounts so received to DTC or the common depository for Euroclear and Clearstream, Luxembourg, as applicable, which will distribute payments to participants in accordance with their procedures, as detailed above.

The Issuer will treat the bearer of the Immobilised Bearer Global N&C Securities as the owner thereof for the purposes of receiving payments and for all other purposes. None of the Issuer, the Book-Entry Depository or any agent of the Issuer has or will have any responsibility or liability for:

- (a) any aspect of the records of DTC, Euroclear, Clearstream, Luxembourg or any direct or indirect participant relating to, or payments made on account of, a Book-Entry Interest in any Immobilised Bearer Global N&C Securities or for maintaining, supervising or reviewing any of the records of DTC, Euroclear, Clearstream, Luxembourg or any direct or indirect participant relating to, or payments made on account of, a Book-Entry Interest in any Immobilised Bearer Global N&C Securities; or
- (b) DTC, Euroclear, Clearstream, Luxembourg or any direct or indirect participant.

Transfers of Securities Represented by Global Securities

Transfers of any interests in Securities represented by a Global Security or a CDI within DTC, or a Global Security or a CDI within Euroclear and/or Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system and, in the case of CDIs, in accordance with the provisions of the N&C Securities Depository Agreement. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Securities represented by a Global Security or a CDI to such persons may depend upon the ability to exchange such Securities for Securities in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Securities represented by a Global Security or a CDI to pledge such Securities to persons or entities that do not participate in the DTC system or to otherwise take action in respect of such Securities may depend upon the ability to exchange such Securities for Securities in definitive form. The ability of any person having a beneficial interest in Securities represented by a Global Security or a CDI to resell, pledge or otherwise transfer such Securities may be impaired if the proposed

transferee of such Securities is not eligible to hold such Securities through a Direct or Indirect participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Rule 144A Global Securities described under "*Notice to Purchasers and Holders of Securities and Transfer Restrictions*", cross-market transfers between DTC, on the one hand, and directly or indirectly through Euroclear and/or Clearstream, Luxembourg accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Principal Agent, the New York Security Agent and any custodian (**Custodian**) with whom the relevant Global W&C Securities, Bearer Global N&C Securities or Immobilised Bearer Global N&C Securities, as applicable, have been deposited.

On or after the Issue Date for any Securities, transfers of such Securities (or beneficial interests therein) between accountholders in Euroclear and Clearstream, Luxembourg and transfers of such Securities (or beneficial interests therein) between participants in DTC will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Euroclear, Clearstream, Luxembourg and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Euroclear/Clearstream, Luxembourg, on the other, transfers of interests in the relevant Global W&C Securities, Bearer Global N&C Securities or Immobilised Bearer Global N&C Securities, as applicable, will be effected through the Principal Agent, the New York Security Agent and the Custodian receiving instructions (and where appropriate certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear/Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The Securities (or beneficial interests therein) will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Euroclear and Clearstream, Luxembourg have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Global Securities, among participants and accountholders of DTC, Euroclear and Clearstream, Luxembourg. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Guarantors, the Agents or any Dealer will be responsible for any performance by DTC, Euroclear or Clearstream, Luxembourg or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Securities represented by Global W&C Securities, Bearer Global N&C Securities or Immobilised Bearer Global N&C Securities, as applicable, or for maintaining, supervising or reviewing any records relating to such beneficial interests.

Each subsequent transferee of a Regulation S Security will be deemed to have made the same representations, warranties and agreements above.

U.S. Investors

Unless otherwise provided in the applicable Final Terms, each initial purchaser of Securities eligible to be offered and sold in the United States or to, or for the account or benefit of, U.S. persons (a **Rule 144A Security**) that is not a Regulation S Investor (a **U.S. Investor**) will be required to execute and deliver an Investor Representation Letter substantially in the form set out in the Agency Agreement and described below. In addition, transfers of interests in Global Securities (which term shall include both N&C Securities and/or W&C Securities, as the context permits) may require the delivery of a Transfer Certificate in the form set out in the Agency Agreement and may require execution and delivery of a further Investor Representation Letter, as provided in the Conditions. Unless otherwise provided in the applicable Final Terms, the Investor Representation Letter to be delivered by each U.S. Investor shall include the following representations, warranties and agreements:

1. **Purchaser Requirements.** The purchaser (i) is a QIB that is a QP, (ii) will provide notice of applicable transfer restrictions to any subsequent transferee, and (iii) is purchasing for its own account or for the accounts of one or more other persons each of whom meets all of the requirements of sub-clauses (i) and (ii) of this clause.
2. **Notice of Transfer Restrictions.** Each purchaser acknowledges and agrees that (A) neither the Securities, the Guarantee nor, in certain cases where applicable, the Entitlement have been or will be registered under the Securities Act or any applicable state securities laws and neither the Issuer nor the Guarantors has been or will be registered as an "investment company" under the 1940 Act, (B) the Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the CFTC pursuant to the CEA, (C) neither the Securities nor any beneficial interest therein may be re-offered, resold, pledged or otherwise transferred except in accordance with the provisions set out in paragraph 1 above or any other restriction set out in the applicable Final Terms and (D) the

purchaser will notify any transferee of such transfer restrictions and that each subsequent holder will be required to notify any subsequent transferee of such Securities of such transfer restrictions. The purchaser acknowledges that the Issuer reserves the right prior to any sale or other transfer to require the delivery of such certifications, legal opinions and other information as the Issuer may reasonably require to confirm that the proposed sale or other transfer complies with the foregoing restrictions.

Notwithstanding any other provision contained in this Notice, if the Final Terms in respect of an offering of Securities indicates that such Securities are not eligible to be offered, sold, resold, transferred, pledged, delivered or redeemed, directly or indirectly, in the United States or to or for the account or benefit of U.S. Persons, each purchaser acknowledges and agrees to the selling and transfer restrictions under the federal securities and commodities laws of the United States as indicated and set out in such Final Terms.

3. **Mandatory Transfer.** Each purchaser acknowledges and agrees that in the event that at any time the Issuer determines or is notified by the Dealer acting on behalf of the Issuer that such purchaser was in breach, at the time given or deemed to be given, of any of the representations or agreements set out in paragraph 1 above or otherwise determines that any transfer or other disposition of any Securities would, in the sole determination of the Issuer or the Dealer acting on behalf of the Issuer, require the Issuer to register as an "investment company" under the provisions of the 1940 Act, such purchase or other transfer will be void *ab initio* and will not be honoured. Accordingly, any such purported transferee or other holder will not be entitled to any rights as a holder of Securities and the Issuer shall have the right, in accordance with the terms and conditions of the Securities, to force the transfer of any such Securities. There can be no assurance that a holder of Securities who is required to transfer Securities in this way will not incur a significant loss as a result of the need for the Issuer to find a qualifying transferee willing to purchase the Securities. Neither the Issuer, the Guarantors nor any other party shall be liable to a holder of Securities for any such loss. No payments will be made on the affected Securities from the date notice of the sale requirement is sent to the date on which the Interest is sold.
4. **Rule 144A Information.** Each purchaser of Rule 144A Securities is hereby notified that the offer and sale of such Securities to it is being made in reliance upon the exemption from the registration requirements of the Securities Act provided by Rule 144A thereunder (**Rule 144A**). The Issuer has agreed to furnish to investors upon request such information as may be required by Rule 144A.
5. **ERISA.** Each purchaser and subsequent transferee of any Securities (or any interests therein) will be deemed by such purchase or acquisition of any Securities (or any interests therein) to have represented and warranted, on each day from the date on which the purchaser or transferee acquires the Securities (or any interests therein) through and including the date on which the purchaser or transferee disposes of such Securities (or any interests therein), that either (i) it is not, is not using the assets of and shall not at any time hold such Securities (or any interests therein) for or on behalf of a Benefit Plan Investor (as defined in Section 3(42) of the U.S. Employee Retirement Income Security Act of 1974, as amended (**ERISA**)) or a governmental, church or non-U.S. plan subject to any federal, state, local or non-U.S. laws or regulations substantially similar to Section 406 of ERISA or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the **Code**), or (ii) its acquisition, holding and disposition of such Securities (or any interest therein) will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, or, in the case of a governmental, church or non-U.S. plan, a violation of any substantially similar federal, state, local or non-U.S. laws or regulations. Each purchaser and subsequent transferee of any Securities (or any interest therein) that is a Benefit Plan Investor will be further deemed to represent, warrant and agree that (i) none of the Issuer, the Principal Agent, the Guarantors, the Dealer(s) or any other party to the transactions referred to in this Base Prospectus, or other persons that provide marketing services, or any of their respective affiliates, has provided, and none of them will provide, any investment recommendation or investment advice on which it, or any fiduciary or other person investing the assets of the Benefit Plan Investor (**Plan Fiduciary**), has relied as a primary basis in connection with its

decision to invest in the Securities, and they are not otherwise undertaking to act as a fiduciary, as defined in Section 3(21) of ERISA or Section 4975(e)(3) of the Code, to the Benefit Plan Investor or the Plan Fiduciary in connection with the Benefit Plan Investor's acquisition of the Securities; and (ii) the Plan Fiduciary is exercising its own independent judgment in evaluating the investment in the Securities.

6. **Base Prospectus.** The purchaser has received the Base Prospectus and the applicable Final Terms and has not relied on any information relating to the Issuer, any Reference Entity, Reference Item and/or Reference Obligation, as applicable, or the Securities, other than information that is contained in the Base Prospectus and the applicable Final Terms or that is publicly available. Each purchaser acknowledges that neither the Issuer, the Guarantors nor any Dealer make any representation or warranty as to the adequacy or completeness of the Base Prospectus for purposes of the ability of the purchaser to make an investment decision with respect to the Securities.
7. **Investigation.** The purchaser has conducted its own investigation of the Securities and the Issuer and the Guarantors and acknowledges that it is not relying on any investigation that the Issuer, the Guarantors, any Dealer or any person representing the Issuer, the Guarantors or any Dealer may have conducted with respect to the Securities, the Issuer or the Guarantors, and that none of such persons has made any representation to it, express or implied, with respect to the Securities, the Issuer or the Guarantors. Each purchaser has had access to such financial and other information concerning the Issuer, the Guarantor and the Securities as it has deemed necessary in connection with its decision to purchase the Securities, including an opportunity to ask questions of and request information from the Issuer and any Dealer.
8. **Knowledge and Experience.** The purchaser is a highly sophisticated institutional investor with extensive knowledge and experience in financial and business matters and expertise in assessing credit and all other relevant risk. The purchaser is capable of evaluating independently, and, notwithstanding the inclusion of only limited information with respect to the Issuer and the Guarantors in the Base Prospectus, has evaluated independently the merits, risks and suitability of the potential purchase of the Securities. The purchaser is relying exclusively on its own sources of information, investigation, credit and legal analysis with respect to the Securities, the Issuer and the Guarantors and it has not relied in any respect on any Dealer with respect to information about the Issuer and the Guarantors in deciding to purchase the Securities. The purchaser is not relying on any communication (written or oral) of the Issuer or the Dealer as investment advice or as a recommendation to invest in the Securities, it being understood that information and explanations related to the terms and conditions of the Securities shall not be considered to be investment advice or a recommendation to invest in the Securities. The purchaser acknowledges and agrees that no communication (written or oral) received from the Issuer or the Dealer shall be deemed to be an assurance or guarantee as to the expected results of the Securities.
9. **Legends on Global Securities.** The purchaser acknowledges that each of the Global Securities will bear legends substantially to the effect set out below and that the Issuer has covenanted not to remove either such legend so long as it shall be necessary for the Issuer to rely on the exception to the 1940 Act set out in Section 3(c)(7) thereof.

Any transfer or other disposition of any Securities or beneficial interest therein that would, in the sole determination of the Issuer, require the Issuer to register as an "investment company" under the provisions of the 1940 Act will be void *ab initio*, and such transfer or other disposition will not be recognised by the Issuer. If, at any time, any Securities or beneficial interest therein are held by or on behalf of a person in the United States or a U.S. person who is not a QIB that is a QP at the time it purchases such Securities, the Issuer may, in its discretion and at the expense and risk of such holder, require any such holder to transfer such Securities to a QIB that is a QP or to a non-U.S. person outside the United States. There can be no guarantee that a holder of Securities who is required to transfer Securities in this way will not incur a significant loss as a result of the need for the Issuer to find a

qualifying transferee willing to purchase the Securities. Neither the Issuer, the Guarantors nor any other party shall be liable to a holder of Securities for any such loss. No payments will be made on the affected Securities from the date notice of the sale requirement is sent to the date on which the interest is sold. The determination of which Securities will be sold in any particular case is in the discretion of the Issuer.

Prospective purchasers are hereby notified that sellers of the Securities may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A and one or more exemptions and/or exclusions from regulation under the CEA.

The Issuer is a wholly owned subsidiary of Nomura Europe Holdings plc which in turn is a wholly owned subsidiary of NHI.

NHI (previously known as The Nomura Securities Co., Ltd.) was incorporated in Japan on 25 December 1925 under the Commercial Code of Japan when the securities division of The Osaka Nomura Bank, Ltd. became a separate entity specialising in the trading and distribution of debt securities in Japan. The registered head office of NHI is located at 13-1, Nihonbashi 1-chome, Chuo-ku, Tokyo 103-8645, Japan, and the telephone number is +81-3-5255-1000. Further, NHI's commercial registration is up to date as at the date of this Base Prospectus.

Nomura Holdings, Inc.'s website is www.nomuraholdings.com. Information found on this website does not form part of this Base Prospectus unless that information is incorporated by reference into this Base Prospectus.

NHI's business purpose is, according to Article 2 of NHI's Articles of Incorporation, by means of holding shares, to control and manage the business activities of domestic companies which engage in the following businesses and the business activities of foreign companies which engage in the business equivalent to the following businesses: (1) financial instruments business prescribed in the Financial Instruments and Exchange Law; (2) banking business prescribed in the Banking Law and trust business prescribed in the Trust Business Law; (3) any other financial services and any business incidental or related to such financial services; and (4) other than as prescribed in the items above, any other business ancillary or related to survey and research in connection with the economy, financial or capital markets, or infrastructure or undertaking the outsourcing thereof. NHI may conduct any other business incidental to its business activities described in this paragraph.

HISTORY

NHI was the first Japanese securities company to develop its business internationally with the opening in 1927 of a representative office in New York. In Japan, NHI broadened the scope of its business when it began trading in equity securities in 1938 and when it organised the first investment trust in Japan in 1941.

On 1 October 2001, NHI adopted a holding company structure. In connection with this reorganisation, NHI changed its name from "The Nomura Securities Co., Ltd." to "Nomura Holdings, Inc." NHI continues to be listed on the Tokyo Stock Exchange, Inc. and other stock exchanges on which it was previously listed. A wholly-owned subsidiary of NHI assumed its securities business and is named "Nomura Securities Co., Ltd."

NHI has proactively engaged in establishing a governance framework to ensure transparency in its management. Among other endeavours, when NHI adopted a holding company structure and was listed on the New York Stock Exchange in 2001, NHI installed Outside Directors. In addition, in June 2003, NHI further strengthened and increased the transparency of its oversight functions by adopting the Company with Three Board Committees, a system in which management oversight and business execution functions are clearly separated.

In 2008, to pave the way for future growth, NHI acquired and integrated the operations of Lehman Brothers in Asia Pacific, Europe and the Middle East.

Information Concerning NHI's Directors

The Companies Act states that a Company with Three Board Committees (as defined below) must establish three committees; a nomination committee, an audit committee and a compensation committee. The members of each committee are chosen from the company's directors, and the majority of the members of each committee must be outside directors. At a Company with Three Board Committees, the board of directors is entitled to establish the basic management policy for the company, has decision-making authority over certain prescribed matters, and supervises the execution by the executive officers of their duties. Executive officers and representative executive officers appointed by a resolution adopted by the board of directors manage the business affairs of the company, based on a delegation of authority by the board of directors.

Since June 2003, NHI has adopted a corporate governance structure that separates management oversight functions from business execution functions (**Company with Three Board Committees**). Through this governance structure, NHI aims to strengthen management oversight, increase the transparency of NHI's management and expedite the decision-making process within the Nomura Group. NHI has, in addition to the Board of Directors and the Nomination/Audit/Compensation committees, established the "Board Risk Committee", which is a non-statutory committee that has the purpose of deepening the oversight of risk management by the Board of Directors. An outline of NHI's Board of Directors, Nomination Committee, Audit Committee, Compensation Committee and Board Risk Committee is provided below.

Board of Directors

NHI's Board of Directors consists of Directors who are elected at a general meeting of shareholders and NHI's Articles of Incorporation provide that the number of Directors shall not exceed twenty. The term of office of each Director expires upon the conclusion of the ordinary general meeting of shareholders with respect to the last fiscal year ending within one year after their appointment. Directors may serve any number of consecutive terms. From among its members, NHI's Board of Directors elects the Chairman. NHI's Board of Directors met eleven times during the fiscal year ended 31 March 2023. As a group, NHI's Directors attended 98 per cent. of the total number of meetings of NHI's Board of Directors during the year.

NHI's Board of Directors has the authority to determine NHI's basic management policy and supervise the execution by the Executive Officers of their duties. Although NHI's Board of Directors also has the authority to make decisions with regard to NHI's business, most of this authority has been delegated to the Executive Officers by a resolution adopted by NHI's Board of Directors. There are no Directors' service contracts with NHI or any of its subsidiaries providing for benefits upon termination of employment. As of 27 June 2023, the members of NHI's Board of Directors are Koji Nagai, Kentaro Okuda, Yutaka Nakajima, Shoji Ogawa, Noriaki

Shimazaki, Kazuhiko Ishimura, Laura Simone Unger, Victor Chu, J. Christopher Giancarlo, Patricia Mosser, Takahisa Takahara, Miyuki Ishiguro and Masahiro Ishizuka. Koji Nagai is the Chairman of the Board.

Nomination Committee

NHI's Nomination Committee, in accordance with law and NHI's Regulations of the Nomination Committee, determines the details of any proposals concerning the election and dismissal of Directors to be submitted to general meetings of shareholders by NHI's Board of Directors. NHI's Nomination Committee met eight times during the fiscal year ended 31 March 2023. As a group, the member Directors attended all of the meetings of the Nomination Committee during the year. As of 27 June 2023, the members of the Nomination Committee are Outside Directors Kazuhiko Ishimura and Takahisa Takahara, and Koji Nagai, a Director not concurrently serving as an Executive Officer. Kazuhiko Ishimura is the Chairman of this Committee.

Audit Committee

NHI's Audit Committee, in accordance with law and NHI's Regulations of the Audit Committee, (i) audits the execution by the Directors and the Executive Officers of their duties and the preparation of audit reports and (ii) determines the details of proposals concerning the election, dismissal or non-reappointment of the accounting auditor to be submitted to general meetings of shareholders by NHI's Board of Directors. With respect to financial reporting, NHI's Audit Committee has the statutory duty to examine financial statements and business reports to be prepared by Executive Officers designated by NHI's Board of Directors and is authorised to report its opinion to the ordinary general meeting of shareholders.

NHI's Audit Committee met fifteen times during the fiscal year ended 31 March 2023. As a group, the member Directors attended all of the meetings of the Audit Committee during the year. As of 27 June 2023, the members of the Audit Committee are Outside Directors Noriaki Shimazaki, Victor Chu and Masahiro Ishizuka, and Shoji Ogawa (a full-time member of the Audit Committee), a Director not concurrently serving as an Executive Officer. Noriaki Shimazaki is the Chairman of this Committee.

Compensation Committee

NHI's Compensation Committee, in accordance with law and NHI's Regulations of the Compensation Committee, determines NHI's policy with respect to the determination of the details of each Director and Executive Officer's compensation. NHI's Compensation Committee also determines the details of each Director and Executive Officer's actual compensation. NHI's Compensation Committee met seven times during the fiscal year ended 31 March 2023. As a group, the member Directors attended all of the meetings of the Compensation Committee during the year. As of 27 June 2023, the members of the Compensation Committee are Outside Directors Kazuhiko Ishimura and Takahisa Takahara, and Koji Nagai, a Director not concurrently serving as an Executive Officer. Kazuhiko Ishimura is the Chairman of this Committee.

Board Risk Committee

NHI's Board Risk Committee is a non-statutory organ, in accordance with NHI's Regulations of the Board Risk Committee, of which purpose is to assist the Board of Directors in supervising Nomura Group's risk management and to contribute to sophistication of the risk management. At meetings of the Board Risk Committee, to further strengthen the risk management of Nomura Group, consent to the Risk Appetite Statement and the main design of the risk management framework, analysis of risk environment/verification results and future projections, supervision of overall execution of risk management and medium- to long-term risk strategies are mainly deliberated. The status of execution of the function in the Board Risk Committee is reported to the Board of Directors. NHI's Board Risk Committee met five times during the fiscal year ended 31 March 2023. As a group, the member Directors attended 93 per cent. of the total number of the meetings of the Board Risk Committee during the year. As of 27 June 2023 the members of the Board Risk Committee are Outside Directors Laura Simone Unger, Noriaki Shimazaki, Victor Chu, J. Christopher Giancarlo, Patricia

Mosser and Miyuki Ishiguro, and Shoji Ogawa, a Director not concurrently serving as an Executive Officer. Laura Simone Unger is the Chairperson of this Committee.

Limitation of Director Liability

In accordance with Article 33, Paragraph 2 of NHI's Articles of Incorporation and Article 426, Paragraph 1 of the Companies Act of Japan, NHI may execute agreements with Directors (excluding a person who serves as an executive director, etc.) that limit their liability to NHI for damages suffered by NHI if they acted in good faith and without gross negligence. Accordingly, NHI has entered into agreements to limit the Companies Act of Japan Article 423 Paragraph 1 liability for damages (Limitation of Liability Agreements) with each of the following Directors: Shoji Ogawa, Noriaki Shimazaki, Kazuhiko Ishimura, Laura Simone Unger, Victor Chu, J. Christopher Giancarlo, Patricia Mosser, Takahisa Takahara, Miyuki Ishiguro and Masahiro Ishizuka. Liability under each such agreement is limited to either ¥20 million or the amount prescribed by laws and regulations, whichever is greater.

Directors and Officers Liability Insurance Contracts

NHI has entered into directors and officers liability insurance contracts set forth in Article 430-3, Paragraph 1 of the Companies Act of Japan with insurance companies, which have persons such as directors, executive officers, senior managing directors, auditors, and senior employees of NHI and its subsidiaries, etc. as insured persons. Under such insurance contracts, there will be an indemnification of losses, such as compensation for damages and litigation costs, incurred by an insured person due to a claim for loss or damage caused by an act (including an omission) carried out on the basis of the position, such as director or officer, held by the insured at NHI, and all insurance premiums of insureds have been entirely borne by NHI. However, there are certain exclusions applicable to such insurance contracts such as losses caused by a deliberately fraudulent or dishonest act of individuals such as directors/officers.

Information Concerning NHI's Executive Officers

Executive Officers of NHI are appointed by NHI's Board of Directors, and NHI's Articles of Incorporation provide that the number of Executive Officers shall not exceed forty-five. The term of office of each Executive Officer expires upon the conclusion of the first meeting of the Board of Directors convened after the ordinary general meeting of shareholders for the last fiscal year ending within one year after each Executive Officer's assumption of office. Executive Officers may serve any number of consecutive terms. NHI's Executive Officers have the authority to determine matters delegated to them by resolutions adopted by the Board of Directors and to execute business activities.

The following table shows the number of shares owned by NHI's Directors and Executive Officers as of 31 May 2023. As of that date, none of them owned 1 per cent. or more of NHI's issued and outstanding shares. None of the shares referred to below have different voting rights.

TAXATION

The following section applies to both Exempt Securities and Non-Exempt Securities.

The following comments are of a general nature, are based on the Issuer's understanding of current law and practice and are included in this document solely for information purposes. These comments are not intended to be, nor should they be regarded as, legal or tax advice. The precise tax treatment of a holder of a Security will depend for each issue on the terms of the Securities as specified in the Terms and Conditions, as completed and, in the case of Exempt Securities, amended by the applicable Final Terms under the law and practice at the relevant time. Tax legislation, including in the country where the investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Notes. Prospective holders of Securities should consult their own tax advisers in all relevant jurisdictions to obtain advice about their particular tax treatment in relation to such Securities.

UNITED STATES FEDERAL INCOME TAXATION

The following summary describes certain U.S. federal income tax considerations that may be relevant to a U.S. holder (as defined below) who purchases a Security, but is not purported to be a complete analysis of all potential tax effects. This summary is based upon the U.S. Internal Revenue Code of 1986 (the **Code**), existing and proposed regulations promulgated thereunder, and published rulings and court decisions, all as in effect and existing on the date of this Base Prospectus and all of which are subject to change at any time with retrospective or prospective effect. The rules governing the U.S. federal income taxation of option transactions and other derivative financial instruments are complex and depend on a taxpayer's particular circumstances. Accordingly, this summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to any particular investor in a Security. In particular, this summary deals only with holders of Securities who purchase in the initial offering at the applicable issue price and in whose hands the Securities, or the stock, debt, commodity or other property underlying the Securities would be capital assets for U.S. federal income tax purposes. In addition, this discussion assumes that the Securities that are treated as options for U.S. federal income tax purposes, when issued, are not significantly "in-the-money".

This summary also does not discuss the U.S. federal income tax treatment of a U.S. holder who is a member of a class of holders subject to special rules, such as a dealer in securities, commodities or derivative financial instruments, a trader in securities, commodities or derivative financial instruments that elects to use a mark-to-market method of accounting for securities or commodities holdings, a bank, a life insurance company, a tax-exempt organisation, entities that are treated for U.S. federal income tax purposes as partnerships or other pass-through entities, an investor who purchases a Security with respect to stock in a company that is treated as a passive foreign investment company (**PFIC**) for U.S. federal income tax purposes, an investor who purchases a Security and holds any other position (whether long or short, direct or indirect) in any asset underlying such Security, an investor who purchases a Security that is part of a hedging transaction or that has been hedged against currency risk, an investor who purchases a Security that is part of a straddle or conversion transaction for U.S. federal income tax purposes, an investor who purchases or sells Securities as part of a wash sale for U.S. federal income tax purposes, and a U.S. holder whose functional currency for U.S. federal income tax purposes is not the U.S. dollar.

As a consequence of the foregoing, it should be particularly noted that this summary does not address the special tax considerations that apply to an investment in a combination of Securities with respect to the same underlying assets. Further, this summary does not address U.S. federal estate, gift or alternative minimum tax consequences, non-U.S. state or local tax consequences, special tax accounting rules that may apply as a result of any item of gross income with respect to the Notes being taken into account on an applicable financial statement or the indirect effects on the holders of equity interests in a holder of a Security.

Any of the foregoing circumstances might substantially alter the tax consequences described below, and, in some instances, may require specific identification of positions in the relevant Security before the close of the

day on which they are acquired. For example, if the straddle rules were to apply, a U.S. holder of a Security might be required to (i) recognise all or a portion of any gain on such Security that would otherwise be long-term or short-term capital gain, as ordinary income or, if applicable, short-term capital gain, (ii) defer all, or a portion, of any loss realised upon the sale, exchange, exercise, cancellation or lapse of such Security and (iii) capitalise any interest or carrying charges incurred by such U.S. holder with respect to such Security.

This summary does not address the material U.S. federal income tax consequences of every type of Security which may be issued under the Programme. Additional U.S. federal income tax consequences, if any, applicable to a particular Security may be set forth in the applicable Final Terms.

The rules governing the taxation of option transactions and derivative financial instruments are complex and depend on a taxpayer's particular circumstances. U.S. holders are strongly urged to consult their tax advisers concerning the U.S. federal, state, local, foreign and other national tax consequences of the ownership and disposition of Securities in their particular circumstances. U.S. holders should also consult their tax advisers as to the possibility of changes of law affecting taxation of derivative financial instruments with contingent payments, including prepaid forward contracts. Prospective investors should consult their tax advisers regarding the U.S. federal, state, local and foreign tax consequences of acquiring, owning and disposing of the Securities in light of such investor's own circumstances, including such investor's status as a U.S. holder (as defined below), as well as any other estate, gift, or other tax consequences that may arise under the laws of any state, local, foreign or other taxing jurisdiction.

For purposes of this discussion, a **U.S. holder** means a beneficial owner of a Security that is:

- (i) a citizen or individual resident of the United States, as defined in Section 7701(b) of the Code,
- (ii) a corporation, including any entity treated as a corporation for U.S. federal income tax purposes, created or organised in or under the laws of the United States, any State thereof or the District of Columbia;
- (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source;
- (iv) a trust if (x) a court within the United States is able to exercise primary supervision over the administration of the trust, and one or more United States persons have the authority to control all substantial decisions of the trust, or (y) such trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person; or
- (v) otherwise subject to U.S. federal income taxation on a net income basis in respect of the Security.

A **non-U.S. holder** is a beneficial owner of Securities that is not a U.S. holder.

If a partnership holds a Security, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. Partners in partnerships holding a Security should consult their tax advisers regarding the U.S. federal income tax consequences of acquiring, owning, exchanging and disposing of the Securities.

The Issuer generally intends to treat N&C Securities issued under the Programme as debt, but other tax treatment may be indicated in the applicable Final Terms. Certain N&C Securities such as Index Linked N&C Securities, may be treated as equity or a derivative financial instrument for U.S. federal income tax purposes. The tax treatment of N&C Securities to which a treatment other than debt may apply may be discussed in the applicable Final Terms. The Final Terms for an issue of N&C Securities may specify with respect to the issue of N&C Securities to which it relates (and where relevant) the potential U.S. federal income tax consequences of the purchase, ownership and disposition of the N&C Securities.

Holders may be subject to a variety of U.S. tax consequences depending on the subject and the terms of the N&C Securities. Holders should consult their own advisers about the tax consequences of purchasing N&C

Securities, particularly whether the N&C Securities being acquired could be treated for U.S. tax purposes as debt instruments or as another type of financial instrument.

Classification of the Securities

Depending on the terms of a Security, such Security could be treated as one or more of the following: (i) a prepaid forward contract (which, depending on the terms, may be subject to embedded options), (ii) a combination of a loan and a prepaid forward contract, (iii) an outright or constructive ownership interest in the property underlying such Security, (iv) an option or warrant, or (v) a debt instrument with or without contingent payments. Additional U.S. federal income tax consequences applicable to a particular issuance of Securities may be set forth in the applicable Final Terms.

No ruling is being requested from the U.S. Internal Revenue Service (**IRS**) with respect to the Securities, and the treatment of the Securities described below is not binding on the IRS or the courts. As a result, significant aspects of the U.S. federal income tax consequences of an investment in the Securities are uncertain.

Debt

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Securities treated as debt for U.S. federal tax purposes. This summary addresses only the tax consequences of the ownership of debt Securities held through an immobilised bearer structure or that are otherwise treated as issued in registered form for U.S. federal income tax purposes.

Payment of Interest

Interest on a Security, including the payment of any additional amounts, whether payable in U.S. dollars or a currency, composite currency or basket of currencies other than U.S. dollars ("foreign currency" interest on a **Foreign Currency Security**), other than interest on a **Discount Security** that is not "qualified stated interest" (each as defined below under "*Original Issue Discount—General*"), will be taxable to a U.S. holder as ordinary income at the time it is received or accrued, depending on the U.S. holder's method of accounting for tax purposes. Interest paid by the Issuer on the Securities and original issue discount (**OID**), if any, accrued with respect to the Securities (as described below under "*Original Issue Discount*") generally will constitute income from sources outside the United States subject to the rules regarding the foreign tax credit allowable to a U.S. holder. Prospective purchasers should consult their tax advisers concerning the foreign tax credit implications of any payment of foreign taxes.

Original Issue Discount

General

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Securities issued with OID. The following summary does not discuss Securities that are characterised as contingent payment debt instruments for U.S. federal income tax purposes.

A Security, other than a Security with a term of one year or less, will generally be treated as issued with OID (a **Discount Security**) if the excess of the Security's "stated redemption price at maturity" over its issue price is equal to or more than a *de minimis* amount (0.25 per cent. of the Security's stated redemption price at maturity multiplied by the number of complete years to its maturity). An obligation that provides for the payment of amounts other than qualified stated interest before maturity (an "**instalment obligation**") will be treated as a Discount Security if the excess of the Security's stated redemption price at maturity over its issue price is equal to or greater than 0.25 per cent. of the Security's stated redemption price at maturity multiplied by the weighted average maturity of the Security. A Security's weighted average maturity is the sum of the following amounts determined for each payment on a Security (other than a payment of qualified stated interest): (i) the number

of complete years from the issue date until the payment is made multiplied by (ii) a fraction, the numerator of which is the amount of the payment and the denominator of which is the Security's stated redemption price at maturity. Generally, the issue price of a Security will be the first price at which a substantial amount of Securities included in the issue of which the Security is a part is sold to persons other than bond houses, brokers, or similar persons or organisations acting in the capacity of underwriters, placement agents, or wholesalers. The stated redemption price at maturity of a Security is the total of all payments provided by the Security that are not payments of "qualified stated interest." A qualified stated interest payment is generally any one of a series of stated interest payments on a Security that are unconditionally payable at least annually at a single fixed rate, or a variable rate (as described below under "*Variable Interest Rate Securities*"), applied to the outstanding principal amount of the Security. Solely for the purposes of determining whether a Security has OID, the Issuer will be deemed to exercise any call option that has the effect of decreasing the yield on the Security, and the U.S. holder will be deemed to exercise any put option that has the effect of increasing the yield on the Security. If a Security has *de minimis* OID, a U.S. holder must include the *de minimis* amount in income as stated principal payments are made on the Security, unless the U.S. holder makes an election to treat all interest as OID.

U.S. holders of Discount Securities must include OID in income calculated on a constant-yield method before the receipt of cash attributable to the income, and generally will have to include in income increasingly greater amounts of OID over the life of the Discount Securities. The amount of OID includible in income by a U.S. holder of Discount Securities is the sum of the daily portions of OID with respect to the Discount Securities for each day during the taxable year or portion of the taxable year on which the U.S. holder holds the Discount Securities. The daily portion is determined by allocating to each day in any "accrual period" a pro rata portion of the OID allocable to that accrual period. Accrual periods with respect to a Security may be of any length selected by the U.S. holder and may vary in length over the term of the Discount Security as long as (i) no accrual period is longer than one year and (ii) each scheduled payment of interest or principal on the Security occurs on either the final or first day of an accrual period. The amount of OID allocable to an accrual period (and pro rata to every day in the accrual period) equals the excess of (a) the product of the Discount Security's adjusted issue price at the beginning of the accrual period and the Discount Security's yield to maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of the payments of qualified stated interest on the Security allocable to the accrual period. The "adjusted issue price" of a Discount Security at the beginning of any accrual period is the issue price of the Security increased by (x) the amount of accrued OID for each prior accrual period and decreased by (y) the amount of any payments previously made on the Security that were not qualified stated interest payments.

Acquisition Premium

A U.S. holder that purchases a Discount Security for an amount less than or equal to the sum of all amounts payable on the Security after the purchase date, other than payments of qualified stated interest, but in excess of its adjusted issue price and that does not make an election to treat all interest as OID, is permitted to reduce the daily portions of OID by a fraction, the numerator of which is the excess of the U.S. holder's adjusted basis in the Discount Security immediately after its purchase over the Discount Security's adjusted issue price, and the denominator of which is the excess of the sum of all amounts payable on the Security after the purchase date, other than payments of qualified stated interest, over the Discount Security's adjusted issue price.

Market Discount

A Security, other than a Security with a term of one year or less, generally will be treated as purchased at a market discount (a **Market Discount Security**) if the Security's stated redemption price at maturity or, in the case of a Discount Security, the Security's "revised issue price", exceeds the amount for which the U.S. holder purchased the Security by at least 0.25 per cent. of the Security's stated redemption price at maturity or revised issue price, respectively, multiplied by the number of complete years to the Security's maturity. If this excess is not sufficient to cause the Security to be treated as purchased at a market discount, then the excess constitutes "*de minimis* market discount". For this purpose, the "revised issue price" of a Security generally equals its

issue price, increased by the amount of any OID that has accrued on the Security and decreased by the amount of any payments previously made on the Security that were not qualified stated interest payments.

Any gain recognised on the maturity or disposition of a Market Discount Security (including any payment on a Security that is not qualified stated interest) will be treated as ordinary income to the extent that the gain does not exceed the accrued market discount on the Security. Alternatively, a U.S. holder of a Market Discount Security may elect to include market discount in income currently over the life of the Security. This election shall apply to all debt instruments with market discount acquired by the electing U.S. holder on or after the first day of the first taxable year to which the election applies. This election may not be revoked without the consent of the IRS. A U.S. holder of a Market Discount Security that does not elect to include market discount in income currently will generally be required to defer deductions for interest on borrowings incurred to purchase or carry a Market Discount Security that is in excess of the interest and OID on the Security includible in the U.S. holder's income, to the extent that this excess interest expense does not exceed the portion of the market discount allocable to the days on which the Market Discount Security was held by the U.S. holder.

Market discount will accrue on a straight-line basis unless the U.S. holder elects to accrue the market discount on a constant-yield method. This election applies only to the Security with respect to which it is made and is irrevocable.

Election to Treat All Interest as Original Issue Discount

A U.S. holder may elect to include in gross income all interest that accrues on a Security using the constant-yield method described above under "*Original Issue Discount — General*" with certain modifications. For purposes of this election, interest includes stated interest, OID, *de minimis* OID, market discount, *de minimis* market discount, as adjusted by any amortisable bond premium (described below under "*Securities Purchased at a Premium*") or acquisition premium. If a U.S. holder makes this election for the Security, then, when the constant-yield method is applied, the issue price of the Security will equal its cost, the issue date of the Security will be the date of acquisition, and no payments on the Security will be treated as payments of qualified stated interest. This election will generally apply only to the Security with respect to which it is made and may not be revoked without the consent of the IRS. However, if the Security has amortisable bond premium, the U.S. holder will be deemed to have made an election to apply amortisable bond premium against interest for all debt instruments with amortizable bond premium, other than debt instruments the interest on which is excludible from gross income, held as of the beginning of the taxable year to which the election applies or any taxable year thereafter. If the election to apply the constant-yield method to all interest on a Security is made with respect to a Market Discount Security, the electing U.S. holder will be treated as having made the election discussed above under "*Market Discount*" to include market discount in income currently over the life of all debt instruments with market discount held or thereafter acquired by the U.S. holder.

Variable Interest Rate Securities

Securities that provide for interest at variable rates (**Variable Interest Rate Securities**) generally will bear interest at a "qualified floating rate" and thus will be treated as "variable rate debt instruments" under U.S. Treasury regulations governing accrual of OID. A Variable Interest Rate Security will qualify as a "variable rate debt instrument" if (a) its issue price does not exceed the total non-contingent principal payments due under the Variable Interest Rate Security by more than a specified *de minimis* amount and (b) it provides for stated interest, paid or compounded at least annually, at current values of (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate, or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate.

A "qualified floating rate" is any variable rate where variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Interest Rate Security is denominated. A fixed multiple of a qualified floating rate will constitute a qualified floating rate only if the multiple is greater than 0.65 but not more than 1.35, whether or not a variable rate is increased or decreased by a fixed rate. A variable rate that would otherwise constitute a

qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor) may, under certain circumstances, fail to be treated as a qualified floating rate unless the cap or floor is fixed throughout the term of the Security.

An "objective rate" is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and which is based on objective financial or economic information (e.g., one or more qualified floating rates or the yield of actively traded personal property). Despite the foregoing, a variable rate of interest on a Variable Interest Rate Security will not constitute an objective rate if it is reasonably expected that the average value of the rate during the first half of the Variable Interest Rate Security's term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Variable Interest Rate Security's term. A rate also will not qualify as an objective rate if it is based on information that is within the control of the Issuer (or a related party) or that is unique to the circumstances of the Issuer (or a related party), such as dividends, profits or the value of the Issuer's stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the Issuer).

A qualified inverse floating rate is any objective rate which is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate.

If a Variable Interest Rate Security provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period and if the variable rate on the Variable Interest Rate Security's issue date is intended to approximate the fixed rate (e.g. the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

A qualified floating rate or objective rate in effect at any time during the term of the instrument must be set at a "current value" of that rate – the value of the rate on any day that is no earlier than 3 months prior to the first day on which that value is in effect and no later than 1 year following that first day.

A Variable Interest Rate Security that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a "variable rate debt instrument" will generally not be treated as having been issued with OID unless the Variable Interest Rate Security is issued at a "true discount" (i.e., at a price below the Security's stated principal amount) in excess of a specified *de minimis* amount. OID on a Variable Interest Rate Security arising from true discount is allocated to an accrual period using the constant yield method described above.

In general, any other Variable Interest Rate Security that qualifies as a "variable rate debt instrument" will be converted into an equivalent fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Variable Interest Rate Security. Such a Variable Interest Rate Security must be converted into an equivalent fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Interest Rate Security with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Interest Rate Security's issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Interest Rate Security is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Security. In the case of a Variable Interest Rate Security that qualifies as a "variable rate debt instrument" and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Interest Rate Security provides for a qualified inverse floating rate). Under these circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Interest Rate Security as of the Variable Interest Rate Security's issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into

either a qualified floating rate or a qualified inverse floating rate, the Variable Interest Rate Security is converted into an equivalent fixed rate debt instrument in the manner described above.

Once the Variable Interest Rate Security is converted into an equivalent fixed rate debt instrument pursuant to the foregoing rules, the amount of OID and qualified stated interest, if any, are determined for the equivalent fixed rate debt instrument by applying the general OID rules to the equivalent fixed rate debt instrument and a U.S. holder of the Variable Interest Rate Security will account for the OID and qualified stated interest as if the U.S. holder held the equivalent fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the equivalent fixed rate debt instrument in the event that these amounts differ from the actual amount of interest accrued or paid on the Variable Interest Rate Security during the accrual period.

If a Variable Interest Rate Security, such as a Security the payments on which are determined by reference to an index, does not qualify as a "variable rate debt instrument", then the Variable Interest Rate Security will be treated as a contingent payment debt instrument as described below under "*Other Treatments - Contingent Payment Debt Instruments*".

Short-Term Securities

In general, an individual or other cash basis U.S. holder of a Security with a term of one year or less is not required to accrue OID (calculated as set forth below for the purposes of this paragraph) for U.S. federal income tax purposes unless it elects to do so (but may be required to include any stated interest in income as the interest is received). Accrual basis U.S. holders and certain other U.S. holders are required to accrue OID on Securities with a term of one year or less on a straight-line basis or, if the U.S. holder so elects, under the constant-yield method (based on daily compounding). In the case of a U.S. holder not required and not electing to include OID in income currently, any gain realised on the sale or retirement of the Security with a term of one year or less will be ordinary income to the extent of the OID accrued on a straight-line basis (unless an election is made to accrue the OID under the constant-yield method) through the date of sale or retirement. U.S. holders who are not required and do not elect to accrue OID on Securities with a term of one year or less will be required to defer deductions for interest on borrowings allocable to Securities with a term of one year or less in an amount not exceeding the deferred income until the deferred income is realised.

For purposes of determining the amount of OID subject to these rules, all interest payments on a Security with a term of one year or less are included in such Security's stated redemption price at maturity. A U.S. holder may elect to determine OID on a Security with a term of one year or less as if such Security had been originally issued to the U.S. holder at the U.S. holder's purchase price for the Security. This election shall apply to all obligations with a maturity of one year or less acquired by the U.S. holder on or after the first day of the first taxable year to which the election applies, and may not be revoked without the consent of the IRS.

Securities Purchased at a Premium

A U.S. holder that purchases a Security for an amount in excess of its principal amount, or for a Discount Security, its stated redemption price at maturity, may elect to treat the excess as "amortisable bond premium", in which case the amount required to be included in the U.S. holder's income each year with respect to interest on the Security will be reduced by the amount of amortisable bond premium allocable (based on the Security's yield to maturity) to that year. Any election to amortise bond premium shall apply to all bonds (other than bonds the interest on which is excludable from gross income for U.S. federal income tax purposes) held by the U.S. holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. holder, and is irrevocable without the consent of the IRS. A U.S. holder that does not elect to take bond premium (other than acquisition premium as described above under "*Acquisition Premium*") into account currently will recognise a capital loss when the Security matures.

Purchase, Sale and Retirement of Securities

A U.S. holder's tax basis in a Security will generally be its cost, increased by the amount of any OID and market discount included in the U.S. holder's income with respect to the Security and the amount, if any, of income attributable to *de minimis* OID and *de minimis* market discount included in the U.S. holder's income with respect to the Security, and reduced by (i) the amount of any payments that are not qualified stated interest payments, and (ii) the amount of any amortisable bond premium applied to reduce interest on the Security.

A U.S. holder will generally recognise gain or loss on the sale or retirement of a Security equal to the difference between the amount realised on the sale or retirement and the U.S. holder's tax basis in the Security. Except to the extent described above under "*Original Issue Discount—Market Discount*" or "*Original Issue Discount—Short-Term Securities*" or attributable to accrued but unpaid interest or changes in exchange rates (as discussed below), gain or loss recognised on the sale or retirement of a Security will be capital gain or loss and generally will be treated as from U.S. sources for purposes of the U.S. foreign tax credit limitation and may be taxable at reduced rates in the case of a U.S. holder that is an individual, estate or trust, if the Securities are held for more than one year. The deductibility of capital losses is subject to limitations.

Foreign Currency Securities

Interest

If an interest payment is denominated in, or determined by reference to, a foreign currency, the amount of income recognised by a cash basis U.S. holder will be the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars.

An accrual basis U.S. holder may determine the amount of income recognised with respect to an interest payment denominated in, or determined by reference to, a foreign currency in accordance with either of two methods. Under the first method, the amount of income accrued will be based on the average exchange rate in effect during the interest accrual period (or, in the case of an accrual period that spans two taxable years of a U.S. holder, the part of the period within the taxable year).

Under the second method, the U.S. holder may elect to determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period (or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year). Additionally, if a payment of interest is actually received within five business days of the last day of the accrual period, an electing accrual basis U.S. holder may instead translate the accrued interest into U.S. dollars at the exchange rate in effect on the day of actual receipt. Any such election will apply to all debt instruments held by the U.S. holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. holder, and will be irrevocable without the consent of the IRS.

Upon receipt of an interest payment (including a payment attributable to accrued but unpaid interest upon the sale or retirement of a Security) denominated in, or determined by reference to, a foreign currency, the U.S. holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

OID

OID for each accrual period on a Discount Security that is denominated in, or determined by reference to, a foreign currency, will be determined in the foreign currency and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. holder, as described above under "*Foreign Currency Securities—Interest*". Upon receipt of an amount attributable to OID (whether in connection with a payment on the Security or a sale of the Security), a U.S. holder may recognise U.S. source exchange gain or loss

(taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

Bond Premium

Bond premium (including acquisition premium) on a Security that is denominated in, or determined by reference to, a foreign currency, will be computed in units of the foreign currency, and any such bond premium that is taken into account currently will reduce interest income in units of the foreign currency.

On the date bond premium offsets interest income, a U.S. holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) measured by the difference between the spot rate in effect on that date, and on the date the Securities were acquired by the U.S. holder.

Purchase, Sale and Retirement of Securities

As discussed above under "*Purchase, Sale and Retirement of Securities*", a U.S. holder will generally recognise gain or loss on the sale or retirement of a Security equal to the difference between the amounts realised on the sale or retirement and its tax basis in the Security. A U.S. holder's tax basis in a Foreign Currency Security will be determined by reference to the U.S. dollar cost of the Security. The U.S. dollar cost of a Security purchased with foreign currency will generally be the U.S. dollar value of the purchase price on the date of purchase or, in the case of Securities traded on an established securities market, as defined in the applicable U.S. Treasury regulations, that are purchased by a cash basis U.S. holder (or an accrual basis U.S. holder that so elects), on the settlement date for the purchase.

The amount realised on a sale or retirement for an amount in foreign currency will be the U.S. dollar value of this amount on the date of sale or retirement or, in the case of Securities traded on an established securities market, as defined in the applicable U.S. Treasury regulations, sold by a cash basis U.S. holder (or an accrual basis U.S. holder that so elects), on the settlement date for the sale. Such an election by an accrual basis U.S. holder must be applied consistently from year to year and cannot be revoked without the consent of the IRS.

A U.S. holder will recognise U.S. source exchange rate gain or loss (taxable as ordinary income or loss) on the sale or retirement of a Security equal to the difference, if any between the U.S. dollar values of the U.S. holder's purchase price for the Security (or, if less, the principal amount of the Security) (i) on the date of sale or retirement and (ii) the date on which the U.S. holder acquired the Security. Any such exchange rate gain or loss will be realised only to the extent of total gain or loss realised on the sale or retirement.

Disposition of Foreign Currency

Foreign currency received as interest on a Security or on the sale or retirement of a Security will generally have a tax basis equal to its U.S. dollar value at the time the interest is received or at the time of the sale or retirement. Foreign currency that is purchased will generally have a tax basis equal to the U.S. dollar value of the foreign currency on the date of purchase. Any gain or loss recognised on a sale or other disposition of a foreign currency (including its use to purchase Securities or upon exchange for U.S. dollars) will be U.S. source ordinary income or loss.

Tax Return Disclosure Regulations

Pursuant to U.S. Treasury regulations (the **Disclosure Regulations**), any taxpayer that has participated in a "reportable transaction" and that is required to file a U.S. federal income tax return must generally attach a disclosure statement disclosing such taxpayer's participation in the reportable transaction to the taxpayer's tax return for each taxable year for which the taxpayer participates in the reportable transaction. A penalty in the amount of US\$10,000 in the case of a natural person and US\$50,000 in any other case may be imposed on any taxpayer that fails to file a reportable transaction disclosure statement. The Disclosure Regulations provide

that, in addition to certain other transactions, a "loss transaction" constitutes a "reportable transaction." A "loss transaction" is any transaction resulting in the taxpayer claiming a loss under Section 165 of the Code in an amount equal to or in excess of certain threshold amounts. The Disclosure Regulations specifically provide that a loss resulting from a "Section 988 transaction" (as defined in Section 988(c)(1) of the Code relating to foreign currency transactions) will constitute a Section 165 loss. In the case of individuals or trusts, whether or not the loss flows through from an S corporation or partnership, if the loss arises with respect to a Section 988 transaction, the applicable threshold amount is US\$50,000 in any single taxable year. Higher threshold amounts apply depending upon the taxpayer's status as a corporation, partnership, or S corporation, as well as certain other factors. It is important to note, however, that the Disclosure Regulations provide that the fact that a transaction is a reportable transaction shall not affect the legal determination of whether the taxpayer's treatment of the transaction is proper. Holders should consult their own tax advisers concerning the potential application of the Disclosure Regulations to the Securities.

Options or Warrants

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Securities treated as options or warrants for U.S. federal income tax purposes.

Premium

Premium paid by a U.S. holder for a Security will generally be treated as a non-deductible capital expenditure. As described in the following two sections, the amount of such premium will be taken into account upon the sale, transfer, cash settlement, or lapse of the Security.

Sale, Transfer, Cash Settlement, or Lapse of Securities

A U.S. holder who has purchased a Security will generally recognise capital gain or loss upon the sale, transfer, cash settlement or lapse of the Security in an amount equal to the difference between (i) the amount realised by the investor from such sale, transfer, settlement, or lapse and (ii) the amount of the premium that the investor paid for the Security. Such capital gain or loss will be long-term capital gain or loss if the Security was held for more than one year. Certain exceptions to such treatment are noted below and, if appropriate, may be addressed in the applicable Final Terms.

Mark-to-Market Rules

Under Section 1256 of the Code, special mark-to-market and character rules apply in the case of certain "nonequity" options and foreign currency contracts. Unless the Securities (other than Securities denominated in a currency other than the U.S. dollar) are listed on a "qualified board or exchange" for purposes of Section 1256 of the Code, however, these mark-to-market rules will not be applicable to U.S. holders of the Securities. Where relevant, the application of the Section 1256 of the Code rules to Securities denominated in a currency other than the U.S. dollar may be discussed in the applicable Final Terms.

Other Treatments

Tax Treatment of Prepaid Forward Contracts (With or Without a Loan)

If any Securities are treated as prepaid forward contracts (with or without a loan) for U.S. federal income tax purposes, the following description should apply to such Securities.

Interest Payments

Payments of interest (if any) will be taxable to a U.S. holder as ordinary interest income at the time such payments are accrued or are received (in accordance with the U.S. holder's regular method of tax accounting).

Cash Settlement, Sale, or Other Disposition of the Securities

If the Securities are treated in whole or in part as prepaid forward contracts, upon the receipt of cash upon settlement of a Security or upon the sale or other disposition of such Security, a U.S. holder generally will recognise taxable gain or loss equal to the difference between the amount realised (generally, the amount of cash received) and such U.S. holder's tax basis in the Security. In general, a U.S. holder's tax basis in a Security will equal the amount that such U.S. holder paid to acquire the Security. Subject to the discussion below under "*Constructive Ownership*," any such gain or loss generally will be long-term capital gain or loss if the Security was held for more than one year at the time of settlement or at the time of sale or other disposition.

Constructive Ownership

Some or all of the net long-term capital gain arising from certain "constructive ownership" transactions may be characterised as ordinary income, in which case an interest charge would be imposed on any such ordinary income. These rules have no immediate application to forward contracts in respect of most property underlying the Securities, because they are only applicable to the extent that the underlying property directly or indirectly includes shares of issuers treated as "pass-through" entities. For this purposes "pass-through entities" include regulated investment companies, real estate investment trusts, S corporations, partnership, trusts, common trust funds, PFICs, and real estate mortgage investment conduits. These rules, however, grant discretionary authority to the U.S. Treasury Department (the **Treasury**) to expand the scope of "constructive ownership" transactions to include forward contracts in respect of the stock of all corporations, in addition to forward contracts in respect of any debt instrument. The rules also separately direct the Treasury to promulgate regulations excluding a forward contract that does not convey "substantially all" of the economic return on any underlying asset from the scope of "constructive ownership" transactions. It is not possible to predict whether such regulations will be promulgated by the Treasury, or the form or effective date that any regulations that may be promulgated might take.

Interest in the Underlying Property

Depending on the terms of particular Securities, a U.S. holder could be treated as owning the property underlying those Securities for U.S. federal income tax purposes. In that event, for example, in the case of Index Linked Securities, the U.S. holder would be required to recognise appropriate amounts of capital gain on the disposition of any shares included in the underlying Index each time that the Index is rebalanced. In such a case, such U.S. holder also would be subject to tax on dividends on shares included in the Index in an amount equal to the gross dividends paid by the companies whose shares are included in the Index. In addition, any current expenses (including any withholding taxes) in respect of shares included in the Index would be treated as if made directly by the U.S. holder, and the deductibility of such expenses (or creditability of such withholding taxes) could be subject to certain limitations.

Contingent Payment Debt Instruments

If any Securities are treated as contingent payment debt instruments, the tax consequences to a U.S. holder would be determined under U.S. Treasury regulations governing contingent payment debt instruments (the **Contingent Payment Regulations**). The Contingent Payment Regulations are complex, but very generally apply the OID rules of the Code to a contingent payment debt instrument by requiring that OID be accrued by the U.S. holder every year at a "comparable yield" for the issuer of the instrument, determined at the time of issuance of the obligation. In addition, the Contingent Payment Regulations require that a projected payment schedule, which results in such a "comparable yield" be determined by the issuer. Further, a U.S. holder will be required to make adjustments to income accruals to account for differences between the actual payments received by the U.S. holder and the projected amounts of such payments. To the extent that the actual payments received by a U.S. holder exceed the projected payments on a contingent debt instrument in any taxable year, the owner of that instrument will recognise ordinary interest income for that taxable year equal to the amount of such excess. In addition, any gain realised on the sale, exchange or redemption of a contingent payment debt instrument will be treated as ordinary income. Any loss realised on such sale, exchange or redemption

will be treated as an ordinary loss to the extent that the U.S. holder's OID inclusions with respect to the obligation exceed prior reversals of such inclusions required by the adjustment mechanism described above. Any loss realised in excess of such amount generally will be treated as a capital loss.

Loan and One or More Options

If any Securities are treated as a combination of a loan (or deposit) and one or more options, in general, payments of interest (if any) will be taxable to a U.S. holder as ordinary interest income at the time that such payments are accrued or are received (in accordance with the U.S. holder's regular method of tax accounting), while payments in respect of the options would be taxable in a manner similar to the taxation of corresponding payments under Securities treated as options, as described above under "*Options or Warrants*."

Possible Alternative Tax Treatment

If a Security is treated as a unit consisting of a loan and a forward contract, a U.S. holder could be required to accrue a significant amount of OID on a current basis during the period in which it holds the Security. Alternatively, it is possible that the Securities could be characterised for U.S. federal income tax purposes as debt instruments that are subject to the Contingent Payment Regulations (as more fully described above under "*Contingent Payment Debt Instruments*"), in which case, among other matters, a U.S. holder would be required to accrue income, as OID, at a "comparable yield" for the Issuer, on the purchase price. Furthermore, any gain realised with respect to the Securities would generally be treated as ordinary income.

It is also possible that future regulations or other IRS guidance would require a U.S. holder to accrue income on the Securities on a current basis. The IRS and the Treasury have issued proposed regulations that require the current accrual of income with respect to contingent non-periodic payments made under certain notional principal contracts. The preamble to the regulations states that the "wait and see" method of tax accounting does not properly reflect the economic accrual of income on such contracts, and requires a current accrual of income with respect to some contracts already in existence at the time the proposed regulations were released. While the proposed regulations do not apply to prepaid forward contracts, the preamble to the proposed regulations expresses the view that similar timing issues exist in the case of prepaid forward contracts. If the IRS published future guidance requiring current accrual of income with respect to contingent payments on prepaid forward contracts, it is possible that a U.S. holder could be required to accrue income over the term of the Securities.

Securities Denominated in a Specified Currency Other Than the U.S. Dollar

In general, except to the extent that the mark-to-market and character rules under Section 1256 apply (see "*Options or Warrants — Mark-to-Market Rules*" above), any gain or loss realised in respect of a Security denominated in a Specified Currency other than the U.S. dollar will be ordinary income or loss. Any such gain or loss generally must be recognised upon a sale, exchange, termination, rollover, settlement or exercise of such Security, as well as upon an offset of one contract against another in certain circumstances. In general, if a Security denominated in a Specified Currency other than the U.S. dollar is subject to Section 1256, a U.S. holder will be required to include mark-to-market gain or loss in respect of such Security at the end of each year (or upon transfer, termination, exercise, lapse or other disposition), with 40 per cent. of such gain or loss being short-term capital gain or loss and 60 per cent. of such gain or loss being long-term capital gain or loss.

If appropriate, additional U.S. federal income tax consequences applicable to Securities denominated in the Specified Currency other than the U.S. dollar may be set forth in the applicable Final Terms.

Foreign Currency Rules

Payments of premium, exercise price, sale proceeds, and cash settlement amounts in respect of Securities that are denominated in a currency other than the U.S. dollar will be subject to special U.S. tax rules regarding

foreign currency transactions. U.S. holders should consult their tax advisers concerning the application of these rules in their particular circumstances.

Notice 2008-2

On 7 December 2007, the IRS released a notice that may affect the taxation of holders of the Securities. According to the notice, the IRS and the Treasury are actively considering whether the U.S. holder of an instrument such as the Securities should be required to accrue ordinary income on a current basis, and they are seeking taxpayer comments on the subject. It is not possible to determine what guidance they will ultimately issue, if any. It is possible, however, that under such guidance, U.S. holders of the Securities will ultimately be required to accrue income currently and this could be applied on a retroactive basis. The IRS and the Treasury are also considering other relevant issues, including whether additional gain or loss from such Securities should be treated as ordinary or capital, whether non-U.S. holders of such Securities should be subject to withholding tax on any deemed income accruals, and whether the special "constructive ownership rules" of Section 1260 of the Code might be applied to such Securities. U.S. holders are urged to consult their tax advisers concerning the significance, and the potential impact, of the above considerations. The Issuer intends to continue treating the Securities for U.S. federal income tax purposes in accordance with the treatment described in this Base Prospectus unless and until such time as the Treasury and the IRS determine that some alternative treatment is more appropriate.

Taxation of Non-U.S. Holders

Subject to the discussion below under "*Information Reporting and Backup Withholding*", "*Foreign Account Tax Compliance Act*" and "*Hiring Incentives to Restore Employment Act*", non-U.S. holders generally should not be subject to U.S. federal income or withholding tax on any payments on the Securities and gain from the sale, redemption or other disposition of the Securities unless: (i) that payment and/or gain is effectively connected with the conduct by that non-U.S. holder of a trade or business in the U.S.; (ii) in the case of any gain realised on the sale or exchange of a Security by an individual non-U.S. holder, that holder is present in the U.S. for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions are met; or (iii) the non-U.S. holder is subject to tax pursuant to provisions of the Code applicable to certain expatriates.

Non-U.S. holders should consult their own tax advisers regarding the U.S. federal income and other tax consequences of owning Securities.

Information Reporting and Backup Withholding

The relevant Agent may be required to file information returns with the IRS with respect to payments made to certain U.S. holders of Securities. In addition, certain U.S. holders may be subject to backup withholding tax in respect of such payments if they do not provide their taxpayer identification numbers to the relevant Agent or otherwise comply with the applicable backup withholding requirements.

U.S. holders should consult their tax advisers regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom and the procedure for obtaining the exemption, if available. Backup withholding is not an additional tax. Any amounts withheld from a payment to a holder under the backup withholding rules will be allowed as a credit against the holder's United States federal income tax liability and may entitle the holder to a refund of any excess amounts withheld under the backup withholding rules by timely filing the appropriate claim for refund with the IRS and furnishing all required information. Non-U.S. holders may be required to comply with applicable certification procedures to establish that they are not U.S. holders in order to avoid the application of such information reporting requirements and backup withholding.

Foreign Financial Asset Reporting

Certain U.S. holders that own "specified foreign financial assets" that meet certain U.S. dollar value thresholds generally are required to file an information report with respect to such assets with their tax returns. The Securities generally will constitute specified foreign financial assets subject to these reporting requirements unless the Securities are held in an account at certain financial institutions. U.S. holders are urged to consult their tax advisers regarding the application of these disclosure requirements to their ownership of the Securities.

Medicare Tax

A U.S. holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8 per cent. tax on the lesser of (1) the U.S. holder's "net investment income" for the relevant taxable year and (2) the excess of the U.S. holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between US\$125,000 and US\$250,000, depending on the individual's circumstances). A holder's net investment income will generally include its income from, including but not limited to, interest and dividends and its gains from the disposition of Securities, unless such income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities).

FOREIGN ACCOUNT TAX COMPLIANCE ACT

Pursuant to certain provisions of the Code, commonly known as FATCA, withholding may be required on, among other things, (i) certain payments made by "foreign financial institutions" (**foreign passthru payments**) and (ii) dividend equivalent payments (as described below in "*U.S. Dividend Equivalent Withholding*"), in each case, to persons that fail to meet certain certification, reporting, or related requirements. The Issuer, the NHI Guarantor, the NSC Guarantor and the NIHK Guarantor are classified as foreign financial institutions for these purposes. A number of jurisdictions (including Hong Kong, Japan and the United Kingdom) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Securities, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Securities, are uncertain and may be subject to change. If withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Securities characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or before the relevant grandfathering date would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date. The grandfathering date for (A) Securities that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are published, and (B) Securities that give rise to a dividend equivalent pursuant to Section 871(m) of the Code and the U.S. Treasury regulations promulgated thereunder, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If additional securities that are not distinguishable from such previously issued grandfathered Securities are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Securities, including the Securities offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Securities. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Securities, no person will be required to pay additional amounts as a result of the withholding.

U.S. DIVIDEND EQUIVALENT WITHHOLDING

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the Code which treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). The final U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the **Section 871(m) Regulations**) require withholding on certain non-U.S. holders of the Securities with respect to amounts treated as attributable to dividends from certain U.S. securities. Under the Section 871(m) Regulations, only a Security that has an expected economic return sufficiently similar to that of the underlying U.S. security based on tests set forth in the Section 871(m) Regulations will be subject to the Section 871(m) withholding regime (making such Security a **Specified Security**). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Security or upon the date of maturity, lapse or other disposition by the non-U.S. holder of the Specified Security. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Security, withholding generally will still be required even if the Specified Security does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Securities in respect of any dividend equivalent arising with respect to such Securities regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the IRS. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified Securities issued on or after 1 January 2017. If the terms of a Security are subject to a "significant modification" (as defined for U.S. tax purposes), the Security generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Security is a Specified Security. Similarly, if additional Securities of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Securities out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Securities are Specified Securities as the date of such subsequent sale or issuance. Consequently, a previously out of scope Security might be treated as a Specified Security following such modification or further issuance.

In addition, with respect to Securities that provide for net dividend reinvestment in respect of either an underlying U.S. security or an index that includes U.S. securities, all payments on the Securities that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent.. In calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The applicable Final Terms or Pricing Supplement will indicate whether the Issuer has determined that Securities are Specified Securities and may specify contact details for obtaining additional information regarding the application of Section 871(m) to Securities. If Securities are Specified Securities, a non-U.S. holder of the Securities should expect to be subject to withholding in respect of any dividend-paying U.S. securities underlying those Securities. The Issuer's determination is binding on non-U.S. holders of the Securities, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to the Securities linked to U.S. securities and their application to a specific issue of Securities may be uncertain. Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Securities.

THE PROPOSED FINANCIAL TRANSACTIONS TAX ("FTT")

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and/or participating Member States may decide to withdraw. Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

UNITED KINGDOM TAXATION

The following applies only to persons who are the beneficial owners of Securities and is a summary of the Issuer's understanding of current United Kingdom tax law (as applied in England) and published HM Revenue & Customs' (HMRC) practice in the United Kingdom relating only to the United Kingdom withholding tax treatment of payments in respect of the Securities and to whether the issue, transfer, redemption, exercise or settlement of a Security could be subject to United Kingdom stamp duty or stamp duty reserve tax. It does not deal with any other United Kingdom taxation implications of acquiring, holding, exercising, disposing or the settlement or redemption of the Securities. The United Kingdom tax treatment of prospective Securityholders depends on their individual circumstances and may be subject to change in the future. Prospective Securityholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Withholding taxes

United Kingdom withholding taxes can apply to a number of different types of payments. Those which could be relevant to securities such as the Securities include: interest, annual payments and manufactured payments.

Payments of interest on the Securities

Whether or not payments or any part of any payment on a Security will constitute "interest" for the purposes of UK tax law will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which amounts payable on the Securities are calculated.

- (a) The Issuer will be entitled to make payments of interest on the Securities without withholding or deduction for or on account of United Kingdom income tax, provided that:
 - (i) it is and continues to be a bank for the purposes of section 991 of the Income Tax Act 2007 (**ITA 2007**); and
 - (ii) the interest on the Securities is and continues to be paid in the ordinary course of its business within the meaning of section 878 of the ITA 2007.
- (b) Payments of interest on the Securities may be made without deduction of or withholding on account of United Kingdom income tax provided that the Securities carry a right to interest and are and continue to be listed on a "recognised stock exchange" within the meaning of section 1005 of the ITA 2007.
 - (i) The Luxembourg Stock Exchange is a recognised stock exchange. The Securities will satisfy this requirement if they are officially listed in Luxembourg in accordance with provisions corresponding to those generally applicable in EEA states and are admitted to trading on the Luxembourg Stock Exchange.
 - (ii) Euronext Dublin is a recognised stock exchange. The Securities will satisfy this requirement if they are officially listed in Ireland in accordance with the provisions corresponding to those generally applicable in EEA states and are admitted to trading on Euronext Dublin.

Provided, therefore, that the Securities carry a right to interest and are and remain so listed on a "recognised stock exchange", interest on the Securities will be payable without withholding or deduction on account of United Kingdom tax whether or not the Issuer is a bank and whether or not the interest is paid in the ordinary course of its business.

- (c) Interest on the Securities may also be paid without withholding or deduction on account of United Kingdom tax where the maturity of the Securities is less than 365 days and those Securities do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Securities that has a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20 per cent.) subject to any other available exemptions or reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HMRC can issue a notice to the Issuer to pay interest to the Securityholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Annual Payments

If a periodic payment on a Security were not "interest", and not repayment of principal, then such payment could constitute an "annual payment". Whether or not any periodic payment were to constitute an "annual payment" for these purposes will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which it is calculated. However, if in relation to a Security the Issuer is only required to make a single payment to its holders following redemption or exercise, and there are no amounts due by way of interest, Additional Amounts or other periodic payment on that Security, payments should not generally constitute "annual payments".

An amount must generally be withheld from "annual payments" on Securities that have a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20 per cent.). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HMRC can issue a notice to the Issuer to make payments on the Securities to the Securityholder without deduction of tax (or for the relevant amounts to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Manufactured Payments

Payments on the Securities should not constitute "manufactured payments" subject to any deduction of or withholding on account of United Kingdom income tax unless:

- (i) the Securities will or may settle by way of physical delivery;
- (ii) the assets which will or may be delivered are shares issued by a "company UK REIT" or the "principal company" of a "group UK REIT" (all bearing the same meaning as in section 918 of the ITA 2007) or securities (other than shares) issued by the United Kingdom government, a local or other public authority in the United Kingdom or any other United Kingdom resident body; and
- (iii) the payments are representative of dividends on those shares, or interest paid on those securities (as the case may be).

If such a "manufactured payment" were paid by the Issuer then the Issuer may (subject to reliefs and exemptions) be required to make a deduction of or withholding on account of United Kingdom income tax from such payment on account of United Kingdom income tax at the basic rate. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HMRC may be able to issue a notice to the Issuer to make the "manufactured payment" to the Securityholder without deduction of tax (or for the relevant amount to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Payments where the W&C Securities constitute derivative contracts

The Issuer should not be required to withhold or deduct sums for or on account of United Kingdom income tax from payments made on the exercise of W&C Securities which are derivative contracts, the profits and losses arising from which are calculated in accordance with the provisions of Part 7 of the Corporation Tax Act 2009.

Stamp duty and stamp duty reserve tax (SDRT)

A charge to stamp duty or SDRT may, in certain circumstances, arise on the issue, transfer, exercise, redemption and/or settlement of Securities and SDRT may also be payable in relation to any agreement to transfer Securities. This will depend upon the Terms and Conditions of the relevant Securities (as completed and, in the case of Exempt Securities, amended and supplemented by the applicable Final Terms). Securityholders should take their own advice from an appropriately qualified professional advisor in this regard.

IRISH TAXATION

The following is a summary of the Irish withholding tax treatment of the Securities. The following applies only to persons who are the beneficial owners of Securities. This summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities. It does not deal with the Irish taxation implications of acquiring, holding, exercising or disposing or the settlement or redemption of the Securities. The summary is based upon the laws of Ireland in effect and the published practices of the Revenue Commissioners of Ireland, in each case at the date of this Base Prospectus. The Irish tax treatment of prospective investors depends on their individual

circumstances and may be subject to change in the future. Prospective investors in the Securities should consult their own advisers as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the Securities including, in particular, the effect of any state or local law taxes, if applicable.

Withholding Tax

The Issuer is not incorporated in Ireland. Therefore, on the basis that the Issuer is not managed and controlled in Ireland, the Issuer is not resident in Ireland for the purposes of Irish tax. The Issuer will not be deemed to be resident or otherwise taxable in Ireland by virtue only of the fact that the Securities are offered to the public in Ireland.

Irish withholding tax applies to certain payments, including payments of:

- (i) Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
- (ii) Irish source annual payments (annual payments are payments that are pure income-profit in the hands of the recipient); and
- (iii) distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax.

Where applicable, Irish withholding tax applies to Irish source yearly interest and Irish source annual payments at the standard rate of Irish income tax (currently 20 per cent.). Where applicable, Irish dividend withholding tax applies to distributions at a rate of 25 per cent.

For so long as the Securities are listed on a recognised stock exchange such as the Irish Stock Exchange, the Securities will constitute "quoted Eurobonds" for Irish tax purposes. Pursuant to the provisions of section 64 of the Taxes Consolidation Act 1997 of Ireland as amended (the "Taxes Act"), no withholding for or on account of Irish income tax will be required to be made from interest arising on quoted Eurobonds provided they meet the following criteria:

- (a) they are held in a clearing system that is a recognised clearing system within the meaning of section 246A of the Taxes Act (Euroclear and Clearstream Luxembourg are so recognised);
- (b) the interest is paid by or through a person who is not in Ireland; or
- (c) the beneficial owner of the Securities is not resident in Ireland and has made all necessary declarations in the prescribed form.

As the Securities should constitute "quoted Eurobonds" and meet the above criteria, there should be no requirement to withhold Irish tax from payments of yearly interest made in respect of the Securities.

On the basis that the Issuer is not resident in Ireland for the purposes of Irish tax, the Issuer would not be required to withhold Irish tax on distributions made in respect of the Securities. On the basis that the Securities are issued on arm's length terms, then payments on the Securities should not be regarded as annual payments for Irish tax purposes.

Accordingly, the Issuer should not be obliged to deduct any amounts on account of these Irish withholding taxes from payments made in connection with the Securities.

Separately, as long as the Securities are quoted on a stock exchange, a purchaser of the Securities should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Securities.

Encashment Tax

Interest or distributions on any Securities issued by the Issuer and paid:

- (i) by a paying agent in Ireland; or
- (ii) to an agent in Ireland on behalf of a person who holds the Securities,

will generally be subject to Irish withholding tax at a prescribed rate of 25 per cent. This is unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Securities entitled to the interest or distribution is not resident in Ireland for Irish tax purposes, and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland for Irish tax purposes. In addition, an exemption applies where the payment is made to a company where that company is beneficially entitled to that income and is or will be within the charge to corporation tax in respect of that income.

Capital Gains Tax

Provided the Securities are listed on a stock exchange, or the Securities do not derive their value, or the greater part of their value from certain Irish land or mineral rights, then a holder of Securities will not be subject to Irish tax on capital gains provided that such holder of Securities is neither resident nor ordinarily resident in Ireland and such holder of Securities does not have an enterprise, or an interest in an enterprise, which carries on business in Ireland through a branch or agency, or a permanent establishment, to which or to whom the Securities are attributable.

Capital Acquisitions Tax

If the Securities are comprised in a gift or inheritance taken from an Irish resident or ordinarily resident disponer or if the disponer's successor is resident or ordinarily resident in Ireland, or if any of the Securities are regarded as property situated in Ireland, the disponer's successor may be liable to Irish capital acquisitions tax. In the case of registered Securities as these Securities will be registered in Ireland through the Irish incorporated Registrar, such Securities will be regarded as Irish situate property for the purposes of Irish capital acquisitions tax.

Accordingly, if such Securities are comprised in a gift or inheritance, the disponer's successor may be liable to Irish capital acquisitions tax, even though the disponer may not be domiciled in Ireland. For the purposes of capital acquisitions tax it is important to note that a non-domiciled person shall not be treated as resident or ordinarily resident in Ireland except where that person has been resident in Ireland for five consecutive years of assessment immediately preceding the year of assessment in which the date of the gift or inheritance falls.

Stamp Duty

Where the principal register of Securities is maintained in Ireland, such Securities may be regarded as Irish property for the purposes of Irish stamp duty. No Irish stamp duty is payable on the issue of such Securities.

No stamp duty is payable on the transfer of such Securities by delivery.

In the event of written transfer of such Securities, no Irish stamp duty is chargeable provided that the Securities:

- (i) do not carry a right of conversion into stocks or marketable securities (other than loan capital) of a company having a register in Ireland or into loan capital having such a right;
- (ii) do not carry rights of the same kind as shares in the capital of a company, including rights such as voting rights, a share in the profits or a share in the surplus upon liquidation;

- (iii) are issued for a price which is not less than 90 per cent. of their nominal value (thus certain Securities issued at a discount may not qualify for this exemption); and
- (iv) do not carry a right to a sum in respect of repayment or interest which is related to certain movements in an index or indices (based wholly or partly and directly or indirectly on stocks or marketable securities) specified in any instrument or other document relating to the Securities.

Where the above exemptions or another exemption does not apply, the instrument of transfer may be liable to Irish stamp duty at the rate of one per cent. of the consideration paid in respect of the transfer of such Securities (or if greater, the market value of the Securities transferring). The stamp duty must be paid in euro by the transferee (assuming an arm's length transfer) within 30 days of the date on which the transfer instrument is executed.

LUXEMBOURG TAXATION

The following information is of a general nature only and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject. Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Withholding Tax

Non-resident holders of Securities

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident holders of Securities.

Resident holders of Securities

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the **Law**), there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Securities held by Luxembourg resident holders of Securities.

Under the Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest or similar income under the Securities coming within the scope of the Law will be subject to withholding tax at a rate of 20 per cent.

OFFERING AND SALE

The following section applies to both Exempt Securities and Non-Exempt Securities.

The Dealers, as applicable, have entered into an amended and restated Programme Agreement, dated on or about 27 September 2023 (as the same may be amended or supplemented, from time to time, in accordance with the terms thereof, the **Programme Agreement**), with the Issuer, the Guarantors and the NIHK Guarantor, which sets forth a basis upon which they may from time to time agree to purchase the Securities. In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the issue of Securities under the Programme. In addition, the Issuer may, from time to time, issue Securities to parties other than a Dealer, on terms as it may agree from time to time.

In order to facilitate the offering of any Tranche of the Securities, certain persons participating in the offering of the Tranche may engage in transactions that stabilise, maintain or otherwise affect the market price of the relevant Securities during and after the offering of the Tranche. Specifically such persons may over-allot or create a short position in the Securities for their own account by selling more Securities than have been sold to them by the Issuer. Such persons may also elect to cover any such short position by purchasing Securities in the open market. In addition, such persons may stabilise or maintain the price of the Securities by bidding for or purchasing Securities in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering of the Securities are reclaimed if Securities previously distributed in the offering are repurchased in connection with stabilisation transactions or otherwise. The effect of these transactions may be to stabilise or maintain the market price of the Securities at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the Securities to the extent that it discourages resales thereof. No representation is made as to the magnitude or effect of any such stabilising or other transactions. Such transactions, if commenced, may be discontinued at any time. Under UK laws and regulations stabilising activities may only be carried on by the Stabilising Manager named in the applicable Final Terms (or persons acting on its behalf) and only for a limited period following the Issue Date of the relevant Tranche of Securities.

No action has been or will be taken by the Issuer and the Guarantors that would permit a public offering of any Securities or possession or distribution of any offering material in relation to any Securities in any jurisdiction where action for that purpose is required. No offers, sales, re-sales or deliveries of any Securities, or distribution of any offering material relating to any Securities, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuer and the Guarantors. **In particular, each of the following restrictions will apply to Securities offered under the Programme. These restrictions are stated in some cases as restrictions agreed between the Issuer and the relevant Dealer. Notwithstanding this all such restrictions below apply directly to any dealing or transaction in Securities and all Security holders and potential Security holders or others transacting in or taking any action in relation to the Securities must comply with all such restrictions.**

Selling Restrictions

UNITED STATES

Unless a series of Securities is eligible for sale (a) in the United States to QIBs who are also QPs, or (b) to U.S. persons who are QIBs that are also QPs and, in each case, who

agree to purchase the Securities for their own account or for the accounts of one or more other persons each of whom is a QIB that is a QP and not with a view to the distribution thereof and, unless otherwise provided in the applicable Final Terms, provide an Investor Representation Letter substantially in the form set out in the Agency Agreement, no Securities of any series, or interests therein, may at any time be offered, sold, resold or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person. In addition, certain Securities (including, but not limited to, Permanent Global W&C Securities) may not at any time be offered, sold, transferred, pledged, delivered or exercised or redeemed, directly or indirectly, in the United States or to, or for the account or benefit of, or by, any U.S. person.

In the event that a series of Securities is so eligible for sale in the United States or to U.S. persons, any sale or transfer restrictions or certification requirements applicable to such Securities in addition to those set out in the applicable Conditions will be set out in the applicable Final Terms. Offers, sales, resales or deliveries of Securities of any series, or interests therein, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons would constitute a violation of United States securities laws unless made in compliance with the registration requirements of the Securities Act and any applicable state securities laws or pursuant to an exemption therefrom. Terms used in this paragraph and the preceding paragraph and not otherwise defined have the meanings given to them by Regulation S. The term "U.S. person" has the meaning given to it by Regulation S under the Securities Act, as amended, the term "United States person" has the meaning given to it by the United States Internal Revenue Code of 1986, as amended and the United States Treasury regulations promulgated thereunder and the term "U.S. Person" means any person who is (i) a "U.S. person" as defined in Regulation S, (ii) a person other than a "Non-United States person" as defined in Rule 4.7 under the CEA, (iii) a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the CFTC, or the final rule relating to Cross-Border Application of the Registration Thresholds and Certain Requirements Applicable to Swap Dealers and Major Swap Participants promulgated by the CFTC, in each case as amended, modified or supplemented from time to time, pursuant to the CEA, (iv) any other "U.S. person" as such term may be defined in Regulation S or in regulations or guidance adopted under the CEA, or (v) a "United States person" as defined in the United States Internal Revenue Code of 1986, as amended and the United States Treasury regulations promulgated thereunder, in each case, as such definition may be amended, modified or supplemented from time to time.

Securities in bearer form that are treated as debt for U.S. federal tax purposes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain circumstances permitted by U.S. Treasury regulations. The applicable Final Terms will specify whether the provisions of U.S. Treas. Reg. Section 1.163-5(c)(2)(i)(C) (or any successor U.S. Treasury regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (**TEFRA C**), the provisions of U.S. Treas. Reg. Section 1.163-5(c)(2)(i)(D) (or any successor U.S. Treasury regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (**TEFRA D**), or neither the provisions of TEFRA C nor TEFRA D (**TEFRA not applicable**) will apply to the issuance of Securities. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder. Further information is set out in the Programme Agreement.

In connection with any Securities which are offered or sold in offshore transactions for the account or benefit of non-U.S. persons (or for the account or benefit of non-U.S. Persons in the case of certain Securities (including, but not limited to, Permanent Global W&C Securities) that may not at any time be offered, sold, transferred, pledged, delivered or exercised or redeemed, directly or indirectly, in the United States or to, or for the account or benefit of, or by, any U.S. Person) outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulation S (**Regulation S Securities**) and any applicable state securities laws, each Dealer has represented and agreed that, and each

further Dealer appointed under the Programme will be required to represent and agree that, except as permitted by the Programme Agreement, it will not offer, sell or deliver the Regulation S Securities within the United States or to, or for the account or benefit of, U.S. persons. In the case of certain Securities that may not at any time be offered, sold, transferred, pledged, delivered or exercised or redeemed, directly or indirectly, in the United States or to, or for the account or benefit of, or by, any U.S. Person, each Dealer has represented and agreed that, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver such Securities within the United States or to, or for the account or benefit of, U.S. Persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will have sent to any other Dealer to which it sells any Regulation S Securities a confirmation or other notice setting forth the restrictions on offers and sales of the Regulation S Securities within the United States or to, or for the account or benefit of, U.S. persons. In the case of certain Securities that may not at any time be offered, sold, transferred, pledged, delivered or exercised or redeemed, directly or indirectly, in the United States or to, or for the account or benefit of, or by, any U.S. Person, each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will have sent to any other Dealer to which it sells any such Securities a confirmation or other notice setting forth the restrictions on offers and sales of such Securities within the United States or to, or for the account or benefit of, U.S. Persons. Unless otherwise defined herein, terms used in this paragraph have the meanings given to them by Regulation S.

An offer or sale of such Regulation S Securities within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Any person purchasing Regulation S Securities shall be deemed to have agreed with the Issuer or the seller of such Securities that (i) it will not at any time offer, sell, resell or deliver, directly or indirectly, any Securities of such series so purchased in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person and (ii) it is not purchasing any Securities of such series for the account or benefit of any U.S. person.

Any person purchasing Securities of a series eligible for sale (a) in the United States to a QIB that is also a QP or (b) to any U.S. person who is a QIB and also a QP and, in each case, who agrees to purchase the Securities for its own account or for the accounts of one or more other persons each of whom is a QIB that is a QP and not with a view to the distribution thereof and (unless otherwise provided in the applicable Final Terms) provides an Investor Representation Letter substantially in the form set out in the Agency Agreement shall be deemed to have agreed with the Issuer that any resales of such Securities to, or for the account or benefit of, a U.S. person may be effected only to a QIB that is also a QP that has executed an Investor Representation Letter. See "*Notice to Purchasers and Holders of Securities and Transfer Restrictions*" on pages 1050 to 1058.

Each issuance of Exempt Securities shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Securities, which additional selling restrictions shall be set out in the applicable Final Terms. Each Dealer has agreed that it shall offer, sell and deliver such Securities only in compliance with such additional U.S. selling restrictions.

If the applicable Final Terms or Pricing Supplement (as applicable) in respect of the Securities specifies "Prohibition of Sales to EEA Retail Investors" as "Applicable" and neither a PRIIPs Compliant Sales Period nor a PRIIPs Retail Offer Jurisdiction is specified in the applicable Final Terms or Pricing Supplement, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by the Base Prospectus as completed by the applicable Final Terms or Pricing Supplement in relation thereto to any retail

For the purposes of this provision:

- the expression an **offer of Securities to the public** in relation to any Securities in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities; and

The conduct of a Public Offer in Poland as well as subscription or sale relating to such Public Offer requires an intermediation of a licenced investment firm, except for certain Public Offers exempted from the prospectus obligation. Each Dealer acknowledges and each further Dealer appointed under the Programme will be required to acknowledge that the sale to or acquisition and holding of the Securities by residents of Poland may be subject to additional requirements and restrictions imposed by Polish law, beyond the restrictions and requirements provided by generally applicable provisions of European Union law, including under foreign exchange regulations.
