In respect of each Series of Secured Securities under the Programme, the Collateral Provider will provide the Secured Securities Guarantee. Under the terms of the Secured Securities Guarantee, the Collateral Provider irrevocably and unconditionally guarantees to the holder of any relevant Security by way of continuing guarantee: (a) the due and punctual payment of all amounts payable by the Issuer on or in relation to such Security as and when the same shall become due to be paid under the

Conditions; (b) the due and punctual performance of any delivery obligations assumed or incurred by the Issuer on or in relation to such Security as and when the same shall become due to be performed under the Conditions; and (c) the due and punctual performance and observance by the Issuer of each of the other provisions of the Conditions in relation to such Security to be performed or observed by it thereunder.

The Collateral Provider's obligations under the Secured Securities Guarantee will be secured by the Collateral Provider creating security over specific Collateral Assets in favour of the Security Trustee (for itself and on behalf of the other Secured Parties). Unless otherwise specified in the applicable Final Terms, the relevant Collateral Assets will be held in one or more securities and/or cash accounts opened in the name, or for the account, of the Collateral Provider with the relevant Collateral Custodian (each, a **Collateral Account**). The Collateral Provider will create security over the relevant Collateral Assets as more fully described below.

Following payment by the Collateral Provider under the Secured Securities Guarantee and/or enforcement of the Security Agreement(s) and application of the proceeds thereof in full in accordance with the Order of Priority set out herein, the Collateral Provider will have an unsecured claim against the Issuer for an amount that is equal to the amount that the Collateral Provider has paid pursuant to the Secured Securities Guarantee (if any) and (without double counting and excluding any Secured Liabilities paid by the Collateral Provider to any Collateral Service Provider(s) appointed by the Collateral Provider) the amount of Secured Liabilities that has been discharged and satisfied in connection with the enforcement of the relevant Security Agreement(s).

2.2 *Description of the Security Agreement(s)*

Each Series of Secured Securities will benefit from the security interests created by: (i) the English law charging provisions in the Security Trust Deed that are specified to be applicable in the applicable Final Terms; (ii) where Euroclear is the Collateral Custodian and "Belgian Pledge Agreement" is specified to be applicable in the applicable Final Terms, the Belgian Pledge Agreement; and (iii) where applicable, one or more Supplementary Security Documents, in each case, governed by the laws of the jurisdiction in which the relevant Collateral Account(s) are located and/or by the laws governing the relevant Charged Asset(s), in each case, concluded on or about the Relevant Issue Date between the Collateral Provider and the other parties thereto, pursuant to which the Collateral Provider will create (*inter alia*) a first ranking security interest over Collateral Assets credited to one or more Collateral Accounts held by the Collateral Provider with the Collateral Custodian, in each case, in favour of the Security Trustee for itself and on behalf of other Secured Parties. In respect of Collateral Assets making up a Multiple Series Collateral Pool, the relevant Security Agreement(s) will, to the extent necessary to extend the benefit of the relevant Security Agreement to such Series of Secured Securities, be supplemented from time to time by an Extension Notice to extend the benefit of the relevant Security Agreement(s) to other Series or Tranches of Secured Securities.

2.3 *Description of the Triparty Arrangements*

In respect of each Series of Triparty Secured Securities, Euroclear will perform its role as Collateral Agent and/or Collateral Valuation Agent as described in these Secured Securities Conditions subject to and in accordance with the applicable Euroclear Documentation.

2.4 *Description of the Collateral Assets*

(a) *Collateral Assets in respect of Collateral-Backed Securities*

This Secured Securities Condition 2.4(a) only applies to Secured Securities specified as "Collateral-Backed Securities" in the applicable Final Terms.

In relation to each Series of Secured Securities that are specified as "Collateral-Backed Securities" in the relevant Final Terms, the Collateral Assets credited to the relevant Collateral Account and secured pursuant to the applicable Security Agreement(s) at the relevant time are collectively referred to as the **Collateral Pool**.

The Eligibility Criteria in respect of the Collateral Assets of any relevant Series shall be identified in the applicable Final Terms.

(b) *Collateral Assets in respect of Reference Bond-Linked Securities*

This Secured Securities Condition 2.4(b) only applies to Secured Securities specified as "Reference Bond-Linked Securities" in the applicable Final Terms.

In relation to each Series of Secured Securities specified as "Reference Bond-Linked Securities", the Collateral Assets shall be of the nature described in the applicable Final Terms. The initial Collateral Assets as of the Relevant Issue Date will be identified in such Final Terms. The Collateral Assets that are credited to the relevant Collateral Account and secured pursuant to the applicable Security Agreement(s) in respect of the relevant Series of Reference Bond-Linked Securities at the relevant time are collectively referred to as the **Collateral Pool**.

In relation to a Series of Secured Securities specified as "Reference Bond-Linked Securities" where "Substitution of Collateral Assets" is specified as applicable in the relevant Final Terms, in order for an asset to be a Successor Collateral Asset, it must satisfy the Eligibility Criteria specified in the applicable Final Terms and, if applicable, the relevant Collateral Rules.

(c) *Eligibility Criteria (all Secured Securities)*

Eligible Collateral Asset means, as determined by the Collateral Agent:

- (i) any asset specified as such in the relevant Final Terms; and
- (ii) any asset that satisfies the relevant Eligibility Criteria on the date that it is to be credited to the relevant Collateral Account.

Assets that may be eligible to qualify as Eligible Collateral Assets (subject to the definition of Eligible Collateral Assets) include, without limitation:

- (a) cash;
- (b) money market funds;
- (c) bank deposits;
- (d) debt securities (including but not limited to covered bonds, convertible securities, structured finance securities, subordinated securities and asset backed securities), in each case, issued or guaranteed by a government, government agency or supranational organisation, a corporate or a financial institution;
- (e) equity securities or shares or units in a fund;
- (f) any other negotiable financial instruments (including, without limitation, warrants);
- (g) commodities; and/or

- (h) any other public or private asset in a securitised (whether cash or "synthetic") or other contractual form which the Collateral Provider is allowed to purchase, receive or hold.

The Eligibility Criteria specified in the applicable Final Terms may, for example, include limitations on the type of assets, the maturity or tenor, the liquidity of the assets, requirements regarding the jurisdiction or the credit rating of the obligor of the relevant asset or its guarantor and/or any other limitations, restrictions and/or requirements.

In addition to the Eligibility Criteria, the applicable Final Terms may (but need not) set out any collateral rules that must be satisfied in order for the Collateral Test to be satisfied on any Collateral Test Date (the **Collateral Rules**). The Collateral Rules may, for example, include requirements relating to the diversification of types of Collateral Assets, the concentration of the Collateral Assets, the geographical location of the Collateral Assets or the currency of the Collateral Assets which may comprise a Collateral Pool and/or any other limitations, restrictions and/or requirements concerning the Collateral Assets comprised in the relevant Collateral Pool, in each case, as may be specified in the applicable Final Terms.

2.5 *Type of Collateral Pool*

(a) *Single Series Collateral Pool and Multiple Series Collateral Pool*

- (ii) "Collateral-Backed Securities", then the relevant Collateral Pool may be either a Single Series Collateral Pool or a Multiple Series Collateral Pool, as specified in the relevant Final Terms.

Where the applicable Final Terms in respect of a Series of Secured Securities specify that the Type of Collateral Pool is "*Single Series Collateral Pool*", such Series of Secured Securities will be the only Series of Secured Securities to be secured by the relevant Collateral Pool (a **Single Series Collateral Pool**).

(c) *Multiple Series Collateral Pool for Collateral-Backed Securities Only*

Where the applicable Final Terms in respect of a Series of Secured Securities specify that the "Type of Secured Securities" is "Collateral-Backed Securities" and that the Type of Collateral Pool is "*Multiple Series Collateral Pool*", such Series of Secured Securities may be secured by a Collateral Pool which secures one or more Series of Secured Securities (a **Multiple Series Collateral Pool**).

If Multiple Series Collateral Pool is applicable, following enforcement of the relevant Security Agreement(s), all Series of Secured Securities specified as "Collateral-Backed Securities" and secured on same Collateral Pool shall share in the distribution of the proceeds of realisation of the Collateral Assets constituting such Collateral Pool or, where the clause "*Physical Delivery of Collateral Assets*" is specified as "Applicable" in the applicable Final Terms, in the delivery of the Collateral Assets contained in such Collateral Pool. For the avoidance of doubt, the proceeds of any such realisation or the delivery of the Collateral Assets will, in each case, be shared across all Series of Linked Secured Securities on a *pro rata* and *pari passu* basis.

Securityholders acquiring and holding Secured Securities specified as "Collateral-Backed Securities" in relation to a Multiple Series Collateral Pool will be deemed to acknowledge, accept and agree to the rights of existing and future Securityholders of different Series of Secured Securities to share on a *pari passu* basis and rateably in the security created over the Collateral Assets in the Multiple Series Collateral Pool.

 - (A) as at the Relevant Issue Date, zero; and
 - (B) as at each Collateral Test Date thereafter, an amount equal to the greater of: (A) zero; and (B)(1) the product of: (x) Collateralisation Percentage B; and (y) the Swap MTM Value (if the value would be positive to Counterparty A and which will be deemed to be zero if the Swap MTM Value is zero or negative to Counterparty A); *multiplied by* (2) the Relevant Ratio.

The MTM Collateral Assets may be held in one or more Collateral Account(s). The Collateral Agent (on behalf of the Collateral Provider) will have the right to specify what portion of the MTM Collateral Assets will be held in one or more Collateral Account(s) from time to time.

3.2 **Collateral Value**

The Collateral Value, the Secured Security Market Value and (where applicable) Swap MTM Value in respect of each Series of Secured Securities secured by such Collateral Pool will each be tested on each Collateral Test Date in order to determine whether or not the Collateral Test is satisfied in respect of the relevant Collateral Test Date.

If the "Type of Collateralisation" specified in the applicable Final Terms for a Series of Secured Securities is "Static Collateral", the Collateral Valuation Agent shall determine whether, as at the Relevant Issue Date, the Collateral Assets have a notional or nominal amount then equal to, in the case of N&C Securities, the notional or nominal amount of the Series of Secured Securities or such other

amount specified in the applicable Final Terms and in the case of W&C Securities, the amount specified in the applicable Final Terms.

In respect of each Series of Secured Securities (other than where Static Collateral or Initial and MTM Collateral is the applicable Type of Collateralisation) and each Collateral Test Date, the Collateral Valuation Agent will determine the Collateral Value on the basis of such valuation method or methods as the Collateral Valuation Agent may determine acting in good faith and in a commercially reasonable manner, *provided that*, if Euroclear is the applicable Collateral Valuation Agent, Euroclear shall determine the Collateral Value in accordance with the terms of the applicable Euroclear Documentation and its internal policies and procedures.

The Collateral Valuation Agent will provide notice of such Collateral Value to the Collateral Monitoring Agent (if any) and the Collateral Agent as soon as reasonably practicable after each determination thereof. The Collateral Agent will use the same method of valuation of the Collateral Assets as the Collateral Valuation Agent when it performs its calculations as described at Secured Securities Condition 4 below. Unless otherwise agreed between the Issuer and the Collateral Monitoring Agent (if any), the Collateral Monitoring Agent (if any) will use the Collateral Value as notified to it by the Collateral Valuation Agent when it performs its calculations as described at Secured Securities Condition 5 below.

In respect of each Series of Secured Securities where Initial and MTM Collateral is the applicable Type of Collateralisation) and each Collateral Test Date, the Calculation Agent will determine the Swap MTM Value on the basis of such valuation method or methods as the Calculation Agent may determine acting in good faith and in a commercially reasonable manner. The Calculation Agent will provide notice of such Swap MTM Value to the Collateral Monitoring Agent (if any), the Collateral Valuation Agent and the Collateral Agent as soon as reasonably practicable after each determination thereof. The Collateral Agent, the Collateral Valuation Agent and the Collateral Monitoring Agent (if any) will use the Swap MTM Value as notified to it by the Calculation Agent when it performs its calculations as described at Secured Securities Condition 4 and Secured Securities Condition 5, as applicable, below.

For these purposes:

- (I) **Collateral Value** means, in respect of the any Collateral Test Date, the aggregate of the Eligible Asset Collateral Value in respect of each Collateral Asset comprised in the relevant Collateral Pool at such time; and
- (II) **Eligible Asset Collateral Value** means, in respect of the relevant Collateral Test Date and any Collateral Assets, the product of:
 - (x) the market value of such Collateral Assets (or, if the relevant Final Terms specify that "**Collateral Valuation at Nominal Value**" is applicable, the aggregate nominal value of the relevant Collateral Assets), if necessary, converted into the Collateral Valuation Currency in accordance with Secured Securities Condition 3.5 below; and
 - (y) any applicable Haircut in relation thereto.

3.3 ***Secured Security Market Value***

In respect of each Series of Secured Securities in respect of which "MV Collateralisation", "Min (MV, NV) Collateralisation" or "Max (MV, NV) Collateralisation" is specified as applicable in the relevant Final Terms, the Securities Valuation Agent will calculate the Secured Security Market Value in respect of each Collateral Test Date on the basis of such valuation method or methods as the Securities Valuation Agent may determine acting in good faith and in a commercially reasonable manner. The

Securities Valuation Agent will provide notice of the Secured Security Market Value to the Collateral Agent, the Collateral Valuation Agent and the Collateral Monitoring Agent (if any) as soon as reasonably practicable after each determination thereof.

For this purpose, **Secured Security Market Value** means, in respect of each Secured Security, the amount that would be payable by the Issuer pursuant to the N&C Securities Conditions or W&C Securities Conditions, as applicable, in connection with the early redemption or cancellation, as the case may be, of such Secured Security on the relevant Collateral Test Date if such Collateral Test Date was an Early Redemption Date and such Secured Securities were due to be early redeemed or cancelled, as the case may be, on such Early Redemption Date.

3.4 *Non-Waived Secured Securities*

The Collateral Agent, the Collateral Valuation Agent and the Collateral Monitoring Agent (if any) shall not take into account Waived Secured Securities when calculating the Required Collateral Value, the Required ICA Value and/or the Required MTM Value.

For this purpose:

Non-Waived Secured Securities means, in respect of any Series of Secured Securities, all of such Secured Securities other than Waived Secured Securities.

Waived Secured Securities means, in respect of any Series of Secured Securities:

- (i) any such Secured Securities held by the Issuer, the Collateral Provider and/or one or more of their respective Affiliates (including, but not limited to, in their capacity as market maker) (unless the Issuer, the Collateral Provider and/or one or more of their respective Affiliates provides notice to the Collateral Agent and the Collateral Valuation Agent that any of such Secured Securities should be Non-Waived Secured Securities); and
- (ii) any such Secured Securities in respect of which "*Waiver of Rights*" is specified as applicable in the relevant Final Terms and the relevant Securityholders have delivered a Waiver Notice.

If "*Waiver of Rights*" is specified as applicable in the relevant Final Terms in respect of a Series of Secured Securities, certain Securityholders intending to hold Secured Securities of such Series (including but not limited to, in their capacity as a market maker) may, by written notice to the Issuer, the Disposal Agent, the Collateral Agent, the Collateral Valuation Agent, the Collateral Monitoring Agent (if any) and the Security Trustee (such notice being a **Waiver Notice**), waive their rights to receive the proceeds of realisation of the Collateral Assets securing such Series of Secured Securities (or where Physical Delivery of Collateral Assets is specified as applicable in the relevant Final Terms, delivery of the Collateral Assets) following the enforcement of the applicable Security Agreement(s).

Accordingly:

- (i) holders of Waived Secured Securities will not have any rights provided to Securityholders under these Secured Securities Conditions in respect of the Collateral Assets comprised in the relevant Collateral Pool;
- (ii) holders of Waived Secured Securities are deemed to waive their rights to give written notice to the Issuer that the Waived Secured Securities are immediately due and repayable at their Early Redemption Amount on the occurrence of an Event of Default, including (but not limited to) following the delivery of a Required Collateral Default Notice (as described below) and to waive their rights to direct the Issuer and/or Security Trustee, to vote at any meeting (howsoever held) and to count towards the threshold to pass any resolution (including by way

of electronic consent), in each case, in relation to the relevant Series of Secured Securities; and

- (iii) any amounts calculated for the purposes of the Required Collateral Value in accordance with Secured Securities Condition 3.1 are calculated on the basis of Non-Waived Secured Securities only.

Each holder of Waived Secured Securities shall be required to: (i) inform by written notice and, upon request from the Collateral Agent and/or the Collateral Valuation Agent, provide evidence to, the Collateral Agent and the Collateral Valuation Agent, of the number of Waived Secured Securities that it holds on each Collateral Test Date; and (ii) notify the Collateral Agent and the Collateral Valuation Agent following any transfer of Waived Secured Securities. The Collateral Business Day following such notification will be deemed to be a Collateral Test Date and the Collateral Agent or the Collateral Valuation Agent (as the case may be) shall notify the Issuer and the Collateral Monitoring Agent (if any) and the Collateral Valuation Agent or the Collateral Agent (as applicable) of the same.

None of the Issuer, the Collateral Provider, the Collateral Agent, the Collateral Valuation Agent, any Collateral Monitoring Agent, the Calculation Agent or the Security Trustee shall be responsible for any incorrect, inaccurate or incomplete information relating to the number of Waived Secured Securities relating to any one or more Series of Secured Securities that may have been provided to the Collateral Agent, the Collateral Valuation Agent or the Calculation Agent by or on behalf of any holder of Waived Secured Securities and none of the Issuer, the Collateral Provider, the Collateral Agent, the Collateral Valuation Agent, the Calculation Agent, any Collateral Monitoring Agent or the Security Trustee shall be under any duty to verify or otherwise confirm the number of Waived Secured Securities.

3.5 *Conversion in case Specified Currency is not the Collateral Valuation Currency*

In the event that the currency of denomination of a Collateral Asset is other than the Collateral Valuation Currency, the Collateral Valuation Agent shall convert the value of such Collateral Asset into the Collateral Valuation Currency at the relevant spot exchange rate determined as follows:

- (i) if "Predetermined Collateral Valuation Currency Rate of Exchange" is specified as applicable in the relevant Final Terms, the relevant spot exchange rate shall be the rate of exchange specified as such in such Final Terms; or
- (ii) if "Predetermined Collateral Valuation Currency Rate of Exchange" is specified as not applicable in the relevant Final Terms, the relevant spot exchange rate shall be the rate of exchange determined by the Collateral Valuation Agent in good faith and in a commercially reasonable manner.

3.6 *Upsize of Secured Securities*

The Issuer may create and issue further N&C Securities pursuant to N&C Securities Condition 19 (*Further Issues*) or, as the case may be, W&C Securities Condition 11 (*Further Issues*).

- (i) *Notice of upsize*

The Issuer shall provide prior written notification of its intention to create and issue further Secured Securities to the Collateral Provider and the relevant Collateral Custodian no less than 7 Business Days prior to any date on which the Issuer intends to create and issue further N&C Securities pursuant to N&C Securities Condition 19 (*Further Issues*) or, as the case may be, W&C Securities Condition 11 (*Further Issues*) (the **Upsize Date**).

(ii) *Collateral Test Date on the Upsize Date*

If:

- (A) the "Type of Secured Securities" is specified as "Collateral-Backed Securities" in the applicable Final Terms; or
- (B) the "Type of Secured Securities" is specified as "Reference Bond-Linked Securities" and "Collateral Test" is specified as "Applicable" in the applicable Final Terms,

the relevant Upsize Date shall be deemed to be a Collateral Test Date, *provided that* the Issuer may not issue any such further N&C Securities pursuant to N&C Securities Condition 19 (*Further Issues*) or, as the case may be, W&C Securities Condition 11 (*Further Issues*) unless the Collateral Test would be satisfied immediately after such further issuance on that Upsize Date.

In the event that the "Type of Collateralisation" in respect of any relevant Series of Secured Securities is "Initial and MTM Margin", the Collateral Provider shall make the relevant Collateral Pool Adjustments (or shall procure such Collateral Pool Adjustments are made) that may be necessary in order to ensure that the Collateral Test would be satisfied immediately after any relevant further issuance on an Upsize Date in accordance with the provisions of Secured Securities Condition 4.2(c)(i).

3.7 ***Downsize of Secured Securities***

In the event of any purchase and cancellation pursuant to, in the case of: (i) N&C Securities, N&C Securities Conditions 8.9 (*Purchases*) and 8.10 (*Cancellation*); and/or (ii) W&C Securities, pursuant to W&C Securities Condition 7 (*Purchases*) (the date of any such purchase and cancellation, a **Downsize Date**), the relevant Downsize Date shall be deemed to be a Collateral Test Date.

4. Collateral Test and Adjustments to the Collateral Pool

4.1 ***Collateral Test***

- (a) On each Collateral Test Date relating to a relevant Series of Secured Securities (except where the "Type of Secured Securities" is specified as "Reference Bond-Linked Securities" and "Collateral Test" is specified as "Not Applicable" in the applicable Final Terms), the Collateral Agent will determine:
 - (i) in the event that any Collateral Rules are applicable to the relevant Collateral Pool, whether such Collateral Rules are satisfied; and
 - (ii) where the "Type of Collateralisation" is specified in the applicable Final Terms as:
 - (A) "Static Collateral", whether the Collateral Value is, as at the Relevant Issue Date only, equal to the Required Collateral Value for such Collateral Pool;
 - (B) "Margined Collateral", whether the Collateral Value is greater than or equal to the Required Collateral Value for such Collateral Pool; or
 - (C) "Initial and MTM Collateral":
 - (I) in respect of the Initial Collateral Assets:

- (1) as at the Relevant Issue Date only, whether the Initial Collateral Assets have a notional or nominal amount then equal to the Required ICA Value for such Collateral Pool; and
 - (2) as at each Collateral Test Date thereafter, whether the Eligible Asset Collateral Value of the Initial Collateral Assets is greater than or equal to the Required ICA Value; and
- (II) in respect of the MTM Collateral Assets as at each Collateral Test Date following the Relevant Issue Date, whether the Eligible Asset Collateral Value of the MTM Collateral Assets is greater than or equal to the Required MTM Value,

(limbs (i) and (ii) above being referred to together as the **Collateral Test**).

- (b) When determining whether the Collateral Test is satisfied:
- (i) Eligible Collateral Assets in respect of which instructions for the transfer to the relevant Collateral Account have been provided, but such transfer has not been completed, on or before the relevant Collateral Test Date will be deemed to be included in the relevant Collateral Pool; and
 - (ii) Collateral Assets in respect of which instructions for removal from the relevant Collateral Account have been provided, but such removal has not been completed, on or before the relevant Collateral Test Date will be deemed to be excluded.
- (c) If any of the Collateral Agent, the Collateral Valuation Agent and/or the Securities Valuation Agent, as the case may be, determines that it is not commercially reasonable to determine the value of any relevant Collateral Asset(s) and/or Secured Security, respectively, on such date, the Collateral Test Date will be the immediately prior Collateral Business Day on which such parties agree that it was commercially reasonable to determine the value of all relevant Collateral Assets and such Secured Security.

4.2 *Adjustments to the Collateral Pool*

- (a) *Addition of Eligible Collateral Assets and/or Replacement of Collateral Assets*

Where the "Type of Collateralisation" is specified in the applicable Final Terms as "Static Collateral" or "Margined Collateral" and in respect of any Collateral Test Date:

- (i) if the Collateral Agent determines that the Collateral Test is not satisfied for the relevant Collateral Pool; or
- (ii) if the Collateral Agent receives a Collateral Monitoring Agent Notice from the Collateral Monitoring Agent that it has determined the Collateral Test is not satisfied for the relevant Collateral Pool,

the Collateral Agent (on behalf of the Collateral Provider): (A) will select the type and quantity of Eligible Collateral Assets to be added to the relevant Collateral Account; and (B) may select existing Collateral Assets in the Collateral Pool to be replaced with the Eligible Collateral Assets that are selected by the Collateral Agent, in order that the Collateral Test would be satisfied on such Collateral Test Date if such additions or replacements, as applicable, had been effective on such Collateral Test Date (such additions or replacements being **Collateral Pool Adjustments**).

Where the "Type of Collateralisation" is specified in the applicable Final Terms as "Initial and MTM Collateral" and in respect of any Collateral Test Date:

- (i) if the Eligible Asset Collateral Value of the Initial Collateral Assets is less than the Required ICA Value, the Collateral Agent (on behalf of the Collateral Provider) will add to the relevant Collateral Account an aggregate amount of Collateral Assets Equivalent to the Reference Obligation specified in the applicable Final Terms in order that the Eligible Asset Collateral Value of the Initial Collateral Assets would be at least equal to the Required ICA Value on such Collateral Test Date if such additions had been effective on such Collateral Test Date; and
- (ii) if the Eligible Asset Collateral Value of the MTM Collateral Assets is less than the Required MTM Value, the Collateral Agent (on behalf of the Collateral Provider): (A) will select the type and quantity of Eligible Collateral Assets to be added to the relevant Collateral Account; and (B) may select existing MTM Collateral Assets in the Collateral Pool to be replaced with the Eligible Collateral Assets that are selected by the Collateral Agent, in order that the Eligible Asset Collateral Value of the MTM Collateral Assets would be at least equal to the Required MTM Value on such Collateral Test Date if such additions or replacements, as applicable, had been effective on such Collateral Test Date,

in each case, such additions or replacements being **Collateral Pool Adjustments**.

Within two Collateral Business Days of the relevant Collateral Test Date, the Collateral Agent will send a notice of the relevant Collateral Pool Adjustments to the Collateral Monitoring Agent (if any) and the Collateral Custodian (copied to the Issuer and the Collateral Provider) (each such notice, a **Collateral Pool Adjustment Notice**).

(b) *Removal of Collateral Assets*

Where the "Type of Collateralisation" is specified in the applicable Final Terms as "Static Collateral" or "Margined Collateral" and if on any relevant Collateral Test Date, the Collateral Agent determines that the Collateral Test is satisfied for the relevant Collateral Pool and that the Collateral Value is greater than the Required Collateral Value, the Collateral Agent on behalf of the Collateral Provider shall be entitled to select the type and quantity of Collateral Assets to be removed from the relevant Collateral Account, *provided that* the Collateral Test would continue to be satisfied on such Collateral Test Date if such removal had been effective on such Collateral Test Date (such removal being a **Collateral Pool Adjustment**).

Where the "Type of Collateralisation" is specified in the applicable Final Terms as "Initial and MTM Collateral" and in respect of any Collateral Test Date:

- (i) if the Eligible Asset Collateral Value of the Initial Collateral Assets is greater than the Required ICA Value, the Collateral Agent (on behalf of the Collateral Provider) will be entitled to remove an aggregate amount of Initial Collateral Assets from the relevant Collateral Account, *provided that* the Eligible Asset Collateral Value of the Initial Collateral Assets would continue to be at least equal to the Required ICA Value on such Collateral Test Date immediately after such removal; and
- (ii) if the Eligible Asset Collateral Value of the MTM Collateral Assets is greater than the Required MTM Value, the Collateral Agent (on behalf of the Collateral Provider) will be entitled to select the type and quantity of MTM Collateral Assets to be removed from the relevant Collateral Account, *provided that* the Eligible Asset Collateral Value of the MTM Collateral Assets would continue to be at least equal to the Required MTM Value on such Collateral Test Date immediately after such removal,

in each case, such removals being **Collateral Pool Adjustments**.

If the Collateral Agent determines to remove such Collateral Assets from the relevant Collateral Account, within two Collateral Business Days of the relevant Collateral Test Date, the Collateral Agent will send a notice of the Collateral Pool Adjustment to any Collateral Monitoring Agent, the Collateral Valuation Agent and the Collateral Custodian (copied to the Issuer and the Collateral Provider) (each such notice, a **Collateral Pool Adjustment Notice**).

(c) *Initial and MTM Collateral Adjustments*

(i) *Collateral Pool Adjustments in connection with an Upsize Date or a Downsize Date*

If the Type of Collateralisation specified in the applicable Final Terms is "Initial and MTM Collateral" and the Collateral Agent makes any Collateral Pool Adjustment following the occurrence of either an Upsize Date or a Downsize Date, as the case may be, the Collateral Agent shall add or remove, as applicable, Initial Collateral Assets and MTM Collateral Assets in proportion to the ratio of Initial Collateral Assets to MTM Collateral Assets on the relevant Upsize Date or Downsize Date, as the case may be.

(ii) *Substitution of MTM Collateral*

The Collateral Agent (on behalf of the Collateral Provider) will be permitted to remove or substitute MTM Collateral Assets credited to and/or deposited in the relevant Collateral Account(s), *provided that* any such removal or substitution does not result in the Eligible Asset Collateral Value (determined as if the MTM Collateral Assets were the only Collateral Assets) being less than the Required MTM Value (such substitution(s) being, **Collateral Pool Adjustments**). If the Collateral Agent determines to remove such Collateral Assets from the relevant Collateral Account, within one Collateral Business Day of the relevant Collateral Pool Adjustment, the Collateral Agent will send a notice of such Collateral Pool Adjustment to any Collateral Monitoring Agent, the Collateral Valuation Agent and the Collateral Custodian (copied to the Issuer and the Collateral Provider) (each such notice, a **Collateral Pool Adjustment Notice**).

(d) *Voluntary Substitution of Collateral Assets*

Unless the Type of Collateralisation specified in the applicable Final Terms is "Initial and MTM Collateral", the Collateral Agent (on behalf of the Collateral Provider) may, in respect of any Collateral Test Date, select the type and quantity of existing Collateral Assets in the Collateral Pool to be substituted with Eligible Collateral Assets that are selected by the Collateral Agent *provided that* the Collateral Test would be satisfied on such Collateral Test Date if such substitution(s) had been effective on such Collateral Test Date (such substitution(s) being **Collateral Pool Adjustments**).

If the Collateral Agent determines to make such a substitution, within two Collateral Business Days of the relevant Collateral Test Date, the Collateral Agent will send a notice of the relevant Collateral Pool Adjustment to any Collateral Monitoring Agent, the Collateral Valuation Agent and the Collateral Custodian (copied to the Issuer and the Collateral Provider) (each such notice, a **Collateral Pool Adjustment Notice**).

(e) *Settlement of Collateral Pool Adjustments*

Subject to the provisions set out at Secured Securities Condition 5, if applicable, each Collateral Pool Adjustment specified in a Collateral Pool Adjustment Notice will be settled within not more than four Collateral Business Days following the date of the relevant Collateral Pool Adjustment Notice or such longer period as specified in the Final Terms (the **Required Settlement Period**), *provided that* if a

Collateral Settlement Disruption Event occurs, the Required Settlement Period will be extended to the date that is 10 Collateral Business Days following the date of the relevant Collateral Pool Adjustment Notice. If, at the end of such 10 Collateral Business Days Period, such Collateral Settlement Disruption Event is continuing to exist, this shall constitute a Collateral Disruption Event and not an Event of Default.

(f) *Notification of settlement failure*

The Collateral Custodian shall notify the Issuer, the Collateral Provider, the Collateral Valuation Agent, the Collateral Agent and any Collateral Monitoring Agent if the settlement of any transfer of Collateral Assets has not been completed within the Required Settlement Period.

5. Verification by the Collateral Monitoring Agent

The provisions set out in this Secured Securities Condition 5 will apply only if a Collateral Monitoring Agent is specified as applicable in the relevant Final Terms.

- (a) On each Collateral Test Date, the Collateral Monitoring Agent will determine whether or not the Collateral Test is satisfied on the basis of the data provided to it in accordance with Secured Securities Condition 3.2. In the event that the Collateral Monitoring Agent determines that the Collateral Test is not satisfied on any Collateral Test Date, the Collateral Monitoring Agent shall, on the Collateral Business Day immediately following the relevant Collateral Test Date, notify the Collateral Agent and the Collateral Valuation Agent in writing (with a copy to the Issuer and the Collateral Provider) providing details of why it considers that the Collateral Test is or will not be satisfied (such notice being hereafter referred to as a **Collateral Monitoring Agent Notice**).
- (b) Following the occurrence of a Required Collateral Default, the Collateral Monitoring Agent shall send as soon as reasonably practicable and, in any case, within two Business Days, a Required Collateral Default Notice to the Issuer, the Collateral Provider, the Principal Agent, the Disposal Agent, the Collateral Agent, the Collateral Valuation Agent, the Collateral Custodian and the Security Trustee.

6. Voting and Notifications in respect of Collateral Assets

6.1 *Voting in respect of Collateral Assets*

The Collateral Provider may, in its sole discretion, exercise any rights in its capacity as holder of the Collateral Assets (including, without limitation, a right to vote or any analogous right howsoever described) at all times; provided that, upon delivery of a Collateral Enforcement Notice in accordance with Secured Securities Condition 7.4(f), the Security Trustee may exercise in its sole discretion any such rights on behalf of the Collateral Provider until the Collateral Assets have been realised in full in accordance with Secured Securities Condition 7.8.

6.2 *Notifications in respect of Collateral Asset Call Options (Reference Bond-Linked Securities)*

If "Collateral Asset Call Option (Reference Bond-Linked Securities) Notification" is specified as applicable in the relevant Final Terms in respect of a Series of Reference Bond-Linked Securities, the Issuer shall notify or procure the notification to the Securityholders in writing (which may include by email) of any relevant Series of Reference Bond-Linked Securities of any exercise or non-exercise (as the case may be) of each and any Collateral Asset Call Option within 5 Business Days of the Collateral Provider becoming aware of such exercise or non-exercise (as applicable).

7. Mandatory Redemption Events, Default, Enforcement, Realisation and Delivery

7.1 *Collateral Disruption Events*

If the Issuer, the Collateral Agent or the Calculation Agent determines that a Collateral Disruption Event has occurred in respect of a Series of Secured Securities, the Issuer may, in its sole and absolute discretion, give not less than 2 Business Days' prior notice to the Security Trustee, the Disposal Agent, the Collateral Agent, the Collateral Valuation Agent, the Calculation Agent, the Collateral Provider, any Collateral Monitoring Agent and the Securityholders in accordance with the Conditions and redeem or cancel, as the case may be, all (but not some only) of the Linked Secured Securities at the Early Redemption Amount on the Early Redemption Date, *provided that* the Early Redemption Date:

- (a) in the case of a Collateral Arrangement Tax Event, shall be no earlier than the date on which the earlier of the relevant cash flows under the relevant Collateral Arrangement(s) would otherwise be paid; and
- (b) in the case of a Collateral Illegality Event, shall be the latest practicable date on which the Issuer could lawfully make the relevant payment irrespective of the Collateral Illegality Event.

In respect of Collateral-Backed Securities, in the event that the Issuer does not elect to redeem or cancel, as the case may be, the relevant Secured Securities, the Collateral Agent may elect to withdraw the relevant Collateral Asset(s) in respect of which the Collateral Disruption Event occurred and may replace such Collateral Asset(s) with Eligible Collateral Assets in accordance with Secured Securities Condition 4.2(d) in order to preserve the economic equivalent of the obligations of the Issuer and Collateral Provider under the Secured Securities, Secured Securities Guarantee and Collateral Arrangements, in each case, immediately prior to the occurrence of the relevant Collateral Disruption Event, *provided that* immediately following such adjustment the Collateral Test shall be satisfied and no Collateral Disruption Event shall be continuing in respect of the relevant Series of Secured Securities.

In respect of Reference Bond-Linked Securities, in the event that the Issuer does not elect to redeem or cancel, as the case may be, the relevant Secured Securities and "*Collateral Substitution*" is specified as being applicable in the relevant Final Terms, the Collateral Agent may elect to withdraw the relevant Collateral Asset(s) in respect of which the Collateral Disruption Event occurred and may replace such Collateral Asset(s) with Eligible Collateral Assets in accordance with Secured Securities Condition 9.2, *provided that* immediately following such adjustment the Collateral Test shall be satisfied and no Collateral Disruption Event shall be continuing in respect of the relevant Series of Secured Securities.

The occurrence of a Collateral Disruption Event will not constitute an Event of Default.

7.2 *Mandatory Redemption Event*

If a Mandatory Redemption Event occurs, then the Issuer or the Calculation Agent acting on its behalf shall forthwith give not less than 10 Collateral Business Days' notice (which notice shall be irrevocable) to the Security Trustee, the Disposal Agent, the Collateral Agent, the Collateral Valuation Agent, the Calculation Agent, the Collateral Provider and the holders of Secured Securities of the relevant Series that a Mandatory Redemption Event has occurred and that the Issuer shall redeem or cancel, as the case may be, all (but not some only) of the Secured Securities at the Early Redemption Amount on the Early Redemption Date of the relevant Series of Secured Securities in accordance with this Secured Securities Condition 7.

7.3 *Calculation and Publication of Early Redemption Amounts*

As soon as practicable after such date as the Calculation Agent may be required to calculate (or may procure the calculation of) any Early Redemption Amount, the Calculation Agent will do so and notify such calculation to the Disposal Agent, the Principal Agent, the Security Trustee, the Issuer, each of the Paying Agents, the Collateral Provider and the Securityholders. Such calculation by or on behalf of the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

7.4 *Events of Default*

- (a) Each Series of Secured Securities will be subject to the Events of Default set out at N&C Securities Condition 11 (*Events of Default and Enforcement*) or W&C Securities Condition 6 (*Events of Default on Insolvency*), as applicable, except that:

- (i) the following additional Event of Default will apply to each Series of Secured Securities:

the Issuer or the Collateral Provider fails to perform or comply with any of its obligations (including without limitation any payment or delivery obligation and including where the Collateral Agent fails or perform or comply with any obligation(s) on behalf of the Collateral Provider, including, without limitation, making any required Collateral Adjustment(s)) under the Secured Securities, the Secured Securities Guarantee and/or any Transaction Document; and: (x) in the case of a payment or delivery obligation such failure is not cured in full within any grace period contractually provided for, or if no such grace period is contractually provided, within five Collateral Business Days; or (y) in the case of any other obligation such failure is not remedied within 30 Business Days after notice of the occurrence of such default has been given to the Issuer or the Collateral Provider, as applicable;

- (ii) the following additional Event of Default will apply to each Series of Secured Securities:

any security granted by the Collateral Provider pursuant to the relevant Security Agreement(s) in respect of any relevant Series of Secured Securities fails or ceases to be in full force and effect and/or the Collateral Provider disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such security and/or Security Agreement(s) (or such action is taken by any person or entity appointed or empowered to act on the Collateral Provider's behalf), in each case, prior to the date on which the Secured Liabilities are discharged in full (a **Security Interests Event**) and such Security Interests Event continues for 10 consecutive Business Days following notification to the relevant Securityholders.

If a Security Interests Event occurs, the Issuer shall notify the Securityholders of each impacted Series of Secured Securities in accordance with the Conditions as soon as reasonably practicable after it becomes aware of such Security Interests Event. If the Collateral Provider becomes aware of the occurrence of a Security Interests Event, it shall notify the Issuer and the Security Trustee in writing as soon as reasonably practicable;

- (iii) the following additional Event of Default will apply to each Series of Secured Securities in respect of which a Collateral Monitoring Agent is appointed:

the Collateral Monitoring Agent delivers a Required Collateral Default Notice in relation to a Collateral Pool securing any Relevant Secured Securities, specifying that a Required Collateral Default has occurred; and

- (iv) references to "Guarantor" and "Guarantee" in N&C Securities Condition 11 (*Events of Default and Enforcement*) and W&C Securities Condition 6 (*Event of Default on Insolvency*) will be

deemed to be references to "Collateral Provider" and "Secured Securities Guarantee" respectively.

- (b) Following the occurrence of an Event of Default in relation to a Series of Secured Securities, the Issuer shall notify the Principal Agent, the Disposal Agent, the Security Trustee, the Securityholders and each other Secured Party in accordance with the Conditions within 1 Business Day of becoming aware of the occurrence of the relevant Event of Default (including, without limitation, by way of receipt of a Required Collateral Default Notice).

- (c) Single Series Collateral Pool

Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding aggregate amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of the Non-Waived Secured Securities of any Series of Secured Securities that are secured by a Single Series Collateral Pool may cause a Secured Security Acceleration Event to occur in respect of all Secured Securities of that Series.

If a Secured Security Acceleration Event occurs, all Secured Securities of the relevant Series will also become immediately due and repayable at their Early Redemption Amount.

Within one Business Day of the occurrence of a Secured Security Acceleration Event, the Issuer shall, in accordance with the Conditions, give notice of such Secured Security Acceleration Event to all Securityholders of the relevant Series, the Disposal Agent and all other relevant Secured Parties.

- (d) Multiple Series Collateral Pool

Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding aggregate amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of the Non-Waived Secured Securities of any Series of Secured Securities that are secured by a Multiple Series Collateral Pool may cause a Secured Security Acceleration Event to occur in respect of all Linked Secured Securities.

If a Secured Security Acceleration Event occurs, all Linked Secured Securities that are secured by the same Multiple Series Collateral Pool as the relevant Accelerated Secured Security(s) will also become immediately due and repayable at their Early Redemption Amount.

Within one Business Day of the occurrence of a Secured Security Acceleration Event, the Issuer shall, in accordance with the Conditions, give notice of such Secured Security Acceleration Event to all Securityholders of Linked Secured Securities which are secured by the relevant Multiple Series Collateral Pool, the Disposal Agent and all other relevant Secured Parties.

- (e) *SSG Notice*

If a Secured Security Acceleration Event has occurred and the Issuer has not paid all amounts due to Securityholders of the relevant Series of Secured Securities within a period of 10 Collateral Business Days (or such other period as specified in the applicable Final Terms) following notification to Securityholders of the occurrence of such Secured Security Acceleration Event, Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding aggregate amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of the Non-Waived Secured Securities of any Series of Linked Secured Securities will be entitled to instruct the Security Trustee to request payment in full pursuant to the Secured Securities Guarantee by sending an SSG Notice to the Collateral Provider (with a copy to the Disposal Agent and the Issuer).

In accordance with the terms of the relevant Secured Securities Guarantee, the Collateral Provider shall pay all amounts due and payable to the Securityholders of each relevant Series of Secured Securities within 10 Collateral Business Days of its receipt of the relevant SSG Notice.

(f) *Collateral Enforcement Notice*

In accordance with the terms of the Secured Securities Guarantee, if the Collateral Provider has not paid all amounts due to Securityholders of a relevant Series within a period of 10 Collateral Business Days following receipt of an SSG Notice, Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding aggregate amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of the Non-Waived Secured Securities of any relevant Series of Linked Secured Securities may deliver a Collateral Enforcement Notice to the Security Trustee (with a copy to the Disposal Agent).

The security granted pursuant to the Security Agreement(s) relating to the relevant Collateral Pool securing such Series of Secured Securities shall become immediately enforceable upon receipt by the Security Trustee of a Collateral Enforcement Notice in accordance with the provisions below.

The Security Trustee shall, following receipt of a Collateral Enforcement Notice, promptly give notice of the same to the Issuer, the Collateral Provider, the Collateral Agent, the relevant Collateral Custodian and all the other Securityholders whose Securities are secured on the Collateral Pool in relation to which such Collateral Enforcement Notice relates and, in the case of the Securityholders, in accordance with the Conditions.

7.5 *Liquidation Date*

As soon as reasonably practicable following the Liquidation Date, the Disposal Agent shall, unless "Physical Delivery of Collateral Assets" applies, liquidate or realise the Collateral Assets that relate to the relevant Collateral Pool in accordance with Secured Securities Condition 7.8.

If the relevant Series of Secured Securities are Triparty Secured Securities, the Collateral Provider shall notify Euroclear as soon as reasonably practicable after the occurrence of a Liquidation Date and in accordance with the terms of the applicable Euroclear Documentation that a "default" (or such analogous term as may be required by the terms of the applicable Euroclear Documentation) has occurred in respect of itself for the purposes of the applicable Euroclear Documentation in respect of such Series of Triparty Secured Securities.

7.6 *General Enforcement and Realisation of Charged Assets*

Subject to as otherwise specified in the applicable Final Terms, upon the receipt of a Collateral Enforcement Notice, the Security Trustee shall enforce the Security Agreement(s) relating to the relevant Collateral Pool in accordance with the terms thereof and these Secured Securities Conditions (as completed by the applicable Final Terms) and the Security Trustee shall, in accordance with the relevant Security Agreement(s) and the Disposal Agency Agreement, instruct the Disposal Agent to either:

- (i) to the extent not previously liquidated or realised, liquidate or realise the Collateral Assets that relate to the relevant Collateral Pool in accordance with Secured Securities Condition 7.8 and the Security Trustee shall subsequently distribute the relevant Collateral Liquidation Proceeds Share to relevant Securityholders in accordance with Secured Securities Condition 7.9; or

- (ii) where Physical Delivery of Collateral Assets is specified as "Applicable" in the applicable Final Terms, arrange for delivery of the relevant Collateral Assets Entitlement to the relevant Securityholders in accordance with Secured Securities Condition 7.11,

in each case, for the avoidance of doubt, after payment of any amounts payable to the Secured Parties ranking prior to the holders of the Non-Waived Secured Securities in accordance with the Order of Priority, such amounts to be paid either out of: (aa) the proceeds of such liquidation or realisation of the relevant Collateral Assets; or (bb) a portion of the Collateral Assets that would otherwise be transferred to the holders of the Non-Waived Secured Securities in accordance with Secured Securities Condition 7.11.

Upon the occurrence of a Liquidation Date, the security created pursuant to the relevant Security Agreement(s) shall be automatically released without further action on the part of the Security Trustee in accordance with the terms of the relevant Security Agreement(s) to the extent necessary to effect any liquidation and realisation, *provided that* nothing in this Secured Securities Condition 7.6 will operate to release the charges and other security interests over the proceeds of such liquidation and realisation of the relevant Charged Assets or over the Charged Assets not subject to such liquidation and realisation. In the event that the Disposal Agent is instructed in writing to cease realisation of the relevant Collateral Assets by the Security Trustee at any time following receipt of a Collateral Enforcement Notice, the Disposal Agent shall cease to effect any further liquidation and realisation, *provided that* any transaction entered into in respect of any Collateral Asset(s) in connection with such liquidation and realisation on or prior to the date on which the Disposal Agent is so instructed in writing to cease realisation will be settled and the Disposal Agent shall take any steps and actions necessary to settle such transaction and/or that are incidental thereto.

7.7 *Enforcement and Realisation by Securityholders*

Subject to and in accordance with the provisions of the applicable Security Agreement(s), neither the Securityholders nor any other Secured Party shall be entitled to enforce the security constituted by any relevant Security Agreement(s) or to proceed directly against the Collateral Provider to enforce the other provisions of such Security Agreement(s) unless the Security Trustee, having become bound to enforce or proceed, fails or is unable to do so within a reasonable period, and such failure or inability is continuing or if the Security Trustee is prevented from enforcing such Security Agreement(s) by any court order, *provided always that* the Disposal Agent may take such action or step under this Secured Securities Condition 7 as it deems appropriate in order to perform its obligations and duties under the Secured Securities Conditions and the Transaction Documents.

7.8 *Method of realisation of Collateral Assets and Charged Assets*

Subject as may otherwise be provided for in these Secured Securities Conditions or the applicable Final Terms, the Disposal Agent shall attempt to sell the Collateral Assets during the Realisation Period. The Disposal Agent may sell the Collateral Assets in one single tranche or in smaller tranches, by way of one or multiple transactions and on a single or multiple day(s), in each case, as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. The Disposal Agent may effect sales of the Collateral Assets: (i) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted; (ii) on the over-the-counter market; or (iii) by way of transactions otherwise than on such exchanges or on the over-the-counter market.

The Disposal Agent shall be able to exercise any available right regarding the realisation of the Collateral Assets pursuant to the Security Agreement(s).

Where the Disposal Agent is required or requested to liquidate or dispose of any Collateral Assets other than on any securities exchange or quotation service on which the Collateral Assets may be listed

or quoted and on which the Collateral Assets, in the opinion of the Disposal Agent, may be readily realised then:

- (a) the Disposal Agent may: (a) where "Secured Securities Condition 7.8 – Liquid Assets" is specified in the applicable Final Terms, sell the relevant Collateral Assets in accordance with standard market practice (as determined in the sole opinion of the Disposal Agent) for assets similar in nature to the relevant Collateral Assets: (1) on any other securities exchange or quotation service on which the Collateral Assets may be listed or quoted; or (2) on the over-the-counter market; or (3) by way of transactions otherwise than on such exchanges or on the over-the-counter market; and (b) where "Secured Securities Condition 7.8 – Illiquid Assets" is specified in the applicable Final Terms, seek firm bid quotations from at least three dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of designated tranches thereof, as it considers appropriate in order to maximise the proceeds of the sale of such Collateral Assets);
- (b) for the purposes of obtaining the quotations referred to in (a) above, the Disposal Agent may itself provide a bid in respect of the relevant Collateral Assets or any tranche thereof; and
- (c) the Disposal Agent shall be authorised to accept in respect of each relevant tranche or, as applicable, the entirety of the relevant Collateral Assets the highest quotation so obtained (which may be a quotation from the Disposal Agent, *provided that*, when providing such quotations itself, the Disposal Agent shall act in a commercially reasonable manner).

In order to enforce the security created by the applicable Security Agreement(s), the Security Trustee may, in addition to the foregoing paragraphs (a) – (c) above (*mutatis mutandis*):

- (i) sell, call in, collect and convert the Charged Assets into cash in such manner and on such terms as it shall think fit, and may, at its discretion, take possession of all or part of the Charged Assets over which the security shall have become enforceable;
- (ii) take such action, step or proceeding against any Obligor as it deems appropriate but without liability to the Securityholders or any other Secured Party as to the consequence of such action, step or proceeding; and/or
- (iii) take any such other action, step or enter into any such other proceedings as it deems appropriate (including, without limitation, taking possession of all or any of the Charged Assets and/or appointing a receiver) as are permitted under the terms of the applicable Security Agreement(s).

The Security Trustee shall not be required to take any action, step or proceeding in relation to the enforcement of the security created by the applicable Security Agreement(s) without first being indemnified and/or prefunded and/or secured to its satisfaction. When taking any action, step or proceeding in relation to the enforcement of such security, the Security Trustee shall be entitled to do so without having regard to the effect of such action, step or proceeding on individual Securityholders (and/or, where "Multiple Series Collateral Pool" is specified as "Applicable" in the applicable Final Terms, individual Series of Secured Securities secured by the same Collateral Pool) or any other Secured Party.

7.9 ***Application and distribution of proceeds of enforcement***

Unless "*Physical Delivery of Collateral Assets*" is specified as "Applicable" in the applicable Final Terms, after the liquidation or realisation of the Collateral Assets and the enforcement of the relevant Security Agreement(s) in respect of the relevant Series of Secured Securities in accordance with

Secured Securities Condition 7.8, the Security Trustee shall use the proceeds of such realisation and liquidation of the Charged Assets in respect of the relevant Series of Secured Securities to make payment of any amounts payable to the Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with the Order of Priority on or prior to the Effective Redemption Date.

The Calculation Agent shall, after the realisation and liquidation of the Collateral Assets in respect of the relevant Series of Secured Securities in accordance with Secured Securities Condition 7.8, determine the Collateral Liquidation Proceeds Share in respect of each Non-Waived Secured Security of a Series of Secured Securities that are:

- (i) Collateral-Backed Securities, on the Realisation Period End Date; and
- (ii) Reference Bond-Linked Securities, on the Early Payment Valuation Date,

and, in each case, shall notify (or procure the notification of) such amounts to the relevant Securityholders and the Security Trustee in accordance with the Conditions.

Subject as provided below, following payment of all amounts due and payable (if any) to the Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with, and in the order set out in the Order of Priority, the Collateral Liquidation Proceeds Share will then be applied in meeting the claims of Securityholders of Non-Waived Secured Securities which are secured by the relevant Collateral Pool on a *pro rata* and *pari passu* basis on the Effective Redemption Date.

Such claims of the relevant Securityholders will be adjusted by the Calculation Agent in accordance with the following rules:

- (a) if the Collateral Liquidation Proceeds Share for a particular Secured Security is in excess of the difference between: (A) the Early Redemption Amount payable in respect of such Secured Security; and (B) any amounts which have been paid to such Securityholder by the Issuer and the Collateral Provider in respect of the relevant Early Redemption Amount pursuant to such Secured Security (such difference being the **Outstanding Early Redemption Amount**) then such excess amount will not be distributed to such Securityholder but will be distributed to the Secured Parties ranking after the holders of Non-Waived Secured Securities in accordance with the Order of Priority; and
- (b) if the Collateral Liquidation Proceeds Share for a particular Secured Security is lower than the Outstanding Early Redemption Amount then:
 - (i) each Securityholder shall have a claim against the Issuer for an aggregate amount, in respect of each Secured Security, equal to, the difference between the Outstanding Early Redemption Amount and the Collateral Liquidation Proceeds Share for such Secured Security;
 - (ii) upon any payment being made by the Issuer and/or the Collateral Provider to Securityholders of amounts due and payable to Securityholders in respect of such Series of Secured Securities, the Secured Securities shall be deemed to have been redeemed or cancelled, as the case may be, in a portion which corresponds to the amount of such payment, on the date of such payment; and
 - (iii) until the Secured Liabilities have been paid in full, then:
 - (A) the Securityholders shall have a claim against the Issuer under the outstanding Secured Securities and (if applicable) the Collateral Provider under the

Secured Securities Guarantee in respect of any further amounts owed to them which remain unpaid; and

- (B) upon all Secured Liabilities having been paid in full, the relevant Series of Secured Securities shall be redeemed or cancelled, as the case may be, in full,

and the Calculation Agent shall notify (or procure the notification of) the Securityholders (with a copy to the Security Trustee) of such adjusted claims in accordance with the Conditions as soon as reasonably practicable following the determination of those claims by the Calculation Agent.

7.10 *Inability to realise Collateral Assets*

If the Disposal Agent is unable to: (i) sell the relevant Collateral Assets: (1) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted; (2) on the over-the-counter market; or (3) by way of transactions otherwise than on such exchanges or on the over-the-counter market, in each case, in accordance with standard market practice for assets similar in nature to the relevant Collateral Assets; or (ii) obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Secured Securities Condition 7.8, by the Realisation Period End Date (such Collateral Assets being **Non-Realised Collateral Assets**), then the security interests created pursuant to the relevant Security Agreement(s) shall be deemed to be automatically released without any further action and the Securityholders shall, pursuant to Secured Securities Condition 7.9 above, have a claim against the Issuer under the outstanding Secured Securities and (if applicable) the Collateral Provider under the Secured Securities Guarantee in respect of any further amounts owed to them which remain unpaid.

7.11 *Physical Delivery of Collateral Assets*

Where "*Physical Delivery of Collateral Assets*" is specified as "Applicable" in the applicable Final Terms, following the occurrence of the Physical Delivery Period Start Date, neither the Disposal Agent nor (following the receipt by the Security Trustee of a Collateral Enforcement Notice) the Security Trustee shall sell, or cause to be sold, the Collateral Assets (unless there is a Physical Delivery of Collateral Assets Disruption Event and other than to the extent necessary in order to pay any amounts payable to the Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with the Order of Priority, subject to the right of all (but not some only) of such holders to elect by notice in writing (which notice shall be deemed to be irrevocable) to pay their *pro rata* share of such amounts) in which event, the Security Trustee shall instead instruct the Disposal Agent to Deliver or cause to be Delivered to each relevant holder of Secured Securities that is eligible to hold such Collateral Assets their respective Collateral Assets Entitlement in the manner set out in this Secured Securities Condition 7.11.

Subject as provided below and following the occurrence of the Physical Delivery Period Start Date, the Disposal Agent or (as the case may be) the Security Trustee will either:

- (i) realise and liquidate (or procure the realisation and liquidation of) sufficient Collateral Assets in accordance with Secured Securities Condition 7.8, to ensure payment of any amounts payable to the Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with the Order of Priority; or
- (ii) upon transfer of sufficient funds by the relevant holders of Secured Securities, pay (or procure the payment of) any such amount payable to the Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with the Order of Priority.

Following the realisation and liquidation of sufficient Collateral Assets or the transfer of sufficient funds by all relevant Securityholders, in each case, to ensure payment of any amounts payable to the

Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with the Order of Priority, the Calculation Agent shall determine the Collateral Assets Entitlement in respect of each Secured Security and shall notify (or procure the notification of) such amounts to the Securityholders in accordance with the Conditions.

In the event that it is not possible to Deliver all or any portion of the relevant Collateral Assets due to any rounding described above, the Disposal Agent shall attempt to realise or liquidate (or shall procure such realisation or liquidation) of such residual Collateral Asset(s) or portion(s) thereof to the extent practicable (the proceeds of such realisation or liquidation being the **Residual Proceeds Amount**). In the event that the Disposal Agent is unable to sell (or procure the sale of) such residual Collateral Asset(s) or portion(s) thereof within a reasonable period (as determined by the Calculation Agent in its sole opinion), the Residual Proceeds Amount or such portion(s) thereof shall be deemed to be zero.

Following the determination of the Residual Proceeds Amount (if any), the Security Trustee will notify the Securityholders (in accordance with the Conditions) of the relevant Collateral Delivery Date and will: (i) distribute (or procure the distribution of) the Residual Proceeds Amount (if any) to each Securityholder on a *pro rata* and *pari passu* basis; and (ii) instruct the Disposal Agent to Deliver (or procure the Delivery of) the Collateral Assets Entitlement to the relevant Securityholders in accordance with the method of Delivery of Collateral Assets specified in the applicable Final Terms, *provided that*, if the sum of the market value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of the market value of such assets by the Collateral Agent on the Collateral Test Date immediately preceding the Physical Delivery Entitlement Calculation Date) and the *pro rata* share of the Residual Proceeds Amount (if any) for a particular Secured Security is:

- (A) greater than the Outstanding Early Redemption Amount then assets from the Collateral Assets Entitlement with a liquidation value that is at least equal to such excess amount will be liquidated and the proceeds thereof will then be distributed to the Secured Parties ranking after the holders of Non-Waived Secured Securities in accordance with the Order of Priority; or
- (B) lower than the Outstanding Early Redemption Amount, then:
 - (I) each Securityholder shall have a claim against the Issuer for an aggregate amount, in respect of each Secured Security, equal to, the difference between the Outstanding Early Redemption Amount and the sum of the applicable market value of the Collateral Assets contained in a Collateral Assets Entitlement and the relevant *pro rata* share of any Residual Proceeds Amount; and
 - (II) upon any Delivery and/or payment being made by the Issuer and/or the Collateral Provider to Securityholders of amounts due and deliverable or payable to Securityholders in respect of such Series of Secured Securities, the Secured Securities shall be deemed to have been redeemed or cancelled, as the case may be, in a portion which corresponds to the amount of such Delivery or payment, on the date of such Delivery or payment; and
 - (III) until the Secured Liabilities have been paid in full then:
 - (1) the Securityholders shall have a claim against the Issuer under the outstanding Secured Securities and (if applicable) the Collateral Provider under the Secured Securities Guarantee in respect of any further amounts owed to them which remain unpaid; and
 - (2) upon all Secured Liabilities having been paid in full, the relevant Series of Secured Securities shall be redeemed or cancelled, as the case may be, in full,

provided that no Collateral Assets shall be Delivered to any Securityholder unless and until such Securityholder has pre-funded and/or indemnified and/or secured the Issuer, the Security Trustee, the Disposal Agent and/or any third party that may Deliver the relevant Collateral Assets to their respective satisfaction in respect of that Securityholder's *pro rata* share in respect of any fees, costs, expenses and/or taxes incurred by the Issuer, Security Trustee, Disposal Agent or any third party referred to above in the Delivery or (if applicable) sale of any relevant Collateral Assets.

Where "Physical Delivery of Collateral Assets" is applicable and the relevant Collateral Assets have redeemed prior to the date on which the relevant Collateral Assets are to be delivered then, in lieu of such Delivery, each holder of Non-Waived Secured Securities shall be entitled to payment of a *pro rata* share of such redemption proceeds after payment of any amounts payable to the Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with the Order of Priority.

In the event that any relevant Securityholder is not eligible to receive Delivery of the relevant Collateral Assets (in the sole opinion of the Collateral Agent), then the Disposal Agent shall, in its sole discretion either realise or liquidate (or procure the realisation or liquidation of) an aggregate amount of Collateral Assets equal to the aggregate of each relevant ineligible Securityholder's Collateral Assets Entitlement and each relevant ineligible Securityholder's *pro rata* share of the proceeds of such realisation or liquidation shall be paid to such Securityholder(s) in the manner set out in Secured Securities Conditions 7.8 and 7.9, and, no further amounts shall be due to such Securityholder(s) from the Issuer or the Collateral Provider.

If the relevant Series of Secured Securities are Triparty Secured Securities, the Collateral Provider shall notify Euroclear as soon as reasonably practicable after the occurrence of a Physical Delivery Period Start Date and in accordance with the terms of the applicable Euroclear Documentation that a "default" (or such analogous term as may be required by the terms of the applicable Euroclear Documentation) has occurred in respect of itself for the purposes of the applicable Euroclear Documentation in respect of such Series of Triparty Secured Securities.

For the avoidance of doubt, in the event of any inconsistency or discrepancy between the provisions of this Secured Securities Condition 7.11, the provisions of W&C Securities Condition 3.3 (*Physical Settlement*) and the provisions of Annex 8 (*Additional Terms and Conditions for Physical Delivery N&C Securities*), the provisions of this Secured Securities Condition 7.11 shall prevail.

7.12 ***Physical Delivery of Collateral Assets Disruption Event***

Where "Physical Delivery of Collateral Assets" is specified as "Applicable" in the applicable Final Terms:

(a) *Postponement following a Physical Delivery of Collateral Assets Disruption Event*

If, in the sole opinion of the Disposal Agent, Delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement using the method of Delivery specified in the applicable Final Terms, or such other commercially reasonable manner as the Disposal Agent has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and which is continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event continuing, *provided that* the Disposal Agent may elect to Deliver the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Disposal Agent deems appropriate in connection with Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement.

For the avoidance of doubt, where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Collateral Assets forming part of the Collateral Assets Entitlement due to be delivered to a Securityholder, the Collateral Delivery Date will not be postponed insofar as it relates to those Collateral Assets forming part of the Collateral Assets Entitlement which are able to be Delivered.

(b) *Undeliverable Collateral Assets*

If a Physical Delivery of Collateral Assets Disruption Event occurs and is continuing for a period of more than 20 Collateral Business Days (or such other period specified in the applicable Final Terms), then in lieu of physical settlement and notwithstanding any other provision hereof, the Disposal Agent shall: (i) sell or realise the assets they are unable to Deliver (the **Undeliverable Collateral Assets**) and deliver (or procure the delivery of) the proceeds thereof to Securityholders in the manner set out in Secured Securities Conditions 7.8 and 7.9; or (ii) Deliver the relevant Undeliverable Collateral Assets if Delivery subsequently becomes possible.

(c) *First available price fallback*

If the Disposal Agent is unable either to: (i)(1) sell the relevant Collateral Assets: (aa) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted; (bb) on the over-the-counter market; or (cc) by way of transactions otherwise than on such exchanges or on the over-the-counter market, in each case, in accordance with standard market practice for assets similar in nature to the relevant Collateral Assets; or (2) obtain the valuation or three quotations required for the sale of the Collateral Assets, in each case pursuant to Secured Securities Condition 7.8; or (ii) Deliver such Collateral Assets due to the continuation of a Physical Delivery of Collateral Assets Disruption Event by the Physical Delivery Period End Date, the Disposal Agent shall be entitled to accept the first available price for such Collateral Assets.

(d) *Physical Delivery of Collateral Assets Disruption Event Notice*

The Security Trustee, shall give notice as soon as practicable to the Securityholders in accordance with the Conditions that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Securityholder shall be entitled to any payment in respect of any relevant Secured Securities in the event of any delay in the Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event and no liability in respect thereof shall attach to the Issuer, the Collateral Provider, the Disposal Agent or the Security Trustee.

For the avoidance of doubt, in the event of any inconsistency or discrepancy between the provisions of this Secured Securities Condition 7.12, the provisions of W&C Securities Condition 3.3.5 (*Settlement Disruption*) and the provisions of Annex 8 (*Additional Terms and Conditions for Physical Delivery N&C Securities*), the provisions of this Secured Securities Condition 7.12 shall prevail.

7.13 *Liability of the Disposal Agent and the Security Trustee*

Neither the Disposal Agent nor the Security Trustee will, in the absence of their respective gross negligence, fraud or wilful misconduct, have any liability as to the consequence of any enforcement or realisation action or determination in relation thereto and neither will have regard to the effect of such action on individual Securityholders or any other Secured Party.

8. Programme Parties

8.1 *Replacement of Programme Parties*

Subject to Secured Securities Condition 8.2, each of the Collateral Agency Agreement, any Collateral Monitoring Agency Agreement, the Collateral Valuation Agency Agreement, the Collateral Custodian Agreement, the Securities Valuation Agency Agreement and the Disposal Agency Agreement and each relevant Security Agreement contains, or will contain, provisions for the termination of such agreement and, as the case may be, the removal or replacement of the role of the relevant Collateral Arrangement Party appointed thereunder. Any such termination, removal and/or replacement will be effected in accordance with the provisions of such agreements and these Secured Securities Conditions and may be effected without the consent of Securityholders. No such termination or removal shall be effective until a replacement entity has been appointed. The Issuer shall be required to give notice to Securityholders of any such termination, removal and/or replacement in accordance with the Conditions.

The replacement of the Collateral Custodian may only be effected when certain conditions relating to the substitute Collateral Custodian are fulfilled. Such conditions include, but are not limited to a requirement that: (i) the substitute collateral custodian is incorporated in an OECD member country; (ii) the substitute collateral custodian is a fully licensed credit institution in the jurisdiction of the outgoing Collateral Custodian; (iii) in the reasonable opinion of the Issuer and Collateral Provider, the substitute collateral custodian is able to act as Collateral Custodian and fulfil the obligations and duties expressed to be binding on it pursuant to the terms of the Collateral Custodian Agreement; and (iv) the substitute collateral custodian is a custodial entity of similar repute to the outgoing Collateral Custodian (or any successor thereto appointed in accordance with the terms of the Conditions and the Collateral Custodian Agreement) and is in good standing.

8.2 *Termination of Collateral Custodian and back-up margin mechanics*

The following provisions shall apply in the event that the Collateral Custodian is Euroclear.

The applicable Euroclear Documentation contains provisions for the termination of the services provided by Euroclear as Collateral Custodian and any such termination will be effected in accordance with the provisions of such Euroclear Documentation. If the services of Euroclear as Collateral Custodian have been terminated in accordance with such Euroclear Documentation (a **Euroclear Termination Event**), the Issuer shall notify the Security Trustee the Securityholders and each other Secured Party in accordance with the Conditions as soon as reasonably practicable (such notice, a **Euroclear Termination Event Notice**).

If the Issuer is unable, after using reasonable efforts, to appoint a suitable replacement custodian (the **Replacement Custodian**) on or prior to the Euroclear Longstop Date, a **Euroclear Termination Date** shall be deemed to have occurred. Upon the occurrence of a Euroclear Termination Date:

- (a) on any date prior to the Safekeeping End Date, the Issuer (in its sole discretion), or the Calculation Agent acting on its behalf, may; or
- (b) if the Safekeeping End Date has occurred, the Issuer, or the Calculation Agent acting on its behalf, shall,

give not less than 10 nor more than 30 Collateral Business Days' notice (which notice shall be irrevocable) (such notice, a **Euroclear Termination Event Redemption Notice**) to the Security Trustee, the Disposal Agent, the Calculation Agent, the Collateral Provider and the holders of Secured Securities of the relevant Series that a Euroclear Termination Date has occurred and that the Issuer shall redeem or cancel, as the case may be, all (but not some only) of the Secured Securities of the

relevant Series in accordance with, in respect of Securities other than Reference Bond-Linked Securities where "Substitution of Collateral Assets" is specified as "Applicable" in the applicable Final Terms, Secured Securities Conditions 7.2 or, in respect of Reference Bond-Linked Securities where "Substitution of Collateral Assets" is specified as "Applicable" in the applicable Final Terms, Secured Securities Condition 9.2. Following expiry of such notice, Issuer may redeem or cancel, as the case may be, such Secured Securities in accordance with, in respect of Securities other than Reference Bond-Linked Securities where "Substitution of Collateral Assets" is specified as "Applicable" in the applicable Final Terms, Secured Securities Conditions 7.2 or, in respect of Reference Bond-Linked Securities where "Substitution of Collateral Assets" is specified as "Applicable" in the applicable Final Terms, Secured Securities Condition 9.2.

However, if following termination of the services of Euroclear as the Collateral Custodian, the Collateral Provider has appointed a Replacement Custodian, the Collateral Provider will promptly instruct Euroclear to transfer all of the Collateral Assets held in the relevant Collateral Accounts to a new account that shall be opened in the name, or for the account, of the Collateral Provider with the Replacement Custodian. In such circumstances the Issuer and the Calculation Agent may determine such amendments to the terms of the Secured Securities and the Transaction Documents that it considers are necessary or appropriate in order to account for the effect of the termination of the services of the Euroclear as the Collateral Custodian, and the Security Trustee will be required to concur in making any such amendments without the consent of the holders of such Secured Securities subject to receipt of a certificate from the Issuer confirming that the amendments are necessary or appropriate in order to account for the effect of the termination of the services of the Euroclear as the Collateral Custodian, provided that the Security Trustee will not be obliged to concur if in the opinion of the Security Trustee doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Security Trustee in the Transaction Documents (including, for the avoidance of doubt, any supplemental trust deed) in any way.

The replacement of the Collateral Custodian may only be effected when certain Secured Securities conditions relating to the Replacement Custodian are fulfilled. Such conditions include, but are not limited to a requirement that: (i) the Replacement Custodian is incorporated in an OECD member country; (ii) the Replacement Custodian is a fully licensed credit institution in the jurisdiction of the outgoing Collateral Custodian; (iii) in the reasonable opinion of the Issuer and the Collateral Provider, the Replacement Custodian is able to act as collateral custodian and fulfil the obligations and duties that would ordinarily expressed to be binding on the Collateral Custodian pursuant to the terms of the Collateral Custody Agreement; and (iv) the Replacement Custodian is a custodial entity of similar repute to the outgoing Collateral Custodian (or any successor thereto appointed in accordance with the terms of the Conditions and the applicable Euroclear Documentation) and is in good standing.

8.3 ***Information Sharing and Duty to Cooperate***

Upon receipt of any reasonable request for information and/or other assistance from: (a) any rating agency in connection with its ratings obligations in respect of the Secured Securities; or (b) the Issuer, the Collateral Provider, any applicable Collateral Arrangement Party or any Hedging Entity in connection with the performance of their respective obligations in connection with the relevant Series of Secured Securities, any Collateral Arrangements and/or any applicable Transaction Document, the relevant Collateral Arrangement Party shall provide such information and/or assistance to the requesting party, *provided that* such relevant Collateral Arrangement Party shall not be obliged to do anything in accordance with the foregoing that would, in its opinion, be materially detrimental to its interests or contrary to any laws, regulations, obligations (including, without limitation, the terms of any relevant Euroclear Documentation applicable to Euroclear), guidelines, orders, policies, any circular letters issued by any relevant supervisory authority or, in each case, the official interpretation thereof, which is/are, in each case applicable to it, the Issuer or any other Collateral Arrangement Party.

9. Reference Bond-Linked Secured Securities

If "Reference Bond-Linked Securities" is specified as "Applicable" in the applicable Final Terms, the provisions of this Secured Securities Condition 9 shall apply in relation to the relevant Series. In the case of any inconsistency between this Secured Securities Condition 9 and Secured Securities Conditions 1 to 8, this Secured Securities Condition 9 shall prevail.

9.1 *Reference Entity Event*

(a) *Occurrence of a Reference Entity Event in respect of Reference Bond-Linked Securities*

(i) If:

- (A) a Reference Entity Event occurs in respect of a Series of Reference Bond-Linked Securities; and
- (B) subject to sub-paragraph (iv) below, the Issuer delivers, or procures the delivery of, a Reference Entity Event Notice to the Securityholders in accordance with the Conditions,

then the Issuer shall redeem or cancel, as the case may be, all (but not some only) of the relevant Secured Securities by paying the relevant Early Redemption Amount to the Securityholders on the Early Redemption Date.

- (ii) If the Calculation Agent determines that a Reference Entity Event has occurred, the Calculation Agent shall notify the Issuer of such occurrence as soon as reasonably practicable. The Calculation Agent shall have no responsibility for: (i) conducting or failing to conduct any investigation into the business, financial condition, prospects, creditworthiness, status and/or affairs of the Reference Entity or the terms of the Reference Obligation or any Reference Entity Obligation; or (ii) monitoring any such Reference Entity and whether a Reference Entity Event has occurred during the term of the Securities, and the Calculation Agent shall only be required to notify the Issuer upon the Calculation Agent having actual knowledge, within the relevant team discharging such function, of the occurrence of such event. For purposes of this provision, as soon as is "reasonably practicable" shall take into account the need for the Calculation Agent to appropriately investigate and form a view as to whether such event has occurred and to take advice from such professional advisers as it may see fit in assisting it with such determination. *Provided that* the Calculation Agent acted reasonably in making the relevant determination, neither the Calculation Agent nor the Issuer shall have any liability if after the Calculation Agent having notified the Issuer of the occurrence of a Reference Entity Event it subsequently transpires that such event had not occurred, and such subsequent finding shall not reverse, stop or otherwise invalidate the notification from the Calculation Agent to the Issuer and any Reference Entity Event Notice given by the Issuer.
- (iii) Subject to paragraph (iv) below, upon receipt of a notice from the Calculation Agent under paragraph (ii) above, the Issuer may deliver or procure the delivery of, a Reference Entity Event Notice to the Security Trustee, the Disposal Agent, the Collateral Agent, the Collateral Valuation Agent, the Collateral Provider and the Securityholders in accordance with the Conditions.
- (iv) The Issuer shall not be permitted to deliver, or to procure delivery of, a Reference Entity Event Notice to the relevant Securityholders if:

- (A) the Maturity Date or the Expiration Date and any corresponding Exercise Date, as the case may be, of the Securities has been extended in accordance with Secured Securities Condition 9.1(b) below; and
- (B) on or prior to the Observation Extension Date, the Reference Obligation in respect of the Secured Securities matures and all principal, interest and any other amounts due under it are paid in accordance with the terms and conditions of the Reference Obligation as at the date immediately preceding the occurrence of the relevant Reference Entity Event.

(b) Maturity Date Extension

If, in respect of the Maturity Date or the Expiration Date and any corresponding Exercise Date, as the case may be:

- (i) the Calculation Agent determines that a Reference Entity Event may have occurred during the period from, and including, the Observation Start Date to, and including, the Observation End Date, but that it is not reasonably possible to determine with certainty at that time that such Reference Entity Event has occurred; or
- (ii) a Reference Entity Potential Failure to Pay has occurred and is continuing with respect to a Reference Obligation or, if "Reference Obligation Only" is specified as not applicable in the Final Terms, any Reference Entity Obligation (as applicable) but has not yet resulted in a Reference Entity Failure to Pay,

the Maturity Date or the Expiration Date and any corresponding Exercise Date, as the case may be, of the relevant Secured Securities shall be extended to the second Business Day after the Observation Extension Date (the **Extended Maturity Date**) and the Calculation Agent shall notify the Issuer and the Securityholders of the Extended Maturity Date in accordance with the Conditions. No additional interest or any other amount shall be payable in respect of such Securities as a result of an extension under this Secured Securities Condition 9.1(b).

9.2 ***Substitution of Collateral Assets in respect of Reference Bond-Linked Securities***

- (a) If "Collateral Substitution" is specified as "Applicable" in the applicable Final Terms in respect of a Series of Reference Bond-Linked Securities and *provided that* no Mandatory Redemption Event or Event of Default has occurred, the Collateral Provider (or the Collateral Agent on its behalf) may, on any Collateral Business Day (*provided that* the Collateral Provider (or the Collateral Agent on its behalf) has given the relevant Collateral Custodian, the Collateral Valuation Agent and any Collateral Monitoring Agent at least 2 Collateral Business Days' prior notification of any such adjustment or such shorter notice period as may be mutually agreed), withdraw and replace any Collateral Asset(s) with other assets that, where "Collateral Test" is specified as:

- (i) "Not Applicable" in the relevant Final Terms, are Eligible Collateral Assets; and
- (ii) "Applicable" in the applicable Final Terms, comply with the Collateral Test (or, in the event that the Collateral Rules are not satisfied on the relevant Collateral Business Day, would maintain or improve the degree of contravention of the Collateral Rules) on such Collateral Business Day, which shall be deemed to be a Collateral Test Date,

provided further that immediately following such substitution, the aggregate amount of the Collateral Asset(s) in the Collateral Pool shall be equal to or greater than the aggregate amount of the Collateral Asset(s) in the Collateral Pool immediately prior to such substitution. Following a written request from any Securityholder, the Issuer shall, within 3 Collateral Business Days of that request provide

such Securityholder with information pertaining to the composition of the Collateral Pool and the adjustments most recently made to the Collateral Pool (including, *inter alia*, the type and quantity of any Collateral Assets substituted in and/or removed).

- (b) If "Substitution of Collateral Assets" is specified as "Applicable" in the applicable Final Terms in respect of a Series of Secured Securities and *provided that* no Mandatory Redemption Event or Event of Default has occurred, the provisions of this Secured Securities Condition 9.2(b) shall apply.

(i) *Substitution of a Collateral Asset upon the occurrence of a Collateral Substitution Event*

If on or prior to the Maturity Date or Settlement Date, as the case may be, a Collateral Substitution Event occurs with regard to any Collateral Asset(s), then the Issuer and/or Collateral Provider (or the Collateral Agent on their behalf) will be entitled (but will not be obliged) to either:

- (A) substitute the affected Collateral Asset(s) with Successor Collateral Assets, *provided that* the Collateral Provider (or the Collateral Agent on its behalf) shall:

- (I) replace the affected Collateral Asset(s) with a number of Successor Collateral Assets that has a value that is at least equal to amount that would be derived from an order by the Collateral Provider (or the Collateral Agent on its behalf) to sell such affected Collateral Asset(s); and

- (II) determine the effective date of such substitution,

provided that immediately following such substitution, no Collateral Substitution Event is continuing in respect of the relevant Series; or

- (B) make such modifications and adjustments to any terms of the Secured Securities, Secured Securities Guarantee and Collateral Arrangements, as may be required in order to preserve the economic equivalent of the obligations of the Issuer and Collateral Provider under the Secured Securities, Secured Securities Guarantee and Collateral Arrangements (including, without limitation, any corresponding deemed substitution of any relevant Reference Obligations), *provided that* the Securityholders shall be informed without undue delay of the relevant modifications and/or adjustments in accordance with the Conditions but consent of the Securityholders is not required.

For the avoidance of doubt, any Collateral Asset(s) substituted out of a Collateral Pool and replaced with Successor Collateral Assets shall no longer form part of such Collateral Pool.

(ii) *Early Redemption following a Mandatory Redemption Event*

Upon the occurrence of a Collateral Substitution Event that is a Mandatory Redemption Event, the provisions of Secured Securities Condition 9.2 shall apply prior to Secured Securities Condition 7.

(iii) *Modifications, Adjustments and Waivers*

- (A) The Security Trustee shall (at the direction and expense of the Issuer) agree without the need for further consent of the Secured Parties, upon the occurrence of a Collateral Substitution Event with regard to any Collateral Asset on or prior to the Maturity Date or Settlement Date, as the case may be, and pursuant to Secured Securities Condition 9.2 to:

- (I) in case of substitution of an affected Collateral Asset with any Successor Collateral Asset, any modifications and adjustments to any terms of the Secured Securities (including, without limitation, any deemed substitution of any relevant Reference Obligation(s)); or
- (II) in the absence of any such substitution, any modifications, adjustments and/or waivers to any terms of the Secured Securities,

in each case, as may be required in order to preserve the economic equivalent of the obligations of the Issuer and Collateral Provider under the Secured Securities, Secured Securities Guarantee and Collateral Arrangements (as certified in writing by two authorised signatories of the Issuer to the Security Trustee and upon which certificate the Security Trustee may rely absolutely without enquiry or liability), *provided that* the Securityholders shall be informed without undue delay of the relevant modifications, adjustments and/or waivers but consent of the Securityholders is not required, *provided that* the Security Trustee shall not be obliged so to concur if in the opinion of the Security Trustee (acting reasonably and without due delay) doing so would impose materially more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Security Trustee herein or in any of the Transaction Documents in any way.

- (B) Any such modification, adjustment and/or waiver shall be binding on the Secured Parties and such modification and/or adjustment shall be notified to the Secured Parties as soon as practicable thereafter.

1. Consequences of Disrupted Days

If, in respect of any Custom Index, the Calculation Agent determines that any Valuation Date or Averaging Date is a Disrupted Day, then:

1.1 Single Custom Index Valuation Dates:

In the case of Custom Index Linked Securities relating to a single Custom Index, the Valuation Date shall be:

- (a) if "Preceding Convention" is specified in the applicable Final Terms, the immediately preceding Scheduled Custom Index Business Day that is not a Disrupted Day relating to such

Custom Index, provided that, such day shall not be earlier than the Disruption Cut-Off Date, notwithstanding that such day may be a Disrupted Day in respect of such Custom Index;

- (b) if "Modified Following Convention" is specified in the applicable Final Terms, the first succeeding Scheduled Custom Index Business Day or, if such Scheduled Custom Index Business Day falls in the next calendar month, the immediately preceding Scheduled Custom Index Business Day, provided that, such day shall not be earlier than the relevant Disruption Cut-Off Date and shall not be later than the relevant Disruption Cut-Off Date; or
- (c) if "Following Convention" is specified in the applicable Final Terms, the first succeeding Scheduled Custom Index Business Day that is not a Disrupted Day relating to such Custom Index, provided that, such day shall not be later than the Disruption Cut-Off Date, notwithstanding that such day may be a Disrupted Day in respect of such Custom Index.

If a Disrupted Day is continuing on the Disruption Cut-Off Date, the Calculation Agent shall determine the level of that Custom Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with the formula for and method of calculating that Custom Index last in effect prior to the occurrence of the first Disrupted Day using the Relevant Value as of the Valuation Time on the Disruption Cut-Off Date of each relevant Component Asset (or, if an event giving rise to a Disrupted Day has occurred or is continuing in respect of the relevant Component Asset on the Disruption Cut-Off Date, its good faith estimate of the value for the relevant Component Asset as of the Valuation Time on the Disruption Cut-Off Date).

1.2 Custom Index Basket/Mixed Basket Valuation Dates – Individual Disruption

In the case of Custom Index Linked Securities relating to a Custom Index Basket or a Mixed Basket where "Scheduled Custom Index Business Day (Per Custom Index Basis)" is specified as applicable in the applicable Final Terms, the Valuation Date for each Custom Index not affected by the occurrence of a Disrupted Day shall be the scheduled Valuation Date and the Valuation Date for each Custom Index affected by the occurrence of a Disrupted Day (for the purposes of this Custom Index Linked Condition 1.2, each an **Affected Custom Index**) shall be:

- (a) if "Preceding Convention" is specified in the applicable Final Terms, the immediately preceding Scheduled Custom Index Business Day that is not a Disrupted Day relating to such Custom Index, provided that, such day shall not be earlier than the Disruption Cut-Off Date, notwithstanding that such day may be a Disrupted Day in respect of such Custom Index;
- (b) if "Modified Following Convention" is specified in the applicable Final Terms, the first succeeding Scheduled Custom Index Business Day or, if such Scheduled Custom Index Business Day falls in the next calendar month, the immediately preceding Scheduled Custom Index Business Day, provided that, such day shall not be earlier than the relevant Disruption Cut-Off Date and shall not be later than the relevant Disruption Cut-Off Date; or
- (c) if "Following Convention" is specified in the applicable Final Terms, the first succeeding Scheduled Custom Index Business Day that is not a Disrupted Day relating to such Custom Index, provided that, such day shall not be later than the Disruption Cut-Off Date, notwithstanding that such day may be a Disrupted Day in respect of such Custom Index.

If a Disrupted Day is continuing on the Disruption Cut-Off Date, the Calculation Agent shall determine the level of the Affected Custom Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with the formula for and method of calculating the Affected Custom Index last in effect prior to the occurrence of the first Disrupted Day using the Relevant Value as of the Valuation Time on the Disruption Cut-Off Date of each relevant Component Asset (or, if an event giving rise to a Disrupted Day has occurred or is continuing in respect of the relevant Component Asset on the

Disruption Cut-Off Date, its good faith estimate of the value for the relevant Component Asset as of the Valuation Time on the Disruption Cut-Off Date).

1.3 Custom Index Basket/Mixed Basket Valuations Dates – Common Disruption

In the case of Custom Index Linked Securities relating to a Custom Index Basket or a Mixed Basket where "Scheduled Custom Index Business Day (All Custom Indices Basis)" is specified as applicable in the applicable Final Terms, if the Valuation Date for any Custom Index in the Custom Index Basket is affected by the occurrence of a Disrupted Day, the Valuation Date for each Custom Index in the Custom Index Basket shall be:

- (a) if "Preceding Convention" is specified in the applicable Final Terms, the immediately preceding Scheduled Custom Index Business Day that is not a Disrupted Day for any Custom Index in the Custom Index Basket, provided that, such day shall not be earlier than the Disruption Cut-Off Date, notwithstanding that such day may be a Disrupted Day in respect of a Custom Index;
- (b) if "Modified Following Convention" is specified in the applicable Final Terms, the first succeeding Scheduled Custom Index Business Day or, if such Scheduled Custom Index Business Day falls in the next calendar month, the immediately preceding Scheduled Custom Index Business Day, provided that, such day shall not be earlier than the relevant Disruption Cut-Off Date and shall not be later than the relevant Disruption Cut-Off Date; or
- (c) if "Following Convention" is specified in the applicable Final Terms, the first succeeding Scheduled Custom Index Business Day that is not a Disrupted Day for any Custom Index in the Custom Index Basket, provided that, such day shall not be later than the Disruption Cut-Off Date, notwithstanding that such day may be a Disrupted Day in respect of a Custom Index.

If a Disrupted Day is continuing on the Disruption Cut-Off Date, the Calculation Agent shall determine (1) the level of each Custom Index which is not affected by the Disrupted Day in accordance with the method provided for in these Custom Index Linked Conditions and (2) in respect of each Custom Index in the Custom Index Basket affected by the Disrupted Day (an **Affected Custom Index**), the level of the Affected Custom Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with the formula for and method of calculating the Affected Custom Index last in effect prior to the occurrence of the first Disrupted Day using the Relevant Value as of the Valuation Time on the Disruption Cut-Off Date of each relevant Component Asset (or, if an event giving rise to a Disrupted Day has occurred or is continuing in respect of the relevant Component Asset on the Disruption Cut-Off Date, its good faith estimate of the value for the relevant Component Asset as of the Valuation Time on the Disruption Cut-Off Date).

1.4 Single Custom Index/Custom Index Basket/Mixed Basket Averaging Dates:

Where the Securities relate to a single Custom Index or are related to a Custom Index Basket or a Mixed Basket and "Scheduled Custom Index Business Day (Single Custom Index Basis)" or "Scheduled Custom Index Business Day (Per Custom Index Basis)" is specified as applicable in the applicable Final Terms and the Calculation Agent determines that any Averaging Date is a Disrupted Day in respect of any Custom Index, and in the relevant Final Terms the consequence specified is:

- (a) Omission,

then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant level or value provided that, if through the operation of this provision no Averaging Date would occur, then the provisions of Custom Index Linked Condition 1.1 (*Consequences of Disrupted Days – Single Custom Index Valuation Dates*;) or Custom Index Linked Condition 1.2 (*Consequences of Disrupted*

Days – *Custom Index Basket/Mixed Basket Valuation Dates – Individual Disruption*) above, as applicable, will apply for purposes of determining the relevant level or value on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day;

(b) Postponement,

then the provisions of Custom Index Linked Condition 1.1 (*Consequences of Disrupted Days – Single Custom Index Valuation Dates*;) or Custom Index Linked Condition 1.2 (*Consequences of Disrupted Days – Custom Index Basket/Mixed Basket Valuation Dates – Individual Disruption*)) above will apply for the purposes of determining the relevant level or value on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or

(c) Modified Postponement,

then the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Disruption Cut-Off Date, then:

- (i) that Disruption Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Disruption Cut-Off Date is already or is deemed to be an Averaging Date), and
- (ii) the Calculation Agent shall determine the level or value of the Custom Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with Custom Index Linked Condition 1.1 (*Consequences of Disrupted Days – Single Custom Index Valuation Dates*;) or Custom Index Linked Condition 1.2 (*Consequences of Disrupted Days – Custom Index Basket/Mixed Basket Valuation Dates – Individual Disruption*) above as applicable and such determination by the Calculation Agent shall be deemed to be the relevant level or value for such Custom Index in respect of the relevant Averaging Date.

If the Calculation Agent determines that any Averaging Date in respect of Custom Indices to which this Custom Index Linked Condition 1.3 relates is a Disrupted Day and, if in the Final Terms no consequence is specified, then "Modified Postponement" will apply.

1.5 Custom Index Basket/Mixed Basket Averaging Dates:

Where the Securities relate to a Custom Index Basket or a Mixed Basket and "Scheduled Custom Index Business Day (All Custom Indices Basis)" is specified as applicable in the applicable Final Terms and the Calculation Agent determines that any Averaging Date is a Disrupted Day, and in the relevant Final Terms the consequence specified is:

(a) Omission,

then the Averaging Date will be deemed not to be an Averaging Date, provided that, if through the operation of this provision there would be no Averaging Date, then

- (i) the sole Averaging Date for each Custom Index which the Calculation Agent determines is not affected by the occurrence of a Disrupted Day shall be the originally designated final Averaging Date (the **Scheduled Final Averaging Date**); and
- (ii) the sole Averaging Date for each Custom Index which the Calculation Agent determines is affected by the occurrence of a Disrupted Day (each an **Affected Custom Index**) shall be the first Scheduled Custom Index Business Day following the Scheduled Final Averaging Date that is not a Disrupted Day relating to the Affected Custom Index unless each of the

Scheduled Custom Index Business Days immediately following the Scheduled Final Averaging Date which (but for the occurrence of the Disrupted Day) would have been the Averaging Date, until and including the Disruption Cut-Off Date, is a Disrupted Day relating to the Affected Custom Index. In that case:

- (A) that Disruption Cut-Off Date shall be deemed to be the sole Averaging Date in respect of the Affected Custom Index, notwithstanding the fact that such day is a Disrupted Day; and
- (B) the Calculation Agent shall determine the relevant level or value of the Affected Custom Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with Custom Index Linked Condition 1.2 (Consequences of Disrupted Days – Custom Index Basket/Mixed Basket Valuation Dates – Individual Disruption) above and such determination by the Calculation Agent shall be deemed to be the relevant level or value for such Custom Index in respect of the sole Averaging Date;

(b) Postponement,

then the Averaging Date for each Custom Index shall be the first succeeding Scheduled Custom Index Business Day following the originally designated Averaging Date (the **Scheduled Averaging Date**) that is not a Disrupted Day in relation to any Affected Custom Index (irrespective of whether, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date) unless the Calculation Agent determines that each of the consecutive Scheduled Custom Index Business Days, until and including the Disruption Cut-Off Date, is a Disrupted Day in respect of any Custom Index (for the purposes of this Custom Index Linked Condition 1.4(b), each an **Affected Custom Index**). In that case:

- (A) that Disruption Cut-Off Date shall be deemed to be such Averaging Date in respect of each Custom Index (irrespective of whether the Disruption Cut-Off Date is already or is deemed to be an Averaging Date); and
- (B) the Calculation Agent shall determine the relevant level or value of each Custom Index as of the Valuation Time on the Disruption Cut-Off Date which in the case of an Affected Custom Index will be determined in accordance with Custom Index Linked Condition 1.2 (Consequences of Disrupted Days – Custom Index Basket/Mixed Basket Valuation Dates – Individual Disruption) above and such determination by the Calculation Agent shall be deemed to be the relevant level or value for such Custom Index in respect of the relevant Averaging Date; or

(c) Modified Postponement, then

- (i) the Averaging Date for each Custom Index which the Calculation Agent determines is not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the **Scheduled Averaging Date**); and
- (ii) the Averaging Date for each Custom Index which the Calculation Agent determines is affected by the occurrence of a Disrupted Day (each an **Affected Custom Index**) shall be the first succeeding Valid Date in relation to the Affected Custom Index. If the first succeeding Valid Date in respect of the Affected Custom Index has not occurred as of the Valuation Time on the Disruption Cut-Off Date, then:
 - (A) that Disruption Cut-Off Date shall be deemed to be the Averaging Date in respect of the Affected Custom Index (irrespective of whether the Disruption Cut-Off Date is already or is deemed to be an Averaging Date); and

- (B) the Calculation Agent shall determine the relevant level or value of the Affected Custom Index as of the Valuation Time on the Disruption Cut-Off Date in accordance with Custom Index Linked Condition 1.2 (Consequences of Disrupted Days – Custom Index Basket/Mixed Basket Valuation Dates – Individual Disruption) above and such determination by the Calculation Agent shall be deemed to be the relevant level or value in respect of the relevant Averaging Date.

If the Calculation Agent determines that any Averaging Date is a Disrupted Day and, if in the Final Terms no consequence is specified, then "Modified Postponement" will apply.

1.6 Notice

The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, of the occurrence of a Disrupted Day on any day on which any Custom Index valuation or observation is scheduled to occur, provided that any failure to give, or non-receipt of such notice will not affect the validity of such Disrupted Day.

2. Adjustments to a Custom Index

(a) *Successor Custom Index*

If a relevant Custom Index is (i) not calculated and announced by the relevant Custom Index Administrator but is calculated and announced by a successor administrator acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Custom Index, then in each case that index (the **Successor Custom Index**) will be deemed to be the relevant Custom Index.

The Calculation Agent may make such adjustment(s) that it determines appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Securities to account for that Successor Custom Index.

(b) *Custom Index Adjustment Event*

If (i) on or prior to any date on which any valuation or observation of a Custom Index is scheduled to occur, the relevant Custom Index Administrator makes or announces that it will make a material change in the formula for or the method of calculating a relevant Custom Index or in any other way materially modifies that Custom Index (other than a modification prescribed in that formula or method to maintain that Custom Index in the event of changes in constituent components, capitalisation, contracts or commodities and other routine events) (a **Custom Index Modification**) or permanently cancels the relevant Custom Index and no Successor Custom Index exists (a **Custom Index Cancellation**), (ii) on any relevant date on which any valuation or observation of a Custom Index is scheduled to occur, a Custom Index Disruption occurs or (iii) at any time a Custom Index Restriction Event (each of a Custom Index Modification, Custom Index Cancellation, a Custom Index Disruption and a Custom Index Restriction Event, a **Custom Index Adjustment Event**) occurs, then the Issuer may take the action described in (A), (B), (C), (D) or (E) below as it determines appropriate:

- (A) require the Calculation Agent to determine any relevant adjustment to be made to the Conditions to account for the relevant Custom Index Adjustment Event, which may include, without limitation, (i) delaying any Valuation Date, Averaging Date or any other date for valuation or observation of the Custom Index until the relevant Custom Index Adjustment Event no longer exists, or (ii) in the case of a Custom Index Basket or Mixed Basket, removing the affected Custom Index from the Custom Index Basket or Mixed Basket and

making such adjustment to the Securities as it determines appropriate (which may include, without limitation, adjusting any value or weighting of the remaining Custom Indices) in order to account for the level or value of the affected Custom Index at the time of its removal as well as the cost to any Hedging Entity of adjusting any associated hedging arrangements (this may mean that the economic benefit of the Securities for the Holder is reduced or that the removal of the Custom Index has a material adverse effect on the Securities);

- (B) require the Calculation Agent to replace any Custom Index that is affected by a Custom Index Adjustment Event with one or more successor indices (in each case any such replacement being a Replacement Custom Index) (and as appropriate replace the Custom Index Administrator with the index administrator in respect of the Replacement Custom Index and make such adjustments to any other Conditions as the Calculation Agent considers relevant to account for such replacement in accordance with Custom Index Linked Condition 2(c) below), whereupon the Replacement Custom Index(ices) will be deemed to be the successor(s) to the relevant Custom Index and will take effect from the date of such replacement, provided however that the selection of a Replacement Custom Index will be made by the Calculation Agent in accordance with the Custom Index Replacement Criteria. Thereafter, all references to the relevant Custom Index or Custom Index Administrator (as applicable) shall be deemed to be references to such relevant replacements;
- (C) other than following the occurrence of a Custom Index Restriction Event, require the Calculation Agent to determine the relevant level or value for the Custom Index using: (i) unless the Custom Index Adjustment Event is a Custom Index Component Disruption Event (Rate), in lieu of a published level or value for the relevant Custom Index, the level or value for that Custom Index as at the relevant time as determined by the Calculation Agent in accordance with the formula for and method of calculating the relevant Custom Index last in effect prior to the change, failure or cancellation, but using only those components that comprised that Custom Index immediately prior to the relevant Custom Index Adjustment Event or (ii) if the Custom Index Adjustment Event is a Custom Index Component Disruption Event (Rate), in lieu of a published level or value for the relevant Custom Index, the level or value for that Custom Index as at the relevant time as determined by the Calculation Agent in accordance with the formula for and method of calculating the relevant Custom Index last in effect prior to the change, failure or cancellation, but using the Relevant Value of each component comprised in the Custom Index. Notwithstanding the foregoing, the Issuer will not require the Calculation Agent to calculate the relevant level for a Custom Index in accordance with this paragraph (C) on more than one consecutive Valuation Date, Averaging Date or other relevant date for valuation or observation of the Custom Index. If, following the occurrence of a Custom Index Adjustment Event, the Calculation Agent has already calculated the relevant level for a Custom Index as described in this paragraph (C) on any Valuation Date, Averaging Date or other relevant date for valuation or observation of the Custom Index, on or prior to the next date on which the Custom Index falls to be valued or observed thereafter, if the relevant Custom Index Adjustment Event is continuing the Issuer may take any of the actions described in paragraphs (A) or (B) above or paragraphs (D) or (E) below;
- (D) in the case of a Custom Index Basket or a Mixed Basket, and in respect of all but not some only of the Securities outstanding, redeem or cancel, as applicable, such portion (the Relevant Portion) of the nominal amount or amount of each Security then outstanding as corresponds to the then value or level of the Custom Index or Custom Indices that is or are affected by a Custom Index Adjustment Event as a proportion of the total value or level of the Custom Index Basket (in the determination of the Calculation Agent), in each case by payment of an amount equal to the product of (i) the Relevant Portion and (ii) the Early Redemption Amount or Early Cancellation Amount, as applicable, which the Calculation Agent determines would then apply (determined as if (E) below applied). Payment of any

amounts in respect of such partial redemption or cancellation, as applicable, will be made in such manner as shall be notified to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and, for the avoidance of doubt, this provision (D) may apply to the Securities on more than one occasion and the remaining portion of the Securities shall in each case thereafter remain outstanding and the Calculation Agent may make such adjustments to the Conditions as it determines appropriate to reflect such partial redemption or cancellation; or

- (E) give notice to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, and redeem or cancel all, but not some only, of the Securities, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount. Payment in respect of such early redemption or cancellation shall be made as specified in such notice to Securityholders.

(c) *Valuation of Replacement Custom Indices*

For the purposes of any adjustments to account for a replacement as referred to in Custom Index Linked Condition 2(b)(B) above, the Calculation Agent shall adjust the Strike Level or such values, levels, variables or terms for the valuation or observation of the Replacement Custom Index in the terms of the Securities in order to account for the price or value of the affected Custom Index at the time of its replacement as well as the cost to any Hedging Entity of adjusting any associated hedging arrangements. This may mean that the economic benefit, if any, of the replacement for the Holder is reduced or that the replacement has a material adverse effect on the Securities. For example, and without limitation, the relevant level or value of the Replacement Custom Index may be adjusted by the same proportion as any fall in value of the affected Custom Index at the time of the replacement relative to the Trade Date and may be further reduced to account for the cost to any Hedging Entity of adjusting any associated hedging arrangements.

3. **Correction to a Custom Index**

If the level or value of a Custom Index published on any Valuation Date, Averaging Date or any other date for valuation or observation of a Custom Index, as the case may be, by the Custom Index Administrator and which is used to make any calculation or determination in respect of the Securities (a **Relevant Calculation**) is subsequently corrected and the correction (the **Corrected Custom Index Level**) published by the relevant Custom Index Administrator within the number of days equal to the Custom Index Correction Period, but no later than two Business Days prior to the date of payment or delivery of any amount calculated by reference to the Relevant Calculation then the Calculation Agent may, but shall not be required to, treat such Corrected Custom Index Level as the relevant level or value for such index on such Valuation Date, Averaging Date or other relevant date, as the case may be, and the Calculation Agent shall use such Corrected Custom Index Level in determining the Relevant Calculation.

4. **Additional Disruption Events**

In the event that an Additional Disruption Event occurs as determined by the Calculation Agent, then the Calculation Agent shall either (a) (i) make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Calculation Agent determines appropriate to account for such Additional Disruption Event and (ii) determine the effective date of that adjustment, or (b) if the Calculation Agent determines that no adjustment that it could make under (a) will produce a commercially reasonable result, notify the Issuer thereof in which event the Issuer may redeem or cancel all but not some only of the Securities as of such date as the Calculation Agent shall determine by notice given to the Securityholders in accordance with N&C Securities Condition 16 or W&C Securities Condition 9, as applicable, each N&C Security being redeemed at the Early Redemption Amount and each W&C Security being cancelled at the Early Cancellation Amount. Payment in

respect of such early redemption or cancellation shall be made as specified in such notice to Securityholders. THIS DEED OF GUARANTEE amends and restates the Deed of Guarantee dated 25 September 2025 of Nomura Holdings, Inc. (the **Guarantor**) and is given on 24 September 2026 by the Guarantor.

WHEREAS:

- (A) Nomura Bank International plc (the **Issuer**) and the Guarantor have entered into an amended and restated Agency Agreement dated on or about 24 September 2026 (as the same may be supplemented, amended and/or restated from time to time, the **Agency Agreement**) with, *inter alios*, Citibank Europe PLC as Principal Agent pursuant to which the Issuer may from time to time issue Securities under its Note, Warrant and Certificate Programme (the **Programme**).
- (B) The applicable final terms (the **Final Terms**) relating to each series of Securities will specify whether or not those Unsecured N&C Securities or Unsecured W&C Securities, as the case may be, are Guaranteed N&C Securities or Guaranteed W&C Securities, as the case may be, and if so whether the guarantor is Nomura Holdings, Inc. and any Securities specified as such shall, for the purposes of this Guarantee and subject as provided in Clause 4 below in respect of W&C Securities, be referred to as **Guaranteed Unsecured Securities**.
- (C) In respect of the guarantee of each Series of Guaranteed Unsecured W&C Securities, the application of the Guarantee to such Series of Guaranteed Unsecured W&C Securities is subject to authorisation on a case by case basis from an executive officer of the Guarantor authorised by the Guarantor's Executive Management Board, all as provided in Clause 4 below.
- (D) Terms defined in (i) the Terms and Conditions of the N&C Securities or the Terms and Conditions of the W&C Securities (as applicable) and (ii) each applicable annex of additional terms and conditions (together, the **Conditions**) in the form referred to in the definition of "Conditions" in the Agency Agreement and not otherwise defined in this Guarantee shall have the same meaning when used in this Guarantee.
- (E) Any Guaranteed Unsecured Securities issued on or after the date of this Guarantee will be guaranteed pursuant to this Guarantee other than any Guaranteed Unsecured Securities issued so as to be consolidated and form a single Series with any Guaranteed Unsecured Securities issued prior to the date hereof. This does not affect any Guaranteed Unsecured Securities issued prior to the date of this Guarantee, in relation to which such previous form of guarantee as applied to those Guaranteed Unsecured Securities on issue, will continue to apply.

NOW THIS DEED WITNESSETH as follows:

1. The Guarantor as primary obligor hereby irrevocably and unconditionally guarantees to the holder (as such term is used in the Conditions) from time to time of each Guaranteed Unsecured Security (each a **Relevant Holder**) (which, in the case of an N&C Security, shall include any Receipholder and/or Couponholder, if applicable) by way of continuing guarantee:
 - (a) the due and punctual payment of all amounts payable by the Issuer on or in relation to such Guaranteed Unsecured Securities as and when the same shall become due to be paid under the Conditions;

- (b) the due and punctual performance of any delivery obligations (**Delivery Obligations**) assumed or incurred by the Issuer on or in relation to such Guaranteed Unsecured Securities as and when the same shall become due to be performed under the Conditions; and
 - (c) the due and punctual performance and observance by the Issuer of each of the other provisions of the Conditions in relation to such Guaranteed Unsecured Securities (the **Relevant Obligations**) to be performed or observed by it thereunder.
- 2. The Guarantor as primary obligor unconditionally and irrevocably agrees that if and each time that the Issuer shall fail to make any payments, perform any Delivery Obligations or perform or observe any Relevant Obligations as and when the same become due to be paid, performed or observed, the Guarantor will on demand (without requiring the Relevant Holder first to take steps against the Issuer or any other person) (i) pay to the Relevant Holder the relevant amounts payable in the currency in which they are payable by the Issuer or (ii) perform or observe or procure the performance or observation of the relevant Delivery Obligation or Relevant Obligation (in each case as to which the certificate of the Relevant Holder shall in the absence of manifest error be conclusive).
- 3. In respect of any Guaranteed Unsecured Security, without affecting the obligations of the Issuer thereunder, the Guarantor will be liable under this Guarantee as if it were the sole principal obligor and not merely a surety in respect of such Guaranteed Unsecured Security. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal obligor (including (a) any time, indulgence, waiver or consent at any time given to the Issuer or any other person, (b) any amendment to such Guaranteed Unsecured Security or to any security or other guarantee or indemnity in respect of such Guaranteed Unsecured Security, (c) the making or absence of any demand on the Issuer or any other person for payment or performance of any Delivery Obligation or Relevant Obligation under such Guaranteed Unsecured Security, (d) the enforcement or absence of enforcement of such Guaranteed Unsecured Security or of any security or other guarantee or indemnity in respect of such Guaranteed Unsecured Security, (e) the release of any such security, guarantee or indemnity, (f) the dissolution, amalgamation, reconstruction or reorganisation of the Issuer or any other person or (g) the illegality, invalidity or unenforceability of or any defect in any provision of such Guaranteed Unsecured Security or any of the Issuer's obligations thereunder).
- 4. Notwithstanding any other provision in this Guarantee, the Guarantor's obligations under this Guarantee in respect of each Series of Guaranteed Unsecured W&C Securities only are subject to the conditions precedent set out in (a) and (b) below:
 - (a) the receipt by the Issuer at least one Business Day prior to the Issue Date for the relevant Series of W&C Securities of a certified copy of an English translation of a written determination of an executive officer of the Guarantor authorised by the Executive Management Board of the Guarantor (an **NHI Approval**) authorising the application of this Guarantee to the relevant Series of W&C Securities and, in particular confirming that such resolution or determination is provided:
 - (i) in contemplation of the terms of this Guarantee;
 - (ii) for the purposes of authorising the guarantee of the relevant Series of W&C Securities; and
 - (iii) specifically referencing the relevant Series of W&C Securities to which such authorisation applies; and
 - (b) the date of the relevant NHI Approval is included in the applicable Final Terms for such W&C Securities.

The term **Guaranteed Unsecured W&C Securities** and **Guaranteed Unsecured Securities** as used in this Guarantee shall only refer to such W&C Securities as comply with the requirements of this Clause 4.

5. The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains, or is capable of remaining, payable or deliverable under any Guaranteed Unsecured Security. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Relevant Holder, whether from the Guarantor or otherwise, in respect of such Guaranteed Unsecured Security.
6. The Guarantor hereby waives diligence, presentment, demand of payment, filing of claims with a court in the event of dissolution, liquidation, merger or bankruptcy of the Issuer, any right to require a proceeding first against the Issuer, protest or notice with respect to the relevant Guaranteed Unsecured Securities or the indebtedness evidenced thereby and all demands whatsoever and hereby covenants that this Guarantee shall be a continuing guarantee, which shall not be discharged except by complete performance of the obligations contained in the Conditions in respect of the relevant Guaranteed Unsecured Securities.
7. If any payment or other consideration received by a Relevant Holder under any Guaranteed Unsecured Security is, on the subsequent bankruptcy, insolvency or corporate reorganisation of the Issuer or other such similar event, avoided or set aside under any laws relating to liquidation or insolvency, such payment or consideration will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment or consideration had at all times remained owing by the Issuer and the Guarantor shall indemnify the Relevant Holders in respect thereof PROVIDED THAT the obligations of the Guarantor under this Clause shall, as regards each payment made to any Relevant Holder which is so avoided or set aside, be contingent upon such payment being reimbursed to the Issuer or other persons entitled through the Issuer.
8. The obligations of the Guarantor under this Guarantee constitute direct, unconditional, unsubordinated and (subject to the provisions of Clause 9 below in respect of Guaranteed Unsecured N&C Securities only) unsecured obligations of the Guarantor and shall (subject as aforesaid and save for obligations in respect of national and local taxes and certain other statutory exceptions) at all times rank at least equally with all other present and future unsecured and unsubordinated obligations of the Guarantor.
9. In respect only of Guaranteed Unsecured Securities which are N&C Securities (**Guaranteed Unsecured N&C Securities**), the Guarantor undertakes that so long as any of the Guaranteed Unsecured N&C Securities remain outstanding as defined in the Agency Agreement, it will not create or permit to be outstanding any mortgage, charge, pledge or other security interest upon the whole or any part of its property, assets or revenues, present or future, to secure for the benefit of the holders of any securities (i) payment of any sum due in respect of any securities, (ii) any payment under any guarantee of securities or (iii) any payment under any indemnity or other like obligation relating to securities, in any such case in which:
 - (a) either such securities are by their terms payable, or confer a right to receive payment, in any currency other than the currency of the jurisdiction of incorporation of the Guarantor (the **Guarantor's Currency**) which is Japanese Yen, or such securities are denominated in the Guarantor's Currency and more than 50 per cent. of the aggregate principal amount thereof is initially distributed outside the jurisdiction of incorporation of the Guarantor (the **Guarantor's Jurisdiction**) which is Japan, by or with the authorisation of the Guarantor or (if not the Guarantor) the Issuer; and

- (b) such securities are for the time being, or are intended to be, quoted, listed, ordinarily dealt in or traded on any stock exchange or over-the-counter or other securities market outside the Guarantor's Jurisdiction,

without in any such case at the same time according to this Guarantee either the same security as is granted to or is outstanding in respect of such securities, guarantee, indemnity or other like obligation or such other security or guarantee as shall be approved by an Extraordinary Resolution of the Securityholders.

As used in this paragraph, **securities** means bonds, debentures, notes or other similar investment securities of the Issuer or the Guarantor, or any other person with a stated maturity of more than one year from the creation thereof.

10. **Withholding or deduction:**

10.1 All payments made under this Guarantee by the Guarantor in respect of any Guaranteed Unsecured N&C Security will be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Guarantor's Jurisdiction, or any political subdivision or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law. In such event, the Guarantor (or as the case may be, the relevant Paying Agent) will make such payment after the withholding or deduction of such taxes, duties, assessments or governmental charges has been made, shall account to the relevant authorities for the amount required to be withheld or deducted and:

- (a) in the case of N&C Securities which are specified as being Reference Item Linked N&C Securities in the applicable Final Terms, unless the provisions of Condition 9.1.2 of the Conditions are specified to apply to the Securities in the applicable Final Terms, the Guarantor shall not pay any additional amounts to the Relevant Holders; and
- (b) in the case of (A) N&C Securities which are not specified as being Reference Item Linked N&C Securities in the applicable Final Terms and (B) Reference Item Linked N&C Securities in respect of which the provisions of Condition 9.1.2 of the Conditions are specified to apply to the Securities in the applicable Final Terms, the Guarantor will, subject to certain limitations and exceptions (set forth below), pay such additional amounts as may be necessary in order that the net amounts received by the Relevant Holders after the withholding or deduction shall equal the respective amounts which would have been receivable in respect of the N&C Securities, or, as the case may be, Receipts or Coupons in the absence of the withholding or deduction; except that no additional amounts shall be payable in relation to any payment in respect of any N&C Security, Receipt or Coupon:
 - (i) presented for payment or in respect of which payment is requested in the Guarantor's Jurisdiction;
 - (ii) presented for payment or in respect of which payment is requested by or on behalf of a Relevant Holder (a) who is, for tax purposes in the Guarantor's Jurisdiction or (b) who is otherwise subject to such taxes and duties by reason of having some connection with the Guarantor's Jurisdiction other than the mere holding of such N&C Security, Receipt or Coupon; or
 - (iii) presented for payment or in respect of which payment is requested more than 30 days after the Relevant Date (as defined below) except to the extent that the Relevant Holder thereof would have been entitled to an additional amount on presenting the

same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in the Conditions).

In addition, no such additional amounts shall be payable with respect to (i) any withholding or deduction required pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Code**), and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto.

As used herein:

Relevant Date means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with the Conditions.

- 10.2 The Guarantor shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment (including any stamp or transfer tax) which may arise as a result of the ownership, transfer, exercise or enforcement of any W&C Security by any person and all payments made under this Guarantee by the Guarantor in respect of any W&C Security shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.
11. The Guarantor hereby warrants, represents and covenants with each Relevant Holder that it has all corporate power, and, subject as provided in Clause 4 above in respect of W&C Securities has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Guarantee, and that this Guarantee constitutes its legal, valid and binding obligation in accordance with its terms.
12. This Guarantee shall enure for the benefit of the Relevant Holders and shall be deposited with and held by the Principal Agent. The Guarantor hereby acknowledges the right of every Relevant Holder to the production of, and the right of every Relevant Holder to obtain a copy of, this Guarantee, and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Relevant Holder, and that each such Relevant Holder shall be entitled severally to enforce the said obligations against the Guarantor.
13. Until all amounts which may be payable under the Guaranteed Unsecured Securities have been irrevocably paid in full and all Delivery Obligations and/or Relevant Obligations of the Issuer thereunder have been performed in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Relevant Holder or claim in competition with the Relevant Holders against the Issuer.
14. The Guarantor may not assign or transfer its rights or obligations under this Guarantee without the approval of an Extraordinary Resolution of the Relevant Holders of the relevant Guaranteed Unsecured Securities and any purported assignment or delegation without such approval will be void; provided, however, that approval will not be required for the assumption by a Substituted Guarantor (as defined below) of the rights and obligations of the Guarantor under this Guarantee in the circumstances described in Clause 15 below.
15. In the event that another company (the **Substituted Guarantor**) is substituted for the Guarantor as guarantor in relation to Guaranteed Unsecured Securities in accordance with the Conditions, the Guarantor will procure that the Substituted Guarantor shall assume all of its rights and obligations hereunder.

16. This does not affect any Guaranteed Unsecured Securities issued prior to the date of this Guarantee, in relation to which such previous form of guarantee as applied to those Guaranteed Unsecured Securities on issue, will continue to apply.

NOW THIS DEED WITNESSETH as follows:

1. The Guarantor as primary obligor hereby irrevocably and unconditionally guarantees to the holder (as such term is used in the Conditions) from time to time of each Guaranteed Unsecured Security (each a **Relevant Holder**) (which shall include any Receiptholder and/or Couponholder, if applicable) by way of continuing guarantee:

3. In respect of any Guaranteed Unsecured Security, without affecting the obligations of the Issuer thereunder, the Guarantor will be liable under this Guarantee as if it were the sole principal obligor and not merely a surety in respect of such Guaranteed Unsecured Security. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal obligor (including (a) any time, indulgence, waiver or consent at any time given to the Issuer or any other person, (b) any amendment to such Guaranteed Unsecured Security or to any security or other guarantee or indemnity in respect of such Guaranteed Unsecured Security, (c) the making or absence of any demand on the Issuer or any other person for payment or performance of any Delivery Obligation or Relevant Obligation under such Guaranteed Unsecured Security, (d) the enforcement or absence of enforcement of such Guaranteed Unsecured Security or of any security or other guarantee or indemnity in respect of such Guaranteed Unsecured Security, (e) the release of any such security, guarantee or indemnity, (f) the dissolution, amalgamation, reconstruction or reorganisation of the Issuer or any other person or (g) the illegality, invalidity or unenforceability of or any defect in any provision of such Guaranteed Unsecured Security or any of the Issuer's obligations thereunder).
4. The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains, or is capable of remaining, payable or deliverable under any Guaranteed Unsecured Security. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Relevant Holder, whether from the Guarantor or otherwise, in respect of such Guaranteed Unsecured Security.
5. The Guarantor hereby waives diligence, presentment, demand of payment, filing of claims with a court in the event of dissolution, liquidation, merger or bankruptcy of the Issuer, any right to require a proceeding first against the Issuer, protest or notice with respect to the relevant Guaranteed Unsecured Securities or the indebtedness evidenced thereby and all demands whatsoever and hereby covenants that this Guarantee shall be a continuing guarantee, which shall not be discharged except by complete performance of the obligations contained in the Conditions in respect of the relevant Guaranteed Unsecured Securities.
6. If any payment or other consideration received by a Relevant Holder under any Guaranteed Unsecured Security is, on the subsequent bankruptcy, insolvency or corporate reorganisation of the Issuer or other such similar event, avoided or set aside under any laws relating to liquidation or insolvency, such payment or consideration will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment or consideration had at all times remained owing by the Issuer and the Guarantor shall indemnify the Relevant Holders in respect thereof PROVIDED THAT the obligations of the Guarantor under this Clause shall, as regards each payment made to any Relevant Holder which is so avoided or set aside, be contingent upon such payment being reimbursed to the Issuer or other persons entitled through the Issuer.
7. The obligations of the Guarantor under this Guarantee constitute direct, unconditional, unsubordinated and (subject to the provisions of Clause 8 below) unsecured obligations of the Guarantor and shall (subject as aforesaid and save for obligations in respect of national and local taxes and certain other statutory exceptions) at all times rank at least equally with all other present and future unsecured and unsubordinated obligations of the Guarantor.
8. The Guarantor undertakes that so long as any of the Guaranteed Unsecured Securities remain outstanding as defined in the Agency Agreement, it will not create or permit to be outstanding any

mortgage, charge, pledge or other security interest upon the whole or any part of its property, assets or revenues, present or future, to secure for the benefit of the holders of any securities (i) payment of any sum due in respect of any securities, (ii) any payment under any guarantee of securities or (iii) any payment under any indemnity or other like obligation relating to securities, in any such case in which:

- (a) either such securities are by their terms payable, or confer a right to receive payment, in any currency other than the currency of the jurisdiction of incorporation of the Guarantor (the **Guarantor's Currency**) which is Japanese Yen, or such securities are denominated in the Guarantor's Currency and more than 50 per cent. of the aggregate principal amount thereof is initially distributed outside the jurisdiction of incorporation of the Guarantor (the **Guarantor's Jurisdiction**) which is Japan, by or with the authorisation of the Guarantor or (if not the Guarantor) the Issuer; and
- (b) such securities are for the time being, or are intended to be, quoted, listed, ordinarily dealt in or traded on any stock exchange or over-the-counter or other securities market outside the Guarantor's Jurisdiction,

without in any such case at the same time according to this Guarantee either the same security as is granted to or is outstanding in respect of such securities, guarantee, indemnity or other like obligation or such other security or guarantee as shall be approved by an Extraordinary Resolution of the Securityholders.

As used in this paragraph, **securities** means bonds, debentures, notes or other similar investment securities of the Issuer or the Guarantor, or any other person with a stated maturity of more than one year from the creation thereof.

9. Withholding or deduction:

All payments made under this Guarantee by the Guarantor in respect of any Guaranteed Unsecured Security will be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Guarantor's Jurisdiction, or any political subdivision or any authority thereof or therein having power to tax unless such withholding or deduction is required by law. In such event, the Guarantor (or as the case may be, the relevant Paying Agent) will make such payment after the withholding or deduction of such taxes, duties, assessments or governmental charges has been made, shall account to the relevant authorities for the amount required to be withheld or deducted and:

- (a) in the case of Guaranteed Unsecured Securities which are specified as being Reference Item Linked N&C Securities in the applicable Final Terms, unless the provisions of N&C Securities Condition 9.1.2 of the Conditions are specified to apply to the Securities in the applicable Final Terms, the Guarantor shall not pay any additional amounts to the Relevant Holders; and
- (b) in the case of (A) Guaranteed Unsecured Securities which are not specified as being Reference Item Linked N&C Securities in the applicable Final Terms and (B) Reference Item Linked N&C Securities in respect of which the provisions of N&C Securities Condition 9.1.2 of the Conditions are specified to apply to the Securities in the applicable Final Terms, the Guarantor will, subject to certain limitations and exceptions (set forth below), pay such additional amounts as may be necessary in order that the net amounts received by the Relevant Holders after the withholding or deduction shall equal the respective amounts which would have been receivable in respect of the Guaranteed Unsecured Securities, or, as the case may be, Receipts or Coupons in the absence of the withholding or deduction; except that no additional amounts shall be payable in relation to any payment in respect of any such Guaranteed Unsecured Security, Receipt or Coupon:

- (i) presented for payment or in respect of which payment is requested in the Guarantor's Jurisdiction;
- (ii) presented for payment or in respect of which payment is requested by or on behalf of a Relevant Holder (a) who is, for tax purposes in the Guarantor's Jurisdiction or (b) who is otherwise subject to such taxes and duties by reason of having some connection with the Guarantor's Jurisdiction other than the mere holding of such Guaranteed Unsecured Security, Receipt or Coupon; or
- (iii) presented for payment or in respect of which payment is requested more than 30 days after the Relevant Date (as defined below) except to the extent that the Relevant Holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in the Conditions).

In addition, no such additional amounts shall be payable with respect to (i) any withholding or deduction required pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Code**), and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto.

As used herein:

Relevant Date means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with the Conditions.

- 10. The Guarantor hereby warrants, represents and covenants with each Relevant Holder that it has all corporate power, and has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Guarantee, and that this Guarantee constitutes its legal, valid and binding obligation in accordance with its terms.
- 11. This Guarantee shall enure for the benefit of the Relevant Holders and shall be deposited with and held by the Principal Agent. The Guarantor hereby acknowledges the right of every Relevant Holder to the production of, and the right of every Relevant Holder to obtain a copy of, this Guarantee, and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Relevant Holder, and that each such Relevant Holder shall be entitled severally to enforce the said obligations against the Guarantor.
- 12. Until all amounts which may be payable under the Guaranteed Unsecured Securities have been irrevocably paid in full and all Delivery Obligations and/or Relevant Obligations of the Issuer thereunder have been performed in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Relevant Holder or claim in competition with the Relevant Holders against the Issuer.
- 13. The Guarantor may not assign or transfer its rights or obligations under this Guarantee without the approval of an Extraordinary Resolution of the Relevant Holders of the relevant Guaranteed Unsecured Securities and any purported assignment or delegation without such approval will be void; provided, however, that approval will not be required for the assumption by a Substituted Guarantor (as defined below) of the rights and obligations of the Guarantor under this Guarantee in the circumstances described in Clause 14 below.

14. In the event that another company (the **Substituted Guarantor**) is substituted for the Guarantor as guarantor in relation to Guaranteed Unsecured Securities in accordance with the Conditions, the Guarantor will procure that the Substituted Guarantor shall assume all of its rights and obligations hereunder.
15. All communications to the Guarantor shall be by letter delivered by hand or by telephone, marked for the attention of, or (in the case of communication by telephone) to, the person or department from time to time notified by the Guarantor in accordance with the Conditions. The initial telephone number and person or department so specified by the Guarantor are set out below:

16. If any provision in or obligation under this Deed is or becomes invalid, illegal or unenforceable in any respect under the law of any jurisdiction, that will not affect or impair (i) the validity, legality or enforceability under the law of that jurisdiction of any other provision in or obligation under this Deed, and (ii) the validity, legality or enforceability under the law of any other jurisdiction of that or any other provision in or obligation under this Deed.
17. Governing Law and Submission to Jurisdiction
- 17.1 Governing law
- This Guarantee and any non-contractual obligations arising out of or in connection with it are governed by, and shall be construed in accordance with, English law.
- 17.2 Jurisdiction
- (a) The English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with this Guarantee, including any dispute as to its existence, validity, interpretation, performance, breach or termination or the consequences of its nullity and any dispute relating to any non-contractual obligations arising out of or in connection with it (a **Dispute**) and each of the Guarantor and any Relevant Holders in relation to any Dispute submits to the exclusive jurisdiction of the English courts.
- (b) For the purposes of sub-clause (a), the Guarantor waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.
- 17.3 Service of process

The Guarantor irrevocably appoints Nomura International plc at its registered office at 1 Angel Lane, London EC4R 3AB, United Kingdom as its agent under this Guarantee for service of process in any proceedings before the English courts in relation to any Dispute and agrees that, in the event of Nomura International plc being unable or unwilling for any reason so to act, it will immediately appoint another person as its agent for service of process in England in respect of any Dispute. The Guarantor agrees that a failure by a process agent to notify it of any process will not invalidate service. Nothing in this clause 17 shall affect the right to serve process in any other manner permitted by law.

BOOK-ENTRY CLEARANCE SYSTEMS

The following section applies to both Exempt Securities and Non-Exempt Securities.

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear, Clearstream, Luxembourg or Euroclear France (together, the "Book-Entry Clearing Systems") currently in effect. Investors wishing to use the facilities of any of the Book-Entry Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Book-Entry Clearing System. Neither the Issuer, the Guarantors nor any agent party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Securities held through the facilities of any Book-Entry Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Book-Entry Systems

DTC

DTC has advised the Issuer and the Guarantors that it is a limited-purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for securities that its participants (**Direct Participants**) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerised book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organisations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (**DTCC**). DTCC, in turn, is owned by a number of Direct Participants and Members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation and Emerging Markets Clearing Corporation (also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC and the National Association of Securities Dealers, Inc. Access to the depository system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly (**Indirect Participants** and, together with Direct Participants, **Participants**). The rules applicable to Direct Participants are on file with the U.S. Securities and Exchange Commission. More information about DTC can be found at its internet web site at <http://www.dtcc.com>, but such information is not incorporated by reference in and does not form part of this Base Prospectus.

Under the rules, regulations and procedures creating and affecting DTC and its operations (the **Rules**), DTC makes book-entry transfers of Rule 144A Global Securities held through DTC among Direct Participants on whose behalf it acts with respect to Securities accepted into DTC's book-entry settlement system (**DTC Securities**, which term shall, for the purposes of this "Book-Entry Clearance Systems" section, include certificated depository interests and certificateless depository interests (together **CDIs**) issued by the Book-Entry Depository in respect of Immobilised Bearer Global N&C Securities pursuant to the terms of the N&C Securities Depository Agreement) as described below and receives and transmits payments on DTC Securities. Direct Participants and Indirect Participants with which beneficial owners of DTC Securities (**Beneficial Owners**) have accounts with respect to the DTC Securities similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Beneficial Owners. Accordingly, although Beneficial Owners who hold DTC Securities through Direct Participants or Indirect Participants will not possess definitive Securities, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect to the DTC Securities.

Purchases of DTC Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Securities on DTC's records. The ownership interest of each actual purchaser of each DTC Securities being a Beneficial Owner, is in turn to be recorded on the Direct and Indirect Participant's records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Securities are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Securities, except in the event that use of the book-entry system for the DTC Securities is discontinued.

To facilitate subsequent transfers, all DTC Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or any other nominee as may be requested by an authorised representative of DTC. The deposit of DTC Securities with DTC and their registration in the name of Cede & Co. or any other nominee effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Securities; and DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the DTC Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to DTC Securities unless authorised by a Direct Participant in accordance with DTC's operational arrangements and the issuing/paying agent general operating procedures for money market instruments (**DTC's MMI Procedures**). Under its usual procedures, DTC mails an omnibus proxy to the Issuer as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Securities are credited on the record date (identified in a listing attached to the omnibus proxy).

Principal and interest payments on the DTC Securities will be made to Cede & Co., or such other nominee as may be requested by an authorised representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Issuer or the relevant agent (or such other nominee as may be requested by an authorised representative of DTC), on the relevant payment date in accordance with their respective holdings shown in DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

Under certain circumstances, including if there is an Event of Default under the Securities, DTC will exchange the DTC Securities for Definitive Securities, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Security, will be legended as set forth under "*Notice to Purchasers and Holders of Securities and Transfer Restrictions*". Since

DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Beneficial Owner desiring to pledge DTC Securities to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Securities, will be required to withdraw its registered Securities from DTC as described below.

DTC may discontinue providing its services as depository with respect to the DTC Securities at any time by giving reasonable notice to the Issuer or the relevant agent. Under such circumstances, in the event that a successor depository is not obtained, DTC Securities certificates are required to be printed and delivered.

Book-entry Ownership of and Payments in respect of DTC Securities

Subject as set out below in respect of Immobilised Bearer Global N&C Securities, if a Rule 144A Global Security is to be registered in the name of a nominee of DTC, the Issuer will apply to DTC in order to have the Securities represented by such Rule 144A Global Security accepted in its book-entry settlement system. Upon the issue of any Rule 144A Global Security to be held through DTC, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts or number of the individual beneficial interests represented by such Rule 144A Global Security to the accounts of persons who have accounts with DTC. Ownership of beneficial interests in any such Rule 144A Global Security will be limited to Direct Participants or Indirect Participants, including the respective depositories of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in any such Rule 144A Global Security held through DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of principal and interest in respect of a Rule 144A Global Security accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Security. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Rule 144A Global Security in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

The Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The Issuer also expects that payments by Participants to Beneficial

Owners of DTC Securities will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, any Agent or the Issuer. Other than in respect of CDIs issued by the Book-Entry Depositary in respect of a Series of Immobilised Bearer Global N&C Securities, payments on DTC Securities to DTC shall be the responsibility of the Issuer. Payments by participants to owners of Book-Entry Interests held through participants are the responsibility of such participants.

Rule 144A Global W&C Securities

Payments in U.S. dollars in respect of a Rule 144A Global W&C Security registered in the name of DTC's nominee will be made to the order of such nominee as the registered holder of such W&C Security. In the case of any payment in a currency other than U.S. dollars, payment will be made to the New York Security Agent on behalf of DTC's nominee and the New York Security Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Rule 144A Global W&C Security held through DTC in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

Immobilised Bearer Global N&C Securities

Payments of any amounts owing in respect of Immobilised Bearer Global N&C Securities (including principal and interest, if any) will be made by the Issuer in the Specified Currency to the relevant Paying Agent. The relevant Paying Agent will, in turn, make such payments to or to the order of the Book-Entry Depositary in its capacity as bearer of the relevant Immobilised Bearer Global N&C Securities. Upon receipt of such amounts, the Book-Entry Depositary will pay the amounts so received to DTC or the common depositary for Euroclear and Clearstream, Luxembourg, as applicable, which will distribute payments to participants in accordance with their procedures, as detailed above.

The Issuer will treat the bearer of the Immobilised Bearer Global N&C Securities as the owner thereof for the purposes of receiving payments and for all other purposes. None of the Issuer, the Book-Entry Depositary or any agent of the Issuer has or will have any responsibility or liability for:

- (a) any aspect of the records of DTC, Euroclear, Clearstream, Luxembourg or any direct or indirect participant relating to, or payments made on account of, a Book-Entry Interest in any Immobilised Bearer Global N&C Securities or for maintaining, supervising or reviewing any of the records of DTC, Euroclear, Clearstream, Luxembourg or any direct or indirect participant relating to, or payments made on account of, a Book-Entry Interest in any Immobilised Bearer Global N&C Securities; or
- (b) DTC, Euroclear, Clearstream, Luxembourg or any direct or indirect participant.

Transfers of Securities Represented by Global Securities

Transfers of any interests in Securities represented by a Global Security or a CDI within DTC, or a Global Security or a CDI within Euroclear and/or Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system and, in the case of CDIs, in accordance with the provisions of the N&C Securities Depositary Agreement. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Securities represented by a Global Security or a CDI to such persons may depend upon the ability to exchange such Securities for Securities in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Securities represented by a Global Security or a CDI to pledge such Securities to persons or entities that do not participate in the DTC system or to otherwise take action in respect of such Securities may depend upon the ability to exchange such Securities for Securities in definitive form. The ability of any person having a beneficial interest in Securities represented by a Global

Security or a CDI to resell, pledge or otherwise transfer such Securities may be impaired if the proposed transferee of such Securities is not eligible to hold such Securities through a Direct or Indirect participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Rule 144A Global Securities described under "*Notice to Purchasers and Holders of Securities and Transfer Restrictions*", cross-market transfers between DTC, on the one hand, and directly or indirectly through Euroclear and/or Clearstream, Luxembourg accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Principal Agent, the New York Security Agent and any custodian (**Custodian**) with whom the relevant Global W&C Securities, Bearer Global N&C Securities or Immobilised Bearer Global N&C Securities, as applicable, have been deposited.

On or after the Issue Date for any Securities, transfers of such Securities (or beneficial interests therein) between accountholders in Euroclear and Clearstream, Luxembourg will generally have a settlement date two business days after the trade date (T+2) and transfers of such Securities (or beneficial interests therein) between participants in DTC will generally have a settlement date one business day after the trade date (T+1). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Euroclear, Clearstream, Luxembourg and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Euroclear/Clearstream, Luxembourg, on the other, transfers of interests in the relevant Global W&C Securities, Bearer Global N&C Securities or Immobilised Bearer Global N&C Securities, as applicable, will be effected through the Principal Agent, the New York Security Agent and the Custodian receiving instructions (and where appropriate certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear/Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The Securities (or beneficial interests therein) will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Euroclear and Clearstream, Luxembourg have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Global Securities, among participants and accountholders of DTC, Euroclear and Clearstream, Luxembourg. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Guarantors, the Agents or any Dealer will be responsible for any performance by DTC, Euroclear or Clearstream, Luxembourg or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Securities represented by Global W&C Securities, Bearer Global N&C Securities or Immobilised Bearer Global N&C Securities, as applicable, or for maintaining, supervising or reviewing any records relating to such beneficial interests.

Each subsequent transferee of a Regulation S Security will be deemed to have made the same representations, warranties and agreements above.

U.S. Investors

Unless otherwise provided in the applicable Final Terms, each initial purchaser of Securities eligible to be offered and sold in the United States or to, or for the account or benefit of, U.S. persons (a **Rule 144A Security**) that is not a Regulation S Investor (a **U.S. Investor**) will be required to execute and deliver an Investor Representation Letter substantially in the form set out in the Agency Agreement and described below. In addition, transfers of interests in Global Securities (which term shall include both N&C Securities and/or W&C Securities, as the context permits) may require the delivery of a Transfer Certificate in the form set out in the Agency Agreement and may require execution and delivery of a further Investor Representation Letter, as provided in the Conditions. Unless otherwise provided in the applicable Final Terms, the Investor Representation Letter to be delivered by each U.S. Investor shall include the following representations, warranties and agreements:

1. **Purchaser Requirements.** The purchaser (i) is a QIB that is a QP, (ii) will provide notice of applicable transfer restrictions to any subsequent transferee, and (iii) is purchasing for its own account or for the accounts of one or more other persons each of whom meets all of the requirements of sub-clauses (i) and (ii) of this clause.
2. **Notice of Transfer Restrictions.** Each purchaser acknowledges and agrees that (A) neither the Securities, the Guarantee nor, in certain cases where applicable, the Entitlement have been or will be registered under the Securities Act or any applicable state securities laws and neither the Issuer nor the Guarantors has been or will be registered as an "investment company" under the 1940 Act, (B) the Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Securities has not been approved by the CFTC pursuant to the CEA, (C) neither the Securities nor any beneficial interest therein may be re-offered, resold, pledged or otherwise transferred except in accordance with the provisions set out in paragraph 1 above or any other restriction set out in the applicable Final Terms and (D) the

purchaser will notify any transferee of such transfer restrictions and that each subsequent holder will be required to notify any subsequent transferee of such Securities of such transfer restrictions. The purchaser acknowledges that the Issuer reserves the right prior to any sale or other transfer to require the delivery of such certifications, legal opinions and other information as the Issuer may reasonably require to confirm that the proposed sale or other transfer complies with the foregoing restrictions.

Notwithstanding any other provision contained in this Notice, if the Final Terms in respect of an offering of Securities indicates that such Securities are not eligible to be offered, sold, resold, transferred, pledged, delivered or redeemed, directly or indirectly, in the United States or to or for the account or benefit of U.S. Persons, each purchaser acknowledges and agrees to the selling and transfer restrictions under the federal securities and commodities laws of the United States as indicated and set out in such Final Terms.

3. **Mandatory Transfer.** Each purchaser acknowledges and agrees that in the event that at any time the Issuer determines or is notified by the Dealer acting on behalf of the Issuer that such purchaser was in breach, at the time given or deemed to be given, of any of the representations or agreements set out in paragraph 1 above or otherwise determines that any transfer or other disposition of any Securities would, in the sole determination of the Issuer or the Dealer acting on behalf of the Issuer, require the Issuer to register as an "investment company" under the provisions of the 1940 Act, such purchase or other transfer will be void *ab initio* and will not be honoured. Accordingly, any such purported transferee or other holder will not be entitled to any rights as a holder of Securities and the Issuer shall have the right, in accordance with the terms and conditions of the Securities, to force the transfer of any such Securities. There can be no assurance that a holder of Securities who is required to transfer Securities in this way will not incur a significant loss as a result of the need for the Issuer to find a qualifying transferee willing to purchase the Securities. Neither the Issuer, the Guarantors nor any other party shall be liable to a holder of Securities for any such loss. No payments will be made on the affected Securities from the date notice of the sale requirement is sent to the date on which the Interest is sold.
4. **Rule 144A Information.** Each purchaser of Rule 144A Securities is hereby notified that the offer and sale of such Securities to it is being made in reliance upon the exemption from the registration requirements of the Securities Act provided by Rule 144A thereunder (**Rule 144A**). The Issuer has agreed to furnish to investors upon request such information as may be required by Rule 144A.
5. **ERISA.** Each purchaser and subsequent transferee of any Securities (or any interests therein) will be deemed by such purchase or acquisition of any Securities (or any interests therein) to have represented and warranted, on each day from the date on which the purchaser or transferee acquires the Securities (or any interests therein) through and including the date on which the purchaser or transferee disposes of such Securities (or any interests therein), that either (i) it is not, is not using the assets of and shall not at any time hold such Securities (or any interests therein) for or on behalf of a Benefit Plan Investor (as defined in Section 3(42) of the U.S. Employee Retirement Income Security Act of 1974, as amended (**ERISA**)) or a governmental, church or non-U.S. plan subject to any federal, state, local or non-U.S. laws or regulations substantially similar to Section 406 of ERISA or Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the **Code**), or (ii) its acquisition, holding and disposition of such Securities (or any interest therein) will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, or, in the case of a governmental, church or non-U.S. plan, a violation of any substantially similar federal, state, local or non-U.S. laws or regulations. Each purchaser and subsequent transferee of any Securities (or any interest therein) that is a Benefit Plan Investor will be further deemed to represent, warrant and agree that (i) none of the Issuer, the Principal Agent, the Guarantors, the Dealer(s) or any other party to the transactions referred to in this Base Prospectus, or other persons that provide marketing services, or any of their respective affiliates, has provided, and none of them will provide, any investment recommendation or investment advice to it, or to any fiduciary or other person investing the assets of the Benefit Plan Investor (**Plan Fiduciary**), in connection with its decision to invest in the Securities,

and they are not otherwise undertaking to act as a fiduciary, as defined in Section 3(21) of ERISA or Section 4975(e)(3) of the Code, to the Benefit Plan Investor or the Plan Fiduciary in connection with the Benefit Plan Investor's acquisition of the Securities; and (ii) the Plan Fiduciary is exercising its own independent judgment in evaluating the investment in the Securities.

6. **Base Prospectus.** The purchaser has received the Base Prospectus and the applicable Final Terms and has not relied on any information relating to the Issuer, any Reference Entity, Reference Item and/or Reference Obligation, as applicable, or the Securities, other than information that is contained in the Base Prospectus and the applicable Final Terms or that is publicly available. Each purchaser acknowledges that neither the Issuer, the Guarantors nor any Dealer make any representation or warranty as to the adequacy or completeness of the Base Prospectus for purposes of the ability of the purchaser to make an investment decision with respect to the Securities.
7. **Investigation.** The purchaser has conducted its own investigation of the Securities and the Issuer and the Guarantors and acknowledges that it is not relying on any investigation that the Issuer, the Guarantors, any Dealer or any person representing the Issuer, the Guarantors or any Dealer may have conducted with respect to the Securities, the Issuer or the Guarantors, and that none of such persons has made any representation to it, express or implied, with respect to the Securities, the Issuer or the Guarantors. Each purchaser has had access to such financial and other information concerning the Issuer, the Guarantor and the Securities as it has deemed necessary in connection with its decision to purchase the Securities, including an opportunity to ask questions of and request information from the Issuer and any Dealer.
8. **Knowledge and Experience.** The purchaser is a highly sophisticated institutional investor with extensive knowledge and experience in financial and business matters and expertise in assessing credit and all other relevant risk. The purchaser is capable of evaluating independently, and, notwithstanding the inclusion of only limited information with respect to the Issuer and the Guarantors in the Base Prospectus, has evaluated independently the merits, risks and suitability of the potential purchase of the Securities. The purchaser is relying exclusively on its own sources of information, investigation, credit and legal analysis with respect to the Securities, the Issuer and the Guarantors and it has not relied in any respect on any Dealer with respect to information about the Issuer and the Guarantors in deciding to purchase the Securities. The purchaser is not relying on any communication (written or oral) of the Issuer or the Dealer as investment advice or as a recommendation to invest in the Securities, it being understood that information and explanations related to the terms and conditions of the Securities shall not be considered to be investment advice or a recommendation to invest in the Securities. The purchaser acknowledges and agrees that no communication (written or oral) received from the Issuer or the Dealer shall be deemed to be an assurance or guarantee as to the expected results of the Securities.
9. **Legends on Global Securities.** The purchaser acknowledges that each of the Global Securities will bear legends substantially to the effect set out below and that the Issuer has covenanted not to remove either such legend so long as it shall be necessary for the Issuer to rely on the exception to the 1940 Act set out in Section 3(c)(7) thereof.

Any transfer or other disposition of any Securities or beneficial interest therein that would, in the sole determination of the Issuer, require the Issuer to register as an "investment company" under the provisions of the 1940 Act will be void *ab initio*, and such transfer or other disposition will not be recognised by the Issuer. If, at any time, any Securities or beneficial interest therein are held by or on behalf of a person in the United States or a U.S. person who is not a QIB that is a QP at the time it purchases such Securities, the Issuer may, in its discretion and at the expense and risk of such holder, require any such holder to transfer such Securities to a QIB that is a QP or to a non-U.S. person outside the United States. There can be no guarantee that a holder of Securities who is required to transfer Securities in this way will not incur a significant loss as a result of the need for the Issuer to find a qualifying transferee willing to purchase the Securities. Neither the Issuer, the Guarantors nor any

other party shall be liable to a holder of Securities for any such loss. No payments will be made on the affected Securities from the date notice of the sale requirement is sent to the date on which the interest is sold. The determination of which Securities will be sold in any particular case is in the discretion of the Issuer.

Prospective purchasers are hereby notified that sellers of the Securities may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A and one or more exemptions and/or exclusions from regulation under the CEA.

HISTORY

NHI was the first Japanese securities company to develop its business internationally with the opening in 1927 of a representative office in New York. In Japan, NHI broadened the scope of its business when it began trading in equity securities in 1938 and when it organised the first investment trust in Japan in 1941.

On 1 October 2001, NHI adopted a holding company structure. In connection with this reorganisation, NHI changed its name from "The Nomura Securities Co., Ltd." to "Nomura Holdings, Inc." NHI continues to be listed on the Tokyo Stock Exchange and other stock exchanges on which it was previously listed. A wholly-owned subsidiary of NHI assumed its securities business and was named "Nomura Securities Co., Ltd."

NHI has proactively engaged in establishing a governance framework to ensure transparency in its management. Among other endeavours, when NHI adopted a holding company structure and was listed on the New York Stock Exchange in 2001, NHI installed outside directors. In addition, in June 2003, NHI further strengthened and increased the transparency of its oversight functions by adopting the Company with Three Board Committees, a system in which management oversight and business execution functions are clearly separated.

In 2008, to pave the way for future growth, NHI acquired and integrated the operations of Lehman Brothers in Asia Pacific, Europe and the Middle East.

In 2025, NHI acquired the U.S. and European public asset management business of Macquarie Group Limited.

Information Concerning NHI's Directors

The Companies Act of Japan states that a “Company with Three Board Committees” (as defined below) must establish three committees; a nomination committee, an audit committee and a compensation committee. The members of each committee are chosen from the company's directors, and the majority of the members of each committee must be outside directors. At a Company with Three Board Committees, the board of directors is entitled to establish the basic management policy for the company, has decision-making authority over certain prescribed matters, and supervises the execution by the executive officers of their duties. Executive officers and representative executive officers appointed by a resolution adopted by the board of directors manage the business affairs of the company, based on a delegation of authority by the board of directors.

NHI has a corporate governance structure that separates management oversight functions from business execution functions (“Company with Three Board Committees”). Through this governance structure, NHI aims to strengthen management oversight, increase the transparency of NHI's management and expedite the decision-making process within the Nomura Group. NHI has, in addition to the Board of Directors and the Nomination/Audit/Compensation committees, established the “Board Risk Committee”, which is a non-statutory committee that has the purpose of deepening the oversight of risk management by the Board of Directors.

An outline of NHI's Board of Directors, Nomination Committee, Audit Committee, Compensation Committee and Board Risk Committee is provided below.

Board of Directors

NHI's Board of Directors consists of directors who are elected at a general meeting of shareholders and NHI's Articles of Incorporation provide that the number of directors shall not exceed twenty. The term of office of each director expires upon the conclusion of the ordinary general meeting of shareholders with respect to the last fiscal year ending within one year after their appointment. Directors may serve any number of consecutive terms. From among its members, NHI's Board of Directors elects a Chairman. NHI's Board of Directors met eleven times during the year ended 31 March 2026. As a group, NHI's directors attended 98 per cent. of the total number of meetings of NHI's Board of Directors during the year.

NHI's Board of Directors has the authority to determine NHI's basic management policy and supervise the execution by the executive officers of their duties. Although NHI's Board of Directors also has the authority to make decisions with regard to NHI's business, most of this authority has been delegated to the executive officers by a resolution adopted by NHI's Board of Directors. There are no directors' service contracts with NHI or any of its subsidiaries providing for benefits upon termination of employment. As of 23 June 2026, the members of NHI's Board of Directors are Koji Nagai, Kentaro Okuda, Yutaka Nakajima, Shoji Ogawa, Victor Chu, Patricia Mosser, Takahisa Takahara, Miyuki Ishiguro, Masahiro Ishizuka, Taku Oshima and Nellie Liang. Koji Nagai is the Chairman of the Board.

Nomination Committee

NHI's Nomination Committee, in accordance with law and NHI's Regulations of the Nomination Committee, determines the details of any proposals concerning the election and dismissal of directors to be submitted to general meetings of shareholders by NHI's Board of Directors. NHI's Nomination Committee met six times during the fiscal year ended 31 March 2026. As a group, the member directors attended all of the meetings of the Nomination Committee during the year after their appointment as the members of the Nomination Committee. As of 23 June 2026, the members of the Nomination Committee are outside directors Taku Oshima, Takahisa Takahara and Miyuki Ishiguro. Taku Oshima is the Chairman of this Committee.

Audit Committee

NHI's Audit Committee, in accordance with law and NHI's Regulations of the Audit Committee, (i) audits the execution by the directors and the executive officers of their duties and the preparation of audit reports and (ii) determines the details of proposals concerning the election, dismissal or non-reappointment of the accounting auditor to be submitted to general meetings of shareholders by NHI's Board of Directors. With respect to financial reporting, NHI's Audit Committee has the statutory duty to examine financial statements and business reports to be prepared by executive officers designated by NHI's Board of Directors and is authorised to report its opinion to the ordinary general meeting of shareholders.

NHI's Audit Committee met thirteen times during the fiscal year ended 31 March 2026. As a group, the member directors attended 97 per cent. of the meetings of the Audit Committee during the year after their appointment as the members of the Audit Committee. As of 23 June 2026, the members of the Audit Committee are outside directors Masahiro Ishizuka and Victor Chu, and Shoji Ogawa, a full-time member of the Audit Committee and a director not concurrently serving as an executive officer. Masahiro Ishizuka is the Chairman of this Committee.

Compensation Committee

NHI's Compensation Committee, in accordance with law and NHI's Regulations of the Compensation Committee, determines NHI's policy with respect to the determination of the details of each director and executive officer's compensation. NHI's Compensation Committee also determines the details of each director and executive officer's actual compensation. NHI's Compensation Committee met five times during the fiscal year ended 31 March 2026. As a group, the member directors attended 97 per cent. of the meetings of the Compensation Committee during the year after their appointment as the members of the Compensation Committee. Board Risk Committee

NHI's Board Risk Committee is a non-statutory organ, in accordance with NHI's Regulations of the Board Risk Committee, and its purpose is to assist the Board of Directors in supervising the Nomura Group's risk management and to contribute to sophistication of its risk management. At meetings of the Board Risk Committee, to further strengthen the risk management of Nomura Group, deliberations are mainly in regard to consenting to the Risk Appetite Statement and the main design of the risk management framework, analysis of risk environment/verification results and future projections, supervision of overall execution of risk management and medium- to long-term risk strategies. The status of execution of the function in the Board Risk Committee is reported to the Board of Directors. NHI's Board Risk Committee met five times during the fiscal year ended 31 March 2026. As a group, the member directors attended 96 per cent. of the meetings of the Board Risk Committee during the year after their appointment as the members of the Board Risk Committee. As of 23 June 2026 the members of the Board Risk Committee are outside directors Patricia Mosser, Miyuki Ishiguro and Nellie Liang, and Shoji Ogawa, a director not concurrently serving as an executive officer. Patricia Mosser is the Chairperson of this Committee.

Limitation of Director Liability

In accordance with Article 33, Paragraph 2 of NHI's Articles of Incorporation and Article 426, Paragraph 1 of the Companies Act of Japan, NHI may execute agreements with directors (excluding a person who serves as an executive director, etc.) that limit their liability to NHI for damages suffered by NHI if they acted in good faith and without gross negligence. Accordingly, NHI has entered into agreements to limit Companies Act of Japan Article 423 Paragraph 1 liability for damages (Limitation of Liability Agreements) with each of the following directors: Shoji Ogawa, Victor Chu, Patricia Mosser, Takahisa Takahara, Miyuki Ishiguro, Masahiro Ishizuka, Taku Oshima and Nellie Liang. **OVERVIEW OF THE COLLATERAL ARRANGEMENTS
IN RESPECT OF
EACH SERIES OF SECURED SECURITIES**

The collateral arrangements described below will only apply in respect of Secured Securities where Annex 17 is applicable.

Nomura International plc (the **Collateral Provider**) will provide collateral in support of its obligations under the Secured Securities Guarantee in respect of all Series of Secured Securities issued under the Programme. Such collateral will be in the form of one or more security interests over certain assets that are specified as "Collateral Assets" in the relevant Final Terms and/or that satisfy the relevant Eligibility Criteria on the date that any such asset is to be credited to the relevant securities or cash account (each, a **Collateral Account**) with the relevant custodian (the **Collateral Custodian**), as specified in the relevant Final Terms (**Collateral Assets**).

For the purposes hereof, **Eligible Collateral Assets** means, as determined by the Collateral Agent:

- (i) any asset specified as such in the relevant Final Terms; and
- (ii) any asset that satisfies the relevant Eligibility Criteria on the date that it is to be credited to the relevant Collateral Account.

By way of an example, assets that may be eligible to qualify as **Eligible Collateral Assets** (subject to the definition of "Eligible Collateral Assets") may include, without limitation:

- (a) cash;
- (b) money market funds;
- (c) bank deposits;
- (d) debt securities (including but not limited to covered bonds, convertible securities, structured finance securities, subordinated securities and asset backed securities), in each case, issued or guaranteed by a government, government agency or supranational organisation, a corporate or a financial institution;
- (e) equity securities or shares or units in a fund;
- (f) any other negotiable financial instruments (including, without limitation, warrants);
- (g) commodities; and/or
- (h) any other public or private asset in a securitised (whether cash or "synthetic") or other contractual form which the Collateral Provider is allowed to purchase, receive or hold.

In addition to the Eligibility Criteria, the applicable Final Terms may (but need not) set out any collateral rules that must be satisfied in order for the Collateral Test to be satisfied on any Collateral Test Date (the **Collateral Rules**). The Collateral Rules may, for example, include requirements relating to the diversification of types of Collateral Assets, the concentration of the Collateral Assets, the geographical location of the Collateral Assets or the currency of the Collateral Assets which may comprise a Collateral Pool and/or any other limitations, restrictions and/or requirements concerning the Collateral Assets comprised in the relevant Collateral Pool, in each case, as may be specified in the applicable Final Terms.

Each Series of Secured Securities will benefit from the security interests created by: (i) the English law charging provisions in the Security Trust Deed that are specified to be applicable in the applicable Final Terms;

(ii) where Euroclear is the Collateral Custodian and "Belgian Pledge Agreement" is specified to be applicable in the applicable Final Terms, the Belgian Pledge Agreement; and (iii) where applicable, one or more Supplementary Security Documents, in each case, governed by the laws of the jurisdiction in which the relevant Collateral Asset(s) are located and/or by the laws governing the relevant Charged Asset(s), in each case, concluded on or about the Relevant Issue Date between the Collateral Provider and the other parties thereto, pursuant to which the Collateral Provider will purport to create (*inter alia*) a first ranking security interest over Collateral Assets credited to one or more Collateral Accounts held by the Collateral Provider with the relevant Collateral Custodian, in each case, in favour of the Security Trustee for itself and on behalf of other Secured Parties (the **Security Interests**). The Security Interests in respect of the Collateral Assets will be granted to the Security Trustee as continuing security for the payment by the Collateral Provider of all sums due pursuant to the Secured Securities Guarantee.

In respect of Collateral Assets making up a Multiple Series Collateral Pool, to the extent necessary to extend the benefit of the relevant Security Agreement(s) to such Series of Secured Securities, the relevant Security Agreement(s) will be supplemented from time to time by an Extension Notice to extend the benefit of the relevant Security Agreement(s) to other Series or Tranches of Secured Securities.

The terms and operation of the collateral arrangements with respect to any Series of Secured Securities (subject to the following paragraph) depend on:

- (a) whether the "Type of Secured Securities" is specified as "Collateral-Backed Securities" or "Reference Bond-Linked Securities";
- (b) in the case of a Series where "Collateral-Backed Securities" is specified as the "Type of Secured Securities", whether the "Type of Collateral Pool" specified in the relevant Final Terms is "Single Series Collateral Pool" or "Multiple Series Collateral Pool". "Single Series Collateral Pool" will always apply to a Series of Secured Securities where the "Type of Secured Securities" is specified as "Reference Bond-Linked Securities"; and
- (c) whether the "*Type of Collateralisation*" for such Series is: (a) "Static Collateral"; (b) "Margined Collateral"; or (c) "Initial and MTM Collateral".

As each Series of Secured Securities will be Exempt Securities, notwithstanding anything to the contrary in this Base Prospectus, the "*Type of Collateralisation*" specified in the relevant Final Terms may be different to the "Static Collateral", "Margined Collateral" or "Initial and MTM Collateral" arrangements described below and, in each case, the provisions that govern such different "*Type of Collateralisation*", including (without limitation) the custody arrangements with the relevant Collateral Custodian and the security arrangements with the Security Trustee, will be set out in the applicable documentation for the relevant Series of Secured Securities.

1. SINGLE SERIES COLLATERAL POOL ARRANGEMENTS

In respect of each Series of Secured Securities in respect of which "Single Series Collateral Pool" is specified in the relevant Final Terms, such Series of Secured Securities will be the only Series of Securities to be secured by the Collateral Pool. Where the "Type of Secured Securities" is specified in the applicable Final Terms as "Reference Bond-Linked Securities", "Single Series Collateral Pool" will be specified in the relevant Final Terms as applicable to such Series of Secured Securities.

Type of Collateralisation

The "*Type of Collateralisation*" for such Series of Secured Securities will be specified in the relevant Final Terms to be (i) "Static Collateral", (ii) "Margined Collateral" or (iii) "Initial and MTM Collateral".

(i) *Static Collateral*

If the "*Type of Collateralisation*" specified in the applicable Final Terms is "Static Collateral", the Collateral Asset(s) in respect of the relevant Series of Secured Securities will either: (i) be a specific asset or specific assets; or (ii) satisfy the relevant Eligibility Criteria, in each case, specified in the applicable Final Terms as or applicable to the "Static Collateral" and that, as at the Relevant Issue Date, will have a notional or nominal amount then equal to, in the case of N&C Securities, the notional or nominal amount of the Series of Secured Securities or such other amount specified in the applicable Final Terms and, in the case of W&C Securities, the amount specified in the applicable Final Terms (the **Required Collateral Value**).

The Collateral Assets will be held in one or more Collateral Accounts with the relevant Collateral Custodian and the Security Interests over the Collateral Assets held in the relevant Collateral Account(s) where the Collateral Custodian is Euroclear will be the Belgian Pledge Agreement.

The Collateral Provider will not be required to transfer more Collateral Assets to the relevant Collateral Custodian to be held in the relevant Collateral Account(s), and the relevant Collateral Custodian will not be required to transfer Collateral Assets to the Collateral Provider, as a result of any increase or decrease, respectively, in the market value of the relevant Series of Secured Securities or the relevant Collateral Assets.

The Collateral Provider will not be permitted to remove or substitute Collateral Assets credited to such Collateral Account(s).

(ii) *Margined Collateral*

If the "*Type of Collateralisation*" specified in the applicable Final Terms is "Margined Collateral", the required Collateral Value will be calculated by the Collateral Valuation Agent on each Collateral Test Date based on the "*Collateralisation Value Type*" that is specified in the Final Terms and described in more detail below (the **Required Collateral Value**). Unless the Final Terms specify "NV Collateralisation" as being the Collateralisation Value Type, the Collateral Valuation Agent will be required to use the Secured Security Market Value determined by the Securities Valuation Agent in determining the Required Collateral Value.

In relation to a Single Series Collateral Pool, the Required Collateral Value will be determined by the Collateral Valuation Agent on the Issue Date and on each relevant Collateral Test Date in respect of such Series of Secured Securities as follows:

- (A) if "*MV Collateralisation*" is specified as being the Collateralisation Value Type applicable in the relevant Final Terms, the **Required Collateral Value** shall be equal to the product of:
 - (I) the Collateralisation Percentage;
 - (II) the Secured Security Market Value; and
 - (III) the number of Non-Waived Secured Securities of such Series;
- (B) if "NV Collateralisation" is specified as being the Collateralisation Value Type applicable in the relevant Final Terms, the **Required Collateral Value** shall be equal to the product of:
 - (I) the Collateralisation Percentage; and
 - (II) the total aggregate nominal amount of the Non-Waived Secured Securities of such Series or, in the case of W&C Securities, the product of the total number of Non-Waived Secured Securities and the Notional Amount per W&C Security specified in the applicable Final Terms;

- (C) if "*Min (MV, NV) Collateralisation*" is specified as being the Collateralisation Value Type applicable in the relevant Final Terms, the **Required Collateral Value** shall be equal to the lower of:
- (I) the product of:
 - (1) the Collateralisation Percentage;
 - (2) the Secured Security Market Value; and
 - (3) the number of Non-Waived Secured Securities in such Series of Secured Securities; and
 - (II) the product of:
 - (1) the Collateralisation Percentage; and
 - (2) the total aggregate nominal amount of the Non-Waived Secured Securities of such Series or, in the case of W&C Securities, the product of the total number of Non-Waived Secured Securities and the Notional Amount per W&C Security specified in the applicable Final Terms; or
- (D) if "*Max (MV, NV) Collateralisation*" is specified as being the Collateralisation Value Type applicable in the relevant Final Terms, the **Required Collateral Value** shall be equal to the greater of:
- (I) the product of:
 - (1) the Collateralisation Percentage;
 - (2) the Secured Security Market Value; and
 - (3) the number of Non-Waived Secured Securities in such Series of Secured Securities; and
 - (II) the product of:
 - (1) the Collateralisation Percentage; and
 - (2) the total aggregate nominal amount of the Non-Waived Secured Securities of such Series or, in the case of W&C Securities, the product of the total number of Non-Waived Secured Securities and the Notional Amount per W&C Security specified in the applicable Final Terms.

The Collateral Provider will be required where necessary to transfer additional Eligible Collateral Assets to the relevant Collateral Custodian to be held in the applicable Collateral Account(s) to ensure that on each Collateral Test Date, the Collateral Test would be satisfied on such Collateral Test Date if such additions or replacements, as applicable, to the relevant Collateral Pool had been effective on such Collateral Test Date. The Collateral Agent (on behalf of the Collateral Provider): (i) will select the type and quantity of Eligible Collateral Assets to be added to the relevant Collateral Account(s); and (ii) may select existing Collateral Assets in the Collateral Pool to be replaced with the Eligible Collateral Assets that are selected by the Collateral Agent to ensure that on each Collateral Test Date, the Collateral Test would be satisfied on such Collateral Test Date if such additions or replacements, as applicable, to the relevant Collateral Pool had been effective on such Collateral Test Date.

If on any relevant Collateral Test Date, the Collateral Agent determines that the Collateral Test is satisfied for the relevant Collateral Pool and that the Collateral Value is greater than the Required Collateral Value, the Collateral Agent shall be entitled (on behalf of the Collateral Provider) to select the type and quantity of Collateral Assets to be removed from the relevant Collateral Account(s), *provided that* the Collateral Test would continue to be satisfied on such Collateral Test Date if such removal had been effective on such Collateral Test Date.

In respect of any relevant Collateral Test Date, the Collateral Agent may (on behalf of the Collateral Provider) select the type and quantity of existing Collateral Assets to be substituted with Eligible Collateral Assets that are selected by the Collateral Agent, *provided that* the Collateral Test would continue to be satisfied on such Collateral Test Date if such removal had been effective on such Collateral Test Date.

(iii) *Initial and MTM Collateral*

If, in respect of any relevant Series of Reference Bond-Linked Securities, the "*Type of Collateralisation*" specified in the applicable Final Terms is "Initial and MTM Collateral", the Collateral Assets will be comprised by two elements, the "Initial Collateral" and the "MTM Collateral", as further described below.

(A) *Initial Collateral element of "Initial and MTM Collateral"*

In respect of the Initial Collateral, Collateral Assets (the **Initial Collateral Assets**) in respect of any relevant Series of Secured Securities will be a specific asset or specific assets that are Equivalent to the Reference Obligation specified in the applicable Final Terms that as at the Relevant Issue Date will have a notional or nominal amount then equal to the amount specified as the "Initial Collateral Assets Notional Amount" in the applicable Final Terms (the **Initial Collateral Assets Notional Amount**).

The **Required ICA Value** in respect of the Initial Collateral Assets will be:

- (i) as at the Relevant Issue Date, an amount equal to the Initial Collateral Assets Notional Amount; and
- (ii) as at each Collateral Test Date thereafter, an amount equal to the greater of: (a) zero; and (b)(1)(a) the Eligible Asset Collateral Value in respect of a principal amount of Initial Collateral Assets that is equal to the Initial Collateral Assets Notional Amount; *minus* (b) the product of: (x) Collateralisation Percentage A; and (y) the Swap MTM Value (expressed as a positive number if the value would be positive to Counterparty B and which will be deemed to be zero if the Swap MTM Value is zero or would be negative to Counterparty B); *multiplied by* (2) the Relevant Ratio.

Such Initial Collateral Assets will be held in one or more Collateral Accounts with the relevant Collateral Custodian.

On each Collateral Test Date after the Relevant Issue Date, the Calculation Agent will determine the Swap MTM Value and the Collateral Agent will determine whether the Eligible Asset Collateral Value of the Initial Collateral Assets is greater than or equal to the Required ICA Value.

If such Collateral Test is not satisfied for the Initial Collateral Assets in the relevant Collateral Pool, the Collateral Agent (on behalf of the Collateral Provider) will add to the relevant Collateral Account an aggregate amount of Collateral Assets Equivalent to the Reference Obligation specified in the applicable Final Terms in order that the Eligible Asset Collateral Value of the Initial Collateral Assets would be at least equal to the Required ICA Value on the relevant Collateral Test Date if such additions had been effective on such Collateral Test Date.

For these purposes, **Equivalent** means in respect of a Reference Obligation an asset that: (i) constitutes an obligation of the same issuer issuing such Reference Obligation or of another relevant obligor; (ii) is part of

the same issue relating to the relevant Reference Obligation; and (iii) is of an identical nominal value, type, description and amount of the relevant Reference Obligation.

On any relevant Collateral Test Date, if the Eligible Asset Collateral Value of the Initial Collateral Assets is greater than the Required ICA Value, the Collateral Agent (on behalf of the Collateral Provider) will be entitled to remove an aggregate amount of Initial Collateral Assets from the relevant Collateral Account, *provided that* the Eligible Asset Collateral Value of the Initial Collateral Assets would continue to be at least equal to the Required ICA Value on such Collateral Test Date immediately after such removal.

(B) *MTM Collateral element of "Initial and MTM Collateral"*

Required MTM Value Collateral Assets

In respect of Margined Collateral, such Collateral Assets (the **MTM Collateral Assets**) in respect of any relevant Series of Secured Securities will be selected by the Collateral Agent in its sole discretion on behalf of the Collateral Provider, *provided that*:

- (i) such MTM Collateral Assets are Eligible Collateral Assets (where, for the avoidance of doubt, such Eligible Collateral Assets need not be Equivalent to the Reference Obligation); and
- (ii) the **Required MTM Value** in respect of the MTM Collateral Assets (determined as if the MTM Collateral Assets were the only Collateral Assets) will be:
 - (a) as at the Relevant Issue Date, zero; and
 - (b) as at each Collateral Test Date thereafter, an amount equal to the greater of: (1) zero; and (2)(A) the product of: (x) Collateralisation Percentage B; and (y) the Swap MTM Value (if the value would be positive to Counterparty A which will be deemed to be zero if the Swap MTM Value is zero or negative to Counterparty A); *multiplied by* (B) the Relevant Ratio.

The MTM Collateral Assets may be held in one or more Collateral Account(s).

The Collateral Agent (on behalf of the Collateral Provider) will have the right to specify what portion of the MTM Collateral Assets will be held in one or more Collateral Account(s) from time to time.

On each Collateral Test Date after the Relevant Issue Date, the Calculation Agent will determine the Swap MTM Value and the Collateral Agent will determine whether the Eligible Asset Collateral Value of the MTM Collateral Assets is greater than or equal to the Required MTM Value.

If the Eligible Collateral Value of the MTM Collateral Assets is less than the Required MTM Value, the Collateral Agent (on behalf of the Collateral Provider): (A) will select the type and quantity of Eligible Collateral Assets to be added to the relevant Collateral Account; and (B) may select existing MTM Collateral Assets in the Collateral Pool to be replaced with Eligible Collateral Assets that are selected by the Collateral Agent, in order that the Eligible Asset Collateral Value of the MTM Collateral Assets would be at least equal to the Required MTM Value on the relevant Collateral Test Date if such additions or replacements, as applicable, had been effective on such Collateral Test Date.

If the Eligible Asset Collateral Value of the MTM Collateral Assets is greater than the Required MTM Value, the Collateral Agent (on behalf of the Collateral Provider) will be permitted to select the type and quantity of MTM Collateral Assets to be removed from the relevant Collateral Pool, *provided that* the Eligible Asset Collateral Value of the MTM Collateral Assets would continue to be at least equal to the Required MTM Value on the relevant Collateral Test Date immediately after such removal.

Enforcement of the Security Interest

The Security Interests in respect of a Series of Secured Securities will become only enforceable if all of the conditions described below are satisfied:

- (a) *firstly*, the Issuer (a) fails to pay any amount in respect of principal or interest or any other amount payable by the Issuer on any Secured Security in such Series of Secured Securities within 30 days of it becoming due; or (b) fails to deliver the Collateral Assets Entitlement and/or any other asset deliverable by the Issuer in respect of any Secured Security in such Series of Secured Securities within five Collateral Business Days of it becoming deliverable;
- (b) *secondly*, Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding principal amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of the Non-Waived Secured Securities of the relevant Series of Secured Securities exercise their rights to cause such Series of Securities to become due and payable and for a Secured Security Acceleration Event to occur;
- (c) *thirdly*, within one Business Day of the occurrence of a Secured Security Acceleration Event, the Issuer shall give notice of such Secured Security Acceleration Event to all Securityholders of the relevant Series, the Disposal Agent and all other relevant Secured Parties;
- (d) *fourthly*, if the Issuer has not paid (or delivered, as applicable) all amounts due to Securityholders of the relevant Series of Secured Securities within a period of 10 Collateral Business Days (or such other period as specified in the applicable Final Terms) following notification to Securityholders of the occurrence of such Secured Security Acceleration Event, Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding aggregate amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of the Non-Waived Series of Secured Securities of the relevant Series instruct the Security Trustee to request payment in full pursuant to the Secured Securities Guarantee by sending an SSG Notice to the Collateral Provider (with a copy of the Disposal Agent and the Issuer);
- (e) *fifthly*, the Collateral Provider has not paid all amounts due under the Secured Securities Guarantee to Securityholders of such Series within a period of 10 Collateral Business Days following receipt of such notice; and
- (f) *sixthly*, Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding aggregate amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of the Non-Waived Secured Securities of the relevant Series of Secured Securities have delivered a Collateral Enforcement Notice to the Security Trustee.

The Security Trustee (subject to being indemnified and/or secured and/or pre-funded to its satisfaction) (or, if "Security Trust Deed – Charging Provisions" is specified as applicable in the relevant Final Terms in the event that any Charged Assets are located in England or Wales and therefore in respect of an English law charge only, any appointed receiver), will be required to enforce such Security Interests following the occurrence of such Secured Security Acceleration Event only upon receipt of a Collateral Enforcement Notice.

Application of proceeds and payments

Unless "*Physical Delivery of Collateral Assets*" is specified as "Applicable" in the applicable Final Terms, after the liquidation or realisation of the Collateral Assets and the enforcement of the relevant Security Agreement(s) in respect of the relevant Series of Secured Securities in accordance with Secured Securities Condition 7.8, the Security Trustee shall use the proceeds of such realisation and liquidation of the Collateral Assets and (where applicable) enforcement of the relevant Security Agreement(s) in respect of the relevant Series of Secured Securities to make payment of any amounts payable to the Secured Parties ranking prior to

the holders of Non-Waived Secured Securities in accordance with the following Order of Priority on or prior to the Effective Redemption Date:

- (a) *first*, to pay or satisfy all Secured Liabilities incurred by or payable by the Collateral Provider to the Security Trustee;
- (b) *second*, to pay or satisfy (on a *pro rata* and *pari passu* basis) all Secured Liabilities incurred by or payable by the Collateral Provider to the Disposal Agent (other than in the event that NIP is the Disposal Agent), the relevant Collateral Custodian and any Collateral Monitoring Agent of each relevant Series of Secured Securities; and
- (c) *third*, to pay or satisfy (on a *pro rata* and *pari passu* basis) all Secured Liabilities incurred by or payable by the Collateral Provider to the Agents (as applicable and other than in the case of any relevant Agent that is NIP), the Securities Valuation Agent (if applicable and unless the Securities Valuation Agent is NIP), the Collateral Agent (if applicable and unless the Collateral Agent is NIP) and the Collateral Valuation Agent (if applicable and unless the Collateral Valuation Agent is NIP) of each relevant Series of Secured Securities.

The Calculation Agent shall, after the realisation and liquidation of the Collateral Assets in respect of the relevant Series of Secured Securities in accordance with Secured Securities Condition 7.8, determine the Collateral Liquidation Proceeds Share in respect of each Non-Waived Secured Security of a Series of Secured Securities that are: (i) Collateral-Backed Securities, on the Realisation Period End Date; and (ii) Reference Bond-Linked Securities, on the Early Payment Valuation Date, and, in each case, shall notify (or procure the notification of) such amounts to the relevant Securityholders and the Security Trustee in accordance with the Conditions.

Subject as provided below, following payment of all amounts due and payable (if any) to the Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with, and in the order set out in the Order of Priority, the Collateral Liquidation Proceeds Share will then be applied in meeting the claims of Securityholders of Non-Waived Secured Securities which are secured by the relevant Collateral Pool on a *pro rata* and *pari passu* basis on the Effective Redemption Date.

Such claims of the relevant Securityholders will be adjusted by the Calculation Agent in accordance with the following rules:

- (a) if the Collateral Liquidation Proceeds Share for a particular Secured Security is in excess of the difference between: (A) the Early Redemption Amount payable in respect of such Secured Security; and (B) any amounts which have been paid to such Securityholder by the Issuer and the Collateral Provider in respect of the relevant Early Redemption Amount pursuant to such Secured Security (such difference being the **Outstanding Early Redemption Amount**) then such excess amount will not be distributed to such Securityholder but will be distributed to the Secured Parties ranking after the holders of Non-Waived Secured Securities in accordance with the Order of Priority, being:
 - (i) *first*, to pay (on a *pro rata* and *pari passu* basis) all Secured Liabilities incurred by or payable by the Collateral Provider to holders of Waived Secured Securities pursuant to the Secured Securities Guarantee; and
 - (ii) *second*, to pay the balance (if any) to the Collateral Provider; and
- (b) if the Collateral Liquidation Proceeds Share for a particular Secured Security is lower than the Outstanding Early Redemption Amount then:

- (i) each Securityholder shall have a claim against the Issuer for an aggregate amount, in respect of each Secured Security, equal to, the difference between the Outstanding Early Redemption Amount and the Collateral Liquidation Proceeds Share for such Secured Security;
- (ii) upon any payment being made by the Issuer and/or the Collateral Provider to Securityholders of amounts due and payable to Securityholders in respect of such Series of Secured Securities, the Secured Securities shall be deemed to have been redeemed or cancelled, as the case may be, in a portion which corresponds to the amount of such payment, on the date of such payment; and
- (iii) until the Secured Liabilities have been paid in full, then:
 - (A) the Securityholders shall have a claim against the Issuer under the outstanding Secured Securities and (if applicable) the Collateral Provider under the Secured Securities Guarantee in respect of any further amounts owed to them which remain unpaid; and
 - (B) upon all Secured Liabilities having been paid in full, the relevant Series of Secured Securities shall be redeemed or cancelled, as the case may be, in full,

and the Calculation Agent shall notify (or procure the notification of) the Securityholders of the relevant Series (with a copy to the Security Trustee) of such adjusted claims in accordance with the Conditions as soon as reasonably practicable following the determination of those claims by the Calculation Agent.

Collateral Provider's unsecured claim against Issuer for reimbursement

Following payment by the Collateral Provider under the Secured Securities Guarantee and/or enforcement of the Security Agreement(s) and application of the proceeds thereof in full in accordance with the Order of Priority, the Collateral Provider will have an unsecured claim against the Issuer for an amount that is equal to the amount that the Collateral Provider has paid pursuant to the Secured Securities Guarantee (if any) and (without double counting and excluding any Secured Liabilities paid by the Collateral Provider to any Collateral Service Provider(s) appointed by the Collateral Provider) the amount of Secured Liabilities that has been discharged and satisfied in connection with the enforcement of the relevant Security Agreement(s).

2. MULTIPLE SERIES COLLATERAL POOL ARRANGEMENTS

In respect of each Series of Secured Securities in respect of which "Multiple Series Collateral Pool" is specified in the relevant Final Terms, the relevant Collateral Pool will secure that Series of Secured Securities as well as other Series of Secured Securities that are Linked Secured Securities in respect of such Collateral Pool. Where the "Type of Secured Securities" is specified in the applicable Final Terms as "Reference Bond-Linked Securities", "Multiple Series Collateral Pool" will not be specified in the relevant Final Terms as applicable to such Series of Secured Securities.

Each Series of Secured Securities specified as "Collateral-Backed Securities" and secured pursuant to a Multiple Series Collateral Pool must: (i) be subject to the same governing law; (ii) be subject to the same method of distribution of Collateral Assets following enforcement of the applicable Security Agreement(s) (i.e., exclusively either subject to "*Physical Delivery of Collateral Assets*" or not subject to "*Physical Delivery of Collateral Assets*"); (iii) be subject to the same Eligibility Criteria and Collateral Rules; (iv) be subject to the same Haircut value(s) for each type or class of Eligible Collateral Assets; (v) have the same Collateral Test Dates; and (iv) have the same Collateralisation Percentage.

If Multiple Series Collateral Pool is applicable, following enforcement of the relevant Security Agreement(s), all Series of Secured Securities specified as "Collateral-Backed Securities" and secured on same Collateral Pool shall share in the distribution of the proceeds of realisation of the Collateral Assets constituting such

Collateral Pool or, where the clause "*Physical Delivery of Collateral Assets*" is specified as "Applicable" in the applicable Final Terms, in the delivery of the Collateral Assets contained in such Collateral Pool. For the avoidance of doubt, the proceeds of any such realisation or the delivery of the Collateral Assets will, in each case, be shared across all Series of Linked Secured Securities on a *pro rata* and *pari passu* basis.

Securityholders acquiring and holding Secured Securities specified as "Collateral-Backed Securities" in relation to a Multiple Series Collateral Pool will be deemed to acknowledge, accept and agree to the rights of existing and future Securityholders of different Series of Secured Securities to share on a *pari passu* basis and rateably in the security created over the Collateral Assets in the Multiple Series Collateral Pool.

Type of Collateralisation

The "*Type of Collateralisation*" for such Series of Secured Securities will be specified in the relevant Final Terms to be (i) "Static Collateral", or (ii) "Margined Collateral".

Static Collateral

If the "*Type of Collateralisation*" specified in the applicable Final Terms is "Static Collateral", the Collateral Asset(s) in respect of the relevant Series of Secured Securities that are Linked Secured Securities will either: (i) be a specific asset or specific assets; or (ii) satisfy the relevant Eligibility Criteria, in each case, specified in the applicable Final Terms as or applicable to the "Static Collateral" and that, as at the Relevant Issue Date, will have a notional or nominal amount then equal to, in the case of N&C Securities, the notional or nominal amount of the Series of Secured Securities or such other amount specified in the applicable Final Terms and, in the case of W&C Securities, the amount specified in the applicable Final Terms (the **Required Collateral Value**).

The Collateral Assets will be held in one or more Collateral Accounts with the relevant Collateral Custodian and the Security Interests over the Collateral Assets held in the relevant Collateral Account(s) where the Collateral Custodian is Euroclear will be the Belgian Pledge Agreement.

The Collateral Provider will not be required to transfer more Collateral Assets to the relevant Collateral Custodian to be held in the relevant Collateral Account(s), and the relevant Collateral Custodian will not be required to transfer Collateral Assets to the Collateral Provider, as a result of any increase or decrease, respectively, in the market value of any relevant Series of Secured Securities that are Linked Secured Securities or the relevant Collateral Assets.

The Collateral Provider will not be permitted to remove or substitute Collateral Assets credited to such Collateral Account(s).

Margined Collateral

If the "*Type of Collateralisation*" specified in the applicable Final Terms is "Margined Collateral", the required Collateral Value will be calculated by the Collateral Valuation Agent on each Collateral Test Date based on the "*Collateralisation Value Type*" that is specified in the Final Terms and described in more detail below (the **Required Collateral Value**). Unless the Final Terms specify "NV Collateralisation" as being the Collateralisation Value Type, the Collateral Valuation Agent will be required to use the Secured Security Market Value determined by the Securities Valuation Agent in determining the Required Collateral Value.

In relation to a Multiple Series Collateral Pool, the Required Collateral Value will be determined by the Collateral Valuation Agent on the Issue Date and on each other relevant Collateral Test Date in respect of each Series of Secured Securities secured by the relevant Collateral Pool as follows:

- (A) if "MV Collateralisation" is specified as being the Collateralisation Value Type applicable in the relevant Final Terms, the Required Collateral Value shall be equal to the sum of the amounts calculated in respect of each such Series of Secured Securities, being the product of:
- (I) the Collateralisation Percentage;
 - (II) the Secured Security Market Value; and
 - (III) the number of Non-Waived Secured Securities of the relevant Series;
- (B) if "NV Collateralisation" is specified as being the Collateralisation Value Type applicable in the relevant Final Terms, the Required Collateral Value shall be equal to the sum of the amounts calculated in respect of each such Series of Secured Securities, being the product of:
- (I) the Collateralisation Percentage; and
 - (II) the total aggregate nominal amount of the Non-Waived Secured Securities of the relevant Series or, in the case of W&C Securities, the product of the total number of Non-Waived Secured Securities and the Notional Amount per W&C Security specified in the applicable Final Terms;
- (C) if "Min (MV, NV) Collateralisation" is specified as being the Collateralisation Value Type applicable in the relevant Final Terms, the Required Collateral Value shall be equal to the sum of each of the lower of the amounts calculated in respect of each such Series of Secured Securities as follows:
- (I) the product of:
 - (1) (the Collateralisation Percentage;
 - (2) the Secured Security Market Value; and
 - (3) the number of Non-Waived Secured Securities in the relevant Series of Secured Securities; and
 - (II) the product of:
 - (1) the Collateralisation Percentage; and
 - (2) the total aggregate nominal amount of the Non-Waived Secured Securities of the relevant Series or, in the case of W&C Securities, the product of the total number of Non-Waived Secured Securities and the Notional Amount per W&C Security specified in the applicable Final Terms; or
- (D) where "Max (MV, NV) Collateralisation" is specified as being the Collateralisation Value Type applicable in the applicable Final Terms, the Required Collateral Value shall be equal to the sum of the greater of the amount calculated in respect of each such Series of Secured Securities as follows:
- (I) the product of:
 - (1) the Collateralisation Percentage;
 - (2) the Secured Security Market Value; and

- (3) the number value of the Non-Waived Secured Securities of the relevant Series; and
- (II) the product of:
 - (1) the Collateralisation Percentage; and
 - (2) the total aggregate nominal amount of the Non-Waived Secured Securities of the relevant Series or, in the case of W&C Securities, the product of the total number of Non-Waived Secured Securities and the Notional Amount per W&C Security specified in the applicable Final Terms.

Enforcement of the Collateral Pool Security Interest

The Security Interests granted to pursuant to the Security Agreements relating to the relevant Collateral Pool securing the Linked Secured Securities will only become enforceable if all of the conditions below are satisfied:

- (a) *firstly*, the Issuer either: (a) fails to pay any amount in respect of principal or interest or any other amount payable by the Issuer on any Secured Security in any Series of Linked Secured Securities within 30 days of it becoming due; or (b) fails to deliver the Collateral Assets Entitlement and/or any other asset deliverable by the Issuer in respect of any Secured Security in any Series of Linked Secured Securities within five Collateral Business Days of it becoming deliverable;
- (b) *secondly*, Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding principal amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of the Non-Waived Secured Securities of any Series of Linked Secured Securities cause a Secured Security Acceleration Event to occur in respect of all Linked Secured Securities that are secured by the same Multiple Series Collateral Pool;
- (c) *thirdly*, within one Business Day of the occurrence of a Secured Security Acceleration Event, the Issuer shall give notice of such Secured Security Acceleration Event to all Securityholders that are secured by the relevant Collateral Pool, to the Disposal Agent and to all other relevant Secured Parties;
- (d) *fourthly*, if the Issuer has not paid (or delivered, as applicable) all amounts due to Securityholders of the relevant Series of Secured Securities within a period of 10 Collateral Business Days (or such other period as specified in the applicable Final Terms) following notification to Securityholders of the occurrence of such Secured Security Acceleration Event, Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding aggregate amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of Non-Waived Secured Securities of any Series of Linked Secured Securities that are secured by the relevant Multiple Series Collateral Pool instruct the Security Trustee to request payment in full pursuant to the Secured Securities Guarantee by sending an SSG Notice to the Collateral Provider (with a copy of the Disposal Agent and the Issuer);
- (e) *fifthly*, the Collateral Provider has not paid all amounts due under the Secured Securities Guarantee to Securityholders of each such Series within a period of 10 Collateral Business Days following receipt of such notice; and
- (f) *sixthly*, Securityholders (alone or in aggregate) holding no less than 25 *per cent.* of the outstanding aggregate amount (in the case of Secured Securities that are N&C Securities) or number (in the case of Secured Securities that are W&C Securities) of Non-Waived Secured Securities of any Series of Linked Secured Securities have delivered a Collateral Enforcement Notice to the Security Trustee.

The Security Trustee (subject to being indemnified and/or secured and/or pre-funded to its satisfaction) (or, if "Security Trust Deed – Charging Provisions" is specified as applicable in the relevant Final Terms in the event that any Charged Assets are located in England or Wales and therefore in respect of an English law charge only, any appointed receiver), will be required to enforce such Security Interests following the occurrence of such Secured Security Acceleration Event only upon receipt of a Collateral Enforcement Notice.

Application of proceeds and payments

Unless "*Physical Delivery of Collateral Assets*" is specified as "Applicable" in the applicable Final Terms, after the liquidation or realisation of the Collateral Assets and the enforcement of the relevant Security Agreement(s) in respect of the relevant Linked Secured Securities in accordance with Secured Securities Condition 7.8, the Security Trustee shall use the proceeds of such realisation and liquidation of the Collateral Assets and (where applicable) enforcement of the relevant Security Agreement(s) in respect of the relevant Linked Secured Securities to make payment of any amounts payable to the Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with the following Order of Priority on or prior to the Effective Redemption Date:

- (a) *first*, to pay or satisfy all Secured Liabilities incurred by or payable by the Collateral Provider to the Security Trustee;
- (b) *second*, to pay or satisfy (on a *pro rata* and *pari passu* basis) all Secured Liabilities incurred by or payable by the Collateral Provider to the Disposal Agent (other than in the event that NIP is the Disposal Agent), the relevant Collateral Custodian and any Collateral Monitoring Agent of each relevant Series of Secured Securities; and
- (c) *third*, to pay or satisfy (on a *pro rata* and *pari passu* basis) all Secured Liabilities incurred by or payable by the Collateral Provider to the Agents (as applicable and other than in the case of any relevant Agent that is NIP), the Securities Valuation Agent (if applicable and unless the Securities Valuation Agent is NIP), the Collateral Agent (if applicable and unless the Collateral Agent is NIP) and the Collateral Valuation Agent (if applicable and unless the Collateral Valuation Agent is NIP) of each relevant Series of Secured Securities.

The Calculation Agent shall, after the realisation and liquidation in full of all the Collateral Assets in respect of the relevant Linked Secured Securities in accordance with Secured Securities Condition 7.8, determine the Collateral Liquidation Proceeds Share in respect of each Non-Waived Secured Security of each Series of Secured Securities on the Realisation Period End Date and shall notify (or procure the notification of) such amounts to the relevant Securityholders and the Security Trustee in accordance with the Conditions.

Subject as provided below, following payment of all amounts due and payable (if any) to the Secured Parties ranking prior to the holders of Non-Waived Secured Securities in accordance with, and in the order set out in the Order of Priority, the Collateral Liquidation Proceeds Share will then be applied in meeting the claims of Securityholders of Non-Waived Secured Securities which are secured by the relevant Multiple Series Collateral Pool on a *pro rata* and *pari passu* basis on the Effective Redemption Date.

Such claims of the relevant Securityholders will be adjusted by the Calculation Agent in accordance with the following rules:

- (a) if the Collateral Liquidation Proceeds Share for a particular Secured Security is in excess of the difference between: (A) the Early Redemption Amount payable in respect of such Secured Security; and (B) any amounts which have been paid to such Securityholder by the Issuer and the Collateral Provider in respect of the relevant Early Redemption Amount pursuant to such Secured Security (such difference being the **Outstanding Early Redemption Amount**) then such excess amount will not be distributed to such Securityholder but will be distributed to the Secured Parties ranking after the holders of Non-Waived Secured Securities in accordance with the Order of Priority, being:

- (i) *first*, to pay (on a *pro rata* and *pari passu* basis) all Secured Liabilities incurred by or payable by the Collateral Provider to holders of Waived Secured Securities pursuant to the Secured Securities Guarantee; and
 - (ii) *second*, to pay the balance (if any) to the Collateral Provider; and
- (b) if the Collateral Liquidation Proceeds Share for a particular Secured Security is lower than the Outstanding Early Redemption Amount then:
- (i) each Securityholder shall have a claim against the Issuer for an aggregate amount, in respect of each Secured Security, equal to, the difference between the Outstanding Early Redemption Amount and the Collateral Liquidation Proceeds Share for such Secured Security;
 - (ii) upon any payment being made by the Issuer and/or the Collateral Provider to Securityholders of any relevant Series of amounts due and payable to Securityholders in respect of such Series of Secured Securities, the Secured Securities of the relevant Series shall be deemed to have been redeemed or cancelled, as the case may be, in a portion which corresponds to the amount of such payment, on the date of such payment; and
 - (iii) until the Secured Liabilities have been paid in full, then
 - (x) the Securityholders shall have a claim against the Issuer under the outstanding Secured Securities and (if applicable) the Collateral Provider under the Secured Securities Guarantee in respect of any further amounts owed to them which remain unpaid; and
 - (y) upon all Secured Liabilities having been paid in full, the relevant Series of Secured Securities shall be redeemed or cancelled, as the case may be, in full,

and the Calculation Agent shall notify (or procure the notification of) the Securityholders of each relevant Series (with a copy to the Security Trustee) of such adjusted claims in accordance with the Conditions as soon as reasonably practicable following the determination of those claims by the Calculation Agent.

Collateral Provider's unsecured claim against Issuer for reimbursement

Following payment by the Collateral Provider under the Secured Securities Guarantee and/or enforcement of the Security Agreement(s) and application of the proceeds thereof in full in accordance with the Order of Priority, the Collateral Provider will have an unsecured claim against the Issuer for an amount that is equal to the amount that the Collateral Provider has paid pursuant to the Secured Securities Guarantee (if any) and (without double counting and excluding any Secured Liabilities paid by the Collateral Provider to any Collateral Service Provider(s) appointed by the Collateral Provider) the amount of Secured Liabilities that has been discharged and satisfied in connection with the enforcement of the relevant Security Agreement(s).

TAXATION

The following section applies to both Exempt Securities and Non-Exempt Securities.

The following comments are of a general nature, are based on the Issuer's understanding of current law and practice and are included in this document solely for information purposes. These comments are not intended to be, nor should they be regarded as, legal or tax advice. The precise tax treatment of a holder of a Security will depend for each issue on the terms of the Securities as specified in the Terms and Conditions, as completed and, in the case of Exempt Securities, amended by the applicable Final Terms under the law and practice at the relevant time. Tax legislation, including in the country where the investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Notes. Prospective holders of Securities should consult their own tax advisers in all relevant jurisdictions to obtain advice about their particular tax treatment in relation to such Securities.

UNITED STATES FEDERAL INCOME TAXATION

The following summary describes certain U.S. federal income tax considerations that may be relevant to a U.S. holder (as defined below) who purchases a Security, but is not purported to be a complete analysis of all potential tax effects. This summary is based upon the U.S. Internal Revenue Code of 1986 (the **Code**), existing and proposed regulations promulgated thereunder, and published rulings and court decisions, all as in effect and existing on the date of this Base Prospectus and all of which are subject to change at any time with retrospective or prospective effect. The rules governing the U.S. federal income taxation of option transactions and other derivative financial instruments are complex and depend on a taxpayer's particular circumstances. Accordingly, this summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to any particular investor in a Security. In particular, this summary deals only with holders of Securities who purchase in the initial offering at the applicable issue price and in whose hands the Securities, or the stock, debt, commodity or other property underlying the Securities would be capital assets for U.S. federal income tax purposes. In addition, this discussion assumes that the Securities that are treated as options for U.S. federal income tax purposes, when issued, are not significantly "in-the-money".

This summary also does not discuss the U.S. federal income tax treatment of a U.S. holder who is a member of a class of holders subject to special rules, such as a dealer in securities, commodities or derivative financial instruments, a trader in securities, commodities or derivative financial instruments that elects to use a mark-to-market method of accounting for securities or commodities holdings, a bank, a life insurance company, a tax-exempt organisation, entities that are treated for U.S. federal income tax purposes as partnerships or other pass-through entities, an investor who purchases a Security with respect to stock in a company that is treated as a passive foreign investment company (**PFIC**) or U.S. real property holding corporation for U.S. federal income tax purposes, an investor who purchases a Security and holds any other position (whether long or short, direct or indirect) in any asset underlying such Security, an investor who purchases a Security that is part of a hedging transaction or that has been hedged against currency risk, an investor who purchases a Security that is part of a straddle or conversion transaction for U.S. federal income tax purposes, an investor who purchases or sells Securities as part of a wash sale for U.S. federal income tax purposes, and a U.S. holder whose functional currency for U.S. federal income tax purposes is not the U.S. dollar.

As a consequence of the foregoing, it should be particularly noted that this summary does not address the special tax considerations that apply to an investment in a combination of Securities with respect to the same underlying assets. Further, this summary does not address U.S. federal estate, gift or alternative minimum tax consequences, non-U.S. state or local tax consequences, special tax accounting rules that may apply as a result of any item of gross income with respect to the Notes being taken into account on an applicable financial statement or the indirect effects on the holders of equity interests in a holder of a Security.

Any of the foregoing circumstances might substantially alter the tax consequences described below, and, in some instances, may require specific identification of positions in the relevant Security before the close of the day on which they are acquired. For example, if the straddle rules were to apply, a U.S. holder of a Security might be required to (i) recognise all or a portion of any gain on such Security that would otherwise be long-term or short-term capital gain, as ordinary income or, if applicable, short-term capital gain, (ii) defer all, or a portion, of any loss realised upon the sale, exchange, exercise, cancellation or lapse of such Security and (iii) capitalise any interest or carrying charges incurred by such U.S. holder with respect to such Security.

This summary does not address the material U.S. federal income tax consequences of every type of Security which may be issued under the Programme. Additional U.S. federal income tax consequences, if any, applicable to a particular Security may be set forth in the applicable Final Terms.

The rules governing the taxation of option transactions and derivative financial instruments are complex and depend on a taxpayer's particular circumstances. U.S. holders are strongly urged to consult their tax advisers concerning the U.S. federal, state, local, foreign and other national tax consequences of the ownership and disposition of Securities in their particular circumstances. U.S. holders should also consult their tax advisers as to the possibility of changes of law affecting taxation of derivative financial instruments with contingent payments, including prepaid forward contracts. Prospective investors should consult their tax advisers regarding the U.S. federal, state, local and foreign tax consequences of acquiring, owning and disposing of the Securities in light of such investor's own circumstances, including such investor's status as a U.S. holder (as defined below), as well as any other estate, gift, or other tax consequences that may arise under the laws of any state, local, foreign or other taxing jurisdiction.

For purposes of this discussion, a **U.S. holder** means a beneficial owner of a Security that is:

- (i) a citizen or individual resident of the United States, as defined in Section 7701(b) of the Code,
- (ii) a corporation, including any entity treated as a corporation for U.S. federal income tax purposes, created or organised in or under the laws of the United States, any State thereof or the District of Columbia;
- (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source;
- (iv) a trust if (x) a court within the United States is able to exercise primary supervision over the administration of the trust, and one or more United States persons have the authority to control all substantial decisions of the trust, or (y) such trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person; or
- (v) otherwise subject to U.S. federal income taxation on a net income basis in respect of the Security.

A **non-U.S. holder** is a beneficial owner of Securities that is not a U.S. holder.

If a partnership holds a Security, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. Partners in partnerships holding a Security should consult their tax advisers regarding the U.S. federal income tax consequences of acquiring, owning, exchanging and disposing of the Securities.

The Issuer generally intends to treat N&C Securities issued under the Programme as debt, but other tax treatment may be indicated in the applicable Final Terms. Certain N&C Securities such as Index Linked N&C Securities, may be treated as equity or a derivative financial instrument for U.S. federal income tax purposes. The tax treatment of N&C Securities to which a treatment other than debt may apply may be discussed in the applicable Final Terms. The Final Terms for an issue of N&C Securities may specify with respect to the issue of N&C Securities to which it relates (and where relevant) the potential U.S. federal income tax consequences of the purchase, ownership and disposition of the N&C Securities.

Holders may be subject to a variety of U.S. tax consequences depending on the subject and the terms of the N&C Securities. Holders should consult their own advisers about the tax consequences of purchasing N&C Securities, particularly whether the N&C Securities being acquired could be treated for U.S. tax purposes as debt instruments or as another type of financial instrument.

Classification of the Securities

Depending on the terms of a Security, such Security could be treated as one or more of the following: (i) a prepaid forward contract (which, depending on the terms, may be subject to embedded options), (ii) a combination of a loan and a prepaid forward contract, (iii) an outright or constructive ownership interest in the property underlying such Security, (iv) an option or warrant, or (v) a debt instrument with or without contingent payments. Additional U.S. federal income tax consequences applicable to a particular issuance of Securities may be set forth in the applicable Final Terms.

No ruling is being requested from the U.S. Internal Revenue Service (**IRS**) with respect to the Securities, and the treatment of the Securities described below is not binding on the IRS or the courts. As a result, significant aspects of the U.S. federal income tax consequences of an investment in the Securities are uncertain.

Debt

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Securities treated as debt for U.S. federal tax purposes. This summary addresses only the tax consequences of the ownership of debt Securities held through an immobilised bearer structure or that are otherwise treated as issued in registered form for U.S. federal income tax purposes.

Payment of Interest

Interest on a Security, including the payment of any additional amounts, whether payable in U.S. dollars or a currency, composite currency or basket of currencies other than U.S. dollars ("foreign currency" interest on a **Foreign Currency Security**), other than interest on a **Discount Security** that is not "qualified stated interest" (each as defined below under "*Original Issue Discount—General*"), will be taxable to a U.S. holder as ordinary income at the time it is received or accrued, depending on the U.S. holder's method of accounting for tax purposes. Interest paid by the Issuer on the Securities and original issue discount (**OID**), if any, accrued with respect to the Securities (as described below under "*Original Issue Discount*") generally will constitute income from sources outside the United States subject to the rules regarding the foreign tax credit allowable to a U.S. holder. Prospective purchasers should consult their tax advisers concerning the foreign tax credit implications of any payment of foreign taxes.

Original Issue Discount

General

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Securities issued with OID. The following summary does not discuss Securities that are characterised as contingent payment debt instruments for U.S. federal income tax purposes.

A Security, other than a Security with a term of one year or less, will generally be treated as issued with OID (a **Discount Security**) if the excess of the Security's "stated redemption price at maturity" over its issue price is equal to or more than a *de minimis* amount (0.25 per cent. of the Security's stated redemption price at maturity multiplied by the number of complete years to its maturity). An obligation that provides for the payment of amounts other than qualified stated interest before maturity (an "**instalment obligation**") will be treated as a Discount Security if the excess of the Security's stated redemption price at maturity over its issue price is equal to or greater than 0.25 per cent. of the Security's stated redemption price at maturity multiplied by the weighted

average maturity of the Security. A Security's weighted average maturity is the sum of the following amounts determined for each payment on a Security (other than a payment of qualified stated interest): (i) the number of complete years from the issue date until the payment is made multiplied by (ii) a fraction, the numerator of which is the amount of the payment and the denominator of which is the Security's stated redemption price at maturity. Generally, the issue price of a Security will be the first price at which a substantial amount of Securities included in the issue of which the Security is a part is sold to persons other than bond houses, brokers, or similar persons or organisations acting in the capacity of underwriters, placement agents, or wholesalers. The stated redemption price at maturity of a Security is the total of all payments provided by the Security that are not payments of "qualified stated interest." A qualified stated interest payment is generally any one of a series of stated interest payments on a Security that are unconditionally payable at least annually at a single fixed rate, or a variable rate (as described below under "*Variable Interest Rate Securities*"), applied to the outstanding principal amount of the Security. Solely for the purposes of determining whether a Security has OID, the Issuer will be deemed to exercise any call option that has the effect of decreasing the yield on the Security, and the U.S. holder will be deemed to exercise any put option that has the effect of increasing the yield on the Security. If a Security has *de minimis* OID, a U.S. holder must include the *de minimis* amount in income as stated principal payments are made on the Security, unless the U.S. holder makes an election to treat all interest as OID.

U.S. holders of Discount Securities must include OID in income calculated on a constant-yield method before the receipt of cash attributable to the income, and generally will have to include in income increasingly greater amounts of OID over the life of the Discount Securities. The amount of OID includible in income by a U.S. holder of Discount Securities is the sum of the daily portions of OID with respect to the Discount Securities for each day during the taxable year or portion of the taxable year on which the U.S. holder holds the Discount Securities. The daily portion is determined by allocating to each day in any "accrual period" a pro rata portion of the OID allocable to that accrual period. Accrual periods with respect to a Security may be of any length selected by the U.S. holder and may vary in length over the term of the Discount Security as long as (i) no accrual period is longer than one year and (ii) each scheduled payment of interest or principal on the Security occurs on either the final or first day of an accrual period. The amount of OID allocable to an accrual period (and pro rata to every day in the accrual period) equals the excess of (a) the product of the Discount Security's adjusted issue price at the beginning of the accrual period and the Discount Security's yield to maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of the payments of qualified stated interest on the Security allocable to the accrual period. The "adjusted issue price" of a Discount Security at the beginning of any accrual period is the issue price of the Security increased by (x) the amount of accrued OID for each prior accrual period and decreased by (y) the amount of any payments previously made on the Security that were not qualified stated interest payments.

Acquisition Premium

A U.S. holder that purchases a Discount Security for an amount less than or equal to the sum of all amounts payable on the Security after the purchase date, other than payments of qualified stated interest, but in excess of its adjusted issue price and that does not make an election to treat all interest as OID, is permitted to reduce the daily portions of OID by a fraction, the numerator of which is the excess of the U.S. holder's adjusted basis in the Discount Security immediately after its purchase over the Discount Security's adjusted issue price, and the denominator of which is the excess of the sum of all amounts payable on the Security after the purchase date, other than payments of qualified stated interest, over the Discount Security's adjusted issue price.

Market Discount

A Security, other than a Security with a term of one year or less, generally will be treated as purchased at a market discount (a **Market Discount Security**) if the Security's stated redemption price at maturity or, in the case of a Discount Security, the Security's "revised issue price", exceeds the amount for which the U.S. holder purchased the Security by at least 0.25 per cent. of the Security's stated redemption price at maturity or revised issue price, respectively, multiplied by the number of complete years to the Security's maturity. If this excess

is not sufficient to cause the Security to be treated as purchased at a market discount, then the excess constitutes "*de minimis* market discount". For this purpose, the "revised issue price" of a Security generally equals its issue price, increased by the amount of any OID that has accrued on the Security and decreased by the amount of any payments previously made on the Security that were not qualified stated interest payments.

Any gain recognised on the maturity or disposition of a Market Discount Security (including any payment on a Security that is not qualified stated interest) will be treated as ordinary income to the extent that the gain does not exceed the accrued market discount on the Security. Alternatively, a U.S. holder of a Market Discount Security may elect to include market discount in income currently over the life of the Security. This election shall apply to all debt instruments with market discount acquired by the electing U.S. holder on or after the first day of the first taxable year to which the election applies. This election may not be revoked without the consent of the IRS. A U.S. holder of a Market Discount Security that does not elect to include market discount in income currently will generally be required to defer deductions for interest on borrowings incurred to purchase or carry a Market Discount Security that is in excess of the interest and OID on the Security includible in the U.S. holder's income, to the extent that this excess interest expense does not exceed the portion of the market discount allocable to the days on which the Market Discount Security was held by the U.S. holder.

Market discount will accrue on a straight-line basis unless the U.S. holder elects to accrue the market discount on a constant-yield method. This election applies only to the Security with respect to which it is made and is irrevocable.

Election to Treat All Interest as Original Issue Discount

A U.S. holder may elect to include in gross income all interest that accrues on a Security using the constant-yield method described above under "*Original Issue Discount — General*" with certain modifications. For purposes of this election, interest includes stated interest, OID, *de minimis* OID, market discount, *de minimis* market discount, as adjusted by any amortisable bond premium (described below under "*Securities Purchased at a Premium*") or acquisition premium. If a U.S. holder makes this election for the Security, then, when the constant-yield method is applied, the issue price of the Security will equal its cost, the issue date of the Security will be the date of acquisition, and no payments on the Security will be treated as payments of qualified stated interest. This election will generally apply only to the Security with respect to which it is made and may not be revoked without the consent of the IRS. However, if the Security has amortisable bond premium, the U.S. holder will be deemed to have made an election to apply amortisable bond premium against interest for all debt instruments with amortizable bond premium, other than debt instruments the interest on which is excludible from gross income, held as of the beginning of the taxable year to which the election applies or any taxable year thereafter. If the election to apply the constant-yield method to all interest on a Security is made with respect to a Market Discount Security, the electing U.S. holder will be treated as having made the election discussed above under "*Market Discount*" to include market discount in income currently over the life of all debt instruments with market discount held or thereafter acquired by the U.S. holder.

Variable Interest Rate Securities

Securities that provide for interest at variable rates (**Variable Interest Rate Securities**) generally will bear interest at a "qualified floating rate" and thus will be treated as "variable rate debt instruments" under U.S. Treasury regulations governing accrual of OID. A Variable Interest Rate Security will qualify as a "variable rate debt instrument" if (a) its issue price does not exceed the total non-contingent principal payments due under the Variable Interest Rate Security by more than a specified *de minimis* amount and (b) it provides for stated interest, paid or compounded at least annually, at current values of (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate, or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate.

A "qualified floating rate" is any variable rate where variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Interest Rate Security is denominated. A fixed multiple of a qualified floating rate will constitute

a qualified floating rate only if the multiple is greater than 0.65 but not more than 1.35, whether or not a variable rate is increased or decreased by a fixed rate. A variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor) may, under certain circumstances, fail to be treated as a qualified floating rate unless the cap or floor is fixed throughout the term of the Security.

An "objective rate" is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and which is based on objective financial or economic information (e.g., one or more qualified floating rates or the yield of actively traded personal property). Despite the foregoing, a variable rate of interest on a Variable Interest Rate Security will not constitute an objective rate if it is reasonably expected that the average value of the rate during the first half of the Variable Interest Rate Security's term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Variable Interest Rate Security's term. A rate also will not qualify as an objective rate if it is based on information that is within the control of the Issuer (or a related party) or that is unique to the circumstances of the Issuer (or a related party), such as dividends, profits or the value of the Issuer's stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the Issuer).

A qualified inverse floating rate is any objective rate which is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate.

If a Variable Interest Rate Security provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period and if the variable rate on the Variable Interest Rate Security's issue date is intended to approximate the fixed rate (e.g. the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

A qualified floating rate or objective rate in effect at any time during the term of the instrument must be set at a "current value" of that rate – the value of the rate on any day that is no earlier than 3 months prior to the first day on which that value is in effect and no later than 1 year following that first day.

A Variable Interest Rate Security that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a "variable rate debt instrument" will generally not be treated as having been issued with OID unless the Variable Interest Rate Security is issued at a "true discount" (i.e., at a price below the Security's stated principal amount) in excess of a specified *de minimis* amount. OID on a Variable Interest Rate Security arising from true discount is allocated to an accrual period using the constant yield method described above.

In general, any other Variable Interest Rate Security that qualifies as a "variable rate debt instrument" will be converted into an equivalent fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Variable Interest Rate Security. Such a Variable Interest Rate Security must be converted into an equivalent fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Interest Rate Security with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Interest Rate Security's issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Interest Rate Security is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Security. In the case of a Variable Interest Rate Security that qualifies as a "variable rate debt instrument" and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Interest Rate Security provides for a qualified inverse floating rate). Under these circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Interest Rate Security as of the Variable Interest Rate Security's issue date is approximately the same

as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Variable Interest Rate Security is converted into an equivalent fixed rate debt instrument in the manner described above.

Once the Variable Interest Rate Security is converted into an equivalent fixed rate debt instrument pursuant to the foregoing rules, the amount of OID and qualified stated interest, if any, are determined for the equivalent fixed rate debt instrument by applying the general OID rules to the equivalent fixed rate debt instrument and a U.S. holder of the Variable Interest Rate Security will account for the OID and qualified stated interest as if the U.S. holder held the equivalent fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the equivalent fixed rate debt instrument in the event that these amounts differ from the actual amount of interest accrued or paid on the Variable Interest Rate Security during the accrual period.

If a Variable Interest Rate Security, such as a Security the payments on which are determined by reference to an index, does not qualify as a "variable rate debt instrument", then the Variable Interest Rate Security will be treated as a contingent payment debt instrument as described below under "*Other Treatments - Contingent Payment Debt Instruments*".

Short-Term Securities

In general, an individual or other cash basis U.S. holder of a Security with a term of one year or less is not required to accrue OID (calculated as set forth below for the purposes of this paragraph) for U.S. federal income tax purposes unless it elects to do so (but may be required to include any stated interest in income as the interest is received). Accrual basis U.S. holders and certain other U.S. holders are required to accrue OID on Securities with a term of one year or less on a straight-line basis or, if the U.S. holder so elects, under the constant-yield method (based on daily compounding). In the case of a U.S. holder not required and not electing to include OID in income currently, any gain realised on the sale or retirement of the Security with a term of one year or less will be ordinary income to the extent of the OID accrued on a straight-line basis (unless an election is made to accrue the OID under the constant-yield method) through the date of sale or retirement. U.S. holders who are not required and do not elect to accrue OID on Securities with a term of one year or less will be required to defer deductions for interest on borrowings allocable to Securities with a term of one year or less in an amount not exceeding the deferred income until the deferred income is realised.

For purposes of determining the amount of OID subject to these rules, all interest payments on a Security with a term of one year or less are included in such Security's stated redemption price at maturity. A U.S. holder may elect to determine OID on a Security with a term of one year or less as if such Security had been originally issued to the U.S. holder at the U.S. holder's purchase price for the Security. This election shall apply to all obligations with a maturity of one year or less acquired by the U.S. holder on or after the first day of the first taxable year to which the election applies, and may not be revoked without the consent of the IRS.

Securities Purchased at a Premium

A U.S. holder that purchases a Security for an amount in excess of its principal amount, or for a Discount Security, its stated redemption price at maturity, may elect to treat the excess as "amortisable bond premium", in which case the amount required to be included in the U.S. holder's income each year with respect to interest on the Security will be reduced by the amount of amortisable bond premium allocable (based on the Security's yield to maturity) to that year. Any election to amortise bond premium shall apply to all bonds (other than bonds the interest on which is excludable from gross income for U.S. federal income tax purposes) held by the U.S. holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. holder, and is irrevocable without the consent of the IRS. A U.S. holder that does not elect to take bond premium (other than acquisition premium as described above under "*Acquisition Premium*") into account currently will recognise a capital loss when the Security matures.

Purchase, Sale and Retirement of Securities

A U.S. holder's tax basis in a Security will generally be its cost, increased by the amount of any OID and market discount included in the U.S. holder's income with respect to the Security and the amount, if any, of income attributable to *de minimis* OID and *de minimis* market discount included in the U.S. holder's income with respect to the Security, and reduced by (i) the amount of any payments that are not qualified stated interest payments, and (ii) the amount of any amortisable bond premium applied to reduce interest on the Security.

A U.S. holder will generally recognise gain or loss on the sale or retirement of a Security equal to the difference between the amount realised on the sale or retirement and the U.S. holder's tax basis in the Security. Except to the extent described above under "*Original Issue Discount—Market Discount*" or "*Original Issue Discount—Short-Term Securities*" or attributable to accrued but unpaid interest or changes in exchange rates (as discussed below), gain or loss recognised on the sale or retirement of a Security will be capital gain or loss and generally will be treated as from U.S. sources for purposes of the U.S. foreign tax credit limitation and may be taxable at reduced rates in the case of a U.S. holder that is an individual, estate or trust, if the Securities are held for more than one year. The deductibility of capital losses is subject to limitations.

Foreign Currency Securities

Interest

If an interest payment is denominated in, or determined by reference to, a foreign currency, the amount of income recognised by a cash basis U.S. holder will be the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars.

An accrual basis U.S. holder may determine the amount of income recognised with respect to an interest payment denominated in, or determined by reference to, a foreign currency in accordance with either of two methods. Under the first method, the amount of income accrued will be based on the average exchange rate in effect during the interest accrual period (or, in the case of an accrual period that spans two taxable years of a U.S. holder, the part of the period within the taxable year).

Under the second method, the U.S. holder may elect to determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period (or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year). Additionally, if a payment of interest is actually received within five business days of the last day of the accrual period, an electing accrual basis U.S. holder may instead translate the accrued interest into U.S. dollars at the exchange rate in effect on the day of actual receipt. Any such election will apply to all debt instruments held by the U.S. holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. holder, and will be irrevocable without the consent of the IRS.

Upon receipt of an interest payment (including a payment attributable to accrued but unpaid interest upon the sale or retirement of a Security) denominated in, or determined by reference to, a foreign currency, the U.S. holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

OID

OID for each accrual period on a Discount Security that is denominated in, or determined by reference to, a foreign currency, will be determined in the foreign currency and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. holder, as described above under "*Foreign Currency Securities—Interest*". Upon receipt of an amount attributable to OID (whether in connection with a payment on the Security or a sale of the Security), a U.S. holder may recognise U.S. source exchange gain or loss

(taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

Bond Premium

Bond premium (including acquisition premium) on a Security that is denominated in, or determined by reference to, a foreign currency, will be computed in units of the foreign currency, and any such bond premium that is taken into account currently will reduce interest income in units of the foreign currency.

On the date bond premium offsets interest income, a U.S. holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) measured by the difference between the spot rate in effect on that date, and on the date the Securities were acquired by the U.S. holder.

Purchase, Sale and Retirement of Securities

As discussed above under "*Purchase, Sale and Retirement of Securities*", a U.S. holder will generally recognise gain or loss on the sale or retirement of a Security equal to the difference between the amounts realised on the sale or retirement and its tax basis in the Security. A U.S. holder's tax basis in a Foreign Currency Security will be determined by reference to the U.S. dollar cost of the Security. The U.S. dollar cost of a Security purchased with foreign currency will generally be the U.S. dollar value of the purchase price on the date of purchase or, in the case of Securities traded on an established securities market, as defined in the applicable U.S. Treasury regulations, that are purchased by a cash basis U.S. holder (or an accrual basis U.S. holder that so elects), on the settlement date for the purchase.

The amount realised on a sale or retirement for an amount in foreign currency will be the U.S. dollar value of this amount on the date of sale or retirement or, in the case of Securities traded on an established securities market, as defined in the applicable U.S. Treasury regulations, sold by a cash basis U.S. holder (or an accrual basis U.S. holder that so elects), on the settlement date for the sale. Such an election by an accrual basis U.S. holder must be applied consistently from year to year and cannot be revoked without the consent of the IRS.

A U.S. holder will recognise U.S. source exchange rate gain or loss (taxable as ordinary income or loss) on the sale or retirement of a Security equal to the difference, if any between the U.S. dollar values of the U.S. holder's purchase price for the Security (or, if less, the principal amount of the Security) (i) on the date of sale or retirement and (ii) the date on which the U.S. holder acquired the Security. Any such exchange rate gain or loss will be realised only to the extent of total gain or loss realised on the sale or retirement.

Disposition of Foreign Currency

Foreign currency received as interest on a Security or on the sale or retirement of a Security will generally have a tax basis equal to its U.S. dollar value at the time the interest is received or at the time of the sale or retirement. Foreign currency that is purchased will generally have a tax basis equal to the U.S. dollar value of the foreign currency on the date of purchase. Any gain or loss recognised on a sale or other disposition of a foreign currency (including its use to purchase Securities or upon exchange for U.S. dollars) will be U.S. source ordinary income or loss.

Tax Return Disclosure Regulations

Pursuant to U.S. Treasury regulations (the **Disclosure Regulations**), any taxpayer that has participated in a "reportable transaction" and that is required to file a U.S. federal income tax return must generally attach a disclosure statement disclosing such taxpayer's participation in the reportable transaction to the taxpayer's tax return for each taxable year for which the taxpayer participates in the reportable transaction. A penalty in the amount of US\$10,000 in the case of a natural person and US\$50,000 in any other case may be imposed on any taxpayer that fails to file a reportable transaction disclosure statement. The Disclosure Regulations provide

that, in addition to certain other transactions, a "loss transaction" constitutes a "reportable transaction." A "loss transaction" is any transaction resulting in the taxpayer claiming a loss under Section 165 of the Code in an amount equal to or in excess of certain threshold amounts. The Disclosure Regulations specifically provide that a loss resulting from a "Section 988 transaction" (as defined in Section 988(c)(1) of the Code relating to foreign currency transactions) will constitute a Section 165 loss. In the case of individuals or trusts, whether or not the loss flows through from an S corporation or partnership, if the loss arises with respect to a Section 988 transaction, the applicable threshold amount is US\$50,000 in any single taxable year. Higher threshold amounts apply depending upon the taxpayer's status as a corporation, partnership, or S corporation, as well as certain other factors. It is important to note, however, that the Disclosure Regulations provide that the fact that a transaction is a reportable transaction shall not affect the legal determination of whether the taxpayer's treatment of the transaction is proper. Holders should consult their own tax advisers concerning the potential application of the Disclosure Regulations to the Securities.

Options or Warrants

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Securities treated as options or warrants for U.S. federal income tax purposes.

Premium

Premium paid by a U.S. holder for a Security will generally be treated as a non-deductible capital expenditure. As described in the following two sections, the amount of such premium will be taken into account upon the sale, transfer, cash settlement, or lapse of the Security.

Sale, Transfer, Cash Settlement, or Lapse of Securities

A U.S. holder who has purchased a Security will generally recognise capital gain or loss upon the sale, transfer, cash settlement or lapse of the Security in an amount equal to the difference between (i) the amount realised by the investor from such sale, transfer, settlement, or lapse and (ii) the amount of the premium that the investor paid for the Security. Such capital gain or loss will be long-term capital gain or loss if the Security was held for more than one year. Certain exceptions to such treatment are noted below and, if appropriate, may be addressed in the applicable Final Terms.

Mark-to-Market Rules

Under Section 1256 of the Code, special mark-to-market and character rules apply in the case of certain "nonequity" options and foreign currency contracts. Unless the Securities (other than Securities denominated in a currency other than the U.S. dollar) are listed on a "qualified board or exchange" for purposes of Section 1256 of the Code, however, these mark-to-market rules will not be applicable to U.S. holders of the Securities. Where relevant, the application of the Section 1256 of the Code rules to Securities denominated in a currency other than the U.S. dollar may be discussed in the applicable Final Terms.

Other Treatments

Tax Treatment of Prepaid Forward Contracts (With or Without a Loan)

If any Securities are treated as prepaid forward contracts (with or without a loan) for U.S. federal income tax purposes, the following description should apply to such Securities.

Interest Payments

Payments of interest (if any) will be taxable to a U.S. holder as ordinary interest income at the time such payments are accrued or are received (in accordance with the U.S. holder's regular method of tax accounting).

Cash Settlement, Sale, or Other Disposition of the Securities

If the Securities are treated in whole or in part as prepaid forward contracts, upon the receipt of cash upon settlement of a Security or upon the sale or other disposition of such Security, a U.S. holder generally will recognise taxable gain or loss equal to the difference between the amount realised (generally, the amount of cash received) and such U.S. holder's tax basis in the Security. In general, a U.S. holder's tax basis in a Security will equal the amount that such U.S. holder paid to acquire the Security. Subject to the discussion below under "*Constructive Ownership*," any such gain or loss generally will be long-term capital gain or loss if the Security was held for more than one year at the time of settlement or at the time of sale or other disposition.

Constructive Ownership

Some or all of the net long-term capital gain arising from certain "constructive ownership" transactions may be characterised as ordinary income, in which case an interest charge would be imposed on any such ordinary income. These rules have no immediate application to forward contracts in respect of most property underlying the Securities, because they are only applicable to the extent that the underlying property directly or indirectly includes shares of issuers treated as "pass-through" entities. For this purposes "pass-through entities" include regulated investment companies, real estate investment trusts, S corporations, partnership, trusts, common trust funds, PFICs, and real estate mortgage investment conduits. These rules, however, grant discretionary authority to the U.S. Treasury Department (the **Treasury**) to expand the scope of "constructive ownership" transactions to include forward contracts in respect of the stock of all corporations, in addition to forward contracts in respect of any debt instrument. The rules also separately direct the Treasury to promulgate regulations excluding a forward contract that does not convey "substantially all" of the economic return on any underlying asset from the scope of "constructive ownership" transactions. It is not possible to predict whether such regulations will be promulgated by the Treasury, or the form or effective date that any regulations that may be promulgated might take.

Interest in the Underlying Property

Depending on the terms of particular Securities, a U.S. holder could be treated as owning the property underlying those Securities for U.S. federal income tax purposes. In that event, for example, in the case of Index Linked Securities, the U.S. holder would be required to recognise appropriate amounts of capital gain on the disposition of any shares included in the underlying Index each time that the Index is rebalanced. In such a case, such U.S. holder also would be subject to tax on dividends on shares included in the Index in an amount equal to the gross dividends paid by the companies whose shares are included in the Index. In addition, any current expenses (including any withholding taxes) in respect of shares included in the Index would be treated as if made directly by the U.S. holder, and the deductibility of such expenses (or creditability of such withholding taxes) could be subject to certain limitations.

Contingent Payment Debt Instruments

If any Securities are treated as contingent payment debt instruments, the tax consequences to a U.S. holder would be determined under U.S. Treasury regulations governing contingent payment debt instruments (the **Contingent Payment Regulations**). The Contingent Payment Regulations are complex, but very generally apply the OID rules of the Code to a contingent payment debt instrument by requiring that OID be accrued by the U.S. holder every year at a "comparable yield" for the issuer of the instrument, determined at the time of issuance of the obligation. In addition, the Contingent Payment Regulations require that a projected payment schedule, which results in such a "comparable yield" be determined by the issuer. Further, a U.S. holder will be required to make adjustments to income accruals to account for differences between the actual payments received by the U.S. holder and the projected amounts of such payments. To the extent that the actual payments received by a U.S. holder exceed the projected payments on a contingent debt instrument in any taxable year, the owner of that instrument will recognise ordinary interest income for that taxable year equal to the amount of such excess. In addition, any gain realised on the sale, exchange or redemption of a contingent payment debt instrument will be treated as ordinary income. Any loss realised on such sale, exchange or redemption

will be treated as an ordinary loss to the extent that the U.S. holder's OID inclusions with respect to the obligation exceed prior reversals of such inclusions required by the adjustment mechanism described above. Any loss realised in excess of such amount generally will be treated as a capital loss.

Loan and One or More Options

If any Securities are treated as a combination of a loan (or deposit) and one or more options, in general, payments of interest (if any) will be taxable to a U.S. holder as ordinary interest income at the time that such payments are accrued or are received (in accordance with the U.S. holder's regular method of tax accounting), while payments in respect of the options would be taxable in a manner similar to the taxation of corresponding payments under Securities treated as options, as described above under "*Options or Warrants*."

Possible Alternative Tax Treatment

If a Security is treated as a unit consisting of a loan and a forward contract, a U.S. holder could be required to accrue a significant amount of OID on a current basis during the period in which it holds the Security. Alternatively, it is possible that the Securities could be characterised for U.S. federal income tax purposes as debt instruments that are subject to the Contingent Payment Regulations (as more fully described above under "*Contingent Payment Debt Instruments*"), in which case, among other matters, a U.S. holder would be required to accrue income, as OID, at a "comparable yield" for the Issuer, on the purchase price. Furthermore, any gain realised with respect to the Securities would generally be treated as ordinary income.

It is also possible that future regulations or other IRS guidance would require a U.S. holder to accrue income on the Securities on a current basis. The IRS and the Treasury have issued proposed regulations that require the current accrual of income with respect to contingent non-periodic payments made under certain notional principal contracts. The preamble to the regulations states that the "wait and see" method of tax accounting does not properly reflect the economic accrual of income on such contracts, and requires a current accrual of income with respect to some contracts already in existence at the time the proposed regulations were released. While the proposed regulations do not apply to prepaid forward contracts, the preamble to the proposed regulations expresses the view that similar timing issues exist in the case of prepaid forward contracts. If the IRS published future guidance requiring current accrual of income with respect to contingent payments on prepaid forward contracts, it is possible that a U.S. holder could be required to accrue income over the term of the Securities.

Securities Denominated in a Specified Currency Other Than the U.S. Dollar

In general, except to the extent that the mark-to-market and character rules under Section 1256 apply (see "*Options or Warrants — Mark-to-Market Rules*" above), any gain or loss realised in respect of a Security denominated in a Specified Currency other than the U.S. dollar will be ordinary income or loss. Any such gain or loss generally must be recognised upon a sale, exchange, termination, rollover, settlement or exercise of such Security, as well as upon an offset of one contract against another in certain circumstances. In general, if a Security denominated in a Specified Currency other than the U.S. dollar is subject to Section 1256, a U.S. holder will be required to include mark-to-market gain or loss in respect of such Security at the end of each year (or upon transfer, termination, exercise, lapse or other disposition), with 40 per cent. of such gain or loss being short-term capital gain or loss and 60 per cent. of such gain or loss being long-term capital gain or loss.

If appropriate, additional U.S. federal income tax consequences applicable to Securities denominated in the Specified Currency other than the U.S. dollar may be set forth in the applicable Final Terms.

Foreign Currency Rules

Payments of premium, exercise price, sale proceeds, and cash settlement amounts in respect of Securities that are denominated in a currency other than the U.S. dollar will be subject to special U.S. tax rules regarding

foreign currency transactions. U.S. holders should consult their tax advisers concerning the application of these rules in their particular circumstances.

Notice 2008-2

On 7 December 2007, the IRS released a notice that may affect the taxation of holders of the Securities. According to the notice, the IRS and the Treasury are actively considering whether the U.S. holder of an instrument such as the Securities should be required to accrue ordinary income on a current basis, and they are seeking taxpayer comments on the subject. It is not possible to determine what guidance they will ultimately issue, if any. It is possible, however, that under such guidance, U.S. holders of the Securities will ultimately be required to accrue income currently and this could be applied on a retroactive basis. The IRS and the Treasury are also considering other relevant issues, including whether additional gain or loss from such Securities should be treated as ordinary or capital, whether non-U.S. holders of such Securities should be subject to withholding tax on any deemed income accruals, and whether the special "constructive ownership rules" of Section 1260 of the Code might be applied to such Securities. U.S. holders are urged to consult their tax advisers concerning the significance, and the potential impact, of the above considerations. The Issuer intends to continue treating the Securities for U.S. federal income tax purposes in accordance with the treatment described in this Base Prospectus unless and until such time as the Treasury and the IRS determine that some alternative treatment is more appropriate.

Taxation of Non-U.S. Holders

Subject to the discussion below under "*Information Reporting and Backup Withholding*", "*Foreign Account Tax Compliance Act*" and "*Hiring Incentives to Restore Employment Act*", non-U.S. holders generally should not be subject to U.S. federal income or withholding tax on any payments on the Securities and gain from the sale, redemption or other disposition of the Securities unless: (i) that payment and/or gain is effectively connected with the conduct by that non-U.S. holder of a trade or business in the U.S.; (ii) in the case of any gain realised on the sale or exchange of a Security by an individual non-U.S. holder, that holder is present in the U.S. for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions are met; or (iii) the non-U.S. holder is subject to tax pursuant to provisions of the Code applicable to certain expatriates.

Non-U.S. holders should consult their own tax advisers regarding the U.S. federal income and other tax consequences of owning Securities.

Information Reporting and Backup Withholding

The relevant Agent may be required to file information returns with the IRS with respect to payments made to certain U.S. holders of Securities. In addition, certain U.S. holders may be subject to backup withholding tax in respect of such payments if they do not provide their taxpayer identification numbers to the relevant Agent or otherwise comply with the applicable backup withholding requirements.

U.S. holders should consult their tax advisers regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom and the procedure for obtaining the exemption, if available. Backup withholding is not an additional tax. Any amounts withheld from a payment to a holder under the backup withholding rules will be allowed as a credit against the holder's United States federal income tax liability and may entitle the holder to a refund of any excess amounts withheld under the backup withholding rules by timely filing the appropriate claim for refund with the IRS and furnishing all required information. Non-U.S. holders may be required to comply with applicable certification procedures to establish that they are not U.S. holders in order to avoid the application of such information reporting requirements and backup withholding.

Foreign Financial Asset Reporting

Certain U.S. holders that own "specified foreign financial assets" that meet certain U.S. dollar value thresholds generally are required to file an information report with respect to such assets with their tax returns. The Securities generally will constitute specified foreign financial assets subject to these reporting requirements unless the Securities are held in an account at certain financial institutions. U.S. holders are urged to consult their tax advisers regarding the application of these disclosure requirements to their ownership of the Securities.

Medicare Tax

A U.S. holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8 per cent. tax on the lesser of (1) the U.S. holder's "net investment income" for the relevant taxable year and (2) the excess of the U.S. holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between US\$125,000 and US\$250,000, depending on the individual's circumstances). A holder's net investment income will generally include its income from, including but not limited to, interest and dividends and its gains from the disposition of Securities, unless such income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities).

FOREIGN ACCOUNT TAX COMPLIANCE ACT

Pursuant to certain provisions of the Code, commonly known as FATCA, withholding may be required on, among other things, (i) certain payments made by "foreign financial institutions" (**foreign passthru payments**) and (ii) dividend equivalent payments (as described below in "*U.S. Dividend Equivalent Withholding*"), in each case, to persons that fail to meet certain certification, reporting, or related requirements. The Issuer, the NHI Guarantor, the NIP Guarantor and the NSC Guarantor are classified as foreign financial institutions for these purposes. A number of jurisdictions (including Hong Kong, Japan and the United Kingdom) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Securities, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Securities, are uncertain and may be subject to change. If withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Securities characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or before the relevant grandfathering date would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date. The grandfathering date for (A) Securities that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are published, and (B) Securities that give rise to a dividend equivalent pursuant to Section 871(m) of the Code and the U.S. Treasury regulations promulgated thereunder, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If additional securities that are not distinguishable from such previously issued grandfathered Securities are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Securities, including the Securities offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Securities. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Securities, no person will be required to pay additional amounts as a result of the withholding.

U.S. DIVIDEND EQUIVALENT WITHHOLDING

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the Code which treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). The final U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the **Section 871(m) Regulations**) require withholding on certain non-U.S. holders of the Securities with respect to amounts treated as attributable to dividends from certain U.S. securities. Under the Section 871(m) Regulations, only a Security that has an expected economic return sufficiently similar to that of the underlying U.S. security based on tests set forth in the Section 871(m) Regulations will be subject to the Section 871(m) withholding regime (making such Security a **Specified Security**). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Security or upon the date of maturity, lapse or other disposition by the non-U.S. holder of the Specified Security. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Security, withholding generally will still be required even if the Specified Security does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Securities in respect of any dividend equivalent arising with respect to such Securities regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the IRS. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified Securities issued on or after 1 January 2017. If the terms of a Security are subject to a "significant modification" (as defined for U.S. tax purposes), the Security generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Security is a Specified Security. Similarly, if additional Securities of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Securities out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Securities are Specified Securities as the date of such subsequent sale or issuance. Consequently, a previously out of scope Security might be treated as a Specified Security following such modification or further issuance.

In addition, with respect to Securities that provide for net dividend reinvestment in respect of either an underlying U.S. security or an index that includes U.S. securities, all payments on the Securities that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent.. In calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The applicable Final Terms or Pricing Supplement will indicate whether the Issuer has determined that Securities are Specified Securities and may specify contact details for obtaining additional information regarding the application of Section 871(m) to Securities. If Securities are Specified Securities, a non-U.S. holder of the Securities should expect to be subject to withholding in respect of any dividend-paying U.S. securities underlying those Securities. The Issuer's determination is binding on non-U.S. holders of the Securities, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to the Securities linked to U.S. securities and their application to a specific issue of Securities may be uncertain. In addition, investors that enter, or have entered, into other transactions in respect of an underlying reference asset that is a U.S. equity (or index that includes U.S. equities) could be subject to U.S. withholding tax if the investment in the relevant Notes and the other transactions combined replicate the economics of a transaction that would be subject to withholding tax under the Section 871(m) Regulations. Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Securities.

UNITED KINGDOM TAXATION

The following applies only to persons who are the beneficial owners of Securities and is a summary of the Issuer's understanding of current United Kingdom tax law (as applied in England) and published HM Revenue & Customs' (HMRC) practice in the United Kingdom relating only to the United Kingdom withholding tax treatment of payments in respect of the Securities and to whether the issue, transfer, redemption, exercise or settlement of a Security could be subject to United Kingdom stamp duty or stamp duty reserve tax. It does not deal with any other United Kingdom taxation implications of acquiring, holding, exercising, disposing or the settlement or redemption of the Securities. The United Kingdom tax treatment of prospective Securityholders depends on their individual circumstances and may be subject to change in the future. Prospective Securityholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Withholding taxes

United Kingdom withholding taxes can apply to a number of different types of payments. Those which could be relevant to securities such as the Securities include: interest, annual payments and manufactured payments.

Payments of interest on the Securities

Whether or not payments or any part of any payment on a Security will constitute "interest" for the purposes of UK tax law will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which amounts payable on the Securities are calculated.

- (a) The Issuer will be entitled to make payments of interest on the Securities without withholding or deduction for or on account of United Kingdom income tax, provided that:
 - (i) it is and continues to be a bank for the purposes of section 991 of the Income Tax Act 2007 (**ITA 2007**); and
 - (ii) the interest on the Securities is and continues to be paid in the ordinary course of its business within the meaning of section 878 of the ITA 2007.
- (b) Payments of interest on the Securities may be made without deduction of or withholding on account of United Kingdom income tax provided that the Securities carry a right to interest and are and continue to be listed on a "recognised stock exchange" within the meaning of section 1005 of the ITA 2007.
 - (i) The Luxembourg Stock Exchange is a recognised stock exchange. The Securities will satisfy this requirement if they are officially listed in Luxembourg in accordance with provisions

corresponding to those generally applicable in EEA states and are admitted to trading on the Luxembourg Stock Exchange.

- (ii) Euronext Dublin is a recognised stock exchange. The Securities will satisfy this requirement if they are officially listed in Ireland in accordance with the provisions corresponding to those generally applicable in EEA states and are admitted to trading on Euronext Dublin.

Provided, therefore, that the Securities carry a right to interest and are and remain so listed on a "recognised stock exchange", interest on the Securities will be payable without withholding or deduction on account of United Kingdom tax whether or not the Issuer is a bank and whether or not the interest is paid in the ordinary course of its business.

- (c) Interest on the Securities may also be paid without withholding or deduction on account of United Kingdom tax where the maturity of the Securities is less than 365 days and those Securities do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Securities that has a United Kingdom source on account of United Kingdom income tax (currently at the rate of 20 per cent. and increasing to 22 per cent. from April 2027) subject to any other available exemptions or reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HMRC can issue a notice to the Issuer to pay interest to the Securityholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Annual Payments

If a periodic payment on a Security were not "interest", and not repayment of principal, then such payment could constitute an "annual payment". Whether or not any periodic payment were to constitute an "annual payment" for these purposes will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which it is calculated. However, if in relation to a Security the Issuer is only required to make a single payment to its holders following redemption or exercise, and there are no amounts due by way of interest, Additional Amounts or other periodic payment on that Security, payments should not generally constitute "annual payments".

An amount must generally be withheld from "annual payments" on Securities that have a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20 per cent.). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HMRC can issue a notice to the Issuer to make payments on the Securities to the Securityholder without deduction of tax (or for the relevant amounts to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Manufactured Payments

Payments on the Securities should not constitute "manufactured payments" subject to any deduction of or withholding on account of United Kingdom income tax unless:

- (i) the Securities will or may settle by way of physical delivery;
- (ii) the assets which will or may be delivered are shares issued by a "company UK REIT" or the "principal company" of a "group UK REIT" (all bearing the same meaning as in section 918 of the ITA 2007) or securities (other than shares) issued by the United Kingdom government, a local or other public authority in the United Kingdom or any other United Kingdom resident body; and

- (iii) the payments are representative of dividends on those shares, or interest paid on those securities (as the case may be).

If such a "manufactured payment" were paid by the Issuer then the Issuer may (subject to reliefs and exemptions) be required to make a deduction of or withholding on account of United Kingdom income tax from such payment on account of United Kingdom income tax (currently at the rate of 20 per cent. and increasing to 22 per cent. from April 2027). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HMRC may be able to issue a notice to the Issuer to make the "manufactured payment" to the Securityholder without deduction of tax (or for the relevant amount to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Payments where the W&C Securities constitute derivative contracts

The Issuer should not be required to withhold or deduct sums for or on account of United Kingdom income tax from payments made on the exercise of W&C Securities which are derivative contracts, the profits and losses arising from which are calculated in accordance with the provisions of Part 7 of the Corporation Tax Act 2009.

Stamp duty and stamp duty reserve tax (SDRT)

A charge to stamp duty or SDRT may, in certain circumstances, arise on the issue, transfer, exercise, redemption and/or settlement of Securities and SDRT may also be payable in relation to any agreement to transfer Securities. This will depend upon the Terms and Conditions of the relevant Securities (as completed and, in the case of Exempt Securities, amended and supplemented by the applicable Final Terms). Securityholders should take their own advice from an appropriately qualified professional advisor in this regard.

In July 2026, the UK government published draft legislation which, if implemented, will with effect from a date in 2027 yet to be specified, abolish stamp duty and SDRT and introduce a new single securities transfer tax (STT) in their place. The reforms are intended to simplify the existing regimes and bring the UK's securities transfer taxes into a single digital, self-assessed regime, retaining the scope, reliefs and exemptions currently in existence. Prospective Securityholders should be aware that, if enacted, the STT (rather than stamp duty or SDRT) may apply to the issue, transfer, exercise, redemption and/or settlement of Securities, and to any agreement to transfer Securities, occurring on or after the date on which the STT takes effect.

IRISH TAXATION

The following is a summary of the Irish withholding tax treatment of the Securities. The following applies only to persons who are the beneficial owners of Securities. This summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities. It does not deal with the Irish taxation implications of acquiring, holding, exercising or disposing of the Securities. The summary is based upon the laws of Ireland in effect and the published practices of the Revenue Commissioners of Ireland, in each case at the date of this Base Prospectus. The Irish tax treatment of prospective investors depends on their individual circumstances and may be subject to change in the future. Prospective investors in the Securities should consult their own advisers as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the Securities including, in particular, the effect of any state or local law taxes, if applicable.

Withholding Tax

The Issuer is not incorporated in Ireland. Therefore, on the basis that the Issuer is not managed and controlled in Ireland, the Issuer is not resident in Ireland for the purposes of Irish tax. The Issuer will not be deemed to be resident or otherwise taxable in Ireland by virtue only of the fact that the Securities are offered to the public in Ireland.

Irish withholding tax applies to certain payments, including payments of:

- (i) Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
- (ii) Irish source annual payments (annual payments are payments that are pure income-profit in the hands of the recipient); and
- (iii) distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax.

Where applicable, Irish withholding tax applies to Irish source yearly interest and Irish source annual payments at the standard rate of Irish income tax (currently 20 per cent.). Where applicable, Irish dividend withholding tax applies to distributions at a rate of 25 per cent.

On the basis that the Issuer is not resident in Ireland for the purposes of Irish tax, nor does the Issuer operate in Ireland through a branch or agency with which the issue of the Securities is connected, for as long as the Securities are not held in Ireland through a depository or otherwise located in Ireland, then to the extent that payments of interest or annual payments arise on the Securities, such payments should not be regarded as payments having an Irish source for the purposes of Irish taxation.

Separately, for so long as the Securities are listed on a recognised stock exchange such as the Irish Stock Exchange, the Securities will constitute "quoted Eurobonds" for Irish tax purposes. Pursuant to the provisions of section 64 of the Taxes Consolidation Act 1997 of Ireland as amended (the "Taxes Act"), no withholding for or on account of Irish income tax will be required to be made from interest arising on quoted Eurobonds provided they meet the following criteria:

- (a) they are held in a clearing system that is a recognised clearing system within the meaning of section 246A of the Taxes Act (Euroclear and Clearstream Luxembourg are so recognised);
- (b) the interest is paid by or through a person who is not in Ireland; or
- (c) the beneficial owner of the Securities is not resident in Ireland and has made all necessary declarations in the prescribed form.

As the Securities should constitute "quoted Eurobonds" and meet the above criteria, generally there should be no requirement to withhold Irish tax from payments of yearly interest made in respect of the Securities, even if otherwise within the charge to Irish tax.

On the basis that the Issuer is not resident in Ireland for the purposes of Irish tax, the Issuer would not be required to withhold Irish tax on distributions made in respect of the Securities. On the basis that the Securities are issued on arm's length terms, then payments on the Securities should not be regarded as annual payments for Irish tax purposes.

Accordingly, the Issuer should not be obliged to deduct any amounts on account of these Irish withholding taxes from payments made in connection with the Securities.

Separately, as long as the Securities are quoted on a stock exchange, a purchaser of the Securities should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Securities.

Encashment Tax

Interest or distributions on any Securities issued by the Issuer and paid:

- (i) by a paying agent in Ireland; or

- (ii) to an agent in Ireland on behalf of a person who holds the Securities,

will generally be subject to Irish withholding tax at a prescribed rate of 25 per cent. This is unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Securities entitled to the interest or distribution is not resident in Ireland for Irish tax purposes, and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland for Irish tax purposes. In addition, an exemption applies where the payment is made to a company where that company is beneficially entitled to that income and is or will be within the charge to corporation tax in respect of that income.

Capital Gains Tax

Provided the Securities are listed on a stock exchange, or the Securities do not derive their value, or the greater part of their value from certain Irish land or mineral rights, then a holder of Securities will not be subject to Irish tax on capital gains provided that such holder of Securities is neither resident nor ordinarily resident in Ireland and such holder of Securities does not have an enterprise, or an interest in an enterprise, which carries on business in Ireland through a branch or agency, or a permanent establishment, to which or to whom the Securities are attributable.

Capital Acquisitions Tax

If the Securities are comprised in a gift or inheritance taken from an Irish resident or ordinarily resident disponent or if the disponent's successor is resident or ordinarily resident in Ireland, or if any of the Securities are regarded as property situated in Ireland, the disponent's successor may be liable to Irish capital acquisitions tax. In the case of registered Securities as these Securities will be registered in Ireland through the Irish incorporated Registrar, such Securities will be regarded as Irish situate property for the purposes of Irish capital acquisitions tax.

Accordingly, if such Securities are comprised in a gift or inheritance, the disponent's successor may be liable to Irish capital acquisitions tax, even though the disponent may not be domiciled in Ireland. For the purposes of capital acquisitions tax it is important to note that a non-domiciled person shall not be treated as resident or ordinarily resident in Ireland except where that person has been resident in Ireland for five consecutive years of assessment immediately preceding the year of assessment in which the date of the gift or inheritance falls.

Stamp Duty

Where the principal register of Securities is maintained in Ireland, such Securities may be regarded as Irish property for the purposes of Irish stamp duty. No Irish stamp duty is payable on the issue of such Securities.

No stamp duty is payable on the transfer of such Securities by delivery.

In the event of written transfer of such Securities, no Irish stamp duty is chargeable provided that the Securities:

- (i) do not carry a right of conversion into stocks or marketable securities (other than loan capital) of a company having a register in Ireland or into loan capital having such a right;
- (ii) do not carry rights of the same kind as shares in the capital of a company, including rights such as voting rights, a share in the profits or a share in the surplus upon liquidation;
- (iii) are issued for a price which is not less than 90 per cent. of their nominal value (thus certain Securities issued at a discount may not qualify for this exemption); and

- (iv) do not carry a right to a sum in respect of repayment or interest which is related to certain movements in an index or indices (based wholly or partly and directly or indirectly on stocks or marketable securities) specified in any instrument or other document relating to the Securities.

Where the above exemptions or another exemption does not apply, the instrument of transfer may be liable to Irish stamp duty at the rate of one per cent. of the consideration paid in respect of the transfer of such Securities (or if greater, the market value of the Securities transferring). The stamp duty must be paid in euro by the transferee (assuming an arm's length transfer) within 30 days of the date on which the transfer instrument is executed.

LUXEMBOURG TAXATION

The following information is of a general nature only and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject. Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Withholding Tax

Non-resident holders of Securities

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident holders of Securities.

Resident holders of Securities

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the **Law**), there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Securities held by Luxembourg resident holders of Securities.

Under the Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest or similar income under the Securities coming within the scope of the Law will be subject to withholding tax at a rate of 20 per cent.

OFFERING AND SALE

The following section applies to both Exempt Securities and Non-Exempt Securities.

The Dealers, as applicable, have entered into an amended and restated Programme Agreement, dated on or about 24 September 2026 (as the same may be amended or supplemented, from time to time, in accordance with the terms thereof, the **Programme Agreement**), with the Issuer, the Guarantors and the NIP Guarantor, which sets forth a basis upon which they may from time to time agree to purchase the Securities. In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the issue of Securities under the Programme. In addition, the Issuer may, from time to time, issue Securities to parties other than a Dealer, on terms as it may agree from time to time.

In order to facilitate the offering of any Tranche of the Securities, certain persons participating in the offering of the Tranche may engage in transactions that stabilise, maintain or otherwise affect the market price of the relevant Securities during and after the offering of the Tranche. Specifically such persons may over-allot or create a short position in the Securities for their own account by selling more Securities than have been sold to them by the Issuer. Such persons may also elect to cover any such short position by purchasing Securities in the open market. In addition, such persons may stabilise or maintain the price of the Securities by bidding for or purchasing Securities in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering of the Securities are reclaimed if Securities previously distributed in the offering are repurchased in connection with stabilisation transactions or otherwise. The effect of these transactions may be to stabilise or maintain the market price of the Securities at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the Securities to the extent that it discourages resales thereof. No representation is made as to the magnitude or effect of any such stabilising or other transactions. Such transactions, if commenced, may be discontinued at any time. Under UK laws and regulations stabilising activities may only be carried on by the Stabilising Manager named in the applicable Final Terms (or persons acting on its behalf) and only for a limited period following the Issue Date of the relevant Tranche of Securities.

No action has been or will be taken by the Issuer and the Guarantors that would permit a public offering of any Securities or possession or distribution of any offering material in relation to any Securities in any jurisdiction where action for that purpose is required. No offers, sales, re-sales or deliveries of any Securities, or distribution of any offering material relating to any Securities, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuer and the Guarantors. **In particular, each of the following restrictions will apply to Securities offered under the Programme. These restrictions are stated in some cases as restrictions agreed between the Issuer and the relevant Dealer. Notwithstanding this all such restrictions below apply directly to any dealing or transaction in Securities and all Security holders and potential Security holders or others transacting in or taking any action in relation to the Securities must comply with all such restrictions.**

Selling Restrictions

UNITED STATES

None of the Securities of any series, the related Guarantee (in the case of Guaranteed Securities), nor any Entitlements (if any) have been or will be registered under the Securities Act or under the securities laws of any state or other jurisdiction of the United States. None of the Securities, the related Guarantee (in the case of Guaranteed Securities), nor any Entitlements (if any) have or will constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the United States Commodity Exchange Act of 1936, as amended (the **CEA**), and trading in the Securities, the related Guarantee (in the case of the Guaranteed Securities), and any Entitlements (if any) has not been approved or disapproved by the U.S. Commodity Futures Trading Commission (the **CFTC**) pursuant to the CEA. In addition, certain Securities (including, but not limited to, Permanent Global W&C Securities) may not at any time be offered, sold, transferred, pledged, delivered or exercised or redeemed, directly or indirectly, in the United States or to, or for the account or benefit of, or by, any U.S. person.

In the event that a series of Securities is so eligible for sale in the United States or to U.S. persons, any sale or transfer restrictions or certification requirements applicable to such Securities in addition to those set out in the applicable Conditions will be set out in the applicable Final Terms. Offers, sales, resales or deliveries of Securities of any series, or interests therein, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. persons would constitute a violation of United States securities laws unless made in compliance with the registration requirements of the Securities Act and any applicable state securities laws or pursuant to an exemption therefrom. Terms used in this paragraph and the preceding paragraph and not otherwise defined have the meanings given to them by Regulation S. The term "U.S. person" has the meaning given to it by Regulation S under the Securities Act, as amended, the term "United States person" has the meaning given to it by the United States Internal Revenue Code of 1986, as amended and the United States Treasury regulations promulgated thereunder and the term "U.S. Person" means any person who is (i) a "U.S. person" as defined in Regulation S, (ii) a person other than a "Non-United States person" as defined in Rule 4.7 under the CEA, (iii) a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the CFTC, or the final rule relating to Cross-Border Application of the Registration Thresholds and Certain Requirements Applicable to Swap Dealers and Major Swap Participants promulgated by the CFTC, in each case as amended, modified or supplemented from time to time, pursuant to the CEA, (iv) any other "U.S. person" as such term may be defined in Regulation S or in regulations or guidance adopted under the CEA, or (v) a "United States person" as defined in the United States Internal Revenue Code of 1986, as amended and the United States Treasury regulations promulgated thereunder, in each case, as such definition may be amended, modified or supplemented from time to time.

Securities in bearer form that are treated as debt for U.S. federal tax purposes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain circumstances permitted by U.S. Treasury regulations. The applicable Final Terms will specify whether the provisions of U.S. Treas. Reg. Section 1.163-5(c)(2)(i)(C) (or any successor U.S. Treasury regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (**TEFRA C**), the provisions of U.S. Treas. Reg. Section 1.163-5(c)(2)(i)(D) (or any successor U.S. Treasury regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (**TEFRA D**), or neither the provisions of TEFRA C nor TEFRA D (**TEFRA not applicable**) will apply to the issuance of Securities. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder. Further information is set out in the Programme Agreement.

In connection with any Securities which are offered or sold in offshore transactions for the account or benefit of non-U.S. persons (or for the account or benefit of non-U.S. Persons in the case of certain Securities (including, but not limited to, Permanent Global W&C Securities) that may not at any time be offered, sold, transferred, pledged, delivered or exercised or redeemed, directly or indirectly, in the United States or to, or for the account or benefit of, or by, any U.S. Person) outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulation S (**Regulation S Securities**) and any applicable state securities laws, each Dealer has represented and agreed that, and each

further Dealer appointed under the Programme will be required to represent and agree that, except as permitted by the Programme Agreement, it will not offer, sell or deliver the Regulation S Securities within the United States or to, or for the account or benefit of, U.S. persons. In the case of certain Securities that may not at any time be offered, sold, transferred, pledged, delivered or exercised or redeemed, directly or indirectly, in the United States or to, or for the account or benefit of, or by, any U.S. Person, each Dealer has represented and agreed that, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver such Securities within the United States or to, or for the account or benefit of, U.S. Persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will have sent to any other Dealer to which it sells any Regulation S Securities a confirmation or other notice setting forth the restrictions on offers and sales of the Regulation S Securities within the United States or to, or for the account or benefit of, U.S. persons. In the case of certain Securities that may not at any time be offered, sold, transferred, pledged, delivered or exercised or redeemed, directly or indirectly, in the United States or to, or for the account or benefit of, or by, any U.S. Person, each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will have sent to any other Dealer to which it sells any such Securities a confirmation or other notice setting forth the restrictions on offers and sales of such Securities within the United States or to, or for the account or benefit of, U.S. Persons. Unless otherwise defined herein, terms used in this paragraph have the meanings given to them by Regulation S.

An offer or sale of such Regulation S Securities within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Any person purchasing Regulation S Securities shall be deemed to have agreed with the Issuer or the seller of such Securities that (i) it will not at any time offer, sell, resell or deliver, directly or indirectly, any Securities of such series so purchased in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person and (ii) it is not purchasing any Securities of such series for the account or benefit of any U.S. person.

Any person purchasing Securities of a series eligible for sale (a) in the United States to a QIB that is also a QP or (b) to any U.S. person who is a QIB and also a QP and, in each case, who agrees to purchase the Securities for its own account or for the accounts of one or more other persons each of whom is a QIB that is a QP and not with a view to the distribution thereof and (unless otherwise provided in the applicable Final Terms) provides an Investor Representation Letter substantially in the form set out in the Agency Agreement shall be deemed to have agreed with the Issuer that any resales of such Securities to, or for the account or benefit of, a U.S. person may be effected only to a QIB that is also a QP that has executed an Investor Representation Letter. See "*Notice to Purchasers and Holders of Securities and Transfer Restrictions*" on pages 1329 to 1337.

Each issuance of Exempt Securities shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Securities, which additional selling restrictions shall be set out in the applicable Final Terms. Each Dealer has agreed that it shall offer, sell and deliver such Securities only in compliance with such additional U.S. selling restrictions.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS

If the applicable Final Terms or Pricing Supplement (as applicable) in respect of the Securities specifies "Prohibition of Sales to EEA Retail Investors" as "Applicable" and neither an EEA Retail Compliant Sales Period nor an EEA Retail Offer Jurisdiction is specified in the applicable Final Terms or Pricing Supplement, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by the Base Prospectus as completed by the applicable Final Terms or Pricing Supplement in relation thereto to any retail

investor in the EEA. To the extent that "Prohibition of Sales to EEA Retail Investors" is specified as "Applicable" and an EEA Retail Compliant Sales Period or any EEA Retail Offer Jurisdiction is specified in the applicable Final Terms or Pricing Supplement, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by the Base Prospectus as completed by the applicable Final Terms or Pricing Supplement in relation thereto to any retail investor in the EEA, other than in an EEA Retail Offer Jurisdiction and during the specified EEA Retail Compliant Sales Period, if any.

For the purposes of this provision:

- (a) the expression **retail investor** means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97 (the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Regulation; and
- (b) the expression an **offer** includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities.

If the applicable Final Terms or Pricing Supplement specifies "Prohibition of Sales to EEA Retail Investors" as (i) "Not Applicable" or (ii) "Applicable" but an EEA Retail Compliant Sales Period or an EEA Retail Offer Jurisdiction is specified in the applicable Final Terms or Pricing Supplement, in relation to each Member State of the EEA, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Member State except that it may, where applicable, subject to the restrictions above relating to offering, selling or otherwise making available the Securities to retail investors in the EEA, make an offer of such Securities to the public in that Member State:

- (a) if the final terms in relation to the Securities specify that an offer of those Securities may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Member State (a **Non-Exempt Offer**), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-Exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-Exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision:

- the expression an **offer of Securities to the public** in relation to any Securities in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities; and
- the expression **Prospectus Regulation** means Regulation (EU) 2017/1129.

UNITED KINGDOM

Prohibition of sales to UK Retail Investors

If the applicable Final Terms or Pricing Supplement (as applicable) in respect of the Securities specifies "Prohibition of Sales to UK Retail Investors" as "Applicable" and a UK Retail Compliant Sales Period is not specified in the applicable Final Terms or Pricing Supplement, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold, distributed or otherwise made available and will not offer, sell, distribute or otherwise make available any Securities which are the subject of this Base Prospectus as completed by the applicable Final Terms or Pricing Supplement in relation thereto to any retail investor in the UK. ARGENTINA

The Securities have not been and will not be authorised by the Argentine Securities Commission (the CNV) for public offer in Argentina and therefore may not be offered or sold to the public at large or to sectors or specific groups thereof, in circumstances which constitute a public offering of securities under Argentine Law No. 26,831, as amended (the Argentine Capital Markets Law).

Nonetheless, on September 18, 2024, the CNV issued General Resolution 1016/2024 (the Resolution) regulating the private placement of securities. In particular, the CNV introduced key safe harbours for (i) private placements; and (ii) offshore offerings without sufficient points of contact with Argentina.

Permitted Offerees

Safe Harbor for private placement of securities addressed to a limited group of investors

According to the Resolution, any securities offering (including, without limitation, notes, warrants and certificates) qualifies as a private placement under this safe harbor, when it meets the following conditions:

- (i) The offer is made by the issuer of the securities (who may not be an Argentine resident, such as the Issuer) or by an authorized representative; or in a secondary market by the person who has acquired them, without acting on behalf of the issuer, in which case such person will have the obligations provided for the issuer in the Resolution.
- (ii) Any security may be offered (including, without limitation, notes, warrants and certificates), provided that a) it is not authorized for public offering under the terms of the Argentine Capital Markets Law or under Law No. 24,083 (the Mutual Funds Law); and b) existing regulations do not require a public offering.
- (iii) The number of purchasers and potential investors receiving the offering is limited, among other considerations, as follows:
 - (i) Offers to a maximum of 35 qualified investors (as defined in Article 12, Section I, Chapter VI, of Title II of the CNV Rules), and 15 non-qualified investors.
 - (ii) The transaction is executed with a maximum of 35 investors, where no more than 10 can be non-qualified investors. The entity executing the sale is solely responsible of verifying if the investor is considered qualified or not, and the compliance with the maximum quantity of investors.
- (iv) Agents registered before the CNV, involved in the offer, cannot make public offerings of the securities.
- (v) The price and quantity of the securities acquired by the investors must be freely determined by the offeror, without any limitation whatsoever.

Additionally, dissemination must occur solely via authorized means, including without limitation:

- (i) In-person or virtual promotional meetings with up to 35 potential investors (adhering to the specified limits for each category of investor), excluding registered agents who may participate in the meetings without limitation.
- (ii) Delivery of security-related documents to an authorized agent.
- (iii) Delivery of documents upon request of a potential investor, specific to a security.
- (iv) Personalized invitations to trade in securities delivered by email, phone, instant messaging, among others.

Moreover, upon request, at the moment of acquiring securities or earlier, issuers must provide investors with, among other information, the following:

- (i) Relevant information about the offer.

- (ii) Clarification if the issuer operates under a public offering framework.

Furthermore, securities acquired by means of this private placement structure cannot be transferred to qualified investors within three months, or to non-qualified investors within the six months following the end of the subscription period, or from their acquisition date if it is not a primary placement. This limitation shall not apply when transferring outside Argentina and shall be informed by the offeror in any sales documentation.

Lastly, offerors must also inform in any sales documentation, or in a written notice, which must be subscribed by the investor, if the issuer is under the public offer regulations and that the offer pertains a private placement, it is not supervised by the CNV, and it is exempt from its informational and audit regulations.

Safe Harbor for securities offered to employees

The Resolution also covers private offerings of securities addressed to employees. As a general rule, private offerings of securities to employees, must be made as part of a retention or employment incentive plan and shall be directed solely to eligible persons, using means that limit access to those outside that category.

Lastly, securities or rights acquired under a private placement executed as part of a retention or work incentive plan cannot be transferred for six months after the subscription period. This does not apply when the transfer is carried out outside Argentina, except to the offeror under a retention or work incentive plan. This limitation is independent of any limitation the employee may have in the applicable plan.

Safe Harbor for securities offers without sufficient contact with Argentina

To qualify as an offering of securities without sufficient contact with Argentina, the security offer must be made by individuals residing in foreign countries. No Argentine resident may participate as offerors, nor as the issuer of the securities.

There is no established limitation on the number of securities offered, nor on potential investors, prices, or total acquisition value.

With regards to marketing methods of dissemination, the offering shall not be made through any of the following means: (i) website advertising directed to Argentine residents, (ii) advertising or marketing in national print or digital media, or in international media circulating in Argentina when the advertising is clearly directed at Argentine residents, or (iii) promotional meetings with Argentine residents in Argentina. Meetings held in Argentina with potential investors that are Argentine residents are prohibited.

Non-compliance with safe harbor provisions

It is relevant to highlight that any offer that does not comply with the specified requirements will not be automatically deemed as an irregular offering, nor will it necessarily incur sanctions. Instead, each case will be assessed individually to determine whether it qualifies as a private or offshore offering, even if it does not fully comply with the safe harbor provisions. Conversely, if the established conditions are met, it will be certain that an irregular public offering is not taking place, and no crimes are being committed.

In the event of non-compliance with any of the requirements established in the Resolution, the offeror will be excluded from the benefits of the safe harbor under the Private Offering regime for a period of 2 (two) years, counted from the occurrence of the non-compliance or from the date it became known to the CNV, whichever occurs later. This exclusion shall not affect other issuances previously made by the offeror in compliance with these regimes, which will continue to enjoy the benefits of the safe harbor.

Argentine Foreign Exchange considerations

The investment in the Securities from Argentina has to comply with applicable Argentine foreign exchange regulations in place. Any potential investor intending to invest in the Securities from Argentina shall request, before deciding on such investment, legal advice to ensure that the investment in the Securities is in compliance with applicable Argentine foreign exchange regulations.
